INDEPENDENT AUDITOR'S REPORT

To the Most Reverend Gregory M. Aymond,
Archbishop of the Roman Catholic Church of
The Archdiocese of New Orleans,
New Orleans, Louisiana.

Report on the Financial Statements

We have audited the accompanying financial statements of the Roman Catholic Church of the Archdiocese of New Orleans Administrative Offices (the "Administrative Offices"), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Administrative Offices as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules (Schedules 1 through 5) are presented for purposes of additional analysis and are not a required part of the financial statements of the Administrative Offices. The accompanying schedule of expenditures of federal award as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is also not a required part of the financial statements. The Schedule of Compensation, Benefits, and Other Payments to Agency Head or Chief Executive Officer (Schedule 6) is presented for purposes of additional analysis and is required by Louisiana Revised Statute 24:513(A)(3) and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2015, on our consideration of the Administrative Offices' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Administrative Offices' internal control over financial reporting and compliance.

Certified Public Accountants.

Bourgeois Bennett, L.L.C.

NOTES TO FINANCIAL STATEMENTS

Roman Catholic Church of the Archdiocese of New Orleans Administrative Offices

June 30, 2015 and 2014

Note 1 - ORGANIZATION

The accompanying financial statements of the Roman Catholic Church of the Archdiocese of New Orleans Administrative Offices (the "Administrative Offices") include the assets, liabilities, net assets, and the financial activities of all administrative and program offices and departments maintained and directed by the administrative offices of the Roman Catholic Church of the Archdiocese of New Orleans, a Louisiana corporation (the "Archdiocese"), and also include certain assets which are owned by the Archdiocese and are used in the operations of certain non-combined affiliated entities. The purpose of the Administrative Offices is to provide support and services to the various church parishes and other related agencies within the Archdiocese. Operating support is derived primarily from assessments received from affiliated entities, contributions and bequests, interest on loans to church parishes, and investment earnings. The activities of the Administrative Offices also include:

- the operation of the Deposit and Loan Fund, which provides savings and loan services to the parishes;
- the administration of a centralized property and casualty insurance program;
- the investment of endowment funds; and
- the administration and funding of health care, auto insurance, and retirement costs for priests of the Archdiocese.

The activities of church parishes, schools, cemeteries, seminaries, nursing homes, charitable institutions, and other distinct operating entities, which operate within the Archdiocese ("non-combined affiliated entities") have not been included in the accompanying financial statements.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The financial statements of the Administrative Offices have been prepared in accordance with accounting principles generally accepted in the United States of America.

b. Basis of Presentation

The Administrative Offices reports information regarding its financial position and activities according to three classes of net assets:

Unrestricted Net Assets - Those net assets whose use is not restricted by donors.

Temporarily Restricted Net Assets - Those net assets whose use by the Administrative Offices has been limited by donors (a) to later periods of time or after specified dates or (b) to specific purposes.

Permanently Restricted Net Assets - Those net assets that must be maintained in perpetuity due to donor-imposed restrictions that will neither expire with the passage of time nor be removed by meeting certain requirements. Income earned on these investments may be restricted for specific purposes.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Of particular significance to the Administrative Offices' financial statements are estimates related to pension assumptions, the allowance for doubtful loans receivable, and the accrued liability for self-insured claims. Actual results could differ from those estimates.

d. Cash and Cash Equivalents

For the purpose of the Statements of Cash Flows, cash equivalents is defined to include highly liquid short-term investments, including money market account deposits, commercial paper investments, and certificates of deposit purchased with an original maturity of 90 days or less, unless held in the investment portfolios.

e. Accounts and Loans Receivable

The accounts and loans receivable include advances made to church parishes and diocesan-related organizations, as a result of a cooperative lending program established by the Administrative Offices for the mutual benefit of participants. The determination of the terms of repayment and interest charges is made by the Administrative Offices on an individual case basis. Since most of the accounts and loans receivable consist of large amounts due from a limited number of related organizations, the determination of the collectability of these receivables is also made by management on an individual case basis, using prior collection histories and current economic factors as judgment criteria.

f. Allowance for Doubtful Receivables

The Administrative Offices establishes an allowance for uncollectible loans receivable based on management's evaluation of the collectability of outstanding loans receivable.

g. Pledges Receivable

Unconditional promises to give are recognized as revenue or gains and as assets in the period in which the promise is made, and are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met. Allowances for uncollectible promises to give, if any, are based on management's evaluation of the collectability of such amounts.

h. Investments

Investments are valued at their fair values in the Statements of Financial Position. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 16 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Unrealized gains and losses on investments recorded at fair value are included in the Statements of Activities as increases or decreases in unrestricted net assets, unless their use is temporarily or permanently restricted by explicit donor stipulations or by law.

Investments are managed to achieve the maximum long-term total return. A spending rate approach is used to allocate a defined percentage of investment return for operating purposes each year, with the remainder of investment income reinvested and reported as non-operating income. A spending rate of approximately 5% of the market value of the Administrative Offices' pooled investments (excluding funds held for others) as of the beginning of each fiscal year was used during each of the fiscal years ended June 30, 2015 and 2014.

Investments consist of the following:

- Investments over which the Archdiocese retains control and may use at its own discretion subject to donor restrictions, if any;
- Investments restricted for debt service, which are those funds set aside to pay related debt service costs;
- Funds held for others, which funds are owned by affiliated entities that are held in a custodial capacity and invested in a centralized investment pool of assets.

i. Land, Buildings, and Equipment

Land, buildings, and equipment are recorded at cost or, when donated, at fair value. Additions and major improvements are capitalized, while expenditures for maintenance and repairs are expensed as incurred.

Depreciation on buildings, improvements, and equipment is calculated using the straight-line method over the estimated useful lives, as follows:

Furniture and fixtures 5 years
Transportation equipment 5 years
Buildings and improvements 40 years

j. Impairment of Long-Lived Assets

The Administrative Offices reviews its long-lived assets, consisting of buildings and equipment, for impairment and determines whether an event or change in facts and circumstances indicates that their carrying amount may not be recoverable. The Administrative Offices determines recoverability of the assets by comparing the carrying value of the asset to the net future undiscounted cash flows that the asset is expected to generate or to fair value. The impairment recognized is the amount by which the carrying amount exceeds the fair value of the asset. During the years ended June 30, 2015 and 2014, no asset impairments were recorded.

k. Historical Treasures

Included in other assets is a donation of historical documents (Garrison St. Lazarus) that does not meet the definition of a collection. This asset was recorded at fair value at the time of donation.

I. Deposits Payable to Affiliates

Entities affiliated with the Archdiocese are encouraged to deposit funds not required for short-term operating needs with the Administrative Offices. Such deposits are used to fund loans and make other investments. Market rates of interest are paid on such deposits. Such interest rates are adjusted annually based on changes in the 90-day U.S. Treasury bill rate.

m. Funds Held for Affiliates

The Administrative Offices acts as a custodian for funds owned by affiliated entities to provide centralized investment of pooled assets. Earnings on these investments are allocated monthly.

n. Amortization of Bond Issue Costs

Included in other assets are bond issue costs of approximately \$3,104,000 as of June 30, 2015 and 2014, which are being amortized over the term of the related bond issue using a method that approximates the interest method. Accumulated amortization was approximately \$854,000 and \$750,000 as of June 30, 2015 and 2014, respectively.

o. Statements of Activities

Transactions deemed to be ongoing, major, or central to the operations of the Administrative Offices are reported as operating revenues and expenses. Peripheral or incidental transactions, when material, are reported as non-operating gains or losses, as are investment returns over and above the predetermined spending rate. Grants and donations received and distributed to affiliates and expenses incurred relating to Hurricane Katrina (see Note 3) are reported as non-operating activities.

Changes in unrestricted net assets that are excluded from excess of unrestricted revenues, gains, and other support over expenses include changes in the additional minimum pension liability.

p. Contributed Support

The Administrative Offices recognizes all contributed support received as income in the period received. Contributed support is reported as unrestricted or as restricted depending on the existence of donor stipulations that limit the use of the support.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions. Federal grant income received and expended in the same year is recorded as unrestricted revenue.

p. Contributed Support (Continued)

Long-lived assets acquired with gifts of cash restricted for those acquisitions are reported as unrestricted or as temporarily restricted depending on whether there is an explicit, donor-imposed time requirement as to how long the assets must be maintained. Long-lived assets are reported as permanently restricted only if the Administrative Offices must maintain the assets in perpetuity or if the donor explicitly restricted the proceeds from any future disposition of the assets to reinvestment in long-lived assets.

q. Functional Allocation of Expenses

The costs of providing various programs and other activities of the Administrative Offices have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

r. Income Taxes

The Archdiocese is exempt from federal income tax under the provisions of Section 501(c)(3) of the Internal Revenue Code.

Accounting standards provide detailed guidance for financial statement recognition, measurement, and disclosure of uncertain tax positions recognized in an entity's financial statements. It requires an entity to recognize the financial statement impact of a tax position when it is more likely than not that the position will not be sustained on examination. As of June 30, 2015 and 2014, management of the Administrative Offices believes that it has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

s. Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through December 2, 2015, which is the date the financial statements were available to be issued.

Note 3 - HURRICANE KATRINA AND RECOVERY

On August 29, 2005, Hurricane Katrina crossed the Louisiana coast causing catastrophic damage to many of the Archdiocese properties in the civil parishes of Orleans, Plaquemines, St. Bernard, Jefferson, and St. Tammany. As a result of the damage caused by Hurricane Katrina during fiscal 2006, the Archdiocese closed 6 church parishes and delayed the reopening of twenty-three church parishes, and eighteen schools. In addition, the Administrative Offices reduced non-clergy staff by approximately 30%.

The June 30, 2015 and 2014 financial statements reflect certain unusual items resulting from the effects of Hurricane Katrina on the operations of the Administrative Offices and certain non-combined affiliated entities. The 2015 and 2014 statements of activities reflect approximately \$43.6 million and \$43.3 million, respectively, of federal grant monies received and approximately \$34.9 million and \$26.0 million, respectively, of recovery-related expenses. The federal grant monies received in excess of recovery-related expenses totaling approximately \$8.8 million and \$17.5 million during the years ended June 30, 2015 and 2014, respectively, were spent on non-combined affiliated entity capital projects which were recorded as part of land, buildings, and equipment.

Cumulatively, through June 30, 2015, the Administrative Offices has received approximately \$237 million of federal grant monies related to Hurricane Katrina. Of this total, approximately \$47 was spent on non-combined affiliated entity capital projects which were recorded as part of land, buildings, and equipment. As of June 30, 2015, unrestricted net assets includes expenditures of federal grant monies of approximately \$45 million related to capital costs, net of accumulated depreciation. Remaining federal grant monies to be received as of June 30, 2015, totals approximately \$70 million.

Temporarily restricted net assets consisting of non-federal donations related to Hurricane Katrina Recovery totaled \$1,997,245 and \$2,000,177 as of June 30, 2015 and 2014, respectively.

Note 3 - HURRICANE KATRINA AND RECOVERY (Continued)

The Archdiocese, through the operations of the Administrative Offices, serves as a conduit in providing insurance coverage to its affiliates; including wind, flood, and business interruption (see Note 15). Actual affiliate insurance claims and proceeds received from insurance claims related to wind, flood, and business interruption resulting from Hurricane Katrina are not recorded in the operations of the Administrative Offices and are not included in the Statements of Activities herein. As of June 30, 2011, all insurance claims related to Hurricane Katrina were settled and the insurance proceeds were paid to the non-combined affiliated entities, except for \$248,041 of flood insurance proceeds, which was recognized as insurance revenue on the accompanying Statement of Activities for the year ended June 30, 2014.

Note 4 - LOANS RECEIVABLE FROM AFFILIATES

A summary of loans receivable from affiliates as of June 30, 2015 and 2014, is as follows:

Note 5 - INVESTMENTS

The Administrative Offices' investments are held in pooled assets and separately invested portfolios. Pooled assets represent funds that are invested in a commingled portfolio of investments, as opposed to the separately invested assets, which have segregated investments. Investments are recorded at fair value as of June 30, 2015 and 2014, and consist of the following:

Investment income is reported net of investment fees. Investment fees were approximately \$509,000 and \$475,000 for the years ended June 30, 2015 and 2014, respectively.

Note 6 - LAND, BUILDINGS, AND EQUIPMENT

Land, buildings, and equipment include certain properties, which are owned by the Archdiocese, but are used in the operations of certain non-combined affiliated entities. Additionally, included in land, buildings, and equipment is land held for future development by the Archdiocese, as detailed on following page.

Note 6 - LAND, BUILDINGS, AND EQUIPMENT (Continued)

The composition of land, buildings, and equipment and accumulated depreciation as of June 30, 2015 and 2014, is summarized as follows:

	2015	2014

Totals	\$ 76,247,124	\$ 67,002,472

As of June 30, 2014, non-combined affiliated entities' land, buildings and improvement cost included \$20,976,473 of construction in progress on a building to be used by Academy of Our Lady in Marrero, Louisiana. The building was placed in service in March 2015 at a total cost of \$29,732,336. The majority of the project cost was funded by a federal grant.

Note 6 - LAND, BUILDINGS, AND EQUIPMENT (Continued)

Depreciation expense for the years ended June 30, 2015 and 2014 was \$1,527,799 and \$1,292,746, respectively, and is reported in the statements of activities by functional category as follows:

	2015	2014
Program services Supporting services	\$ 260,591 1,267,208	\$ 256,610 1,036,136
Totals	\$ 1,527,799	\$ 1,292,746

Note 7 - BENEFICIAL INTEREST IN CHARITABLE REMAINDER TRUST

During the fiscal year ended June 30, 2001, the Administrative Offices received possession of a 20% interest in the assets of the Margaret Ellen Lauer Estate (the "Estate"). However, certain assets from the Estate were placed in a charitable remainder trust. The Administrative Offices' interest in this charitable remainder trust is, as follows:

	2015	2014
Contribution receivable Less discount to net present value	\$ 973,075 (569,645)	\$ 942,747 (314,502)
Beneficial interest in charitable remainder trust	\$ 403,430	\$ 628,245

Until the current year, present values were calculated using a discount rate of 5% and the applicable mortality tables pertinent to each trust beneficiary. During the current year, the Administrative Offices was informed that no distributions would be made until there are no trust beneficiaries remaining. Beginning in 2015, present value was calculated using a discount rate of 5% and the applicable mortality table pertinent to the youngest remaining trust beneficiary. The effect of this change in the present value calculation is recognized as part of changes in value of split-interest agreement on the accompanying statement of activities for the year ended June 30, 2015.

All amounts are considered to be long-term since the dates of the distribution of the trust are uncertain.

Note 8 - BONDS PAYABLE

In March 2007, the Archdiocese completed a refinancing for the purpose of advance refunding certain bonds, and providing for the financing of certain capital projects of the Archdiocese and non-combined affiliated entities. The Louisiana Public Facilities Authority issued the \$69.15 million par value 2007 Series Revenue and Revenue Refunding Bonds, at a premium of \$1.3 million. Approximately \$14.8 million of the proceeds were designated for the refunding of all outstanding principal and accrued interest on the 2001A Series Bonds, which were previously outstanding as of June 30, 2006, and the 2002C Series Bonds, which were previously guaranteed by the Administrative Offices on behalf of certain non-combined affiliated entities. Amounts under the 2002C Series, which were refunded by the 2007 Series, were converted to loans receivable from the original obligated parties. Debt service on the bonds is provided, in part, by collections on these loans receivable. The 2007 bonds were issued at fixed rates ranging from 4.5% to 5% and are secured by an assignment of all presently existing and future revenues of the Archdiocese as defined in the loan agreement.

The bonds require the Administrative Offices to maintain certain covenants under the terms of the bond agreement. As of June 30, 2015, management of the Administrative Offices was not aware of any violation of the covenants.

The aggregate maturities of the bonds payable as of June 30, 2015, are as follows:

Note 9 - RETIREMENT PLANS

The Administrative Offices offers a 401(k) defined contribution plan (the "401(k) Plan") to its lay employees and employees of affiliates. Employees electing to participate in the 401(k) Plan are required to contribute a minimum of 3% of their salaries, and may elect to contribute up to a maximum of 16%. The 401(k) Plan requires the Administrative Offices to contribute 3.5% of the participants' salaries. Retirement plan expenses also include an additional 2% contribution by the Administrative Offices to cover costs for life insurance and disability insurance for the employees. Any remaining funds from the 2% contribution may be used as a discretionary employer contribution to the 401(k) Plan. The 401(k) Plan administrator is the Archdiocese. The Administrative Offices contributed approximately \$346,000 and \$308,000 for the years ended June 30, 2015 and 2014, respectively.

Incardinated priests of the Archdiocese, whose retirement from active service is duly accepted by the Archdishop, are eligible for retirement benefits under an unfunded retirement plan (the "Plan"). The Administrative Offices has elected to account for these retirement benefits under accounting principles generally accepted in the United States of America, as a defined benefit pension plan.

FASB ASC 715-20 requires an employer to recognize the overfunded or underfunded status of defined benefit pension, and postretirement plans, as an asset or liability in its statements of financial position, and to recognize changes in that funded status in the year in which the changes occur through net assets for not-for-profit entities.

Note 9 - RETIREMENT PLANS (Continued)

The following table as of June 30, 2015 and 2014 sets forth the Plan's change in benefit obligation, change in Plan assets, and the funded status of the Plan:

Transition obligation	<u> </u>	399,908
Totals	\$ 8,997,685	\$ 12,708,134

Note 9 - RETIREMENT PLANS (Continued)

The actuarial present value of the projected benefit obligation was computed using a weighted-average discount rate of 4.570% and 4.270% as of June 30, 2015 and 2014, respectively. Because benefit payments are based on years of service rather than compensation levels, there is no difference between the accumulated and projected benefit obligation.

For the years ended June 30, 2015 and 2014, net periodic pension cost, included in Clergy expense in the statement of activities, includes the following components:

	2015	2014
Service costs - benefits earned during the periods	\$ 641,404	\$ 515,176
Interest cost on projected benefit obligation	1,610,308	1,635,518
Amortization of transition obligation	399,908	850,863
Amortization of net loss	414,735	284,326
Amortization of prior service cost	209,357	142,736_
Net periodic pension cost	\$ 3,275,712	\$ 3,428,619

The net periodic pension cost was computed using a weighted-average discount rate of 4.270% and 4.960% for the years ended June 30, 2015 and 2014, respectively.

The additional minimum pension liability adjustment, presented in the statement of activities, resulted in a gain of \$3,710,449 for the year ended June 30, 2015 and a loss of \$2,618,233 for the year ended June 30, 2014. The gain in 2015 was primarily due to actuarial gains attributable to an increase in the discount rate, whereas the loss in 2014 was primarily due to actuarial losses attributable to a decrease in the discount rate.

The Administrative Offices currently expects to make benefit payments and contributions to the Plan of approximately \$1,548,000 in fiscal year 2016.

The estimated net loss and prior service cost for the Plan that will be amortized from accumulated unrestricted net assets into net periodic benefit cost over the next fiscal year are estimated to be \$270,972 and \$134,591, respectively.

Note 9 - RETIREMENT PLANS (Continued)

Future benefit payments expected to be paid in each of the next five fiscal years, and in the aggregate for the following five years as of June 30, 2015, are as follows:

Years Ending June 30,	
2016	\$ 1,548,032

Note 11 - CONCENTRATIONS OF CREDIT RISK

The Administrative Offices maintains a substantial amount of cash in certain banks, which at times may exceed federally insured deposit limits. The Administrative Offices has not experienced any loss in such accounts, and management believes that the Administrative Offices is not exposed to any significant credit risk related to the cash in banks. As of June 30, 2015, the Administrative Offices had \$2,917,610 of uninsured bank deposits.

The Administrative Offices extends unsecured credit to non-combined affiliated entities, as further explained in Note 2. Financial instruments that potentially subject the Administrative Offices to credit risk include these accounts, which are shown on the statements of financial position as accounts and loans receivable.

Note 12 - RELATED-PARTY TRANSACTIONS

The Archbishop of New Orleans serves as president of the Archdiocese. He also serves as the controlling member of all other corporations, boards of trustees, and separate activities sponsored by, or operated under, the auspices of the Archdiocese. In the normal course of operations, the Administrative Offices has made and will, when necessary, make available to these non-combined affiliated entities, specific assistance in the form of operating subsidies, loans, use of facilities, and/or administrative support. The Administrative Offices receives income from affiliates in the form of assessments to cover insurance and other administrative costs. In addition, the Administrative Offices pays interest on deposits payable to affiliates and collects interest on loans receivable from affiliates.

In lieu of rental payments for the use of facilities, non-combined affiliated entities pay insurance, repairs and maintenance for the facilities. The provision of the facilities is not recorded as an in-kind contribution and related rental income by the Administrative Offices. The values of the land and buildings are not readily determinable. These rental agreements are classified as exchange transactions because both parties receive significant value from these arrangements.

Other related party transactions include premium payments to a captive insurance company (Note 15).

Note 13 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Cash and Cash Equivalents - The carrying amount approximates fair value because of the short maturity of these instruments.

Loans Receivable From Affiliates - The carrying amount approximates fair value because amounts not reserved generally bear interest at market rates.

Investments - The carrying amounts of the marketable investment securities reported on the Statements of Financial Position are predominately based on quoted market prices and other observable inputs. See Note 16 for a discussion of fair value measurements.

Bonds Payable - The carrying value of long-term debt as of June 30, 2015 and 2014, is \$59,960,300 and \$61,486,105, respectively, which approximates fair value.

Limitations - Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Note 14 - ENDOWMENT

The Endowments. The Administrative Offices' endowment consists of three individual funds established for specific purposes. Endowment assets include those assets of donor-restricted funds that the Administrative Offices must hold in perpetuity or for a donor-specified period. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law. The Administrative Offices has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring preservation of the purchasing power (real value) of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Administrative Offices classifies the following amounts as permanently restricted net assets in the accompanying financial statements: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment, made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Administrative Offices in a manner consistent with the language of UPMIFA.

In accordance with UPMIFA, the Administrative Offices considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund;
- The purposes of the Administrative Offices and the donor-restricted endowment fund;
- General economic conditions;
- The possible effect of inflation and deflation;
- The expected total return from income and the appreciation of investments;
- Other resources of the Administrative Offices; and
- The investment policies of the Administrative Offices.

Note 14 - ENDOWMENT (Continued)

Funds with Deficiencies - From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Administrative Offices to retain as a fund of perpetual duration. As of June 30, 2015 and 2014, no deficiencies existed.

Return Objectives and Risk Parameters - The Administrative Offices has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment, while seeking to maintain the purchasing power of the endowment assets. Under the investment policy, the performance objective is to exceed by 100 basis points a target annualized rate of return equal to the aggregate of inflation, spending rate and administrative costs, over a full market cycle (defined as market peak to market peak) without exceeding a standard deviation of 1.2 times a weighted benchmark index. The benchmark index will be comprised of each asset class index weighted by its target allocation. It is expected that the portfolio will outperform its weighted benchmark index by 50 basis points and rank in the top half of the appropriate balanced universe over a full market cycle. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives - Because the Archdiocese is expected to endure indefinitely, and because inflation is a key component in its performance objective, the long-term risk of not investing in equity securities outweighs the short-term volatility risk. As a result, the majority of assets will be invested in equity securities. Fixed income securities will be used to lower the short-term volatility of the portfolio and to provide income stability, especially during periods of weak or negative equity markets. Cash is not a strategic asset of the portfolio, but is a residual to the investment process and used to meet short-term liquidity needs. Other asset classes are included to provide diversification and incremental return (e.g. small cap equities, international equities, etc.). The Administrative Offices targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy - The Administrative Offices authorized a policy of appropriating for distribution each year (spending rate) a maximum of 5% of the prior year market value of the endowment funds. This is consistent with its objective to maintain the purchasing power of donor-restricted funds.

Note 14 - ENDOWMENT (Continued)

During the year ended June 30, 2014, the Administrative Offices exceeded its spending policy to fund a capital improvement project approved by the Archbishop with a total budget of approximately \$600,000. The related St. Louis Cathedral capital expenditure, which totaled \$322,895, is classified as Financial Services Expense in the 2014 statement of activities.

Note 15 - COMMITMENTS AND CONTINGENCIES

Commitments - The Administrative Offices has agreed to provide financing via the cooperative lending program (see Note 2e) to individual church parishes for capital expenditures. As of June 30, 2015, such commitments totaled approximately \$70,000,000.

In February 2009, the Administrative Offices subscribed to a \$7,000,000 investment in Siguler Guff Distressed Opportunity Fund III, L.P. As of June 30, 2015, \$6,790,000 of this investment was funded. In October 2010, the Administrative Offices subscribed to a \$4,000,000 investment in Siguler Guff Distressed Opportunity Fund IV, L.P. As of June 30, 2015, \$3,380,000 of this investment was funded. In October 2014, the Administrative Offices subscribed to a \$5,000,000 investment in Siguler Guff Distressed Real Estate Opportunity Fund II, L.P. As of June 30, 2015, \$1,825,000 of this investment was funded. In March 2015, the Administrative Offices subscribed to a \$7,000,000 investment in Venture Investment Associates Energy III, L.P. As of June 30, 2015, \$1,400,000 of this investment was funded.

Guarantees - As of June 30, 2015, the Administrative Offices has guaranteed \$1.0 million of indebtedness of a non-combined affiliate.

On September 4, 2014, the Administrative Offices agreed to provide up to \$14,000,000 of subordinated debt and/or equity and guarantee the financing of a housing ministry project up to \$43 million. After completion of the project and achievement of certain financial ratios, the guarantee will be reduced to 35% of the guaranteed obligation and ultimately, the guarantee will terminate upon achievement of more stringent financial ratios.

Note 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Self-Insurance Programs - The Archdiocese, through the operations of the Administrative Offices, serves as a conduit in providing insurance coverage to its affiliates. Prior to July 1, 2011, the Administrative Offices assessed premiums to the various entities based on relevant factors for each type of coverage and retained all of the related risk of self-insurance liability. The accrued liability for self-insured claims on the accompanying statements of financial position represents the estimated reserves for all of the covered entities for claims occurring prior to July 1, 2011.

On June 28, 2011, Archdiocese of New Orleans Indemnity, Inc. (ANOI), a captive insurance company was created to help lower the insurance costs associated with managing the risks of the parishes and various non-combined affiliated entities. ANOI is a wholly-owned subsidiary of a subsidiary of the Archdiocese.

For claims occurring subsequent to June 30, 2011, ANOI provides deductible reimbursement property, automobile liability and physical damage, workers' compensation, breach of personal conduct, and general liability coverages to the Archdiocese. Property, automobile liability and physical damage, and general liability coverages are provided on an occurrence basis and breach of personal conduct on a claims-made basis with limits of \$300,000 per occurrence and a combined \$3,500,000 annual aggregate (limits of \$250,000 per occurrence and a combined \$3,000,000 annual aggregate prior to July 1, 2013). Workers' compensation coverage is provided on an occurrence basis with limits of \$800,000 per accident and no annual aggregate.

The Archdiocese is a subscribing member in the Catholic Umbrella Pool (CUP). The CUP provides the Archdiocese with reinsurance for general property and auto liability claims in excess of its primary layer of insurance coverage of \$3,000,000 through June 30, 2013, and \$3,500,000 thereafter, with excess coverage limits of \$25,000,000 in the aggregate. The Archdiocese has an equity investment in the CUP of approximately \$728,000 and \$928,000 as of June 30, 2015 and 2014, respectively.

For claims prior to July 1, 2011, the Archdiocese is self-insured, as follows:

General, Property, and Auto Liability - The Archdiocese is self-insured for \$200,000 per occurrence up to an annual aggregate limit of \$1,500,000 through June 30, 2003, and \$1,750,000 thereafter.

Note 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Workers' Compensation - The Archdiocese is self-insured for workers' compensation claims for the first \$225,000 per occurrence for claims occurring prior to July 1, 2002, for the first \$750,000 per occurrence for claims occurring between July 1, 2002 and June 30, 2009, and for workers' compensation claims for the first \$800,000 per occurrence for claims occurring subsequent to June 30, 2009.

The Archdiocese is also self-insured for claims relating to breaches of personal conduct. The self-insured portion applies to claims in excess of annual aggregate limits (which include reinsurance for amounts provided by the CUP) as follows: amounts in excess of \$100,000 from July 1, 1990 to July 1, 1993; amounts in excess of \$650,000 from July 1, 1993 to July 1, 1998; and amounts in excess of \$1,000,000 for claims after July 1, 1998.

The Archdiocese has reflected its estimate of the ultimate liability for all known and incurred, but not reported claims in the accompanying financial statements. The estimated reserves for these claims are undiscounted and are approximately \$1,168,000 and \$1,278,000 as of June 30, 2015 and 2014, respectively.

Asset Retirement Obligations - In accordance with FASB ASC 410-20, an entity is required to recognize a liability for the fair market value of a conditional asset retirement obligation when incurred, if the liability's fair value can be reasonably estimated. The corresponding cost is capitalized as part of the carrying amount of the related long-lived asset as of the obligating event date. The liability is accreted to its present value each period and the capitalized cost is depreciated over the useful life of the related asset. If the liability is settled for an amount other than the recorded amount, a gain or loss is recognized.

As of June 30, 2006, the Administrative Offices recognized obligations associated with the future retirement of long-lived assets. Asbestos abatement costs were added to the carrying value of the Administrative Offices' building cost. The recorded net book value of the abatement costs totaled approximately \$324,000 and \$344,000 as of June 30, 2015 and 2014, respectively.

Estimated asset retirement obligations of approximately \$906,000 and \$863,000 as of June 30, 2015 and 2014, respectively, were recorded as part of accrued expenses and other liabilities.

Note 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Contingencies - The Archdiocese has certain pending and threatened litigation and claims; however, management believes the probable resolution of such contingencies will not exceed the established reserves or insurance coverage, and will not materially affect its financial position. It is reasonably possible that estimates included in the financial statements related to these contingencies may change in the near term.

Note 16 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Administrative Offices has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of June 30, 2015 and 2014.

Government obligations and corporate stocks - Valued at the closing price reported on the active market on which the individual securities are traded. These are included in Level 1 of the fair value hierarchy.

Money market funds, mutual funds, and exchange traded funds - Valued at quoted market prices, which represent the net asset value per unit. These are included in Level 1 of the fair value hierarchy.

Government agency mortgage obligations, municipal obligations, corporate and foreign obligations, collateralized mortgage obligations, asset-backed securities, preferred stock, and commercial paper - Valued by independent pricing vendors used by the custodians of the investments. The pricing vendor uses various pricing models for each asset class that are consistent with what other market participants would use. The inputs and assumptions to the models used by the pricing vendors are derived from market-observable sources, including benchmark yields, reported trades, broker/dealer quotes, and other market-related data. Since many of these fixed income securities do not trade on a daily basis, the methodology of the pricing vendor uses available information, including benchmark curves, benchmarking of like securities, and matrix pricing. These investments are included in Level 2 of the fair value hierarchy.

Common trust funds, segregated portfolio companies, hedge feeder fund, and limited partnerships - Valued, as a practical expedient, using the net asset values reported by the investees. The net asset values are determined based on the fair values of the underlying investments of the funds, companies, or partnerships. Common trust funds are included in Level 2 of the fair value hierarchy. Due to restrictions on withdrawals from the investment, the Administrative Offices' investments in segregated portfolio companies and limited partnerships are included in Level 3 of the fair value hierarchy.

Brokered certificates of deposit - Valued based on amounts reported by Interactive Data Corporation which uses modeling techniques which integrate observed transactions data, credit quality, perceived market movements, and other relevant information and included in Level 2 of the fair value hierarchy.

Corporate obligation-bond-related portfolio - Valued by the Administrative Offices at par and classified within Level 2 of the fair value hierarchy.

Investment in the Catholic Umbrella Pool - The Administrative Offices values its investment in this pool based on information provided by the pool manager. This investment is classified within Level 2 of the fair value hierarchy.

Beneficial Interest in Charitable Remainder Trust - The Administrative Offices values its investment in this trust based on present value calculations (Note 7) applied to the fair value of trust assets. This investment is classified within Level 2 of the fair value hierarchy.

Asset Retirement Obligation - The Administrative Offices calculates this liability based on an original cost estimate of the obligation and accretes such amount to its present value each year.

Accrued Pension Liability - The Administrative Offices uses actuarial services to calculate the present value of the projected benefit obligation (Note 9).

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Administrative Offices believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Statements of Financial Position as of June 30, 2015 and 2014, include the following assets which are measured at fair value on a non-recurring basis: donated historical treasures included in other assets totaling \$122,000 (Level 3) and donated land in an undetermined amount (Level 3), which are valued at estimated or appraised fair value as of the time of the donations.

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2015 and 2014 are comprised of and determined, as follows:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Most Reverend Gregory M. Aymond,
Archbishop of the Roman Catholic Church of
The Archdiocese of New Orleans,
New Orleans, Louisiana.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Roman Catholic Church of the Archdiocese of New Orleans Administrative Offices (the "Administrative Offices"), which comprise the statement of financial position as of June 30, 2015, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 2, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Administrative Offices' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Administrative Offices' internal control. Accordingly, we do not express an opinion on the effectiveness of the Administrative Offices' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Administrative Offices' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Administrative Offices' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Administrative Offices' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Most Reverend Gregory M. Aymond,
Archbishop of the Roman Catholic Church of
The Archdiocese of New Orleans,
New Orleans, Louisiana.

Report on Compliance for Major Federal Program

We have audited the Roman Catholic Church of the Archdiocese of New Orleans Administrative Offices' (the "Administrative Offices") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the Administrative Offices' major federal program for the year ended June 30, 2015. The Administrative Offices' major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Administrative Offices' major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Administrative Offices' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the Administrative Offices' major federal program. However, our audit does not provide a legal determination of the Administrative Offices' compliance.

Opinion on Each Major Federal Program

In our opinion, the Administrative Offices complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Administrative Offices is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Administrative Offices' internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Administrative Offices' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
