Introduction

Kolin-Ruby Wise Waterworks District No. 11A of Rapides Parish, Louisiana (the Waterworks District) is pleased to present its Annual Financial Report developed in compliance with Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis - For State and Local Governments (hereinafter referred to as GASB 34), and related standards. GASB 34 provides financial statement users a more detailed and comprehensive analysis of the financial performance of the Waterworks District. Please read the following in conjunction with the Waterworks District's financial statements and footnotes, which follow this section.

Financial Highlights

- Total assets and deferred outflows for the years ended 2019 and 2020 were \$4,881,207 and \$4,702,872 and exceeded liabilities and deferred inflows in the amount of \$3,256,758 and 3,265,679 (i.e., net positions). Of the total net assets, \$1,262,774 and \$1,364,471 for 2019 and 2020 were unrestricted and available to support short-term operations, with the balance invested in capital assets, net of related debt, or restricted for capital activity and debt service. Total net assets increased by \$8,922.
- User fee revenues (water sales) for the fiscal year ending December 31, 2019 and 2020 were \$576,830 and \$601,770.
- The Waterworks District's operating expenses, consisting of those expenses resulting from the Waterworks District's ongoing operations totaled \$813,524 and \$742,659 for the fiscal years ended December 31, 2019 and 2020.

Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to the basic financial statements and supplementary information. The MD&A presents an overview of management's examination and analysis of the Waterworks District's financial condition and performance.

The financial statements report information on the Waterworks District using full accrual accounting methods similar to those used in the private business sector. Financial statements include the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows. The Statement of Net Position provides information about the nature and amount of the Waterworks District's resources and obligations at year-end and provides a basis for evaluating the capital structure of the Waterworks District and assessing the liquidity and financial flexibility of the Waterworks District.

The Statement of Revenues, Expenses, and Changes in Net Position, accounts for the revenues and expenses for the fiscal year and provides information on how net assets changed during the year. This statement measures the success of the Waterworks District's operations in a format that can be used to determine if the Waterworks District has recovered its costs through user fees and other charges.

The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities, and provides information on the

source of cash receipts, what the cash was used for, and the total change in cash for the reporting period.

The notes to the financial statements provide required disclosures essential to an understanding of the financial statements. The notes present information about the Waterworks District's accounting policies, significant account balances and activities, commitments, contingencies, and subsequent events, if any. Supplementary information includes schedule of commissioners and per diem paid to each, summary accounts receivable information, water rates and a schedule of insurance.

Financial Analysis

The purpose of financial analysis is to help determine whether the Waterworks District is better off as a result of the current year's activities. In this analysis, data from two of the basic financial statements, the Statement of Net Position, and the Statement of Revenues, Expenses, and Changes in Net Position, are presented below in condensed format. These statements report the net assets, the difference between assets and liabilities, and the change in net assets, which provides information for indicating the financial condition of the Waterworks District. Following these statements is a separate schedule summarizing and analyzing budget changes for the current fiscal year.

Condensed Statement of Net Position

	<u>December 31, 2019</u>	<u>December 31, 2020</u>
Current assets	\$ 1,426,579	\$ 1,524,809
Restricted assets	253,693	239,248
Fixed assets (net)	3,039,441	2,890,771
Non-current Assets	-	-
Deferred outflows of resources	<u>161,494</u>	<u>48,044</u>
 Total Assets and Deferred Outflows	 <u>\$ 4,881,207</u>	 <u>\$ 4,702,872</u>
 Current liabilities	 \$ 26,326	 \$ 28,182
Current liabilities (payable from restricted assets)	131,710	134,257
General obligation bonds payable	35,324	37,726
Non-current Liabilities	185,306	1,373
Long term debt	1,231,275	1,155,449
Deferred inflows of resources	<u>14,508</u>	<u>80,205</u>
 Total Liabilities and Deferred Inflows	 1,624,449	 1,437,192
Net Position	<u>3,256,758</u>	<u>3,265,679</u>
 Total Liabilities, Deferred Inflows and Net Position	 <u>\$ 4,881,207</u>	 <u>\$ 4,702,872</u>

Current assets include current assets for operations, receivables and prepaid expenses. Restricted assets include cash and certificates of deposit restricted for bond indentures and customer deposits.

Capital Assets increased by \$5,800 in 2020. Depreciation of \$154,470 is included in net fixed assets and is reflected as net capital decrease of \$148,670.

Total long-term debt decreased by \$70,336 during 2020, which reduced the balance at December 31, 2020 to \$1,193,175.

Condensed Statement of Revenues, Expenses, and Changes in Net Position

	<u>December 31, 2019</u>	<u>December 31, 2020</u>
Operating revenue	\$ 595,153	\$ 615,799
Operating expenses	<u>813,524</u>	<u>742,659</u>
Operating (Loss)	(218,371)	(126,860)
Nonoperating Income (net)	<u>122,420</u>	<u>135,782</u>
Change in Net Positions	(95,951)	8,922
Net Position, Beginning of Year	<u>3,352,709</u>	<u>3,256,758</u>
Net Position, End of Year	<u>\$ 3,256,758</u>	<u>\$ 3,265,679</u>

While the Balance Sheet shows the change in financial position of net position, the Statement of Revenues, Expenses, and Changes in Net Position provides answers to the nature and scope of these changes. The above table shows an increase in net position of \$8,922 for the fiscal year ending December 31, 2020, as does the Condensed Balance Sheet on the prior page.

The Waterworks District's total revenues include the sales of water, connection fees, tap fees and late charges.

The Waterworks District's major operating expenses include depreciation expense, insurance, wages and retirement, and utilities. Nonoperating income includes ad valorem tax, state revenue sharing, rent and interest and nonoperating expenses include interest expense.

Other Significant Account Changes and Financial Trends

One key measure of a Waterworks District's profitability, and the ability to generate positive cash flows, is the ability of the water system to collect accounts receivable on a timely basis. Presented below is an aged receivable listing for the fiscal years ending December 31.

	<u>December 31, 2019</u>	<u>December 31, 2020</u>
Current	\$ 49,113	\$ 55,047
Over 30 Days Past Due	<u>5,779</u>	<u>5,523</u>
Total Accounts Receivable (Before Allowance for Bad Debts)	54,892	60,570
Allowance for Bad Debts	(3,347)	(3,347)
Unbilled services	<u>15,441</u>	<u>16,040</u>
Total Accounts Receivable	<u>\$ 66,986</u>	<u>\$ 73,263</u>

Total receivables for water service remained fairly constant reflecting the Waterworks District's efforts in collecting bills and in writing off accounts as they become past due. Past due accounts are referred for collection.

Capital Assets

At the end of the fiscal years ending December 31, 2019 and 2020, the Waterworks District had \$3,039,441 and \$2,890,771 (net of accumulated depreciation) recorded in capital assets. This includes water systems and improvements in the Kolin-Ruby Wise area.

Other significant capital assets include the Waterworks District's investment for the office building and storage for water system equipment and supplies, land owned for the office building site and for water well locations, and equipment and machinery, including vehicles, for water system operation. The changes in capital assets are presented in the table below.

	<u>December 31, 2019</u>	<u>December 31, 2020</u>
Land	\$ 16,359	\$ 16,359
Water Distribution System	5,796,152	5,801,952
Software	83,604	83,604
Vehicles	<u>98,477</u>	<u>98,477</u>
Subtotal	5,994,592	6,000,392
Less: Accumulated Depreciation	<u>(2,955,151)</u>	<u>(3,109,621)</u>
Net Capital Assets	<u>\$ 3,039,441</u>	<u>\$ 2,890,771</u>

Long-Term Debt Activity

The primary source of long-term financing for the Waterworks District water system improvements is revenue bonds financed by the United States Department of Agriculture, Rural Utilities Service (RUS). Interest rates for long-term debt financed through RUS at December 31, 2020, range from 4% to 5.4%, with initial payment terms for bonds generally at 40 years. Bonds financed for the Waterworks District do not generally require a specific debt to net income or net cash flow ratio, but bond restrictions do state that the Waterworks District must set its water rates at a level necessary to fund debt service requirements and to pay for the normal operating expenses of the Waterworks District.

Requests for Information

This financial report is designed to provide a general overview of Kolin-Ruby Wise Waterworks District No. 11A of Rapides Parish, Louisiana's finances and to demonstrate the Waterworks District's accountability. If you have questions regarding this report or need additional information, contact the Waterworks District at P. O. Box 3100, Pineville, LA 71361. The phone number for the Waterworks District is (318) 445-4178.

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners of
Kolin-Ruby Wise Waterworks District No. 11A
Pineville, Louisiana 71360

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Kolin-Ruby Wise Waterworks District No. 11A, a component unit of the Rapides Parish Police Jury, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Kolin-Ruby Wise Waterworks District No. 11A's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of business-type activities of Kolin-Ruby Wise Waterworks District No. 11A, as of December 31, 2020, and the changes in financial position, and, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis comparison information on pages 1-5 and schedules of required supplementary information pertaining to pension obligations on pages 30-31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2021, on our consideration of Kolin-Ruby Wise Waterworks District No. 11A's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Kolin-Ruby Wise Waterworks District No. 11A's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kolin-Ruby Wise Waterworks District No. 11A's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners of
Kolin-Ruby Wise Waterworks District No. 11A
Pineville, Louisiana 71360

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the business-type activities of Kolin-Ruby Wise Waterworks District No. 11A, (a component unit of the Rapides Parish Police Jury) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Kolin-Ruby Wise Waterworks District No. 11A's basic financial statements, and have issued our report thereon dated June 24, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Kolin-Ruby Wise Waterworks District No. 11A's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Kolin-Ruby Wise Waterworks District No. 11A's internal control. Accordingly, we do not express an opinion on the effectiveness of Kolin-Ruby Wise Waterworks District No. 11A's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Kolin-Ruby Wise Waterworks District No. 11A's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Kolin-Ruby Wise Waterworks District No. 11A
(A Component Unit of the Rapides Parish Police Jury)
Notes to Financial Statements

Introduction

The Kolin-Ruby Wise Waterworks District No. 11A (the Waterworks District) was created by the Rapides Parish Police Jury, as authorized by Louisiana Revised Statute 33:3811. The Waterworks District is governed by a five-member board of commissioners who are residents of and own real estate in the Waterworks District. The board members are compensated for meetings attended. The board is appointed by the Jury and is responsible for providing water service to approximately 1,621 users within the boundaries of the Waterworks District. The Waterworks District employs five full-time employees.

Note 1 - Summary of Significant Accounting Policies

A. *Basis of Presentation*

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles applicable to state and local governments. Generally accepted principles for local governments include those principles prescribed by the Government Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled "Audits of State and Local Government Units" and by the Financial Accounting Standards Board (FASB), when applicable. As allowed under GASB Statement No. 62, the Waterworks District has elected to follow (1) all GASB pronouncements and (2) all FASB Statements and Interpretations, APB Opinions and ARBs, no matter when issued, except those that conflict with GASB pronouncements.

B. *Financial Reporting Entity*

GASB No. 14, The Reporting Entity, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Codification Section 2100, the Waterworks District includes all funds that are within the oversight responsibility of the Waterworks District. The Waterworks District is a component unit of the Rapides Parish Police Jury. Certain units of local government over which the Waterworks District exercises no oversight responsibility, such as the police jury, parish school board, other independently elected officials, and municipalities within the parish, are excluded from the accompanying financial statements. Under GASB Codification Section 2600, these units of government are considered separate reporting entities and issue financial statements separate from those of the Waterworks District. GASB Statement No. 61, The Reporting Entity: Omnibus, amended No. 14 and No. 34 to better meet user needs.

C. *Fund Accounting*

The Waterworks District uses a proprietary-enterprise fund to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Kolin-Ruby Wise Waterworks District No. 11A
(A Component Unit of the Rapides Parish Police Jury)
Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies, (continued)

A proprietary-enterprise fund is used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities are provided by the Waterworks District to outside parties, the cost of which is recovered primarily through user fees.

D. Basis of Accounting

All proprietary funds are accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all liabilities associated with the operation of these funds are included on the statement of net assets. The proprietary funds use the accrual basis of accounting. Operating revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred.

Ad valorem taxes are accounted for using the modified accrual basis of accounting, whereby, revenues are recognized when they become measurable and available as net current assets (within sixty days after year-end). Taxes paid under protest in years prior to 2004 are retained in escrow by the Rapides Parish tax collector and are not recorded as income until released to the Waterworks District after completion of favorable litigation. Now, all of the protested taxes are distributed to the respective tax districts. When the lawsuit is settled, the district may have to issue a refund which is determined by the court. In 2020 there were no taxes refunded for protested taxes.

E. Cash

Cash includes amounts in demand deposits, bank money market accounts and certificates of deposit.

F. Fixed Assets

All fixed assets and infrastructure assets are stated at historical cost. Depreciation of all exhaustible assets is charged as an expense against operations. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets.

G. Bad Debts

Uncollectible amounts due for customers' utility receivables are recognized as bad debts through the establishment of an allowance for doubtful accounts.

H. Contributed Capital

Grant funds received from federal and state agencies restricted for use in financing capital improvements are not reflected as revenues. They are recorded in fund equity as contributed capital. This policy changed with the enactment of GASB 63, which calls for Capital Contributions to be shown on the "Statement of Revenues, Expenses and Changes in Fund Position" as a separate line item. The change is effective after December 31, 2011.

Kolin-Ruby Wise Waterworks District No. 11A
 (A Component Unit of the Rapides Parish Police Jury)
 Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies, (continued)

I. Budget

A budget has been adopted for the USDA Rural Development Service, however, budgets for proprietary funds are not required by Louisiana law.

J. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K. Deferred Charges

The cost of issuing revenue bonds in 2010 was deferred and is being amortized and charged to expense over the life of the bonds.

L. Accrued Unbilled Revenue

During the year, customer water meters are read and bills rendered throughout monthly periods. Because there are approximately ten days of unbilled water usage at the end of each month, revenue for water distributed but not yet billed is accrued at fiscal year end to match revenues with related expenses.

Note 2 - Cash and Certificates of Deposit

Under state law, the Waterworks District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Waterworks District may invest in United States bonds, treasury notes, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

At December 31, 2020, the Waterworks District had cash (in checking accounts) and certificates of deposit as follows:

Demand Deposits (includes \$187,569 of restricted assets)	\$423,702
Petty Cash	100
Certificates of Deposit (greater than 90 days maturity)	1,095,711
Total	<u>\$1,519,513</u>

Kolin-Ruby Wise Waterworks District No. 11A
 (A Component Unit of the Rapides Parish Police Jury)
 Notes to Financial Statements

Note 2 - Cash and Certificates of Deposit, (continued)

These deposits are stated at cost, which approximates market value. Under state law, these deposits (or resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The Waterworks District does not have a deposit policy for custodial credit risk. The market value of the pledged securities plus the federal deposit insurance must equal the amount on deposit with the fiscal agent. Cash and C.D.'s at December 31, 2020 are as follows:

Bank Balances		<u>\$1,519,413</u>
Federal Deposit Insurance		750,000
Pledged Securities(uncollateralized)		1,791,113
 Total Insurance and Pledged Securities		 <u>\$2,541,113</u>

Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Waterworks District that the fiscal agent has failed to pay deposited funds upon demand.

Note 3 - Receivables

The following is a summary of receivables at December 31, 2020:

Water Sales:		
Billed Services	\$60,570	
Unbilled Services	<u>16,040</u>	76,610
Less: Allowance for Doubtful Accounts		<u>(3,347)</u>
		73,263
Ad Valorem Taxes		<u>146,368</u>
Total		<u>\$219,631</u>

Note 4 - Restricted Assets

Certain proprietary - enterprise fund resources are classified as restricted assets on the statement of net position because their use is restricted by applicable bond covenants or for other legal purposes. The "Revenue Bond Sinking Fund" account is used to accumulate monies to be used for debt service payments within the next twelve months. The "Depreciation and Contingency Fund" account is used to provide for extensions, additions, improvements, renewals and replacements necessary to properly operate the Waterworks District. The "Revenue Bond Reserve Fund" is used to report resources set aside to make up potential future deficiencies in the Revenue Bond Sinking Fund Account. Customers' deposits are not associated with the revenue bond indenture. However, these are required deposits from customers to insure against nonpayment of billings or property damage.

Kolin-Ruby Wise Waterworks District No. 11A
(A Component Unit of the Rapides Parish Police Jury)
Notes to Financial Statements

Note 4 - Restricted Assets, (continued)

Amounts included in the above listed accounts are as follows:

Revenue Bond Sinking Fund	\$17,592
Revenue Bond Reserve Fund	119,443
Depreciation and Contingency Fund	50,534
Customers' Deposits	51,679
	<u>\$239,248</u>

The balance of all three accounts associated with the revenue bonds were in compliance with the bond indenture.

Note 5 - Fixed Assets

A summary of changes in fixed assets for the year ended December 31, 2019 follows:

	Balance January 1, 2020	Additions	Disposals	Balance December 31, 2020
Land	\$16,359	-0-	-0-	\$16,359
Water System and Equipment	5,796,152	5,800	-0-	5,801,952
Software	83,604	-0-	-0-	83,604
Vehicles	98,477	-0-	-0-	98,477
Total	5,994,592	5,800	0	6,000,392
Less Accumulated Depreciation	(2,955,151)	(154,470)	-0-	(3,109,621)
Net Fixed Assets	<u>\$3,039,441</u>	<u>(148,670)</u>	-0-	<u>\$2,890,771</u>

Depreciation Expense for the year ended December 31, 2020 was \$154,470.

Note 6 - Long-Term Debt

In 2005 the Waterworks District issued \$742,000 in water revenue bonds and \$850,000 in general obligation bonds (Series 2005) secured by revenues to be derived from the operation of the water system. The registered bonds were delivered to the United States Department of Agriculture, Rural Development Office. The bonds were issued to finance water system improvements. The bonds carry interest rates of 4.25% and mature in February, 2045 and May, 2030, respectively. The revenue bond is payable semiannually for principal and interest of \$19,567 and the general obligation bond is payable annually for principal and interest of \$57,188.

Kolin-Ruby Wise Waterworks District No. 11A
(A Component Unit of the Rapides Parish Police Jury)
Notes to Financial Statements

Note 6 - Long-Term Debt, (continued)

In 2010 the Waterworks District issued a \$550,000 water revenue bond of which \$385,000 is bonds payable (Series 2010) secured by revenues to be derived from the operation of the water system and \$165,000 is ARRA principal forgiveness. The registered bonds were issued by the Department of Health and Hospitals, State of Louisiana. The bonds were issued to finance water system improvements. The bond carries an interest rate of 2.95% and matures in February, 2030. The revenue bond is payable semiannually for principal and interest of approximately \$28,000.

The following is a summary of debt transactions for the year ended December 31, 2020:

	Gen. Obl. Bond 2005	Revenue Bond 2005	Revenue Bond 2010B	Total
Beg. Balance	\$494,126	\$568,022	\$237,000	\$1,299,148
Additions	-0-	-0-	-0-	-0-
Reductions	(36,188)	(15,148)	(19,000)	(70,336)
Ending Balance	<u>\$457,938</u>	<u>\$552,874</u>	<u>\$218,000</u>	<u>\$1,228,811</u>

The future annual requirements to amortize long-term debt are as follows:

Year End	Principal	Interest	Total
2021-2025	392,470	215,856	608,326
2026-2030	473,385	132,638	606,023
2031-2035	129,049	66,616	195,665
2036-2040	158,906	36,760	195,666
2041-2045	75,001	4,847	79,848
Total	<u>\$1,228,811</u>	<u>\$456,717</u>	<u>\$1,685,528</u>

All sinking fund requirements have been funded in advance(see note 4).

Note 7 - Liabilities Payable From Restricted Assets

The amounts payable from restricted assets, referred to in Note 4, are as follows:

Customer Deposits	\$86,140
Revenue Bonds Payable (Series 2005) - Current Portion	15,636
Revenue Bonds Payable (Series 2010) - Current Portion	20,000
Accrued Interest on Revenue Bonds	12,481
	<u>\$134,257</u>

Note 8 – Retirement Plan

Plan Description

Parochial Employees' Retirement System of Louisiana (the System) is the administrator of a cost sharing multiple employer defined benefit pension plan. The System was established and provided for by R.S. 11:1901 of the Louisiana Revised Statute (LRS). Substantially all employees of the Waterworks District participate in Plan A of the System.

Benefits Provided

Employees hired prior to January 1, 2007 who retire at or after age 65 with a minimum of seven (7) years of service, at or after age 60 with 10 years of service, at or after age 55 with 25 years of service, or with 30 years of service regardless of age are entitled to a retirement benefit.

Employees who were hired after January 1, 2007 who retire at age 67 with 7 years of experience, age 62 with 10 years of experience or age 55 with 30 years of experience are entitled to a retirement benefit.

Generally, the monthly amount of the retirement allowance shall consist of an amount equal to three percent of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts.

1. Survivor Benefits

Upon the death of any member of Plan A with five (5) or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes.

Any member of Plan A, who is eligible for normal retirement at time of death, the surviving spouse shall receive an automatic Option 2 benefit, as outlined in the statutes.

A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married no less than twelve (12) months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

2. Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed the 3rd anniversary of retirement eligibility. Delayed participation reduces the three year participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in DROP on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the board of trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of PERS, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of the Plan must agree that the benefits payable to the participant are not the obligations of the state or PERS, and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

3. Disability Benefits

For Plan A, a member shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and have at least five years of creditable service or if hired after January 1, 2007, have seven years of creditable service, and are not eligible for normal retirement and have been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen, or three percent multiplied by years of service assuming continued service to age sixty.

Cost of Living Increases

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1977 (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older. (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Employer Contributions

According to state statute, contributions for all employers are actuarially determined each year. For the years ended December 31, 2020 and 2019, the actuarially determined contribution rates were 11.11% and 12.18%, respectively, of member's compensation for Plan A. However, the

actual rate for years ended December 31, 2020 and 2019 was 12.25%. Contributions to the pension plan from the Waterworks District were \$23,562 for the year ended December 31, 2020.

According to state statute, the System also receives $\frac{1}{4}$ of 1% of ad valorem taxes collected within the respective parishes, except for Orleans and East Baton Rouge parishes. The System also receives revenue sharing funds each year as appropriated by the Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2020, the Waterworks District reported a liability of \$1,373 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of December 31, 2019 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The Waterworks District's proportion of the Net Pension Liability was based on a projection of the Waterworks District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2019, the Waterworks District's proportion was 0.029157%, which was a decrease of 0.012594% from its proportion measured as of December 31, 2018.

For the year ended December 31, 2020, the Waterworks District recognized pension expense of \$21,252 plus the Waterworks District's amortization of the difference between employer contributions and proportionate share of contributions of (\$495).

At December 31, 2019, the Waterworks District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ (12,287)
Changes in assumptions	19,169	-
Net difference between projected and actual earnings on pension plan	-	(51,450)
Changes in proportion and differences between employer contributions and proportionate share of contributions	12	(16,468)
Employer contributions subsequent to the measurement date	23,562	-
Total	<u>\$ 42,743</u>	<u>\$ (80,205)</u>

\$23,562 reported as deferred outflows of resources related to pensions resulting from Waterworks District contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Asset in the year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years ending December 31:

2021	\$ (15,707)
2022	\$ (18,693)
2023	\$ (3,460)
2024	\$ (23,164)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension asset as of December 31, 2019, the valuation date, are as follows:

Actuarial cost method	Entry Age Normal
Expected remaining service lives	4 years
Investment rate of return	6.50%, net of investment expenses

Projected salary increases	4.75% (2.35% Merit/2.40% Inflation)
Cost-of-living adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present value do not include provisions for potential future increase not yet authorized by the Board of Trustees.
Mortality	Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants.

The discount rate used to measure the total pension asset was 6.50% for Plan A. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions from participating employers and non-employer contributing entities will be made at actuarially determined contribution rates and, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset.

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2018, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	35%	1.05%
Equity	52%	3.41%
Alternatives	11%	0.61%
Real Assets	2%	0.11%
Inflation		2.00%
Expected Arithmetic Nominal Return		7.18%

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality.

Sensitivity of the Waterworks District's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the Waterworks District's proportionate share of the Net Pension Asset using the discount rate of 6.50%, as well as what the Waterworks District's proportionate share of the Net Pension Asset would be if it were calculated using a discount rate that is one percentage-point lower (5.50%) or one percentage-point higher (7.50%) than the current rate:

	(5.50%)	(6.50%)	(7.50%)
Employer's proportionate share of the net pension liability	\$ 148,348	\$ 1,373	\$ (121,790)

Support of Non-employer Contributing Entities

Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The Waterworks District recognizes revenue in an amount equal to their proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended December 31, 2020, the Waterworks District recognized revenue as a result of support received from non-employer contributing entities of \$2,359 for its participation in PERS.

Payables to the Pension Plan

At December 31, 2020, the Waterworks District had \$6,061 and \$4,700 payable to the pension plan for employer and member contributions, respectively. The payable is based on the legally required contributions by the Waterworks District and members and is derived from the quarterly payroll periods ended December 31, 2020.

Kolin-Ruby Wise Waterworks District No. 11A
(A Component Unit of the Rapides Parish Police Jury)
Notes to Financial Statements

Note 9 - Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the Waterworks District in September or October and are billed to the taxpayers in November. Billed taxes become delinquent on January 1 of the following year.

For the year ended December 31, 2020, taxes of 4.35 and 3.20 mills were levied on property with taxable valuations totaling \$20,859,753 and were dedicated respectively to general maintenance and bond issuance payments of the water system.

Note 10 - Vacation and Sick Leave

Employees of the Waterworks District, depending on their length of service, earn from one to twenty five days of vacation leave each year, and all employees are granted twelve days of sick leave annually. At December 31, 2020, there were no material accumulated and vested benefits relating to vacation and sick leave that should be accrued or disclosed to conform with generally accepted accounting principles.

Note 11 - Risk Management

The Waterworks District is exposed to various risks of loss. It is the policy of the Waterworks District to purchase commercial insurance for the risks of loss to which it would be exposed. In the past year, there have been no claims or settlements in excess of insurable limits.

Note 12 - Concentrations of Credit Risk

Credit risk for accounts receivable from water sales is concentrated because substantially all of the balances are receivable from customers located within the same geographic region. Future water sales are dependent on the economic and weather conditions in the area serviced by the Waterworks District.

Note 13 - Leases

Lessor - Operating Lease

The Waterworks District has a lease agreement with AT&T to lease a water tower as a site for their communication antennas. The lease is for \$750.75 per month and is open ended.

Rental income from the rental of the water tower to AT&T amounted to \$7,508 for the year. Future minimum rentals related to this lease are as follows:

Year ended December 31:	2021	\$9,009
	2022	9,009
	2023	9,009
	2024	9,009
	2025	9,009
	Total	<u>\$45,045</u>

Kolin-Ruby Wise Waterworks District No. 11A
 (A Component Unit of the Rapides Parish Police Jury)
 Notes to Financial Statements

Note 13 - Leases, (continued)

Lessee - Operating Lease

There is also a lease with Automation Service & Controls, Inc. for \$625 for monthly service and equipment for the Telemetry and Scada System.

Lease expense from the lease of the Telemetry and Scada equipment amounted to \$7,500 for the year.

Future minimum lease payments related to this lease are as follows:

Year ended December 31:	2021	\$7,500
	2022	7,500
	2023	7,500
	2024	7,500
	2025	7,500
	Total	<u>\$37,500</u>
