INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Plaquemine, Louisiana as of and for the year ended October 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principle generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Plaquemine, Louisiana as of October 31, 2020, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other required supplementary information on pages 4 through 13 and 80 through 85 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Plaquemine, Louisiana's basic financial statements. The budgetary comparison schedules, non-major special revenue funds, combining and individual non-major fund financial statements, component unit financial statements, schedule of compensation, benefits, and other payments to agency head and other supplemental information as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedules, non-major special revenue funds, combining and individual non-major fund financial statements, component unit financial statements, schedule of compensation, benefits, and other payments to agency head, and other supplemental information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules, non-major special revenue funds, combining and individual non-major fund financial statements, component unit financial statements, schedule of compensation, benefits, and other payments to agency head, and other supplemental information as listed in the table of contents is fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT (continued)

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2021, on our consideration of the City of Plaquemine, Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Plaquemine, Louisiana's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CITY OF PLAQUEMINE, LOUISIANA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Plaquemine, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Plaquemine for the fiscal year ended October 31, 2020. This management discussion and analysis ("MD&A") is designed to provide an objective and easy to read analysis of the City's financial activities based on currently known facts, decisions or conditions. It is intended to provide readers with a broad overview of the City's finances.

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and the other Required Supplemental Information that is provided in addition to this MD&A.

Financial Highlights

- The assets of the City of Plaquemine exceeded its liabilities at the close of the most recent fiscal year by \$40,601,038 (*net position*). Of this amount, \$887,546 (*unrestricted net position*) may be used to meet the government's ongoing obligations to citizens and creditors. The City's net position decreased by \$857,227.
- As of the close of the current fiscal year, the City of Plaquemine's governmental funds reported combined ending fund balances of \$10,694,445 a decrease of \$1,132,516 in comparison with the prior year. The unassigned fund balance in the general fund \$3,970,144 is *available for spending* at the government's discretion (*unreserved fund balance*). All other fund balances are restricted for the purpose for which the fund was created.
- At the end of the current fiscal year, unreserved fund balance for the general fund was 41 percent of the total general fund expenditures.
- The City of Plaquemine's total liabilities decreased by \$208,406. Significant to this decrease was a decrease in General Obligation Bonds of \$1,488,000. (Note I)

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Plaquemine's basic financial statements. The City of Plaquemine's basic financial statements comprise three components: 1) government wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Plaquemine's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Plaquemine's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net

position may serve as a useful indicator of whether the financial position of the City of Plaquemine is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the government-wide financial statements distinguish functions of the City of Plaquemine that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Plaquemine included general government, city court, police, fire, public works, recreation, public health, and debt service. The business-type activities of the City of Plaquemine include an electric, gas, water and sewer department. All business-type activities are included in a single enterprise fund, City Light & Water.

The government-wide financial statements include not only the City of Plaquemine itself (known as the *primary government*), but also a legally separate City Court of Plaquemine for which the City of Plaquemine is financially accountable. Financial information for this *component unit* is reported separately from the financial information for the primary government itself.

The government-wide financial statements can be found on pages 15-16 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Plaquemine, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Plaquemine can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Plaquemine maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, sales tax revenue, sales tax bond fund, and street improvement fund, all of which are considered to be major funds. Data for the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of Plaquemine adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-19 of this report.

Proprietary funds. The City of Plaquemine maintains only one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Plaquemine uses an enterprise fund to account for its utilities (electric, gas, water, and sewer).

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 20-22 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23-78 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Plaquemine's budgetary comparison schedules for its major governmental funds. The required supplementary information can be found on pages 79-85 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information on budgetary comparison schedules. Combining and individual fund statements and schedules can be found on pages 88-103 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Plaquemine, assets exceed liabilities by \$40,601,038 at the close of the most recent fiscal year. The following is a summary of the City of Plaquemine's net position:

CITY OF PLAQUEMINE Net Position

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
ASSETS						
Current and other assets	\$ 11,033,403	\$ 12,075,221	\$ 8,929,919	\$ 8,592,005	\$ 19,963,322	\$ 20,667,226
Capital assets	25,162,595	24,434,191	29,604,584	30,920,059	54,767,179	55,354,250
Total assets	36,195,998	36,509,412	38,534,503	39,512,064	74,730,501	76,021,476
DEFERRED OUTFLOWS OF RESOURCES						
Related to pensions	2,215,139	1,938,698	989,831	1,035,172	3,204,970	2,973,870
LIABILITIES						
Current	1,793,475	1,523,800	3,126,133	3,006,501	4,919,608	4,530,301
Long-term	15,233,293	15,407,920	16,407,072	16,830,158	31,640,365	32,238,078
Total liabilities	17,026,768	16,931,720	19,533,205	19,836,659	36,559,973	36,768,379
DEFERRED INFLOWS OF RESOURCES						
Related to pensions	688,148	638,980	86,314	129,722	774,462	768,702
Net position						
Invested in capital assets, net of related debt	17,116,847	15,247,132	16,290,584	17,203,059	33,407,431	32,450,191
Restricted	6,001,861	6,434,273	304,200	272,463	6,306,061	6,706,736
Unrestricted	(2,422,487)	(803,995)	3,310,033	3,105,333	887,546	2,301,338
Total net position	\$ 20,696,221	\$ 20,877,410	\$ 19,904,817	\$ 20,580,855	\$ 40,601,038	\$ 41,458,265

A large portion of the City of Plaquemine's net position (82%) reflects its investment in capital assets (e.g., land buildings, machinery, equipment, and utility plant) less any related debt used to acquire those assets that is still outstanding. The City of Plaquemine uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Plaquemine's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Plaquemine's net position (16%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (\$887,546) may be used to meet the government's on-going obligations to citizens and creditors. At the end of the current fiscal year, the City of Plaquemine is only able to report positive balances in all three categories of net position, for business-type activities. The City currently maintains a negative balance in governmental type activities. This is due to the recording of \$7,284,986 in pension liability.

The government's net position decreased by \$857,227 during the current fiscal year.

Net position 10/31	\$ 20,696,221	\$ 20,877,410	\$ 19,904,817	\$ 20,580,855	\$ 40,601,038	\$ 41,458,265

Governmental activities. Governmental activities decreased the City of Plaquemine's net position by \$181,189. The key elements of this decrease were repairs made to Old City Hall and an aggressive road repair program in 2020.

Business-type activities. Business-type activities decreased the City of Plaquemine's net position by \$676,038. The key elements of this decrease were a decrease in consumption and depreciation on the new Regional Wastewater Treatment Plant.

Financial Analysis of the Government's Funds

As noted earlier, the City of Plaquemine uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Plaquemine's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Plaquemine's financial requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Plaquemine's governmental funds reported combined ending fund balances of \$10,694,445, a decrease of \$1,132,516 in comparison with the prior year. Approximately 37% of this total amount (\$3,970,144) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is 1) restricted for debt service and special revenue funds (\$5,757,556) 2) committed for capital projects and next year's budget (\$794,531), 3) assigned (\$103,082) and 4) non-spendable (\$69,132).

The general fund is the chief operating fund of the City of Plaquemine. At the end of the current fiscal year fund balance of the general fund was \$4,673,970. As a measure of the general fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Fund balance represents 49% of total general fund expenditures.

The fund balance of the City of Plaquemine's general fund decreased, by \$704,359 during the current fiscal year. The primary factor of this decrease is due to the construction of the City's new community center.

The sales tax revenue fund has a total fund balance of \$103,082. All sales taxes collected flow into this fund. The City currently collects three separate sales taxes: 23.7649% of a 1% sales tax, 23.1441% of a 2/3% sales tax, and 23.7649% of a 1% sales tax.

The sales tax bond fund has a total fund balance of \$5,137,706, all of which is restricted for payment of debt service or reserved for road improvements. The net decrease in fund balance during the current fiscal year was \$52,561. The primary factor of this decrease was additional transfers to the Street Improvement fund for road repairs.

Proprietary fund. The City of Plaquemine's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of City Light and Water Plant (Electric, Natural Gas, Water and Sewerage) at the end of the current fiscal year amounted to \$3,310,033. The decrease in net position was \$676,038. Other factors concerning the finances of this fund have already been addressed in the discussion of the City of Plaquemine's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were as follows:

Revenues:

- Taxes increased by approximately \$26,000. This is mainly due to an increase in cable franchise taxes resulting in required quarterly reporting.

Expenditures:

- General government decreased by \$73,000. This was mainly due to two open positions during the year.
- The Police Department's budget increase of \$53,365 was for additional overtime (DEA Taskforce), as well as building and vehicle maintenance.
- The Recreation Department increased the budget for higher than expected bid on the construction of the Community Center.

Other financing sources:

- Transfers in from Sales Tax Revenue increased due to an increase in sales tax collections.

Capital Asset and Debt Administration

Capital Assets. The City of Plaquemine's investment in capital assets for its governmental and business type activities as of October 31, 2020, amounts to \$56,354,250 (net of depreciation). This investment in capital assets includes land, buildings, improvements (other than buildings), infrastructure, equipment, furniture and fixtures and utility plant and equipment. The total decrease in the City of Plaquemine's investment in capital assets for the current fiscal year was 0.6% (a 3.39% increase for the governmental activities and a 3.66% decrease for business-type activities).

Major capital asset events during the current fiscal year included the following:

- Land purchased on LA Hwy 1 (\$102,911).
- Vehicle purchases for the Police Department, (\$29,300) Utility Department (\$20,300), and Street Department (\$52,360).
- New radios for the Police Department, Fire Department and Volunteer Fire (\$88,890).
- The Fire Department purchased bunker gear (\$6,400) and extraction equipment (\$28,445)
- The Police Department purchased a phone recording system (\$6,400), and cameras (\$8,950).
- In the recreation department, work was completed on the Open air pavilion and community center, Phase III and IV. (\$1,772,300) and restrooms were added to three of the City parks (\$108,300).
- In an effort to improve public safety, several street cameras were purchased for placement in high crime areas. (\$6,316)
- The Electric and Water systems were expanded for several new subdivisions (\$211,160).
- Backup generator was ordered for the City's warehouse was purchased. (\$28,100).

Additional information on the City of Plaquemine's capital assets can be found in Note E on pages 39-41 of this report.

Long-term debt. At the end of the current fiscal year, the City of Plaquemine had total debt outstanding of \$21,148,748. Of this amount, a levy and collection of sales tax secures \$20,768,000 and \$380,748 is backed by the full faith and credit of the government.

Additional information on the City of Plaquemine's long-term debt can be found in Note I on pages 43-45 of this report.

Economic Factors and Next Year's Budget and Rates

- The unemployment rate for the City of Plaquemine region (Iberville Parish) for the year 2020 was 10.2%, which is higher than the State of Louisiana (8.3%) and the United States (8.1%).
- The City's general fund is heavily dependent upon the taxes derived from the petrochemical industry. Sales Tax increased slightly from 2019 to 2020. The impact of production and use on sales tax revenue will decrease in the short term and taxes are expected to increase in the long term.

All economic factors were considered in preparing the City of Plaquemine's budget for the 2020-2021 fiscal year.

With the national health emergency of COVID-19 declared in March 2020, the City continues to closely monitor its financial situation for 2020-2021 impacts.

Requests for Information

This financial report is designed to provide a general overview of the City of Plaquemine's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, City of Plaquemine, 23640 Railroad Ave., Plaquemine, Louisiana, 70764.

CITY OF PLAQUEMINE
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED OCTOBER 31, 2020

Amounts reported for governmental activities in the statement of activities (page 16) are different because:

Net Changes in fund balances - Total governmental funds (page 18)	\$ (1,132,516)
Change in net pension liability and deferred inflows and outflows in accordance with GASB 68.	(108,244)
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	728,404
The liability and expense for compensated absences are not reported in governmental funds. Payments for compensated absences are reported as salaries when they occur. Only the payment consumes current financial resources, and it would take a catastrophic event for this liability to become a current liability.	(112,875)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, which the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	444,042
Change in net position of governmental activities (page 16)	<u>\$ (181,189)</u>

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES

The City of Plaquemine was incorporated in 1878, under the provisions of Act 109 of the 1878 General Assembly. The City operates under a Mayor–Board of Selectmen form of government.

The accounting and reporting practices of the City of Plaquemine, Louisiana, conform to generally accepted accounting principles as applicable to governmental units on a consistent basis between periods. The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The City's proprietary fund applies all Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements, in which case, GASB pronouncements prevail. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the *Louisiana Municipal Audit and Accounting Guide*, and to the industry audit guide, *Audits of State and Local Governmental Units*, published by the American Institute of Certified Public Accountants.

The following is a summary of certain significant accounting policies and practices.

Financial Reporting Entity

Governmental Accounting Standards Board (GASB) Statement No. 61, codified into Section 2100, *Defining the Financial Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Since the City of Plaquemine, Louisiana is a general-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments, it is considered a primary government under the provisions of this Statement. As used in GASB Statement No. 61, fiscally independent means that the City may, without approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt.

The financial reporting entity consists of (a) the primary government (City), (b) the organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards established the criteria for determining which component units should be considered part of the Consolidated Government of the City for financial reporting purposes. The basic criteria includes the following:

1. Legal status of the potential component unit
2. Financial accountability
 - a. The primary government appoints a voting majority of the potential component unit's governing body and the primary government is able to impose its will on that organization or
 - b. When a potential component unit is fiscally dependent on the primary government regardless of whether the organization has separated elected officials or boards.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

3. Financial benefit/burden relationship between the City and potential component unit.
4. Misleading to exclude: Paragraph 111 of Section 2100 covers other potential component units for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

As required by generally accepted accounting principles, these financial statements present the City of Plaquemine, Louisiana (the primary government) and its component units. The component units included in the accompanying financial statements are discretely presented.

Discretely Presented Component Units

Component units that are legally separate from the municipality but are financially accountable to the municipality, or whose relationship with the municipality are such that exclusion would cause the municipality's financial statements to be misleading or incomplete are discretely presented. The "Component Units" column of the combined financial statements includes the financial data of these discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the municipality.

The following component unit is discretely presented in the accompanying financial statements: City Court of Plaquemine, Louisiana.

The City Court of Plaquemine was created under the provisions of Louisiana Revised Statute 13:2488,61. The City Judge and Marshal are elected by the voters of the City of Plaquemine and serve a term of six years as provided by Louisiana Revised Statutes 13:1872 and 13:1879, respectively. The City Court of Plaquemine has a December 31, 2019 year end.

City Court Judges and City Marshals are independently elected officials and are part of the operations of the City Court system. The City Court system is fiscally dependent on the municipality for office space and courtrooms. The substance of the relationship between the City Court system and the municipality is that the municipality has approval authority over its capital budget. In addition, the nature and significance of the relationship between the City Court system and the municipality is such that exclusion from the municipality's financial statements would render the financial statements incomplete or misleading. We conclude that City Court is component unit of the City of Plaquemine, Louisiana.

The December 31, 2019 audit report of the City Court of Plaquemine is shown in discrete presentation in the October 31, 2020 audit report of the City of Plaquemine, Louisiana. Copies of the component unit report can be obtained from the City Marshal or Judge.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

The following presents the condensed financial statements for each of the discretely presented component units:

Condensed Balance Sheet:

	<u>Governmental</u>	<u>Fiduciary</u>
1. Current assets	\$ 77,647	\$ 88,513
2. Property, plant and equipment	-	-
3. Current liabilities	12,015	88,513

Condensed Statement of Revenues, Expenditures and Changes in Fund Balances for Component Unit - Governmental Funds:

1. Revenues	\$ 453,670
2. Current expenditures	502,593
3. Capital outlay expenditures	-
4. Other financial sources (uses)	46,859
5. Excess (deficiency) of revenues and expenditures	(2,064)

Fund Accounting

The accounts of the City of Plaquemine are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The various funds are grouped in the financial statements in this report into three generic fund types as follows:

A. Governmental Funds

1. General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

2. Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, or major capital projects) that are legally restricted to expenditures for specific purposes.

CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

3. Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

4. Capital Projects Fund

Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities which are not financed by Proprietary and Trust Funds.

B. Proprietary Fund

Enterprise Fund

Enterprise Funds are used to account for operations:

(a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or

(b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the municipality. Fiduciary funds include:

Agency Funds

Agency Funds account for assets that the municipality holds on behalf of others as their agent. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the City of Plaquemine and its component units. For the most part, the effect of the interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the City of Plaquemine is reported separately from certain legally separate *component units* for which the City of Plaquemine is financially accountable.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claim and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when the government receives cash.

City of Plaquemine, Louisiana reports the following governmental funds:

Major Fund – General

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

Major Special Revenue Funds

The *Sales Tax Revenue Fund* is the City's primary fund for maintenance and outlay of roads and bridges throughout the city. This fund is supported by parish-wide sales tax revenue.

Major Debt Service Fund

The *Sales Tax Bond Fund* accounts for the payment of principal and interest on bonds.

Non-Major Special Revenue Funds

The *Building Maintenance Tax Fund* accounts for taxes received from 2.76 mills that were levied on property.

The *Police Equipment Tax Fund* accounts for taxes received from 2.76 mills that were levied on property.

The *Fire Department Capital Improvements Fund* accounts for the funds received from the Iberville Parish Council which are designated for the specific purpose of fire department capital expenditures.

Major Capital Projects Fund

The *Street Improvement Fund* accounts for the major capital improvements on the streets.

Non-Major Debt Service Funds

The *Note Payables – 2014 and 2017 Fund* accumulates monies for the payment of police vehicles and a fire truck, due in annual installments, plus interest due semiannually, through maturity in 2017 through 2024, respectively.

Major Proprietary Fund

The *Utility Department Fund* accounts for the sale of electricity, water, gas and sewer to customers within the City of Plaquemine.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's utility department and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility department enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types use the flow of current financial resources measurement focus and modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when measurable and available. "Measurable" meaning the amount of the transaction can be determined and "available" meaning collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers all revenue available if collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when obligations are expected to be liquidated with expendable available financial resources. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual funds use the following practices in recording revenues and expenditures:

A. Revenues

Ad valorem taxes and the related state revenue sharing (which is based on population and homesteads in the parish) are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

Federal and state grants are recorded when the City is entitled to the funds.

Interest income on time deposits are recorded when the time deposits have matured and the income is available.

Sales and use tax revenues are recorded in the month collected by the City.

Substantially all other revenues are recorded when received.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

B. Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for principal and interest on general long-term debt are recognized when due and compensated absences which are recognized when paid. Encumbrances are not recorded in the accounting records since no material amounts exist at year-end.

C. Other Financing Sources (Uses)

Transfers between funds, which are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses). Transfers are recorded when received or paid.

All proprietary funds are accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The proprietary funds use the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Basis of Presentation

The accompanying financial statements of the City of Plaquemine, Louisiana have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Budget and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in these financial statements:

1. The City Accountant prepares a proposed budget and submits same to the Mayor and Board of Selectmen no later than fifteen days prior to the beginning of each fiscal year.
2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.
5. Budgetary amendments involving the transfer of funds from one department, program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated, require the approval of the Board of Selectmen.

The chief executive or administrative officer must advise the governing authority when:

Total revenue collection by budgeted fund plus projected revenue collections for the remainder of the year fail to meet the estimated annual budgeted revenues by fund by more than 5%.

Total actual expenditures by budgeted fund plus projected expenditures for the remainder of the year exceed the total estimated budgeted expenditures by fund by more than 5%.

Actual beginning fund balance fails to meet the estimated beginning fund balance by more than 5%.

6. All budgetary appropriations lapse at the end of each fiscal year.
7. A budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts are as originally adopted, or as amended from time to time by the Board of Selectmen. A budget for the enterprise fund was prepared.

Budgets for the Debt Service Funds and Recreation Fund were not prepared for the year ended October 31, 2020.

Budgetary data for discretely presented component units are not presented in Combined Statement of Revenues, Expenditures, and Changes in Fund Balance—Budget and Actual.

Recently Implemented Accounting Pronouncements:

The GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of the Construction Period*. The objectives of GASB 89 are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. The City implemented this pronouncement for the period ending October 31, 2020, and all interest during construction and thereafter was expensed.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

Assets, Liabilities, and Net Position or Equity

A. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Enterprise Fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

B. Receivables and Payables

Customer receivables include amounts due from customers for the use of utilities. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts. The estimated amount is based on billings during the month following the close of the year. Customer accounts receivable of \$1,723,436 is reported net of a \$65,922 allowance for uncollectible accounts for the year ended October 31, 2020.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/due from" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business type activities are reported in the government-wide financial statements as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

C. Inventory

Engine fuel and gasoline inventory is stated at cost (FIFO) based on an estimated number of gallons unused at year end.

In the governmental fund types, inventories of supplies are recorded as expenditures at the time of purchase. Inventories of business-type activities are stated at cost that approximates market value using the weighted average method.

D. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond October 31, 2020 are recorded as prepaid expenses.

E. Restricted Assets

Restricted assets include cash and cash equivalents that are legally restricted as to their use. The restricted assets are related to customers' deposits and bond resolution requirements.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

F. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and estimated useful lives in excess of 1 year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant and equipment for the primary government, as well as the component units and enterprise funds, is depreciated using the straight-line method using the following useful lives:

Asset Class	Governmental Funds	Enterprise Funds
Buildings	40 Years	25-50 Years
Infrastructure	40 Years	N/A
Water/Gas/Sewerage Systems	N/A	5-50 Years
Furniture and Fixtures	5 -10 Years	3-15 Years
Vehicles	5 Years	4-8 Years

G. Investments

Under state law, the City of Plaquemine may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at market value.

H. Vacation and Sick Leave

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation may be accumulated unlimited, but more than 40 hours per calendar year may be added to an employee's total accumulated leave. Vacation pay is accrued when incurred in proprietary funds and recorded as a liability. Sick pay is accrued when incurred and recorded as a liability according to the City's policy in the proprietary funds when an employee is eligible to retire. For governmental fund types the City's liability has been recorded on the Statement of Net Assets.

I. Amortization

Bond premiums associated with bond issues are being amortized over the life of the issue.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

J. Allocation of Administrative and General Expenses

Administrative and general expenses are allocated to each individual utility system based on the percentage of each system's operating revenues to the total operating revenues for the entire Enterprise Fund.

K. Long Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds Payable are reported net of applicable bond premium discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Net Position

In the Statement of Net Position, the difference between a government's assets and liabilities is recorded as net position. The three components of net position are as follows:

Invested in Capital Assets, Net of Related Debt – This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes, or other borrowings attributable to the acquisition, construction, or improvement of capital assets.

Restricted Net Position – Assets are reserved by external sources, such as banks or by law, are reported separately as restricted net position.

Unrestricted Net Position – This category represents all assets not invested in capital assets or restricted.

M. Fund Balance

City of Plaquemine, Louisiana elected to implement GASB 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in fiscal year 2011. In the fund financial statements, fund balance of the governmental funds is classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

Restricted – Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – Amounts that can be used only for specific purposes determined by a formal action of the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board of Councilmen.

Assigned - Amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes.

Unassigned – All other spendable amounts.

As of October 31, 2020, fund balances were composed of the following:

	General Fund	Sales Tax Revenue	Sales Tax Payable	Street Improvement	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:						
Prepaid items	\$ 69,096	\$ -	\$ -	\$ 36	\$ -	\$ 69,132
Restricted:						
Sales Tax Payable	-	-	5,137,706	-	-	5,137,706
Police Equipment	-	-	-	-	93,553	93,553
Building Main.	-	-	-	-	273,599	273,599
Fire Dept	-	-	-	-	252,698	252,698
Committed:						
Capital Outlay	-	-	-	159,801	-	159,801
2020-2021 Budget	634,730	-	-	-	-	634,730
Assigned	-	103,082	-	-	-	103,082
Unassigned	3,970,144	-	-	-	-	3,970,144
Total Fund Balances	<u>\$ 4,673,970</u>	<u>\$ 103,082</u>	<u>\$ 5,137,706</u>	<u>\$ 159,837</u>	<u>\$ 619,850</u>	<u>\$ 10,694,445</u>

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considered restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City or the finance committee has provided otherwise in its commitment or assignment actions.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE A: SIGNIFICANT ACCOUNTING POLICIES, continued

N. Pension Plans

The City of Plaquemine is a participating employer in multiple cost-sharing, multiple-employer defined benefit pension plans as described in Note L. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions for the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within the plan.

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as revenue until then. The governmental funds report unavailable revenue from property taxes and state revenue sharing. These amounts are deferred and recognized as an inflow of resources in the period that amounts become available.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expenses/expenditure) until then.

NOTE B: CASH AND CASH EQUIVALENTS

For reporting purposes, cash and cash equivalents include cash, demand deposits, time deposits and certificates of deposit. Under state law, the City of Plaquemine, may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, or any other state in the Union, or the laws of the United States. Further, the City of Plaquemine may invest in time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE B: CASH AND CASH EQUIVALENTS, continued

For the year ended October 31, 2020, the City of Plaquemine entered into a fiscal agency contract with four (4) commercial banks domiciled within Iberville Parish. The contract provided that all deposits of the participating units (see below) are to be in Super NOW (negotiable orders of withdrawal) accounts paying a market rate of interest which approximates the interest rate on 13-week U.S. Treasury Bills. The contract called for participation by the banks in the ratio of their relative capital and surplus at October 31, 2020. The names of the banks and their participation percentages in the fiscal agency contract are as follows:

The First	21.99%
Citizens Bank & Trust Company	36.87%
Plaquemine Bank & Trust Company	27.44%
Anthem Bank & Trust Company	13.70%

Under the contract, Plaquemine Bank acted as the servicing bank or agent for the other banks and served as a clearinghouse for all deposits and withdrawals of the City. Each participating bank is to maintain an account in the name of the City and is required to pledge securities in excess of federal deposit (FDIC) insurance to protect the deposits of the City.

It has not been determined whether the component unit has a fiscal agency agreement of its own. Consequently, the information that follows refers only to the City's fiscal agency agreement.

At October 31, 2020, the City of Plaquemine has bank balances totaling \$16,197,024 and book balances totaling \$16,409,785 which includes restricted book balances of \$2,675,598 less petty cash of \$1,650. This amount is restricted for customer deposits and bond servicing.

Each of the four banks participating in the fiscal agency contract maintains an account in the name of the City of Plaquemine, and thus has separate federal deposit insurance for that account in the amount of \$250,000 for checking and savings accounts for a total of \$1,000,000 FDIC insurance. Any excess of deposits over federal deposit insurance must be secured under state law by the pledge of bank owned securities. The market value of the pledged securities plus the federal deposit insurance must at all times be at least equal to the amount on deposit with the banks. The pledged securities are held in the name of the pledging banks in an independent custodial bank that is mutually acceptable to the parties involved.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE B: CASH AND CASH EQUIVALENTS, continued

The following is a summary of cash and cash equivalents of the City of Plaquemine included in the fiscal agency contract at October 31, 2020, with the related federal deposit insurance and pledged securities:

	Bank Balances 10/31/2020	FDIC Insurance	Balances Uninsured
Cash	\$ 16,197,024	\$ 1,000,000	\$ 15,197,024
Uncollateralized Securities pledged and held by custodial banks in the name of fiscal agent banks, at fair market value, at 10-31-20			16,133,015
Excess of FDIC insurance and pledged securities over cash at 10-31-20			\$ 935,991

At December 31, 2019, the carrying amount of deposits for the City Court, a discretely presented component unit, was \$130,971 and the bank balance was \$ 195,780. The entire bank balance was covered by federal depository insurance.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be recovered. The City does not have a deposit policy for custodial credit risk. The deposits above are secured from risk by federal deposit insurance and pledged securities held by the custodial bank's trust department not in the name of the City. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial banks to advertise and sell the pledged securities within ten (10) days of being notified by the City that the fiscal agency bank(s) has (have) failed to pay deposited funds upon demand.

NOTE C: RECEIVABLES & DUE FROM GOVERNMENTAL UNITS

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE J: AD VALOREM TAXES

Ad valorem taxes attach as an enforceable lien on property in June of each year. Taxes are levied by the City in October or November and are actually billed to the taxpayers in December. Billed taxes become delinquent on December 31 of the following calendar year. Revenues are budgeted in the fiscal year billed.

The Iberville Parish Sheriff's Office bills and collects property taxes using the assessed values determined by the tax assessor or Iberville Parish. For the year ended October 31, 2020, the City levied taxes of 11.05 mills on property assessed valuations totaling \$37,309,965. These were dedicated as follows:

General corporate purposes	4.85 mills
Building maintenance	3.10 mills
Police equipment	3.10 mills

Total taxes levied were \$412,278, where approximately \$405,629 were collected for the fiscal year ended October 31, 2020. The Iberville Parish Sheriff's Office received a commission of \$8,278.

NOTE K: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivable and payable representing short-term borrowing at October 31, 2020 were as follows:

Fund	Interfund Receivables	Interfund Payables	Total Governmental Activities (Net)	Total Business-Type Activities (Net)
General Fund	\$ 3,698,479	\$ -	\$ 3,698,479	\$ -
Major Funds:				
Sales Tax Revenue	-	(3,850,053)	(3,850,053)	-
Sales Tax Bond Fund	1,191,211	(125,000)	1,066,211	(1,026,387)
Street Improvement	125,000	(826)	124,174	826
Non Major Funds:				
Police Equipment Fund	-	(13,250)	(13,250)	-
Total	<u>5,014,690</u>	<u>(3,989,129)</u>	<u>\$ 1,025,561</u>	
Major:				
Proprietary Fund	<u>826</u>	<u>(1,026,388)</u>		<u>\$ (1,025,561)</u>

The outstanding balances between funds result mainly from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

Street Improvement	-	-	1,275,000	-	148,732	1,423,732
Non Major Funds	26,148	-	-	126,277	-	152,425
	<u>\$ 26,148</u>	<u>\$ 9,142,069</u>	<u>\$ 1,275,000</u>	<u>\$ 470,808</u>	<u>\$ 409,938</u>	<u>\$ 11,323,963</u>

The principal purpose of the above interfund transfers is to supplement revenues for ongoing operations and to supplement future capital outlay purchases.

NOTE L: PENSION PLAN

The City of Plaquemine's office implemented Government Accounting Standards Board (GASB) Statement 68 on Accounting and Financial Reporting Related to Pensions and Statement 71 on Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB 68. These standards require that the City of Plaquemine's office to record its proportional share of each of the pension plan's Net Pension Liability and report the following disclosures:

Substantially all employees of the City of Plaquemine are members of either, the Municipal Employees Retirement System of Louisiana, the Municipal Police Employee's Retirement System of Louisiana, the Firefighters' Retirement System, or the Louisiana State Employees' Retirement System. The systems are cost-sharing, multiple-employer defined benefit pension plan administered by separate boards of trustees. Pertinent information relative to each plan follows:

Municipal Employees Retirement System of Louisiana (MERS)

Plan Description:

All of the City's full-time general employees participate in the MERS, a multiple-employer, cost-sharing pension plan administered by a separate board of trustees. The System was originally established by Act 356 of the 1954 regular session of the Legislature of the State of Louisiana to provide retirement benefits to employees of all incorporated villages, towns and cities within the State which do not have their own retirement system and which elect to become members of the System. MERS has issued a stand-alone audit report on their financial statements for the year ended June 30, 2020. Access to the report can be found on the Louisiana Legislative Auditor's website, www.la.la.gov.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

Retirement Benefits:

Any member of Plan A who was commenced participation in the System prior to January 1, 2013 can retire providing the member meets one of the following criteria: (1) any age with twenty-five (25) or more years of creditable service, (2) Age 60 with a minimum of ten (10) years of creditable service, (3) any age with twenty (20) years of creditable service, exclusive of military service and unused annual and sick leave, with an actuarially reduced early benefit.

Generally, the monthly amount of the retirement allowance for any member of Plan A shall consist of an amount equal to three percent of the member's monthly average final compensation multiplied by his years of creditable service. Final compensation is the average monthly earnings during the highest sixty consecutive months, or joined months if service was interrupted. However, under certain conditions as outlines in the statutes, the benefits are limited to specified amounts. An additional regular retirement benefit can be received for any city marshal or deputy city marshal.

Any member of Plan A Tier 2 can retire providing he or she meets one of the following requirements: (1) Age 67 with seven years of creditable service; (2) Age 62 with ten years of creditable service; (3) Age 55 with thirty years of creditable service; (4) Any age with twenty-five (25) years of creditable service, exclusive of military service and unused annual and sick leave, with an actuarially reduced early benefit.

Generally, the monthly amount of retirement allowance for any member of Plan A Tier 2 shall consist of an amount equal to three percent of the member's final average compensation multiplied by his years of creditable service. Final average compensation is the average monthly earnings during the highest sixty consecutive months, or joined months if service was interrupted. However, under certain conditions as outline in the statutes, the benefits are limited to specified amounts. Any city marshal or deputy city marshal shall receive an additional regular benefit computed on supplemental marshal's earnings.

Survivor Benefits:

Upon death of any member of Plan A with five (5) or more years of creditable service, not eligible for retirement, the plan provides for benefits for the surviving spouse and/or minor children as outlined in the statutes.

Any member of Plan A who is eligible for normal retirement at time of death and who leaves a surviving spouse will be deemed to have retired and selected Option 2 benefits on behalf of the surviving spouse on the date of death. Such benefits will begin only upon proper application and are paid in lieu of any other survivor benefits.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

DROP Benefits:

In lieu of terminating employment and accepting a service retirement allowance any member of Plan A who is eligible to retire may elect to participate in the deferred retirement option plan (DROP) for up to three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits would be payable, had the person elected to cease employment and received a service retirement allowance, are paid into the DROP fund. Interest is earned when the member has completed DROP participation. Interest earnings are based upon the actual rate of return on the investments identified as DROP funds for the period. In addition, no cost-of-living increases are payable to participants until employment which made them eligible to become members of the System has been terminated for at least one full year.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or any other method of payment if approved by the board of trustees. If a participant dies during participation in the DROP, a lump sum equal to the balance in his account shall be paid to his named beneficiary or, if non, to his estate. If employment is not terminated at the end of the three years, payments into the DROP fund cease and the person resumes active contributing membership in the System.

Disability Benefits:

For Plan A, a member shall be eligible to retire and receive a disability benefit if he has at least five years of creditable service, is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of (1) an amount equal to three percent of his final compensation multiplied by his years of creditable service, but not less than forty-five percent of his final compensation, or (2) an amount equal to what the member's normal retirement benefit would be based on the member's current final compensation, but assuming the member remained in continuous service until his earliest normal retirement age and using those retirement benefit computation factors which would be applicable to the member's normal retirement.

Cost of Living Increases:

The System is authorized under state law to grant a cost of living increase to members who have been retired for at least one year. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. State law allows the System to grant an additional cost of living increase to all retirees and beneficiaries who are age sixty-five and above equal to 2% of the benefit being received on October 1, 1977, or the original benefit, if retirement commenced after that date.

Deferred Benefits:

Plan A provides for deferred benefits for members who terminate before becoming eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable. Benefits are based on statutes in effect at time of withdrawal.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Employer Contributions:

Contributions for all plan members are established by statute. Member contributions are at 9.50% of earnable compensation for Plan A. The contributions are deducted from the member's salary and remitted by the participating municipality. According to state statute, contribution requirements for all employers are actuarially determined each year. For the year ending June 30, 2020, the actual employer contribution rate was 27.75% for member's earnings for Plan A.

According to state statute, the System also received one-fourth (1/4) of 1% of ad valorem taxes collected within the respective parishes, except for Orleans. Tax monies are apportioned between Plan A and Plan B in proportion to salaries of plan participants. Tax monies received from East Baton Rouge Parish are apportioned between the Municipal Employee's Retirement System and the Employee's Retirement System of The City of Baton Rouge. The System also receives revenue sharing funds each year as apportioned by the Legislature. These additional sources of income are used as additional employer contributions and considered support from non-employer contributing entities. Administrative costs of the System are financed through employer contributions.

Plan members are required by state statute to contribute 9.50 percent of their annual covered salary to the System, and the City of Plaquemine is required to make contributions at an actuarially determined rate. The rate paid by the City during the past fiscal period was 27.75% from November 1, 2019 through June 30, 2020 and 29.50% from July 1, 2020 through October 31, 2020 of annual covered payroll. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the MERS during the years ended October 31, 2020, 2019, and 2018, totaled \$856,336, \$796,781, and \$726,780, respectively,

Pension Liabilities, Pension Expense, and Deferred Outflows and Resources and Deferred Inflows of Resources:

At October 31, 2020, the City reported a liability of \$2,855,464 for its governmental activities and \$3,975,790 for its business-type activities for its proportionate share of the net pension liability for MERS, totaling \$6,831,254. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the City's proportion for MERS was 1.580062%, which was a decrease of .021831% from its proportion measured as of June 30, 2019.

For the year ended October 31, 2020, the City recognized pension expense of \$484,461 for its governmental activities for MERS less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, (\$22,850), and recognized pension expense of \$674,537 for its business-type activities for MERS less employer's amortization of change in proportionate share and difference between employer contributions and proportionate share of contributions, (\$31,814).

CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

At October 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for its governmental activities and business-type activities for MERS from the following sources:

	Governmental Activities		Business-Type Activities	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,324	\$ (16,187)	\$ 1,844	\$ (22,539)
Changes of assumptions	48,039	-	66,886	-
Net difference between projected and actual earnings on pension plan investments	284,946	-	396,743	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	18,652	(45,804)	25,970	(63,775)
Employer contributions subsequent to the measurement date	357,948	-	498,388	-
Total	\$ 710,909	\$ (61,991)	\$ 989,831	\$ (86,314)

The City reported a total for MERS of \$357,948 for its governmental activities and \$498,388 for its business-type activities as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2020, which will be recognized as a reduction in net pension liability for the year ended October 31, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	Governmental Activities	Business-Type Activities
2021	\$ 111,483	\$ 155,222
2022	72,973	101,604
2023	64,746	90,148
2024	41,768	58,155
	\$ 290,970	\$ 405,129

Actuarial Assumptions:

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples included assumptions about future employment mortality and future salary increases. Actuarially determined amounts regarding the net pension liability are subject to continual revision as actual results are compared to past expectations, and net estimates are made about the future. The actuarial assumptions used in the June 30, 2020 valuation was based on the results of an actuarial experience study, for the period July 1, 2013 through June 30, 2018.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

A summary of actuarial methods and assumptions used in determining the total net pension liability for MERS as of June 30, 2020 is as follows:

Valuation Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	3 years for Plan A
Investment Rate of Return	6.95%, net of pension plan investment expense, including inflation
Inflation Rate	2.500%
Salary increases, including inflation and merit increases	1 to 4 years of service = 6.4% More than 4 years of service = 4.5%
Annuitant and beneficiary mortality	PubG-2010(B) Healthy Retiree Table set equal to 120% for males and females, each adjusted using their respective male and female MP2018 scales.
Employee mortality	PubG-2010(B) Employee Table set equal to 120% for males and females, each adjusted using their respective male and female MP2018 scales.
Disabled lives mortality	PubNS-2010(B) Disabled Retirees Table set equal to 120% for males and females with the full generational MP2018 scale.

Discount Rate:

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The target allocation and best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Asset Allocation	Portfolio Real Rate of Return
Public equity	53%	2.33%
Public fixed income	38%	1.67%
Alternatives	9%	0.40%
Totals	100%	4.40%
Inflation		2.60%
Expected Arithmetic Nominal Return		7.00%

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

The discount rate used to measure the total pension liability was 6.95% for the year ended June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The effects of certain other changes in the net pension liability are required to be included in pension expenses over the current and future periods. The effects on the total pension liability of (1) changes of economic and demographic assumptions or of other inputs and (2) differences between expected and actual experience are required to be included in the pension expense in a systematic and rational manner over a closed period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees), determined as of the beginning of the measurement period. The effect on net pension liability of differences between the projected earnings on pension plan investments and actual experience with regard to those earnings is required to be included in pension expense in a systematic and rational manner over a closed period of five years, beginning with the current period.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following table represents the City's proportionate share of the net pension liability (NPL) using the discount rate for MERS as well as the City's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage higher than the current rate used by MERS:

Governmental Activities			
	1.0% Decrease	Current	1.0% Increase
	5.950%	Discount Rate	7.950%
		6.950%	
Net Pension Liability	\$ 3,714,646	\$ 2,855,464	\$ 2,128,990
Business-Type Activities			
	1.0% Decrease	Current	1.0% Increase
	5.950%	Discount Rate	7.950%
		6.950%	
Net Pension Liability	\$ 5,172,067	\$ 3,975,790	\$ 2,964,287

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Municipal Police Employees Retirement System of Louisiana (MPERS)

Plan Description:

All of the City's full-time police employees participate in the MPERS, a multiple-employer, cost-sharing, defined benefit pension plan administered by a separate board of trustees. MPERS was established by Act 189 of 1973 and amended by LRS 11:2211-11:2233 to provide retirement, disability, and survivor benefits to municipal police officers of Louisiana. Benefits are established and amended by state statute. MPERS issued a stand-alone audit report on its financial statements for the year ended June 30, 2020. Access to the audit report can be found on the System's website: www.lampers.org or on the Office of Louisiana Legislative Auditor's official website: www.lla.state.la.us.

Retirement Benefits:

Membership Prior to January 1, 2013. A member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 20 years of creditable service and is age 50 or has 12 years of creditable service and is age 55. A member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age with an actuarially reduced benefit.

Benefit rates are 3.33% of average final compensation (average monthly earnings during the highest 36 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

Upon the death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from forty to sixty percent of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives benefits equal to ten percent of the member's average final compensation or \$200 per month, whichever is greater.

Membership Commencing January 1, 2013. Member eligibility for regular retirement, early retirement, disability and survivor benefits are based on Hazardous Duty and Non-Hazardous Duty sub plans. Under the Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 12 years of creditable service at age 55. Under the Non-Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 30 years of creditable service at any age, 25 years of creditable service at age 55, or 10 years of creditable service at age 60. Under both sub plans, a member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age, with an actuarially reduced benefit from age 55.

Under the Hazardous and Non-Hazardous Duty sub plans, the benefit rates are 3% (generally) and 2.50%, respectively, of average final compensation (average monthly earnings during the highest 60 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Upon death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from 25% to 55% of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives 10% of average final compensation or \$200 per month whichever is greater. If deceased member had less than ten years of service, beneficiary will receive a refund of employee contributions only.

Cost of Living Adjustments:

The Board of Trustees is authorized to provide annual cost-of-living adjustments computed on the amount of the current regular retirement, disability, beneficiary or survivor's benefit, not to exceed 3% in any given year. The Board is authorized to provide an additional 2% COLA, computed on the member's original benefit, to all regular retirees, disability, survivors and beneficiaries who are 65 years of age or older on the cut-off date which determines eligibility.

No regular retiree, survivor or beneficiary shall be eligible to receive a cost-of-living adjustment until benefits have been received at least one full fiscal year and the payment of such COLA, when authorized, shall not be effective until the lapse of at least one-half of the fiscal year. Members who elect early retirement are not eligible for a cost of living adjustment until they reach regular retirement age.

A COLA may only be granted if funds are available from interest earnings in excess of normal requirements, as determined by the actuary.

Deferred Retirement Option Plan:

A member is eligible to elect to enter the deferred retirement option plan (DROP) when he is eligible for regular retirement based on the members' sub plan participation. Upon filing the application for the program, the employee's active membership in the System is terminated. At the entry date into the DROP, the employee and employer contributions cease. The amount to be deposited into the DROP account is equal to the benefit computed under the retirement plan elected by the participant at date of application. The duration of participation in the DROP is 36 months or less. If employment is terminated after the three-year period the participant may receive his benefits by lump sum payment or a true annuity. If employment is not terminated, active contributing membership into the System shall resume and upon later termination, he shall receive additional retirement benefit based on the additional service. For those eligible to enter DROP prior to January 1, 2004, DROP accounts shall earn interest subsequent to the termination of DROP participation at a rate of half of one percentage point below the percentage rate of return of the System's investment portfolio as certified by the actuary on an annual basis but will never lose money. For those eligible to enter DROP subsequent to January 1, 2004, an irrevocable election is made to earn interest based on the System's investment portfolio return or a money market investment return. This could result in a negative earnings rate being applied to the account. If the member elects a money market investment return, the funds are transferred to a government money market account and earn interest at the money market rate.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Initial Benefit Option Plan:

In 1999, the State Legislature authorized the System to establish an Initial Benefit Option program. Initial Benefit Option is available to members who are eligible for regular retirement and have not participated in DROP. The Initial Benefit Option program provides both a one-time single sum payment of up to 36 months of regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest is computed on the balance based on same criteria as DROP.

Employer Contributions:

Contributions for all members are actuarially determined as required by state law but cannot be less than 9% of the employees' earnable compensation excluding overtime but including state supplemental pay.

For the year ended June 30, 2020, total contributions due for employers and employees was 42.5%. The employer and employee contribution rates for all members hired prior to January 1, 2013 and Hazardous Duty members hired after January 1, 2013 were 32.50% and 10%, respectively. The employer and employee contribution rates for all Non-Hazardous Duty members hired after January 1, 2013 were 32.50% and 8%, respectively. The employer and employee contribution rates for all members whose earnable compensation is less than the poverty guidelines were 34.25% and 7.50%, respectively.

The System also receives insurance premium tax monies as additional employer contributions. The tax is considered support from a non-contributing entity and appropriated by the legislature each year based on an actuarial study. Non-employer contributions were recognized as revenue during the year ended June 30, 2020 and excluded from pension expense.

Plan members are required by state statute to contribute 10.00 percent of their annual covered salary to the System, and the City of Plaquemine is required to make contributions at an actuarially determined rate. The rate paid by the City during the past fiscal period was 32.50 percent from November 1, 2019 through June 30, 2020 and 33.75 percent from July 1, 2020 through October 31, 2020 of annual covered payroll. The contribution requirements of plan members and the City of Plaquemine are established and amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the MPERS during the years ended October 31, 2020, 2019, and 2018, total \$309,319, \$298,557, and \$290,373, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows and Resources and Deferred Inflows of Resources:

At October 31, 2020, the City reported a liability of \$2,770,647 for its proportionate share of the net pension liability for MPERS. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the City's proportion for MPERS was .299778%, which was an increase of .020752% from its proportion measured as of June 30, 2019.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

For the year ended October 31, 2020, the City recognized pension expense of \$394,805 for MPERS less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, (\$2,240). At October 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for MPERS from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ (109,134)
Changes of assumptions	65,837	(68,376)
Net difference between projected and actual earnings on pension plan investments	332,395	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	158,468	(192,497)
Employer contributions subsequent to the measurement date	<u>309,319</u>	<u>-</u>
Total	<u>\$ 866,019</u>	<u>\$ (370,007)</u>

The City reported a total for MPERS of \$309,319 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2020, which will be recognized as a reduction in net pension liability for the year ended October 31, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year</u>	
2021	\$ (22,011)
2022	41,411
2023	104,170
2024	63,123
	<u>\$ 186,693</u>

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Actuarial Assumptions:

The actuarial assumptions used in the June 30, 2020 valuation were based on the assumptions used in the June 30, 2020 actuarial funding valuation and were based on the results of an actuarial experience study for the period of July 1, 2014 through June 30, 2019. In cases where benefit structures were changed after the study period, assumptions were based on estimates of future experience. A summary of actuarial methods and assumptions used in determining the total net pension liability for MPERS as of June 30, 2020 is as follows:

Valuation Date	June 30, 2020	
Actuarial Cost Method	Entry Age Normal Cost	
Actuarial Assumptions:		
Inflation Rate	2.50%	
Expected Remaining Service Lives	4 years	
Investment Rate of Return	6.95%, net of investment expense	
Projected Salary Increases	<u>Years of Service</u>	<u>Salary Growth Rate</u>
	1 - 2	12.30%
	Above 2	4.70%

Mortality

For annuitants and beneficiaries, the Pub-2010 Public Retirement Plan Mortality Table for Safety Below-Median Health Retirees multiplied by 115% for males and 125% for females, each with full generational projection using the MP2019 scale was used. For disabled lives, the Pub-2010 Public Retirement Plans Mortality Table for Safety Disabled Retirees multiplied by 105% for males and 115% for females, each with full generational projection using the MP2019 scale was used. For employees, the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Employees multiplied by 115% for males and 125% for females, each with full generational projection using the MP2019 scale was used.

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost-of-living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

Mortality Rate:

The mortality rate assumption used was verified by upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. A change was made in full generational mortality with combines the use of a base mortality with appropriate mortality improvement scales. In order to set the base mortality table, actual plan mortality experience was assigned a credibility weighting and combined with a standard table to produce current levels of mortality.

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

The best estimates of the arithmetic nominal rates of return for each major asset class included in the System's target allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Equity	48.5%	3.08%
Fixed income	33.5%	0.54%
Alternatives	18%	1.02%
Other	0%	0.00%
Totals	100%	4.64%
Inflation		2.55%
Expected Arithmetic Nominal Return		7.19%

Discount Rate:

The discount rate used to measure the total pension liability was 3.950%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following table represents the City's proportionate share of the net pension liability (NPL) using the discount rate for MPERS as well as the City's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage higher than the current rate used by MPERS:

	1.0% Decrease	Current Discount Rate	1.0% Increase
	5.950%	6.950%	7.950%
Net Pension Liability	\$ 3,892,464	\$ 2,770,647	\$ 1,832,855

Firefighters' Retirement System (FRS)

Plan Description:

All of the City's full-time fire employees participate in the FRS, a multiple-employer, cost-sharing, defined benefit pension plan administered by a separate board of trustees. FRS was established by Act 434 of 1979 and amended by LRS 11:2251-11:2272 to provide retirement, disability, and survivor benefits to participating, eligible firefighters in Louisiana. Benefits are established and amended by state statute. FRS issued a stand-alone audit report on its financial statements for the year ended June 30, 2020. Access to the audit report can be found on the System's website: www.ffret.com or on the Office of Louisiana Legislative Auditor's official website: www.la.state.la.us.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Retirement Benefits:

Employees with 20 or more years of service who have attained age 50, or employees who have 12 years of service who have attained age 55, or 25 years of service at any age are entitled to annual pension benefits equal to 3.333% of their average final compensation based on the 36 consecutive months of highest pay multiplied by their total years of service, not to exceed 100%. Employees may elect to receive their pension benefits in the form of a joint a survivor annuity.

If employees terminate before rendering 12 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to their employer's contributions. Benefits are payable over the employees' lives in the form of a monthly annuity. An employee may elect an unreduced benefit or any of seven options at retirement. See R.S. 11:2256(A) for additional details on retirement benefits.

Disability Benefits:

A member who acquires a disability, and who files for disability benefits while in service, and who upon medical examination and certification as provided for in Title 11, is found to have a total disability solely as the result of injuries sustained in the performance of his official duties, or for any cause, provided the member has at least five years of creditable service and provided that the disability was incurred while the member was an active contributing member in active service, shall be entitle to disability benefits under the provisions of R.S. 11:2258(B).

Death Benefits:

Benefits shall be payable to the surviving eligible spouse or designated beneficiary of a deceased member as specified in R.S. 112256(B) and (C).

Deferred Retirement Option Plan:

After completing 20 years of creditable service and attaining the age of 50 years, or 25 years at any age, a member may elect to participate in the deferred retirement option plan (DROP) for up to 36 months. Upon commencement of participation in the deferred retirement option plan, employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the member's DROP account. Upon termination of employment, a participant in the program has several options to receive their DROP benefit. A member may (1) elect to roll over all or a portion of their DROP balance into another eligible qualified plan, (2) receive a lump-sum payment from their account, (3) receive single withdrawals at the discretion of the member, (4) receive monthly or annual withdrawals, or (5) receive an annuity based on the DROP account balance. These withdrawals are in addition to his regular monthly benefits.

If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the deferred retirement option plan account until the participant retires.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

Initial Benefit Option Plan:

Effective June 16, 1999, members eligible to retire and who do not choose to participate in DROP may elect to receive, at the time of retirement, an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. Such amounts may be withdrawn or remain in the IBO account earning interest at the same rate as the DROP account.

Cost of Living Adjustments (COLAs):

Under the provisions of R.S. 11:246 and 11:2260 (A)(7), the board of trustees is authorized to grant retired members and widows of members who have retired an annual cost of living increase of up to 3% of their current benefit, and all retired members and widows who are 65 years of age and older a 2% increase in their original benefit. In order for the board to grant either of these increases, the System must meet certain criteria detailed in the statute related to funding status and interest earnings (R.S. 11:243). In lieu of these COLAs, pursuant to R.S. 11:241, the board may also grant an increase based on a formula equal to up to \$1 times the total number of years of credited service accrued at retirement or at death of the member or retiree plus the number of years since retirement or since death of the member or retiree to the system's fiscal year end preceding the payment of the benefit increase. If there are not sufficient funds to fund the benefit at the rate of one dollar per year for such total number of years, then the rate shall be reduced in proportion to the amount of funds that are available to fund the cost-of-living adjustment.

Employer Contributions:

Contribution requirements for employers, non-employer contributing entities, and employees are established and may be amended in accordance with Title 11 and Title 22 of the Louisiana Revised Statutes.

According to State statute, employer contributions are actuarially-determined each year. For the year ended June 30, 2020, employer and employee contribution rates for members above the poverty line were 27.75% and 10.00%, respectively. The employer and employee contribution rates for those members below the poverty line were 29.75% and 8.00%, respectively.

According to State statute, the System receives insurance premium tax funds from the State of Louisiana. The assessment is considered support from a non-employer contributing entity and appropriated by the legislature each year based on an actuarial study. Non-employer contributions were recognized as revenue during the year ended June 30, 2020, and were excluded from pension expense.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Plan members are required by state statute to contribute 10.00 percent of their salary to the System, and the City of Plaquemine is required by this statute to contribute the remaining amounts necessary to pay benefits when due (27.75% for November 1, 2019 through June 30, 2019 and 30.25% for July 1, 2020 through October 31, 2020). The contribution requirements of plan members and the City of Plaquemine are established and amended by state law. As required by state law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the FRS during the years ended October 31, 2020, 2019, and 2018, totaled \$167,547, \$146,156, and \$159,249, respectively, equal to the required contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows and Resources and Deferred Inflows of Resources:

At October 31, 2020, the City reported a liability of \$1,514,883 for its proportionate share of the net pension liability for FRS. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the City's proportion for FRS was .218549%, which was a decrease of .021031% from its proportion measured as of June 30, 2019.

For the year ended October 31, 2020, the City recognized pension expense of \$257,166 for FRS less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, (\$2,986).

At October 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for FRS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (96,922)
Changes of assumptions	146,441	-
Net difference between projected and actual earnings on pension plan investments	166,828	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	106,218	(144,621)
Employer contributions subsequent to the measurement date	167,547	-
Total	<u>\$ 587,034</u>	<u>\$ (241,543)</u>

The City reported a total for FRS of \$167,547 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2020, which will be recognized as a reduction in net pension liability for the year ended October 31, 2021.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	
2021	\$ 26,364
2022	73,488
2023	66,331
2024	37,933
2025	(11,997)
2026	(14,175)
	<u>\$ 177,944</u>

Actuarial Assumptions:

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2019. In cases where benefit structures were changed after the study period, assumptions were based on estimate of future experience. A summary of actuarial methods and assumptions used in determining the total net pension liability for FRS as of June 30, 2020 is as follows:

Valuation Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Inflation Rate	2.500% per annum
Expected Remaining Service Lives	7 years, closed period
Investment Rate of Return	7.00% per annum (net of investment expenses, including inflation)
Projected Salary Increases	14.10% in the first two years of service and 5.20% with 3 or more years of service; includes inflation and merit increases.
Cost of Living Adjustments	For the purpose of determining the present value of benefits, COLAs were deemed not to be substantively automatic and only those previously granted were included.

Mortality Rate:

The mortality rate assumptions were updated in fiscal year 2020 to reflect changes from the recent experience study and rates set in the Pub-2010 Public Retirement Plans mortality tables, as compared to the RP-2000 Combined Healthy and Disabled Lives tables that were used for the previous valuations. For the June 30, 2020 valuation, assumptions for mortality rates were based on the following:

- For active members, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Employees.
- For annuitants and beneficiaries, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Healthy Retirees.
- For disabled retirees, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Disabled Retirees.
- In all cases the base table was multiplied by 105% for males and 115% for females, each with full generational projection using the MP2019 scale.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

The estimated long-term expected rate of return on pension plan investments was determined by the System's actuary using the System's target asset allocation and the G.S. Curran & Company Consultant Average study for 2020. The consultants' average study included projected nominal rates of return, standard deviations of returns, and correlations of returns for a list of common asset classes collected from a number of investment consultants and investment management firms. Each consultant's response included nominal expected long term rates of return. In order to arrive at long term expected arithmetic real rates of return, the actuary normalized the data received from the consultant's responses in the following ways. Where nominal returns received were arithmetic, the actuary simply reduced the return assumption by the long term inflation assumption. Where nominal returns were geometric, the actuary converted the return to arithmetic by adjusting for the long term standard deviation and then reduced the assumption by the long term inflation assumption. Using the target asset allocation for the System and the average values for expected real rates of return, standard deviation of returns, and correlation of returns, an arithmetic expected nominal rate of return and standard deviation for the portfolio was determined. The System's long-term assumed rate of inflation of 2.50% was used in this process for the fiscal year ended June 30, 2020. Best estimates of arithmetic real rates of return for each major class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Type		Target Asset Allocation	Long-term Expected Real Rate of Return
Equity	U.S. Equity	26.00%	5.72%
	Non-U.S. Equity	12.00%	6.24%
	Global Equity	10.00%	6.23%
	Emerging Market Equity	6.00%	8.61%
Fixed Income	U.S. Core Fixed Income	26.00%	1.00%
	Emerging Market Debt	5.00%	3.40%
Multi-Asset	Global Tactical Asset Allocation	0.00%	4.22%
Strategies	Risk Parity	0.00%	4.22%
Alternatives	Real Estate	6.00%	4.20%
	Private Equity	9.00%	10.29%
		<u>100.00%</u>	

Discount Rate:

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates, and that contributions from participating employers and non-employer contributing entities will be made at the actuarially-determined rates approved by the Board of Trustees and by the Public Retirement Systems' Actuarial Committee taking into consideration the recommendation of the System's actuary. Based on these assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following table represents the City's proportionate share of the net pension liability (NPL) using the discount rate for FRS as well as the City's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage higher than the current rate used by FRS:

	1.0% Decrease 6.00%	Current Discount Rate 7.00%	1.0% Increase 8.00%
Net Pension Liability	\$ 2,188,234	\$ 1,514,883	\$ 952,834

Louisiana State Employees' Retirement System

Plan Description:

All of the Plaquemine's City Court (a component unit) employees, are provided with pensions through a multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org. The following is a description of the plan and its benefits and is provide for general information only.

Retirement Benefits:

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service and at age 60 upon completing ten years of creditable service depending on the plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basis annual retirement annual retirement benefit for members equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Act 992 on the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan. Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classifications.

Deferred Retirement Benefits:

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account.

Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit plan (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate at one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004 are required to enter the SDP as described above.

Disability Benefits:

All members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation.

Survivor Benefits:

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

Permanent Benefit Increases/Cost of Living Adjustments:

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

Employer Contributions:

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially-determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership. Rates for the year ended June 30, 2020 are as follows:

Plan	Plan Status	Employer Contribution Rate
Appellate Law Clerks	Closed	40.7%
Appellate Law Clerks hired on or after 7/1/06	Open	40.7%
Alcohol Tobacco Control	Closed	33.9%
Bridge Police	Closed	39.8%
Bridge Police hired on or after 7/1/06	Closed	39.8%
Corrections Primary	Closed	36.9%
Corrections Secondary	Closed	40.7%
Harbor Police	Closed	7.7%
Hazardous Duty	Open	41.7%
Judges hired before 1/1/2011	Closed	42.4%
Judges hired after 12/31/2010	Closed	42.0%
Judges hired on or after 7/1/05	Open	42.0%
Legislators	Closed	40.4%
Optional Retirement Plan (ORP) before 7/1/06	Closed	40.7%
Optional Retirement Plan (ORP) after 7/1/06	Closed	40.7%
Peace Officers	Closed	39.4%
Regular Employees hired before 7/1/06	Closed	40.7%
Regular Employees hired after 7/1/06	Closed	40.7%
Regular Employees hired on or after 1/1/11	Closed	40.7%
Regular Employees hired on or after 7/1/15	Open	40.7%
Special Legislative Employees	Closed	42.4%
Wildlife Agents	Closed	49.7%
Aggregate Rate		40.8%

The City's contractually required composite contribution rate for the year ended October 31, 2020 was 42.4%, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the City for the years ended October 31, 2020, 2019, and 2018, were \$14,369, \$12,628, and \$11,910, respectively.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE L: PENSION PLAN, continued

Pension Liabilities, Pension Expense, and Deferred Outflows and Resources and Deferred Inflows of Resources:

At October 31, 2020, the City reported a liability of \$143,992 for its proportionate share of the net pension liability for LASERS. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the City's proportion for LASERS was .00174% which was an increase of .00012% from its proportion measured as of June 30, 2019.

For the year ended October 31, 2020, the City recognized pension expense of \$18,592 for LASERS plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, (\$118).

At October 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for LASERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (1,381)
Changes of assumptions	461	-
Net difference between projected and actual earnings on pension plan investments	21,049	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	17,039	(13,226)
Employer contributions subsequent to the measurement date	12,628	-
Total	<u>\$ 51,177</u>	<u>\$ (14,607)</u>

The City reported a total for LASERS of \$12,628 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2020, which will be recognized as a reduction in net pension liability for the year ended October 31, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year</u>	
2021	\$ 4,427
2022	8,139
2023	6,505
2024	4,871
	<u>\$ 23,942</u>

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

Actuarial Assumptions:

A summary of actuarial methods and assumptions used in determining the total net pension liability for LASERS as of June 30, 2020 is as follows:

Valuation Date	June 30, 2020																					
Actuarial Cost Method	Entry Age Normal																					
Actuarial Assumptions:																						
Inflation Rate	2.3% per annum																					
Expected Remaining Service Lives	2 years																					
Investment Rate of Return	7.5% per annum, net of investment expenses*																					
Mortality	Non-disabled members - The RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MIP-2018. Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.																					
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members.																					
Salary increases	Salary increases were projected based on a 2014-2018 experience study of the System's members. The salary increase ranges for specific types of members are: <table><tr><td></td><td>Lower</td><td>Upper</td></tr><tr><td><u>Member Type</u></td><td><u>Range</u></td><td><u>Range</u></td></tr><tr><td>Regular</td><td>3.0%</td><td>12.8%</td></tr><tr><td>Judges</td><td>2.6%</td><td>5.1%</td></tr><tr><td>Corrections</td><td>3.6%</td><td>13.8%</td></tr><tr><td>Hazardous Duty</td><td>3.6%</td><td>13.8%</td></tr><tr><td>Wildlife</td><td>3.6%</td><td>13.8%</td></tr></table>		Lower	Upper	<u>Member Type</u>	<u>Range</u>	<u>Range</u>	Regular	3.0%	12.8%	Judges	2.6%	5.1%	Corrections	3.6%	13.8%	Hazardous Duty	3.6%	13.8%	Wildlife	3.6%	13.8%
	Lower	Upper																				
<u>Member Type</u>	<u>Range</u>	<u>Range</u>																				
Regular	3.0%	12.8%																				
Judges	2.6%	5.1%																				
Corrections	3.6%	13.8%																				
Hazardous Duty	3.6%	13.8%																				
Wildlife	3.6%	13.8%																				
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.																					

*The investment rate of return used in the actuarial valuation of funding purposes was 7.90%, recognizing an additional 35 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.55%, which is the same as the discount rate. Therefore, the System's management concludes that the 7.55% discount is reasonable.

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 8.25% for 2020. Best estimates of geometric real rates of return for each major asset class included in LASERS target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Long-Term Expected Portfolio Real Rate of Return
Cash	-0.59%
Domestic equity	4.79%
International equity	5.83%
Domestic Fixed Income	1.76%
International Fixed Income	3.98%
Alternative Investments	6.69%
Risk Parity	4.20%
Total Fund	5.81%

Discount Rate:

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following table represents the City's proportionate share of the net pension liability (NPL) using the discount rate for LASERS as well as the City's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage higher than the current rate used by LASERS:

	Primary Government		
	1.0% Decrease 6.55%	Current Discount Rate 7.55%	1.0% Increase 8.55%
Net Pension Liability	\$ 176,944	\$ 143,992	\$ 116,029

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE L: PENSION PLAN, continued

Summarized Pension Liabilities, Pension Expense, and Deferred Outflows and Resources and Deferred Inflows of Resources (Including Component Unit)

At October 31, 2020, the City reported a total liability of \$7,284,986 for its governmental activities and \$3,975,790 for its business-type activities for its proportionate share of the net pension liability, totaling \$11,260,776. The discretely presented component unit recognized a total liability of \$145,768 for its proportionate share of the net pension liability.

For the year ended October 31, 2020, the City recognized total pension expense of \$1,155,024 for its governmental activities and \$674,537 for its business activities less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions (\$59,772). The discretely presented component unit recognized total pension expense of \$990 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$7,186.

At October 31, 2020, the City reported total deferred outflows of resources and total deferred inflows of resources related to pensions from the following sources:

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>		<u>Component Unit</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,324	\$ (223,624)	\$ 1,844	\$ (22,539)	\$ 895	\$ (301)
Changes of assumptions	260,778	(68,376)	66,886	-	1,249	
Net difference between projected and actual earnings on pension plan investments	805,218	-	396,743	-	5,036	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	300,377	(396,148)	25,970	(63,775)	41,549	(32,327)
Employer contributions subsequent to the measurement date	847,442	-	498,388	-	17,061	
Total	<u>\$ 2,215,139</u>	<u>\$ (688,148)</u>	<u>\$ 989,831</u>	<u>\$ (86,314)</u>	<u>\$ 65,790</u>	<u>\$ (32,628)</u>

NOTE M: DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with IRS Section 457. An independent plan administrator through an administrative service agreement administers the plan. The City's administrative involvement is limited to transmitting amounts withheld to the plan administrator who performs investing functions. Plan assets are held in trust for the exclusive benefit of the participants and their beneficiaries. The assets will not be diverted to any other purpose. Accordingly, the plan assets and related liabilities have not been included herein.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE N: FLOW OF FUNDS & RESTRICTIONS ON USE

Sales Tax Bonds 2010, 2012, 2013, 2017 and 2020 Taxable Revenue Bonds

All of the avails and proceeds derived by the Issuer from the levy and collection of the Tax shall continue to be deposited daily as the same may be collected in a separate and special bank account maintained with the regularly designated fiscal agent of the Issuer and designated as the "2008 Sales Tax Fund" (the "Sales Tax Fund"). The Sales Tax Fund shall constitute a dedicated fund of the Issuer, from which appropriations and expenditures by the Issuer shall be made solely for the purposes designated in the propositions authorizing the levy of the Tax. Out of the funds on deposit in the Sales Tax Fund, the issuer shall first pay all reasonable and necessary costs and expenses of collection and administration of the Tax. After payment of such costs and expenses, then the remaining Net Revenues of the Tax in the Sales Tax Fund shall be administered and used in the following order of priority and for the following express purposes:

- (1) The maintenance of the "Sales tax Bond Sinking Fund" (the "Sinking Fund"), with the regularly designated fiscal agent of the Issuer, sufficient in amount to pay promptly and fully the principal of and the interest of the Bonds, the Outstanding Parity Bonds and any Additional Parity Bonds issued hereafter in the manner provided by this Bond Ordinance, as they severally become due and payable, by transferring from the Sales Tax Fund to the regularly designated fiscal agent of the Issuer, monthly in advance on or before the 20th day of each month of each year, a sum equal to pro-rata amount of interest falling due on the Bonds, the Outstanding Parity Bonds and any Additional Parity Bonds on the next principal payment date, together with such additional proportionate sum as may be required to pay said principal and interest as the same respectively become due. Said fiscal agent shall transfer from the Sinking Fund to the paying agent bank or banks for all bonds payable from the Sinking Fund, at least one (1) day in advance of the date on which payment of principal or interest falls due, immediately available funds fully sufficient to pay promptly the principal and interest so falling due on such date.
- (2) The maintenance of the "Sales Tax Bond Reserve Fund" (the "Reserve Fund"), with the regularly designated fiscal agent of the Issuer. On the date of issuance of the Bonds, the Issuer shall (i) deposit from the proceeds of the Bonds into the Reserve Fund an amount equal to the Reserve Fund requirement or (ii) deposit to the credit of the Reserve Fund a surety bond, letter of credit or insurance policy equal to the Reserve Fund Requirement. The Issuer intends to meet this requirement with respect to the Bonds by so depositing to the credit of the Reserve Fund an amount of the Bonds proceeds equal to the Reserve Fund Requirement. Moneys in the Reserve Fund shall be used solely for transfer to the Sinking Fund in amounts required to prevent any default in the payment of the principal or an interest on the Bonds and the Outstanding Parity Bonds and, at the option of the Issuer, for payment of the final principal and interest requirements on the Bonds.

Whenever the amount in the Reserve Fund, together with the amount in the Sinking Fund, is sufficient to pay in full all Bonds and Outstanding Parity Bonds in accordance with their terms (including principal or applicable premium and interest thereon), the funds on deposit in the Reserve Fund shall be transferred to the Sinking Fund and shall be available to pay all Bonds and the Outstanding Parity Bonds in accordance with their terms (including principal or applicable premium and interest thereon). Prior to said transfer, all investments held in Reserve Fund shall be liquidated to the extent necessary in order to provide for the timely payment of principal and interest (or redemption premium) on the Bonds and Outstanding Parity Bonds.

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE N: FLOW OF FUNDS & RESTRICTIONS ON USE, continued

In lieu of the required transfers to the Reserve Fund or to provide for the removal of all or a portion of the amounts on deposit in the Reserve Fund, the Issuer may cause to be deposited into the Reserve Fund a surety bond or an insurance policy for the benefit of the Owners or a letter of credit in an amount equal to (i) the difference between the Reserve Fund Requirement and the sums then on deposit in the Reserve Fund, if any or (ii) the Reserve Fund Requirement. The surety bond, insurance policy or letter of credit shall, while the Bonds and the Outstanding Parity Bonds are Outstanding, be subject to the prior written consent of the insurer, if any, and shall be payable (upon the giving of notice as required thereunder) on any due date on which moneys will be required to be withdrawn from the Reserve Fund and applied to the payment of principal of or interest on any Bonds and the Outstanding Parity Bonds which such withdrawal cannot be met by amounts on deposit in the Sinking Fund or the Reserve Fund or provided from any other fund or account under the Bond Resolution.

To the extent the Reserve Fund is funded in part with a surety bond or other credit facility issued by an entity other than the insurer, if any, and in part with the Surety Bond, if any, then, in the event of any draw upon the Reserve Fund, the Paying Agent must make claims pro rata (in the proportion which the maximum amount available under each surety bond or other credit facility bears to the total Reserve Fund Requirement) against the Surety Bond, if any, and all other surety bonds and other credit facilities on deposit in the Reserve Fund.

In the event of the refunding of any bonds, the Issuer may withdraw from the Reserve Fund all, or any portion of, the amounts accumulated therein with respect to the Bonds being refunded and deposit such amounts to be held for the payment of the principal and redemption premium, if applicable and interest on the bonds being refunded; provided that such withdrawal shall not be made unless (i) immediately thereafter the Bonds being refunded shall be deemed to have been paid pursuant to Section 21 and (ii) the amount remaining in the Reserve Fund, after giving effect to the issuance of the Refunding Bonds and the disposition of the proceeds thereof, shall not be less than the Reserve Fund Requirement.

In the event that Additional Parity Bonds are issued hereafter in the manner provided by the Bond Ordinance, there shall be immediately transferred from the proceeds of such Additional Parity Bonds and/or from the Sales Tax Fund into the Reserve Fund such amount (as may be designated in the ordinance authorizing the issuance of such Additional Parity Bonds) as will increase the total amount on deposit in the Reserve Fund to a sum equal to the Reserve Fund Requirement for all outstanding bond payable from the Sinking Fund and any such Additional Parity Bonds; provided, however, that in the event of the issuance of Additional Parity Bonds, the Reserve Fund Requirement may be satisfied be cash or Reserve Fund Alternative Investment, or any combination thereof (provided, however, while the Bonds are Outstanding, any such Reserve Fund Alternative Investment shall be subject to the prior written consent of the insurer, if any).

**CITY OF PLAQUEMINE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS**

NOTE N: FLOW OF FUNDS & RESTRICTIONS ON USE, continued

- (3) All of any part of the monies in the Sales Tax Fund, the Sinking Fund or the Reserve Fund shall at the written request of the Governing Authority be invested in Qualified Investments maturing in five (5) years or less, in which event all income derived from such investments shall be added to the Sales Tax Fund, with the exception that any interest earnings from invested funds of the Reserve Fund shall be retained therein until an amount equal to the Reserve Fund Requirement is on deposit, therein, and such investments shall, to the extent at any time necessary, be liquidated and the proceeds thereof applied to the purposes for which the Sales Tax Fund has been created.
- (4) Any monies remaining in the Sales Tax Fund on the 20th day of each month in excess of all reasonable and necessary expenses of collection and administration of the Tax and after making the requirement payments into the Sinking Fund and the Reserve Fund for the current month and for prior months during which the required payments may not have been made (including any amounts owed as provided of a Surety Bond, if any), shall be considered as surplus. Such surplus may be used by the Issuer for any of the purposes for which the Tax is authorized, or for the purpose of retiring Bonds in advance of their maturities, either by Purchase of Bonds then outstanding at prices not greater than the then redemption prices of said Bonds, or by redeeming such Bonds at the prices and in the manner set forth in the Bond Ordinance.

NOTE O: LITIGATION

The City is a defendant in several lawsuits. Damages are generally covered by insurance less deductible for risks retained by the City. The City persists in its vigorous defense of these lawsuits and maintains that the defenses available should shield the City from liability or, at a minimum, preclude the amount of damages sought by the plaintiffs. The City does not expect any material adverse impact relating to these lawsuits.

NOTE P: AGREEMENT WITH LEPA

In December 2005, the City of Plaquemine entered into a full requirement service agreement with LEPA. It provides for the wholesale delivery of electricity required by the City to service its customers. The contract requires a two-year notice to exit.

In September 2013, the City entered into an additional power sales agreement with LEPA in connection with the construction of LEPA Unit No. 1, an approximately 64MW, nominal, combined cycle combustion turbine electric generating unit to be located in Morgan City, Louisiana. The contract was effective on the date LEPA Unit No. 1 was placed into normal, continuous operation, and continues until the later of (i) the date the principal of and interest on all debt associated with the construction have been paid or funds have been set aside for their payment, or (ii) the earlier of

(a) the date LEPA Unit No. 1 is no longer used and useful for the generation of electricity or (b) a date that is fifty (50) years from the date LEPA Unit No. 1 is placed into normal, continuous operation.

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE P: AGREEMENT WITH LEPA, continued

Under the power sales agreement, each member agrees to purchase its respective entitlement share of the electricity generated and to pay for such purchases on a monthly basis. The City's share is approximately 17%. Each member also covenants and agrees that it will not issue bonds, notes or other evidences of indebtedness, or enter into any contract or agreement or incur any expenses, payable from or secured by revenues superior to or having a priority over the obligations to make payments under the power sales agreement.

NOTE Q: RELATED PARTY TRANSACTIONS

Salaries of the City Marshal, City Court Clerk, City Prosecutor, and other City Court employees are to be paid by the City of Plaquemine. Retirement systems contributions for eligible employees are paid by the City of Plaquemine. The Judge's salary is paid by the State Judiciary Department, the City of Plaquemine, and the Iberville Parish Council. The Public Defender's salary is paid by the City of Plaquemine. The City is reimbursed out of the Public Defender Fund for the Public Defender's salary.

The City of Plaquemine insures the General Fixed Assets of the City Court against any loss or damage. In addition, the City provides facilities, liability insurance, and services to the court at no cost to the court.

The City paid Berthelot's Automotive \$9,640 from the period November 1, 2019 to October 31, 2020. The husband of the City's finance director owns Berthelot's Automotive. The Louisiana Board of Ethics has conducted two audits of transactions between the City and Berthelot's Automotive. The Docket Numbers are 2009-783 and 2017-506. In both instances, the Board concluded that no apparent violation of the Code of Governmental Ethics occurred. A disqualification plan, Docket Number 2018-111, was approved by the Board at its March 16, 2018 meeting.

NOTE R: CHANGES IN ASSETS AND LIABILITIES--ALL AGENCY FUNDS – COMPONENT UNIT

The following is a summary of changes in assets and liabilities of all agency funds:

	<u>1/1/2019</u>	<u>Additions</u>	<u>Deductions</u>	<u>12/31/2019</u>
Fines, Fees and Costs Fund				
Assets	<u>\$ 4,617</u>	<u>\$ 48,497</u>	<u>\$ (52,056)</u>	<u>\$ 1,058</u>
Liabilities	<u>\$ 4,617</u>	<u>\$ 48,497</u>	<u>\$ (52,056)</u>	<u>\$ 1,058</u>
Civil Fund				
Assets	<u>\$ 48,388</u>	<u>\$ 105,281</u>	<u>\$ (102,973)</u>	<u>\$ 50,696</u>
Liabilities	<u>\$ 48,388</u>	<u>\$ 105,281</u>	<u>\$ (102,973)</u>	<u>\$ 50,696</u>
Garnishment Fund				
Assets	<u>\$ 39,532</u>	<u>\$ 274,535</u>	<u>\$ (277,308)</u>	<u>\$ 36,759</u>
Liabilities	<u>\$ 39,532</u>	<u>\$ 274,535</u>	<u>\$ (277,308)</u>	<u>\$ 36,759</u>

CITY OF PLAQUEMINE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

NOTE S: INTERGOVERNMENTAL REVENUE

Component Unit

The special revenue funds received funds totaling \$135,476 from the City of Plaquemine and \$61,200 from the Iberville Parish Council during 2020. The general fund received \$81,000 from the Iberville Parish Council, \$173,761 from the City of Plaquemine.

NOTE T: MISSING FUNDS

During the fiscal year ending October 31, 2008, missing funds were detected by a City of Plaquemine employee while performing routine bank reconciliations. We were informed of the discrepancies and immediately began procedures to test susceptible areas of theft such as retired employees' insurance, payroll and receipts from the point of entering the system to the point of exiting the system. No deficiencies were noted in performing tests of retired employees' insurance and payroll. Several discrepancies were noted in performing tests of receipts. The City's finance director has implemented proper internal controls over the collections and recording of receipts to prevent any reoccurrences. The following is a recap of the theft and the amount paid back to the City as of October 31, 2020:

	<u>General Fund</u>	<u>Enterprise Fund</u>	<u>Total</u>
Balance at October 31, 2019	\$ 23,025	\$ -	\$ 23,025
Amount Paid	(2,250)	-	(2,250)
Balance at October 31, 2020	<u>\$ 20,775</u>	<u>\$ -</u>	<u>\$ 20,775</u>

NOTE U: LEASES

City of Plaquemine had the following operating leases as of October 31, 2020:

- Pitney Bowes – postage meters. The lease payments are broken down into 4 monthly lease payments ranging from \$91 - \$387. The terms of the leases vary from 48 months with the final lease payment in November, 2024.
- De Lang Landen – copiers. The lease payments are broken down into 12 monthly lease payments ranging from \$126 - \$226. The terms of the leases vary from 36 – 60 months with the final lease ending in 2024.
- Union Pacific – This lease is a three-year lease with an annual lease payment of \$7,650 increasing 3% each year. The lease term ends in February, 2022.
- Custom Security – The lease payments are broken down into 12 monthly payments of \$34.50. The terms of the lease are 36 months ending in January 2023.

Lease expense for the year ending October 31, 2020 was \$33,672. The following is a schedule of future minimum lease payments required under the operating leases:

<u>October</u>	
2021	\$ 30,232
2022	27,828
2023	13,545
2024	3,152

CITY OF PLAQUEMINE, LOUISIANA NOTES TO FINANCIAL STATEMENTS

NOTE V: NEW ACCOUNTING PRONOUNCEMENTS NOT YET IMPLEMENTED

GASB Statement 84, Fiduciary Activities: This standard defines and establishes criteria for identifying and report fiduciary activities. The focus of the criteria is on (1) whether the City controls the assets in a fiduciary activity and (2) there are separate identifiable beneficiaries with whom a fiduciary relationship exists. The standard is effective for reporting periods beginning after December 15, 2019. The City will include the requirements of this standard, as applicable, in its October 31, 2021 financial statement. The effect of this standard or its applicability to the City is unknown at this time.

GASB Statement 87, Leases: This standard will require all leases to be reported on the statement of net position under a single accounting model for both lessors and lessees. The statement will require the recognition of lease assets or liabilities for leases including those previously reported as operating leases. All leases will be reported under this single accounting method and reported by lessees as an intangible right to use asset and by lessors as a receivable with both reporting a deferred inflow of resources. The standard is effective for annual reporting periods beginning after June 15, 2021. The City will include the requirements of this standard, as applicable, in its October 31, 2022 financial statement. All of the City's lease agreements will need to be evaluated to determine the impact of implementing this standard; however, the effect of this standard or its applicability to the City is unknown at this time.

GASB Statement 96, Subscription-Based Information Technology Arrangements: This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangement for government end users. This Statement is effective for fiscal years beginning after June 15, 2022.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for the IRS Section 457 Deferred Compensation Plans. The requirements of this Statement related to the accounting and financial reporting for IRS Code Section 457 plans are effective for periods beginning after June 15, 2021.

NOTE W: COMMITMENTS AND CONTINGENCIES

The City is exposed to various risks of loss related to damage and destruction of assets, errors and omissions, and injuries to employees. The City has contracted with various insurers to cover its risk of loss in these areas. The City has also contracted with insurers to provide health insurance coverage to its workers.

NOTE X: SUBSEQUENT EVENTS

The City has evaluated subsequent events through the date that the financial statements were available to be issued, March 23, 2021. As a result of COVID-19 coronavirus, economic uncertainties have arisen which are likely to have a negative impact on operations and cause business disruption. However, the related financial impact and duration cannot be reasonably estimated at this time. The City is closely monitoring its financial statements for 2020-2021 impacts.

**CITY OF PLAQUEMINE, LOUISIANA
COMPONENT UNIT**

CITY COURT OF PLAQUEMINE, LOUISIANA

General Fund is the general operating fund of the City Court. The Court Expense Fund is the general fund of the City Court and is used to account for the general operating expenditures except those required to be accounted for in other funds.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Marshal's Fund

The Marshal's Fund is used to account for the activities of the Marshal's office financed by revenue from court costs designated for that purpose.

City Prosecutor Fund

The City Prosecutor Fund is used to account for activities of the City Prosecutor's office financed by revenue from court costs designated for that purpose.

Public Defender Fund

The Public Defender Fund was created in 1988 to account for the activities of the Public Defender financed by revenue from court costs designated for that purpose, as provided by R.S. 13:2488.61(c).

Probation Fund

This fund is used to account for probation fees collected by the City Court.

Pre-Trial Diversion Fund

This fund is used to account for pre-trial diversion costs.

Agency Funds are used to account for assets held by the City Court as an agent for other funds and/or other governments. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurements of results of operations.

Fines, Fees, and Costs Fund

The Fines, Fees, and Costs Fund is used to account for fines and costs collected for and payable to the City of Plaquemine, General--Court Expense Fund, and Marshal's, Subpoena, and Public Defender Special Revenue Funds. The Fines, Fees, and Costs Fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations and, as such, a statement of operations is not included in the accompanying financial statements.

**CITY OF PLAQUEMINE, LOUISIANA
COMPONENT UNIT**

CITY COURT OF PLAQUEMINE, LOUISIANA

Agency Funds, continued

Civil Fund

The Civil Fund is used to account for advance costs collected from plaintiffs filing civil suits. These costs are payable to the City Court of Plaquemine Judge and Marshal and to the Judges' Supplemental Compensation Fund, as costs are assessed. The difference between the costs advanced by the plaintiffs and the costs assessed against the advance is classified as receivable from or payable to the plaintiff. The Civil Fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations and, as such, a statement of operations is not included in the accompanying financial statements.

Garnishment Fund

The Garnishment Fund is used to account for collection and distribution of garnishments by the City Marshal. Garnishments are collected from garnishees, by the Marshal on behalf of petitioners, to be paid to the petitioners less a fee paid to the Marshal.

SCHEDULE 14

The Honorable Edwin M. Reeves, Jr., Mayor
and Members of the Board of Selectmen
City of Plaquemine, Louisiana

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Plaquemine, Louisiana, as of and for the year ended October 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Plaquemine, Louisiana's basic financial statements, and have issued our report thereon dated March 23, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Plaquemine, Louisiana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Plaquemine, Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Plaquemine, Louisiana's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Plaquemine, Louisiana's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
