CALCASIEU PARISH SCHOOL BOARD

COMPREHENSIVE ANNUAL FINANCIAL REPORT

Manufany Reciaunted School District

December 15, 2009

Board Members Calcasieu Parish School Board 3310 Broad Street Lake Charles, Louisiana 70615

Dear Board Members:

The Comprehensive Annual Financial Report (CAFR) of the Calcasieu Parish School Board (the School Board) for the fiscal year ended June 30, 2009 is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the School Board. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position, results of operations, and cash flows of the proprietary funds of the School Board. All disclosures necessary to enable the reader to gain an understanding of the School Board's financial activities have been included.

While all parts of the Comprehensive Annual Financial Report are critical, the Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal should be read in conjunction with the MD&A, which can be found immediately after the report of the independent auditors.

The School Board is required to undergo an annual single audit in conformity with the provisions of the Single Audit Amendment of 1996, including the U.S. Office of Management and Budget's Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Information related to this single audit, including a Schedule of Expenditures of Federal Awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in a separately issued single audit report.

This report includes all funds of the School Board. The School Board is a legislative body authorized to govern the public education system of Calcasieu Parish, Louisiana. The School Board is governed by a fifteen member board with each board member serving a concurrent four-year term. The current board is in the third year of its term. It is the responsibility of the School Board to make public education available to the residents of Calcasieu Parish, including instructional personnel, instructional facilities,

administrative support, business services, operation and maintenance and bus transportation. The School Board provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12. These services include regular and enriched academic education, special education for handicapped children as well as vocational education. The School Board has a current enrollment of 32,998 and employs approximately 4,991 persons.

All entities or organizations that are required to be included in the School Board's reporting entity are included in this report. The basic criteria for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a governmental unit's reporting entity is financial accountability.

The School Board is also authorized to incur debt and levy taxes to pay for such debt through physically separate School Bond Districts. These Districts are established solely for the purpose of issuing bonds and levying and accumulating taxes to make principal and interest payments on outstanding debt. The members of the School Board as well as its officers function as the governing board and officers of the School Bond Districts. All financial transactions of the School Bond Districts are included in this report.

ECONOMIC CONDITION AND OUTLOOK - Calcasieu Parish School System

<u>Area</u>

Following is an excerpt from "Louisiana Economic Outlook: 2010-2011", prepared through the Louisiana State University E.J. Ourso College of Business by Loren C. Scott, Professor Emeritus of Economics, James A. Richardson, John Rhea Alumni Professor of Economics, M. Dek Terrell, Freeport McMoRan Chair of Economics and Director, Division of Economic Development and Forecasting, and Mary Jo Neathery, Managing Editor, Department of Economics.

Lake Charles: Shaw, Sugarcane Bayou & Maybe Leucadia

Located in the far southwestern corner of Louisiana, the Lake Charles MSA is composed of two parishes, Calcasieu and Cameron. This MSA is dominated by three industries. One is what is broadly referred to as the petrochemical industry. This phrase handily combines two closely related industries, chemicals and refining. The Lake Area Industrial Alliance reports that Calcasieu Parish was the home to 19 different chemical plants and two refineries in 2006. Adding in the Entergy Nelson Station and the Trunkline LNG plant would bring total employment in these 23 facilities to 6,158 with combined payrolls and benefits of \$713 million. Like the Baton Rouge area, this huge capital-intensive petrochemical complex supports a very large industrial construction industry.

A second major industry in Lake Charles is gambling. Pre-Rita, Lake Charles was home to five riverboat casinos. One, L'Auberge du Lac, is the largest and just opened in the summer of 2005. Prior to this opening, the other four casinos employed 2,695 workers. L'Auberge du Lac added about 1,500-1,800 employees to that mix. Rita badly damaged both of the casinos owned by Harrah's. Harrah's sold its two licenses to Pinnacle Entertainment, owner of L'Auberge du Lac. Pinnacle is using one license to construct a new casino resort, Sugarcane Bay Casino. The other license has been moved to Baton Rouge.

We have estimated that before the fifth casino was opened, the other four had supported 6,464 jobs in the MSA either directly or via the multiplier effect. With the closest gambling establishments to the Houston metroplex, Lake Charles' riverboat casinos were an instant success when they opened in the mid-1990s.

When Delta Downs added slot machines and became a "racino", it added another 1,057 workers to the area's gambling industry.

A third key sector is aircraft repair. There are now two significant employers located at Chennault Industrial Airpark, Northrop Grumman and Aeroframe Services. Changes in tenants at Chennault have had a major impact on the MSA's employment pattern over time. Closely allied with the aircraft industry, two significant employers at Lake Charles Regional Airport are Era Helicopters with 750 employees and PHI, another helicopter service firm.

A History of Ups and Downs

This MSA suffered mightily between 1981 and 1986 as the chemical industry reeled from a huge loss of sales in its foreign markets. The region lost a whopping 17.9 percent of its non-farm jobs. This loss was caused by a large run up in the exchange value of the dollar. Not only did the industry itself reduce employment by one-third, but capital expansion plans were also halted, hammering the industrial construction sector at the same time.

Coincidentally, the Reagan Administration fully deregulated the price of crude oil in the early 1980s. One side effect of this action was that several marginal refineries found it increasingly difficult to remain competitive and shut down. The loss of jobs in the two highest wage industries in Louisiana's manufacturing sector, combined with a shuddering halt to industrial construction and other negative multiplier effects, sent the Lake Charles economy into a serious, 5-year dive.

Lake Charles was actually the first MSA in Louisiana to begin recovering from the terrible statewide recession of 1982-87. The key was the attraction of Boeing Aircraft to Chennault Field. Boeing created over 2,000 jobs to refurbish K-135 transport airplanes for the Air Force. That helped set Lake Charles off on a recovery mode. The recovery was further aided by a sudden drop in the exchange value of the dollar, which rejuvenated foreign markets for the chemical firms and set them off on a new round of hiring and capital expansions.

In 1992, Boeing announced the closure of its facility, and the job loss there caused Lake Charles' employment to slide sideways for two years. The next three years were excellent growth years for Lake Charles. Three factors powered this expansion. First, there were some unusually large capital projects under construction in the petrochemical sector. Citgo and Conoco/Pennzoil combined for \$1.6 billion in expansions during this period.

Secondly, it was during this period that the riverboat casinos came to Lake Charles. Thirdly, Boeing was replaced at Chennault Airpark by Northrop Grumman, a facility that took 707s, stripped them down, and installed the Joint System Target Attack Radar System (JSTARS) in them. This was an addition of 1,900 good-paying jobs in the Lake Charles economy.

The good times ended for Lake Charles in 1999. The MSA lost 2,800 jobs in that year, and was essentially flat for the next six years. There were several contributors to this poor performance. The first involved hits at the aircraft repair facilities at Chennault Airpark. As Northrop Grumman came near the end of its JSTARS contract, the firm began handling fewer aircraft and consequently began terminating workers. NG is now doing maintenance and repair work on the JSTARS aircraft, and its workforce has

dropped all the way down to 350. The attraction of EADS to Chennault helped offset NG layoffs somewhat, but even that firm reduced its workforce from about 350 down to 160 before selling to Aeroframe Services.

Secondly, a combination of 9/11 and the national recession reduced trips to the area gambling establishments, prompting layoffs there. Thirdly, Xspedius moved its headquarters office in Lake Charles to St. Louis.

But by far the most important contributor to the downturn was the funk in the chemical industry. High natural gas prices forced this vitally important industry in Lake Charles to hunker down and look for ways to reduce costs. One way was to reduce the number of employees. Too, the industry placed capital expansion projects on hold and delayed maintenance/repair work as much as was safely feasible. The result was a significant reduction in industrial construction employment.

The Surprising "Rita Effect"

What may surprise readers the most about the data presented is the growth in 2005 and 2006. Despite being hit by a vicious storm, this MSA's employment actually grew, adding 2,700 jobs over those two years. The larger portion of that growth occurred in 2005, the year of the hurricane.

There were 47,384 homes damaged by Rita in this MSA, but only 2,284 incurred severe damage and 6,673 major damage. Residents could and did return to the Lake Charles area fairly quickly. Normally one would be aghast at these figures, but against the backdrop of the housing destruction in New Orleans, they pale. It is very important to note that with the exception of lower Cameron Parish, (the most sparsely populated parish in the state) there was virtually no flood water damage in Lake Charles. That means regular homeowner's insurance was applicable to the damage. As a result, all the brakes on rebuilding that existed in New Orleans due to standing flood waters did not exist in Lake Charles.

Rita's impact on Lake Charles manufacturing. It is the nature of the manufacturing industries in Lake Charles that they would seemingly be very vulnerable to a powerful storm like Rita. Chemical plants and refineries are very capital-intensive, and all their capital is outside and exposed to the elements. In fact, three refineries in the area were damaged and shut down: (1) Citgo (324,000 bd.); ConocoPhillips (239,400 bd.), and (3) Calcasieu (30,000 bd.). All three were back up by December 2005.

The aircraft industry, which operates in large hangers, seemed likely victims of high winds. Despite these vulnerabilities, these industries made it through the storm without losing much downtime. There was \$40 million in damage to hangers at Chennault, but the two firms operating there continued to do so despite the inconvenience.

Importantly, staffing was not as difficult a problem as in New Orleans because more housing remained intact in Lake Charles.

Rita's impact on the Lake Charles gaming sector. As a result of Rita, the two Isle of Capri-owned casinos and the L'Auberge du Lac encountered minor damage and were reopened by November 2005. However, the two Harrah's riverboats were badly damaged by the hurricane. Again, Pinnacle Entertainment, which owns L'Auberge du Lac, purchased both of Harrah's licenses in Lake Charles.

Pinnacle is using one of the licenses to construct a \$350 million facility called Sugarcane Bay Casino Resort that will employ 1,500-1,600 workers. Pinnacle is moving the other license to Baton Rouge.

Rita's impact on other sectors. A look at other sectors in Lake Charles indicates a solid recovery in the aftermath of the storm. By January 2006, all hospitals in the MSA except one in Cameron Parish were fully operational. The Lake Charles Regional Airport has been operating at an even higher level than pre-Rita. By contrast, the New Orleans airport is still operating below pre-Katrina levels.

Within a month of Rita's landfall, all of the public schools in the MSA had reoperted and virtually all hotel room space was back to normal by the end of 2006. The Port of Lake Charles escaped any flooding by Rita. However, it did experience about \$40 million in wind damage and initially had no power. Within a few days, power was restored and the port was open to receive shallow water vessels. All repairs are not complete and the port is expecting to spend over \$100 million on capital improvement projects over the next five years.

In 2007, Lake Charles MSA set a new record in employment, exceeding the previous peak by 2,100 jobs. Construction associated with the storm recovery was still robust in 2007, about 2,200 jobs higher than just after Rita. However, construction's growth peaked in 2007 and was slightly lower in 2008, constituting something of a temporary drag on the area economy.

The National Recession Impact

In 2008, Citgo announced it was closing its 192-peron lube plant which added to the drag of reduced construction spending. As the national recession dragged on, the Lake Charles economy's chemical firms began to feel the heat and began reducing their contract construction workforces. Aeroframe, which does maintenance work for FedEx aircraft, had to reduce its workforce from 475 to 240 as FedEx idled many of its jets due to the sagging global economy. The Lake Charles economy began recording job losses in September 2008 and has been losing jobs ever since. In the first half of 2009, the MSA was down 1.8 percent or about 1,700 jobs. We are estimating that the MSA will lose a total of 2,300 in 2009.

Forecast for 2010-11

We are expecting the next two years to be good for Lake Charles with 1,000 new jobs in 2010 (1.1 percent) and another 1,700 jobs in 2011 (1.8 percent). The projection for 2011 is particularly good, and would make this MSA the second fastest growing in the state (in percentage terms) that year, right behind Monroe. By the end of 2011, Lake Charles should be setting record levels of employment having surpassed its previous peak in 2008 by 400 jobs.

Our forecasts are for growth rates the Lake Charles region has not seen in a while. What is behind this rather optimistic scenario? There are several critical drivers:

Pinnacle Entertainment: We are assuming that the capital markets will clear up enough that
full-time construction can resume on the Sugarcane Bay Casino, a \$350 million investment. The
construction spending will boost the economy, and when the facility opens in 2011, it will
employ 1,600-1,800 people, the primary factor behind the significant growth for the MSA in
2011.

- Global Modular Solutions: This unit of Shaw is spending \$120 million to construct a new
 facility to manufacture modular components for nuclear power plants. The firm will start with
 500-600 workers in 2010 and expand to 1,400 by 2012, a major boon to this region of the state.
- Leucadia: We have not fully built this project into our forecast. If construction starts on it, our forecasts will turn out to be too pessimistic. This is a \$1.8 billion synthetic natural gas plant that would be the largest single capital project in southwest Louisiana history. This project is at an unusual stage where financing is available but a final customer for its output is still pending close, but pending. This project would create 150 jobs in 2012 paying in the \$65,000-\$75,000 range. If the right customer is worked out, there is potential for another \$2 billion in infrastructure work to use CO2 for enhanced oil recovery.
- Aeroframe: This firm expects to go from 2 lines to 4 as the economy recovers and FedEx is
 flying more planes needing maintenance. Jet Blue and United are potential new customers for
 the firm. They hope to rebound from 250 employees to 400-500 by mid 2010.
- Roads and coastal restoration: The state has scheduled \$98.2 million in highway projects in the MSA over 2008-11, and \$20.5 million has been set aside for coastal restoration projects.
- Petrochemical maintenance: A recent survey of the petrochemical complex in the region indicates these plants will likely spend \$350-\$360 million a year in capital expenditures to meet regulatory demands.
- Northrop Grumman: We have not built this into our forecast, but Northrop Grumman has
 applied for a maintenance contract on the KC10 aircraft. If NG lands this one, the firm will add
 150-300 new workers at its Chennault Airpark site.

What about Cap & Trade?

There does remain an important, troubling issue for the future of Lake Charles. What if the cap and trade bill passes? Lake Charles' large petrochemical base is facing very large increases in cost if this legislation passes in the HR 2454 form, the American Clean Energy and Security Act. Lake Charles is the home to two refineries, Citgo and Conoco-Phillips. As we mentioned in the Baton Rouge write-up, refineries would face the earliest possible compliance mandates and receive disproportionately low emissions allowances under this bill. The National Petrochemical & Refiners Association calculates that a 100,000 barrel a day refinery would have to spend \$330 million a year if required to purchase emissions allowances for its products. The Citgo Refinery of Lake Charles is a 438,000 barrel a day unit. Its potential annual cost would be \$1.44 billion. Conoco-Phillips is a 239,000 a day unit. Its potential annual cost would be \$789 million.

Whatever one thinks of the efficacy of HR 2454, two things are quite predictable. First, when it comes to future expansions, these two firms are unlikely to do it in this country. Secondly, guess who is going to pay this remarkably large tax. We as consumers will end up paying this tax in the form of higher gasoline prices and lower returns on our pension, IRA, and mutual fund portfolios.

School Board - Hurricane Effects

The School Board had hurricane damage from Hurricane Rita (2005) at every school and central office facility. While some buildings were affected more than others, all had problems to correct. Schools were closed for twenty-four school days, closing on Wednesday, September 21, and reopening on Tuesday, October 25, 2005. The School Board's insurance company visited all sites, compiled losses and calculated deductibles of 2% per listed building. Copies of all incurred invoices and work orders along with corresponding bid documents where applicable were sent to the insurance adjuster. The insurance company has completed the processing of School Board claims and reimbursed a total of \$11.3 million.

Incurred costs to date include nearly \$26 million in expenditures and encumbrances. All hurricane related costs have been aggregated into a Capital Projects Fund for accounting purposes.

Representatives of the Federal Emergency Management Agency (FEMA) have written over 425 project worksheets for damages to Calcasieu Parish School Board buildings and grounds. The project worksheets outline damages and the estimated costs for replacement. FEMA has reimbursed the School Board nearly \$16 million in eligible reimbursement.

The School Board was hit by Hurricane Gustav in August of 2008 and Hurricane Ike in September, 2008. While neither storm created enough damage to generate an insurance claim with current deductible levels, both storms produced damage at many School Board facilities. Estimated damages include \$50,000 for Gustav and \$180,000 for Ike. The FEMA reimbursement process for both storms continues.

School Board - Funding

As with all Louisiana school systems, property and sales taxes are the primary sources of local funding, while the overwhelming majority of State funding comes from a block grant called the Minimum Foundation Program (MFP).

Property taxes increased in 2008-09 because of growth in the assessed valuation of property subject to taxes. The School Board currently has three operating property taxes in effect. The constitutional tax, which is perpetual, is levied at 5.57 mills. Two 10-year renewable taxes are levied for maintenance and operations. One of the taxes, renewed in 2002, is levied at 9.52 mills, while the other, renewed in 2004, is levied at 3.63 mills.

Sales tax collections increased in 2008-09 mostly because of improved sales in nearly all areas with continued hurricane recovery spending. The School Board successfully renewed a 10 year ½¢ parishwide sales tax on September 18, 2004, with a 70% positive vote. The tax proceeds supplement salaries of teachers and other employees. Sales taxes continue to represent a very large portion of the School Board General Fund revenues at 33%.

Minimum Foundation Program

The (MFP) provides funding from the State of Louisiana based on per-pupil allocations and additional funding for weighted areas including vocational, at-risk or special education status. The base per-pupil allocation for 2008-09 was \$3,855, an increase of \$103 over the previous year. The standard 2.75% increase in the per-pupil amount, a \$1,019 raise for certificated personnel, increases in at-risk and vocational funding, and a slight increase in the amount of funding eligible for equalization represent other changes to the formula.

MAJOR INITIATIVES

Capital Outlay Programs

The School Board has historically funded capital projects through individual bond elections in each of twelve districts throughout the parish. In 2005-06, \$2.845 million in bonds were sold to complete issuance of \$177.60 million in new general obligation and sales tax bonds since 1999. The funds were all dedicated to renovation, modernization, and new construction in parish schools.

In October, 2006, the School Board issued \$3,000,000 of 10 year excess revenue certificates to be repaid by the General Fund. Interest rates on the certificates ranged from 3.55% to 3.9% with proceeds currently being used for capital improvements at Sam Houston High School.

Bell City area voters approved a May 7, 2007 \$3,250,000 bond issue, with bonds sold in August, 2007. All projects are nearly complete with only punch list items remaining.

Two new general obligation bond issues were approved in November 2007 by voters in Westlake/Maplewood (\$35,000,000) and Sulphur (\$37,500,000). The initial bond sales of \$15,000,000 each occurred in February, 2008, with subsequent issues of \$10,000,000 in February, 2009. Final sales in each district should occur within the next 10 months with construction ongoing.

An addendum to the 1999 performance-based contract with Johnson Controls was signed in January, 2005. With the sale of \$7.055 million in excess revenue certificates, the School Board funded additional energy retrofits and equipment upgrades throughout the school system which were completed in August 2006. The performance based nature of the contract provides that Johnson Controls will monitor energy costs and guarantee enough energy savings from the energy upgrades to pay for the cost of the program. Johnson Controls is also managing the large complex energy using equipment in the school system as a part of the contract addendum. They have full responsibility for the equipment for an annual fee that will also be guaranteed by the company to be paid for with energy savings.

The School Board continued the replacement of temporary classrooms with permanent classroom space using riverboat head tax proceeds in a \$4.0 million contract to fund 38 classrooms at six schools. Permanent classroom construction projects funded with riverboat head tax proceeds now exceed \$14.3 million for 308 classrooms.

General Initiatives

Effective January 1, 2005, the School Board assumed operations of the Calcasieu Parish School Board Headstart Program. The program has approximately five hundred 3 and 4 year-old students in 5 parishwide locations. The School Board has merged several facilities into existing schools and will continue to look for common services to provide the most efficient operation of the program.

Salary and supplemental pay and benefit initiatives funded by the School Board for 2008-09 included the following:

	Teacher	Non-Teacher	
	Based	Based	
	Personnel	Personnel	Total Cost
State Mandated Raise	\$1,019	\$ -0-	\$3,928,008
State Salary Supplement	-0-	1,000	2,316,673
Local Salary Supplement	1,250	1,250	7,536,193

The Calcasieu Parish Scantron Assessment Plan applied in the 2008-2009 school year includes the Performance Series online norm referenced test as the pre and post test. The Performance Series online test is designed to measure a student's growth within the school year as well as across grade levels. The Achievement Series paper and pencil test is a criterion referenced benchmark test designed to measure ability on specific Louisiana grade level expectations as students prepare for each grade level Louisiana state assessments. The Achievement Series Benchmark tests complement the Performance Series test information by targeting specific grade level expectations. The application of the Scantron Program is anticipated to be an exceptional tool for evaluating the overall progress of students in the learning environment.

Educational Programs

The Calcasieu Parish School Board administers the Iowa Test of Basic Skills modified for Louisiana standards (iLEAP) to students in grades 3, 5, 6, 7 and 9 throughout the parish. Students are scored as Advanced, Mastery, Basic, Approaching Basic, or Unsatisfactory in several subject areas including English, Math, Science and Social Studies. The composite scores showed continuous improvement for 2009.

The State of Louisiana continues its accountability program with performance standards measured by a statewide criterion reference test called the Louisiana Educational Assessment Program (LEAP). LEAP tests are administered in grades 4, 8 and 10. Passage to the next grade is contingent on achieving a satisfactory score on tests. Schools will be judged on student performance. Many schools demonstrated exemplary or recognized academic growth for school performance.

FINANCIAL INFORMATION

Internal Controls. The School Board is responsible for establishing and maintaining internal control designed to ensure that the assets of the School Board are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal and state financial assistance, the School Board also is responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by

management and the internal audit staff of the School Board.

As a part of the School Board's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards programs, as well as to determine that the School Board has complied with applicable laws and regulations.

Budgetary Controls. In addition, the School Board maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the board. Activities of the general fund and special revenue funds are included in the annual appropriated budget. Project-length financial plans are adopted for the capital projects funds. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each fund. The School Board also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Open encumbrances are reported as a reservation of fund balance at year-end.

As demonstrated by the statements and schedules included in the financial section of this report, the School Board continues to meet its responsibility for sound financial management.

Financial Condition. The original School Board General Fund budget for each year begins assuming zero resources and breaks functions down to their essential elements. The process forces the analysis and planning of programs with a clear focus on priorities and alternatives, but has numerous political challenges as funding tightens. The School Board strives to identify programs with specific funding sources and to fit prioritized expenditures within available revenue levels to insure that each year's beginning budget is balanced.

The School Board has a policy which recommends that unreserved/undesignated fund balance in the General Fund be maintained at between 8% and 9% of projected revenues. Even with hurricanes and tax revenue volatility, the stability created by this policy has served the system well in conjunction with the zero-based budgeting process. The financial condition of the School Board remains stable with strong commitment to continuing to fund priority educational programs.

OTHER INFORMATION

Independent Audit. State statutes require an annual audit by independent certified public accountants. The auditing firm of Allen, Green & Williamson, LLP was selected by the School Board to perform the 2009 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1996, and related OMB Circular A-133. The independent auditors' report on the basic financial statements and combining and individual nonmajor fund statements and schedules is included in the financial section of this report. The auditors' reports related specifically to the single audit, internal controls, and compliance with applicable laws and regulations can be found in a separately issued Single Audit Report.

AWARDS

GOVERNMENT FINANCE OFFICERS ASSOCIATION

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Calcasieu Parish School Board for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2008. This was the 21st consecutive year that the government has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

ASSOCIATION OF SCHOOL BUSINESS OFFICIALS

Calcasieu Parish School Board has also been awarded a Certificate of Excellence in Financial Reporting by the Association of School Business Officials (ASBO) stating that the School Board's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2008, substantially conforms to the recommended principles and standards of financial reporting adopted by that organization. We believe that our current report continues to conform with the Certificate of Excellence Program requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The preparation of this comprehensive annual financial report was made possible by the dedicated service of the entire staff of the finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the School Board, preparation of this report would not have been possible.

Respectfully Submitted,

Wayne Savoy
Superintendent

Karl E. Bruchhaus Chief Financial Officer This page intentionally left blank.

INDEPENDENT AUDITORS' REPORT

Board Members Calcasieu Parish School Board Lake Charles, Louisiana

2441 Tower Drive

Monroe, LA 71201

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the general fund, the Westlake/Maplewood Construction fund, and the aggregate remaining fund information of Calcasieu Parish School Board as of and for the year ended June 30, 2009, which collectively comprise the School Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Calcasieu Parish School Board's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the School Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the general fund, the Westlake/Maplewood Construction fund, and the aggregate remaining fund information of the Calcasieu Parish School Board as of June 30, 2009, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued under separate cover, our report dated December 15, 2009 on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, Schedule of Funding Progress, and the Budgetary Comparison Schedule, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Calcasieu Parish School Board's basic financial statements. The accompanying information identified in the table of contents as supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The information identified in the table of contents as the Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Management Discussion & Analysis
(MD&A)

CALCASIEU PARISH SCHOOL BOARD

COMPREHENSIVE ANNUAL FINANCIAL REPORT

Our discussion and analysis of Calcasieu Parish School Board's financial performance provides an overview of the School Board's financial activities for the fiscal year ended June 30, 2009. Please read it in conjunction with the transmittal letter and the School Board's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued June 1999.

FINANCIAL HIGHLIGHTS

Our financial statements provide these insights into the results of this year's operations:

Net assets of the School Board decreased \$24.5 million, which is mainly due to the implementation of GASB 45, Accounting for Other Post Employment Benefits. The School Board was required to implement GASB 45 causing an accrual for other post-employment benefits. This liability affected net assets causing a decrease of \$30.6 million. However, other factors such the increase in MFP funding of \$4.0 million and an increase of \$5.7 million in ad valorem taxes have helped reduce the impact of GASB 45 to an ending change to net assets of \$24.5 million decrease. Total spending for governmental activity programs per the statement of activities was \$375.9 million for the year. Most of the School Board's taxes and state Minimum Foundation Program funds were used to support the net cost (after deducting restricted grants and fees charged to users) of these five areas: regular programs \$133.8 million, special education \$43.7 million, school administration \$19.5 million, plant services \$33.5 million, and instructional staff support \$16.5 million.

Total spending for business activity programs per the statement of activities was \$1.5 million for the year. The expenses were for the Extended Day program in which expenses are paid for by tuition fees collected.

In the fund financial statements the general fund reported a decrease in fund balance for the year of \$2.1 million as a result of spending of prior year tax revenues on mid-year salary supplements for all employees even though current year tax revenues were better than expected.

The Westlake/Maplewood construction capital project fund reported an increase in fund balance of \$8.1 million as a result of bond proceeds collected but yet to be spent.

The other non-major governmental funds reported a decrease in fund balance of \$6.9 million which is primarily a result of spending of capital projects proceeds collected in an earlier period.

USING THIS ANNUAL REPORT

The School Board's annual report consists of a series of financial statements that show information for the School Board as a whole, its funds, and its fiduciary responsibilities. The Statement of Net Assets and the Statement of Activities provide information about the activities of the School Board as a whole and present a longer-term view of the School Board's finances. For our governmental activities, these statements tell how we financed our services in the short-term as well as what remains for future spending. Fund statements also may give you some insights into the School Board's overall financial health. Fund financial statements also report the School Board's operations in more detail than the government-wide financial statements by providing information about the School Board's most significant funds such as the School Board's General Fund and the the Westlake/Maplewood Construction fund. The

remaining statement - the Statement of Fiduciary Assets and Liabilities presents financial information about activities for which the School Board acts solely as an agent for the benefit of students and parents.

Our auditor has provided assurance in his independent auditor's report, located immediately preceding this Management's Discussion and Analysis, that the Basic Financial Statements are fairly stated. Varying degrees of assurance are being provided by the auditor regarding the Required Supplemental Information and the Other Supplemental Information identified above. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other sections in the Financial Section.

The Introductory Section and the Statistical Section was prepared solely by the School Board without association by the independent auditors. Accordingly, the School Board assumes full responsibility for the accuracy of these two sections.

Reporting the School Board as a Whole

The Statement of Net Assets and the Statement of Activities

One of the most important questions asked about the School Board is, "Is the School Board as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which appear first in the School Board's financial statements, report information on the School Board as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School Board's net assets – the difference between assets and liabilities, as reported in the Statement of Net Assets – as one way to measure the School Board's financial health, or financial position. Over time, increases or decreases in the School Board's net assets – as reported in the Statement of Activities – are one indicator of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School Board's operating results. However, the School Board's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the School Board.

The Statement of Net Assets and Statement of Activities report the following activity for the School Board:

Governmental activities - Most of the School Board's services are reported here, including instruction, plant services, transportation, and food services. Property taxes, sales taxes, Minimum Foundation Program funds, and state and federal grants finance most of these activities.

Business type activities - The School Board's extended day child care program is reported here, including program expenditures and tuition fees collected.

Reporting the School Board's Most Significant Funds

Fund Financial Statements

The School Board's fund financial statements provide detailed information about the most significant funds - not the School Board as a whole. Some funds are required to be established by State law and by bond covenants. However, the School Board establishes many other funds to help it control and manage money for particular purposes (like the School Food Service) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (like grants the School Board receives from the U.S. Department of Education). The School Board's governmental funds use the following accounting approach:

Governmental funds - Most of the School Board's basic services are included in governmental funds. The current reporting model requires the presentation of information on each of the School Board's most important governmental funds or major funds to better track the significant governmental programs or dedicated revenue. The School Board's major funds include the General Fund and Westlake/Maplewood Construction with all other funds considered non-major and displayed collectively. The governmental funds display the following characteristics:

 Modified accrual basis of accounting – revenues, expenditures and net assets recorded when measurable and available.

- Focus on near-term use availability of spendable resources to determine immediate financial needs.
- Account for nearly the same governmental activities reported in government-wide financial statements. A reconciliation of the two components and their relationship is shown in Schedule D and F as shown in the table of contents.

Proprietary funds – Services for which the School Board charges a fee are generally reported as proprietary funds. The School Board has two types of proprietary funds which are combined into statements.

- Enterprise fund The School Board accounts for its extended child care program operated at a number
 of schools as an Enterprise Fund. The program provides before and after-school child care for which an
 external fee is charged. All expenses relative to the operation of the program are reported in this fund
 with 75% of all net proceeds distributed to schools and 25% of the net proceeds retained by the School
 Board.
- Internal service funds The School Board has two internal service funds which accumulate and allocate costs internally among the School Board's various functions.
 - o Employee Health/Life The largest of the funds accounts for employee/retiree group health and life insurance programs and is financed through a combination of premiums paid by the School Board and individual employees/retirees.
 - o Workers' Compensation The other internal service fund accounts for the School Board's self-insured portion of the employee workers' compensation program. The program handles claims incurred by employees injured under the workers' compensation program, which is financed entirely from premium contributions from the other funds.

The School Board as Trustee

Reporting the School Board's Fiduciary Responsibilities

The School Board is the trustee, or fiduciary, for assets that belong to others. All of the School Board's fiduciary activities including student activities funds, the sales tax collection fund and the sales tax paid under protest fund are reported in a separate Statement of Fiduciary Assets and Liabilities as listed in the table of contents. These funds are not available to the School Board to finance its operations and are not included in the government-wide financial statements.

THE SCHOOL BOARD AS A WHOLE

The School Board's net assets were \$38.5 million at June 30, 2009 for governmental activities. Of this amount, the unrestricted net assets had a deficit of \$32.8 million. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net assets for day-to-day operations. Our analysis below focuses on the net assets (Table 1) and change in net assets (Table 2) of the School Board's governmental activities.

Table 1 Net Assets (in millions) June 30,

		Total									Total
	Governmental Activities		Percentage Change		B	Business – Type Activities			Percentage Change		
· · · · ·	2009		2008		2008-2009		2009		2008		2008-2009
Current and other assets	\$	178.4	\$	174.0		2.5	\$	0.8	\$	0.6	33.3
Capital assets		234.3		214.5		9.2		-		-	-
Total assets		412.7		388.5		6.2		0.8		0.6	33.3
Current and other liabilities		54.3		49.5°		9.7		0.8		0.6	33.3
Long-term liabilities		319.9		276.0		15.9		-		-	-
Total liabilities		374.2		325.5		15.0		0.8	-	0.6	33.3
Net assets			-								
Invested in capital											
assets, net of related debt		35.5		43.2		(17.8)		-		_	_
Restricted		35.0		21.0		66.7		-		-	_
Unrestricted		(32.0)		(1.2)	(2	,766.7)		~		_	-
Total net assets	\$	38.5	\$	63.0	Ì	(38.9)	\$	_	\$		-

The deficit of \$32.0 million in unrestricted net assets of governmental activities represents the accumulated results of all past years' operations.

The results of this year's operations for the School Board as a whole are reported in the Statement of Activities. Table 2 takes the information from that Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Table 2 Changes in Net Assets (in millions) For the Years Ended June 30,

Governmental Activities

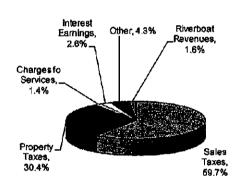

As reported in the Statement of Activities the total cost of all of our governmental activities this year was \$375.9 million. Some of the cost was paid by those who benefited from the programs (\$2.3 million) or by other governments and organizations who subsidized certain programs with grants and contributions (\$48.5 million). We paid for the remaining "public benefit" portion of our governmental activities with \$141.1 million in taxes, \$145.2 in state Minimum Foundation Program funds, \$14.1 million with our other revenues, like interest and general entitlements and \$24.7 from transfers in and fund balance.

Revenues

Percentage of Total Revenues

State, 45.2% Local, 44.5% Federal, 10.3%

Percentage of Local Source Revenues

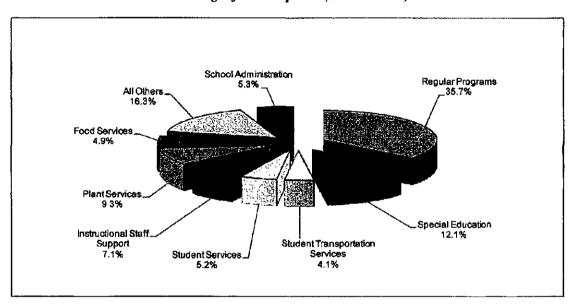

In the table below, we have presented the cost of each of the School Board's eight largest functions - regular programs instruction, special education, student services, instructional staff support, school administration, plant services, student transportation services, and school food services, as well as each program's *net* cost (total cost less revenues generated by the activities). As discussed above, net cost shows the financial burden that was placed on the School Board's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

For the Years Ended June 30, Government Activities (In Millions)

	Total	Cost of	Total Percentage	Net (Cost	Total Percentage
	Se	rvices	Change	of Services		Change

Totals	\$375.9	\$371.1	1.3	\$325.1	\$316.1	2.8

Total Cost of Services by Function

Percentage of Total Expenses (\$375.9 million)

Business-Type Activities

As reported in the Statement of Activities the total cost of all of our *business-type* activities this year was \$1.5 million; these cost were to operate our Extended Day Child Care program. The cost paid by those who benefited from the program was \$1.7 million.

THE SCHOOL BOARD'S FUNDS

As we noted earlier, the School Board uses funds to help it control and manage money for particular purposes. Looking at funds helps you consider whether the School Board is being accountable for the resources taxpayers and others provide to it but may also give you more insight into the School Board's overall financial health.

As the School Board completed this year, our governmental funds reported a combined fund balance of \$115.4 million which is a decrease of \$.8 million from last year. The primary reasons for the decrease are the funding of a mid-year salary supplement for all employees from prior year tax proceeds and the current year spending of bond proceeds collected in previous years.

Our general fund is our principal operating fund. The fund balance in the general fund decreased \$2.1 million to \$45.6 million. The decrease reflects supplemental salary and benefit provisions given employees with prior year excess tax collections. Although current year property and sales taxes increased slightly over last year, the net change in fund balance was still negative.

Our Westlake/Maplewood Construction fund increased from the prior year in the amount of \$8.1 million. The increase is due to the collection of bond proceeds in the current year for which proceeds have not been spent.

Our non-major governmental funds decreased from the prior year in the amount of \$6.9 million. This change is due to the following:

Our Special Revenue Funds reflect an increase of \$.4 million to \$.6 million due to revenues exceeding expenditures in the School Food Service Program.

Our capital project funds reflected change from the prior year showing a net decrease of \$7.4 million because of the spending of bond and other capital proceeds collected in a previous period.

Our debt service funds decreased from the prior year in the amount of \$7 thousand. This decrease is due to the calculated reduction of fund balances by reducing millages to slowly amortize the balances over a 3 to 5 year period.

Our permanent fund for teacher scholarships is a new fund created to use interest earnings for potential teachers to attend education colleges. No scholarships have yet been awarded. The initial \$100,000 was seeded by the School Board.

General Fund Budgetary Highlights

Over the course of the year, the School Board revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The third and final amendment to the budget was adopted at the School Board's June 2, 2009 meeting.

The first revision included the addition of encumbrances into the current year budget in the amount of \$.42 million, \$.24 million in property insurance premiums, and \$.1 million in software and supplies.

Revision #2 included increased state M.F.P. revenue funds of \$.6 million and grant or donation revenue decreases of \$.1 million. Expenditure increases included of \$15 million to handle mid-year salary supplements and adjustments to include salaries for positions added after the start of the school year. Other additions included \$.78 million in maintenance costs, \$.25 million in instructional supplies, \$.35 million for debt service costs, and \$.07 million in other items.

Revision #3 included increased property tax revenues of \$.22 million, increased sales tax revenues of \$3.4 million, Medicaid proceeds of \$1.0 million and state M.F.P. funds of \$.38 million. Expenditure increases included \$.2 million in roofing replacements, \$.45 million in substitute costs, \$.3 million in salary supplements, \$.15 million in Medicaid collection fees, \$.3 million in insurance deductibles, \$.26 million in software upgrades, and \$.2 million in other items.

General fund operations were better than expected for the year by \$10.3 million. Actual resources exceeded projected resources by \$4.6 million including \$1.2 million in property taxes, \$1.6 million in sales taxes, and \$1.4 million in other revenues including mostly Medicaid and E-Rate reimbursements. Actual appropriations were less than budgeted appropriations by \$5.8 million or 2.0%. Major positive variances included \$1.1 million in salaries (mostly teachers), \$.7 million in purchased services, \$.5 million in property services, \$.15 million in travel, \$1.6 million in supplies, \$.76 million in equipment, and \$2.1 in transfers not moved out of the general fund as they

were not needed in other funds. Major negative variances were in textbooks, utilities, auto liability claims, health insurance, Medicare, and substitute costs.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: At June 30, 2009, the School Board had \$234.3 million, invested in a broad range of capital assets, including land, buildings and improvements, furniture and equipment, transportation equipment, and construction in progress. This amount represents a net increase (including additions, deductions and depreciation) of approximately \$19.8 million, or 9.2 %, from last year.

Capital Assets at Year-end (in millions)

	Governmental Activities		
	<u>2009</u>	<u>2008</u>	
Land	\$ 7.4	\$ 6.7	
Construction in progress	36.9	10.9	
Buildings and improvements	173.3	178.9	
Furniture and equipment	<u> 16.7</u>	<u> 18.0</u>	
Totals	<u>\$234.3</u>	\$214.5	

This year's additions of \$37.0 million included the completion of building projects funded from bond proceeds in many areas of the school system. These improvements include new buildings, building renovations, and other facility improvements. Other asset additions included the purchase of computers, buses, and maintenance vehicles. Capital projects ongoing for the 2008-2009 fiscal year include the continuation of ongoing bond funded building and plant improvements in several bond districts and the planned purchase of additional buses and vehicles. We present more information on capital assets in the notes to the financial statements Note III D.

Debt: The School Board has bond ratings assigned by individual debt service districts which range from A to B over the twelve districts. Following is a summary of long term debt for the past two years:

	2009	<u>2008</u>
General obligation bonds	\$204.8	\$189.0
Sales tax revenues bonds	11,5	12.2
Revenue certificates	8.7	10.7
Deferred charges on refunding	(8.)	(.6)
Sales tax incremental financing agreement	-	.9
Accrued compensated absences	11.8	10.9
Accrued worker's compensation liability – Pre 1986	.3	.2
Accrued worker's compensation liability - Post 1986	1.6	1.7
Employee health/life liability	5.0	4.5
OPEB liability	66.2	35.7
Other debt	<u> 10.7</u>	<u> 10.8</u>
Total long-term debt	<u>\$319.8</u>	\$276.0

The School Board issued bonds of \$58.3 million during the year to fund improvements in the DeQuincy and Sulphur area schools. The bond sales also include \$30.8 million in refinanced bonds in the Southeast Lake Charles, Southwest Lake Charles and North Lake Charles areas. Also, a new three year LCDA loan was incurred for \$2.4 million to purchase additional buses. We present more detailed information on long tem debt in the notes to the financial statements at Note III F.

The implementation of GASB 45, Accounting for Other Post-Employment Benefits, impacted the long term debt of the School Board for June 30, 2009. The School Board's OPEB liability for June 30, 2009 was \$66.2 million, which is recorded in the internal service fund. The School Board did not fund any portion of the liability. We present more detailed information in the notes to the financial statements at Note IV B.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The following are currently known Calcasieu Parish economic factors that impact school operations.

- Unemployment rates for Calcasieu Parish have been low for the last few years with hurricane related employment. The 7.1% rate for the month ending September, 2009 for the Lake Charles area is better than the State rate of 7.4%.
- The population of Calcasieu Parish grew by 9.2% from 1990-2000 with the 2000 census totaling 183,577 parish wide.
- The land area of Calcasieu Parish at 1,094.5 square miles continues to provide challenges for government service providers including education transportation services.
- The area continues to recover from the effects of Hurricanes Rita, Katrina, Gustav, and Ike, with construction ongoing in schools, housing, and businesses throughout the district.
- The net property tax base in Calcasieu Parish has grown from a taxable value of \$1.18 billion in 2008 to \$1.32 billion in 2009, an 11.9% increase. The \$1.32 billion valuation was used to project 2009 property tax revenues.
- Sales tax revenue increased by \$1.0 million or 1.1% for 2008-2009 as a result of general economic growth
 and continued hurricane related spending. It appears that decreased hurricane related spending and the
 downturn in the economy have now begun to create flat sales tax projections.

At the time these financial statements were prepared and audited, the School Board was aware of the following circumstances that could significantly affect the School Board's financial health in the future:

The proposed 2009-2010 budget continues the use of a program-based strategy that requires that all
expenditures be organized into functions and then programmatic components. This format closely aligns
the budget with the coding required by the State of Louisiana in the Louisiana Accounting and Uniform
Government Handbook. Staff members took each program within each major function area and

completed very detailed justification sheets for each requested line item to incorporate a form of zero-based budgeting. The 2009-2010 budget adopted on July 14, 2009 reflected a decrease in salaries of \$12.2 million for a reduction of mid-year supplements for all employees and the reduction of 89 positions, \$1.95 million increase in benefits for health insurance and worker's compensation, a \$.5 million increase in utilities, \$2 million decrease in textbooks for current adoption, a \$.47 million increase in maintenance costs, a \$1.03 million decrease in transportation (mostly bus purchases), and a \$.8 million decrease in school lunch support. The general fund budget for 2009-2010 contains revenues and other sources of funds of \$272 million and total expenditures and other uses of funds of \$272 million with no projected impact on general fund reserves.

- Health insurance claims and trend analysis for the School Board health insurance plan point to premium
 increases for the 2009 plan year that will be 3% to 5%. Even this small increase will require additional
 School Board contributions of greater than \$1.5 million for next budget year according to the School
 Board's current premium structure.
- Both major education related state retirement systems have indicated substantial increases in employer rates for 2010-2011 because of reduced investment income. The changes in these rates could impact the School Board budget in amounts ranging from \$5 to \$10 million depending on the rates finally announced in early 2010.
- While low interest rates have provided great opportunities for the School Board to lock in long-term debt
 at very attractive rates, earnings rates on investments will be minimal with the state of the current
 financial markets.
- The School Board has nearly completed its massive construction program ongoing since 1999 in nearly
 every area of the school system, and has now begun a new phase in several areas of the parish. Recent
 passage of bond issues in Westlake/Maplewood, Bell City and Sulphur, along with capital outlay projects
 in the Moss Buff area will continue to provide construction activity over the next three years.
- The State of Louisiana, like all other states, will be facing budget cuts to education for 2010 and 2011. The cuts are estimated at 1% to 5% and will affect all school systems including Calcasieu. Local economic conditions may also dictate cuts within the school system for the 2010-2011 school year.

CONTACTING THE SCHOOL BOARD'S FINANCIAL MANAGEMENT

Our financial report is designed to provide our citizens, taxpayers, parents, students, and investors and creditors with a general overview of the School Board's finances and to show the School Board's accountability for the money it receives. If you have questions about this report or wish to request additional financial information, contact Mr. Karl E. Bruchhaus, Chief Financial Officer, at Calcasieu Parish School Board, 3310 Broad Street, Lake Charles, Louisiana, 70615 or by calling (337) 217-4000, regular office hours, Monday through Friday, from 8:00 a.m. to 4:30 p.m., Central Standard Time.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets June 30, 2009

Statement D

Total fund balances - governmental funds at June 30, 2009

115,380,069

The cost of capital assets (land, bulldings, furniture and equipment) purchased or constructed is reported as an expenditure in governmental funds. The Statement of Net Assets Includes those capital assets among the assets of the School Board as a whole. The cost of those capital assets allocated over their estimated useful lives (as depreciation expense) to the various programs is reported as governmental activities in the Statement of Activities. Because depreciation expense does not affect financial resources, it is not reported in governmental funds.

Costs of capital assets
Accumulated depreciation

481,358,240

_(247,060,376)

234,297,864

Net assets (deficit) of the internal service fund are reported as a proprietary fund type in the fund financial statement but included as governmental activities in the government-wide financial statement less interfund receivables eliminated in the consolidation into the governmental activities.

(61,209,582)

Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities - both current and long-term, are reported in the Statement of Net Assets.

Balances at June 30, 2009 are:

FUND BALANCES - ENDING

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Year Ended June 30, 2009

Statement F

*Total net change in fund balances - governmental funds	\$	(829,804)
*Amounts reported for governmental activities in the Statement of Activities are differ	ent because:	
*Capital outlays are reported in governmental funds as expenditures. However, in the	e Statement	
of Activities, the cost of those assets is allocated over their estimated useful lives	as	
depreciation expense. This is the amount by which depreciation exceeds capital	outlays	
in the period:		
Capital outlay	33,460,731	
Depreciation expense	(13.455.555)	
	•	20,005,176
*Repayment of bond principal is an expenditure in governmental funds, but the repay	ment	
reduces long-term liabilities in the Statement of Net Assets.		
General Obligation Bonds	42,500,000	
Sales Tax Revenue Bonds	745,000	
Revenue Certificates	2,040,000	
Sales Tax Incremental Financing Agreement	869,517	
Other Debt	2.491.405	
• • • • • • • • • • • • • • • • • • • •		48,645,922
*Deferred amounts on refunding consist of the difference between new debt and old	deht	1010 101022
paid off. This amount should be amortized until old debt is callable. Amounts defe		
for bonds refunded in the current year were \$635,000. Amounts amortized for cur	_	
year were \$467,556, which are recorded as Interest expense.	rent	167,444
*Debt proceeds are reported as financing sources in the governmental funds and thu	Ie.	107,444
contribute to the change in fund balance. In the Statement of Net Assets, however		
debt increases long-term liabilities and does not affect the Statement of Activities.	r, 19 00 mig	(60,671,701)
*Interest on long-term debt in the Statement of Activities differs from the amount repo	orted	(00,011,701)
in the governmental funds because interest is recognized as an expenditure in the		
when it is due, and thus requires the use of current financial resources. In the Sta		
of Activities, however, interest expense is recognized as the interest accrues, rega		
of when it is due.	1101000	(2,783)
*In the Statement of Activities, certain operating expenses - compensated absences	(vacations and	(2,700)
sick leave) and workers' compensation - are measured by the amounts earned du	•	
In the governmental funds, however, expenditures for these items are measured it	•	
of financial resources used (essentially, the amounts actually paid). This year, va	*	
time earned exceeded the amounts used by \$903,866. Workers' compensation a		
exceeded amounts actually paid by \$59,286.	2001000	(963,152)
"The Statement of Activities reflects the effects of the disposition of capital assets du	ring the year	(000,102)
The cost less the depreciation (net value) of the items disposed of during the year	•	
in the fund balance.	are not remotible	(174,647)
*All revenues, expenses and changes in fund net assets (deficits) of the internal serv	rice fund are	(117,041)
reported as proprietary fund type in the financial statement but included as govern		
in the government-wide financial statement.	amontal activities	/ዓስ ፍባድ ደፍተነ

NOTE I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES The accounting policies of the Calcasieu Parish School Board (the Board) conform to accounting principles generally accepted in the United States as applicable to governmental units. The following is a summary of the more significant policies:

A. Reporting Entity The Board is a legislative body authorized to govern the public education system for Calcasieu Parish, Louisiana. The Board, whose legal authority is vested in its political charter as a corporation (enacted in 1841), consists of fifteen members elected from legally established districts. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The Board's financial statements include all accounts of the Board's operations. The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for financial statements as a component unit is financial accountability. Financial accountability includes the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization that is fiscally dependent on the primary government should be included in its reporting entity. Based on these criteria, the Board has no component units.

The school system is composed of a central office, 58 schools, and 3 educational support facilities. Student enrollment as of October, 2008 was approximately 32,998 regular and special education students. The Board employs approximately 4,991 persons, providing instructional and ancillary support such as general administration, repair and maintenance, bus transportation, etc. The regular school term normally begins in late August and runs until late May.

B. Measurement Focus, Basis of Accounting and Basis of Presentation.

1. Government-wide Financial Statements (GWFS)

The Statement of Net Assets and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Assets at the fund financial statement level. The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting.

Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Internal Activities The workers' compensation and employee's health/life internal service funds provide services to the governmental funds. Accordingly, the internal service funds activities were rolled up into the governmental activities. Pursuant to GASB 34, as much as possible, the internal activities have been eliminated in order to avoid the "grossing-up" effect of a straight inclusion. Interfund services provided and used are not eliminated in the process of consolidation.

Program revenues Program revenues include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Program revenues reduce the cost of the function to be financed from the School Board's general revenues. Charges for services are primarily derived from group health insurance premiums, cafeteria sales, and miscellaneous student fees. Operating grants and contributions consist of the many educational grants received from the federal and state government.

Allocation of indirect expenses The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. Other indirect expenses are not allocated.

2. Fund Financial Statements (FFS)

The accounts of the Board are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures (or expenses) as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. Separate financial statements are provided for governmental funds, proprietary fund types and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government has the following fund types:

Governmental funds are those through which most governmental functions of the Board are financed. The acquisition and use of the Board's expendable financial resources and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

The Board reports the following major governmental funds:

The general fund is the primary operating fund of the Board and receives most of the revenues derived by the Board from local sources (principally property and sales taxes) and state sources (principally equalization funding). General Fund expenditures represent the costs of general school system operations and include functional categories of instructional and support services. The General Fund is used to account for all financial resources and expenditures except those required to be accounted for in another fund.

The Westlake/Maplewood construction fund accounts for the receipts and disbursement of proceeds of general bond issues and other designated revenues used for acquisition of major capital facilities for the Westlake – Maplewood District.

Additionally, the Board reports the following governmental fund types:

The special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. These funds account for the revenues and expenditures related to Federal grant and entitlement programs for various educational objectives.

The debt service fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs. The debt service fund is divided into twelve bonding (taxing) districts. Each district has the authority to raise its own debt and the responsibility to meet the obligations of that debt. Ad valorem taxes are levied separately for each district.

The capital projects fund accounts for financial resources to be used for the acquisition, construction, equipping, and renovation of major capital facilities (other than capital outlays from the General Fund and Special Revenue Funds). The capital projects fund is divided into twelve bonding (taxing) districts. Each district may include a number of capital projects.

The permanent fund accounts for financial resources permanently restricted in August of 2008 by the Board and the expendable earnings which are to provide funding for scholarships for college education students. The initial fund was provided by a transfer from the general fund. The Scholarship would provide \$1,500 per semester for eight semesters. Recipients would be required to teach in the parish for three years after graduation.

Proprietary Funds are used to account for the Board's ongoing activities that are similar to those often found in the private sector. The measurement focus is upon determination of net income. The following are the Board's proprietary fund types:

Enterprise – Extended Day Care Program – This fund is used to account for the operations of the after school child care program for which a fee is charged to external users for services to cover the cost of providing services.

Internal service – Insurance Funds – (Employees Health/Life and Worker's Compensation) - These funds are used to account for the accumulation of resources for and payment of benefits by the Board's programs. The Board is self-insured for group health insurance and worker's compensation. The Board carries stop loss coverage that limits the Board's maximum liability under the health insurance program. The other funds are charged premiums by the insurance funds. The accrued liabilities for estimated claims represent an estimate of eventual losses on claims arising prior to year-end including claims incurred and not yet reported.

Fiduciary funds are used to account for assets held by the Board in a trustee or agency capacity.

Agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using accrual basis of accounting. This fund is used to account for assets that the government holds for others in an agency capacity. The agency fund is as follows:

Student Activities Fund – The Student Activities Fund is used to account for those monies collected by pupils and school personnel for school and school related purposes.

Each school maintains accounts for its individual student body organizations. These accounts are under the supervision of the school principals, who are responsible for collecting, controlling, disbursing, and accounting for all student activity funds, in accordance with the School Activity Funds Principles and Procedures manual.

Sales Tax Collection Fund – The School Board is responsible for administering the collections of sales tax in our parish. This fund is used to account for sales tax collections and distributions to the various taxing districts.

Employee Benefit Fund - This fund is used to account for benefit withholdings and claims paid at the employees' discretion.

Scholarship Fund - This fund is used to account for monies donated and award to scholarship recipients.

Sales Tax Paid Under Protest – This fund is used to account for monies deposited per Louisiana law as a result of disputed sales tax assessments. These deposits remain legally segregated until settled.

Measurement focus and basis of accounting – The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases and decreases in net total assets.

The Governmental fund financial statements are maintained on the modified accrual basis of accounting. Revenues are recognized when they become both "measurable and available". "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on long-term debt which is recognized when due, and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Claims and judgments (pre 1986) are recognized when due and payable.

With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes and sales taxes are susceptible to accrual.

Entitlements and shared revenues (which include state equalization and state revenue sharing) are recorded as unrestricted grants-in-aid at the time of receipt of earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Other receipts become measurable and available when cash is received by the School Board and are recognized as revenue at that time.

Expenditures

Salaries are recorded as paid. Unpaid salaries for nine-month employees who are paid over twelve months are accrued at June 30. Substantially all other expenditures are recognized when the related fund liability has been incurred.

Other Financing Sources (Uses) Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, sale of fixed assets, debt extinguishments, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Proprietary Funds Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The School Board has elected pursuant to GASB Statement No. 20, to apply all GASB pronouncements and only Financial Accounting Standards Board pronouncements issued before November 30, 1989.

Operating Revenues and Expenses Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the account basis of accounting.

Use of Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Assets, Liabilities and Equity

1. Cash includes amount in demand deposits, interest bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the School Board may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

2. Deposits and Investments

Cash balances of all funds are combined and invested. Interest earned on these investments is distributed to the individual funds on the basis of invested balances of the participating funds during the year. All highly liquid debt instruments with an original maturity of three months or less from date of purchase are considered cash equivalents. Amortization of premiums and discounts are recognized as incomes using the level yield method.

The Board has reported their investments, with a remaining maturity at time of purchase of one year or less, at amortized cost. Investments with maturity at time of purchase of greater than one year are presented at fair value at June 30, 2009. Fair value was determined by obtaining "quoted" year-end market prices.

As of June 30, 2009, the School's investments have a fair value of approximately \$60,000,148. The overall market-weighted quality rating of the investments held by the School Board on June 30, 2009 was an Aaa by Moody's Investor's Service, which complies with the requirements of the School Board Investment Policy.

The School Board's investment portfolio had concentration of credit risk on June 30, 2009 due to the holdings of securities issued by the following U.S. Agencies that are both permitted by Statute and by the School Board Investment Policy. The majority of the School Board's investment portfolio consisted of 47.3% of securities issued by the Federal Home Loan Bank, 14.9% of securities issued by Federal Home Loan Mortgage Corp., 14.8% of securities issued by the Federal National Mortgage Association, 10.4% of securities issued by Federal Farm Credit Bank, and 9.5% in money market securities.

The School Board's investment portfolio exhibited very low interest rate risk on June 30, 2009. The average maturity of the portfolio was well within the maturity restrictions impose on the School Board's Investment Policy. The policy permits a maximum average maturity of 1.5 years. The School Board's investment portfolio had a weighted average maturity on June 30, 2009 of 1.22 years. The longest maturity of a security in the portfolio on June 30, 2009 was approximately 4.2 years, which complied with the School Board Investment Policy. None of the securities held were considered to be subject to their fair value to being highly sensitive to interest rate changes.

The Board is authorized by state statutes to open depositories in only those banks with branch offices in the state. State statutes also authorize the Board to invest in U. S. Bonds and Treasury Notes and other federally insured instruments. Investments in time certificates of deposit can be placed with Louisiana state banks or with national banks having their principal office in the state. See also Note III. A. for additional disclosures relating to cash and investments.

The School Board participates in the Louisiana Asset Management Pool, Inc. (LAMP) which is an external investment pool that is not SEC-registered. Because the LAMP is an arrangement sponsored by a type of governmental entity, it is exempt by statute from regulation by the SEC.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33.2955.

GASB Statement No. 40 Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk for all public entity investments.

LAMP is a 2a7-like investment pool. The following facts are relevant for 2a7-like investment pools:

- Credit risk: Lamp is rated AAAm by Standard & Poor's.
- <u>Custodial credit risk:</u> LAMP participants' investments in the pool are evidenced by shares of the pool.
 Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- <u>Interest rate risk:</u> 2a7-like investment pools are excluded from this disclosure requirement, per paragraph 15 of the GASB 40 statement.
- Foreign currency risk: Not applicable to 2a7-like pools.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors.

An annual audit of LAMP is conducted by an independent certified public accountant. The Legislative Auditor of the state of Louisiana has full access to the records of the LAMP.

LAMP issues financial reports. These financial reports can be obtained by writing: LAMP, Inc., 228 St. Charles Avenue, Suite 1123, New Orleans, LA, 70130.

3. Due from Other Governments

Amounts due from other governments consist of receivables for reimbursement of expenditures under various state and federal programs and grants. All amounts are expected to be collected within the next twelve months.

4. Inventories and Prepaid Items

Inventories are valued at average cost using the first-in, first-out method of accounting. Inventory in the General Fund consists of expendable supplies and maintenance materials held for consumption. Using the consumption method of recording inventories, expenditures are accounted for as the inventory is used.

Inventories of the Food Service Special Revenue Fund consist of purchased and donated commodities, lunchroom materials, and supplies. Such inventories are valued at cost with the exception of donated commodities that are valued at fair market value at the time of donation. Expenditures are recorded as the inventories are consumed. Unused commodity inventories at year-end are recorded as unearned revenues.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

5. Capital Assets

Capital Assets are recorded at historical cost or estimated historical cost and depreciated over their estimated useful life (excluding salvage value) which is based on past experience. Land and construction in progress are not depreciated. The capitalization threshold is \$5,000. Donated capital assets are recorded at their estimated fair value at the date of donation. Straight-line depreciation is used based on the following estimated useful lives:

Buildings	20-45 years
Improvements	10-25 years
Furniture and equipment	5-15 years
Vehicles	5-8 years

6. Compensated Absences

a. *Vacation* - The majority of the Board's employees, teachers (9 month employees), earn no vacation. Eligible employees annually earn two to four weeks of vacation based on length of service. Vacation time must be used within one year of the date earned or it is lost. Upon termination or retirement, an employee may either use or receive payment for any unused earned vacation for that year.

b. Sick Leave - Nine-month employees earn ten sick leave days two of which can be used for personal business. Other employees earn twelve sick leave days yearly. These days may be accumulated from one year to the next. On retirement, an employee receives payment for a maximum of 25 accumulated days and the balance is credited towards retirement per Louisiana Revised Statute 17:425.

c. Sabbatical Leave - Any employee with a teaching certificate is entitled to one semester of sabbatical leave after three years service or two semesters after six years service. No more than two semesters of sabbatical leave may be accumulated. Leave may be taken for medical purposes or professional and cultural improvement.

In the General Fund and Food Service Special Revenue Fund, a liability for compensated absences is recorded when expected to be paid with expendable, available financial resources. The General Fund liability amounted to \$1,350,030 and School Food Service Fund to \$88,180 at June 30, 2009, and includes a provision for salary related payments in accordance with the provisions of GASB Code Sec. C60.108. Compensated absences are reported in governmental funds only if they have matured.

The amount of accrued compensated absences and related benefits not expected to be paid within the next fiscal year from expendable, available financial resources is recorded in the government wide financial statements in the amount of \$11,821,820 June 30, 2009.

7. Equity Classifications

Government-wide Financial Statements:

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt—Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced generally by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets Consists of net assets with constraints placed on the use whether by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations. All restricted net assets reported on the Statement of Net Assets is restricted by enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, then unrestricted resources as needed.

Fund Financial Statements:

Government fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements.

D. Revenues, Expenditures, and Expenses

1. Sales and Ad Valorem Taxes

Ad valorem taxes are collected by the Calcasieu Parish Sheriff and remitted to the Board on a monthly basis. Assessed values are established by the Parish Assessor's Office each year based generally on 10% of the assumed market value of residential property and commercial land, on 15% of assumed market value of commercial buildings and personal property, and 25% of public utilities.

Ad valorem taxes must be levied on or before June 1 of the assessment year. However, before the taxes can be levied, the tax rolls must be submitted to the State Tax Commission for approval. Taxes are due and payable by December 31, the levy date and the date on which an enforceable lien attaches on the property. As of January 1 taxes become delinquent and interest and penalty accrue. Historically, virtually all ad valorem taxes receivable were collected since they are secured by property.

The School Board receives a one and one-half cent sales and use tax. The tax is remitted to the School Board in the same month the tax is collected. Revenue from the one and one-half cent sales tax is recorded in the general fund. Another one-half cent sales tax is collected for salary enhancements and is accounted for in the general fund.

The School Board also accounts for another one and one-half cent sales tax dedicated for improvements in Sales Tax District Number 3 (District 27). Revenue is recorded in the capital projects fund.

2. Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

3. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds - By Character: Current (further classified by function)

Capital Outlay
Debt Service

Proprietary Fund - By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of current financial resources. Proprietary funds report expenses relating to use of economic resources.

4. Interfund Transfers

Permanent transfers of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

Title 17, Section 88 of the Louisiana Revised Statutes, as amended by Act 183 of 1981, requires that the Board adopt not later than September 15, a budget for the general fund and all special revenue funds of expected revenues and probable expenditures for the year, and that copies of the budget be submitted to the State Superintendent of Public Education for review and approval. The receipts in the budget must be those normally expected from constitutional, statutory, and regular sources and must not include probable receipts that may arise from doubtful or contingent sources. The statute provides that the revenues, expenditures and disbursements shall be listed and classified on such forms and in such manner and substance as prescribed by the State Superintendent, and shall detail as nearly as possible the several items of expected cost, expenditures and disbursements, the total of which shall not exceed the total of estimated funds available. No items of cost, expenditures, and disbursement not included in the detailed estimates shall be paid by the treasurer, or ex officio treasurer, of the Board under the penalty that he or his surety or bondsman shall be personally liable for any items so paid and not included in the budgeted expenditures. If, during the course of the year, receipts from any unexpected or contingent sources are realized, the Board shall, before any such funds are allocated, committed, expended, or disbursed, prepare and adopt an amended budget.

The Board follows these procedures in establishing the budgetary data recorded in the financial statements:

- 1. The Chief Financial Officer submits a proposed annual budget of expected revenues and expenditures for the General and Special Revenue Funds. The budgets are prepared under the modified accrual basis of accounting. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each fund. A public hearing is advertised and conducted to obtain public input. Upon Board approval, the budget is then sent to the State Department of Education for approval.
- 2. Management can transfer appropriations from one area to another in amounts not exceeding \$10,000 without prior Board approval. Management cannot add expenditures to the budget without Board approval. The Board approves all General Fund budget revisions. Revisions approved during the year increased the General Fund budgeted revenues and other sources by \$15.0 million primarily due to state funding increases, sales tax growth, and other local sources. Budgeted expenditures and other uses increased by \$27.4 million due to state and local salary increases and salary supplements, increased instructional supply and equipment costs, greatly increased utility costs, and transactions associated with refinancing debt. It is the Board's policy that total expenditures not exceed revenues and fund balance. No legal restrictions, other than those mentioned previously, are placed on the General Fund budget.

- 3. Special Revenue Fund federal projects may not exceed budgeted amounts unless a budget revision is approved by the State Department of Education School Food Service expenditures cannot exceed the total estimated funds available.
- 4. The Debt Service Fund is controlled by related bond ordinances. The Debt Service Fund is not budgeted on an annual basis; therefore, a budget to actual comparison is not presented for this fund.
- 5. The Capital Projects Fund is controlled on a project basis through the use of formal bidding. All projects remain programmed and funded until completed or until the board decides to eliminate the project. The Capital Projects Fund is not budgeted on an annual basis; therefore, a budget to actual comparison is not presented for this fund.
- 6. There are no legal requirements that budgets be adopted for the Enterprise or Internal Service Funds and no budgets are adopted or presented.
- 7. General Fund and Special Revenue Fund appropriations lapse at the end of the fiscal year.

Excess of Expenditures Over Budget:

	<u>Fund</u>	Final Budget	Actual Amounts	<u>Variance</u>
Headstart		\$3,457,787	\$3,459,657	\$(1,870)

The excess of expenditures over appropriation in the Headstart program occurred due to use of revenue that exceeded budget to service children that pay to participate in the program. No amendment was made to budget for the insignificant amounts received for paying participants.

B. Deficit Fund Equity

The Employee's Health/Life Internal Service Fund had a deficit fund balance of \$61,209,582. This deficit is due to the increase of GASB 45 Other Post-Employee Benefits (OPEB) liability. An increase of \$30,566,434 was recorded for the June 30, 2009 year end with a total liability of \$66,242,079.

NOTE III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

The School Board has reported their investments with a maturity at time of purchase of one year or less at amortized cost. Investments with maturity at time of purchase of greater than one year are presented at fair value at June 30, 2009. Fair value was determined by obtaining "quoted" year-end market prices.

As of June 30, 2009 the School Board had its assets in mortgaged backed securities, money market instruments and other government securities managed by financial institutions. The accounts managed by the financial institutions have a fair value of \$60,000,148 as of June 30, 2009. This amount represents 100.0% of the School Board's investments as of this date.

	Fair		
Type of Debt Investment	<u>Value</u>	Less than 1	<u>1-5</u>
Mortgage backed securities	\$53,984,269	\$17,738,905	\$36,245,364
U. S. treasuries	1,418,662	1,418,662	-
Money market instrument	<u>4.597,217</u>	4,597,217	<u> </u>
Total investments	\$60,000,148	\$23.754.784	\$36,245,364

Interest Rate Risk: The School Board's policy on investments states that principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first insure that capital losses are avoided no matter the sources.

Credit Rate Risk: The School Board investments are in Certificates of Deposits, Savings Accounts and Government Securities which do not have credit ratings. Its policy states that investment decisions should not incur unreasonable risks in order to obtain current investment income.

Custodial Credit Risk-Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2009 the School Board had a bank balance of \$76,363,844 in which \$54,081,485 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School Board's name. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the School Board that the fiscal agent has failed to pay deposited funds upon request.

Custodial Credit Risk-Investments: For an investment, this is the risk that, in the event of the failure of the counter party, the School Board will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School Board's policy for investments is that they must be held by national banks, state-chartered banks or a national or state trust company. In addition a list will be maintained of approved security broker/dealers. Those broker/dealers must have a minimum capital requirement of \$10 million and have been in business for at least five years. The School Board does maintain investments according to it policy.

B. Reserves and Designations of Fund Balance (FFS Level Only)

Governmental Funds - Reserves in the governmental funds represent portions of fund balance which are not appropriable for expenditures or have been segregated for specific future uses, while designations of fund balance represent tentative plans for financial resource utilization in a future period.

C. Receivables

Receivables as of June 30, 2009 for the governmental funds are as follows:

			1	Von-major			
	General Fund		_Gc	overnmental	Int	ernal Service	 Total
Local Revenue:			`				
Property Taxes	\$	112,075	\$	118,287	\$	-	\$ 230,362
Sales Tax		8,150,616		330,242		-	8,480,858
Interest		3,987		-		-	3,987
Installment Sale		249,779		_		-	249,779
Other		1,693,811		28,818		1,483,887	3,206,516
State Grants		3,164,875		160		-	3,165,035
Federal Grants		11,604		7,742,210		-	7,753,814
Total	\$	13,386,747	\$	8,219,717	\$	1,483,887	\$ 23,090,351

The School Board has sold two school sites on the installment sale method. The interest rate on these notes is 6%. As principal and interest are received, revenue is recognized. The balance of the notes is shown as receivables and a reservation of fund balance.

No allowance for doubtful accounts has been established as the Board expects to collect the full balance.

D. Capital Assets

Changes in capital assets during fiscal year ended June 30, 2009 are as follows:

	Balance Beginning Additions Deletions					Deletions	Balance Ending		
Governmental activities									
Non-Depreciable capital assets:									
Land	\$	6,677,199	\$	787,635	\$	40,000	\$	7,424,834	
Construction in progress		10,932,760		29,528,221		3,570,459		36,890,522	
Total Nondepreciable capital assets		17,609,959		30,315,856		3,610,459		44,315,356	
Depreciable capital assets:								· · · · · · · · · · · · · · · · · · ·	
Buildings & Improvements		379,218,661		3,570,459			3	82,789,120

F. Long-Term Debt

The changes in general long-term debt for the year ended June 30, 2009 are as follows:

	Balance June 30, 2008	Additions	Deletions	Balance June 30, 2009	Amounts Due Within One Year
General Obligation Bonds	\$ 189,025,000	\$ 58,300,000	\$ 42,500,000	\$ 204,825,000	\$ 12,295,000
Sales Tax Revenue Bonds	12,165,000	•	745,000	11,420,000	765,000
Revenue Certificates	10,765,000	•	2,040,000	8,725,000	1,550,000
Less deferred amounts: on refunding	(626,739)	(635,000)	(467,556)	(794,183)	(207,770)
Sales Tax Incremental Financing Agreement	869,517	-	869,517	-	-
Accrued Compensated Absences	10,917,954	1,507,161	603,295	11,821,820	*600,000
Accrued Workers' Compensated Liability - Pre 1986	217,237	140,988	81,702	276,523	*75,000
Accrued Workers' Compensated Liability - Post 1986	1,702,431	2,758,591	2,827,113	1,633,909	1,633,909
Employee Health/Life Liability	4,500,000	40,554,781	40,054,781	5,00 0,000	5,000,000
OPEB liability	35,675,645	44,031,394	13,464,960	66,242,079	-
Other Debt	10,802,024	2,371,701	2,491,405	10,682,320	2,84 9,092
Total Long-Term Debt	\$ 276,013,069	\$149,029,616	\$105,210,217	\$ 319,832,468	\$ 24,560,231

^{*}Annual payment requirements for the Accrued Compensated Absences and the Accrued Workers' Compensation Liability are dependent on yearly occurrences not conducive to simple amortization. The majority of all payments made in these categories will be funded by the School Board General Fund and will be appropriated in the year of payment as necessary. However, the accrued workers' compensation liability – post 1986, employee health /life liability and OPEB liability are paid using the internal service funds. Amounts listed are estimates based on prior experience.

The annual requirements to amortize outstanding bonds payable including related interest costs as of June 30, 2009 are as follows:

Year Ending June 30	Оь	General ligation Bond Principal	(General Obligation and Interest	H	ales Tax tevenue Bond rincipal		Sales Tax Revenue nd Interest	C	Revenue 'ertificate Principal	C	Revenue ertificate Interest	Total

G.O. - General Obligation, S/T - Sales Tax, R- Revenue Certifications

At June 30, 2009, \$18,177,048 is available in the Debt Service Funds to service the above debt.

The Board is legally restricted from incurring long-term debt in excess of thirty-five percent of the assessed value of taxable property. At June 30, 2009, the statutory limit was \$628,498,084 and the remaining debt margin was \$439,958,358.

The following section on Other Debt includes descriptions of debt outstanding along with the annual repayment requirements in each class for future years.

1. Other Debt

On January 1, 1999, the Board entered into a loan agreement with the Louisiana Local Government Environmental Facilities and Community Development Authority (LCDA). The LCDA is a political subdivision of the State of Louisiana created to assist in financing political subdivisions that are members of the LCDA. The Board, having met the requirements to become a LCDA member, has borrowed the following amounts with outstanding balances at June 30, 2009: \$1,902,389 in the year ended June 30, 2007; \$1,479,660 in the year ended June 30, 2008; and \$2,371,701 in the year ended June 30, 2009.

The following is a schedule of the annual requirements to amortize the loan.

<u>Year</u>	<u>Principal</u>
2010	\$ 1,864,389
2011	1,272,160
2012	695,201
*	\$ 3.831.750

^{*}Amounts for interest requirements have not been calculated. The interest rate is a variable rate computed weekly equal to The Bond Market Association Index plus 90 basis points (0.90%) as per the loan agreement between the Board and the Louisiana Community Development Authority (LCDA) and approved by the bond insurer. At June 30, 2009, the rate was 1.26%.

In connection with the expansion and renovation of Prien Lake Mall Shopping Center, the Board entered into an agreement which provided for a portion of future sales tax collections from establishments located at the project site to be reimbursed to the mall developer, contingent upon completion and occupancy of the project. The reimbursement obligation, which was limited to a maximum total of \$3,555,555, was payable semiannually without interest solely from a 44.4 percent portion of the incremental increase in sales tax collections generated from the project site within a maximum period of ten years from completion of construction. As of June 30, 2009, the reimbursement obligation has been completed. The original obligation was based on an estimate in which the School Board used a conservative approach. Therefore, when the obligation was completed, the School Board wrote off the remaining liability of \$822,427. This is reflected as miscellaneous income on the Statement of Activities.

The School Board has borrowed money through the Qualified Zone Academy Bond Program (QZAB) on two separate occasions, \$1,164,668 in 2002 and \$9,000,000 in 2005. The QZAB program is a loan program in which the bondholders receive little or no interest, but instead receive federal tax credits for participating in the program. Proceeds of the loan program must be spent at schools with greater than 35% at-risk student population. The annual requirements to amortize the debt outstanding are as follows:

	P	02 Loan rincipal <u>6 Interest)</u>	005 Loan <u>Principal</u>	I	05 Loan nterest (38%)	<u>p</u>	Total rincipal	Total nterest
2010	\$	84,703	\$ 900,000	\$	34,200	\$	984,703	\$ 34,200
2011		84,703	900,000		34,200		984,703	34,200
2012		84,703	900,000		34,200		984,703	34,200
2013		84,703	900,000		34,200		984,703	34,200
2014		84,703	900,000		34,200		984,703	34,200
2014-2016		127,055	 1,800,000		68,495		1,927,055	 68,495
	\$	550,570	\$ 6,300,000	\$	239,495	\$	6,850,570	\$ 239,495

G. Defeasance of Prior Debt

In prior years, the Board defeased certain outstanding general obligation bonds by issuing \$144,988,846 in new general obligation bonds. Proceeds from the issuance of the new general obligation bonds invested in U. S. treasury obligations that, together with interest earned thereon, will provide amounts sufficient for payment of all principal and interest on the refunded bonds on each of their respective payment dates. Accordingly, the refunded general obligation bonds are not included in the Board's financial statements. At June 30, 2009 the outstanding balance on all bonds considered defeased is \$20,755,000.

H. Interfund Receivables and Payables

The School Board's consolidated cash account holds the cash of all funds not required to have their own cash account. As a result, negative cash balances occur in certain funds and are in essence financed by other funds, while negative cash balances are included in interfund payables on the combined balance sheet.

The interfund balances at June 30, 2009 are as follows:

Receivable Fund	Amount	Payable Fund	 Amount
General	\$ 5,383,629	Nonmajor governmental	\$ 5,383,629
Total	\$ 5,383,629		\$ 5,383,629

I. Interfund Transfers

The interfund transfers for the year ended June 30, 2009 are as follows:

	<u>T</u> .	ransfer In		\mathbf{T}	ransfer Out
General	\$	362,492	Non-major governmental	\$	362,492
General		218,688	Proprietary Fund-Extended Day		218,688
Non-major governmental		5,432,108	General		5,432,108
Non-major governmental		772,927	Non-major governmental		772,927
Total	\$	6,786,215		\$	6,786,215

Transfers from the General Fund to the Non-major Governmental Funds are to supplement the Food Service Fund and to assist the funding of capital projects. Non major Governmental transfers were for debt service and to assist funding of other capital projects. Proprietary transfers were for the Extended Day Program. Other Governmental Funds to Other Governmental Funds were mainly from debt service to capital projects.

NOTE IV. OTHER INFORMATION

A. Risk Management

The School Board maintains health insurance and worker's compensation insurance programs that have self-insured components. Both funds, the Health/Life Insurance Fund and Worker's Compensation Fund (Internal Service Funds) are used to account for premium collections and payments in the form of benefits payments, premium costs, and administrative costs. The Health/Life Insurance Plan year operates from May 1 to April 30 of each year, a cycle different than the fiscal year of the School Board. Within the 2008-2009 plan year, the Calcasieu Parish School Board was responsible for up to \$35.3 million of actual claims cost plus premium costs and any local administrative costs required to pay claims, which was a process completed in-house by School Board personnel. Reinsurance was purchased from Blue Cross through Highmark Life Insurance to assume any claims exceeding \$35.3 million of actual claims cost for the plan year or to assume claims costs exceeding \$250,000 on any individual participant for the plan year. On May 1, 2004, claims payment and reinsurance responsibilities were converted to Blue Cross/Blue Shield of Louisiana with a traditional P.P.O. oriented plan.

Premiums collected in the 2008-2009 plan year from the combination of participants and School Board funds were less than sufficient to cover actual claims plus premium and administration costs. An increase in participants and the plan year beginning date of May I resulted in expenses exceeding premiums collected in the amount of \$455,556. Due to implementation of GASB 45, an accrual was made to reflect the actuarially determined annual required contribution of \$30.6 million. See Note B below for details. Together with net assets accumulated through the end of June 30, 2008 net assets at June 30, 2009 amounted to a deficit of \$61,887,783.

All full-time employees are eligible to join the program and all retirees have the option to continue coverage upon retirement. The School Board and the insured participant contribute to the fund at varying rates depending on coverage classes. In an effort to provide more consistency in the premium rate structure, the School Board adopted new employer contribution rates for the plan year beginning May 1, 2001. The

School Board now funds 62% of employee only coverage and 50% of any dependent coverage with the employee responsible for the remainder of the premium. The estimated liability of \$5 million for claims incurred but not reported and reported but not paid is based on historical claims and industry trends and is recorded as required by Governmental Accounting Standards Board Statement No. 10. Current participant health plan benefits include \$2 million lifetime maximum benefits, \$300 deductibles with a \$1,500 maximum out-of-pocket expenses per plan year, and drug and doctor visit co-payments. Each employee has the option of carrying life insurance coverage to a maximum \$50,000 with eligibility based on current position. Life insurance coverage is purchased from a commercial carrier and funded by both the employee and the School Board. The Board's premium for the life insurance coverage is under a retrospectively rated policy and the initial premium is adjusted based on actual experience during the period of coverage.

The School Board maintains a partially self-insured worker's compensation program that was established in 1987. The Worker's Compensation Fund provides coverage to a maximum of \$300,000 for each claim. The Board purchases excess insurance coverage for the amount of each claim that exceeds \$300,000 from Republic Western Underwriters. All School Board funds make contributions to the Worker's Compensation Fund based on the total payroll and total claims history of each fund. The actual fund balance at June 30, 2009 totaled \$678,201 including a negative change in net assets of \$487,983 for 2008-09. Estimated claims payable are reported at \$1.6 million based on actuarial estimates including claims incurred but not reported as required in Governmental Accounting Standards Statement 10.

Based on actuarial estimates, an unfunded liability of \$276,523 is reported in the government-wide financial statements for those claims incurred prior to the establishment of the Worker's Compensation Fund in 1987. These claims will ultimately be paid by the general fund annually as they occur.

Changes in each Fund's claims liability amounts are:

Employee Health/Life Fund

		Current Year		
	Beginning	Claims and		Ending
	of	Changes in		of
	Year Liability	Estimates	Claims Paid	Year Liability
2007	\$ 4,488,857	\$ 34,585,284	\$ 34,574,141	\$ 4,500,000
2008	4,500,000	36,587,037	36,587,037	4,500,000
2009	4,500,000	40,554,781	40,054,781	5,000,000

Worker's Compensation

		Current Year		
	Beginning	Claims and		Ending
	of	Changes in		of
	Year Liability	Estimates	Claims Paid	Year Liability
2007	\$ 1,198,690	\$ 2,590,801	\$ 2,614,774	\$ 1,174,717
2008	1,174,717	4,176,842	3,649,128	1,702,431
2009	1,702,431	2.758.591	2.827.113	1,633,909

The Board purchases commercial insurance for property (all risks), general liability, and fleet coverages, all with \$250,000 deductibles per occurrence and a named storm deductible of 2% per location value. The property insurance coverage covers losses up to \$35 million in value, while the fleet and general liability policies have limits of \$1 million per occurrence. The School Board also purchases umbrella coverage to raise loss limits on fleet and liability claims to \$3,000,000 per policy year. Other commercial coverages include policies for employee dishonesty bonds, errors and omissions, and boiler insurance. The current policy limits on most commercial coverages have been in effect for multiple years. Settled claims have not exceeded commercial excess coverages in any of the last three years. There have been no significant reductions in insurance coverage from the prior year.

B. Other Post-Employment Benefits

<u>Plan description</u> – In accordance with state statutes, the School Board provides certain continuing health care and life insurance benefits for it retired employees on a pay-as-you-go basis. Substantially all of the School Board's employees become eligible for these benefits if they reach normal retirement age while working for the School Board. These benefits and similar benefits for active employees are provided through the Blue-Cross/Blue-Shield of Louisiana, whose monthly premiums are paid jointly by the employee and the School Board.

Funding Policy – The contribution requirements of plan members and the School Board are established and may be amended by LRS 42:801-883. Employees do not contribute to their post employment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the cost of retiree healthcare based on a service schedule. Contribution amounts vary depending on annual funding requirements of the Health and Life Insurance Fund as determined by projected costs, participant numbers, and coverage applied to all participants. For retirees hired before May 2004, the School Board pays 62% for retirees' insurance and 50% for any dependent coverage. Retirees hired after May 2004 are subject to the participation schedule regarding the contribution responsibility by the Board as follows:

Retirees	Years of Participation	Employer Contribution
	Less than 1 year	0%
	At least 1, less than 10	16%
	At least 10, less than 15	32%
	At least 15, less than 20	47%
	20 years or more	62%
Dependents	Years of Participation	Employer Contribution
_	Less than 1 year	0%
	At least 1, less than 10	12%
	At least 10, less than 15	25%
	At least 15, less than 20	38%
	20 years or more	5 0%

The plan is currently financed on a pay as you go basis, with the School Board contributing \$13,464,960 for 1,939 retirees.

Annual Other Post Employment Benefit Cost and Liability - The School Board's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45, which is being implemented prospectively for the year ended June 30, 2009. The ARC represents a level of funding that, if paid on an ongoing basis, would cover normal cost each year and amortize any unfunded actuarial liabilities (UAL) over a period of thirty years. A 30 year, closed amortization period had been used with a level dollar amortization factor. The total ARC for fiscal year 2009 is \$44,624,152 as set forth below:

Normal Cost	\$16,927,562
30-year UAL amortization amount	27,696,590
Annual required contribution (ARC)	\$44,624,152

The following table presents the School Board's OPEB Obligation for fiscal year 2009:

	<u>2009</u>	<u>2008</u>
Beginning Net OPEB Obligation July 1,	\$ 35,675,645	\$ -
Annual required contribution	44,624,152	40,310,182
Interest on prior year Net OPEB Obligation	1,427,026	1,612,407
Adjustment to ARC	(2,019,784)	
Annual OPEB Cost	\$ 44,031,394	\$41,922,589
Less current year retiree premiums	(13,464,960)	(6,246,944)
Increase in Net OPEB Obligation	\$ 30,566,434	35,675,645
Ending Net OPEB Obligation at June 30,	\$ 66,242,079	\$35,675,645

Utilizing the pay as you go method, the School Board contributed 30.6% of the annual post employment benefits cost during 2009. The OPEB liability is accounted for within the internal service fund.

<u>Funded Status and Funding Progress</u> - Since the plan is not funded, the School Board's entire actuarial accrued liability of \$471,022,796 was unfunded. A Schedule of Funding Progress follows the notes as required supplemental information.

The funded status of the plan, as determined by an actuary as of July 1, 2008, was as follows:

Actuarial accrued liability (AAL)	\$ 471,022,796
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	\$ 471,022,796
Funded ratio (actuarial value of plan assets/AAL)	-
Covered payroll	\$ 197,271,636
UAAL as a percentage of covered payroll	238.8%

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

In the June 1, 2008, Calcasieu Parish School Board actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumptions included a 4.0 % discount rate for valuing liabilities. The assumed annual per capita cost of medical and pharmacy benefits for retirees range from \$3,909 and \$4,789 for males and females under 50 respectively progressing to \$6,334 and \$5,595 for Medicare eligible males and females over 95 respectively and \$17,595 and \$14,422 for males and females over 95 with no Medicare respectively. The trend assumptions used for medical and pharmacy costs and retiree premiums for dental range from 12% for 2008 to 5% for 2015 and ongoing. The RP-2000 Static Health Mortality Table was used in making actuarial assumptions. Withdrawal rates for employees ranged from 7% at age 25 to 2% at age 50. There was no disability rates assumed. Retirement rates ranged from 3% at age 50 to 100% at age 70. The remaining amortization period at June 30, 2009, was twenty-eight years.

Contingencies The Board participates in a number of Federal Awards Programs. Although the grant programs have been audited in accordance with the Single Audit of 1984 and the 1996 amendments as well as OMB Circular A-133 through June 30, 2009, these programs are still subject to financial and compliance audits and resolution of any previously identified questioned costs. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Board expects such amount, if any, to be immaterial. The compliance audit report is not included within the report but will be issued as a supplementary report.

As of June 30, 2009, the School Board is a defendant in a number of lawsuits. However, it was noted that there are several lawsuits totaling \$2.5 million, of which \$750 thousand has been designated as probable. No liability was recorded for the thirteen lawsuits with a probable outcome of \$750 thousand.

Tax Arbitrage Rebate: Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

The Calcasieu Parish School Board entered into Phase 1 of a Performance Based Energy and Operational Efficiency Program contract on July 15, 1997, with Johnson Controls, Inc., (JCI) after conducting an extensive R.F.P. process. The program was designed to make school district energy consuming equipment more efficient through upgrades, replacements, and monitoring systems. Savings generated in the 10 year contract were guaranteed by the contractor to pay for all improvements and generate additional savings of at least \$12,330 over the life of the contract. Savings reports were monitored by Associated Design Group, a third party engineering group hired by the School Board to insure savings guarantees were being achieved.

On January 25, 2005, the Calcasieu Parish School Board amended the Performance-Based Energy and Operational Efficiency Program contract with Phase 2. In Phase 2 JCI agreed to install energy conservation measures, facility improvement measures, and operational efficiency improvements which

result in energy savings. This program also has a guaranteed savings component to generate \$28.78 million over a 10 year contract. The savings generated exceed the cost of the program including annual maintenance service costs by \$845,766 over the 10 year period. The Calcasieu Parish School Board continues to contract with Associated Design Group to monitor savings reports for accuracy and compliance.

The Louisiana Attorney General recently issued an opinion (A. G. Opinion No. 07-0002) regarding a similar contract with another School Board and concluded that some of these contracts may not meet the statutory definition of a performance based energy contract. The Calcasieu Parish School Board has authority to cancel the contract at any time it proves beneficial to the Board, since an agreed upon two year window of non-cancellation has expired. The Board will continue to monitor the contract through its staff and third party engineering firm for compliance and continued effectiveness.

D. On-Behalf Payments for Salaries and Benefits GASB Statement 24 Accounting and Financial Reporting for Certain Grants and Other Financial Assistance requires the Board to report in the financial statements on-behalf salary and fringe benefits payments. The Parish Tax Collector makes retirement remittances to the teacher's retirement system of the State of Louisiana. These remittances are a portion of the property taxes and state revenue sharing collected which are statutorily set aside for teacher's retirement. The basis for recognizing the revenue and expenditure payments is the actual contribution made by the Tax Collector's office. For 2008, the Tax Collector paid the Teacher's Retirement System of Louisiana \$1,476,648. These amounts are reflected in the financial statements for the General Fund.

The State of Louisiana made pension contributions (regarding Professional Improvement Program) directly to the Teacher's Retirement System of Louisiana on behalf of the School Board in the amount of \$58,002. This amount was recognized as state revenue and a corresponding expenditure in the applicable fund from which the salary was paid.

E. Retirement Systems

Plan Description As required by state statute, substantially all School Board employees participate in either the Teachers' Retirement System of Louisiana or the School Employees' Retirement System (the Systems), which are cost-sharing, multiple-employer public employee retirement systems (PERS). Benefit provisions are ultimately approved and amended by the Louisiana Legislature. Participation in the Teachers' Retirement System of Louisiana is divided into two plans - the Teachers' Regular Plan and the Teachers' Plan A. In general, professional employees (such as teachers and principals) and lunchroom workers are members of the Teachers' Retirement System of Louisiana (TRSL); other employees, such as custodial personnel and bus drivers, are members of the Louisiana School Employees' Retirement System (LSERS). Generally, all full-time employees are eligible to participate in the system.

With respect to the Teachers' Retirement System of Louisiana Regular Plan, normal retirement is at age sixty with ten years of service, or at any age with twenty years of service. The formula for annual maximum retirement benefits is generally two percent (with less than twenty-five years of service) or 2.5 percent (with twenty-five or more years of service) times the years of creditable service times the average salary of the thirty-six highest successive months (plus \$300 applicable to persons becoming members prior to July 1, 1986).

Under the Teachers' Retirement System of Louisiana Plan A, normal retirement is generally at any age with 30 or more years of creditable service, at age fifty-five with at least twenty-five years of creditable service and at age sixty with at least ten years of creditable service. The retirement benefit formula is generally three percent times the years of creditable service times the average salary of the thirty-six highest successive months plus \$24 per year of service.

Employees participating in the School Employees' Retirement System are eligible for normal retirement after thirty years of service, or after twenty-five years of service at age fifty-five or after ten years of service at age sixty. The maximum retirement allowance is computed at 2.5 percent times the highest thirty-six months of average salary, times the years of service plus a supplement of \$2.00 per month times the years of service.

Both TRSL and LSERS issue annual financial reports. The reports can be obtained by telephoning or writing to the following:

Teachers' Retirement System of Louisiana
Post Office Box 94123
Baton Rouge, Louisiana 70804-9123
(225) 925-6446

Louisiana School Employees' Retirement System Post Office Box 44516 Baton Rouge, Louisiana 70804 (225) 925-6484

<u>Funding Policy</u> Each system is administered and controlled at the state level by a separate board of trustees, with contribution rates approved and amended by the Louisiana Legislature. Benefits of the systems are funded by employee and employer contributions. Benefits granted by the retirement systems are guaranteed by the state of Louisiana under provisions of the Louisiana Constitution of 1974.

In addition, the employer does not remit to the Teachers' Retirement System of Louisiana, Regular Plan or Plan A, the employer's contribution for the professional improvement program (PIP) portion of payroll. The PIP contribution is made directly to the Retirement System by the state of Louisiana.

Contribution rates (as a percentage of covered salaries) for active plan members as established by the Louisiana Legislature for the year ended June 30, 2009, are as follows:

	Employee	Employer
Louisiana Teachers' Retirement System:		
Regular	8.00%	15.50%
Plan A	9.10%	15.50%
Louisiana School Employees' Retirement System	7.50%	17.80%

Total covered payroll of the School Board for TRSL - Regular Plan, TRSL - Plan A, and LSERS for the year ended June 30, 2009, amounted to \$168,619,340, \$175,377, and \$14,328,119 respectively. Employer contributions for the year ended June 30, 2009, and each of the two preceding years are as follows:

Fiscal Year Ended	<u>TRSL</u>	<u>LSERS</u>
June 30, 2007	\$23,591,828	\$2,525,099
June 30, 2008	27,707,928	2,446,832
June 30, 2009	26,167,215	2,550,405

Employer contributions totaled 100% of the annual actuarially required contribution.

F. Joint Service Agreements The School Board serves as the collecting agent for sales taxes levied by all local entities in Calcasieu Parish. All sales taxes collected by the Calcasieu Parish School Board Sales Tax Department are remitted periodically to each levying entity through electronic transfers. The School Board collects a fee to cover the cost of administering sales tax collections for the Parish. This fee is based on the relationship of the individual sales tax jurisdiction collections to total collections applied against the sales tax office expenditures. Total fees for sales tax collection in the period ending June 30, 2009 amounted to \$846,513.

Calcasieu Parish has a three percent parish wide hotel-motel tax that is collected by the School Board Sales Tax Department. All proceeds of the tax, less a collection fee that amounted to \$3,399,276 for the period ending June 30, 2009, were remitted to the Lake Charles-Calcasieu Parish Convention and Tourist Commission.

The School Board has also entered into other cooperative agreements with various agencies and governmental entities on land use issues and consolidated services for recreational and educational benefits.

G. Changes in Agency Deposits Due Others The changes in agency deposits due others for the year ended June 30, 2009 are as follows:

	July 1, 2008	Additions	Deductions	June 30, 2009
Due to student & employee groups	\$ 6,029,563	\$ 13,982,172	\$ 14,207,540	\$ 5,804,195
Due to other governments	19,180,886	233,519,472	232,059,351	20,641,007
Scholarship fund	11,239	8 6	-	11,325
Protested taxes payable	6,680,522	3,127,750	3,955,811	5,852,461
Total	\$31,902,210	\$ 250,629,480	\$ 250,222,702	\$ 32,308,988

- H. Economic Dependency Statement of Financial Accounting Standards (SFAS) NO. 14 requires disclosure in financial statements of a situation where one entity provides more than 10% of the audited entities' revenue. The Minimum Foundation funding provided by the state to all public school systems in Louisiana is primarily based on the October 1 student count. The state provided \$145,206,070 to the School Board, which represents approximately 41.4% of the School Board's total revenues for the year.
- I. Refunding The School Board issued \$30,800,000 of general obligation bonds for a current refunding of \$30,165,000 of general obligation bonds. The refunding was undertaken to reduce total future debt service payments. The reacquisition price exceeded the net carrying amount of the old debt by \$635,000. This amount is being netted against the new debt and amortized over the new debt's life. This transaction also resulted in an economic gain of \$658,658 and a reduction of \$854,277 in future debt service payments.
- J. Subsequent Events The School Board received authority under the American Recovery and Reinvestment Act of 2009 (ARRA) to issue bonds for construction, rehabilitation or repair of public school facilities. The bonds are interest free and bond holders receive a tax credit in lieu of interest. In December 2009, the School Board issued revenue bonds of \$5 million to be paid from riverboat gaming revenue collected monthly.

Notes to Budgetary Comparison Schedule For the Year Ended June 30, 2009

A. General Budget Policies. The School Board follows these procedures in establishing the budgetary data reflected in the budgetary comparison schedules.

State statute requires budgets be adopted for the general fund and all special revenue funds.

Each year prior to September 15, the Superintendent submits to the School Board proposed annual budgets for the general fund and special revenue funds' budgets. Public hearings are conducted, prior to the School Board's approval, to obtain citizens comments. The operating budgets include proposed expenditures and the means of financing them. Budgets are prepared using the modified accrual basis.

Appropriations (unexpended budget balances) lapse at year end.

Formal budget integration (within the accounting records) is employed as a management control device. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. These revisions were considered significant by the School Board. All budget revisions are approved by the School Board.

The budgets are prepared under the modified accrual basis of accounting. The level of budgetary control is established by function within each fund. Management can transfer appropriations from one area to another in amounts not exceeding \$10,000 without prior Board approval.

CALCASIEU PARISH SCHOOL BOARD

COMPREHENSIVE ANNUAL FINANCIAL REPORT

Nonmajor Special Revenue Funds

VOCATIONAL EDUCATION ACT

BASIC GRANTS TO STATES To make the United States more competitive in the world economy by developing more fully the academic and occupational skills of all segments of the population, principally through concentrating resources on improving educational programs leading to academic and occupational skills needed to work in a technologically advanced society.

TECH-PREP EDUCATION To distribute funds to states to enable them to provide planning and demonstration grants to consortia of local educational agencies and post-secondary educational agencies, for the development and operation of four-year programs designed to provide a tech-prep education program leading to a two-year associate degree or a two-year certificate and to provide, in a systematic manner, strong, comprehensive links between secondary schools and post-secondary educational institutions.

<u>ADULT BASIC EDUCATION</u> To improve educational opportunities for adults and to encourage the establishment of adult education programs that will enable all adults to acquire basic educational skills necessary to function in a literate society, enable adults who so desire to complete secondary school, and enable adults to benefit from job training and retraining programs and obtain productive employment to more fully enjoy the benefits and responsibilities of citizenship.

Special emphasis is given to programs of instruction in computational skills and in speaking, reading, or writing English for those adults who are educationally disadvantaged.

INDIVIDUALS WITH DISABILITIES EDUCATION ACT (IDEA) The purpose of IDEA is to seek out and identify every child within the jurisdiction of the Board who is suspected of being an exceptional child and in need of special education and related services; and to provide individualized education programs for those in need of specially designed instruction.

<u>IMPROVING AMERICA'S SCHOOLS ACT (IASA)</u> The purpose of IASA is to provide opportunities for eligible children served to acquire the knowledge and skills to meet the challenging State performance standards.

WORK FORCE INVESTMENT ACT (WIA) This project is to help youth with job development, training and placement.

<u>TECHNOLOGY GRANT</u> This provides funding for professional development in the use of technologies that enhance teacher effectiveness and support student learning and achievement.

SCHOOL FOOD SERVICE To assist through grants and food donations in providing a nutritious breakfast and hunch service for school students and to encourage the domestic consumption of nutritious agricultural commodities.

(continued)

Nonmajor Special Revenue Funds

HEAD START To provide comprehensive health, educational, nutritional, social and other services primarily to economically disadvantaged preschool children, including Indian children on federally-recognized reservations, and children of migratory workers and their families; and to involve parents in activities with their children so that the children will attain overall social competence.

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF) Funding provided to assist educating disadvantaged youth and provide job preparation.

PRESCHOOL To provide grants to states to assist them in providing a free appropriate public education to preschool disabled children ages three to five years.

<u>MISCELLANEOUS FUNDS</u> To account for various small state and federal grants for which the expenditures are legally restricted to specified purposes.

Schedule of Amounts Paid To Board Members

CALCASIEU PARISH SCHOOL BOARD

COMPREHENSIVE ANNUAL FINANCIAL REPORT

Calcasieu Parish School Board

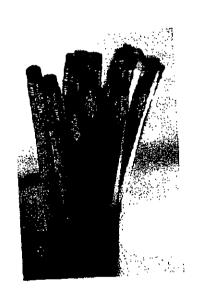

General

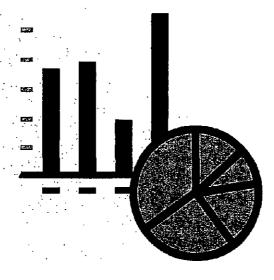

Schedule of Compensation Paid Board Members For the Year Ended June 30, 2009

The schedule of compensation paid to the School Board members is presented in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. Compensation of the School Board members is included in the general administrative expenditures of the general fund. In accordance with Louisiana Revised Statute 17:56, the School Board members have elected the monthly payment method of compensation. Under this method, each member of the School Board receives \$800 per month, and the president receives \$900 per month for performing the duties of his office.

⁽¹⁾ Information obtained from Calcasieu Parish Tax Assessor

Note that overlapping rates are those of local governmental entities that apply to property owners within the school system's system's area. Not all overlapping rates apply to all property owners; for example, although the school system's general fund rates apply to all parish property owners, the debt service rates apply only to the property owners with property in the debt service district.

Source: Information obtained from Calcasteu Parish Tax Assessors' Office

⁽²⁾ Represents aggregate millage of all debt service districts.

⁽³⁾ Includes the cities of Lake Charles, Sulphur, Westlake, DeQuincy, Vinton, and lows.

Debt Capacity Information Calcasieu Parish School System Direct and Overlapping Governmental Activities Debt (Unaudited)

Jurisdiction	Net General Obligation Bonded Debt Outstanding	Percentage Applicable to Calcasieu Parish School Board (2)	Amount Applicable to Calcasieu Parish School Board
Direct: Calcasieu Parish School Board	\$204,825,000	100%	\$204,825,000
Overlapping: Parish	20,393,954	100%	20,393,954
Cities(1)	50,685,609	100%	50,685,609
Total Overlapping Debt:	\$71,079,563		\$71,079,563
Total Debt:	\$275,904,563		\$275,904,563

(1) Includes the cities of Lake Charles, Sulphur, Westlake, DeQuincy, Vinton, and lowa.

(2) All property within Calcasieu Parish must bear the debt of the Calcasieu Parish School Board; therefore, all other reporting entities within the Parish fall under the Board's jurisdiction. The computation of the amount of debt applicable to the Board, within the context that such debt will be serviced through levies upon the same properties which the Board taxes, is determined by applying the above percentages to the net amount of debt outstanding.

⁽¹⁾ General Fund expenditures allocated does not include any local or state grants and will differ from the general fund amounts on the financial statements because of this exclusion. General fund amounts not specifically charged by location were allocated based on student population. State and local grants usually target specific locations and would skew the per pupil amounts.

Note that per pupil expenditures were calculated using February 1 student count.

Report on Internal Control Over Financial
Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With Government Auditing Standards

Board Members Calcasieu Parish School Board Lake Charles, Louisiana

We have audited the financial statements of the governmental activities, the business-type activities, the general fund, the Westlake/Maplewood construction fund, and the aggregate remaining fund information of the Calcasieu Parish School Board, as of and for the year ended June 30, 2009, which collectively comprise the School Board's basic financial statements and have issued our report thereon dated December 15, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 09-F1 and 09-F2 to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that none of the significant deficiencies described above are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters which are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of the School Board in a separate letter dated December 15, 2009.

The School Board's response to the findings identified in our audit is described in the accompanying Corrective Action Plan for Current Year Findings and Questioned Costs. We did not audit the School Board's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board, management, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513 this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Board Members Calcasieu Parish School Board Lake Charles, Louisiana

Compliance

We have audited the compliance of the Calcasieu Parish School Board with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2009. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the School Board's management. Our responsibility is to express an opinion on the School Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School Board's compliance with those requirements.

In our opinion, the School Board complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 09-F3.

Internal Control over Compliance

The management of the School Board is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School Board's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 09-F3 to be a significant deficiency.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider any of the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the general fund, the Westlake /Maplewood construction fund, and the aggregate remaining fund information of the School Board as of and for the year ended June 30, 2009, and have issued our report thereon dated December 15, 2009. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The School Board's responses to the findings identified in our audit are described in the accompanying Corrective Action Plan for Current Year Findings and Questioned Costs. We did not audit the School Board's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board, management, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513 this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

Calcasieu Parish School Board Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2009

NOTE 1 - GENERAL The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of the Calcasieu Parish School Board (the "School Board"). The School Board reporting entity is defined in Note 1 to the School Board's financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, is included on the schedule.

NOTE 2 - BASIS OF ACCOUNTING The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the School Board's financial statements.

NOTE 3 - RELATIONSHIP TO FINANCIAL STATEMENTS Federal awards expenditures are reported in the School Board's financial statements as follows:

	Federal Sources	
General fund	\$ 84,367	
Other governmental:		
Vocational Education Act	431,764	
Adult Basic Education	228,915	
IDEA	8,224,926	
IASA	11,719,280	
WIA	174,611	
Technology Grant	383,644	
School Food Service	9,852,107	
Head Start	3,457,787	
TANF	138,995	
Preschool	203,812	
Miscellaneous Funds	921,238	
Hurricane Rita Rebuild	326,540	
Total	\$ 36,147,986	

NOTE 4 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with accounting principles generally accepted in the United States of America.

NOTE 5 - MATCHING REVENUES For those funds that have matching revenues and state funding, federal expenditures were determined by deducting matching revenues from total expenditures.

NOTE 6 - NONCASH PROGRAMS The commodities received, which are noncash revenues, are valued using prices provided by the United States Department of Agriculture.

PART I - Summary of the Auditors' Results

Financial Statement Audit

- i. The type of audit report issued was unqualified.
- ii. There were two significant deficiencies required to be disclosed by Government Auditing Standards issued by the Comptroller General of the United States. The significant deficiencies are not considered to be material weaknesses.
- iii. There were no instances of noncompliance considered material, as defined by the Government Auditing Standards, to the financial statements.

Audit of Federal Awards

- iv. There was one significant deficiency required to be disclosed by OMB Circular A-133. The significant deficiency was not considered to be a material weakness.
- v. The type of report the auditor issued on compliance of major federal awards was unqualified.
- vi. The audit disclosed one audit findings which the auditor is required to report under OMB Circular A-133, Section .510(a).
- vii. The major federal programs are:

Title I Cluster:

CFDA #84.010A Title I

CFDA #84.389A Title I – Recovery Act

Special Education Cluster:

CFDA #84.027A IDEA Part B CFDA #84.173 Preschool

CFDA #84.330C Advanced Placement CFDA #84.350 Transition to Teaching CFDA #93.600 Head Start Program

- viii. The dollar threshold used to distinguish between Type A and Type B programs as defined in OMB Circular A-133, Section .520(b) was \$1,084,439.
- ix. The auditee does qualify as a low-risk auditee under OMB Circular A-133, Section .530.

PART II – Findings related to the financial statements which are required to be reported in accordance with Government auditing Standards generally accepted in the United States of America

Reference # and title: 09-F1 Sales and Use Tax Collections

Entity-wide or program/department specific: This comment is for the Sales and Use Tax Department only.

<u>Criteria or specific requirement</u>: Sound cash management requires monies collected to be deposited timely, adequate segregation of duties in handling cash, proper follow-up of accounts in arrears, and proper authorization of waivers for penalties on unpaid taxes. There should be current written policies and procedures in place regarding the collection and posting of cash receipts.

Conditions: In a test of 79 returns, there were 3 instances of untimely deposits. One batch was open for 5 days and another one for 7 days before being closed and the funds deposited. Cash payments are accepted by the staff of the compliance area in the field, in which the same staff also has access to the accounts receivable menus. Cashiers at the front window who collect significant amounts of cash monies also have access to the accounts receivable menus. There is a policy concerning collection letters to be sent to vendors who are past due on their taxes, however, testing revealed that they are not always sent timely. One account was seven months delinquent and only one collection letter had been sent. The penalties assessed by the audit branch on sales and use tax audits of vendors are often waived by management.

<u>Proper perspective for judging the prevalence and consequences:</u> The Calcasieu Parish Sales and Use Tax Commission collects a significant portion of their revenue in cash (estimate of \$1,000,000).

Possible Asserted Effect (cause and effect):

<u>Cause</u>: There are no current policies and procedures in place regarding the operation of the Sales and Use Tax department.

Effect: There is a potential for theft and or fraud within the cash receipts area.

Recommendations to prevent future occurrences: New policies and procedures should be established by the Sales and Use Tax office for all areas of its operations. A daily deposit should be made of collections received by the Agency. Compliance staff should not be allowed to accept cash payments in the field and should establish procedures to ensure delinquent accounts are processed timely.

Reference # and title: 09-F2 Accounting for Capital Assets

Entity-wide or program/department specific: This comment is entity-wide.

<u>Criteria or specific requirement:</u> Sound business decisions require accurate and timely financial reporting. The implementation of GASB 34 has enhanced the financial reporting of capital assets by requiring capital assets to be accounted for in virtually the same manner as commercial entities. This requires capital assets with cost exceeding the capitalization threshold established by the school board be added to the capital asset listing and depreciated. The net value of capital assets is reported on the Statement of Net Assets. This new reporting heightens the need that the capital assets listing be accurate, current and comprehensive. Cost, current year depreciation and accumulated depreciation calculations must be accurate to provide a roll forward of the amounts of capital asset information from

PART II – Findings related to the financial statements which are requires to be reported in accordance with Government auditing Standards generally accepted in the United States of America

year to year.

Conditions:

Completeness and Accuracy of Listing of Capital Assets The Internal Audit Department performed an inspection of capital assets at twelve schools. Twenty five assets were selected from the capital assets listing to locate the asset at the school and fifty one assets were selected at the site and traced or attempted to be traced to the capital assets listing. The following items were noted during testing:

- Incorrect tag number on one asset,
- One asset was located at school but not on the listing,
- Seventeen schools and seven departments did not return their updated asset listing for the year ending June 30, 2009. No attempt had been made to get these schools or departments to complete the June 30, 2009 inventory listing,
- Two schools and seven departments have not returned an updated inventory listing for three years,
- Ten schools and two departments have not returned an updated inventory listing for two of the last three
 years,
- The roll forward of acquisition cost along with the roll forward of accumulation is off from the listing, however, the differences could not be explained.

<u>Proper perspective for judging the prevalence and consequences</u>: The School Board reported net capital assets of \$234,297,864 on the Statement of Net Assets of which \$16,702,731 was machinery and equipment. This represents the largest single asset on the Statement of Net Assets.

Possible Asserted Effect (cause and effect):

<u>Cause</u>: The School Board does not have any procedures in place for testing the accuracy of the capital asset listing at the site level. Capital assets reports are not reviewed on a consistent basis to ensure that reports are accurate and complete.

<u>Effect</u>: Lack of monitoring of capital assets at the site level could result in an over or under statement of capital assets. Complete and concise capital asset reports are needed for a good capital asset accounting system.

<u>Recommendations to prevent future occurrences</u>: Procedures should be established to test the accuracy of the capital assets listing at various locations as well as to ensure all locations turn in proper inventory reports. The capital asset reports should be reviewed periodically to ensure that assets are added/deleted timely and reports are complete and accurate.

PART III - Findings and questioned costs for federal awards which are required to be reported under OMB Circular No. A-133 Section .510(a):

Reference # and title:	<u>09-F3</u>	Schoolwide Programs	
Entity-wide or program/departm	<u>ient specific:</u>		
FEDERAL GRANTOR/

Preschool		84.173	2009
Title I Cluster:		•	
Title I		84.010A	2009
Title I - Recovery Act		84.389A	2009

<u>Criteria or specific requirement</u>: According to 34 CFR 200.26-200.28, schools participating in schoolwide programs should have a school wide plan which addresses the following components:

- Schoolwide reform strategies
- Instruction by highly qualified professional staff
- · Strategies to increase parental involvement
- Additional support to students experiencing difficulty
- Transition plans for assisting preschool children in the successful transition to the schoolwide program.

Additionally the school should maintain records of the comprehensive needs assessment of the entire school and an annual evaluation of results achieved. Finally, the school wide improvement plan should be complete and accurate.

<u>Conditions</u>: In testing the school wide plans of five schools, all five did not have the school wide improvement plan completely filled out nor did they reflect a final copy including all changes that needed to be made. Three of the schoolwide plans did not have the Data Triangulation section for needs assessments completed. None of the five plans addressed transition policy for assisting preschool children at the school level.

<u>Proper perspective for judging the prevalence and consequences:</u> Federal compliance requirements state that all the required elements of a school wide program be addressed.

Possible Asserted Effect (cause and effect):

Cause: The schools did not have completed plans that addressed all the required elements.

Effect: The School Board was not in compliance with federal requirements.

<u>Recommendations to prevent future occurrences</u>: The School Board should ensure that all schools have a complete schoolwide improvement plan and that it addresses all the required elements of compliance.

Calcasieu Parish School Board

OTHER INFORMATION

Calcasieu Parish School Board Summary Status of Prior Year Audit Findings June 30, 2009

Reference # and title: 08-F1 Accounting for Capital Assets

Year of Origination: This finding originated June 30, 2006.

Entity-wide or program/department specific: This comment is entity-wide.

Condition: Sound business decisions require accurate and timely financial reporting. The implementation of GASB 34 has enhanced the financial reporting of capital assets by requiring capital assets to be accounted for in virtually the same manner as commercial entities. This requires that capital assets with cost exceeding the capitalization threshold established by the school board be added to the capital asset listing and depreciated. The net value of capital assets is reported on the Statement of Net Assets. This new reporting heightens the need that the capital assets listing be accurate, current, and comprehensive. Cost, current year depreciation, and accumulated depreciation calculations must be accurate to provide a roll forward of the amounts of capital asset information from year to year.

Completeness and Accuracy of Listing of Capital Assets The Internal Audit Department performed an inspection of capital assets at six schools. Ten assets were selected from the capital asset listing to locate the asset at the school and ten assets were selected at the site and traced or attempted to trace to the capital assets listing. Numerous problems were noted in these tests at all six schools. Examples of problems noted included:

- Items which had been discarded and reported to the school office but not forwarded to the central office,
- Items which had been discarded and not reported to anyone,
- Numerous items listed in the wrong location or room or did not reflect location on the report,
- Assets located at schools but not on the listing.

Corrective action planned: See finding 09-F2.

Reference # and title: 08-F2 Schoolwide Programs

Year of Origination: This finding originated June 30, 2008.

Entity-wide or program/department specific:

FEDERAL GRANTOR/		
PASS-THROUGH GRANTOR/PROGRAM NAME	CFDA NO.	<u>AWARDYEAR</u>
United States Department of Education		
Passed through La. Department of Education		
Special Education Cluster:		
IDEA Part B	84.027	2008
Preschool	84.173	2008

<u>Conditions</u>: For schools participating in school wide programs, schools must have at least 40% of the children enrolled in the school be from low-income families. The poverty eligibility requirements are determined in the Title I Part A application under the area selection. The poverty levels should include public and nonpublic enrollment.

When testing the area selection it was noted that not all nonpublic enrollment was considered in the poverty eligibility requirement. Furthermore the nonpublic allocation of Title I Part A funds were not allocated properly.

Calcasieu Parish School Board Summary Status of Prior Year Audit Findings June 30, 2009

<u>Corrective action taken</u>: The School Board is now aware that when a non-public school chose not to use a federal allocation, that allocation was re-allocated among all other non-public schools. This finding is considered to be cleared.

Reference # and title: 08-F3 Head Start Child Count

Year of Origination: This finding originated June 30, 2008.

Entity-wide or program/department specific:

FEDERAL GRANTOR/

PASS-THROUGH GRANTOR/PROGRAM NAME CFDA NO. AWARD YEAR

United States Department of Health and Human Services Passed through La. Department of Education

Head Start 93.600 2008

<u>Conditions</u>: According to 45 CFR section 1305.4, at least 90% of the enrollees in the program must come from families whose income is below the official Federal poverty guidelines. In order to ensure the program meets the percentage of income eligible requirements the School Board's student data should be complete and accurate.

When testing twenty five students on the program, there was one exception noted, in which the student was on the final child count, however the child never started on the program for the school year.

<u>Corrective action taken</u>: Head Start administrators paid special attention to child counts through periodic testing to ensure that all counted students met eligibility and attendance guidelines. This finding is considered to be cleared.

Calcasieu Parish School Board Corrective Action Plan for Current Year Findings and Questioned Costs For the Year Ended June 30, 2009

Reference # and title: 09-F1 Sales and Use Tax Collections

Entity-wide or program/department specific: This comment is for the Sales and Use Tax Department only.

<u>Conditions</u>: Sound cash management requires monies collected to be deposited timely, adequate segregation of duties in handling cash, proper follow-up of accounts in arrears, and proper authorization of waivers for penalties on unpaid taxes. There should be current written policies and procedures in place regarding the collection and posting of cash receipts.

In a test of 79 returns, there were 3 instances of untimely deposits. One batch was open for 5 days and another one for 7 days before being closed and the funds deposited. Cash payments are accepted by the staff of the compliance area in the field, in which the same staff also has access to the accounts receivable menus. Cashiers at the front window who collect significant amounts of cash monies also have access to the accounts receivable menus. There is a policy concerning collection letters to be sent to vendors who are past due on their taxes, however, testing revealed that they are not always sent timely. One account was seven months delinquent and only one collection letter had been sent. The penalties assessed by the audit branch on sales and use tax audits of vendors are often waived by management.

Corrective action planned: Staff of the sales tax department will begin development immediately of an operations manual to address all issues and concerns listed, as well as any other prudent business practices necessary or already implemented. The CFO will monitor the process for both content and timeliness through interaction with the Tax Collector.

Management Letter

Board Members Calcasieu Parish School Board Lake Charles, Louisiana

2441 Tower Drive

Monroe, LA 71201

In planning and performing our audit of the financial statements of the governmental activities, the business type activities, the general fund, the Westlake/Maplewood construction fund, and the aggregate remaining fund information of the Calcasieu Parish School Board, as of and for the year ended June 30, 2009, which collectively comprise the School Board's basic financial statements, we considered the School Board's internal control to plan our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

However, during our audit, we noted matters involving operations that are presented for your consideration. This letter does not affect our report dated December 15, 2009 on the basic financial statements of the School Board. We will review the status of these comments during our next audit engagement. Our comments and recommendations, all of which have been discussed with appropriate members of management, are intended to result in operating efficiency. We will be pleased to discuss these comments in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendation. Our comments are summarized as follows:

09-M1 Misappropriation of School Funds

Comment: An internal audit of Sulphur 9th Grade School found a shortage of cash and checks totaling \$4,159.39.

<u>Recommendation</u>: The School Board should strengthen their policies and procedures to ensure the safeguarding of school activity funds.

<u>Management's response</u>: The School Board has reminded all administrators and employees of the stringent School Activity Funds Policies and Procedures Manual in place that specifically details school transaction management. Additional training sessions will be conducted for school-based personnel with continued follow-up from the Internal Audit Department.

09-M2 Agriculture Student Count

<u>Comment</u>: When testing the total agriculture student count submitted to the State of Louisiana it was noted that three schools reported count did not tie to the class rosters. A total of 722 students were reported to the State whereas the correct count per the class rosters was 662. However, the School Board allocated more money to the schools than what was required.

Recommendation: The School Board should ensure that the count submitted to the State ties to the class rosters/grade books of each school.

<u>Management's response</u>: The administrative staff will continue to emphasize to all teachers, but especially vocational teachers, the importance of maintaining an accurate grade book with all attendance recorded on a daily basis. Grade books will be periodically inspected by the Vocational Supervisor during the school year to promote compliance.

* * * *

Our audit procedures are designed primarily to enable us to form opinions on the financial statements of governmental activities, business type activities, the general fund, and the aggregate remaining fund information of the School Board, as of and for the year ended June 30, 2009, which collectively comprise the School Board's financial statements, and therefore, may not reveal all weaknesses in policies and procedures that may exist.

Included immediately following this letter is a Status of Prior Management Letter Item. This information has not been audited by Allen, Green & Williamson, LLP, and no opinion is expressed. However, we did follow-up on the prior management letter item and performed procedures to assess the reasonableness of the Status of Prior Management Letter Item prepared by Management, and we would report, as a current-year management letter item when Allen, Green & Williamson, LLP, concludes that the Status of Prior Management Letter Item materially misrepresents the status of any prior management letter item.

This report is intended solely for the information and use of the School Board, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

ALLEN, GREEN & WILLIAMSON, LLP

allen, Ducen & Williamson, Solf

Monroe, LA December 15, 2009

Calcasieu Parish School Board Status of Prior Year Management Letter Items June 30, 2009

08-M1 Approval of Investments

<u>Comment</u>: The School Board has a considerable number of significant investments transactions during the fiscal year. Even though these transactions are reviewed, the School Board does not require approval before the investment transaction is initiated.

<u>Management's action taken</u>: The School Board's C.F.O. has reviewed investments and authorized by signature. This item has been cleared.

08-M2 Agriculture Student Count

<u>Comment</u>: When testing the total agriculture student count submitted to the State of Louisiana it was noted that the enrollment/grade books reflected 704 students rather the 697.

Management's response: See current year management letter item 09-M1.

08-M3 Worker's Compensation Claims Report

<u>Comment</u>: When tracing total worker's compensation claims report to loss run, there were differences noted on two of the ten tested. There appears to be a timing issue within the program when agreeing the loss run and claims report.

Management's action taken: Software used to generate worker's compensation reports was changed to ensure that all information necessary to confirm loss run numbers agreed to supporting documentation. This item has been cleared.

08-M4 Test of Bids

<u>Comment</u>: When testing bids there were several items noted. One bid was noted in which the first ad did not appear at least fifteen days before opening. There were two bids noted in which the first ad was advertised on a Saturday. It was also noted that School Board has a number of purchases that were considered a sole source.

<u>Management's action taken</u>: The School Board Purchasing Department provided oversight for all purchases to help determine if items are eligible for sole source delineation. This item has been cleared.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Board Members Calcasieu Parish School Board Lake Charles, Louisiana

We have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by the management of the Calcasieu Parish School Board, and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of the School Board and to determine whether the specified schedules (prepared by management and included later in this report) are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE). This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards. The sufficiency of these procedures is solely the responsibility of the specified users of the reports. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

- We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:
- Total General Fund Instructional Expenditures,
- Total General Fund Equipment Expenditures,
- Total Local Taxation Revenue,
- Total Local Earnings on Investment in Real Property,
- Total State Revenue in Lieu of Taxes,
- · Nonpublic Textbook Revenue, and
- Nonpublic Transportation Revenue.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

Education Levels of Public School Staff (Schedule 2)

2. We reconciled the total number of full-time classroom teachers per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

3. We reconciled the combined total of principals and assistant principals per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total of principals and assistant principals per this schedule.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

4. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and as reported on the schedule. We traced a random sample of 25 teachers to the individual's personnel file and determine if the individual's education level was properly classified on the schedule.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

Number and Type of Public Schools (Schedule 3)

 We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title I Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555)

Comment: There were three exceptions noted when tracing the grade span per the National School Lunch Program application to the listing provided by the client.

Management's Response: Different reporting entities have historically dictated certain categories for reporting schools by grade configurations. Each time a configuration changes in Title I or in the School Lunch Program, the alignment of the two programs has not always occurred in a timely manner. The district will make every effort to ensure that any change made to a program for a particular period is also made to align other programs for that period.

Experience of Public Principals and Full-time Classroom Teachers (Schedule 4)

6. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and as reported on the schedule and traced the same sample used in procedure 4 to the individual's personnel file and determined if the individual's experience was properly classified on the schedule.

Comment: There was one exception noted where the experience level per the schedule could not be traced to the employee's personnel file.

Management's Response: The Calcasieu Parish School Board continues to make every attempt to assure that data on the personnel/payroll data base agrees with personnel files. The personnel department has continuously checked experience fields on the personnel data base to verified experience in personnel files and payroll records. Since the fields used to report years of experience for PEP are not directly tied to payroll, they are maintained by the personnel department strictly for State reporting. As discrepancies have been found, experience fields have been updated on the

personnel system to accurately reflect years of experience for PEP reporting purposes.

Public Staff Data (Schedule 5)

7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.

Comment: There were ten exceptions noted when tracing the amount of extra compensation that was reported to the employee's personnel file. This is due primarily to certain stipend amounts being incorrectly included in extra compensation. There was one exception noted where a rehired retiree was not classified as such on the June 2009 Profile of Educational Personnel report. Also, there were six exceptions noted when tracing the full-time equivalent reported to the employee's personnel file. This is primarily due to reporting a full-time equivalent that is greater than 1.00 for an individual.

Management's Response: The district will review P.E.P. reporting practices in an effort to ensure that extra compensation is properly recorded in recommended categories. The proper classification of extra compensation will dictate that full-time calculations for an individual employee do not exceed 1.00.

8. We recalculated the average salaries and full-time equivalents reported in the schedule.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

Class Size Characteristics (Schedule 6)

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to Schedule 3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1 roll books for those classes and determined if the class was properly classified on the schedule.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

Louisiana Educational Assessment Program (LEAP) for the 21st Century (Schedule 7)

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the School Board.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

The Graduation Exit Exam for the 21st Century (Schedule 8)

11. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the School Board.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

The IOWA and iLEAP Tests (Schedule 9)

12. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the School Board.

Comment: No exceptions were noted as a result of applying agreed upon procedures.

We were not engaged to, and did not conduct an audit, the objective of which would be the expression of an opinion on the performance and statistical data. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Calcasieu Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
