

Interest on demand deposits is recognized monthly when it has been earned and credited to the fund's account. Interest on time deposits is recognized when the time deposit has matured and the interest is available. Other revenues of the fund are generally recognized when received.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Certificates of indebtedness which are retired early are recognized as expenditures in the year they are retired.

Revenues and expenses of the enterprise fund are reported in the accompanying financial statements on the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned, and expenses are recognized as the time liabilities are incurred.

D. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost and depreciated on the straight-line basis over their estimated useful lives. Depreciation on assets acquired by grants is included in depreciation on the income statement but is retained to an equity account. The grants are amortized through depreciation of the assets acquired with the proceeds.

The estimated useful lives of assets are as follows:

Equipment	4 to 5 Years
Lines, Mains and Manholes	40 Years
Lift Station	40 Years
Treatment Plant Connection	40 Years

E. CASH AND INVESTMENTS

The District's cash and investments consist of deposits with financial institutions. The District's investment policy is governed by state statute. Collateral is required for demand deposits, certificates of deposit, savings certificates of savings and loan associations and repurchase agreements at 100% of all amounts not covered by Federal deposit insurance. At December 31, 1995, the carrying amount on the financial statements of the District's deposits is equal to \$46,363, all of which is covered by Federal deposit insurance.

1997	\$7,630
------	---------

5. BOARD OF SUPERVISORS

The Board is not active at this time. The Ouachita Parish Police Jury is overseeing the day to day operations and accounting for the district.

2. Organizations for which the primary government does not appoint a voting majority, but are fiscally dependent on the primary government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of nature or significance of the relationship.

Because the Police Jury has the following accountability for the District, it was determined to be a component unit of the Ouachita Parish Police Jury, the financial reporting entity:

1. Appointment of governing board;
2. Designation of management;
3. Ability to significantly influence operations;
4. Accountability for fiscal matters; and
5. Scope of public service.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general governmental services provided by that governmental unit, or other governmental units that comprise the financial reporting entity.

C. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for reporting the debt service governmental fund type. The District uses the following practices in recording revenues and expenditures:

Revenues

Special assessments are generally recognized in the year they are due and payable by property owners in the District. Assessments which are paid early by property owners are recognized as revenue in the year received. Special assessments which are not currently due are recognized as a non-current receivable on the balance sheet of the fund and are equally off-set by a deferred revenue liability to indicate that while they will be received in the future, they are not available to pay expenditures of the current period.

Notes to the Financial Statements
As of and For the Year Ended December 31, 1999

INTRODUCTION

Green Acres Sewerage District No. 13 was created by the Orachita Parish Police Jury (the Police Jury), as authorized by LSA-R.S. 13:3881 on January 20, 1986. The District is governed by a five member board appointed by the Police Jury. The District is responsible for maintaining and operating a sewerage collection and disposal system within the boundaries of the District.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying component unit financial statements of Green Acres Sewerage District No. 13 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Orachita Parish Police Jury is the reporting entity for Orachita Parish. The financial reporting entity consists of (a) the primary government (the Police Jury), (b) organizations for which the reporting entity is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

GASB Statement No. 14 established criteria for determining which component units should be considered part of the reporting entity for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criterion includes:

- I. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the primary government to impose its will on that organization or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.

6. CONTRIBUTED CAPITAL

On August 1, 1987, Green Acres Sewerage District No. 13 issued sewerage certificates in the amount of \$110,648 to finance a portion of the construction of a sewerage system in the District. The amount of the construction financed with proceeds from the certificates is included as contributed capital on the balance sheet of the enterprise fund. The contributed capital amount is reduced each year by the amount of depreciation expense recognized on that portion of the sewerage system which was financed with certificate proceeds. Approximately 79 percent of the total cost of the sewerage system was financed with certificate proceeds. At December 31, 1993, accumulated depreciation on that portion of the sewerage system is \$21,438.

7. LITIGATION

The District is not involved in any litigation at December 31, 1994, nor is it aware of any unasserted claims.
