INTRODUCTORY SECTION

Jefferson Parish Sheriff's Office

December 15, 2020

To the Honorable Joseph P. Lopinto, III, Jefferson Parish Sheriff and the Citizens of Jefferson Parish, Louisiana:

The Comprehensive Annual Financial Report (CAFR) of the Jefferson Parish Sheriff's Office ("JPSO") for the year ended June 30, 2020 is hereby submitted. State statute LRS 24:513 requires that JPSO publish within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This CAFR consists of management's representations concerning the finances of JPSO; therefore, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of JPSO has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the financial statements in conformity with GAAP. JPSO's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. Management assumes full responsibility for the completeness and reliability of the information contained in this report in all material respects.

JPSO's financial statements have been audited by LaPorte CPAs and Business Advisors, a firm of licensed certified public accountants. As stated above, the goal of the independent audit was to provide reasonable assurance that the financial statements of JPSO, for the fiscal year ended June 30, 2020, are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified (or clean) opinion that JPSO's financial statements, for the fiscal year ended June 30, 2020, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the Financial Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD & A). This letter of transmittal is designed to complement the MD & A and should be read in conjunction with it. JPSO's MD & A can be found immediately following the independent auditor's report in the Financial Section of this report.

The independent audit of the financial statements of JPSO was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Single Audit Section of this report.

PROFILE OF THE JEFFERSON PARISH SHERIFF'S OFFICE

The Sheriff's position is authorized under Article V, Section 27 of the Louisiana Constitution of 1974. The Sheriff is a separately elected official by the citizenry in a general, popular election. As the Chief Executive Officer of the Law Enforcement District of Jefferson Parish, the Sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The Sheriff provides protection to the residents of the parish through on-site patrols, investigations, et cetera, and serves the residents of the parish through the establishment of community policing details, neighborhood watch programs, anti-drug abuse, and other programs.

The Sheriff administers the parish jail and correctional facilities, as well as exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, serving subpoenas, and other duties. He also serves as the Ex-officio Tax Collector for Jefferson Parish. As such, the Sheriff is responsible for the collection and distribution of ad valorem (property) taxes, sales and use taxes, parish occupational licenses and permits, state revenue sharing funds, fines, costs and bond forfeitures imposed by the local district courts.

As discussed in the notes to the financial statements, as the local governing authority, the Jefferson Parish Council is considered to be the primary government of the parish. For a number of reasons, the Sheriff is not considered to be a component unit of the Parish Council and, therefore, issues a "stand-alone" report. Some of the reasons for not including the Sheriff as part of the Parish Council reporting entity include: 1) the Sheriff is a legally separate entity from the Parish Council, 2) the Sheriff is a separately elected official by the citizenry in a general, popular election, 3) the Parish Council can neither impose its will on the Sheriff nor does the Sheriff provide significant benefits or burdens to the Parish Council, and 4) the Sheriff is not fiscally dependent on the Parish Council.

The financial reporting entity of the Sheriff includes all of the funds, as well as component units, for which he is financially accountable. The operations of the Law Enforcement District (LED) of Jefferson Parish, although a legally separate entity, is, in substance, part of the Sheriff and is included (i.e., blended) within the Sheriff's financial report. Additionally, the collections and disbursements handled by the Sheriff in his capacity as the Ex-Officio Tax Collector for Jefferson Parish are reported within JPSO's financial statements as an Agency Fund. Finally, the operations of the 911 Emergency Communications District are accounted for in JPSO's financial statements as a Special Revenue Fund. Under Parish Ordinance, the Sheriff is currently the administrator of the district.

As a stand-alone entity, JPSO adopts its own budgets for the General Fund and certain Special Revenue Funds. State statutes require the adoption of a budget prior to the start of the fiscal year. The fiscal year 2020 budget was originally adopted in June 2019 and was finally amended in June 2020. The budget process also calls for public inspection of the proposed budget and a public hearing to adopt the budget.

For the General Fund, the legal budgetary level of control is at the function (i.e., bureau) level. For the Special Revenue Funds, the legal budgetary level of control is at the fund level.

INFORMATION FOR ASSESSING THE SHERIFF'S ECONOMIC CONDITION

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment and economic conditions within which JPSO operates.

Local Economic Condition and Outlook

Jefferson Parish is geographically located in the southeastern part of Louisiana and is adjacent to the City of New Orleans. As the second most populated parish in Louisiana with 432,493 residents, Jefferson Parish has historically played a major role in the New Orleans metropolitan economy. Its diverse economy is largely due to our close proximity to the City of New Orleans, the Mississippi River, the Gulf of Mexico, and interstate highway system comprised of Interstate 10, 12, and 55. Its economy is comprised of several key industries including oil and gas exploration, petrochemical, construction. Manufacturing, shipbuilding, healthcare, transportation and warehousing, recreation and tourism, and gaming. Its bountiful estuaries, waterways, Lake Ponchartrain and the Gulf of Mexico places Jefferson Parish as a leader in Louisiana's renowned seafood industry.

The parish is home to several major shopping mall developments, with three located on the east bank and one located on the west bank. Retail, wholesale, and manufacturing sales dominate the local economy on the east bank, predominantly through the major shopping malls, the Elmwood Industrial Park area, and the numerous storefronts and strip malls on Veterans Boulevard. On the west bank, Manhattan Boulevard is occupied by a multitude of retail establishments, while River Road is home to several chemical and utility companies. An area that has improved is the sales tax generated from online shopping. Online shopping has flourished in past years, sometimes to the detriment of brick and mortar stores. In the past, a primary benefit of online shopping was that out-of-state vendors were not required to charge sales taxes. However, in 2018, the Supreme Court of the United States ruled that out-of-state sellers were required to collect and remit sale tax. As a result, Jefferson Parish has seen an in increase in sales tax collection due to online sales. Jefferson Parish also houses a number of car dealerships that generate a sizeable amount of motor vehicle sales taxes each month.

The film-making initiatives are still providing benefits, as movies and television shows are being filmed in the area, despite cut-backs at the state level.

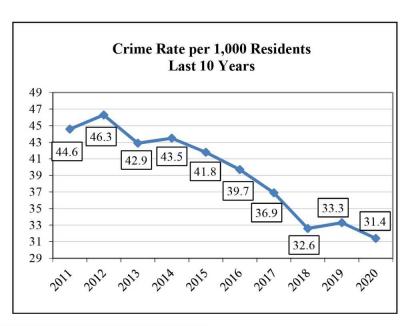

The results of this diversification can be seen in the economic statistics. Per capita (median household) income is still one of the highest in Louisiana – approximately \$54,032 as of year-end. During 2020, the unemployment rate, however, doubled from 5.3 to 10.6 percent. This enormous increase is obviously attributable to the economic shutdowns that occurred during the Corona Virus pandemic. The unemployment rate had remained at or below 6.1 percent. Assessed property values increased from the prior year (from \$4.464 billion to \$4.710 billion). This 5.5 percent increase reflects a continuing strengthening of the housing market in Jefferson Parish. In 2020, the Assessor reassessed property values to adjust for market conditions, resulting in the increased values. Reassessment years occur every four years.

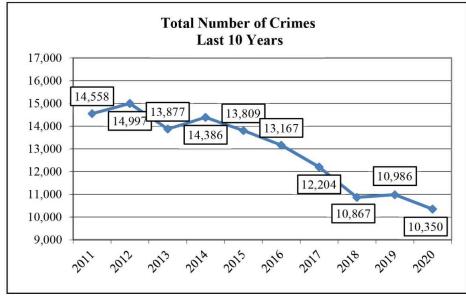

Property taxes, which are a major source of revenue to JPSO, increased from \$30,596,972 to \$31,168,714 or 1.9 percent from last year. This increase was due to the improved collections of property taxes, as well as the overall assessed values of the property. Total assessed value of property in the parish (in thousands) increased from \$4,464,281 to \$4,710,028 or 5.5 percent. In 2020, the Sheriff rolled his millage rate forward to its maximum allowed 8.28 mills which was the same as last year.

Overview of Crime Statistics

Crime obviously has a significant impact on the operations of JPSO and can be tracked in many ways. Some of the best indicators of the success of the office are the standard crime statistics published in the FBI Uniform Crime Report (UCR). Crime in Jefferson Parish has been steadily decreasing for of the past ten years. The most telling proof of this is seen in the crime rate per 1,000 residents. For 2020, the current year per-capita rate decreased to 31.4.

The total number of crimes in Jefferson Parish has also decreased over the last several years (see graph below). For 2020, the number of crimes decreased from 10,986 to 10,350 or 5.8 percent. The calls for service also continue to decrease from 263,360 last year to 245,965 in 2020 or 6.6 percent less.

A major tactic has to do with the expansion of the use of neighborhood crime cameras and automated license plate recognition (ALPR) cameras in various hot-spots throughout the Parish. These cameras have provided an invaluable resource in tracking down stolen vehicles or chasing down suspects.

Another project helping to fight crime is COP-Link. COP-Link is a computerized analytical tool that allows the entire four parish region to share and search their crime databases with much more effectiveness. Taking advantage of this software is the Criminal Intelligence Center, a cooperative endeavor between the Jefferson Parish Sheriff's Office, Orleans Parish Sheriff's Office, and various other federal, state, and local agencies. This quasi-fusion center allows the agencies to work together on certain major crimes and share intelligence.

An effective performance measurement for law enforcement agencies is response time to emergency calls. The average response time for emergency calls received by JPSO has historically been approximately 5 minutes. For 2020, the response time was 5.01 minutes, which by law enforcement standards continues to be an excellent mark. All of these variables must be taken in to account in the staffing and financial planning of JPSO.

Long-term Financial Planning

JPSO continues to look at its finances on a long-term basis, rather than annually. We typically project our operating budgets out for a period of three (3) years to give management an idea of what revenues are expected to do and how this may affect the daily operations of the office, both now and in the future.

When most revenues were stagnating in 2008, the Sheriff decided to finance a badly needed capital program with bond money (i.e., long-term debt) instead of operating or current funds. In August 2008, the Law Enforcement District of Jefferson Parish issued \$30 million in Limited Tax Revenue Bonds to help fund several projects. The bonds were secured by the ad valorem taxes collected by the Sheriff's Office. This was the first time since 1990 that the Sheriff's Office has issued long-term debt. The decision to do so was not an easy decision, however, it was ultimately decided that this would be the best way to ensure the long-term financial stability of the office.

During 2012, the Sheriff decided to lower the outstanding debt of the office by partially defeasing, or refunding, a portion of the outstanding LED Limited Revenue Tax Bonds that were issued in 2008. \$18,490,000 was placed into an irrevocable trust fund with a refunding escrow agent to pay off the maturities of principal and interest between 2020 and 2028. As such, bonded debt was reduced \$15,395,000 and, after a current year payment of \$1,480,00, only \$1,550,000 is left outstanding. See Note D.8 for further details on the bonded debt and the capital lease noted above.

Since its issuance, a number of projects have been completed by the Sheriff's Office, including a new crime lab, a 2nd District Station, a 4th District Station, the Bonnabel Boat Launch and Storage Facility, construction and relocation of the 3rd District Station, and others. JPSO internally finances other capital projects including the construction of a new First District Station in Fat City. The cost to complete the First District project was \$9,663,435, and it opened in April 2019. The Crime Lab building has been experiencing problems with its exterior panels leaking in some places. JPSO is in the planning phase of modifying/replacing the panels. This repair project should start once plans have been finalized.

Relevant Financial Policies

The Sheriff has adopted a number of financial policies and is governed by certain statutes in other financial areas. We have cash management policies and investment policies whereby we have two options concerning idle cash: 1) invest it in statutorily allowed securities or 2) allow it to stay in interest bearing accounts. As required by state statutes, JPSO utilizes a fiscal agent bank to maintain its deposits. In previous years, JPSO actually used two separate banks to accomplish this – one for the general operating funds and one for the tax collector funds. JPSO went out to bid in the spring of 2016 and awarded the contract to one bank with a fixed 1.25 percent interest rate. In order to maximize its earning potential, JPSO also

continues pooling the cash from all of its funds, except for the Tax Collector account, which maintains its own pool. Thus, JPSO earns interest on 100 percent of its daily pooled cash balances.

JPSO invests its idle funds in the Louisiana Asset Management Pool (LAMP) which is a state sponsored external investment pool, commercial paper, municipal bonds, or in U.S. Government Securities during the year. At June 30, 2020, the entire investment portfolio was \$30,151,124. These funds are broken down by \$11,437,951 in discount notes (37.9%), \$4,374,558 in municipal bonds (14.5%), \$2,403,156 (8.0%) in commercial paper and \$11,935,459 (39.6%).

The securities are held in a joint account by a third party in JPSO's name, thus they are in the lowest risk category as defined by government accounting standards. Interest income earned by the Governmental Funds totaled \$976,119, which is an increase of \$93,406 or 10.6 percent from last year due to slightly increasing cash balances and interest rates.

State statutes require JPSO to have his deposits insured or collateralized at a rate of 100 percent at all times. During 2020, this requirement was complied with throughout the year. At June 30, 2020, JPSO had deposit balances in banks of \$91,397,629, all of which are in the lowest credit risk category defined by the Governmental Accounting Standards Board (GASB).

JPSO also has a fund balance policy in place whereby a targeted fund balance level has been established for the General Fund. The policy calls for the maintenance of an unassigned fund balance level of at least 20 percent of expected General Fund expenditures. At June 30, 2020, the unassigned fund balance of the General Fund totaled \$57,709,424 which was 45.6 percent of the current year expenditures, well above the target.

Another critical financial policy area is how JPSO accounts for and funds its risk management activities. JPSO is primarily self-insured for most of its risks of loss because of the nature of the activities the Sheriff's Office is involved in. JPSO maintains two Internal Service Funds, to account for and fund these activities.

The first fund is the Auto Loss and General Liability Fund. To protect against these types of risks, JPSO participates in the Louisiana Sheriff's Risk Management Program which is a public entity risk pool. Under this program, general/professional liability claims are covered by insurance at the rate of \$100,000 per claim, with an aggregate stoploss of \$750,000 for each loss year, depending on the year. For claims exceeding \$750,000, coverage is provided through a third party stop loss provider.

For auto loss claims, JPSO is self-insured on the first \$1,750,000 per accident. Excess liability coverage is provided for claims between \$1,750,000 and \$4,000,000. At June 30, 2020, claims and judgments payable totaled \$5,955,322, which was a decrease of \$1,151,852 or 16.2 percent from the prior year. The fund had assets of \$7,800,496 available to pay these claims. During 2020, this fund had a positive change in net position of \$964,778, as revenues exceeded cost, and ended the year with a net position of \$1,738,914.

The second fund is the Group Health and Life Insurance Fund. Under this program, which is administered by a third-party service agent, JPSO is self-insured for its claims reported during the year up to the "stop-loss" amount of \$250,000 per person per loss year. Excess liability for claims over the stop-loss amount is provided for through a commercial insurance carrier. Contributions into this fund are made by participating employees and are matched by JPSO based on the employee's classification.

At June 30, 2020, a liability of \$3,146,704 has been accrued, which represents the amount of claims reported to the service agent but not yet paid, along with a liability (i.e., "due to") to the General Fund. The fund had assets of \$2,927,127 at June 30, 2020 available to pay these claims and liabilities. During 2020, this fund's net position decreased \$132,077, as costs exceeded revenues, and ended the year with a negative net position of \$1,392,563. Costs continued to increase mainly because of the increase in health and pharmacy claims which were offset by transfers totaling \$3,900,000 from the General Fund to help cover cost overruns. Additional information on JPSO's risk management activity can be found in the notes to the financial statements section of this report in Note E.1.

As required by state law, JPSO provides pension benefits for all of its full-time employees through the Louisiana Sheriff's Pension & Relief Fund which is a statewide plan managed by a board of trustees. JPSO has no immediate obligation in connection with the employee benefits offered through the plan beyond its employer contribution rate that is set by the board; however, under the accounting and reporting rules for pensions, JPSO reports its proportionate share of any unfunded pension liabilities that the plan may have.

In 2020 the net pension liability reported by JPSO totaled \$48,484,630, an increase of \$8,584,875 from last year. There are a number of deferred outflows and inflows associated with this reporting standard. At year end, JPSO reported \$27,184,374 of deferred outflows, made up mostly of the 2020 employer contributions which are being deferred until next year and \$10,030,105 of deferred inflows, made up of a variety of different items related to changes in assumptions and earnings of the plan. During 2020, the employee's contribution rate was 10.25 percent and the employer's rate was 12.25 percent. Contributions during the year totaled \$9,350,274, which included \$939,083 of employee contributions paid for by JPSO and \$8,411,191 of required employer contributions. Contributions were down \$364,579 or 4.2 percent from last year. JPSO also provides other post-employment health and life benefits for certain retirees and their dependents. As of

June 30, 2020, the Sheriff's total OPEB liability was \$33,384,104 for medical and life insurance benefits. This is a decrease related to the 2020 change in liability of \$4,935,042. To date, JPSO has chosen not to fund these liabilities at this time, thus the entire liability is carried on the books at year end as a noncurrent liability. Additional information on the Sheriff's pension arrangements and postemployment benefits can be found in the notes to the financial statements section of this report in Notes F.1 and F.2.

MAJOR INITIATIVES

JPSO continues to look for ways to become more efficient with the resources available to it. For 2020, one initiative has to do with monitoring and containing costs, especially when it comes to overtime. Certain other costs are beyond our control, such as pension, health costs, and the price of gasoline; however, all of the Bureau Commanders continue to monitor their costs during 2021.

JPSO also continues to revise and improve the operations of the 911 Emergency Communications District. We have already reviewed and revised several operating contracts, which will result in savings to the district. We are also looking forward to implementing new technologies in this area and pursuing additional revenues from the existing service provider base by performing revenue audits. We continue to work closely with the 911 Communications Advisory Board and the Parish Council. One major initiative implemented was a digital solution to the backup PSAP sites and implemented a subscription service rather than having to purchase a host of new equipment.

In the effort to address some gaps in the communications network in the southern part of the parish, particularly in the south Marrero, Lafitte, Barataria, and Crown Point area, JPSO financed the construction of a new communications tower in Lafitte which was completed during 2018. JPSO also entered into a capital lease to finance the purchase of new APEX 6000 portable radios from Motorola Solutions, which were deployed at the end of December 2017.

AWARDS AND ACKNOWLEDGMENTS

Awards

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Jefferson Parish Sheriff for its June 30, 2019 Comprehensive Annual Financial Report. This was the twenty-sixth consecutive year that the Jefferson Parish Sheriff's Office has received this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of only one year. We believe our current report continues to conform to the program requirements and we are submitting it to the GFOA.

Acknowledgments

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Bureau. We would like to express our appreciation to all members of the departments who contributed to this year's audit. Finally, credit should be given to our Sheriff Joseph P. Lopinto, III, for the support in planning and conducting the financial operations of the Sheriff's Office in a dedicated and responsible manner.

Respectfully submitted,

FINANCIAL SECTION

Independent Auditor's Report

Sheriff Joseph P. Lopinto, III Jefferson Parish Sheriff's Office Harvey, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Jefferson Parish Sheriff's Office (the Sheriff), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements as listed in the table on contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sheriff, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the Major Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the schedule of changes in the Sheriff's net OPEB liability and related ratios, and the schedule of the Sheriff's proportionate share of net pension liability, and the schedule of the Sheriff's contributions on pages 15 through 28 and pages 101 through 104, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sheriff's basic financial statements as a whole. The introductory section, the combining and individual non-major fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements of the Sheriff. The accompanying Affidavit and Taxroll Status Report, and Schedule of Compensation, Benefits, and Other Payments to Agency Head or Chief Executive Officer are not a required part of the basic financial statements of the Sheriff but are additional information required by the Louisiana Legislative Auditor.

The combining and individual non-major fund financial statements and schedules, schedule of expenditures of federal awards, the Affidavit and Taxroll Status Report, and the Schedule of Compensation, Benefits, and Other Payments to Agency Head or Chief Executive Officer are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2020, on our consideration of the Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sheriff's internal control over financial reporting and compliance.

A Professional Accounting Corporation

Covington, LA December 28, 2020

JEFFERSON PARISH SHERIFF'S OFFICE HARVEY, LOUISIANA

Management's Discussion and Analysis June 30, 2020

As management of the Jefferson Parish Sheriff's Office (the "Sheriff's Office"), we offer readers of the Sheriff's Office's financial statements this narrative overview and analysis of the financial activities of the Sheriff's Office for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 through 6 of this report, as well as the financial statements, which begin on page 30. All amounts, unless otherwise noted, are expressed in thousands (\$1,000's) of dollars.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the Sheriff's Office exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$78,977 (Net Position). Of this amount, \$62,594 or 79.3 percent is invested in capital assets, such as building, vehicles and equipment, net of accumulated depreciation and related debt. An additional \$7,945 or 10.1 percent is restricted for 911 operations, debt service payments, and claims and judgments relating to the Sheriff's self-insurance programs. The net remaining balance of \$8,438 is the unrestricted net position.
- The Sheriff's Office's total Net Position increased by \$13,570 or 20.7 percent. The increase during the current year is due to total revenues of \$171,786 exceeding expenses of \$158,216. During 2020, charges for services totaled \$22,099, operating grants totaled \$42,346, property taxes totaled \$31,169, payments in lieu of taxes were \$89, sales taxes totaled \$23,727, intergovernmental totaled \$2,661, commissions totaled \$47,093, charges for services totaled \$297, interest totaled \$1,164, and miscellaneous revenues were \$1,041. In total, revenues increased \$18,436 or 12.0 percent. There were various changes within the revenue categories this year. The most significant changes were: 1) charges for services decreased \$23 or 7.2 percent, 2) operating grants increased \$17,249 or 68.7 percent, 3) property taxes increased \$572 or 1.9 percent, 4) sales taxes increased \$523 or 2.3 percent, 5) commissions decreased 1,345 or 2.8 percent, 6) interest increased \$78 or 7.2 percent, and 7) miscellaneous revenues decreased \$142 or 12.0 percent. In total, expenses increased \$5,853 or 3.8 percent. Explanations of these changes are included in the narrative of this analysis.
- At the end of the current fiscal year, the Sheriff's governmental funds reported a combined fund balance of \$84,887. Of this amount, \$57,709 is unassigned, which is available for spending at the Sheriff's discretion. Of the remaining balance, \$6,206 is restricted, and \$20,972 is assigned.
- ➤ Unassigned fund balance for the General Fund was \$57,709 or 45.6 percent of total general fund expenditures (above our internal target of 20 percent). Total fund balance of the General Fund also represents 82.6 percent of total Governmental Fund Balances. These percentages remain stable when compared to last year's percentages (78.5 percent and 75.2 percent, respectively).
- > The Sheriff's Office administers the operations of the 911 Emergency Communications District. This district provides emergency communications to the citizens of the Parish and is funded with service fees paid by the citizens on their monthly phone bills. These service fees are collected by the Parish and remitted to the Sheriff in the month after collection. For 2020, the 911 Emergency Communications Special Revenue Fund recognized revenues of \$7,575, expenditures of \$5,046, and other financing uses of \$3,449, creating a current year deficit of \$920 and leaving a fund balance of \$6,206 at year end.
- In August 2008, the Law Enforcement District of Jefferson Parish (the Sheriff) issued Limited Tax Revenue Bonds totaling \$30,000 to finance the construction of various facilities. The bonds bore a rating of "AAA" from Standard and Poor's when issued. During 2012, the Sheriff used available funds to defease \$15,395 of the outstanding bonds. During 2020, a debt service payment on the remaining bonds consisting of \$1,480 in principal and \$92 in interest and fiscal charges was made, leaving a balance at year-end of \$1,550. In 2017, a capital lease was entered into for new Motorola radios. Capital leases payable at year-end total \$2,611. See Note D.8 for further discussion.
- Hurricanes Katrina and Rita hit the New Orleans Metropolitan area, including the area serviced by the Sheriff in August and September 2005. In August and September 2008, Hurricanes Gustav and Ike also caused damages in the area. Hurricane Isaac also affected the area in September 2012. During 2017, the Sheriff incurred costs totaling \$241 providing aid to the

Livingston Parish area and FEMA reimbursed the full amount of the cost. See Note E.3 for a discussion of the continuing effects from the storms and the balances still owed to the Sheriff.

- ➤ Under the pension accounting and financial reporting standards, the Sheriff records its proportionate share of the net unfunded pension liability of the Louisiana Sheriff's Pension & Relief Fund (the state-wide defined benefit, cost-sharing, multiple employer plan that the Sheriff's employees participate in). The Sheriff's proportionate share for 2019 was calculated to be 10.249954% of the plan. For reporting purposes, the net pension liability at June 30, 2019 (the beginning of the year) is recorded at June 30, 2020. This liability totaled \$48,485. There are a number of deferred outflows and inflows of resources that are also recorded under these new standards. At year end, deferred outflows of \$27,216 were recorded along with deferred inflows of \$10,030. These items are being deferred and amortized over the next 4 to 5 years.
- > On August 31, 2017, Sheriff Newell Normand retired from office after serving as Sheriff since November 2007. As a rule of law, the Chief Deputy of the office is then named the interim Sheriff. Therefore, on September 1, 2017, Joseph P. Lopinto III became the interim Sheriff of Jefferson Parish. A special election was held on March 24, 2018 to complete the remainder of Sheriff Normand's original term of office, and Joseph P. Lopinto III was elected. Sheriff Joseph P. Lopinto III was subsequently re-elected on October 12, 2019 to the four-year term beginning on July 1, 2020 and ending on June 30, 2024.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to Sheriff's Office's basic financial statements. The Sheriff's Office's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The "government-wide financial statements" are designed to provide readers with a broad overview of the Sheriff's Office's finances, in a manner similar to a private-sector business.

The "Statement of Net Position" presents information on all of the Sheriff's Office's assets, liabilities, and deferred inflows and outflows, with the difference between them being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Sheriff's Office is improving or deteriorating.

The "Statement of Activities" presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements are designed to distinguish functions of the Sheriff's Office that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Sheriff's Office only has governmental activities in the public safety function. This function includes all of the operating bureaus of the Sheriff's Office: executive, finance and administrative, fleet, revenue and taxation, operations, technical services, internal management, criminal investigations, special investigations, narcotics and corrections. The government-wide financial statements include only the financial activities of the Jefferson Parish Sheriff's Office, which is a "stand-alone" governmental unit. The government-wide financial statements can be found on pages 30 and 31 of this report.

Fund financial statements. A "fund" is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Sheriff's Office, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Sheriff's Office's funds are classified into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. "Governmental funds" are used to account for essentially the same functions reported as "governmental activities" in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for "governmental funds" with similar information presented for "governmental activities" in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's

near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between "governmental fund" and "governmental activities."

The Sheriff's Office maintains various funds that are grouped for management purposes into various fund types. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the General Fund, the 911 Emergency Communications Special Revenue Fund, the Federal Grants Special Revenue Fund, the Communications Reserve Capital Project Fund, and the Buildings and Improvements Capital Project Fund, all of which are considered to be **major funds**. Data from the other governmental funds (i.e., non-major funds) are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Sheriff's Office adopts an annual appropriated budget for its General Fund and certain Special Revenue Funds. A budgetary comparison statement has been provided for the General Fund and each applicable Special Revenue Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 32 through 37 of this report.

Proprietary funds. The Sheriff maintains one type of proprietary fund – Internal Service. Internal Service funds are an accounting device used to accumulate and allocate costs internally among the Sheriff's various functions. The Sheriff uses internal service funds primarily to capture and allocate costs of providing insurance coverage, including health and life, and auto and professional liability. Because the services provided by these funds benefit the governmental—type functions of the Sheriff's Office, they are included within governmental activities in the government-wide statements.

The two internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in the report. The basic proprietary fund financial statements can be found on pages 38 through 40 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government entity. The Sheriff maintains several agency funds in his capacity as the ex-officio tax collector of the Parish of Jefferson. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Sheriff's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Individual fund data for each of the fiduciary funds is provided in the form of combining statements elsewhere in the report. The basic fiduciary fund financial statements can be found on page 41 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 44 through 99 of this report.

Required Supplementary Information. This section contains the 10-year pension and OPEB-related schedules that are mandated under the implementation of the new pension and OPEB accounting and reporting standards. The schedules can be found on pages 101 through 104.

Other information. The combining statements referred to earlier in connection with non-major governmental funds, the internal service funds, and the agency funds are presented immediately following the notes to the financial statements.

Combining statements for non-major governmental funds, internal service funds, and agency funds can be found on pages 108 through 139 of this report. Individual fund statements and schedules, which show additional detailed financial information of some of the Sheriff's Major Funds, are found on pages 142 through 148.

Other information, which includes a Schedule of Expenditures of Federal Award, a state-required Tax Roll Status Report, and a state-required Schedule of Compensation, Benefits, and Other Payments Made to the Agency Head or Chief Executive Officer, are included on pages 150 through 156.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Sheriff's Office, assets and deferred outflows exceeded liabilities and deferred inflows (i.e., net position) by \$78,977 at June 30, 2020.

JEFFERSON PARISH SHERIFF'S OFFICE NET POSITION

		vernmental activities 2020	_		
Current and other assets	-\$	101,958		2019	
Capital assets	Ψ	66,648	Ψ	70,948	
Total assets		168,606	_	154,167	
Deferred outflows - refunding escrow		107		304	
Deferred outflows - pension and OPEB related		31,475		25,893	
Total deferred outflows		31,582	_	26,197	
Long-term liabilities outstanding		39,431		46,558	
Net pension liability		48,485		39,900	
Other liabilities		16,723		14,343	
Total liabilities		104,639		100,801	
Deferred inflows - OPEB related		6,542		277	
Deferred inflows - pension related		10,030		13,879	
Total Deferred inflows Net Position:		16,572		14,156	
Net investment in capital assets		62,594	79.3%	64,740	99.0%
Restricted		7,945	10.1%	7,900	12.1%
Unrestricted		8,438	10.7%	(7,233)	-11.1%
Total Net Position	\$	78,977	\$	65,407	-11.170

A large portion of the Sheriff's Office's net position (\$62,594 or 79.3 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and fixtures, machinery, vehicles and equipment, and infrastructure) net of any related debt used to acquire those assets that is still outstanding. The Sheriff's Office uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Sheriff's Office's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

Current and other assets are made up of cash, cash equivalents, investments, receivables and other short-term assets. The balance at year end was \$101,958, which is \$18,739 more than last year. This increase is mostly due to an increase in cash and investments.

Deferred outflows of resources totaled \$31,582 and are made up of deferred charges of \$107 related to the partial defeasance of debt in 2012 and \$31,475 related to the pension and OPEB plan. The Sheriff placed funds into an escrow account to pay off future interest and it is being amortized over the next eight years (which is when the defeased debt is paid off by the escrow agent). The pension related deferred outflows consist primarily of the current year pension contributions that are deferred until next year.

The liabilities of \$104,639 include \$39,431 related to normal long-term debt and \$48,485 of net pension liability. The long-term debt is primarily related to outstanding revenue bonds, compensated absences, leases and the net liability for other post-employment benefits. The net pension liability is the Sheriff's proportionate share of the estimated unfunded liability of the Louisiana Sheriff's Pension and Relief Fund, a defined benefit cost-sharing multi-employer pension plan that the Sheriff's employees participate in. Deferred inflows of resources totaled \$16,572 and relate to pension and OPEB activities that are being deferred and amortized over the next few years.

Restricted Net Position totaled \$7,945 or 10.1 percent of total net position. This amount primarily represents monies held by the 911 Emergency Communications Special Revenue Fund that are restricted to the operations of the district of \$6,206 and monies held aside to pay outstanding claims and judgments of the Sheriff's self-insurance programs of \$1,739.

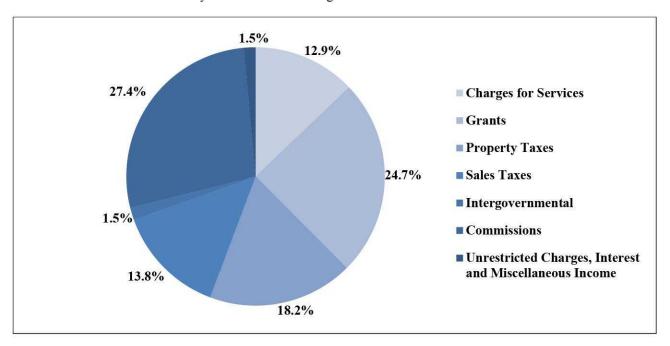

The balance of Unrestricted Net Position was \$8,438 or 10.7 percent of total Net Position. At June 30, 2020, the Sheriff's Office is able to report positive fund balances in three categories of Net Position.

Governmental Activities. Governmental activities increased the Sheriff's Office's Net Position by \$13,570 or 20.7 percent. Key elements of this increase are as follows:

JEFFERSON PARISH SHERIFF'S OFFICE CHANGES IN NET POSITION

		ernmental ctivities 2020			vernmental activities 2019		\$ Change	% Change

Net Position - Beginning of year		65,407			64,420			
Net Position - End of year	\$	78,977		\$	65,407		13,570	20 7%

A breakdown of the revenues received by the Sheriff's Office's governmental activities is as follows:

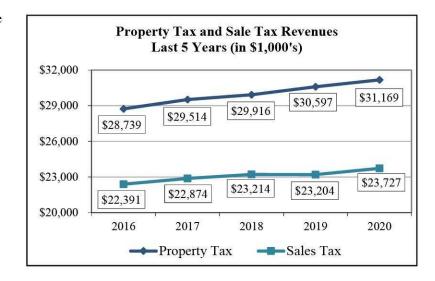

A discussion of the changes in revenue items follows:

- The program revenue **Charges for Services** represents money received from the public, JPSO employees and other agencies for detail fees, civil and criminal fees, usage fees for equipment, feeding and keeping of prisoners, and reimbursed salaries. The total amount received during 2020 was \$22,099, which is \$1,602 more than the prior year.
- > Operating grants for governmental activities totaled \$42,346 for 2020, an increase of \$17,249. Capital grants were up \$55 from amounts received last year. The operating grants are made up of federal, state and local/parish grants received for various positions and projects, state-mandated reimbursements from the Parish for operating expenses, federal asset forfeitures, state supplemental pay, and on-behalf payments made to the pension plan by non-employer entities. Federal and state grants totaled \$24,721, which is \$16,709 more than last year. This net change is primarily due to the receipt of \$16,605 Cares Act funds.

In addition, the operating grants include the cooperative endeavor agreement between the Sheriff's Office and the Parish to administer the 911 Emergency Communications District. For 2020, the Sheriff's Office recognized \$7,489 in revenues under this CEA, which is \$132 less than last year. Finally, the new pension accounting standards require the Sheriff to recognize any contributions to the pension plan by non-employer entities. These "on-behalf" payments totaled \$4,342 for 2019, an increase of \$94.

- ➤ Property taxes totaled \$31,169 an increase of \$572 or 1.9 percent. This increase is due to a slight rise in property values throughout the Parish. The Sheriff's millage rate has remained at 8.28 mills on the tax roll.
- Property taxes payments in lieu of totaled \$89 for 2020. This revenue relates to "payment in lieu of tax" agreements entered into by JEDCO (the Parish's economic development arm). Under these agreements, these companies are exempt from the normal tax rolls for a period of time in exchange for certain investments and job creations thresholds. In exchange, the companies make payments in lieu of taxes during the exempt period.

- > Sales taxes, including motor vehicle taxes, totaled \$23,727, an increase of \$523 or 2.3 percent. This small change is the result of a slowing local economy.
- ➤ Intergovernmental revenues totaled \$2,661, a decrease of \$171 or 6.0 percent from last year.
- ➤ Commissions collected by the Sheriff on collections of sales taxes, occupational licenses, fines and forfeitures, and garnishments and seizures totaled \$47,093, a decrease of \$1,345 or 2.8 percent from last year.
- Unrestricted charges for services totaled \$297, a decrease of \$23 or 7.2 percent. This increase is due to lower collections of court attendance fees.
- ➤ Unrestricted interest totaled \$1,164, an increase of \$78 or 7.2 percent. This was caused by a continuing improvement in the interest rates paid on our collected balances under our new fiscal agent contract.
- ➤ Miscellaneous income totaled \$1,042 for the year, a decrease of \$142 or 12.0 percent.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. Expenses totaled \$158,216 including current year depreciation of \$7,798 and interest on long-term debt of \$289. The 2020 figures also include various adjustments related to the changes in the net pension liability and the OPEB liability and its related deferred inflows and outflows.

The Sheriff's operations are broken down in 12 different bureaus, or functions. Of these, the Management Services Bureau totaled \$33,586 (21.2 percent), the Finance Bureau totaled \$5,632 (3.6 percent), the Operations Bureau totaled \$26,547 (16.8 percent), the Special Operations Bureau totaled \$5,991 (3.8 percent), the Technical Services Bureau totaled \$19,759 (12.5 percent), the Criminal Investigations Bureau totaled \$14,866 (9.4 percent), the Special Investigations Bureau totaled \$10,552 (6.7 percent), the Narcotics Bureau totaled \$6,632 (4.2 percent), and Corrections totaled \$27,975 (17.7 percent). The expenses of the Sheriff's Office were offset by program revenues (service charges and grants) totaling \$64,544 (see above).

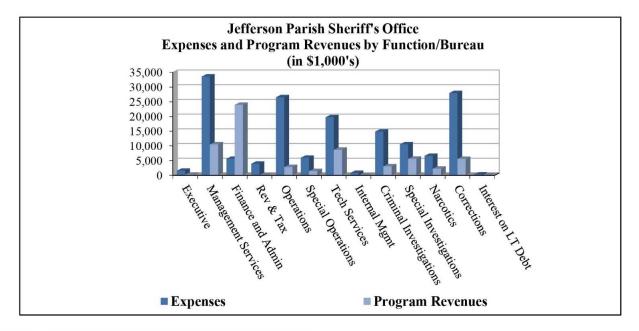

Overall, the Sheriff saw a net increase in costs of \$5,853 or 3.8 percent. A current to prior year comparison highlighting the major changes is as follows:

- Expenses related to general governmental activities totaled \$143,877, a net decrease of \$1,487 from last year. Of this amount, the General Fund activities generated a decrease in costs of \$808, the 911 Emergency Communications Fund saw an increase of \$1,421, Federal Grants saw a decrease of \$111, the Communications Reserve Capital Fund saw a decrease of \$44, Buildings and Improvements Capital Fund saw a decrease of \$3,176, and the Other Governmental Funds generated an increase of \$1,231 in costs. See the discussion on the governmental funds below.
- Costs associated with the internal services funds drove current year expenses up \$4,655, as the Group Health and Life Internal Service Fund suffered an operating loss this year. This loss is absorbed by the Sheriff's Bureaus in its government-wide

financials. Costs were up in these funds due to higher claim premium charges this past year as well as interfund transfers covering losses.

- > The current year net cost of compensated absences was \$158, an increase of \$152 compared to last year.
- The current year expense adjustment related to the OPEB liability was a credit of \$383, an increase of \$1,197. GASB 75 was implemented in 2018. The actuarially accrued liability ending balance was \$33,384.
- The net change in how capital outlay is expensed decreased the bureau expenses by \$3,580, a lower deduction of \$5,128. This decrease was the result of fewer purchases of vehicles and equipment. These adjustments affect the current year expenses because the capital outlay expenditures are reclassified to additions to capital assets for government-wide purposes.
- ➤ Depreciation expense totaled \$7,798, a decrease of \$1,009 from the prior year.
- The net effect on current year expenses related to the adjustment of the pension related liabilities and deferred inflows and outflows under the pension accounting standards was a net increase in current year bureau expenses of \$5,209 or \$4,153 more than last year's net reduction. This increase had mostly to do with the changes in expected earnings and changes in the assumptions which the pension plan experienced in 2019 (which is recorded in the current year), offset by the recognition of on-behalf payments made to the pension plan by non-employer contributing entities. The deferral of several pension-related inflows and outflows also affected the current expenses, as some of these deferred resources are capitalized and then amortized over the next few years.
- The net change from long-term debt adjustments reduced bureau costs by \$1,2,82. This is \$129 more of a reduction than last year. The principal payment on the bonds was \$65 higher than last year and the amortization of the deferred charge paid to the refunding escrow agent went down \$64.

A graph comparing the expense of each Bureau with the program revenue generated is presented below.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Sheriff's Office uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Sheriff's Office's "governmental funds" is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Sheriff's Office's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2020, the Sheriff's Office's governmental funds reported combined ending fund balances of \$84,887, an increase of \$15,524 or 22.4 percent in comparison with the prior year. Approximately \$57,709 or 68.0 percent of this total constitutes unassigned fund balance, which is available for spending at the government's discretion. Of the remaining fund balance, \$6,206 is restricted, and \$20,971 is reported as assigned. These categories indicate that there is some form of restriction (formal or informal) placed on these funds and that they are not necessarily available for new spending because they have already been restricted,

\$165,000

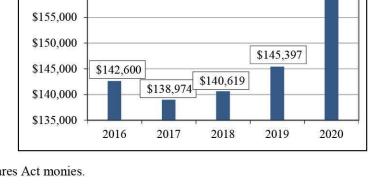

\$160,000

committed or assigned to a particular purpose.

As noted above, the governmental funds include the general operating funds of the Sheriff (i.e., the General Fund, the Special Revenue Funds, Debt Service Funds, and Capital Project Funds). Overall, as the graph shows, revenues of the Governmental Funds totaled \$162,566 for 2020, an increase of \$17,169 or 11.8 percent.

- 1) An increase in property taxes of \$572 or 1.9 percent due to improved assessed property values;
- 2) An increase in sales taxes of \$522 or 2.2 percent, due to a general improving of the local economy.
- 3) An increase in Intergovernmental of \$16,736 This increase is primarily due to an increase of \$16,605 in federal grants in the General Fund due to the receipt of Cares Act monies.
- 4) Interest income increased \$78 or 7.2%.
- 5) A decrease of \$143 or 12.1 percent in Miscellaneous Revenues.

Governmental Fund Revenues Last 5 Years (in \$1,000's)

\$162,566

The **General Fund** is the chief operating fund of the Sheriff's Office. At June 30, 2020, unassigned fund balance of the General Fund was \$57,709 and total fund balance was \$70,115. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures (which totaled \$126,493 for 2020).

	2020	2019
% of Unassigned General Fund Fund Balance to Total Governmental Fund Balance	68.0%	61.3%
% of Total General Fund Fund Balance to Total Governmental Fund Balance	82.6%	78.4%
% of Unassigned General Fund Fund Balance to Total General Fund Expenditures	45.6%	34.1%
% of Total General Fund Fund Balance to Total General Fund Expenditures	55.4%	42.8%

As noted in the table, the total unassigned fund balance of the General Fund compared to General Fund expenditures is 45.6 percent (above our internal target of 20.0 percent).

During the current fiscal year, the fund balance of the Sheriff's Office's General fund increased by \$15,666. Key factors in this change are as follows:

- > The General Fund's revenues totaled \$145,116, while expenditures totaled \$126,493. The General Fund's transfers in and out netted to a \$2,957 transfer out.
- Revenues increased by \$16,074 or 12.5 percent from the prior year, mainly because of:
 - Taxes increasing \$1,132 or 2.1 percent, the result of:
 - Property taxes increasing \$572 or 1.9% due to a slight increase in the assessed taxable values,
 - Property taxes payment in lieu of taxes increasing \$38,
 - Sales taxes going up \$522 or 2.2 percent due to a steady local economy.
 - Intergovernmental revenues were up \$16,393 or 103.6%. This increase was caused by:
 - o A decrease of \$23 in state supplemental pay (as more officers met the eligibility requirements),
 - o An increase of \$30 in salary reimbursements, (airport details),
 - o A decrease of \$6 in other reimbursed salaries (Parish President's security team),
 - An increase of \$16,568 in federal grants (due to a decrease in funding primarily FEMA).
 - Service charges, fees and commissions were down \$1,361 or 2.5% due to:
 - A decrease of \$69 in sales tax commissions (increased commissions on sales tax),
 - A decrease of \$1,075 in other commissions (primarily judicial sales),

- A decrease of \$195 in civil and criminal fees.
- A decrease of \$188 in fines and forfeitures.
- An increase of \$248 in housing state inmates.
- Interest income was up \$82 or 12.1% due to higher interest rates.
- Miscellaneous income was down \$155 or 4.4%, due primarily to:
 - A decrease of \$153 in subrogation and claims,
 - A decrease of \$2 in vehicle usage fees,
 - o A decrease in \$37 in public assignment fees (due to more details),
 - An increase of \$37 in Other Revenues.
- Expenditures decreased \$808 or 0.6%. The major changes were due to the following:
 - Salaries and benefits increased \$2,382 or 2.3%. The increase is primarily the result of 1) an increase of \$2,338 in overtime and 2) an increase of \$362 in insurance. The overtime increased in most bureaus, most notably in Special Operations up \$342, Technical Services down \$72 and Corrections up \$2,133.
 - General Operating Expenditures decreased \$491 or 3.3%, primarily due to 1) a decrease of \$120 in telephone services, 2) a decrease of \$154 in repairs and maintenance, and 3) a decrease of \$200 in insurance auto.
 - Materials and supplies decreased \$138 or 2.5%. This decrease is the net change of: 1) an increase of \$226 in training and emergency supplies and 2) a decrease of \$373 in auto and marine.
 - Capital Outlays decreased by \$2,505 or 60.2% due primarily to a decrease of \$1,222 in equipment and a decrease of \$1,283 in vehicle purchases. The vehicle line-item was up due to an increase as some of the delayed purchases of vehicles were made this year.
- > Transfers in totaled \$4,185, an increase of \$680. Current year transfers of \$3,449 came from the 911 Emergency Communications Special Revenue Fund to reimburse the General Fund for salaries and benefits of call-takers, police and EMS dispatchers, and IT staff dedicated to the 911 center and \$736 from the Auto Loss and General Liability Fund, due to matured investments.
- > Transfers out totaled \$7,142, an increase of \$2,297 from last year. This year's transfers were for: 1) \$870 was transferred to the Communication Reserve Fund for Motorola Radios, 2) \$700 was transferred to the Building and Improvements Capital Project Fund, 3) \$1,572 was transferred to the LED Sinking Fund in order to pay the current year debt service on the LED Limited Revenue Tax bonds, 4) a transfer of \$3,900 was made to the Group Health and Life Internal Service Fund as a one-time cash infusion to help pay for increased claim costs.

The Sheriff reported four "major" funds other than the General Fund for the year ended June 30, 2020.

The **911 Emergency Communications Special Revenue Fund** provides emergency communications to the citizens of the Parish and is funded with service fees paid by the citizens on their monthly phone bills. These service fees are collected by the Parish and remitted to the Sheriff in the month or quarter after collection. For 2020, this fund recognized revenues of \$7,575, expenditures of \$5,046, and other financing uses of \$3,449, creating a current year deficit of \$920 and leaving a fund balance of \$6,206 at year end. These revenues include \$7,489 of service fees collected from the citizens by the telephone service providers and remitted to the Parish (and ultimately to the Sheriff). The fund balance at year end is restricted for use on the operations and maintenance of the 911 Emergency Communications under the terms of our agreement with the Parish and Parish ordinance.

The **Federal Grants Special Revenue Fund** had revenues and transfers in of \$5,519, and expenditures of \$5,613. This fund tracks the revenues and costs associated with the Sheriff's major federal grants, such as the High Intensity Drug Trafficking Area (HIDTA) grant, Homeland Security Grants, TSA K-9 Grants, and others received directly from the federal government.

The **Communications Reserve Capital Project Fund** accounts for the expenditures and revenues relating to the upgrade of our radio system into an interoperable multi-parish network. The project was being funded with various Homeland Security Grants passed-through the surrounding Parishes. Now, it is using locally generated funds to construct a new tower in the Lafitte area (using local funds previously set aside). During 2020, this fund had interest of \$18, expenditures of \$869, which resulted in a current year deficit of \$851. The fund spent \$869 on the first year's lease payment for new Motorola radios. The fund balance of \$1,677 is assigned for use on future communication projects.

The **Buildings and Improvements Capital Project Fund** accounts for monies being set aside to address various capital needs. During 2020, this fund earned interest of \$1, recognized expenditures of \$669. The fund balance of \$78 is shown as assigned for future projects.

The Sheriff's **Other Governmental Funds (i.e., "non-major" funds)** recorded revenue of \$4,337, expenditures of \$5,187, and other financing sources (uses) of \$1,577. The result was a current year surplus of \$727 and ending fund balances totaling \$6,810. One of the largest revenue streams in these non-major funds was recognized by the Commissary Sales Fund, which recognized revenues of \$1,124, primarily related to the sale of goods and supplies to inmates. In addition, the State Asset Forfeiture Fund recognized \$1231 of asset forfeitures, the Region 1 Communications O&M Special Revenue fund recognized state assistance of \$391, the Crime Lab Fees Fund received \$335 in fees and reimbursements, the Drug Enforcement Special Revenue Fund recognized forfeitures of \$151 during the year (these funds relate to federal drug seizures), and the Local Law Enforcement and JAG Grants Special Revenue fund recognized intergovernmental revenues of \$204.

Of the \$5,187 in expenditures, \$779 was spent by the Commissary Sales Fund on purchases of goods for sale, \$966 was spent in the State Asset Forfeiture Fund on operating supplies and vehicles, \$391 was spent in the Region 1 Communications O & M Fund on operating and maintenance costs associated with the regional radio tower network, \$472 was spent in the Crime Lab Fees fund on overtime and lab equipment, \$18 was expended in the Drug Enforcement Special Revenue Fund on operating supplies and capital outlay, \$207 was spent in the Local Law Enforcement and JAG Grants Special Revenue Fund on grant projects, and \$1,572 was spent in the LED Debt Service Sinking Fund for principal \$1,480 and interest and fees \$92 on the LED Limited Tax Revenue Bonds.

As noted above, fund balances for these non-major funds, in the aggregate, totaled \$6,810. Of this total, \$799 remains in the Commissary Sales Special Revenue Fund, \$1,009 in the State Asset Forfeiture Special Revenue Fund, \$231 in the RUDE Program Special Revenue Fund, \$5 in the Recreation and Relief Special Revenue Fund, \$245 in the Reserve Deputies Operating Special Revenue Fund, \$579 in the Crime Lab Fees Special Revenue Fund, \$658 is in the Drug Enforcement Special Revenue fund, and \$3,253 was left in the Computer Equipment Capital Project Fund at year end.

Proprietary Funds. During the year, the Sheriff maintained two internal service funds (the Auto Loss and General Liability fund and the Group Health and Life Insurance fund) to account for its risk management activities. At June 30, 2020, these funds reported a positive Net Position of \$346, which is a net increase from the prior year of \$833. Since these internal service funds are primarily funded by charges to the Sheriff's governmental funds, they are eliminated when converting to the government-wide statements.

At June 30, 2020, the **Auto Loss and General Liability fund** had a Net Position of \$1,734, which is \$964 higher than the prior year. Expenses for the year totaled \$3,368 and claims payable at year-end totaled \$5,955. As can be seen in the graph, this fund experienced a decrease in claims expense of \$2,065 during the year, resulting in an operating income of \$1,537 for the year. Loss reserves decreased by \$1,152, as the number and severity of open claims decreased.

The **Group Health and Life Insurance fund** accounts for both employee and employer contributions to the plan. At June 30, 2020, this fund had a negative Net Position of \$1,392, which is \$132 more than the prior year. Expenses for the year totaled \$28,522 and accounts and claims payable at year-end totaled \$3,146. This fund also showed a Due to Other Funds at year-end of \$1,337, as it had to borrow funds to meet short-term obligations. The General Fund transferred \$3,900 into this fund during 2020 to help cover overruns. The total expenses of this fund increased \$7,076 or 33 percent over the prior year. Most of this increase was seen in the cost of health claims. Pharmaceutical claims were up \$372 or 6.7% while health claims were up \$6,482 or 54.0 percent. Premiums for excess coverage were also up \$161 or 5.5%.

To address the recurring losses recognized in previous years and the rising costs of healthcare, the employer premium was raised on January 1, 2018 from \$500/month to \$525/month. These rates were based on an analysis of the net costs incurred by the plan.

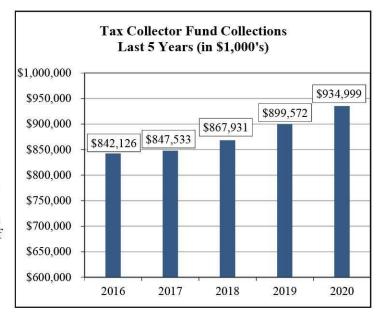

Agency Funds. As the Ex-Officio Tax Collector, the Sheriff maintains several agency funds to account for monies collected on behalf of others. At year end, the Sheriff held \$51,720 in these funds. The two primary funds are the Tax Collector fund and the Sheriff's Account fund.

The **Tax Collector fund** accounts for distributions to taxing agencies of monies collected for property taxes, sales taxes, licenses and permits, fines and forfeitures, and other miscellaneous items in the Sheriff's capacity as Ex-Officio Tax Collector. Over the past 5 years, the collections in this fund have increased steadily. During FY 2020, the Tax Collector fund received \$934,999 and disbursed \$938,487 to the various taxing bodies in the Parish. See the graph for a recap of the tax collections over the past 5 years. The Tax Collector funds had a total of \$49,518 on hand at year-end.

Collections increased \$35,427 or 3.9 percent. This increase is the net of various changes -1) criminal cash bonds were up \$26 or 6.6 percent, 2) fines and fees were down 2,698 or 21.1 percent due to decreases in collections, 3) property tax collections increased \$38,378 or 9.9 percent as assessments and levies increased as property values improved, and 4) sales tax collections increased \$18,415 or 3.9 percent. These increases/decreases were realized by all participating taxing districts in the Parish.

The **Sheriff's Account** Agency Fund received \$20,259 in garnishments and judicial sales and disbursed \$20,456 to the applicable litigants, defendants, attorneys, and appraisers. These are decreases of \$4,083 and \$4,471, respectively. The main reason for these decreases were related to the closing of courts during the COVID pandemic. The closing of the courts stopped all judicial sales.

GENERAL FUND BUDGETARY HIGHLIGHTS

Amendments to the Budget

The Sheriff made several supplemental budgetary appropriations through the year, the final being made on June 24, 2020. The most significant of the changes made are described below:

Revenues of the General Fund were increased by \$463. The largest changes were seen in services charges, fees and commissions (down \$697), sales taxes (up \$662), miscellaneous revenues (up \$89), intergovernmental (down \$186), and interest income (up \$298). Service charges and commissions went down due to a decrease in sales tax commission (down \$256) and a decrease in other commissions (down \$829 - due mainly to a decrease in commission on judicial sales). Miscellaneous revenues were up primarily because of an increase in other revenues (up \$76). Intergovernmental revenues were down mainly due to an increase in reimbursed details (up \$578) and an increase in reimbursed salaries (up \$109) off-set by a decrease in state supplemental pay (down \$155 - due to a lower number of eligible employees) and a decrease in video poker allocations (down \$370).

Expenditures of the General Fund were decreased by \$1,896. Note C.2 provides a breakdown of the changes in expenditures by function/bureau. The main changes by line-item were:

- The decrease of \$1,408 in the Management Services Bureau was primarily the result of lower than anticipated expenditures in general operating expenditures (down \$571), material and supplies (down \$554), and capital outlay (down \$606).
- The decrease of \$494 in the Technical Services Bureau was the result of a decrease in salaries and benefits (down \$307) and a decrease in general operating expenditures (down \$124).
- The increase of \$339 in the Special Operations Bureau was primarily due to the increase of salaries and benefits (up \$497) and the decrease in general operating expenditures (down \$134).
- The change of \$1,392 in Other Financing Sources (Uses) was caused by an increase in Transfers In (up \$728). Transfers Out increased due to an increase of \$3,900 from a cash infusion into the Group Health Internal Service Fund, due to continuing cash flow shortages in that fund.

Budget to Actual Variances

Revenues (on a budgetary basis) totaled \$144,940, which was \$16,856 or 13.1 % over the final budget. The variance is made up of 1) ad valorem taxes reporting \$68 over budget, 2) sales taxes coming in \$39 or 0.2% under budget, 3) intergovernmental revenues coming in \$16,727 or 108.0% over budget, due to higher than anticipated federal grants, which were over by \$16,920, video poker allocations over budget by \$141, but offset by airport details, reporting under budget by \$340, and 4) service charges, fees and commissions coming in \$89 or 0.2% over budget.

Expenditures (on a budgetary basis) were \$127,488, which was \$1,346 or 1.0% under the final budget. The largest budget variances were seen in:

- Salaries and benefits were \$104 or 0.1% under budget due to a number of positions being open for most of the year and a conscious effort to cut back on overtime. This resulted from regular salaries coming in \$99 under budget and retirement was \$9 under budget (open positions).
- For General operating expenditures were \$606 or 3.9% under budget. Telephone costs were \$77 under budget, repairs and maintenance was \$135 under budget due to delays in some building and plumbing repairs, outside service costs were \$110 under budget and prison-related costs were \$6 over budget,
- Materials and supplies were \$404 or 6.9% under budget primarily in office supplies, under by \$84, uniform and related costs, under budget \$42, and auto and marine under budget by \$266 due to slightly lower gas and oil prices.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The Sheriff's Office's investment in capital assets for its governmental activities as of June 30, 2020 amounts to \$66,648 (net of accumulated depreciation) and \$62,487 (net of accumulated depreciation and capital-related debt). This investment in capital assets includes land, buildings, furniture and fixtures, machinery, vehicles and equipment, and infrastructure. The Sheriff's Office's net investment in capital assets decreased by \$4,300 or 6.0 percent, this year.

Major capital asset events during the current fiscal year included the following:

- ▶ \$903 was spent on furniture, fixtures and equipment, primarily computers (laptops, desktops, printers and servers), new crime lab equipment, and ALPR cameras.
- > \$1,926 was spent on new vehicles, trucks, and motorcycles, keeping with the Sheriff's policy of rotating the fleet every 5 years.
- \$441 was spent on buildings and construction in progress, primarily related to the architectural design and construction of the new First District Station in Fat City completed in 2019.
- > \$7,779 was recognized as depreciation expense, a decrease of \$1,009 from last year.
- The outstanding capital-related debt decreased \$1,480 as payments on the bonds were made.

JEFFEERSON PARISH SHERIFF'S OFFICE CAPITAL ASSETS (NET OF DEPRECIATION)

	Governmental Activities					
		2020		2019		
Land	\$	2,716	\$	2,716		
Construction in progress		-		-		
Buildings and improvements		50,250		51,615

Less: capital related long-term debt		(4,161)		(6,511)		
Net Investment in Capital Assets	\$	62,487	\$	64,437		

Additional information on the Sheriff's Office's capital assets can be found in Note D.5 on pages 65 and 66.

Long-term Debt. At the end of the fiscal year, the Sheriff had bonded debt of \$1,550, capital leases payable of \$2,611, and other long-term debt of \$35,270, for a total long-term debt balance of \$39,431. The following is a summary of the Sheriff's long-term debt transactions for the year ended June 30, 2020 (in thousands of dollars):

Be	Beginning		dditions		Ending	Du	e Within
В	Balance		ductions)	Balance		0	ne Year
\$	3,030	\$	(1,480)	\$	1,550	\$	1,550
	3,481		(870)		2,611		870
	1,728		158		1,886		1,886
	38,319		(4,935)		33,384		-
\$	46,558	\$	(7,127)	\$	39,431	\$	4,306
	\$	Balance \$ 3,030 3,481 1,728 38,319	Balance (Re \$ 3,030 \$ 3,481 1,728 38,319	Balance (Reductions) \$ 3,030 \$ (1,480) 3,481 (870) 1,728 158 38,319 (4,935)	Balance (Reductions) \$ 3,030 \$ (1,480) \$ (3,481) 3,481 (870) 158 1,728 158 (4,935)	Balance (Reductions) Balance \$ 3,030 \$ (1,480) \$ 1,550 3,481 (870) 2,611 1,728 158 1,886 38,319 (4,935) 33,384	Balance (Reductions) Balance Or \$ 3,030 \$ (1,480) \$ 1,550 \$ 3,481 (870) 2,611 1,728 158 1,886 38,319 (4,935) 33,384 33,384 33,384

As noted above, total debt decreased by \$7,127. Significant long-term transactions included:

- > The payment of \$1,480 in current year principal on the remaining LED Limited Tax Revenue Bonds issued in 2008 to finance the construction of several facilities.
- ➤ Compensated absences increased by a net \$158 (new accruals of \$3,601 less payments of \$3,442).
- ➤ The Sheriff accrued a total OPEB liability expense of \$3,933 less payments of \$8,868 during the year (for health and life benefits) as per the actuarial valuation of our program as per GASB 75 on Other Post-Employment Benefits. To date, the total calculated liability is \$33,384. To date, the Sheriff has chosen not to fund this actuarial liability.

A governmental unit is limited by state statues and may only issue up to ten percent of its total assessed valuation. Additional information on the Sheriff Office's long-term debt can be found in Note D.8 on pages 68 through 71 of this report.

Net Pension Liability and Related Items. On the Statement of Net Position, the Sheriff recorded a non-current liability – pension-related totaling \$48,485. This represents the Sheriff's proportionate share of the Net Pension Liabilities of the Louisiana Sheriff's Pension & Relief Fund. Government Accounting Rules require the Sheriff to recognize its proportionate share (calculated at 10.249954%) of the pension plan's unfunded pension liabilities on its government-wide financial statements. This liability saw a significant increase, up \$8,585 in the current year due to higher earnings, along with changes in assumptions, changes in proportionate share, changes in experience, etc.

There are a number of other items recorded on the Statement of Net Position related to pensions, specifically deferred outflows totaling \$27,216 and deferred inflows totaling \$10,030. The deferred outflows are made up mostly made up of the Sheriff's 2020 pension contributions \$9,350 which have been deferred until next year, along with \$14,818 of changes in assumptions (which are being amortized over the next few years), \$1,745 of changes in earnings and changes in the Sheriff's proportionate share of the pension liability \$1,304. The deferred inflows are mostly made up of differences in actual experience \$9,289 and changes in the Sheriff's proportionate share of the pension liability \$704, along with \$38 in differences between the Sheriff's contributions and its proportionate share of contributions. All of these items are being deferred in the current year and amortized over the next few years, in accordance with the accounting standards for pensions. See Note F.1 for further discussion.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Through February 2020, revenue streams throughout Jefferson Parish were performing at an increased rate of over 5% compared to the prior year data. However, upon the onset of the governmental shutdowns related to COVID-19, many of those revenue sources decreased greatly and some were eliminated completely. One of the areas most impacted by the shutdown was sales tax collections. Along with the dramatic drop in sales tax collection, we noticed an increase in online purchases due to local area business closings. As a result, despite the strong economic showing early in the fiscal year, overall sales tax collections slowed, and thus only slightly increased for the fiscal year ending June 30, 2020 as compared to the prior period ending June 30, 2019.

Prior to the COVID-19 outbreak, there were several factors that served as stimuli to our local economy, such as the price of crude oil being over \$50 per barrel through February 2020 and the unemployment rate in Jefferson Parish being under 5%, the lowest rate in the last decade. Additionally, the Louis Armstrong International Airport terminal underwent a one-billion-dollar expansion and renovation in 2019, which allows for increased passenger traffic and goods to the Greater New Orleans area. The pandemic did, however, act as an impediment to those expected increases, as airport passenger traffic decreased by 97% for the month of April 2020, as compared to April 2019. Airport traffic slowly trended upward and the decrease in airport traffic for July 2020, as compared to July 2019 reflects a 71% decrease. An area that mirrored the reduced airport traffic was the collection of hotel/motel sales tax on room rentals. The hotel/motel sales tax collections were down 49% in July 2020, as compared to July 2019. As more businesses open and the economy continues to improve, we expect to see those indicators begin to move closer to their prepandemic levels.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Sheriff's Office's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Robert Palermo, Chief Financial Officer, 1233 Westbank Expressway, Harvey, LA 70058. The financial report is also available on the Sheriff's website at www.jpso.com under "Administrative & Financial Overview" or on the Louisiana Legislative Auditor's website at www.lla.state.la.us (or www.lla.la.gov) under "Audit Reports."

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSIITON JUNE 30, 2020

Amounts reported for governmental activities in the Statement of Net Position (page 30) are different because:

Total Fund Balances at June 30, 2020 - Governmental Funds (page 32)		\$ 84,886,686
Capital assets used in governmental activities are not financial resources and, therefore,		
are not reported in the funds. The cost of the assets exceeded the accumulated depreciation by:		
Cost of capital assets	\$ 195,337,591	
Accumulated depreciation	 (128,689,338)	66,648,253
Deferred Outflows are not available to pay for current-period expnditures and, therefore,		
are deferred and expensed as consumed.		
Deferred charges - refunding escrow	\$ 106,644	
Deferred Outflow - OPEB	4,290,680	
Deferred outflows - pension-related	 27,184,374	31,581,698
Internal service funds are used by management to charge the costs of insuring risks (i.e., self-		
insurance) to individual funds. The assets and liabilities of the internal service funds are		
included in governmental activities in the statement of net position.		346,351
Long-term liabilities, including compensated absences and OPEB net pension liability,		
are not due and payable in the current period and therefore are not reported in the funds.		
Long-term liabilities at year-end consist of:		
Compensated absences	\$ 1,885,948	
Limited tax revenue bonds	1,550,000	
Capital lease	2,610,940	
Net Pension Liability	48,484,630	
OPEB Liabiltiy	 33,384,104	(87,915,622)
Deferred Inflows related to the pension and OPEB plan are not yet available and, therefore,		
are deferred and and recognized as consumed.		
Deferred inflows - pension-related		(10,030,105)
Deferred Inflow - OPEB		(6,541,733)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2020

et change in fund balances - total governmental funds (page 34)		\$ 15,523,995
In the Statement of Activities, certain OPEB related inflows and outflows of		
resources are recognized in the current year, while others are deferred. The net effect		
of these OPEB related transactions are as follows		
Actual OPEB Expense	\$ (112,086)	
Current year amortization of cetain deferred outflows	\$ 647,221	
Current year amortization of cetain deferred inflows	\$ (151,654)	202.40
Capital outlays are reported in governmental funds as expenditures. However, in the		383,48
Statement of Activities, the cost of those assets is allocated over their estimated		
useful lives and reported as depreciation expense. This is the amount by which		
depreciation expense exceeded capital outlay in the current period		(4,218,44
The net effect of various miscellaneous transactions involving capital assets		
(i.e., sales, trade-ms, and donations) is to decrease net position		(80,86
In the Statement of Activities, certain operating expenses, such as compensated		
absences (i.e., sick and annual leave), are measured by the amounts earned during		
the year In the governmental funds, however, expenditures for these items are		
measured by the amount of financial resources used (essentially, the amounts		
actually paid) This year, sick and annual leave used exceeded the amounts earned		
by this amount.		(158,24
The issuance of long-term debt (e.g., bonds and disaster loans payable) provides current		
financial resources to governmental funds, while the repayment of the principal		
of long-term debt consumes the current financial resources of governmental funds		
Neither transaction, however, has any effect on net position. This amount is the net		
effect of these differences in the treatment of long-term debt and related items		
Payment of principal on limited tax revenue bonds	\$ 1,480,000	
Payment of capital lease payable	\$ 870,314	
Amortization of deferred charge on defeasance	\$ (197,319)	
U	 <u> </u>	2,152,99
Internal service funds are used by management to charge the costs of risk		
management activities (i.e., self-insurance) to individual funds. The net revenue		
(loss) of the internal service funds are reported with governmental activities		832,70
In the Statement of Activities, certain pension-related inflows and outflows of		
resources are recognized in the current year, while others are deferred. The net effect		
of these pension-related transactions are as follows		
Current year employer pension expense per the retirement system	\$ (13,514,064)	
Curent year pension expense - employee contributions paid by the Sheriff	\$ (1,028,976)	
Current year amortization of certain pension-related deferred inflows and outflows	\$ 15,990	
Recognition of On-Behalf Payments made to pension plan by non-employer entities	\$ 4,341,920	
Deferral of current year pension contributions made by employer	\$ 9,318,376	(866,75
		(000,732
nange in Net Position of Governmental Activities		\$ 13,568,865

Notes to the Financial Statements June 30, 2020

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Jefferson Parish Sheriff's Office (the "Sheriff") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Sheriff's significant accounting policies are described below.

1. Reporting Entity

Under GASB's Codification of Governmental Accounting and Financial Reporting Standards Section 2100, the financial reporting entity consists of the primary government and its component units. As the governing authority of the parish, the Jefferson Parish Government (the Parish Council) is considered to be the primary government for financial reporting purposes for the Parish of Jefferson.

Component units are defined as legally separate organizations for which the elected officials of the primary government are financially accountable. The criteria used in determining whether financial accountability exists include the appointment of a voting majority of an organization's governing body, and 1) the ability of the primary government to impose its will on that organization, or 2) whether the potential exists for the organization to provide specific financial benefits or burdens to the primary government. Fiscal dependency may also play a part in determining financial accountability. Additionally, a component unit can be an organization for which the nature and significance of its relationship with the primary government is such that exclusions would cause the reporting entity's financial statements to be misleading or incomplete.

For reporting purposes, the Sheriff is not considered to be a component unit of the Parish Council. Instead, the Sheriff is considered to be a "stand-alone" special purpose government. This decision is based on the following:

- 1) The Sheriff enjoys a separate legal standing from the Parish Council and other governmental entities. The Sheriff has the ability to sue or be sued in its own name.
- 2) The Parish Council does not appoint the Sheriff. The Sheriff's position was created by Article V, Section 27 of the Louisiana Constitution of 1974. The Sheriff is a separately elected official by the citizenry in a general, popular election.
- 3) The Parish Council does not have the ability to impose its will on the Sheriff. The Parish Council cannot remove the Sheriff from office. The Sheriff adopts its own budget separate and apart from the Parish Council and other local governmental entities. The day-to-day operations of the Sheriff's office are under the responsibility and control of no one other than the Sheriff.
- 4) The Sheriff does not provide a significant financial benefit or burden to the Parish Council. While the Parish Council does provide the Sheriff with a certain amount of its office space at no cost and pays a certain amount of operating expenses on behalf of the Sheriff, these transactions are not considered significant enough to make the Parish Council financially accountable for the Sheriff's Office.
- The Sheriff is not fiscally dependent on the Parish. The primary sources of funding for the Sheriff include ad valorem taxes, a one-quarter cent sales tax, and commissions earned from collecting taxes, licenses and fees on behalf of other governmental entities. The Parish Council does not have the authority to approve or modify the Sheriff's budget. The Law Enforcement District, of which the Sheriff serves as Chief Executive Officer, can levy taxes and issue debt without approval of the Parish Council.

Therefore, the financial report of the Sheriff is separate and apart from the Parish Council and includes all of the funds and component units for which the Sheriff is financially accountable. Also, because the Sheriff serves as the Chief Executive Officer of the Law Enforcement District (LED) of Jefferson Parish and because the management of the Sheriff administers the operations of the LED, the operations of the District, although a separate legal entity, are, in substance, part of the Sheriff and are included (i.e., blended) within the Sheriff's financial report. Additionally, the collections and disbursements handled by the Sheriff in his capacity as the Ex-Officio Tax Collector of Jefferson Parish are reported within the Sheriff's financial report as an Agency Fund.

2. Description of Activities

As the Chief Executive Officer of the Law Enforcement District of the Parish, the Sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the Parish. The Sheriff provides protection to the residents of the Parish through on-site patrols, investigations, et cetera, and serves the residents of the Parish through the establishment of community policing details, neighborhood watch programs, anti-drug abuse and other programs. The Sheriff also administers the parish jail and correctional facilities and exercise duties required by the parish court system, such as providing bailiffs, executing orders of the court, serving subpoenas, and other duties.

The Sheriff also serves as the Ex-officio Tax Collector of the Parish. As such, the Sheriff is responsible for the collection and distribution of ad valorem (property) taxes, sales and use taxes, parish occupational licenses, state revenue sharing funds, fines, costs and bond forfeitures imposed by the local district courts.

3. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Sheriff. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Because of the nature of the Sheriff's operations, the Sheriff reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for the governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements of the Sheriff. Funds are used by the Sheriff to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The funds of the Sheriff are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of the Sheriff's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general capital assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all financial activities of the Sheriff not accounted for in some other fund. Major individual governmental funds are reported as separate columns in the fund financial statements. The Sheriff reports the following "major" governmental funds:

The **General Fund** is the general operating fund of the Sheriff. It is used to account for all financial resources except those required to be accounted for in another fund.

The **911 Emergency Communications Special Revenue Fund** is used to account for funds remitted to the Sheriff under a cooperative endeavor agreement with the Parish in order to administer the daily operations and maintenance of the Parish's 911 Emergency Communications District.

The **Federal Grants Special Revenue Fund** accounts for those grants received directly from the federal government and for those grants not accounted for in any other fund. The grants accounted for include COPS, TSA Canine, and Gulf Coast High Intensity Drug Trafficking Area (HIDTA) grants.

The **Communications Reserve Capital Project Fund** accounts for the proceeds of the Sheriff that have been set aside for communication infrastructure improvements, Homeland Security Grant Program (HSGP) and Urban Area Security Initiative (UASI) received from the U.S. Department of Justice via the City of New Orleans and/or the Jefferson Parish Council. The funds are being expended on the Region 1 Interoperability Project.

The **Buildings & Improvements Capital Project Fund** accounts for monies set aside from the General Fund for capital improvements to Sheriff's Office buildings and facilities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. Internal Service Funds (primarily self-insurance funds) are used by the Sheriff to account for financing of goods or services provided by one department to other departments of the Sheriff on a cost-reimbursement basis. Operating expenses of the internal service funds include the costs of claims and judgments, related administrative expenses, and premiums for commercial policies. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. Agency funds generally are used to account for assets that the Sheriff holds on behalf of others as their agent. The Tax Collector fund holds funds, such as taxes, cash bonds, fees, etc., due to taxing bodies and others. The Sheriff's Account accounts for collections and distributions related to civil suits, sales, successions, garnishments and redemptions. The Inmate Deposit Fund is used to account for individual prisoner account balances while in custody of the Jefferson Parish Correctional Center. The Property and Evidence Fund is used as a depository for funds seized in connection with arrest for narcotics violations. The Narcotics Seizure Fund accounts for proceeds of certain asset forfeitures seized during narcotics arrests.

4. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues on the Statement of Activities include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes and related commissions.

Within the fund financial statements, the accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net fund balances. Under the modified basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Sheriff considers property taxes and sales taxes as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due, and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Those revenues susceptible to accrual are state revenue sharing, intergovernmental reimbursement, interest and grants. Ad valorem taxes, sales taxes, fines, commissions and costs collected and held by the Tax Collector Agency Fund on behalf of the Sheriff's General Fund are also accrued. Substantially all other revenues are recorded when received.

The proprietary fund type is accounted for on the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of this fund type are included on the balance sheet. Proprietary fund type operating statements represent increases (i.e., revenues) and decreases (i.e., expenses) in net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of the timing of related cash flows.

5. Assets, Liabilities and Net Position/Fund Equity

A. Cash and Investments

For reporting purposes, cash and cash equivalents include amounts in demand deposits and petty cash. For the purposes of the statement of cash flows, the Proprietary Funds consider all highly liquid investments with a maturity of three months or less when purchased, to be cash equivalents.

In accordance with GASB Codification Section I50, investments are generally stated at fair value. Money market investments that have a remaining maturity at time of purchase of one year or less are not stated at fair value but are stated at costs or amortized cost. Money market investments include short-term, highly liquid debt instruments such as commercial paper and U.S. Treasury and agency obligations.

Louisiana Revised Statues (LSA-RS 33:2955) authorized the Sheriff to invest in (1) direct obligations of the United States Treasury, the principal and interest of which are fully guaranteed by the federal government, (2) bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies or U.S. government instrumentalities, (3) direct security repurchase agreements of any federal book entry only securities, (4) time certificates of deposits of state banks organized under the law of Louisiana and national banks having their principal offices in the state of Louisiana, savings accounts or shares of savings and loan associations, (5) in mutual or trust fund institutions, which are registered with the Securities and Exchange

Commission under the Securities Act of 1933 and the Investment Act of 1940, which have underlying investments consisting solely of and limited to securities of the U.S. government or its agencies, or (6) guaranteed investment contracts issued by a bank, financial institution, insurance company, or other entity having one of the two highest short-term rating categories of either Standard & Poor's Corporation or Moody's Investors Service, provided that no such investment may be made except in connection with a financing program approved by the State Bond Commission.

B. Pooled Assets

The Sheriff follows the practice of pooling its cash and investments in order to maximize earning potential. All funds participate in the pool except for the Tax Collector Agency Fund and the Sheriff's Account Agency Fund. Total cash, investments, and accrued interest on investments of the Pool are reported in all funds as "Share of Pooled Assets – General Pool".

Funds with negative share report the advance as an interfund payable and the General Fund, which has been determined to be the receivable fund by management, reports an off-setting interfund receivable. Interest earned on pooled cash and investments is allocated each month to each individual fund based on the average balance of its share of pooled assets.

The Sheriff also follows the practice of pooling the cash and investments of all funds controlled by the Bureau of Revenue and Taxation Department. Total cash and investments of the pool are reported in the various funds as "Share of Pooled Assets – Bureau Pool". Funds with a negative share in this pool report the advance as an interfund payable, and the Property Tax Fund, which has been determined to be the receivable fund by management, reports an off-setting interfund receivable. Accumulated interest and fiscal charges, which have not yet been allocated to the various funds, are netted against the pool's cash and investment to arrive at "net pooled assets".

C. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources. As a general rule, all interfund balances are eliminated in the government-wide financial statements.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

D. Inventories and Prepaid Items

The costs of material and supplies acquired by governmental funds are recorded as expenditures at the time of purchase. It is management's opinion that the inventory of such materials and supplies at June 30, 2020 would not be material to the financial statements.

Payments made to vendors for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items in both the government-wide and fund financial statements. These items will be recognized as expenses or expenditures when the benefit or expense is consumed rather than when purchased.

E. Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the statement of financial position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred Outflows of Resources represent a consumption of net position that applies to a future period and so it will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred Inflows of Resources represent an acquisition of net position that is applicable to a future reporting period and so it will not be recognized as an inflow of resources (revenue) until then. The Sheriff currently reports a deferred outflow related to a deferred charge on the refunding of bonds as well as deferred inflows and outflows related to its participation in a defined benefit pension plan and its OPEB.

Deferred Outflows – Deferred Charges – Refunding Escrow. The Sheriff has only one item that qualifies for reporting in this category – a deferred charge on a refunding. A deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. Deferred charges such as the deferred charge – refunding escrow agent are to be amortized as an adjustment to interest expense over the shorter of either 1) the original life of the refunded debt or 2) the life of the refunding debt. Since there was no refunding debt issued to affect this defeasance (the Sheriff used available surplus cash), the deferred charge will be amortized over the original life of the remaining refunded debt.

Deferred Outflow and Deferred Inflows – Pension Related. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Louisiana Sheriff's Pension & Relief Fund (the "LSPRF"), and additions to/deductions from the LSPRF's fiduciary net position have been determined on the same basis as they are reported by the LSPRF. The Sheriff reports both deferred outflows or resources and deferred inflows of resources related to the pension liability calculation. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments of the LSPRF are reported at fair value.

Deferred Outflow and Deferred Inflows – OPEB Related. For purposes of measuring the OPEB liability, deferred outflows of resources and deferred inflows of resources related to post-employment benefit expense are determined based on actuarial valuation. The Sheriff reports both deferred outflows of resources and deferred inflows of resources related to the OPEB liability calculation.

F. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the Sheriff as assets with an initial, individual cost of more than \$1,000 (except for electronic equipment, which is all capitalized) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical costs if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are included in construction in progress.

Property, plant, equipment, and infrastructure as depreciated using the straight-line method (with a mid-year convention) over the following estimated useful lives:

Asset Category	Useful Life in Years			
Buildings and Improvements	40			
Equipment (including furniture and fixtures)	3			
Vehicles and Heavy Equipment	5			
Infrastructure	40			

G. Compensated Absences

It is the Sheriff's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since it is the Sheriff's policy to not pay any amounts when employees separate from service to the Sheriff. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. In accordance with GASB Codification Section C60, an additional liability is recorded for salary related payments associated with the future payment of compensated absences.

H. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are recognized as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable, if any, are reported net of the applicable bond premium or discount. Bond issuance costs, if any, are expensed in the period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources which discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payments of principal and interest are recorded as expenditures only when due.

I. Fund Equity

In accordance with GASB Codification Section 1800.142-162, fund balances of the governmental fund types are categorized into one of five categories in the fund financial statements – Non-spendable, Restricted, Committed, Assigned, or Unassigned.

For committed fund balances, the Sheriff is considered the highest level of decision-making authority and formal policy memorandum issued by him is needed to establish, modify, or rescind a fund balance commitment. For assigned fund balances, the Sheriff and/or Chief Financial Officer may assign amounts to a specific purpose via internal memorandum.

In addition, while the Sheriff has not formally adopted a minimum fund balance policy, it does have an internal targeted fund balance of 20.0 percent of current year expenditures. Included in this figure is a "contingency" balance that has been set-aside for future emergencies (currently set at \$7.0 million).

While the Sheriff has not established a policy for its use of unrestricted fund balance, it does consider that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

In addition, while the Sheriff has not formally adopted a minimum fund balance policy, it does have an internal targeted fund balance of 20.0 percent of current year expenditures. Included in this figure is a "contingency" balance that has been set-aside for future emergencies (currently set at \$7.0 million).

While the Sheriff has not established a policy for its use of unrestricted fund balance, it does consider that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Sometimes the Sheriff will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Sheriff's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

J. Use of Estimates

Preparation of financial statements in accordance with generally accepted accounting principles requires the Sheriff to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures. Actual results could differ from the estimates that were used.

K. Adoption of New Accounting Principles

For the year ended June 30, 2020, the Sheriff implemented the following accounting standard:

Governmental Accounting Standards Board Statement No. 88 (GASB 88)

The GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This Statement defines debt for purposes of disclosure in the notes to the financial statements; clarifies which liabilities governments should include when disclosing information related to debt; and requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. The Statement also requires that additional essential information related to debt be disclosed in the notes to the financial statements, including unused lines of credit; assets pledged as collateral for debt; and terms specified in debt agreements related to significant events of default and/or termination events with finance-related consequences and significant subjective acceleration clauses. The adoption of this standard had no impact on the Sheriff's net position.

L. Subsequent Events

The Sheriff has evaluated subsequent events through December 28, 2020, the date the financial statements were available to be issued. No subsequent events were identified as of this date.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. <u>Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures</u> and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in Net Position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$4,218,444 difference are as follows:

Capital outlay	\$ 3,580,429
Depreciation expense	 (7,798,873)
Net adjustment to increase net changes in fund balances - total governmental	
funds to arrive at changes in net position - governmental activities	\$ (4,218,444)

Another element of that reconciliation states that "The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase Net Position." The details of this \$80,862 difference are as follows:

In the statement of activities, only the gain (loss) on the sale of capital assets is reported. Thus, the change in net position differs from the change in fund balance by the following:

Cost of assets disposed of during the year Accumulated depreciation on assets disposed of	 (2,829,954) 2,749,091
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities	\$ (80,863)

Finally, pension-related expenses are recognized in the fund financials in the year that they occur, but for the Government-wide financial statements, certain inflows and outflows of resources and pension expenses are recognized in the current year, while others are deferred and amortized in the future. The \$3,191,524 difference related to pension fund recognition is broken down as follows:

Current year employer pension expense per the Sheriff's Pension Fund	\$ (13,514,064)
Current year pension expense for employee contributions paid by the Sheriff	(1,028,976)
Current year amortization of certain pension-related deferred inflows and outflows	15,990
Recognition of On-Behalf Payments made to pension plan by non-employer entities	4,341,920
Deferral of current year pension contributions made by the Sheriff	9,318,376
Net adjustment to increase <i>net changes in fund balances - total governmental</i> funds to arrive at changes in net position - governmental activities	\$ (866,754)

NOTE C - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

1. Budgetary Information

Formal budgetary accounting is employed as a management control device during the year for the General and Special Revenue Funds (except for the following grant funds: Federal Grants, Drug Enforcement, Multi-Jurisdictional Task Force, Project Income and Local Law Enforcement Block Grant (LLEBG) grant funds). Because grants can span over several years and because financial reporting to granting agencies is required on a "grant-to-date" basis, budgetary data for the Federal Grants Special Revenue Funds is presented on a "grant-to-date" basis, not an annual basis. Capital Project Funds are not presented since the funds are budgeted over the life of the respective project and not on an annual basis. The annual budgets and the grant-to-date budgets are legally adopted each year by a resolution authorized by the Sheriff.

Expenditures may not exceed budgeted appropriations at the fund level. Management of the Sheriff may make line-item adjustments within a fund without the Sheriff's approval as long as the total revenues and expenditures do not change. Appropriations which are neither expended nor encumbered lapse at year end.

Budgets are adopted for the General and Special Revenue funds (except those noted above) on a basis consistent with generally accepted accounting principles (GAAP), except that (1) expenditures represented by unpaid invoices received after the year-end budgetary cut-off and which had not been encumbered are recognized when paid, (2) encumbrances are recorded as expenditures, (3) amounts paid under capital leases are budgeted as rent expenses rather than debt service, and (4) sales taxes and the related commissions are recorded when received.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General and Special Revenue Funds.

In accordance with the Louisiana Local Government Budget Act (LSA-RS 39:1301), the procedures used by the Sheriff in establishing the budgetary data in the financial statements include public notices of the proposed budget, public inspections and hearings. The budget is then legally adopted by the Sheriff through a formal implementation letter. All amendments to the budget must also be approved by the Sheriff. Budgeted amounts included in the statements are as originally adopted or as finally amended by the Sheriff as of June 20, 2019.

2. Amendments to the Budget

The Sheriff made several supplemental budgetary appropriations through the year, the final being made on June 24, 2020. The most significant of the changes made are described below:

Revenues of the General Fund were increased by \$463,450. The largest changes were seen in services charges, fees and commissions, down \$697,800, sales and use taxes up \$661,500, miscellaneous revenues up \$88,750, and intergovernmental down \$187,500. Service charges and commissions went down \$1,205,600, due to a decrease in sales tax commissions of \$256,400. There was an increase in civil and criminal fees of \$294,250. Intergovernmental revenues were down mainly due to an increase in reimbursed details and salaries of \$686,680 off-set by a decrease in state supplemental pay decreasing \$155,000 and a decrease in federal grants of \$302,000.

Expenditures of the General Fund were decreased by \$1,895,551. A breakdown by bureau follows:

Fund/Bureau	Original Budget Amendments		Amendments		Final Budget	
General Fund						
Executive	\$	1,457,680	\$	(11,239)	\$	1,446,441
Management Services		34,181,330		(1,408,305)		32,773,025
Finance and Administrative		2,740,295		(121,325)		2,618,970
Revenue and Taxation		3,590,125		2,997		3,593,122
Operations		22,720,320		163,075		22,883,395
Special Operations		4,863,340		338,500		5,201,840
Technical Services		12,897,925		(494,600)		12,403,325
Internal Management		645,295		(48,076)		597,219
Criminal Investigations		12,930,418		244,117		13,174,535
Special Investigations		4,377,515		(235,365)		4,142,150
Narcotics		5,163,760		(20,710)		5,143,050
Corrections		25,161,545		(304,620)		24,856,925
Total	\$	130,729,548	\$	(1,895,551)	\$	128,833,997

The decrease of \$1,408,305 in the Management Services Bureau resulted from a decrease in general operating expenditures, materials and supplies, and capital outlay.

The decrease of \$494,600 in the Technical Services Bureau was the result of a decrease in salaries and benefits of \$307,000 and a decrease of \$124,100 in general operating expenditures. The salaries and benefits were down because of various open positions that did not get filled during the year in 911.

The decrease of \$304,620 in the Corrections Bureau resulted from a decrease in salaries and benefits. Salaries and benefits were down due to the number of open positions during the year which caused a large increase in overtime to fill the open spots.

The decrease of \$235,365 in the Special Investigations Bureau resulted primarily from a decrease in salaries and benefits. There were also decreases in all categories within this bureau.

The decrease of \$121,325 in the Finance and Administrative Bureau resulted primarily from a decrease in general operating expenditures.

The increase of \$338,500 in the Special Operations Bureau was the result of an increase in salaries and benefits. The increase was offset by a decrease in general operating expenditures.

The increase of \$244,117 in the Criminal Investigations Bureau was the result of an increase in salaries and benefits. The increase resulted primarily from an increase in overtime.

The increase of \$163,075 in the Operations Bureau was the result of an increase in salaries and benefits. The increase resulted from an increase is regular salaries, along with state supplemental.

The decrease of \$1,392,077 in Other Financing Sources (Uses) was caused by an increase in Transfers in of \$727,838. Transfers out increased mainly due to an \$3,900,000 cash infusion into the Group Health Internal Service Fund due to continuing cash flow shortages in that fund.

The end result of the above noted changes was to change of the originally budgeted deficit of \$4,631,623 to a projected deficit of \$3,664,699. The estimated ending fund balance of the general fund is budgeted at \$51,924,801 which is 40.3 percent of currently budgeted expenditures (much higher than the target of 20.0 percent of operating expenditures).

The 911 Emergency Communications Special Revenue Fund (a major fund) had its revenues increase \$217,690 during the year. The budgeted expenditures of this fund were increased by \$1,136,803. This increase is made up of an increase in general operating expenditures of \$982,650, a decrease in materials and supplies of \$59,230 and an increase of \$165,500 in capital outlay. The intergovernmental costs increased \$44,383 (which is made up of reimbursements to the Parish Eastbank Fire Department for fire dispatchers and payments to the Cities of Kenner and Gretna for alternate PSAPs). Transfers out increased \$33,500 to reimburse the Sheriff's General Fund for call-takers, police and EMS dispatchers, IT personnel, and the 911 District Commander.

The Sheriff's Non-Major Special Revenue Funds with Budgets also had a few changes during the year. Overall, revenues went up \$1,224,287, and expenditures went up \$779,770. The net change in revenues was primarily seen in 1) the Region 1 O&M Special Revenue Fund, which saw a decrease in intergovernmental reimbursements of \$45,918, 2) the Commissary Sales Special Revenue fund, which saw an increase of \$460,000 in sales of goods to inmates, and 3) the State Asset Forfeiture Special Revenue Fund, which saw an increase of \$860,000 in forfeitures.

The increase in expenditures is attributed to the net of 1) an increase of \$213,888 in Commissary Sales, primarily due to an increase of \$244,000 in cost of goods sold, 2) an increase of \$617,850 in the State Asset Forfeiture Special Revenue Fund, 3) a decrease of \$81,718 in the Region 1 O&M Special Revenue Fund due to an increase in reimbursable costs at the regional communication towers, and 4) an increase of \$47,650 in the Crime Lab Fees Special Revenue fund.

3. Expenditures in Excess of Appropriations

The Sheriff's General Fund and all of its Special Revenue funds that adopt annual budgets were within budgeted expenditures or exceeded budget by nominal amounts for the fiscal year.

4. Reconciliation of Budgetary Basis to GAAP Basis of Accounting in Fund Financial Statements - General Fund

The Statement of Revenues, Expenditures and Changes in Fund Balances – Actual and Budget (Budgetary Basis) – General Fund presents a comparison of the legally adopted budget with actual data on the budgetary basis. Since accounting principles on the budgetary basis differ from those used to present financial statements in conformity with generally accepted accounting principles (GAAP), a reconciliation of the resulting basis, timing, and entity differences in excess (deficiency) of revenues and other sources over expenditures and other uses for the year ended June 30, 2020, is presented below:

	General Fund			
Excess (deficiency) of revenues and other sources over expenditures and other uses (budgetary basis)	\$	14,494,814		
Basis Difference To adjust for accrual of sales taxes and service charges, fees and commissions		169,972		
To adjust for expenditures for unpaid invoices		(86,793)		
To adjust for expenditures for payroll accrual		(384,683)		
Timing Differences To adjust for encumbrances To adjust for uncorrect great revenue		1,473,030		
To adjust for unearned grant revenue Perspective Difference To close the Salary Stabilization Fund		-		
Excess (deficiency) of revenues and other sources over expenditures and other uses (GAAP basis)	\$	15,666,340		

5. Reconciliation of Budgetary Basis to GAAP Basis of Accounting for Non-Major Special Revenue Funds

On the Non-major Special Revenue Funds that adopt annual budgets, the same differences noted above exist between the actual data on a GAAP basis and actual data on the budgetary basis. A reconciliation of the resulting basis, timing, and entity differences in excess (deficiency) of revenues and other resources over expenditures and other uses for the year ended June 30, 2020, is presented below.

	Non-major Special Revenue			
Excess (deficiency) of revenues and other sources over				
expenditures and other uses (budgetary basis) - Non-Major Special Revenue Funds w/Budgets	\$	569,556		
Basis Difference				
To adjust for accrual of grant revenue		-		
To adjust for expenditures for unpaid invoices		(42,671)		
Entity Differences				
To record excess (deficiency) of revenues and other sources over expenditures				
and other uses for non-budgeted funds		-		
Excess (deficiency) of revenues and other sources over				
expenditures and other uses (GAAP basis) - All Non-Major Special Revenue Funds	\$	526,885		

6. Negative Net Position/Deficit Fund Balances

At June 30, 2020, none of the Sheriff's funds had negative Net Position or deficit fund balances other than the Group Health and Life Internal Service Fund, which had a negative net position of \$1,392,563, and the LED Sinking Fund, which had a deficit fund balance of \$213 at year end. This negative position resulted from current year losses in this internal service fund. Since this is an internal service fund, the negative net positions are absorbed (or covered) by the charges to other funds in the following fiscal year. For reporting purposes, this net position is consolidated into the current year activity at the Government-wide level.

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

1. <u>Deposits with Financial Institutions and Investments</u>

Deposits with Financial Institutions

The deposits at June 30, 2020, consisted of the following:

	Cash	ertificates If Deposit	Other		Total
Deposits in Bank Accounts per Balance Sheet	\$ 91,382,079	\$ - 9	15,5	550 \$	91,397,629
Bank Balances of Deposits Exposed to Custodial Credit Risk:					
A. Uninsured and uncollateralized	\$ -	\$ - 5		- \$	-
B. Uninsured and collateralized with securities held by the pladging institution	-	-		-	-
C. Uninsured and collateralized with securities held by the pledging institution's trust department or agent but not in the Sheriff's name	-	-		-	-
Total Bank Balances Exposed to Custodial Credit Risk	\$ -	\$ - 9		- \$	-
Total Bank Balances - All Deposits	\$ 93,432,416	\$ - 5		- \$	93,432,416

Petty cash is not required to be reported in the note disclosure; however, to aid in reconciling amounts reported on the Statement of Net Position to the amounts reported in this note, the Sheriff held \$15,550 in petty cash at June 30, 2020. Petty cash was in the General Fund and 911 Communications Fund. This makes up the Other Cash shown above.

Investments

Custodial Credit Risk

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent but not in the entity's name. The following table lists each type of investment exposed to custodial credit risk and the reported amount and fair value of all investments regardless of custodial credit risk exposure.

NOTE D – DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

				nts Exposed al Credit Risk		All Investments Regardless of Custodial Credit Risk Exposure			
Type of Investment		Uninsured, Inregistered, and Held by Counterparty	Uninsured, Unregistered, and Held by Counterparty's Trust Department or Agent but Not in the Entity's Name			Rep	Fair Value		
U.S. Instrumentalities Discount Notes	\$	11,437,951	\$		-	\$	11,437,951	\$	11,642,162
Municipal Bonds		4,374,558			-		4,374,558		4,494,643
Commercial Paper		2,403,156			-		2,403,156		2,418,249
Total Categorized Investments	\$	18,215,665	\$		_		18,215,665		18,555,054
Louisiana Asset Management Pool							11,935,459		11,935,459
Total Investments						\$	30,151,124	\$	30,490,513

As shown above, the Sheriff has investments in shares of the Louisiana Asset Management Pool (LAMP), a state sponsored external investment pool. Because these investments are not evidenced by securities that exist in physical or book entry form, they are not categorized for the purposes of this note. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local governments may participate in LAMP. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. The dollar weighted average portfolio maturity of LAMP is restricted to not more than 60 days, and consists of no securities with a maturity in excess of 397 days. The fair value of a share in LAMP is the same as the book value (i.e., a share in the pool is always worth \$1.00 per share).

Concentration of Credit Risk

The Sheriff's investment policy does not allow for an investment in any one issuer that is in excess of fifty percent of the Sheriff's total investments, with the exception of investments in LAMP or U.S. Treasury Securities, in which there are no limits. The following is a list of all investments of greater than 5 percent in a single issuer:

Issuer	% of To Amount Investme				
LAMP (State Pool)	\$ 11,935,459	39.1%			
US Treasury	6,182,148	20.3%			
FHLMC	1,836,554	6.0%			
JP Morgan SEC LLC	1,553,814	5.1%			
Issuers with Amounts Less Than 5 Percent	8,982,538	29.5%			
	\$ 30,490,513	100.0%			

NOTE D – DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

Credit Risk Investments

State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSRO's). It is the Sheriff's policy to limit its investments in these investment types to the top rating groups. State statutes also allow the Sheriff to invest in the Louisiana Asset Management Pool (LAMP). The following table lists the Sheriff's investments by credit quality rating, whether held directly or indirectly (i.e., LAMP):

S&P or Moody's Rating	 Fair Value		
AAAm	\$ 12,799,894		
AAA	779,239		
AA+	4,680,775		
AA-	976,218		
AA	3,004,055		
Aaa	6,182,148		
Aa3	514,370		
A1/P1	 1,553,814		
	\$ 30,490,513		

Interest Rate Risk

In accordance with the Sheriff's investment policy, exposure to declines in fair values is managed by limiting the maturity of its investments to less than 3 years. At June 30, 2020, the average number of days to maturity of investments held was 398 days.

Fair Value Disclosures

The Sheriff holds investments that are measured at fair value on a recurring basis and categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation input used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Sheriff had the following recurring fair value measurements:

- Level 1 Securities are valued using quoted market prices
- Level 2 Investments are valued using a matrix pricing model

The following table sets forth by level, within the fair value hierarchy, the Sheriff's fair value measurements at June 30, 2020:

Type of Security	Level 1	Level 2	L	evel 3	Total	_
Corporate Securities	\$ -	\$ -	\$	-	\$ -	_

NOTE D – DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

2. <u>Pooled Assets</u>

A reconciliation of pooled assets held in the General Pool at June 30, 2020 is presented below:

Pooled Assets	General Pool
Cash Investments Accrued Interest receivable Less: unallocated interest and fiscal charges Less: accounts payable	\$ 23,665,863 24,311,905 - (6,818) 173
Net Pooled Assets	\$ 47,971,123
Fund	Equity in Pool
Major Funds General Fund Communications Reserve Capital Project Fund Buildings and Improvements Capital Project Fund	\$ 39,835,914 1,677,213 79,933
Non-Major Funds Special Revenue Funds Debt Service Capital Project Funds	2,950,415 - 3,253,224
Internal Service Funds	-
Fiduciary - Agency Funds	174,424
Total Equity in Pool	\$ 47,971,123

A reconciliation of pooled assets held in the Bureau Pool at June 30, 2020 is presented below:

Pooled Assets	Bureau Pool				
Cash NSF recievables Less: unallocated interest and fiscal charges	\$ 49,962,801 218,892 (831,157)				
Net Pooled Assets	\$ 49,350,536				
Fund	Equity in Pool				
Tax Collector Agency Funds					
Miscellaneous Fees	\$ 394,098				
Criminal Cash Bonds	2,625,072				
\$15 Criminal Cash Fees	9,750				
Fines	2,296,704				
School Bus Safety Program	-				
Property Tax	6,029,133				
Sales Tax	37,995,779				
LA Offset	-				
Total Equity in Pool	\$ 49,350,536				

3. Reconciliation of Deposits and Investments to Fund Financial Statements

The carrying amount of the deposits and investments noted above are displayed on the fund financial statements as follows:

Fund/Pool	Cash and h Equivalents	Investments			
General Pool (See Footnote D.2) Buerau Pool (See Footnote D.2) - Agency Funds General Fund Major Governmental Funds Non-major Governmental Funds Internal Service Funds	\$ 23,665,863 49,962,801 3,875,449 6,151,029 658,202 4,888,474	\$	24,311,905 - - - - 5,839,219		
Fiduciary - Agency Funds	2,197,812		-		
Total (See Footnote D.1)	\$ 91,399,629	\$	30,151,124		

Since Agency Funds are not included in the government-wide statements, the deposit balances of \$91,397,629 shown above are reduced by \$52,160,612 (the amount of cash held in the Bureau Pool and in the Agency funds) and then increased by \$5,457,781 (the amount of cash held in the Agency Funds that are due to the Sheriff's office) to arrive at a cash balance of \$44,694,798. This is the amount of cash shown on the government-wide Statement of Net Position.

4. Receivables

Receivables at June 30, 2020 consist of the following:

		General	Ge	Major overnmental Funds	Other Governmental (Funds		Governmental		G	Total overnmental Funds		overnmental		Internal Service		Total

Criminal Investigations		32,267		
Special Investigations		39,440		
Narcotics		253,272		
Corrections		62,212		
Total Depreciation Expenses - Governmental Activities	\$	7,798,873		

A breakdown of the projects that had activity during the year is presented in the table below. The balance to complete represents the budgeted amount needed to complete each individual project, not necessarily how much additional funding is needed. The final actual number may vary depending on cost variances. The four projects are being funded with local (i.e. general) funds that have been set-aside in a capital projects fund.

6. Taxes Paid Under Protest

The unsettled balance due to taxing bodies and others at June 30, 2020 includes \$2,623,969.51 paid under protest. This amount represents protested sales taxes of \$1,849,962.51 and protested ad valorem taxes of \$774,007. If these taxes are refunded to the taxpayer, Louisiana Revised Statutes (LSA-RS 47:2110) require the Tax Collector to pay interest at 2 percent per annum on the amounts held. These funds are held in the Tax Collector Agency Fund pending resolution of the protest.

7. Operating, Maintenance Agreements and Leases

Operating and Maintenance Agreements

Under Parish Resolution No. 118115, dated December 15, 2011, the Sheriff is the administrator of the 911 Emergency Communications District, formerly run by the Parish. Effective January 1, 2012, the Sheriff took over the daily operations of the district. Under this agreement, the Parish continues to receive the 911 fees paid by citizens to their respective telephone companies. These fees are then remitted to the Sheriff in the month or quarter after collection. During 2020, the Parish collected and remitted \$7,489,336 in current fees to the Sheriff. This amount is recognized as intergovernmental revenues in the 911 Emergency Communications Special Revenue Fund (see Note D.13).

The 911 Emergency Communications District has a maintenance and support agreement with Tiburon, Inc. for the various components of the 911 Computer-Aided Dispatch (CAD) System. When the system was installed, the Parish deferred a portion of the cost to this maintenance program. For 2020, the 911 Emergency Communications District paid \$434,636 under this contract. The contract was renewed during 2017 for an additional five-year period. The following amounts are scheduled to be paid over the remaining two years under the new contract out of the 911 Emergency Communications District Special Revenue Fund. Should the district opt out of certain modules, the amount of maintenance and support may change.

	Scheduled
Fiscal Year	Maintenance Fees
6/30/2021	451,471
6/30/2022	474,045
	\$ 925,516

The 911 District VOIP-as-a-Service (VaaS) telecommunications system that has been implemented since 2016, was upgraded in during the fiscal year 2020. The upgrade provided new equipment and software for the VaaS system. Under this agreement, the 911 District does not own the telephone switches and equipment. Instead, it is subscribing for these services from the vendor (West Safety Solutions/Intrado Life & Safety Solutions) and is only required to pay a monthly service fee. Currently, the fee is \$23,450 per month, but the new upgrade decreased the monthly fee to \$23,000 per month. During 2020, the 911 District expensed \$211,050 on this contract.

As part of operating the 911 Emergency Communications District, the Sheriff is obligated to distribute a portion of the 911 funds to the Parish and other agencies as a reimbursement of 911-related operating costs. The Jefferson Parish Eastbank Fire Department is paid \$103,935 monthly to reimburse it for Fire Dispatcher costs. The City of Kenner and the City of Gretna are paid a monthly amount of \$17,583 and \$3,965, respectively, as reimbursement for maintaining back-up PSAP-stations. Effective January 1, 2014, an agreement was signed which calls for the 911 Emergency Communications District to reimburse the Sheriff's General Fund for the costs of providing call-takers and law enforcement dispatchers. This agreement provides for a reimbursement of actual costs not to exceed certain maximums set forth on a pay scale agreed to within the contract. On that same day, January 1, 2014, the Sheriff took over the responsibility of dispatching Emergency Medical Service (EMS) calls. A separate agreement also allows the Sheriff's General Fund to be reimbursed for EMS.

Dispatchers based on actual costs not to exceed certain maximums set forth on a pay scale agreed to within the contract.

The Sheriff's 911 Fund also has an agreement with the Sheriff to reimburse the Sheriff's General Fund for costs associated with assigning three computer technicians to the 911 District. Finally, the Sheriff's 911 Fund reimburses the Sheriff's General Fund for the cost of the 911 District Commander, that does not exceed certain maximums set forth within the agreement.

For 2020, the total amounts distributed under these agreements are as follows.

			Amount	
Agency	Purpose	D	istribute d	
				•
Sheriff's General Fund	911 Call-taker/Police Dispatch	\$	2,851,817	
Sheriff's General Fund	911 EMS Dispatch		278,487

Total Intergovernmental			1,505,803	•
				•
Total		\$	4,954,916	
				1

Operating Leases

The Sheriff has various operating leases for land, buildings, equipment and vehicles. A summary of the major leases is as follows:

The Sheriff leases office space for the Internal Affairs Division in an office building separate and apart from the Sheriff's other administrative offices. The lease was renewed on October 1, 2019 for 48 months (expires on September 30, 2023). The lease calls for monthly payments of \$3,885 (adjusted for inflation). Payments made under this lease totaled \$52,443 (which includes an annual allocation of overhead costs).

In connection with the 800 MHz radio system, the Sheriff is leasing an electronics room and rooftop antennae space in an Eastbank office high-rise. The current lease is for four years and expires on June 30, 2020. The lease calls for monthly payments of \$1,675 (adjusted for inflation) for the electronic room and \$3,000 for 13 antennae positions. Payments made under these leases totaled \$56,105 for the current fiscal year.

The master lease for copiers was renewed with Konica Copiers on March 22, 2020 and continues for three years and three months until June 23, 2023. The base rate under the new master lease is \$12,767 per month. There are several other individual machine leases separate and apart from this lease. The total amount paid during the fiscal year for all of these machines was \$272,382.

Finally, the Sheriff has entered into a variety of other operating leases for land, buildings, vehicles and equipment. Payments made under these leases totaled \$65,917 for the fiscal year ended June 30, 2020.

The combined minimum payments due under the various lease agreements are as follows:

Fiscal Year Ending:	Land	Buildings	Equipment	Total		
June 30, 2021		8,104	67,020	185,550	260,674	
June 30, 2022		8,104	67,020	165,783	240,907	
June 30, 2023		8,104	67,020	158,520	233,644	
June 30, 2024		4,051	23,655	-	27,706	
June 30, 2025		-	3,600	-	3,600	
Thereafter		-	-	-	-	
Total Minimum Lease Payments	\$	28,363	\$ 228,315	\$ 509,853 \$	766,531	

8. Long-Term Debt

Limited Tax Revenue Bonds

On August 1, 2008, the Law Enforcement District (LED) of Jefferson Parish sold \$30,000,000 in limited tax revenue bonds to fund various capital projects, including the construction of a new crime lab, three new district stations, and the replacement of the Bonnabel Boat Launch. The bond sale generated bond proceeds of \$30,004,604 with bond issuance costs totaling \$232,470. These funds were deposited into the Buildings and Improvements Capital Project Fund. The bonds are secured and payable from the revenues derived from the ad valorem tax levy of 8.28 mills and were originally to be paid back over 20 years, with an original final maturity date of September 1, 2028. The bonds were originally rated AAA by Standard and Poor's when sold.

On September 14, 2011, the Sheriff used available cash of \$18,516,181 in the General Fund to advance refund a portion of the outstanding LED Limited Tax Revenue Bonds, Series 2008. Specifically, the maturities from September 2021 through September 2028 were advance refunded. The cash was placed into an irrevocable trust with an escrow agent to provide for all future debt service payments on the defeased portion of the bonds. The money was used to purchase U.S. Government securities (SLGS), which will be used to pay the defeased bonds plus accrued interest when they mature. As a result, a portion of the LED Limited Tax Revenue Bonds were "defeased" and the liability for those bonds removed the Sheriff's outstanding debt. The defeased bonds were called for redemption on September 1, 2018.

The \$18,516,181 placed into escrow was made up of \$26,500 in bond issue costs, \$15,395,000 in future principal payments, and \$3,094,681 of money placed with the escrow agent to pay off future interest. In fiscal year 2012, on the Government-wide financial statements, the \$26,500 was expensed, the \$15,395,000 was shown as a reduction of outstanding revenue bonds payable on the Statement of Net Position, and the \$3,094,681 was shown as a "deferred charge" on the Statement of Net Position. For 2020, the amount of amortization on this deferred charge totaled \$197,319. This amount is shown on the Statement of Activities as interest expense in 2020.

The balance of unamortized deferred charges on this refunding totaled \$106,644 at June 30, 2020 and is reflected as a Deferred Outflow of Resources on the Statement of Net Position. This amount will be expensed, as follows, over the next several years as the defeased debt is paid off by the escrow agent.

	Amortization of					
Fiscal Year	Defe	rred C harge				
6/30/2021		106,644				
	\$	106,644				

The remaining bonds mature on September 1 of each year, with interest payable on March 1 and September 1, of each year. The outstanding bonds bear an interest rate that ranges from 4.00 to 5.00 percent. During the fiscal year, \$1,480,000 of principal and \$91,600 of interest and bank fees was paid. At June 30, 2020, \$1,550,000 is outstanding on these bonds and \$185 is available in the Debt Service Sinking Fund to service this debt. A recap of the outstanding bonds follows.

		New Final	Range of Annual Principal Payments			Original	I	Remaining
Type of Debt	Remaining Rates	Maturity Date	From		To	Amount Issued	o	Amount outstanding
LED Limited Tax Revenue Bonds, Series 2008	4.00 - 5.00%	9/1/2020	\$ 1,480,000	\$	1,550,000	\$ 30,000,000	\$	1,550,000

Capital Leases

In June 2017, the Sheriff entered into a capital lease with Motorola Solutions for the acquisition of 1,100 new APX6000 700/800 Mhz portable radios. The lease agreement qualifies as a capital lease for accounting purposes (bargain purchase options and/or present value of lease payments is greater than 90 percent of the asset cost) and, therefore, it has been recorded at the present value of the future minimum lease payments as of the date of its inception. The lease term is for 5 years at zero percent interest. The annual installment due under the lease is \$870,314 and the first installment was due on August 1, 2018. The purchase of the radio equipment has been capitalized into capital assets on the Government-wide financials, while the purchase was recorded as an expenditure in the Communications Reserve Capital Fund. Future minimum lease payments due under this capital lease are as follows:

APX Radio Lease						
	Principal		Interest			
	870,314		-			
	870,313		-			
	870,313		-			
\$	2,610,940	\$	-			
Paym	ents	\$	2,610,940			
	\$ Paym	Principal 870,314 870,313 870,313	Principal 870,314 870,313 870,313 \$ 2,610,940 \$			

Compensated Absences

Effective July 1, 2000, the Sheriff's annual and sick leave policy was revised to allow full-time employees earn (i.e., "vacation") leave at the rate of 12 to 20 days per year, according to the years of service. A maximum of 30 days can be carried forward from one fiscal year to the next. Upon separation, employees will be paid for no more than 10 days of accumulated leave.

Sick leave is accrued at the rate of 10 to 15 days per year, according to the years of service. Sick leave is granted in total at the beginning of the fiscal year or on a prorated basis upon beginning employment if hired during the year. Earned but unused sick leave can be carried from one fiscal year to the next; however, the maximum carryover is 45 days. Upon separation, an employee will not be paid for any accumulated sick leave.

Effective July 1, 2000, the sick leave policy was supplemented by a short-term disability policy. Under this policy, if an employee is sick for 30 consecutive days, he can apply for short-term disability, which will pay 66 2/3 percent of his current salary. The policy will pay the employee for 6 months. The cost of the disability policy is paid 100 percent by the Sheriff's General Fund.

The related pension costs associated with the future payment of compensated absences are computed at the rate of 23.00 percent. The accumulated liability as of June 30, 2020 is as follows:

	Amount			
Annual and Sick Leave	\$ 1,539,548			
Related pension costs	346,400			
Total	\$ 1,885,948			

The General Fund is where most, if not all, of the salaries of the Sheriff are recorded. Thus, the General Fund is where most of the liability for compensated absences is liquidated or paid from.

Debt Service to Maturity

Annual debt service to maturity on outstanding long-term debt, including interest, is as follows:

Fiscal Year Ending	Limited	onds		
June 30,	Principal	In	terest	Total
2021	1,550	0,000	31,000	1,581,000
Subtotal	1,550	\$ 000,000	31,000 \$	1,581,000
Add Amounts Representing Interest	31	1,000		
Total Debt	\$ 1,581	1,000		

Changes in Long-Term Liabilities

The following is a summary of the changes in general long-term obligations for the fiscal year ended June 30, 2020:

Type of Debt	J	Balance July 1, 2019	Additions	Deletions	Balance June 30, 2020]	Due Within One Year
Limited Tax Revenue Bonds	\$	3,030,000	\$ -	\$ (1,480,000) \$	1,550,000	\$	1,550,000
Capital Leases		3,481,254	-	(870,314)	2,610,940		870,314
Compensated Absences		1,727,701	3,600,744	(3,442,497)	1,885,948		1,885,948
Total OPEB Liability (See Note F.2)		38,319,146	3,932,627	(8,867,669)	33,384,104		-
Total Long-Term Debt	\$	46,558,101	\$ 7,533,371	\$ (14,660,480) \$	39,430,992	\$	4,306,262

Because most of the leave issued each year is used in the current fiscal year, the Sheriff considers the entire balance of compensated absences as due in less than one year. In addition, the total OPEB liability is related to future benefits and there are no plans to fund this liability in the near future. Thus, the government-wide Statement of Net Position includes the \$4,306,262 shown above as payable within one year and the remaining balance of \$35,124,730 is shown as due in more than one year. The General Fund will be used to liquidate the total OPEB liability.

9. Restrictions of Net Position and Fund Balance Components

The government-wide Statement of Net Position includes several restrictions on Net Position. The following describes these restrictions.

Net Position - Restricted for 911 Emergency Communications

This reserve of \$6,206,048 represents the funds restricted for the purpose of operating and maintaining the 911 Emergency Communications District. These funds are remitted to the Sheriff under a cooperative endeavor agreement with the Parish and can only be spent on 911 District activities.

Net Position - Restricted for Claims and Judgments

As discussed in Note E.1, the Sheriff is primarily self-insured for losses related to health, auto and professional liability claims. This reserve of \$1,738,914 reflects the balances held in the self-insurance internal service funds that are available to fund current and future claims. It should be noted that this balance is reported in the Auto Loss and General Liability Internal Service Fund at year-end. The balance in the Group Health and Life Fund is not reported in this category as it shows a deficit net position at year-end.

In accordance with GASB Codification Section 1800-142-162, fund balances of the governmental fund types are categorized into one of five categories – Non-spendable, Restricted, Committed, Assigned, or Unassigned. The Sheriff commits, restricts or assigns its fund balances to various specific purposes within each category. Descriptions of the details of these specific purposes are as follows:

Fund Balance – Restricted for 911 Emergency Communications Operations and Maintenance

This amount represents the funds restricted for the purpose of operating and maintaining the 911 Emergency Communications District. These funds are remitted to the Sheriff under a cooperative endeavor agreement with the Parish and can only be spent on 911 District expenditures. These funds are accounted for in a special revenue fund.

Fund Balance - Restricted for Debt Service

This amount represents the balance in the LED Debt Service Sinking Fund that is restricted to making principal and interest payments on the LED Limited Tax Revenue Bonds (See Note D.8).

Fund Balance - Assigned to Communications Projects and Equipment

This amount represents the funds assigned to the purpose of upgrading the Region 1 700 MHz radio/communications system and constructing a new Lafitte Communications Tower. These funds are accounted for in a capital projects fund.

Fund Balance - Assigned to Computer Equipment

This amount represents the funds assigned to the purpose of upgrading and replacing the Sheriff's inventory of computer equipment (laptops and PCs). These funds are accounted for in a capital projects fund.

Fund Balance - Assigned to Other Capital Projects

This amount represents the funds assigned to the purpose of constructing, upgrading or improving the Sheriff's facilities (other than those funded by the LED Limited Tax Revenue Bonds – see above restriction). There are a number of projects approved each year. These funds are accounted for in a capital projects fund.

Fund Balance – Assigned to Corrections

This amount represents the balance in the Commissary Sales Special Revenue Fund, which can be used for any purpose within the Jefferson Parish Correctional Center (typically operating costs, maintenance, and small capital outlay projects).

Fund Balance – Assigned to Contingencies

While the Sheriff does not maintain a minimum fund balance, it does maintain a "contingency" balance that has been set-aside for future emergencies (currently set at \$7,000,000).

Fund Balance - Assigned for Subsequent Year's Expenditures

The amount \$3,664,699 represents the amount of currently available fund balance budgeted in the subsequent year as a funding source, which is included as assigned fund balance at June 30, 2020.

Fund Balance - Assigned for Other Law Enforcement Purposes

These amounts represent the remaining fund balances in the specific Special Revenue, Debt Service or Capital Projects that have not been explained above. These fund balances are assigned for use in the purpose set forth in each governmental fund. Included in the various categories of fund balances are encumbrances that remained open at year end. In the General Fund, the assigned fund balance for Other law enforcement purposes is made up of open encumbrances totaling \$1,740,723.

Fund Balance - Unassigned

This amount is the residual classification for funds that have not been assigned to other funds and have not been restricted, committed or assigned to a specific purpose within the General Fund or any other governmental funds.

The specific purpose details of fund balance categories are recapped as follows:

	General	Major Governmental Funds	Other Governmental Funds	Total
Non-spendable	\$ -	\$ -	\$ -	\$ -
Restricted to:				
911 Emergency Communications	-	6,206,048	-	6,206,048
Debt Service		-	-	-
	-	6,206,048	-	6,206,048
Assigned to:				
Communications projects and equipment	-	1,677,213	-	1,677,213
Computer equipment	-	-	3,253,224	3,253,224
Other Capital Projects	=	78,404	=	78,404
Corrections	-	=	799,374	799,374
Contingencies (emergencies)	7,000,000	0 -	-	7,000,000
Subsequent year's expenditures	3,664,699	9 -	-	3,664,699
Other law enforcement purposes	1,740,723	3 25	2,757,765	4,498,513
	12,405,422	2 1,755,642	6,810,363	20,971,427
Unassigned	57,709,424	4 -	(213)	57,709,211
Total Fund Balance	\$ 70,114,846	6 \$ 7,961,690	\$ 6,810,150	\$ 84,886,686

10. <u>Interfund Transactions</u>

Interfund Receivables/Payables

Fund	Interfund Receivable	Interfund Payable		
General Fund	\$ 2,696,111	\$ -		
Major Funds				
Federal Grants Special Revenue Fund	-	593,383		
911 Communications Fund		414		
	_	593,797		
Other Governmental Funds				
Commissary Sales Special Revenue Fund	-	-		
Region 1 Communications O & M Special Revenue Fund	-	282,490		
Crime Lab Fees Special Revenue Fund	14,364	=		
State and Local Grants Special Revenue Fund	-	227,772		
LLEBG and JAG Grants Special Revenue Fund		120,797		
	14,364	631,059		
Total Governmental Funds	2,710,475	1,224,856		
Internal Service Funds				
Auto Loss and Professional Liability	-	106,260		
Group Health and Life Insurance		1,337,256		
	_	1,443,516		
Agency Funds				
Inmate Deposits		42,103		
		42,103		
Total All Funds	\$ 2,710,475	\$ 2,710,475		

Amounts due to the General Fund from the various Agency Funds are included in accounts receivable of the General Fund and in amounts due to taxing bodies and others in the Agency Funds in the Fund Financial Statements. The amounts included sales tax receivables, ad valorem taxes receivable, fines, commissions, interest, etc. These amounts (including the \$42,103 shown above an interfund payable in the Agency Funds) netted to \$5,457,746 and are eliminated in the conversion to the government-wide financial statements – See Note D.4.

Interfund Transfers

A summary of interfund transfers by fund type for the fiscal year ended June 30, 2020 is as follows:

Fund		1	ransfers In	Transfer Out	
General Fund	911 Emergency Communications	\$	3,449,113	\$ -	
	Communications Reserve Fund		-	870,315	
	Buildings and Improvement Capital Fund		-	700,000	
	Commissary Sales Fund		-	-	
	Federal Grants		-	100,373	
	State and Local Grants		-	-	
	LED Sinking Fund		-	1,571,600	
	Computer Equipment Capital Project		-	-	
	Auto Loss and General Liability Internal Svc		735,838	-	
	Group Health and Life Internal Svc		-	3,900,000	
			4,184,951	7,142,288	
Major Funds					
Federal Grants	State and Local Grants		-	1,047	
911 Emergency Communications	General Fund		-	3,449,113	
Federal Grants	Local Law Enforcement		-	5,257	
Federal Grants Special Revenue	General Fund		100,373	-	
Communications Reserve Fund	General Fund		870,315	-	
Buildings and Improvement Fund	General Fund		700,000	-	
			1,670,688	3,455,417	
Other Governmental Funds					
Local Law Enforcement	Federal Grants		5,257	-	
State & Local Grants	Federal Grants		1,047	-	
Drug Enforcement Fund	Junior Deputy Fund		-	-	
Junior Deputy Fund	Drug Enforcement Fund		_	-	
LED Sinking Debt Service	General Fund		1,571,600	-	
Computer Equipment Capital Project	General Fund		-	-	
			1,577,904	-	
Total Governmental Funds			7,433,543	10,597,705	
Internal Service Funds					
Auto Loss and Professional Liability			_	735,838	
Group Health and Life Insurance			3,900,000	-	
Group from and Dife insurance		_	3,900,000	735,838	
Total All Funds		\$	11,333,543	\$ 11,333,543	
TOTAL TAIL TURKS			11,333,343	v 11,333,343	

The principal purpose of each transfer is as follows:

- 1) The General Fund transferred \$700,000 to the Buildings and Improvements Capital Fund,
- 2) \$870,315 was transferred from the General Fund to the Communication Reserve Fund to pay for the lease of Motorola radios,
- 3) \$1,571,600 was transferred from the General Fund to the LED Sinking Fund to provide funds to pay the principal and interest due on long-term debt,
- 4) \$3,900,000 was transferred from the General Fund to the Group Health and Life Insurance Internal Service Fund as a one-time cash infusion into this fund to cover unanticipated losses,
- 5) The 911 Communications Special Revenue Fund transferred \$3,449,112 to the Sheriff's General Fund to reimburse it for 911 Call-Taker and Dispatchers salaries (as called for by an agreement with the District), and to reimburse the Sheriff for costs incurred on providing a computer support staff to the District,
- 6) Federal Grants cash matches totaled \$100,375 and
- 7) Auto Loss and Professional Liability Fund transferred \$735,838 to the Sheriff's General Fund for the maturity of an investment.

Interfund Elimination

On the Government-wide Financial Statements, all of the above noted interfund activity is eliminated including those balances due from the Fiduciary (Agency) funds. This is because the Fiduciary funds are not presented as part of the Government-wide Financial Statements. The amount due from the Agency funds is netted against receivables (See Note D.4).

11. Taxes and Commissions

Ad Valorem Tax

In lieu of a commission on ad valorem taxes collected by the Sheriff as Ex-Officio Tax Collector, the Sheriff levies an ad valorem tax on real property within the Parish. The levy is generally made as of November 15 of each year. The tax is then due and becomes an enforceable lien on the property, on the first day of the month following the filing of the tax roll by the Parish Assessor with the Louisiana Tax Commission (usually December 1). The tax is delinquent 30 days after its due date.

Ad valorem taxes are levied based on property values determined by the Jefferson Parish Assessor's Office (a separate entity). All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. A homestead exemption is in effect which essentially makes the first \$7,500 of assessed value exempt from taxes.

The number of mills levied on the 2019 and 2018 tax rolls was 8.28. This is the maximum amount allowed under prevailing statutes. Each year, the Parish Assessor assesses the value of property throughout the Parish. Once the property is reassessed, the taxing agencies issue their tax levy up to the amount authorized. For 2020, ad valorem tax collections totaled \$31,168,713, which included current tax collections of \$31,083,075 and back taxes (taxes from prior years) of \$85,637. These amounts are recognized as revenue in the Sheriff's General Fund.

Payments in Lieu of Taxes and Tax Abatements

As of June 30, 2020, the Sheriff provided tax abatements primarily through one program - the Payment in Lieu of Tax (PILOT) program. In addition, the State of Louisiana offers a number of programs that provide tax abatements within the Parish that the Sheriff operates in, including the Restoration Tax Abatement (RTA) Program, the Industrial Tax Exemption Program (ITEP), and the Enterprise Zone (EZ) Program. Details of each program follow.

The Sheriff enters into ad valorem (property) tax abatement agreements with local businesses through the Parish's economic development arm - the Jefferson Parish Economic Development and Port District (JEDCO). JEDCO is authorized under LRS 34:2021 et seq, as well as LRS 39:991 to 1001, inclusive, and other constitutional and statutory authority to acquire, own, lease, rent, repair, renovate, improve, finance, sell and dispose of facilities that are determined by JEDCO to be instrumental to the removal of blight, the redevelopment of distressed areas, or to promote economic development through the creation of jobs, or to enhance the tax base of Jefferson Parish through the construction, renovation, or rehabilitation of improvements, other than for public utility facilities. JEDCO utilizes a Payment in Lieu of Tax (PILOT) program, which includes a sale-leaseback agreement on targeted facilities whereby JEDCO, a political subdivision exempt from property taxes, takes title to the property and leases the property back to the business. Rent or lease payments are then made to the local governments in lieu of ad valorem (property) taxes on the property. The amounts of the payments under the agreements are negotiated between JEDCO and the business and can result in partial or total tax abatements. The payments are then made over an agreed-upon number of years (typically anywhere from 3 to 20 years). JEDCO typically sets dollar investment thresholds, as well as job creation or retention goals within the agreement. Failure to comply with these thresholds can affect the amount of tax abatement on a go forward basis.

There are currently four (4) active PILOT programs in the Parish. Payments received or due at June 30, 2020 under these PILOT agreements amounted to \$1,402,771 and were allocated to the following agencies:

		PILO T
Taxing Agency	P	ayments
Jefferson Parish	\$	854,538
Jefferson Parish School Board		343,054
Jefferson Parish Sheriff's Office		92,193
Jefferson Parish Coroner		16,814
East Jefferson Levee District		8,841
West Jefferson Levee District		87,331
	\$	1,402,771

The Restoration Tax Abatement (RTA) program is an economic development incentive created for
use by municipalities and local governments to encourage the expansion, restoration, improvement, and
development of existing commercial and residential properties in Downtown Development Districts,
Economic Development Districts, or Historic Districts.

The Parish has several eligible districts on both the east and west banks of the river. The program is authorized under LRS 47:4311-4319 and is administered by the Louisiana Department of Economic Development (LED). Abatements are obtained through application by the property owner, subject to approval by the Governor, the Louisiana Board of Commerce and Industry, and the local governing authority (i.e., the Sheriff), which includes proof that the property is in a targeted district and that the improvements have been made. The program allows the owner the right for five (5) years, to pay ad valorem taxes based on the assessed valuation of the property for the year prior to the commencement of the project. Thus, the RTA abatement is equal to 100 percent of the additional ad valorem (property) tax resulting from the increase in assessed value as a result of the improvements. The contract may be eligible for renewal, subject to the same conditions, for an additional five (5) years, if approved.

Under this program, the amount of the improvements (i.e., the "contract value") is not included in the tax assessment until the abatement period has ended and the property is assessed with the improvements taken into account. Because the Parish Assessor does not reassess the value of the property until the abatement period has expired, it is not possible to calculate the true amount of taxes abated in any one year. The amounts shown are the estimated maximum amount of taxes that would be abated if the full contract value as adjusted for depreciation were added to the assessed value (which would hardly ever be the case). The actual amount of taxes abated can be substantially less than what is noted. There were no new abatement contracts awarded in 2019 and at year end, there are 15 active RTA abatement contracts in the Parish.

The Industrial Tax Exemption Program (ITEP) is a full, 100 percent exemption from local ad valorem (property) taxes as authorized in the Louisiana Constitution of 1974, Article VII, Part 2, Section 21(F), as amended by the Governor's Executive Order No. JBE 2016-26. Participating companies are eligible to receive an initial five (5) year exemption, plus the opportunity for a five (5) year renewal, for a total of ten (10) years of full exemption from local property taxes. The program is available only to manufacturers. Manufacturing businesses are defined as those with a North American Industry Classification System (NAICS) code of 31, 32, or 33. General categories include food manufacturers and manufacturers of durable and non-durable goods. The types of specific businesses eligible to receive ITEP exemptions are varied, including fertilizer and pesticide manufacturers, petrochemical manufacturers, industrial equipment and machinery manufacturers, and even breweries. Up until now, Louisiana has had no job creation or capital investment thresholds required for eligibility. The exemption applies to all improvements to land, buildings, machinery, equipment, and any other property that is part of the manufacturing process. Maintenance capital (i.e., property replacements and refurbishments) is also eligible for the exemption. The land on which the manufacturing establishment is located is not eligible for the exemption. An advance notification of intent to apply for the tax exemption is filed with the Louisiana Office of Economic Development (LED) Office of Business Development. The LED then presents the application to the Louisiana Board of Commerce and Industry for review and approval. The applicant files an annual report with the Parish Assessor listing the exempted property so that it may be separately listed on the tax rolls.

While the ITEP program is still available and being used, the recent Governor's Executive Order has placed several limitations and new criteria on the ITEP program until the statute could be revisited. There were no new ITEP contracts awarded in 2019 and at year end, there are 200 active ITEP abatements in the Parish.

• The Enterprise Zone (EZ) program is a jobs program that gives tax incentives to a business hiring from certain specified targeted groups of individuals. The program is authorized under LRS 51:1787. Fifty (50) percent of the net new jobs created must be filled with individuals meeting one of the program's four certification requirements. The business does not need to be located in an Enterprise Zone, but merely creating additional jobs. Minimum qualifications require the business to create at least five (5) jobs within 2 years or to increase its nationwide workforce by 10 percent within one year, whichever is less. EZ incentives include income tax and corporate franchise tax credits at the state level, as well as partial sales/use tax rebates or refundable investment income tax credits on state and local sales taxes charged for construction materials, machinery and equipment during the stated project period. EZ incentives are in addition to other state-sponsored incentives, such as the ITEP or RTA program incentives. During 2019 and through year end, there were no companies claiming EZ refunds on local sales taxes from the Parish.

The amount of tax abatements granted during 2020 (which includes the 2019 property tax roll) under each program is as follows:

Source/Tax Abatement Program	Type of Tax	_	Total Amount of Taxes Abated		Sheriff's Share of Abated Taxes	
Parish/Local Abatements						
Payment in Lieu of Tax (PILOT) program	Ad Valorem	\$	1,402,771	\$	92,193	
State Level Abatements						
Restoration Tax Abatement (RTA) porgram	Ad Valorem		741,685	\$	50,592	
Industrial Tax Exemption Program (ITEP)	Ad Valorem		10,373,699	\$	684,957	
Enterprise Zone (EZ) program	Sales Tax		_	\$	_	

Sales Tax

The total sales tax levied and collected in Jefferson Parish during the fiscal year ended June 30, 2020 was 9 ¾ percent. Of this 9 ¾ percent, 5 percent is levied by the State, 1 ½ percent is levied by the Jefferson Parish Public School System (a separate entity), 3 percent is levied by the Parish of Jefferson (a separate entity), and ¼ percent is levied by the Sheriff (via the Law Enforcement District). Of the 3 percent levied by the Parish, ½ of one percent is dedicated to the Jefferson Parish Public School System and 1/8 of one percent is dedicated to the Sheriff to finance the operations of the Law Enforcement District. In January 2001, based on a parishwide election, the expiration date of the 1/8-cent tax was extended from 2011 to 2022. In April 2012, based on a parish-wide election, the ¼ cent Law Enforcement District sales tax was extended indefinitely (i.e., converted to a permanent tax).

Commissions

As Ex-Officio Tax Collector of the Parish of Jefferson, the Sheriff is responsible for the collection and distribution of ad valorem taxes, sales and use taxes, parish occupational licenses, state revenue sharing funds, sportsmen licenses, fines, costs and forfeitures imposed by the district courts. On all collections (other than ad valorem taxes), the Sheriff receives a "commission" ranging from 9 ½ to 15 percent of the amount collected. This funding mechanism was designed to provide a steady funding stream to the Sheriff so that the major taxing agencies in the Parish (the Parish, the School System, and the Sheriff) would not be competing against each other for tax dollars. Per the schedule below, the Sheriff received \$43,579,729 in commissions during 2020. After adjusting for accruals, the amount recognized in the General Fund as commission revenue in 2020 was \$43,258,811.

The schedules on the following pages detail the collection and distribution of the sales taxes, licenses and permits by agency. Also shown are the related commissions.

Tax/Distributed To	Sales Tax Rate		Collections		Comissions	Amount Paid

	\$ 484,013,307 \$	- \$	484,013,307

Per the schedule above, the Sheriff received a total of \$23,893,905 in taxes, licenses, permits and costs during 2020. After adjusting for accruals, the amount recognized in the General Fund as sales tax revenue in 2020 was \$23,725,786.

12. State Revenue Sharing

As the Ex-Officio Tax Collector, State Revenue Sharing funds provided by Article 7, § 26 of the State Constitution totaling \$8,298,578 were received during the year and distributed by the Tax Collector Agency Fund as follows:

Amount			
\$	421,376		
	97,076		
	3,722,788		
	1,781,376		
	1,294,158		
	705,604		
	276,200		
\$	8,298,578		

13. Service Charges and Fees

911 Fees

In accordance with LRS 33:9126, the Parish levies an emergency telephone service charge on the citizens of the Parish. These service charges are collected by the respective telephone service provider and remitted to the Parish either monthly or quarterly. The rates currently in effect are as follows:

Type of Service	Rate			
Wireline Business (Commercial Rate)	\$	2.07		
Wireline Residential		0.66		
Wireless Customers		1.26		
VOIP Customers		1.00		

Current year revenues for these 911 fees totaled \$7,489,336. This is the net of \$8,035,697 in remittances from the Parish, a reversal of prior year receivables of \$(2,070,758), and an accrual of current year receivables of \$1,524,397 (see Note D.4). The receivables result from some of the 911 service providers remitting on a quarterly or annual basis, rather than monthly.

14. Expenditures of the Sheriff's Office Paid by the Parish Council

The Jefferson Parish Council (a separate entity) provides the Sheriff with a certain amount of office space at no cost. Also, the operations of the 911 Emergency Communications District are co-located in the 911/Emergency Operations Center (911/EOC) with the Parish's Departments of Homeland Security and Telecommunications. The building is held in the name of the Parish. When the District was under the control of the Parish, the District paid for a substantial portion of the cost of the new 911/EOC Center, as well as an annex to the Parish's Parking Garage. In addition, the Parish holds title to the old facility.

The Sheriff is negotiating with the Parish administration on the amount of operating and maintenance costs the 911 District should be held accountable for. It is the Sheriff's opinion, that in lieu of the amounts paid by the 911 District for the new 911/EOC Building and the related Parish Government Parking Garage Annex, the 911 District should not pay any operating or maintenance costs on the new facilities. To date, the Sheriff's 911 Fund has paid \$-0- on these types of costs.

In addition, the Parish is required by State statutes to pay a certain amount of the Sheriff's operating expenses (primarily office utility costs). During the fiscal year ended June 30, 2020, the Parish paid \$211,058 of operating expenditures on behalf of the Sheriff. These expenditures are recorded on the books of the Sheriff and the reimbursement is shown as revenue in the General Fund.

NOTE E - CONTINGENCIES

1. Risk Management

The Statement of Net Position includes a liability for claims and judgments payable of \$9,102,026. This amount relates to the self-insurance activities of the Sheriff's Auto Loss and General Liability Program and its Group Health and Life program. A breakdown of this liability and a description of each program follows.

	aı	Auto Loss nd General Liability	oup Health and Life	Total
Claims and judgments payable	\$	5,955,322	\$ 3,146,704	\$ 9,102,026
Less: amount included in accounts payable		-	-	-
Total Claims and Judgements Payable	\$	5,955,322	\$ 3,146,704	\$ 9,102,026

Auto Loss and General Liability

The Sheriff is exposed to various risks of loss related to tort; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees and to the public; and natural disasters. To protect against these risks, the Sheriff participates in the Louisiana Sheriff's Risk Management Program (a public entity risk pool). Under this program, general/professional liability claims are covered by insurance at the rate of \$100,000 per claim; with an aggregate stop-loss of \$500,000 to \$750,000 (depending on the loss year). Excess liability coverage is in effect for losses reported up until August 31, 1990. No excess coverage is available for losses reported after that date, thus, once the aggregate is met, the Sheriff is completely self-insured on general and professional liability cases.

For auto claims, the Sheriff is self-insured for its claims reported during the year up to the "stop-loss" amount. Prior to January 1, 2004, the stop-loss amount was \$1,000,000 per accident. After January 1, 2004, the stop-loss was raised to \$1,750,000 per accident. Excess liability coverage for claims over the stop-loss amount up to \$4,000,000 (\$3,000,000 prior to January 1, 2004) is provided for through a commercial insurance carrier. No claims have exceeded either the \$1,000,000 or \$1,750,000 stop-loss amount for the past four years.

The costs of servicing the auto loss claims and making claim payments are accounted for in the Auto Loss and General Liability Internal Service Fund. The General Fund provides an "operating subsidy" to the fund to finance the claims expense. This subsidy is treated as an "inter-fund service" and, accordingly, is shown as an expenditure of the General Fund and revenue of the internal service fund. The amount of the subsidy is calculated with consideration given to recent trends in actual claims experience of the Sheriff and, beginning in 1996, a provision for catastrophic losses.

At June 30, 2020, the Auto Loss and General Liability Internal Service Fund had a net position of \$1,738,914, after accruing an estimated \$5,955,322 in claims and judgments payable (\$4,759,589 for auto loss and \$1,195,733 for professional liability). This includes liabilities for claims incurred but not reported of \$70,706 for auto claims and \$1,183,698 for professional liability claims. These liabilities are based on the requirements of GASB Codification Section C50-Claims and Judgments, which requires a liability for claims be recorded in information prior to the issuance of the financial statements indicated that it is probable and the loss can be reasonably estimated.

Loss development factors are used by management to estimate the ultimate liabilities, however, because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in exact amounts. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors.

Claims against the Sheriff totaled approximately \$2,309,656 during the current fiscal year. Of the current and prior year claims, the Sheriff estimates it has \$5,955,322 left to pay. The fund has assets of \$7,800,496 at June 30, 2020 available to pay these claims. Changes in the balances of claims and judgments payable during the past three fiscal years is as follows:

Fiscal Year	Claims Payable July 1,	Current Year Claims and Changes in Estimates	Claim Payments	Claims Payable June 30,
2017-18	7,154,151	4,224,464	(3,720,789)	7,657,826
2018-19	7,657,826	4,300,499	(4,851,151)	7,107,174
2019-20	7,107,174	2,309,656	(3,461,508)	5,955,322

Group Health and Life Insurance

The Sheriff provides health, accident and life insurance to its employees. Under this program, which is administered by a service agent, the Sheriff is self-insured for its claims reported during the year up to the "stop-loss" amount of \$250,000 per person. Contributions into the fund are made by the participating employees and are matched by the Sheriff based on the employee's classification. These interfund "premiums" are treated as an "inter-fund service" and are shown on the fund financial statements as an expenditure to the General Fund and revenue to the Internal Service Fund. Excess liability for claims over the stop-loss is provided for through a commercial insurance carrier.

For the 2020 claim loss year, only one claim exceeded the \$250,000 stop-loss amount. The claim totaled \$406,946, exceeding the \$375,000 "Lasered" threshold deductible by \$31,946 in excess of coverage. Any amount over the stop-loss amount will be reimbursed through our excess coverage. At June 30, 2020, a liability of \$3,146,704 has been accrued, which represents the amount of claims reported to the service agent but not yet paid and the amount of the claims incurred but not reported. The fund has assets of \$2,927,197 at June 30, 2020 available to pay these claims.

Changes in the balances of claims and judgments payable during the paid three fiscal years is as follows:

	Claims Payable	Current Year Claims and Changes in		Claims Payable
Fiscal Year	July 1,	Estimates	Claim Payments	June 30,
2017-18	770,041	15,656,130	(15,594,299)	831,872
2018-19	831,872	17,472,707	(16,740,559)	1,564,020
2019-20	1,564,020	24,327,509	(22,744,825)	3,146,704

2. Litigation

The Sheriff is named as a defendant in a number of lawsuits arising principally from claims related to automobile accidents, negligence, and discrimination. As discussed in Note E.1 above, the Sheriff is primarily self-insured with respect to claims of these types. The Sheriff's insurance department and it attorneys have reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the Sheriff and to arrive at an estimate, if possible, of the amount or range of potential loss to the Sheriff.

As a result of such review, loss contingencies, which could be reasonably estimated, have been categorized as "probable", "reasonably possible", and "remote", as defined in Governmental Accounting Standards Board Codification Section C50 – Claims and Judgments. Loss contingencies amounting to \$5,955,322 categorized as "probable" have been accrued in the Auto Loss and General Liability Internal Service Fund (see Note E.1 above).

3. Federal Assistance

The Sheriff participates in certain federal financial assistance programs. The programs have been audited in accordance with the Single Audit Act and OMB's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200). Audits of prior years have not resulted in any disallowance of costs; however, the grantor agency may provide for further examinations. Based on past experience, the Sheriff believes that further examinations would not result in any material disallowed costs.

Hurricane Katrina (1603-DR-LA)

The Sheriff incurred various emergency expenses (primarily on overtime and emergency supplies) related to Hurricane Katrina. In addition, several buildings and facilities owned by the Sheriff received storm damage. Most of these costs are eligible for reimbursement through the Federal Emergency Management Agency's (FEMA) Public Disaster Assistance program. To date, claims totaling \$10,255,089 have been filed with FEMA and "obligated". For the fiscal year ended June 30, 2020, \$151,000 was returned, bringing the total receipts to date to \$10,334,639, which includes administrative fees of \$86,276. At year end, there are several projects where money is due to the Sheriff and others that might indicate a refund to FEMA is due for previous over-payments. All of the work on these projects has been completed and the Sheriff is now working with the Governor's Office of Homeland Security (GOHSEP) and FEMA to close these project worksheets out. Upon closeout, the total amount of claims may ultimately be more or less than the amount noted due to various uncertainties (scope of loss, construction costs, etc.).

Hurricanes Gustav (1792-DR-LA) and Ike (1796-DR-LA)

On August 29, 2008, Hurricane Gustav struck just west of the New Orleans Metropolitan Area. Due to the severity of the storm, the New Orleans Metropolitan Area, including Jefferson Parish, was evacuated. While the widespread wind and flood damage that was experienced during Hurricane Katrina did not occur, there was minor to moderate damage in parts of the northern part of the Parish. The southern-most part of the Parish, including the community of Grand Isle, experienced severe damage. The Sheriff's facilities were spared any significant damage.

The Sheriff's Office provided emergency services before, during and after the Hurricane. Most of these costs are eligible for reimbursement through the Federal Emergency Management Agency's (FEMA) Public Disaster Assistance program. To date, claims totaling \$5,952,120 have been filed with FEMA. Because costs related to this disaster are being reimbursed at a 90% rate, only \$5,356,908 was recorded as a receivable. The difference of \$595,212 is considered a local match and was funded by the Sheriff. For the fiscal year ended June 30, 2020, \$6,841 was received, bringing the total receipts on this event to \$5,428,282. The net result is an unearned revenue balance of \$71,374. All work on these the projects have been completed as of the date of this report; however, the Sheriff is still working with the Governor's Office of Homeland Security (GOHSEP) and FEMA to close these project worksheets out and to collect the outstanding balance. Upon closeout, the total amount of claims may ultimately be more or less than the amount noted due to various uncertainties (scope of loss, construction costs, etc.).

On September 11, 2008, Hurricane Ike passed just south of the coast of Louisiana and struck the State of Texas. While the area was spared a direct hit, the southern parts of the Parish, including the communities of Grand Isle, Lafitte, Barataria, and Crown Point suffered significant damage from storm and tidal surges. Again, the Sheriff's facilities were spared any significant damage.

The Sheriff's office again provided emergency services before, during and after the Hurricane. Special task forces were deployed in the worst affected areas. Most of these costs are eligible for reimbursement through the Federal Emergency Management Agency's (FEMA) Public Disaster Assistance program. To date, claims totaling \$598,913 have been filed with FEMA. Because some of the costs related to this disaster are being reimbursed at less than a 100% rate, \$596,342 was authorized and \$594,377 was recorded as a receivable. The difference of \$1,965 is considered a local match and must be funded by the Sheriff. For the fiscal year ended June 30, 2020, no additional funds were received, bringing the total receipts on this event to \$594,377. The work on these projects has been completed and all of the eligible amounts due under this event have been paid; however, the Sheriff is still working with the Governor's Office of Homeland Security (GOHSEP) and FEMA to close these project worksheets out. Upon closeout, the total amount of claims may ultimately be more or less than the amount noted due to various uncertainties (scope of loss, construction costs, etc.).

Tropical Storm Lee (4041-DR-LA)

On September 1, 2011, Tropical Storm Lee passed just south of the coast of Louisiana. While the area was spared a direct hit, the southern parts of the Parish, including the communities of Grand Isle, Lafitte, Barataria, and Crown Point suffered significant damage from storm and tidal surges. Again, the Sheriff's facilities were spared any significant damage.

The Sheriff's office again provided emergency services before, during and after the storm. Most of these costs are considered eligible for reimbursement through the Federal Emergency Management Agency's (FEMA) Public Disaster Assistance program. To date, claims totaling \$134,016 have been filed with FEMA. Because the costs related to this disaster are being reimbursed at a 75 percent rate, only \$100,512 was recorded as a receivable. The difference of \$33,504 is considered a local match and must be funded by the Sheriff. For the fiscal year ended June 30, 2020, no additional funds were received, bringing the total receipts on this event to \$100,512. The work on these projects has been completed and all of the eligible amounts due under this event have been paid; however, the Sheriff is still working with the Governor's Office of Homeland Security (GOHSEP) and FEMA to close these project worksheets out. Upon closeout, the total amount of claims may ultimately be more or less than the amount noted due to various uncertainties (scope of loss, construction costs, etc.).

Hurricane Isaac (4080-DR-LA)

On September 1, 2012, Hurricane Isaac struck just west of the New Orleans Metropolitan Area. While the area was spared a direct hit, the southern parts of the Parish, including the communities of Grand Isle, Lafitte, Barataria, and Crown Point suffered significant water damage from storm and tidal surges. The entire metropolitan area also lost electricity for nearly 10 days due to falling trees and downed lines. The Sheriff's facilities were spared any significant damage and no claims were made.

The Sheriff's office provided emergency services before, during and after the storm. Most of these costs are considered eligible for reimbursement through the Federal Emergency Management Agency's (FEMA) Public Disaster Assistance program. To date, claims totaling \$3,465,480 have been filed with FEMA and "obligated". \$5,655 is scheduled to be de-obligated, leaving a claim total of \$3,459,825. Because the costs related to this disaster are being reimbursed at a 75 percent rate, only \$2,594,869 was recorded as a receivable. The difference of \$864,956 is considered a local match and was funded by the Sheriff. For the fiscal year ended June 30, 2020, no additional funds were received, bringing the total receipts on this event to \$2,594,869. All work on these the projects have been completed as of the date of this report; however, the Sheriff is still working with the Governor's Office of Homeland Security (GOHSEP) and FEMA to close these project worksheets out and to collect the outstanding balance. Upon closeout, the total amount of claims may ultimately be more or less than the amount noted due to various uncertainties (scope of loss, construction costs, etc.).

NOTE F - OTHER INFORMATION

1. Pension Plan

Employees of the Sheriff are provided with pensions through a cost-sharing, multiple-employer, defined benefit plan administered by the Louisiana Sheriff's Pension and Relief Fund (LSPRF). LSPRF is a state-wide public retirement system ("the System") for the benefit of sheriffs and their staffs, employees of the Louisiana Sheriff's Association, and employees of the fund, which is administered and controlled by a separate board of trustees. The System was established and provided for within LSA-RS 11:2171 of the Louisiana Revised Statutes.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Sheriff's Pension & Relief Fund, 1225 Nicholson Drive, Baton Rouge, LA 70802, by calling (225) 319-0500, or emailing "info@lsprf.com".

General Information about the Pension Plan

Plan Description/Benefits Provided

LSPRF administers a plan to provide retirement, disability, and survivor's benefits to eligible employees and their beneficiaries as defined in the plan. The age and years of creditable service (service) required in order for a member to receive retirement benefits are established by the plan and vary depending on the member's hire date, employer and job classification.

For members who became eligible for membership on or before December 31, 2011: Members with 12 years of creditable service may retire at age 55; members with 30 years of creditable service may retire regardless of age. The retirement allowance is equal to 3 1/3rd percent of the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of average final compensation. Active, contributing members with at least 10 years of creditable service may retire at age 60. The accrued normal retirement benefit is reduced actuarially for each month or fraction thereof that retirement begins prior to the member's earliest normal retirement date, assuming continuous service.

For members who became eligible for membership on or after January 1, 2012: Members with 12 years of creditable service may retire at age 62; members with 20 years of service may retire at age 60; members with 30 years of creditable service may retire at age 55. The benefit accrual rate for such members with less than 30 years of service is 3 percent; for members with 30 or more years of service, the accrual rate is 3 1/3rd percent. The retirement allowance is equal to the benefit accrual rate times the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of his average final compensation. Members with 20 or more years of service may retire with a reduced retirement at age 50.

For members whose first employment made them eligible for membership in the system began on or before June 30, 2006, final average compensation is based on the average monthly earnings during the highest 36 consecutive months or joined months, if service was interrupted. The earnings to be considered for each 12 month period within the 36 month period shall not exceed 125% of the preceding 12 month period.

For members whose first employment made them eligible for membership began after June 30, 2006 and before July 1, 2013, final average compensation is based on the average monthly earnings during the highest 60 consecutive months or joined months, if service was interrupted. The earnings to be considered for each 12 month period within the 60 month period shall not exceed 125% of the preceding 12 month period.

For members who became eligible on or after July 1, 2013, final average compensation is based on the average monthly earnings during the highest 60 consecutive months or joined months, if service was interrupted. The earnings to be considered for each 12 month period within the 60 month period shall not exceed 115% of the preceding 12 month period.

Disability Benefits

Eligibility requirements and benefit computations for disability benefits are provided for in the plan. A member is eligible to receive disability benefits if he has at least 10 years of creditable service when a non-service related disability occurs. There are no service requirements for a "service-related" disability. Disability benefits shall be the lesser of 1) a sum equal to the greatest of 45% of final average compensation or the member's accrued retirement benefit at the time of termination of employment due to disability, or 2) the retirement benefit which would be payable assuming continued service to the earliest normal retirement age. Members who become partially disabled received 75% of the amount payable for total disability.

Survivor Benefits

Survivor benefits for death solely as a result of injuries received in the line of duty are provided by the Plan and are based on the following: For a spouse alone, a sum equal to 50% of the member's final average compensation with a minimum of \$150 per month. If a spouse is entitled to benefits and has a child or children 18 years of age (or over said age if physically or mentally incapacitated and dependent upon the member at the time of his death), an additional sum of 15% of the member's final compensation is paid to each child with total benefits paid to spouse and children not to exceed 100%.

If a member dies with no surviving spouse, surviving children under the age of 18 will receive monthly benefits of 15% of the member's final average compensation up to a maximum of 60% of final average compensation, if there are more than 4 children. If a member is eligible for normal retirement at the time of death, the surviving spouse receives an automatic option 2 benefit. The additional benefit payable to children shall be the same as those available for members who die in the line of duty. In lieu of receiving option 2 benefits, the surviving spouse may receive a refund of the member's accumulated contributions. All benefits payable to surviving children shall be extended through age 22 if the child is a full-time student in good standing enrolled at a board approved or accredited school, college, or university.

Back-Deferred Retirement Option Plan (Back-DROP)

LSPRF does provide for deferred benefits for vested members who terminate before being eligible for retirement. Benefits become payable once the member reaches the appropriate age for retirement. LSPRF provides a "Back-Deferred Retirement Option Plan (Back-DROP). In lieu of receiving a service retirement allowance, any member of the fund who has more than sufficient time for a regular service retirement may elect to receive a "Back-DROP" benefit. The Back-DROP benefit is based upon the period selected and the final average compensation prior to the selected period. The Back-DROP period is the lesser of 3 years or the service accrued between the time a member first becomes eligible for retirement and his actual date of retirement. For those individuals with 30 or more years, the Back-DROP period is the lesser of 4 years of service accrued between the time a member first becomes eligible for retirement and his actual date of retirement.

At retirement, the member's maximum monthly retirement benefit is based upon his serviced, final average compensation, and plan provisions in effect on the last day of creditable service immediately prior to the commencement of the Back-DROP period. In addition to the monthly benefit at retirement, the member receives a lump-sum payment equal to the maximum monthly benefit as calculated above, multiplied by the number of months in the Back-DROP period. In addition, a member's Back-DROP account will be credited with employee contributions received by the fund during the Back-DROP period. Participants have the option to opt out of this program and take a distribution, if eligible, or to rollover the assets to another qualified plan.

Cost of Living Adjustments

Cost of living provisions for the LSPRF allow the board of trustees to provide an annual cost of living increase of 2.5% of the eligible retiree's original benefit if certain funding criteria are met. Members are eligible to receive a cost of living adjustment once they have attained the age of 60 and have been retired at least one year. Funding criteria for granting cost of living adjustments is dependent on the funded ratio.

Contributions

In accordance with State Statute LRS 11:103, contribution requirements for all employers are actuarially determined each year. The actuarially determined employer contribution rate for June 30, 2019 was 12.25% as was the actual employer contribution rate. Therefore, no additional contribution was allocated to the Plan's Funding Deposit Account.

The actual rate differs from the actuarially required rate due to state statutes that require the contribution rate be calculated and set two years prior to the year effective and the Board's decision to use surplus employer contributions to reduce future normal cost accrual rates.

For the year ended June 30, 2020, the contractually required composite contribution rate was 12.25% of annual payroll. The employee's rate is 10.25 per cent (effective July 1, 2013). For those employees hired before July 1, 1999, the Sheriff contributes 7.00 percent of the employee's 10.25 percent share and the employee contributes 3.25 percent. For those employees hired after July 1, 1999, the employee is responsible for the entire 10.25 percent.

Also in accordance with State Statutes, the LSPRF received ad valorem taxes, insurance premium taxes, and state revenue sharing funds from various agencies. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not consider special funding situations. Non-employer contributions are recognized as revenue by the fund and are excluded from pension expense for the year. The Sheriff's proportionate share of these non-employer contributions totaled \$4,341,925 during the measurement period. This amount is recognized in the government-wide financial Statements as On-Behalf Payments from Contributing Entities and is included in operating grants and contributions on the Statement of Activities.

Employer and employee contributions to LSPRF for fiscal year 2020 were as follows:

					Percent of
				Covered	Covered
Source		Amount		Payroll	Payroll
Employee	\$	7,042,567	\$	68,707,996	10.25%
Employer	Ψ	8,411,191	Ψ	68,707,996	12.25%

In addition to the required employer contributions shown above, the Sheriff paid \$939,083 of the employee's required contributions for those employees hired prior to July 1, 1999, which equates to 7.0% of their 10.25% contribution rate. This brings the Sheriff's total payment to the LSPRF during 2020 to \$9,350,274.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2020, the Sheriff reported a liability of \$48,484,630 for its proportionate share of the LSPRF Net Pension Liability (NPL). The NPL for LSPRF was measured as of June 30, 2019, and the total pension liability used to calculate the NPL was determined based on an actuarial valuation as of that date. The Sheriff's proportion of the NPL was based on a projection of the Sheriff's long-term share of contributions to the pension plan relative to the projected contribution of all participating employers, actuarially determined. As of June 30, 2019, the most recent measurement date, the Sheriff's proportion was 10.249954%, a decrease of 0.155108 from the June 30, 2018 proportion.

For the year ended June 30, 2020, the Sheriff recognized a total pension expense of \$14,527,050. This amount was made up of the following:

Components of Pension Expense	Amount
Sheriff's pension expenses per the LSPRF	\$ 13,311,964
Sheriff's amortization of its change in proportionate share	202,100
Sheriff's amortization of actual contributions over its	
proportionate share of contributions	(15,990)
Employee contributions paid for by the Sheriff	1,028,976
Total Pension Expense Recognized by Sheriff	\$ 14,527,050

At year end, the Sheriff reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description		Deferrred Outflows Resources	0	Deferred Inflows f Resources
a)	Differences between expected and actual experience	\$ -	\$	9,288,671
b)	Changes in assumptions	14,817,586		-
c)	Net difference between projected and actual earnings			
	on pension plan investments	1,744,741		-
d)	Changes in proportion to NPL	1,303,671		704,079
e)	Differences between the Sheriff's contributions and			
	its proportionate share of contributions	-		37,355
f)	Sheriff's contributions subsequent to the June 30, 2019			
	measurement date	9,318,376		-
		\$ 27,184,374	\$	10,030,105

Deferred outflows of resources related to pensions resulting from the Sheriff's contributions subsequent to the measurement date (\$9,318,376) will be recognized as a reduction of the LSPRF NPL in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, which net to \$7,835,893 will be recognized in pension expense as follows:

Fiscal Year Ended June 30,	_	Amount of mortization
2021	\$	3,108,293
2022		(1,378,595)
2023		2,289,598
2024		2,995,556
2025		821,041

Actuarial Assumptions

The total pension liability for LSPRF in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurements:

Description	Assumptions/Methods
Valuation Date	June 30, 2019
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Investment Rate of Return	7.10%, net of investment expense
Discount Rate	7.10%
Projected Salary Increases	5.5% (2.50% inflation and 3.0% merit)
Mortality Rates	RP-2000 Combined Healthy with Blue Collar Adjustment Sex Distinct
	Table for active members, healthy annuitants, and beneficiaries.
Mortality Rates - Disabled	RP-2000 Disabled Lives Mortality Table for disabled annuitants
Expected Remaining Sevice Lives	2019 - 6 yrs, 2018 - 6 yrs, 2017 - 7yrs, 2016 - 7yrs, 2015 - 6yrs,
	2014 - 6 yrs
Cost of Living Adjustments	The present value of future retirement benefits is based on
	benefits currently being paid by the LSPRF and includes previously
	granted costs of living increases. The present values do not
	include provisions for potential future increases not yet authorized
	by the Board of Trustees, as they were deemed not to be
	substantively automatic.

The long-term expected real rate of return was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic/geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Asset Allocation	Real Return Arithmetic Basis	Long-term Expected Real Rate of Return
Equity Securities	62.0%	7.1%	4.4%
Bonds	23.0%	3.0%	0.7%
Alternative Investments	15.0%	4.6%	0.6%
Totals	100.0%	· •	5.7%
Inflation			2.4%
Expected Arithmetic Rate of Return			8.1%

Discount Rate. The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates and that employer contributions from participating employers will be made at actuarially determined rates approved by PRSAC, taking into consideration the recommendation of the LSPRF's actuary. Based on those assumptions, the LSPRF's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share the NPL to Changes in the Discount Rate. The following presents the Sheriff's proportionate share of the NPL using the current discount rate of 7.10%, as well as what the Sheriff's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage higher than the current rate.

	Current						
		1.0% Decrease 6.10%		Discount Rate 7.10%		1.0% Increase 8.10%	
Sheriff's Proportionate Share of the Net Pension Liability	_\$_	101,388,773	\$	48,484,630	\$	3,960,969	

Pension Plan Fiduciary Net Position. Detailed information about LSPRF's fiduciary net position is available in the separately issued 2019 financial report. This report can be found on the Louisiana Legislative Auditor's website (www.lla.la.gov) in the database of reports under Control No. 72140763 – Louisiana Retirement Systems – Sheriffs.

Payables to the Pension Plan. At June 30, 2020, the Sheriff had \$-0- in payables to LSPRF for the June 2020 employee and employer legally required contributions.

2. Other Post-Employment Benefits (OPEB)

Plan description

The Jefferson Parish Sheriff's Office (the Sheriff) provides certain continuing health care and life insurance benefits for its retired employees. The Jefferson Parish Sheriff's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Sheriff. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Sheriff. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board (GASB) Statement No. 75.

Benefits Provided

Medical benefits are provided through a self-insured medical plan and are made available to employees with at least fifteen years of service upon actual retirement. Employees are covered by a retirement system with the following retirement (D.R.O.P. entry) provisions: attainment of age 30 years of service at any age, or age 55 and 12 years of service. For employees hired on or after January 1, 2012, the retirement (D.R.O.P. entry) provisions are as follows: attainment of age 55 and 30 years of service; age 60 and 20 years of service; or, age 62 and 12 years of service.

The life insurance amounts in force while employees are active are reduced by 50% upon retirement. Life insurance amounts are further reduced by a reduction formula as follows: amounts are reduced by 35% at age 65, reduced by 50% at age 70 and reduced by 65% at age 75. The retiree pays 100% of the "cost" for post-retirement life insurance,

but it is only a partially unblended rate and there is thus an implied subsidy by the employer. That partially unblended rate has been completely "unblended" using the mortality table assumption in this valuation as a benchmark (described above under "Mortality") to determine the actual cost borne by the employer. The employer actually pays an implicit subsidy for the post-retirement life insurance which is more than the rate paid by the retiree.

Employees covered by benefit terms

At July 1, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	218
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,449
	1,667

Total OPEB Liability

The Sheriff's total OPEB liability of \$33,384,104 was measured as of July 1, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.50%

Salary increases 3.0%, including inflation

Discount rate 2.21%, net of OPEB plan investment expense, including inflation

Healthcare cost trend rates Flat 5.5% for 10 years and 4.5% thereafter

The discount rate was based on the average of the Bond Buyers' 20 Year General Obligation municipal bond index over the 52 weeks immediately preceding the applicable measurement dates.

Mortality rates were based on the RP-2014 Mortality Tables, without projection.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2020.

NOTE F – OTHER INFORMATION (CONTINUED)

Changes in the Total OPEB Liability

Balance at June 30, 2019	\$ 38,319,146
Changes for the year:	
Service cost	490,507
Interest	1,311,595
Differences between expected and actual experience	(7,177,653)
Changes in assumptions	2,130,525
Benefits payments, net transfers, and direct expenses	(1,690,016)
Net changes	(4,935,042)
Balance at June 30, 2020	33,384,104

Sensitivity of the total OPEB liability to changes in the discount rate – The following presents the total OPEB liability of the Sheriff, as well as what the Sheriff's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.21 %) or 1-percentage-point higher (3.21%) than the current discount rate:

	1	.0% Decrease	Curren	t Discount Rate	1.0% Increase
		(1.21%)		(2.21%)	(3.21%)
Total OPEB liability	\$	39,702,744	\$	33,384,104	\$ 28,453,234

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates – The following presents the total OPEB liability of the Sheriff, as well as what the Sheriff's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.5%) or 1-percentage-point higher (6.5%) than the current healthcare trend rates:

	1	.0% Decrease (4.5%)	 rent Discount Rate (5.5%)	1.0% Increase (6.5%)	
Total OPEB liability	\$	29,881,813	\$ 33,384,104	\$ 37,838,047	

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the Sheriff recognized OPEB expense of \$1,306,535. At June 30, 2020, the Sheriff reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	De	ferred Inflows
		C	f Resources
Differences between expected and actual experience	\$ 4,290,680	\$	(6,541,733)

NOTE F – OTHER INFORMATION (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending	
June 30	Expense
2021	(495,567)
2022	(495,567)
2023	(495,567)
2024	(495,567)
2025	(495,567)
Thereafter	226,782

3. <u>Deferred Compensation Plan</u>

The Sheriff offers his employees a deferred compensation plan (the "plan") created in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to all employees, permits them to defer a portion of their salary until further years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

In 1996, the U.S. Congress passed the Small Business Job Protection Act of 1996, which requires that employer governments place all amounts deferred until IRC Section 457 into a trust for the exclusive benefit for participants and their beneficiaries. This change was allowed as early as January 1, 1997, but must have been done by January 1, 1999. In prior years, these assets were solely the property of the Sheriff and subject to claims of the Sheriff's general creditors, and were reported in the Sheriff's financial statements. During the fiscal year ended June 30, 1998, the Sheriff amended its plan to comply with the requirements of the Act. Thus, the Sheriff no longer has ownership of the plan assets and they are no longer reported in the Sheriff's financial statements. Investments are managed by the Plan's trustee (Nationwide Retirement). The choice of the investment option(s) is made by the Plan participants.

4. Uncertainties

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern", and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had, and are expected to continue to have, an adverse impact on the economies and financial markets of many countries, including the geographical area in with JPSO operates.

On March 27, 2020, the CARES Act was enacted to, amongst other provisions, provide emergency assistance to those affected by the coronavirus pandemic. The Sheriff received approximately \$16.5 million in funding which is included in intergovernmental revenue on the general fund statement of revenues, expenditures, and changes in fund balance.

It is unknown how long these and any other adverse conditions associated with the coronavirus will last and what the complete financial effect will be to JPSO.

5. Accounting and Reporting Pronouncements

The GASB issued Statement No. 84, *Fiduciary Activities* in January 2017. In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, postponing the effective date of Statement No. 84 to reporting periods beginning after December 15, 2019.

The GASB issued Statement No. 87, *Leases* in June 2017. In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, postponing the effective date of Statement No. 87 to reporting periods beginning after June 15, 2021.

The GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements in May 2020. The Statement is effective for fiscal years beginning after June 15, 2022.

The GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans in June 2020. The requirements of this Statement related to the accounting and financial reporting for Internal Revenue Code Section 457 plans are effective June 15, 2021.

Salary Increases 3.0% Annually

Retirement Age 6 years after the attaiment of 30 years of service at any age;

or, age 55 and 12 years of service; or, age 65 and 7 years of service; employees hired on and after 1/1/2012: age 55 and 30 years of service; or, age 60 and 20 years of service;

or, age 62 and 12 years of service.

Mortality RP-2014 without projection.

Turnover Age specific table with an average of 11% when applied to

the active census.

38% of retirees are assumed to decline retiree medical and

Decline rate 7.2% decline retiree life.

This schedule is intended to show information for ten years. Additional years will be displayed as they become available.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

COMBINING STATEMENTS NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

COMMISSARY SALES FUND

The Commissary Sales Fund provides a concession service for the inmates of the Parish prison. All profits are used for the benefit of the inmates and prison needs not available from other sources.

USPS ASSET FORFEITURE FUND

Under the U.S. Postal Service, the Sheriff participates in the "Equitable Sharing of Federally Forfeited property" program. Under this program, the Sheriff receives 90 percent of proceeds collected from contraband property seized during law enforcement activities. The proceeds are used exclusively for law enforcement activities.

STATE ASSET FORFEITURE FUND

Under State statute LSA RS 32:1550, the Sheriff receives 60 percent of the proceeds of contraband seized in cooperation with state/local law enforcement officials. The proceeds are used exclusively for law-enforcement activities.

RUDE PROGRAM

The RUDE Program (Round Up for Drug Enforcement) allows Jefferson Parish citizens to round up with water bills to the nearest whole dollar. The money collected by the Parish Water Department and remitted to the Sheriff to be spent on drug enforcement.

WIDOWS AND ORPHANS

The Widows and Orphans Fund receives contributions from the public. The proceeds are used to benefit widows and orphans of deputies killed in the line of duty.

RECREATION AND RELIEF FUND

The Recreation and Relief Fund provides a vending machine service for the Sheriff's Office. Profits from this fund are used for the benefits of employees, such as equipment for athletic teams and awards for meritorious service.

DEPUTY SCHOLARSHIP FUND

The Deputy Scholarship Fund receives contributions from various civic groups and other non-profit organizations. Educational expenses of deputies are paid from this fund.

REGION 1 COMMUNICATIONS O & M

This fund was set up to account for the operating and maintenance costs of the Region 1 Communications Network. This network includes the Parish of Jefferson, Orleans, Plaquemines, and St. Bernard and provides inter-operable communications to the four parish region. The costs are reimbursed by the State of Louisiana and through various grants and appropriations.

RESERVE DEPUTIES OPERATING FUND

This fund was set up to account for funds generated by our reserve division from working details and other events. The funds are restricted for their use in their operations.

CRIME LAB FEES FUND

This fund was set up to account for funds generated by our crime lab division from working cases outside of the Sheriff's Office. The funds are restricted for their use in the operations and maintenance of the crime lab.

COMBINING STATEMENTS NON-MAJOR GOVERNMENTAL FUNDS (CONTINUED)

DRUG ENFORCEMENT FUND

Under the U.S. Departments of Justice and Treasury, the Sheriff participates in the "Equitable Sharing of Federally Forfeited property" program. Under this program, the Sheriff receives 90 percent of proceeds collected from contraband property seized during law enforcement activities. The proceeds are used exclusively for law enforcement activities.

MULTI-JURISDICTIONAL TASK FORCE

To account for the proceeds of various federal grants received through the Louisiana Commission on Law Enforcement to assist in narcotics investigations.

PROJECT INCOME

To account for the project income generated by the Multi-Jurisdictional Task Force Grant. These funds can only be expended on costs similar to those allowable under the grant.

STATE AND LOCAL GRANTS

This fund accounts for various State and Local grants received by the Sheriff. Currently, there are grants for an upgrade to the Parish's 911 CAD System and our ARMMS System and two grants from the Parish Council for neighborhood watch cameras.

LOCAL LAW ENFORCEMENT BLOCK GRANT PROGRAM

This fund accounts for the proceeds of the Local Law Enforcement Block Grant program received directly from the U.S. Department of Justice. The successor to the block grant program is the Edward Byrne Memorial Justice Assistant Grant program (JAG). These grants are also accounted for in this fund. The funds are expended/distributed in accordance with the projects agreed to by the local law enforcement agencies.

DEBT SERVICE FUNDS

Debt Service Funds are used to account for all resources and expenditures in connection with the servicing of the Sheriff's general long-term debt.

LED SINKING FUND

To account for the payment of principal and interest on the 2008 LED Limited Tax Revenue Bonds.

CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for all resources and expenditures in connection with the construction or acquisition of major capital facilities, structures and equipment

COMPUTER EQUIPMENT

To account for the accumulation of funds to purchase and/or upgrade the various PCs, laptops, and servers used by the Sheriff.

COMBINING STATEMENTS INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the Sheriff's self-insurance funds which provide insurance coverage for all of the Sheriff's risks of loss.

AUTO LOSS AND GENERAL LIABILITY FUND

This fund provides coverage for property damage and personal injury cases caused by employees of the Sheriff. Limited coverage is provided through participation in the Louisiana Sheriff's Risk Management Program (a public entity risk pool). This program provides coverage on professional liability cases at the rate of \$100,000/claim \$500,000/aggregate. For amounts in excess of this coverage, the Sheriff is self-insured. For auto loss claims, the Sheriff is self-insured up to \$1,750,000 per accident. Excess liability coverage is in effect for all claims over \$1,750,000, but not exceeding \$4,000,000. All claims are accounted for in this fund.

GROUP HEALTH AND LIFE INSURANCE FUND

This fund pays medical and dental claims of the Sheriff's employees and their covered dependents. The Sheriff does have a re-insurance policy with a private carrier which provides "stop-loss" coverage. Funding comes from the Sheriff's General Fund and from charges for premiums collected from employees.

COMBINING STATEMENTS AGENCY FUNDS

Agency Funds are used to account for assets held by the Sheriff as an agent for individual, private, organizations, other governments and/or other funds.

TAX COLLECTOR FUND

Article V, Section 27 of the Louisiana Constitution of 1974 provides that the Sheriff will serve as the Ex-Officio Tax Collector of the state and parish taxes and fees levied within the parish boundaries. This fund is used to collect and distribute these taxes and fees to the appropriate taxing bodies. The sub-funds within the Tax Collector include:

- Miscellaneous Fees used to collect any miscellaneous fees or charges not collected in another Tax Collector Fund
- > Criminal Cash Bonds used to collect fees and costs associated with criminal cash bonds posted through the Jefferson Parish Correctional Center.
- > \$15 Criminal Justice Fees used to account for the \$15 Criminal Justice Fee that is collected and disbursed to certain entities as per state statute.
- > Fines used to collect any and all fines, fees, or court costs associated with traffic tickets or other fines imposed by the Parish.
- > Traffic Camera Fines used to collect fines related to the Redflex traffic light photo-enforcement program.
- > School Bus Safety Program used to account for fines related to the School Bus Safety program (on board traffic cameras).
- > Property Tax used to account for any and all collections related to property taxes levied within the Parish.
- > Sales Tax used to account for any and all collections related to sales and use taxes levied within the Parish.
- > LA Offset used to account for garnishments levied by the Parish Courts against tax returns to pay for past-due fines and fees.

PAYMENT IN LIEU OF TAXES

This fund is used as a depository for collections of "Payments in Lieu of Taxes" or PILOTS. The Parish of Jefferson and/or its economic development arm (the Jefferson Economic Development Corporation - JEDCO) has entered into agreements with private companies to forgo portions of their taxes in exchange for locating in the Parish or creating jobs in the Parish. Distributions from the fund are made to various parish agencies in the manner prescribed by the PILOT agreements.

SHERIFF'S ACCOUNT

This fund is used as a depository for collections of civil suits, Sheriff's sales, successions, garnishments, and redemptions. Distributions from the fund are made to various parish agencies and litigants in suits in the manner prescribed by law.

INMATE DEPOSIT FUND

This fund is used to account for individual prisoner account balances while in custody of the Jefferson Parish Correctional Center. Funds are deposited in the name of the prisoner and payable upon written request. Balances in the individual prisoner accounts are returned upon termination of jail sentence.

PROPERTY AND EVIDENCE

This fund is used to account for monies found by individuals and subsequently turned over to the Sheriff's Office until claimed.

NOTES TO SCHEDULE:

1) Basis of Presentation

The schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Sheriff under programs of the federal government for the year ended June 30, 2017. the information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Sheriff, it is not intended to and does not present the financial position, changes in net assets, or each flows of the Sheriff.

Summary of Significant Accouting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounti Such expe res are rec ized following, as applicable, either the cost principles of OMB Circular A-87, Cost Principles for Stat ocal, and In Tribal Gaments, or the cost principles in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reportede as expenditures in prior years. The Sheriff has not elected to use the 10 percent de minimis indirect cost rate.

JEFFERSON PARISH SHERIFF'S OFFICE

TAXROLL STATUS REPORT - 2019 TAX ROLL YEAR AS OF JUNE 30, 2020

Per the above schedule, approximately 1.13 percent of the total tax levy has yet to be collected. Reasons for not collecting total roll include:

- > Adjudications
- > Bankruptcies
- > NSF payments
- > Dual assessments
- > Assessments under review by the Louisiana Tax Commission
- > Insufficient notice on tax sale
- > Business dosed
- > Pending court cases

The Sheriff continues to make collections on this tax roll as the above noted items are resolved.

Conference Travel (Airfare, Lodging, Conference Expenses)	-	(7)
Continuing Professional Education Fees	-	
Housing	-	
Unvouchered Expenses	-	
Special Meals	-	

Notes to Schedule:

- (1) The Sheriff's salary is set by state statutes and includes a 10% expense allowance.
- (2) The Sheriff is a member of the Louisiana Sheriff's Pension and Relief Fund, as are all full-time employees of the Sheriff's Office. The employer contribution rate for 2020 was 12.25% of eligible salary. This represents that contribution cost to the office.
- (3) The Sheriff's Office is self-insured for group health coverage. All full-time employees are covered by the health plan upon hire. Under state law, the Sheriff's Office pays 100% of the employee-only coverage. The Sheriff's Office also pays a percent of family, spousal, or child coverage. This amount represents the cost to the office.
- (4) The Sheriff's Office provides some supplemental insurance coverage to each of its employees, including a term life policy, accidental death and dismemberment, short-term disability, and professional liability. The Sheriff pays 100% of these costs. This amount represents the cumulative cost of these coverages.
- (5) The Sheriff is assigned a departmental take-home vehicle; however, no amount is considered taxable under the IRS rules for vehicles provided to Law Enforcement Officers. The use of the vehicle is considered to be a "working condition benefit" and it meets the definition of a "qualified non-personal use vehicle". While some personal use is allowed, the car is primarily used for public safety/business purposes. Use of the vehicle is limited to in-parish travel (in general) and personal use is typically made up of commuting. The Sheriff pays an "in-parish" vehicle usage fee of \$100/month as per office policy.
- (6) Amount represents membership dues to various professional organizations related to the position of Sheriff such as, the National Sheriff's Association (NSA), the Major Counties Association, and the Louisiana State Bar Association (LSBA).
- (7) Includes attendance at various conferences such as for the NSA's Mid-winter conference, Jefferson Bar Association conference, the ICAP conference, and the LSA's annual conference.

STATISTICAL SECTION

STATISTICAL SECTION NARRATIVE

This part of the Sheriff's Comprehensive Annual Financial report represents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Sheriff's overall financial health.

Jefferson Parish Sheriff's Office

NOTES:

- (1) Per the constitution, all land and residential improvements are assessed at 10% of its fair market value and all other property at 15% of its fair market value.
- (2) Homestead exemption rate is \$7,500 of assessed value.
- (3) Includes tax-exempt property. Estimated Actual Taxable Value is calculated by dividing taxable assessed value by the percentages noted in Note (2). Tax rates are per \$1,000 of assessed value.
- (4) Total Direct Tax Rate for Jefferson Parish Sheriff
- (R) Indicates a "Reassessment" year.

SOURCE:

Jefferson Parish Sheriff's Office - Revenue and Taxation Bureau

- (R) Indicates a "Reassessment" year
- (1) It should be noted that the delinquent tax collection column includes taxes collected during that particular fiscal year for <u>all</u> open tax roll years. Thus, the current tax collection column and the delinquent tax collection column represent the total amount collected in that fiscal year.
 - As a result, the total tax collection column and the percent of total tax collections show the amount collected for that fiscal year and not for the particular tax roll year.
- (2) At the end of each tax season, the Sheriff holds a "tax sale" on all properties with delinquent taxes. The delinquent taxes will not be collected until the property is sold or placed back into commerce. If not purchased at the tax sale, the property adjudicates to the Parish of Jefferson, therefore, there will almost always be an outstanding delinquent tax amount.

SOURCE:

Jefferson Parish Sheriff and Ex-Officio Tax Collector

NOTE:

(1) None of the municipalities in Jefferson Parish levy a sales tax directly. All collections of Parish or Law Enforcement sales taxes in the municipalities are remitted back to the municipality to fund the respective dedicated operations. Thus, the Parish Council and the Sheriff's Office only see collections from the unicorporated areas of the Parish.

			Per Capita	\$ 1,530

- (1) The Bonds were issued by the Law Enforcement District (LED) of Jefferson Parish (i.e., the Sheriff). The ad valorem taxes of the LED/Sheriff are specifically dedicated to pay these bonds. Amount as of June 30, 2020.
- (2) Capital Lease for Motorola radios. Amount as of June 30, 2020.
- (3) These amounts are as of December 31, 2020.
- (4) These amounts are as of June 30, 2020.
- (5) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Parish. This schedule estimates the portion of the outstanding general obligation debt of those overlapping governments that is to be borne by the residents and businesses of the Parish. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden bome by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. Only those debt issuances that are considered to be parish-wide" and funded as "general-obligation bonds" of the agencies are reported.

SINGLE AUDIT SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Sheriff Joseph P. Lopinto, III Jefferson Parish Sheriff's Office Harvey, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jefferson Parish Sheriff's Office (the Sheriff) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements, and have issued our report thereon dated December 28, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sheriff's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sheriff's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sheriff's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion of the effectiveness of the entity's internal control on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Sheriff Joseph P. Lopinto, III Jefferson Parish Sheriff's Office Harvey, Louisiana

Report on Compliance for Each Major Federal Program

We have audited the Jefferson Parish Sheriff's Office's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Jefferson Parish Sheriff's Office's major federal programs for the year ended June 30, 2020. The Jefferson Parish Sheriff's Office's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Jefferson Parish Sheriff's Office's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jefferson Parish Sheriff's Office's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Jefferson Parish Sheriff's Office's compliance.

Opinion on Each Major Federal Program

In our opinion, Jefferson Parish Sheriff's Office, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Jefferson Parish Sheriff's Office is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Jefferson Parish Sheriff Office's internal control over compliance with the requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Jefferson Parish Sheriff's Office's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
