INDEPENDENT AUDITOR'S REPORT

Third Judicial District Judicial Clerk Fund

Report on the Audit of the Financial Statements

Opinions

I have audited the accompanying financial statements of the governmental activities and each major fund of the Third Judicial District Judicial Clerk Fund, a component unit of the Lincoln Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Judicial Clerk Fund's basic financial statements, as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund information of the Third Judicial District Judicial Clerk Fund as of December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Judicial Clerk Fund, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audits. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Judicial Clerk Fund's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Judicial Clerk Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Judicial Clerk Fund's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the required schedules related to pension plans on the pages indicated in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Judicial Clerk Fund's basic financial statements. The accompanying supplemental schedule of compensation, benefits, and other payments, schedule of justice system funding - receiving and schedule of justice system funding - collecting/disbursing are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplemental schedule of compensation, benefits and other payments, schedule of justice system funding - receiving and schedule of justice system funding - collecting/disbursing are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated June 30, 2023, on my consideration of the Judicial Clerk Fund's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Judicial Clerk Fund's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Judicial Clerk Fund's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Our discussion and analysis of the Judicial Clerk Fund's financial performance provides an overview of the financial activities for the year ended December 31, 2022. It is based upon currently known facts, decisions, and conditions. Please read it in conjunction with the financial statements which begin on page 8.

Basic Financial Statements

The basic financial statements include government-wide and fund financial statements. The government-wide statements consist of a Statement of Net Position and a Statement of Activities and provide information about the financial activities of our Office as a whole. The government-wide statements present a long-term view of our finances. Fund financial statements consist of the respective fund's balance sheet and the fund's statement of revenues, expenditures and changes in fund balance, if applicable. The fund statements tell how our services were financed in the short-term and what remains for future spending. The primary differences between the fund and government-wide statement presentation methods is that expenditures for capital assets are expensed in the fund financial statements but capitalized and depreciated in the government-wide statements and expenditures for retirement benefits are expensed in the fund financial statements based on required contributions but are measured and expensed in the government-wide statements based on the change in net pension liability and amortization of deferred inflows and outflows using actuarial information.

Statement of Net Position and Statement of Activities

One of the most important questions asked about our finances is, "Is the Judicial Clerk Fund as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about our Office as a whole and about our activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is a method similar to accounting used by most private-sector companies. All revenues and expenses of the current year are reported under this method regardless of when cash is received or disbursed.

These two statements report the Judicial Clerk Fund's net position and the changes in the net position. You can think of net position - the difference between assets and liabilities - as one way to measure the financial health, or financial position, of the Judicial Clerk Fund. Increases/(decreases) in our net position are one indicator of whether our financial health is improving/(deteriorating).

We report the financial activity of all services provided by us in the Statement of Net Position and Statement of Activities. Expenses primarily include salaries and related benefits, office expenses, and outside services. Fees received from defendants, grants and other assistance, and hearing officer fees received on child support payments through the State of Louisiana finance most of our activities.

Government-Wide Financial Analysis

As noted above, net position may serve as a useful indicator of an entity's financial position. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the governmental activities of the Judicial Clerk Fund.

At the close of the most recent year, net position increased by \$119,573. Unrestricted net position, which is the part of the amount of net position that can be used to finance the day-to-day operations of the District Clerk's Fund without constraints, increased \$95,586. The most significant changes from the prior year were an increase in other liabilities of \$54,625 and a decrease in net pension liability of \$287,742. Investment in capital assets (e.g. land, buildings, machinery and equipment, etc.) of \$37,619 is used to provide services to citizens; consequently, these assets are not available for future spending.

Change in Net Position	\$ <u>119,573</u>	\$ <u>42,101</u>	\$ <u>77,472</u>	184 %

Total revenues decreased by 3% (\$34,747) from the prior year, as shown above. Expenses decreased 12% (\$112,219) from the prior year, primarily from a decrease in pension expense of \$187,253 which was offset by an increase in drug court expenses of \$53,897. The net effect of the revenue decrease and expense decrease was a \$77,472 increase in the Change in Net Position for the year ended December 31, 2022 compared to the prior year.

Fund Financial Statements

The fund financial statements provide more detailed information about individual funds, rather than the District Clerk's Fund as a whole. Funds are accounting devices used to keep track of specific sources of funding and spending for a particular purpose. The Judicial Clerk Fund maintains two governmental funds, the General Fund and a Special Revenue Fund-Children's Assistance. Information is presented separately in the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance for each of these funds.

As of our year end on December 31, 2022, our governmental fund (General Fund) reported a fund balance of \$249,223, which is a 25% (\$83,425) variance with last year's fund balance. During 2022, General Fund revenues decreased 7% (\$55,880) as compared to the previous year. General Fund expenditures increased about 8% (\$59,558) as compared to the prior year. The General Fund had \$32,500 in capital outlay expenditures in the prior year compared to \$2,358 in the current year.

Although capital outlay expenditures in the fund financials reduced unrestricted fund balance, it created new assets for the Judicial Clerk Fund, as reported in the Statement of Net Position.

The fund balance in our special revenue fund as of December 31, 2022 was \$321,224, 10% (\$28,781) more than the prior year. Revenues in our special revenue fund were 11% (\$21,133) more than the prior year. Special revenue fund expenditures were 11% (\$21,156) less than the prior year. The special revenue fund had \$1,887 in capital outlay expenditures in the current year compared to \$2,732 in the prior year.

General Fund Budgetary Highlights

We amend our budget when we determine there are unexpected differences between actual and anticipated revenues and/or expenditures. Our final amended budget was adopted just prior to year end. The difference between the original and final amended budget for revenues was a 1% (\$9,763) decrease, which was primarily the result of a \$77,432 increase in grant revenue and a \$24,000 increase in drug court income offset by a decrease of \$109,139 in intergovernmental revenues to more closely match anticipated revenues. The difference between the original and final amended budget for expenditures was a 2% (\$13,626) decrease in expenditures, which primarily were decreases of \$22,781 in contract services, \$23,069 in FINS expense, and \$52,529 in salaries, which are offset by increases of \$17,283 in drug court expenses, \$15,000 in library, \$5,512 in office expense, \$17,913 in probation, \$10,000 in professional fees, and \$20,816 in travel and seminar expenses to more closely match anticipated expenditures.

General fund budgeted amounts were 5% (\$38,876) more than actual revenues and 6% (\$48,414) less than actual expenditures. Over budgeted revenues were primarily the result of receiving \$34,981 (13%) less in fees, \$20,283 (37%) less in drug court income, and \$21,844 (6%) less in grants than budgeted, and \$36,393 (31%) more in intergovernmental revenues than budgeted. Underbudgeted expenditures were primarily the result of \$153,986 (105%) more in salaries than budgeted offset by \$56,170 (19%) in drug court expenses and \$18,607 (53%) in professional fees less than budgeted.

Capital Assets

In 2022, we purchased \$4,245 of equipment. For the upcoming year, we plan to purchase computer equipment, but there are no plans to issue debt to finance these purchases or any other future project.

Currently Known Facts, Decisions, or Conditions

We are not aware of any facts, decisions, or conditions that are expected to have a significant impact on the financial position or results of operations after the reporting date.

NET CHANGE IN FUND BALANCES-TOTAL GOVERNMENTAL FUNDS \$ (54,644)

Amounts reported for governmental activities in the Statement of Activities are different from those reported in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund balance on the previous page because:

Governmental Fund statements report capital outlays as expenditures. However, the Statement of Activities reflects capital outlays as an increase in capital assets and recognizes an economic cost of the asset as depreciation expense over the estimated useful life of the asset. Depreciation expense in the statement of activities was \$9,040 and there was \$4,246 of capital outlay expenditures in the governmental funds. (4,794)

Adjustment for Difference in Pension Expense - Governmental funds report pension expenditures based on required contributions, while in the Statement of Activities pension expense is reported based on the change in net pension liability and amortization of deferred inflows and outflows. 179,011

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022**

The Third Judicial District Judicial Clerk Fund was established by legislative act. The act provides for the collection of fees in the form of court costs and fines, and provides for such secretarial, clerical, research, administrative or other personnel as are deemed necessary to expedite the business and functions of the court. The Judicial Clerk Fund may also be used to pay for establishing and maintaining a law library, equipment, supplies, and any other costs or expenses related to the proper administration of the court, except for the payment of judge's salaries. The Judicial Clerk Fund service area is composed of the parishes of Lincoln and Union located in north central Louisiana.

The financial statements of the Judicial Clerk Fund are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable), that do not conflict or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the Judicial Clerk Fund are discussed below:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

For financial reporting purposes, in conformity with GASB Statement No. 14, the Judicial Clerk Fund of the Third Judicial District is a component unit of the Lincoln Parish Police Jury. For the purposes of this financial report, this component unit serves as the nucleus for its own financial reporting entity and issues separate financial statements.

BASIC FINANCIAL STATEMENTS, MEASUREMENT FOCUS, AND BASIS OF ACCOUNTING

The Judicial Clerk Fund's basic financial statements include both government-wide and fund financial statements.

Government-Wide Financial Statements

The government-wide Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. The Statement of Net Position and Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. On the Statement of Net Position, the net position is reported in three parts as described below:

Invested in capital assets, net of related debt - consist of the historical cost of capital assets less accumulated depreciation and less any outstanding debt used to finance those assets.

Restricted - consists of the amount of net position restricted by the Judicial Clerk Fund's creditors, by state enabling legislation, by grantors, and by other contributors. In situations where it is permissible to apply restricted resources, typically available restricted resources are depleted before consuming unrestricted resources.

Unrestricted - all other net position amounts are reported in this category.

The Statement of Activities reports both the gross and net cost of the judicial function. The function is supported by general government revenues. The Statement of Activities reduces gross expense (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reports capital-specific grants. The net costs are normally covered by general revenue. This government-wide focus is on the sustainability of the Judicial Clerk Fund as an entity and the change in its net position resulting from the current year's activities.

Fund Financial Statements

The fund financial statements of the Judicial Clerk Fund report the financial transactions in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures. The focus of the government funds' measurement (in the fund financial statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The Judicial Clerk's Fund reports these governmental funds:

Governmental Funds

General Fund

The General Fund is the general operating fund of the Judicial Clerk Fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specific purposes. The Judicial Clerk Fund uses the following special revenue fund:

Children's Assistance - To account for a 5 percent fee assessed in non-support cases which go through the state's Child Support Enforcement program. These fees are used to pay the salary of the hearing officer, appointed by the judges of the Third Judicial District to hear support and support related matters, and other expenditures incurred with the implementation of this procedure.

All government funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. An availability period of 60 days was used. Revenues accrued include fines (collected by another governmental unit and remitted to the Judicial Clerk Fund), intergovernmental revenues, fees collected by the court, and reimbursements for expenditures from the state. Revenues that are not considered susceptible to accrual include certain charges for fees. Expenditures are recorded when the related fund liability is incurred.

With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Any designations of fund balance represent tentative management plans that are subject to change. There were no such designations anytime during the year.

GOVERNMENTAL FUND BALANCE

Beginning January 1, 2011, the Judicial Clerk's Fund implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable Fund Balance - amounts that are not in spendable form (such as prepaids) or are required to be maintained intact.

Restricted Fund Balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance - amounts constrained to specific purposes by the government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

Assigned Fund Balance - amounts the government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned Fund Balance - amounts that are available for any purpose; positive amounts are reported only in the general fund.

The Judicial Clerk Fund administrator establishes (and modifies or rescinds) fund balance commitments by passage of an order by the Judges. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as special incentives). Assigned fund balance is established by the Judges through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

BUDGETS AND BUDGETARY ACCOUNTING

The Judicial Clerk Fund prepares an operating budget on its General Fund and Special Revenue Fund for each year, including the year ended December 31, 2022. Budgetary amounts are prepared based on prior year actual operating revenues and expenditures. During November, the clerk submits to the district judges a proposed operating budget for the year commencing in the following January. The operating budget includes proposed expenditures and the means of financing them. During December, the budget is published in the official journal, made available for public inspection, and legally enacted through passage of an order. The district judges are authorized to transfer budgeted amounts between line items within a fund but revisions that alter the total expenditures of a fund must be approved by budget amendment. Appropriations lapse at year-end and must be reappropriated for the following year to be expended. State law requires budgets to be amended when anticipated revenues or expenditures vary unfavorably with budget amounts by more than 5%. The budget is monitored and amended when significant variations are identified. The 2022 general fund budget was authorized by the district judges, made available for public inspection at the court's office, and adopted by the district judges on December 23, 2021. The budget was amended prior to year end by the district judges.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CASH AND CERTIFICATES OF DEPOSIT

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits with original maturities of three months or less from the date of acquisition. Under state law, the Judicial Clerk Fund may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with banks organized under the laws of any state of the United States, or under the laws of the United States. State law and the Judicial Clerk Fund's investment policy allow investment in collateralized certificates of deposit, which are reported at cost.

INTERFUND ACTIVITY

Interfund activity is reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. All transfers between individual governmental funds are eliminated on the Statement of Activities.

DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows and inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

CAPITAL ASSETS

Capital assets are capitalized at historical cost, or estimated cost if historical cost is not available, and depreciated over their estimated useful lives. Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. A threshold level of \$500 or more is used for capitalizing assets. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Furniture and Fixtures	10 - 15 years
Equipment	5 - 15 years

VACATION AND SICK LEAVE

The Judicial Clerk Fund has adopted a vacation and sick leave plan which allows a maximum of 12 days vacation and 12 days sick leave per year. Employees are not allowed to carry over the unused vacation or sick leave from year to year. Upon termination, accumulated sick leave lapses and no payments are made for the unused accumulation. There are no accumulated and vested benefits relating to vacation and sick leave that require accrual or disclosure at year end.

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expenses, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and the Parochial Employees Retirement System of Louisiana (PERS), and additions to/deductions from LASERS' and PERS' fiduciary net position have been determined on the same basis as they are reported by LASERS and PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 - CASH AND CERTIFICATES OF DEPOSIT

At December 31, 2022, the Judicial Clerk Fund had cash and certificates of deposit as follows:

	<u>Cash</u>	<u>Certificates of Deposit</u>
Demand Deposits	\$ 282,602	\$ 0
Time Deposits	0	303,425
Total	\$ 282,602	\$ 303,425

Cash consists of demand deposits. Deposits are carried at cost which approximates market value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent. Pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2022, the Judicial Clerk Fund has \$640,594 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance.

NOTE 5 - PENSION PLANS

The Judicial Clerk Fund contributes to the Louisiana State Employees' Retirement System (LASERS) and the Parochial Employees Retirement System of Louisiana (PERS). All employees are members of PERS if they are permanent employees working at least 28 hours a week and are not a member of LASERS.

The LASERS plan is a cost sharing multiple-employer defined benefit pension plan administered by the Louisiana State Employees' Retirement System (LASERS). It was established by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401). In accordance with Louisiana Revised Statutes, LASERS is subject to certain elements of oversight by the Louisiana Legislature, which grants them the authority to review administration, benefit terms, investments, and funding of the plan. The retirement system issues a publicly available financial report. That report may be obtained by writing to Louisiana State Employees' Retirement System, P.O. Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling 1-800-256-3000. Access to the stand-alone audit report for the year ended June 30, 2022 can be found on the Louisiana Legislative Auditor's website: www.la.gov or the LASERS website: www.lasersonline.org.

The PERS plan is a cost sharing multiple-employer defined benefit pension plan administered by the Parochial Employees' Retirement System of Louisiana (PERS). The PERS was established by Act 205 of the 1952 regular session of the Legislature of the State of Louisiana. PERS is governed by Louisiana Revised Statutes, Title 11 Sections 1901 through 2025 specifically, and other general laws of the State of Louisiana. The retirement system issues a publicly available financial report. That report may be obtained by writing to Parochial Employees' Retirement System of Louisiana, 7905 Wrenwood Boulevard, Baton Rouge, Louisiana 70898, or by calling (225) 928-1361. Retirement Benefits

LASERS Plan

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The majority of LASERS rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of creditable service, and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and may also retire at any age, with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

NOTE 5 - PENSION PLANS (CONTINUED)

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

PERS Plan

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification.

Any member of Plan A can retire providing he/she meets one of the following criteria:

Employees hired prior to January 1, 2007, can retire at any age with thirty or more years of creditable service, age 55 with twenty-five years of creditable service, age 60 with a minimum of ten years of creditable service, or age 65 with a minimum of seven years of creditable service.

Employees hired after January 1, 2007, can retire age 55 with 30 years of service, age 62 with ten years of service, or age 67 with 7 years of service.

Any member of Plan B can retire providing he/she meets one of the following criteria:

Employees hired prior to January 1, 2007, can retire at age 55 with thirty years of creditable service, age 60 with a minimum of ten years of creditable service, or age 65 with a minimum of seven years of creditable service.

Employees hired after January 1, 2007, can retire age 55 with 30 years of service, age 62 with ten years of service, and age 67 with 7 years of service.

Generally, the monthly amount of the retirement allowance of any member shall consist of an amount equal to a percent of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts. The percent used for Plan A members is three percent, and Plan B participants use two percent.

Deferred Retirement Benefits

LASERS Plan

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

NOTE 5 - PENSION PLANS (CONTINUED)

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

PERS Plan

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the Retirement System. DROP is an option for that member who is eligible for normal retirement. In lieu of terminating employment and accepting a service retirement, any member of Plan A or B who is eligible to retire may elect to participate in DROP in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments in the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account. Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who became eligible to participate in DROP on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in DROP will be placed in liquid asset money market investments at the discretion of the board of trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of DROP must agree that the benefits payable to the participant are not the obligations of the state or the System, and that any returns and other rights of DROP are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

Disability Benefits

LASERS Plan

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching retirement age, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees. For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

NOTE 5 - PENSION PLAN (CONTINUED)

PERS Plan

For Plan A and Plan B, a member shall be eligible to retire and receive a disability benefit if hired prior to January 1, 2007, and has a least five years of creditable service or if hired after January 1, 2007, has seven years of creditable service, is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board.

Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lessor of an amount equal to a three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen, or three percent multiplied by years of service assuming continued service to age sixty for those members who enrolled prior to January 1, 2007 and to age 62 for those members who are enrolled January 1, 2007 and later. For Plan B, a member shall be eligible to retire and receive a disability benefit if he/she was hired prior to January 1, 2007, and has at least five years of creditable services or if hired after January 1, 2007, has seven years of creditable service, is not eligible for normal retirement, and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, if not eligible for normal retirement, a member of Plan B shall be paid a disability benefit equal to the lessor of an amount equal to two percent of the member's final average compensation multiplied by his years of service, to age 60 for those members who are enrolled prior to January 1, 2007 and age 62 for those members who are enrolled January 1, 2007 and later.

Survivor's Benefits

LASERS Plan

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member hired before January, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

PERS Plan

Upon the death of any member of Plan A with five or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statues. Any member of Plan A, who is eligible for normal retirement at the time of death, the surviving spouse shall receive an automatic Option 2 benefit, as outlined in the statutes. Plan B members need ten years of service credit to be eligible for survivor benefits. Upon the death of any member of Plan B with twenty or more years of creditable service who is not eligible for normal retirement, the plan provides for an automatic Option 2 benefit for the surviving spouse when he/she reaches age 50 and until remarriage, if the remarriage occurs before age 55. A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

Permanent Benefit Increases/Cost-of-Living Adjustments

LASERS Plan

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

PERS Plan

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July, 1973. The adjustment cannot exceed two percent of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to two percent of the member's benefit paid on October 1, 1977, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Contributions

LASERS Plan

The employer contribution rate is established annually under La. R.S. 11:401-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the LASERS actuary. Each plan pays a separate actuarially-determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership. Rates for the year ended June 30, 2022 are as follows:

PERS Plan

According to state statute, contributions for all employers are actuarially determined each year. For the year ended December 31, 2021, the actuarially determined contribution rate was 10.38% of member's compensation for Plan A and 7.07% of member's compensation for Plan B. However, the actual rate for the fiscal year ending December 31, 2021 was 12.25% for Plan A and 7.50% for Plan B. The Judicial Clerk Fund participates in Plan A.

According to state statute, the System also receives one-fourth of one percent of ad valorem taxes collected within the respective parishes, except for Orleans and East Baton Rouge parishes. The System also receives revenue sharing funds each year as appropriated by the Legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to the member's compensation. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

The Judicial Clerk Fund's contractually required composite contribution rate for the pension plan year ended December 31, 2022 was 11.50% of annual covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the the Judicial Clerk's Fund were \$15,666 for the year ended December 31, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2022, the Employer reported a liability of \$199,647 for its proportionate share of the Net Pension Liability for all plans. The Net Pension Liability was measured as of June 30, 2022 for the LASERS Plan and as of December 31, 2021 for the PERS Plan, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of those dates. The Judicial Clerk Fund's proportion of the Net Pension Liability was based on a projection of the Fund's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the Judicial Clerk's Fund's proportion of the LASERS Plan was 0.00413% for the District Court which was an increase of 0.00555% from its proportion measured as of June 30, 2021. At December 31, 2021, the Judicial Clerk's Funds proportion of the PERS Plan was 0.023866%, which was a decrease of 0.002118% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022, the Judicial Clerk Fund recognized pension benefit of \$46,766 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions of \$36,834.

Actuarial Assumptions

LASERS Plan

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2022 are as follows:

Valuation Date	June 30, 2022
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	2 years
Investment Rate of Return	7.25% per annum, net of investment expenses*
Inflation Rate	2.3% per annum
Mortality	Non-disabled members - Mortality rates based on the RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MP-2018. Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members.
Salary Increases	Salary increases were projected based on a 2014-2018 experience study of the System's members. The salary increase ranges for specific types of members are:

<u>Member Type</u>	<u>Lower Range</u>	<u>Upper Range</u>
Regular	3.0 %	12.8 %
Judges	2.6 %	5.1 %
Corrections	3.6 %	13.8 %
Hazardous Duty	3.6 %	13.8 %
Wildlife	3.6 %	13.8 %

Cost of Living Adjustments The present value of future of future retirement benefits is based on benefits currently being paid by LASERS and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

* The investment rate of return used in the actuarial valuation for funding purposes was 7.6%, recognizing an additional 35 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.25%, which is the same as the discount rate. Therefore, it was concluded that the 7.25% discount is reasonable.

Actuarial Assumptions

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting long-term nominal rate of return is 8.34% for 2022. Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation¹</u>	<u>Long-Term Expected Real Rate of Return¹</u>
Cash	0 %	0.39 %
Domestic equity	31 %	4.57 %
International equity	23 %	5.76 %
Domestic Fixed Income	3 %	1.48 %
International Fixed Income	17 %	5.04 %
Alternative Investments	26 %	8.30 %
Total	<u>100 %</u>	<u>5.91 %</u>

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the capital asset pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.1% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021. Best estimates of arithmetic real rates of return for each major asset class included in the PERS target asset allocation as of December 31, 2021 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed Income	33 %	0.85 %
Equity	51 %	3.23 %
Alternatives	14 %	0.71 %
Real Assets	2 %	0.11 %
Totals	100 %	4.90 %
Inflation		2.10 %
Expected Arithmetic Nominal Return		7.00 %

The morality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using MP2018 scale. For disabled annuitants mortality was set to equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

Discount Rate

LASERS Plan

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that employer contributions from participating employers will be made at actuarially determined rates approved by PRSAC, taking into consideration the recommendation of the pension plan's actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

PERS Plan

The discount rate used to measure the total pension liability was 6.40% for Plan A and 6.40% for Plan B. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Third Judicial District Judicial Clerk Fund
100 W. Texas Ave., 3rd Floor
Ruston, Louisiana 71270

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Third Judicial District Judicial Clerk Fund, Louisiana, a component unit of the Lincoln Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Judicial Clerk Fund's basic financial statements, and have issued my report thereon dated June 30, 2023.

Report on Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Judicial Clerk Fund's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Judicial Clerk Fund's internal control. Accordingly, I do not express an opinion on the effectiveness of the Judicial Clerk Fund's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, I did identify certain deficiencies in internal control that I consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. I consider the deficiency described in the accompany schedule of findings and questioned costs as finding 2022-1 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. I consider the deficiency described in the accompany schedule of findings and questioned costs as finding 2022-2 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Judicial Clerk Fund's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as finding #2022-3.

Judicial Clerk Fund's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Judicial Clerk Fund's response to the findings identified in my audit and described in the accompanying schedule of management's corrective action plan. The Judicial Clerk Fund's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED DECEMBER 31, 2022

I have audited the financial statements of the Judicial Clerk Fund as of and for the year ended December 31, 2022, and have issued my report thereon dated June 30, 2023. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My audit of the financial statements as of December 31, 2022 resulted in an unqualified opinion. The following is a summary of my audit observations on internal control, tests of compliance, and findings related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*:

Section 1 Summary of Auditor's Reports

Report on Internal Control and Compliance Material to the Financial Statements

Internal Control

Material Weaknesses Yes No Significant Deficiency Yes No

Compliance

Compliance Material to Financial Statements Yes No

Section 2 Financial Statement Findings

Finding 2022-1. Separation of Duties. The Judicial Clerk Fund's Office has too few personnel involved in the accounting system to have adequate separation of duties for internal control.

Finding 2022-2. Reconciliation of Retirement Reports. The Judicial Clerk Fund's Office was not reconciling the earnings reported to the retirement system to the amounts recorded in the general ledger. The Judicial Clerk's Fund submitted earnings reports to the retirement system that did not include all of the earnings subject to retirement contributions.

Finding 2022-3. Unfavorable Budget Variance. The Judicial Clerk Fund's general fund had an unfavorable budget variance of 6% for expenditures. According to state law, the budget should be amended when actual expenditures appear to be more than the amounts budgeted by more than 5%.

Status: Unresolved. See Finding #2022-1.

MANAGEMENT'S CORRECTIVE ACTION PLAN
FOR THE YEAR ENDED DECEMBER 31, 2022**

Section 1 Internal Control and Compliance Material to the Financial Statement

Finding #2022-1. Segregation of Duties. The Judicial Clerk's Fund is required to design internal controls with proper segregation of duties to prevent, or detect and correct, misstatements in the accounting system. The Judicial Clerk's Fund has inadequate segregation of duties because there are too few personnel involved in the accounting system. The financial statements could have a misstatement that would not be prevented, or detected and corrected. Recommend that the Judicial Clerk Fund involve more personnel in the accounting system to allow for adequate segregation of duties.

Management's Response: *The Judicial Clerk's Fund is in the process of implementing changes to its internal controls to improve segregation of duties.*

Finding #2022-2. Reconciliation of Retirement Reports. The Judicial Clerk's Fund is required to have internal controls in place to prevent, or detect and correct errors in reporting of earnings subject to retirement contributions. The Judicial Clerk's Fund was not reconciling the earnings reported to the retirement system to the amounts recorded in the general ledger. The Judicial Clerk's Fund submitted earnings reports to the retirement system that did not include all of the earnings subject to retirement contributions. This resulted in an underpayment of retirement contributions of \$46,325 in 2022. Recommend that the Judicial Clerk's Fund assign someone to review and reconcile the earnings reported to the retirement system to the general ledger before submitting the reports.

Management's Response: *The Judicial Clerk's Fund uses an outside accounting firm to prepare the earnings reports for the retirement system. The Chief Judge will begin reviewing and approving the reports before they are submitted to the retirement system in 2023. Corrected earnings reports for the under reporting of 2022 wages have been filed with the retirement system and all related required contributions have been paid.*

Finding 2022-3. Unfavorable Budget Variance. The Judicial Clerk Fund's general fund had an unfavorable budget variance of 6% for expenditures. According to state law, the budget should be amended when actual expenditures appear to be more than the amounts budgeted by more than 5%. It appears that when the budget amendments were made that salaries were not projected correctly which resulted in salaries being amended incorrectly. I recommend budget variances be monitored and the budget amended when expenditures exceed budgeted amounts by more than 5%.

Management's Response: *The Judicial Clerk Fund's Office will monitor the 2023 actual and budget amounts more closely and recommend amendments when the actual expenditures appear to be more than budgeted expenditures by more than 5%.*

Not applicable.

- iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. Not applicable.

- iv. Observe whether the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

Not applicable.

3) Bank Reconciliations

- A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:

- i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);

No exceptions were found as a result of this procedure.

- ii. Bank reconciliations include written evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and

No exceptions were found as a result of this procedure.

- iii. Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

No exceptions were found as a result of this procedure.

4) Collections (excluding electronic funds transfers)

- A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

Management provided us with the required list and representation that it is complete.

B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (e.g., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if there are no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

- i. Employees responsible for cash collections do not share cash drawers/registers;

The Judicial Clerk Fund's office does not accept cash and does not have a cash register or cash drawer.

- ii. Each employee responsible for collecting cash is not also responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;

No exceptions were found as a result of this procedure.

- iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit; and

No exceptions were found as a result of this procedure.

- iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, is (are) not also responsible for collecting cash, unless another employee verifies the reconciliation.

No exceptions were found as a result of this procedure.

C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was enforced during the fiscal period.

No exceptions were found as a result of this procedure.

D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Obtain supporting documentation for each of the 10 deposits and:

- i. Observe that receipts are sequentially pre-numbered.

No exceptions were found as a result of this procedures.

- ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

Management was not able to provide us with one receipt for a deposit.

Management's Response: The Judicial Clerk Fund's Office will be more diligent in receipting checks received for deposit.

- iii. Trace the deposit slip total to the actual deposit per the bank statement.

No exceptions were found as a result of this procedure.

- iv. Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

There were two deposits that had receipts that were not deposited timely. Also, there was one receipt that was missing and we were unable to determine if it was made within one business day.

Management's Response: The Judicial Clerk Fund's probation department only has one employee. Amounts received are stored securely and deposits are made about twice a month. The Judicial Clerk Fund's Office is still working toward making daily deposits for the probation department, but it is not always practical.

- v. Trace the actual deposit per the bank statement to the general ledger.

No exceptions were found as a result of this procedure.

5) Non-Payroll Disbursements (excluding card purchases, travel reimbursements, and petty cash purchases)

- A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

Management provided us with the required list and representation that it is complete.

- B. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions.
