Board of Trustees Parochial Employees' Retirement System of Louisiana Baton Rouge, Louisiana

### **Report on the Audit of the Financial Statements**

### Opinion

We have audited the accompanying financial statements of the Parochial Employees' Retirement System of Louisiana (the System), as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Parochial Employees' Retirement System of Louisiana's basic financial statements as listed in the index to annual financial report.

INDEPENDENT AUDITOR'S REPORT

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Parochial Employees' Retirement System of Louisiana as of December 31, 2022 and 2021, and the respective changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government* Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the index to annual financial report, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Parochial Employees' Retirement System's basic financial statements. The accompanying other supplementary information, as listed in the index to annual financial report, is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Emphasis of Matter**

As disclosed in Note 4 to the financial statements, the total pension liability for the Parochial Employees' Retirement System was \$4,658,944,882 and \$4,504,994,211 for Plan A and \$414,535,459 and \$393,510,971 for Plan B, respectively, as of December 31, 2022 and 2021. The actuarial valuations were based on various assumptions made by the System's actuary. Because actual experience may differ from the assumptions used in the actuarial valuation, there is a risk that the total pension liability at December 31, 2022 and 2021 could be understated or overstated.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 19, 2023 on our consideration of the Parochial Employees' Retirement System of Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance of the Parochial Employees' Retirement System of Louisiana.

Duplantier, shapman, Agan and Traker, LCP

New Orleans, LA

The Management's Discussion and Analysis of the Parochial Employees' Retirement System's financial performance presents a narrative overview and analysis of the Parochial Employees' Retirement System's financial activities for the year ended December 31, 2022. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the information contained in the Parochial Employees' Retirement System's financial statements, which begin on page 11.

# FINANCIAL HIGHLIGHTS:

- Parochial Employees' Retirement System's assets and deferred outflows exceeded its liabilities and deferred inflows at the close of fiscal year 2022 by \$4,664,792,361, which represents a decrease from last fiscal year. The net position restricted for pension benefits decreased by \$760,637,301 or 14.02%. The decrease is primarily due to unfavorable investment returns during 2022.
- Contributions to the System by members and employers totaled \$151,640,123, a decrease of \$3,542,219 or 2.28% over the prior year.
- The net depreciation in the fair value of investments was \$740,130,838 for 2022, compared to net appreciation of \$489,125,802 in 2021, a decrease of 251.32%. The decrease is due to unfavorable investment returns during 2022.
- The rate of return on the System's investments was (11.92%) for Plan A and Plan B based on the market value. This represents a decrease from the 2021 results in both plans.
- Pension benefits including DROP paid to retirees and beneficiaries increased by \$9,957,592 or 4.06% as a result of the increase in the number of retirees and the larger benefit amounts generally paid to newer retirees.
- Administrative expenses totaled \$2,113,304, an increase of \$283,241 or 15.48%.
- The cost of administering the System per member during 2022 was \$56 per individual. This figure is derived by dividing total administrative expenses by the sum of active and retired employees, survivors, and terminated employees eligible for a refund or benefit.

# **OVERVIEW OF THE FINANCIAL STATEMENTS:**

The discussion and analysis are intended to serve as an introduction to the System's basic financial statements, which are comprised of three components:

- Statement of fiduciary net position,
- Statement of changes in fiduciary net position, and
- Notes to the financial statements.

This report also contains required supplemental information in addition to the basic financial statements themselves.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**: (Continued)

The statement of fiduciary net position reports the System's assets, liabilities, and resultant net position restricted for pension benefits. It discloses the financial position of the System as of December 31, 2022 and 2021.

The statement of changes in fiduciary net position reports the results of the System's operations during the year disclosing the additions to and deductions from the fiduciary net position. It supports the change that has occurred to the prior year's net position value on the statement of fiduciary net position.

### FINANCIAL ANALYSIS OF THE FUND:

Parochial Employees' Retirement System provides benefits to all eligible parish employees in 61 of the 64 parishes in the State of Louisiana. Employee contributions, employer contributions, and earnings on investments fund these benefits.

	Condensed Statements of				
	F	Fiduciary Net Position	1		
	<u>2022</u>	<u>2021</u>	<u>2020</u>		
Cash and investments	\$ 4,653,803,432	\$ 5,413,030,666	\$ 4,957,154,085		
Receivables	40,604,577	40,444,983	41,967,032		
Capital asset, net	582,998	602,710	622,531		
Total assets	4,694,991,007	5,454,078,359	4,999,743,648		
Deferred outflows of resources	33,342	44,487	15,372		
Total liabilities	29,989,517	28,572,006	32,898,380		
Deferred inflows of resources	242,471	121,178	202,336		
Net Position Restricted for Pension Benefits	\$ 4,664,792,361	\$ 5,425,429,662	\$ 4,966,658,304		

Fiduciary net position decreased by \$760,637,301 or 14.02% (\$4,664,792,361 compared to \$5,425,429,662). All of these assets are restricted in use to provide monthly retirement allowances to members who contributed to the System as employees and their beneficiaries. The decrease in fiduciary net position in 2022 was due primarily to unfavorable market returns during 2022 in addition to an increase in retirement benefits paid.

### FINANCIAL ANALYSIS OF THE FUND: (Continued)

### Additions to Fiduciary Net Position:

Additions to the System's fiduciary net position were derived from member and employer contributions and net investment income (loss). During the year ended December 31, 2022, member contributions increased by \$445,513 or 0.69% and employer contributions decreased by \$3,985,732 or 4.39%. During the year ended December 31, 2021, member contributions increased by \$287,461 or 0.45% and employer contributions increased by \$396,789 or 0.44%. During the year ended December 31, 2022, the System experienced a net investment loss of \$649,651,053 compared to net investment income of \$552,799,973 in 2021. The decrease in fiduciary net position in 2022 was due primarily to unfavorable investment returns. During the year ended December 31, 2021, the System experienced net investment income of \$552,799,973 compared to net investment income of \$551,637,311 in 2020. The increase in fiduciary net position in 2021 was due primarily to favorable investment returns.

	2022	<u>2021</u>	<u>2020</u>
Member Contributions	\$ 64,784,669	\$ 64,341,156	\$ 64,053,695

### FINANCIAL ANALYSIS OF THE FUND: (Continued)

### Deductions from Fiduciary Net Position:

Deductions from fiduciary net position include mainly retirement, death and survivor benefits and administrative expenses. Deductions from fiduciary net position totaled \$277,720,766 in fiscal year 2022, an increase of \$12,650,824 or 4.77%. Annuity benefits including DROP increased by \$9,957,592 as a result of the increase in the number of retirees and the larger benefit amounts generally paid to newer retirees. Deductions from fiduciary net position totaled \$265,069,942 in fiscal year 2021, an increase of \$19,762,610 or 8.06%. Annuity benefits including DROP increased by \$15,469,490 as a result of the increase in the number of retirees, the larger benefit amounts generally paid to newer retirees and a COLA granted effective January 1, 2021.

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Annuity and DROP Benefits	\$ 254,984,525	\$ 245,026,933	\$ 229,557,443
Refunds of Contributions	15,212,155	14,900,302	11,357,613

Depreciation expense	19,712	19,821	20,367
Total	\$ 277,720,766	\$ 265,069,942	\$ 245,307,332

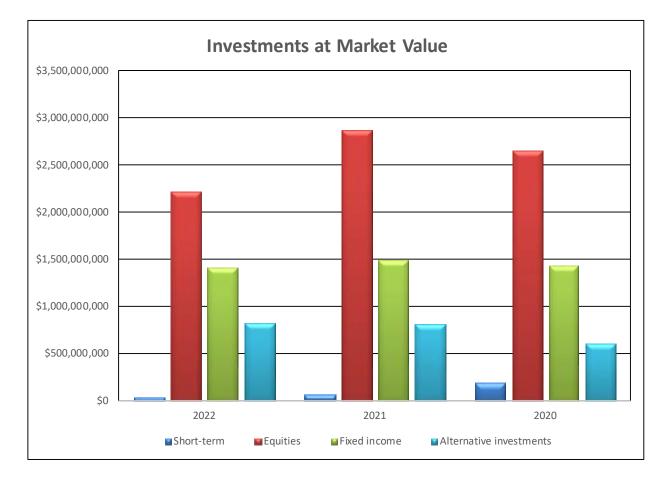

### FINANCIAL ANALYSIS OF THE FUND: (Continued)

#### Investments:

Parochial Employees' Retirement System is responsible for the prudent management of funds held in trust for the exclusive benefits of their members' pension benefits. Funds are invested to achieve maximum returns without exposing retirement assets to unacceptable risks. Total fair value of investments at December 31, 2022 was \$4,506,277,300 as compared to \$5,243,670,555 at December 31, 2021, which is a decrease of \$737,393,255 or 14.06%. Total fair value of investments at December 31, 2021 was \$5,243,670,555 as compared to \$4,888,287,616 at December 31, 2020, which is an increase of \$355,382,939 or 7.27%. The System's investments in various markets at the end of the 2022, 2021, and 2020 fiscal years are indicated in the following table:

	<u>2022</u>	<u>2021</u>	<u>2020</u>

# **DESCRIPTION OF ORGANIZATION:**

The Parochial Employees' Retirement System of Louisiana (System) was originally established, effective January 1, 1953, by Act #205 of the 1952 regular session of the Legislature of the State of Louisiana to provide retirement benefits to all employees of any parish in the State of Louisiana or any governing body or a parish which employs and pays persons serving the parish.

The System is administered by a Board of Trustees, that consists of seven trustees, four of whom are active or retired members of the System with at least 10 years of creditable service, elected by the members of the System for six year terms; one of whom shall be appointed by the Executive Board of the Police Jury Association of Louisiana who shall serve a four year term as an ex-officio member during his tenure; one who shall be the Chairman of the Senate Retirement Committee; and one who shall be the Chairman of the Legislature of Louisiana or their appointees.

Act #765 of the year 1979 established by the Legislature of the State of Louisiana revised the System to create Plan A and Plan B to replace the "regular plan" and the "supplemental plan." Plan A was designated for employers out of Social Security. Plan B was designated for those employers that remained in Social Security on the revision date.

Act #867 of the year 1997 revised the System to create Plan C. This Plan was established for a larger employer that remained in Social Security on the revision date. There were no participants in this Plan.

Act #194 of the year 2003 established a separate unfunded, non-tax qualified Excess Benefit Plan to supplement the benefits provided to members to the extent their benefits are reduced by the limitations imposed by Section 415 of the United States Internal Revenue Code.

Act #871 of the year 2010 eliminated the Expense Fund and requires all administrative expense to be paid from Plan A's Pension Accumulation Fund. Annually, a transfer of funds from Plan B shall be made to reimburse Plan A for Plan B's expenses.

The Retirement System is governed by Louisiana Revised Statutes, Title 11, Sections 1901 through 2025, specifically, and other general laws of the State of Louisiana.

# 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>:

The financial statements are prepared in accordance with the standards established by the Governmental Accounting Standards Board (GASB).

The financial statements include the provisions of GASB Statement Number 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments and related standards*. This standard provides for the inclusion of management's discussion and analysis as supplementary information and other changes.

### 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>: (Continued)

The System's basic financial statements were prepared in conformity with the provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans*. GASB Statement No. 67 established new standards of financial reporting for defined pension plans. Significant changes included an actuarial calculation of total and net pension liability, increased footnote disclosures regarding the pension liabilities and other related information, and provided for additional required supplementary information schedules.

### **Basis of Accounting:**

The System's financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Interest income is recognized when earned. Ad valorem taxes are recognized when assessed by the taxing body. Revenue sharing monies are recognized in the year they are appropriated by the Legislature.

Expenses are recognized in the period incurred.

#### Method Used to Value Investments:

As required by GASB Statement No. 72, investments are reported at fair value. Fair value is described as an exit price. This statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. That hierarchy has three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs – other than quoted prices – included within Level 1 that are observable for the asset or liability, whether directly or indirectly. Finally, Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security. This statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. These disclosures are organized by type of asset or liability. GASB 72 also requires additional disclosures regarding investments in certain entities that calculate net asset value per share (or its equivalent). These disclosures are located in Note 6.

Short-term investments are reported at market value when published prices are available, or at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Realized and unrealized gains and losses are reported in the Statements of Changes in Fiduciary Net Position as net appreciation

# 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>: (Continued)

### Method Used to Value Investments: (Continued)

(depreciation) in fair value of investments during the period the instruments are held, and when instruments are sold or expire. Shares in external investment pools and mutual funds are equivalent to the fair value of the external investment pool and mutual funds. The investment in real estate consists of partnerships and real estate equity portfolios. These investments are valued at fair market value, which is based upon and independent appraisal or comparable sales. Fair value of investments in limited partnerships (which include private equities and hedge funds) is calculated as the System's percentage of ownership of the partner's capital reported by the partnership. Because of the inherent uncertainties in estimating fair values, it is at least reasonably possible that the estimates will change in the near term. Investments that do not have an established market are reported at estimated fair value.

### Capital Assets:

Capital assets of the Parochial Employees' Retirement System of Louisiana are carried at historical cost. Depreciation is recognized on the straight-line method over the useful lives of the assets.

### Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The System utilizes various investments instruments, which by nature, are exposed to a variety of risk levels and risk types, such as interest rate risk, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of fiduciary net position.

### Deferred Outflows and Inflows of Resources:

In addition to assets, the statements of fiduciary net position report a separate section for deferred outflows of resources that represents a consumption of net position that applies to future period(s) and will not be recognized as an outflow of resources (expense) until then. The System has one item that qualifies for reporting in this category, which is amounts related to other postemployment benefits.

### 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>: (Continued)

### Deferred Outflows and Inflows of Resources: (Continued)

In addition to liabilities, the statements of fiduciary net position report a separate section for deferred inflows of resources that represents an acquisition of net position that applies to future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The System has one item that meets the criterion for this category, which is amounts related to other postemployment benefits.

### New Accounting Standard:

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, *Leases*, which became effective for the year ended December 31, 2022. This statement outlines a single model for certain leases based on the foundational principle that leases are financings of the right-to-use an underlying asset. Under GASB Statement No. 87 a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The System has analyzed the provisions of GASB Statement No. 87, *Leases*, and has concluded that there are no leasing arrangements which qualify for adjustment or disclosure under the new standard. Therefore, no restatement of prior periods or cumulative effect adjustment recorded in the year of adoption, was considered necessary.

### 2. <u>PLAN DESCRIPTION</u>:

The Parochial Employees' Retirement System of Louisiana is the administrator of a cost sharing multiple employer defined benefit pension plan. The System was established and provided for by R.S.11:1901 of the Louisiana Revised Statute (LRS), through 2025.

The System provides retirement benefits to employees of taxing districts of a parish, or any branch or section of a parish, within the state which does not have their own retirement system and which elect to become members of the System. For the years ended December 31, 2022 and 2021, there were 222 and 218 contributing employers in Plan A, and 53 and 54 in Plan B, respectively.

Statewide retirement membership consisted of:

<u>2022</u>	PLAN A	PLAN B	TOTAL
Inactive plan members or beneficiaries			
receiving benefits	8,284	1,074	9,358
Inactive plan members entitled to but			
not yet receiving benefits	10,332	2,218	12,550
Active members	13,412	2,314	15,726
TOTAL PARTICIPATING AS OF			
VALUATION DATE	32,028	5,606	37,634

# 2. <u>PLAN DESCRIPTION</u>: (Continued)

<u>2021</u>	PLAN A	PLAN B	TOTAL
Inactive plan members or beneficiaries	0.007		0.400
receiving benefits	8,096	1,013	9,109
Inactive plan members entitled to but			
not yet receiving benefits	9,632	2,088	11,720
Active members	13,643	2,367	16,010
TOTAL PARTICIPATING AS OF			
VALUATION DATE	31,371	5,468	36,839

# **Eligibility Requirements:**

All permanent parish government employees (except those employed by Orleans, Lafourche, and East Baton Rouge Parishes) who work at least 28 hours a week shall become members on the date of employment. New employees meeting the age and Social Security criteria have up to 90 days from the date of hire to elect to participate.

As of January 1997, elected officials, except coroners, justices of the peace, and parish presidents may no longer join the Retirement System.

# Retirement Benefits:

Any member of Plan A can retire providing he/she meets one of the following criteria:

For employees hired prior to January 1, 2007:

- 1. Any age with thirty (30) or more years of creditable service
- 2. Age 55 with twenty-five (25) years of creditable service
- 3. Age 60 with a minimum of ten (10) years of creditable service
- 4. Age 65 with a minimum of seven (7) years of creditable service

For employees hired after January 1, 2007:

- 1. Age 55 with 30 years of service
- 2. Age 62 with 10 years of service
- 3. Age 67 with 7 years of service

### 2. <u>PLAN DESCRIPTION</u>: (Continued)

### Retirement Benefits: (Continued)

Any member of Plan B can retire providing he /she meets one of the following criteria:

For employees hired prior to January 1, 2007:

- 1. Age 55 with thirty (30) years of creditable service
- 2. Age 60 with a minimum of ten (10) years of creditable service
- 3. Age 65 with a minimum of seven (7) years of creditable service

For employees hired after January 1, 2007:

- 1. Age 55 with 30 years of service
- 2. Age 62 with 10 years of service
- 3. Age 67 with 7 years of service

Generally, the monthly amount of the retirement allowance of any member of Plan A shall consist of an amount equal to 3.00% of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts.

Generally, the monthly amount of the retirement allowance for any member of Plan B shall consist of an amount equal to 2.00% of the member's final average compensation multiplied by his years of creditable service. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts.

### Survivor Benefits:

Upon the death of any member of Plan A with five (5) or more years of creditable service who is not eligible for retirement, the Plan provides for benefits for the surviving spouse and minor children as outlined in the statutes.

Any member of Plan A, who is eligible for normal retirement at time of death, the surviving spouse shall receive an automatic Option 2 benefit as outlined in the statutes.

Plan B members need ten (10) years of service credit to be eligible for survivor benefits. Upon the death of any member of Plan B with twenty (20) or more years of creditable service who is not eligible for normal retirement, the Plan provides for an automatic Option 2 benefit for the surviving spouse when he/she reaches age 50 and until remarriage if the remarriage occurs before age 55. A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve (12) months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

### 2. <u>PLAN DESCRIPTION</u>: (Continued)

#### **DROP** Benefits:

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the Retirement System. DROP is an option for that member who is eligible for normal retirement.

In lieu of terminating employment and accepting a service retirement, any member of Plan A or B who is eligible to retire may elect to participate in the Deferred Retirement Option Plan (DROP) in which they are enrolled for three years and defer the receipt of benefits. During participation in DROP, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in the Deferred Retirement Option Plan on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the Board of Trustees. These subaccounts may be credited with interest based on money market rates of return, or at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this Plan must agree that the benefits payable to the participant are not the obligations of the state or the System and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

### **Disability Benefits:**

For Plan A, a member shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007 and has at least five (5) years of creditable service or if hired after January 1, 2007, has seven (7) years of creditable service, and is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, if not eligible for normal retirement, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to 3.00% of the member's final average compensation multiplied by his years of service, not to be less than 15, or 3.00% multiplied by years of service assuming continued service to age 60 for those members who are enrolled prior to January 1, 2007 and later.

### 2. <u>PLAN DESCRIPTION</u>: (Continued)

### **Disability Benefits: (Continued)**

For Plan B, a member shall be eligible to retire and receive a disability benefit if he/she was hired prior to January 1, 2007 and has at least five (5) years of creditable service or if hired after January 1, 2007, has seven (7) years of creditable service, and is not eligible for normal retirement, and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, if not eligible for normal retirement, a member of Plan B shall be paid a disability benefit equal to the lesser of an amount equal to 2.00% of the member's final average compensation multiplied by years of service, to age 60 for those members who are enrolled prior to January 1, 2007 and to age 62 for those members who are enrolled January 1, 2007 and later.

### Cost of Living Increases:

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2.00% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2.00% of the member's benefit paid on October 1, 1977, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.50% for retirees 62 and older. (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.50% cost of living adjustment commencing at age 55.

### 3. CONTRIBUTIONS AND RESERVES:

#### **Contributions**:

Contributions for all members are established by statute at 9.50% of compensation for Plan A members and 3.00% of compensation for Plan B. The contributions are deducted from the member's salary and remitted by the participating employer.

According to state statute, contributions for all employers are actuarially determined each year. For the years ended December 31, 2022 and 2021, the actuarially determined contribution rate was 7.10% and 10.38%, respectively, of member's compensation for Plan A and 4.93% and 7.07%, respectively, of member's compensation for Plan B. The actual contribution rate for each of the fiscal years ending December 31, 2022 and 2021 was 11.50% and 12.25% respectively, for Plan A and 7.50%, for Plan B.

According to state statute, the System also receives <sup>1</sup>/<sub>4</sub> of 1.00% of ad valorem taxes collected within the respective parishes except for Orleans and East Baton Rouge parishes. The System also receives revenue sharing funds each year as appropriated by the Legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to

# 3. <u>CONTRIBUTIONS AND RESERVES</u>: (Continued)

### Contributions: (Continued)

the member's compensation. These additional sources of income are used as additional employer contributions and are considered support from non-contributing entities.

Administrative costs of the System are financed through employer contributions.

### Reserves:

Use of the term "reserve" by the System indicates that a portion of the fund balances is legally restricted for a specific future use. The nature and purpose of these reserves are explained below:

### a. Annuity Savings:

The Annuity Savings was created by state law and is credited with contributions made by the members of the System. When a member terminates his service, or upon his death before qualifying for a benefit, the refund of his contributions is made from this reserve. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings to the Annuity Reserve. When a member retires, the amount of his accumulated contributions is transferred to Annuity Reserve to fund part of the benefits. Plan A's Annuity Savings balance was \$512,615,320 and \$500,040,376 for December 31, 2022 and 2021, respectively. The balance for Plan B was \$28,441,694 and \$27,844,616 as of December 31, 2022 and 2021, respectively.

# b. Pension Accumulation Reserve:

The Pension Accumulation Reserve was created by state law and consists of contributions paid by employers, interest earned on investments, administrative expenses, and any other income or expense not covered by other accounts. This reserve account is charged annually with an amount, determined by the actuary, to be transferred to the Annuity Reserve to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by the other accounts. The Pension Accumulation Reserve for Plan A as of December 31, 2022 and 2021 was \$1,330,861,846 and \$2,173,654,573, respectively. The balance for Plan B was \$185,113,188 and \$263,158,215 as of December 31, 2022 and 2021, respectively.

# c. <u>Annuity Reserve</u>:

The Annuity Reserve was created by state law and consists of the reserves for all pensions, excluding cost of living increases, granted to retired members and is the reserve account

# 3. <u>CONTRIBUTIONS AND RESERVES</u>: (Continued)

### <u>Reserves</u>: (Continued)

### c. Annuity Reserve: (Continued)

from which such pensions and annuities are paid. Survivors of deceased beneficiaries also receive benefits from this reserve account. The Annuity Reserve as of December 31, 2022 and 2021 for Plan A was \$2,306,667,540 and \$2,175,658,766, respectively. The balance for Plan B was \$165,671,353 and \$146,741,543 as of December 31, 2022 and 2021, respectively.

### d. Deferred Retirement Option Account:

The Deferred Retirement Option account was created by state law and consists of the reserves for all members who upon retirement eligibility elect to deposit into this account an amount equal to the member's monthly benefit if he/she had retired. A member can only participate in the program for three years, and upon termination may receive his/her benefits in a lump sum payment or a true annuity. The Deferred Retirement Option balance for Plan A as of December 31, 2022 and 2021 was \$58,657,279 and \$56,700,837, respectively. The balance for Plan B as of December 31, 2022 and 2021 was \$5,773,128 and \$6,453,303, respectively.

# e. Funding Deposit Account:

The Funding Deposit Account was created by state law and consists of excess contributions collected by the System. The excess funds earn interest at the Board approved actuarial valuation rate and are credited to the fund at least once a year. These funds are due to the System freezing the employer rate at a higher rate than actuarially required. The excess funds can be used for the following purposes: (1) reduce the unfunded accrued liability, (2) reduce the future normal costs, and/or (3) pay all or a portion of any future net direct employer contributions (4) to provide funding for a cost-of-living increase. In accordance with a motion authorized by the Board of Trustees, funds were withdrawn from the Funding Deposit Account, for Plan A and Plan B, in order to fund a cost-of-living increase for retirees age 62 and older effective January 1, 2023. The board did not grant a cost-of-living increase for Plan A as of December 31, 2022 and 2021 was \$65,263,833 and \$69,983,070, respectively. The balance for Plan B as of December 31, 2022 and 2021 was \$5,727,180 and \$5,194,363, respectively.

### 4. <u>NET PENSION LIABILITY (ASSET) OF EMPLOYERS</u>:

The components of the net pension liability of the System's employers for Plan A and Plan B determined in accordance with GASB No. 67 as of December 31, 2022 and 2021 are as follows:

		PLA	<u>N A</u>	PLA	<u>N B</u>
		<u>2022</u>	<u>2021</u>	<u>2022</u>	<u>2021</u>
Total Pension Liability	\$ 4	4,658,944,882	\$ 4,504,994,211	\$ 414,535,459	\$ 393,510,971
Plan Fiduciary Net Position	4	4,274,065,818	4,976,037,622	390,726,543	449,392,040
Employers' Net Pension					
Liability/(Asset)	\$	384,879,064	\$ (471,043,411)	\$ 23,808,916	\$ (55,881,069)
Plan Fiduciary Net Position as a					
percentage of the Total Pension	1				
Liability		91.74%	110.46%	94.26%	114.20%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Actuarially determined amounts regarding the net pension liability are subject to continual revision as actual results are compared to past expectations, and new estimates are made about the future.

The actuarial assumptions used in the December 31, 2022 valuation were based on the assumptions used in the December 31, 2022 actuarial funding valuation, which were based on results of an actuarial experience study for the period of January 1, 2013 through December 31, 2017. The actuarial assumptions used in the December 31, 2021 valuation were based on the assumptions used in the December 31, 2021 valuation, which were based on results of an actuarial experience study for the period of January 1, 2013 through December 31, 2017. The required supplementary for the period of January 1, 2013 through December 31, 2017. The required Schedules of Employers' Net Pension Liability (Asset) located in required supplementary information following the Notes to the Financial Statements presents multi-year trend information regarding whether the Plan's fiduciary net positions are increasing or decreasing over time relative to the total pension liability. The total pension liability as of December 31, 2022 and 2021 is based on actuarial valuations for the same period, updated using generally accepted actuarial procedures.

# 4. <u>NET PENSION LIABILITY (ASSET) OF EMPLOYERS</u>: (Continued)

Information on the actuarial valuation and assumptions is for both Plan A and Plan B is as follows:

Valuation date	December 31, 2022	December 31, 2021
Actuarial cost method	Entry Age Normal Cost	Entry Age Normal Cost
Investment rate of return	6.40%, net of pension plan investment expense, including inflation	6.40%, net of pension plan investment expense, including inflation
Expected remaining service lives	4 years	4 years
Inflation rate	2.30%	2.30%
Mortality	Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants.	Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants.
Salary increases	4.75% - Plan A, and 4.25% - Plan B	4.75% - Plan A, and 4.25% - Plan B

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up), and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.10% for each of the years ended December 31, 2022 and 2021, and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.70% and 7.00% for the years ended December 31, 2022 and 2021, respectively.

# 4. <u>NET PENSION LIABILITY (ASSET) OF EMPLOYERS</u>: (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2022 are summarized in the following table:

		Long-Term Expected
	Target Asset	Portfolio Real Rate
Asset Class	Allocation	of Return
Fixed Income	33%	1.17%
Equity	51%	3.58%
Alternatives	14%	0.73%
RealAssets	2%	0.12%
Totals	100%	5.60%
Inflation		2.10%
Expected Arithmetic Nominal Return	n	7.70%

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

		Long-Term Expected
	Target Asset	Portfolio Real Rate
Asset Class	Allocation	of Return
Fixed Income	33%	0.85%
Equity	51%	3.23%
Alternatives	14%	0.71%
Real Assets	2%	0.11%
Totals	100%	4.90%
Inflation		2.10%
Expected Arithmetic Nominal Retur	m	7.00%

The discount rate used to measure the total pension liability was 6.40% for each of the years ended December 31, 2022 and 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### 4. <u>NET PENSION LIABILITY (ASSET) OF EMPLOYERS</u>: (Continued)

In accordance with GASB 67, regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following presents the net pension liability of the participating employers calculated as of December 31, 2022 and 2021 using the discount rate of 6.40%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.40%), or one percentage point higher (7.40%), than the current rate.

Changes in the discount rate for the years ended December 31, 2022 and 2021 for Plan A are as follows:

		PLAN A				
		Current				
	1% Decrease	Discount Rate	1% Increase			
	5.40%	6.40%	7.40%			
Net Pension Liability (Asset) - December 31, 2022	\$ 951,818,910	\$ 384,879,064	\$ (90,427,343)			
	5.40%	6.40%	7.40%			
Net Pension Liability (Asset) - December 31, 2021	\$ 83,977,976	\$ (471,043,411)	\$ (935,975,463)			

Changes in the discount rate for the years ended December 31, 2022 and 2021 for Plan B are as follows:

		PLAN B	
		Current	
	1% Decrease	Discount Rate	1% Increase
	5.40%	6.40%	7.40%
Net Pension Liability (Asset) - December 31, 2022	\$ 77,041,714	\$ 23,808,916	\$ (20,751,830)
	5.40%	6.40%	7.40%
Net Pension Liability (Asset) - December 31, 2021	\$ (4,825,756)	\$ (55,881,069)	\$ (98,577,018)

### 5. <u>CAPITAL ASSETS</u>:

The following is a summary of capital assets at cost less accumulated depreciation:

	Beginning			Ending
<u>2022</u>	Balance	Additions 4 1	Deletions	Balance
Land	\$ 120,618	\$ -	\$ -	\$ 120,618
Building and improvements	755,010	-	-	755,010
Office equipment and furniture	253,601	-	-	253,601
Less: accumulated depreciation	(526,519)	(19,712)	_	(546,231)
	\$ 602,710	\$ (19,712)	\$ -	\$ 582,998
	Beginning			Ending
<u>2021</u>	Balance	Additions	<b>Deletions</b>	<u>Balance</u>
Land	\$ 120,618	\$ -	\$ -	\$ 120,618
Building and improvements	755,010	-	-	755,010
Office equipment and furniture	253,601	-	-	253,601
Less: accumulated depreciation	(506,698)	(19,821)		(526,519)
	\$ 622,531	\$ (19,821)	\$ -	\$ 602,710

Depreciation expense for the year ended December 31, 2022 and 2021 was \$19,712 and \$19,821, respectively.

### 6. **INVESTMENTS AT FAIR VALUE**:

The System categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The System has the following recurring fair value measurements as of December 31, 2022 and 2021, respectively:

# 6. <u>INVESTMENTS AT FAIR VALUE</u>: (Continued)

### 6. <u>INVESTMENTS AT FAIR VALUE</u>: (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Investments classified in Level 3 of the fair value hierarchy are valued using unobservable inputs and are not directly corroborated with market data.

The unfunded commitments and redemption terms for investments measured at the net asset value (NAV) per share or its equivalent as of December 31, 2022 is presented on the following table:

# 6. <u>INVESTMENTS AT FAIR VALUE</u>: (Continued)

### Equity Funds:

Equity funds consist of seven funds with various objectives and portfolio characteristics. There is one index strategy and six actively managed strategies. Two of the funds (one active and one passive) invest primarily in stocks of large U.S. domiciled companies. The remaining five funds invest in stocks of foreign based entities including both those based in developed and emerging markets. The fair value of the investments in these funds has been determined using the NAV per share (or equivalent) of the investments. Unit valuation ranges from daily to monthly and requirements for redemption of units range from advanced notice of one to fifteen days. Any amount redeemed will be paid within three trading days or four trading days after the beginning of the following month.

### Fixed Income Funds:

Fixed income funds fall into one of three broad strategies within the fixed income allocation of the portfolio. The first strategy is focused primarily on investment grade bonds issued by companies domiciled in the United States, and benchmarked to the Barclays Aggregate Bond and/or Barclays Credit Indexes. There are two funds that fall in that category. The second strategy consists of two funds and focuses on investments in below investment grade sectors of the bond and fixed income markets including securitized issues, bonds, and bank loans, including private transactions with banking institutions. The third broad strategy is invested in bonds primarily of governments and corporations headquartered outside of the United States, some of which are rated below investment grade. In addition, this strategy will actively manage the currency exposure of its holdings in foreign bonds. There are three funds in this category.

### Alternative Investments:

The portfolio invests in alternative assets to increase the level of overall diversification. The funds in this area fall into one of three general areas, hedge funds, real assets (infrastructure) outside of real estate, and private equity investments.

Hedge fund investments consists of one fund that employs multiple strategies (long/short equity, stat-arb, fixed income relative value, distressed debt, activism) to achieve capital appreciation and generate income. The fair value of the investments in these funds has been determined using the NAV per share (or equivalent) of the investments. Unit valuation is monthly and redemption of units requires advance notice of 95 days written notice or up to one year of fund commencement date. Any amount redeemed will be paid within thirty days of the annual redemption date.

### 6. <u>INVESTMENTS AT FAIR VALUE</u>: (Continued)

### Alternative Investments: (Continued)

Real estate and real asset investments are comprised of two open ended funds and eight closed end funds. The real estate funds invest in well located, institutional quality assets in markets mostly throughout the United States to benefit from durable income streams, partial inflation hedge, and appreciation over the mid to long term. The funds are diversified by property type (office, industrial, apartment, retail), economic exposure, and geography. The fair value of the investments in these funds has been determined using the NAV per share (or equivalent) of the System's ownership interest in partners' capital. With respect to the open-ended funds, unit valuation is quarterly and redemption of units requires one quarter notification. Any amount redeemed will be paid the following quarter subject to cash availability. The closed end funds investments are not eligible for redemptions; however, distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated between ten to fifteen years from the commencement of the fund. Also included is a closed end partnership that invests in timber properties located in the United States. The partnership will be fully liquidated within 10-15 years of the initial investment. The two funds that are invested in infrastructure closed end partnerships will convert to open ended structures in June of 2024. At that point, there will be limited quarterly liquidity available to investors.

Private equity investments consist of two funds. These funds invest in the equity and some debt of companies that are privately held, rather than publicly traded on a stock exchange. These funds employ a combination of strategies (venture capital, buyout, growth equity, mezzanine, and co-investments) to achieve return levels in excess of public market returns and expand the diversification of the portfolio. The fair value of the investments in these funds has been determined using the NAV per share (or equivalent) of the System's ownership interest in partners' capital. These investments are not eligible for redemptions; however, distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated between 10 to 15 years from the commencement of the fund.

### 7. <u>REQUIRED SUPPLEMENTARY SCHEDULE INFORMATION:</u>

The information in the Required Supplementary Schedules on pages 46 through 62 is designed to provide information about the System's progress made in accumulating sufficient assets to pay benefits.

### 8. <u>DEPOSITS AND INVESTMENTS</u>:

The following are the components of the Plan' deposits and investments at December 31, 2022 and 2021:

	<u>2022</u>	2021
Deposits (bank balance)	\$ 145,816,811	\$ 169,806,880
Investments	4,506,277,300	5,243,670,555
	\$4,652,094,111	\$ 5,413,477,435

### 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

The System maintains cash balances deposited in financial institutions. During the years ended December 31, 2022 and 2021, the System's bank deposits were fully covered by federal depository insurance or pledged collateral.

### Investments:

In accordance with LRS 11:263, the System is authorized to invest under the Prudent-Man Rule. The Prudent-Man Rule requires each fiduciary of a retirement system and each board of trustees to act collectively on behalf of the System and to exercise the judgment and care under the circumstances then prevailing that an institutional investor of ordinary prudence, discretion, and intelligence exercises in the management of large investments entrusted to it, not in regard to speculation but in regard to the permanent disposition of funds considering probable safety of capital as well as probable income. Notwithstanding the Prudent-Man Rule, the System shall not invest more than 55% of the total portfolio in common stock.

Short-term investments in the amount of \$38,100,861 for the year ended December 31, 2022 consist of amounts invested in a money market mutual fund. Short-term investments in the amount of \$64,499,808 for the year ended December 31, 2021 consist of balances invested in a money market mutual fund and in U.S. Treasury Bills. As of December 31, 2021, the System's investment in the money market mutual fund was \$30,500,492. The money market mutual fund account is established in the name of the System's custodian as an omnibus account for all custodial clients invested in the fund. For the year ended December 31, 2021, short-term investments in the amount of \$33,999,316, respectively, consisted of U. S. Treasury Bills managed by a separate money manager, held by the System's custodian in the name of the System.

### Concentration of Credit Risk:

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of the System's investment in a single issuer or market exposure.

The System's investment policy specified the following investment parameters:

	2022	2021
Equities	41%-56%	41%-56%
Fixed income	28%-44%	28%-44%
Alternative investments	0%-20%	0%-20%

At December 31, 2022 and 2021, the components of the System's investment portfolio fell within the allowable ranges.

### 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

#### Concentration of Credit Risk: (Continued)

The System had the following investments that represent 5% or more of the net position as of December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Stock Index Funds		
LSV Large Cap Value	\$ 438,443,896	\$ 463,847,743
LSV Emerging Markets	239,555,877	273,277,818
SSGA - 1000 Index	-	311,573,837
Artisan MidCap Growth	-	277,979,677
Loomis Large Cap Growth	304,915,905	419,806,693
Fixed Income Funds		
Loomis Sayles Fixed Fund	252,134,609	305,819,876

### Credit Risk:

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The standardized rating systems are a good tool with which to assess credit risk on debt obligations. The System's investment policy requires most debt investments to be rated A to BBB- depending on the investment. Investments in a fixed income structured credit strategy may invest in securities of any credit rating (including unrated securities) and may invest without limit in higher risk, below investment-grade debt securities. Interest rate swaps and currency swaps must have a credit quality rating of not less than A per S&P. Bank loan fixed income funds may invest, without limit, in bank loans that are below investment grade. Bank loan fixed income funds may invest in unrated loans, whether or not determined by the loan fund manager to be investment grade or better according to the methodology used by the Barclays Capital Global Bond Indices. Emerging market fixed income funds may invest without limit in higher risk, below investment-grade debt securities.

The following table provides credit rating information for the PERS' bond holdings at December 31, 2022 and 2021.

#### 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

	\$165,322,395		\$194,068,408

#### Interest Rate Risk:

Interest rate risk is defined as the risk that changes in the interest rates will adversely affect the fair value of an investment. The risk is applicable to debt investments with fair values that are sensitive to changes in interest rates. One indicator of the measure of interest rate risk is the dispersion of maturity dates for debt instruments. The System's policy on interest rate risk requires fixed income investments not to exceed between 1 to 10 years in duration depending on the investment. Emerging market funds' average duration may be outside this range at times. Structured credit and high yield fixed income funds have no limits and can invest in securities of any maturity or duration.

The following table shows the PERS' fixed income investments and maturities in actively managed accounts at December 31, 2022.

		Investment Maturities (in Years)					
Investment	Fair	Less			Greater		
Type	Value	Than 1	<u>1-5</u>	<u>6-10</u>	<u>Than 10</u>

### Fixed Income Funds:

The System also invests in fixed income funds in the amount \$1,255,993,379 and \$1,309,020,291 for the years ended December 31, 2022 and 2021, respectively, as follows:

- a. The System invested in Loomis Sayles Core Plus Full Discretion Fund. The fair market value of the fund was of \$252,134,609 and \$305,819,876 for the years ended December 31, 2022 and 2021, respectively. The Fund will invest at least 90% of the market value of its assets in fixed income securities. It may invest up to 10% of the market value of its assets in securities rated below investment grade, but it primarily invests in investment grade fixed income securities. The average credit quality of the Fund is A3 according to Moody's Investors Services. The average portfolio duration of the Loomis Sayles Core Plus Full Discretion Fund was 5.52 years.
- b. The System invested in Brandywine Global Opportunistic Fixed Income Fund. The fair market value of the fund was \$213,984,792 and \$255,098,017 for the years ended December 31, 2022 and 2021, respectively. The objective of the Global Opportunistic Fixed Income portfolio is to achieve interest income and long-term capital appreciation by investing in U.S. fixed income instruments and non-U.S. developed and emerging markets sovereign debt securities. The Fund concentrates its investments in bonds of countries having the best value in the form of high real interest rates. The Fund had an average credit quality rating of A+ according to Standard & Poor's rating service. The average portfolio duration of the Brandywine Global Opportunistic Fixed Income Fund was 8.93 years.

# 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

### Fixed Income Funds: (Continued)

- c. The System invested in the Prudential Private Place Bond Separate Account (PRIVEST). The fair market value of the investment was \$158,305,762 and \$179,960,630 for the years ended December 31, 2022 and 2021, respectively. The objective of PRIVEST is to achieve a long-term total return greater than public bond portfolios of comparable credit quality and duration by primarily investing in privately placed corporate debt securities, with credit qualities ranging primarily from A+ to BBB+. The account had an average credit quality rating of BBB+ according to Standard & Poor's rating service. The average portfolio duration of PRIVEST was 6.24 years.
- d. The System invested in Stone Harbor Emerging Market Debt Fund. The fair market value of the fund was \$129,428,009 and \$231,757,209 for the years ended December 31, 2022 and 2021, respectively. The Fund seeks to provide capital appreciation by identifying and investing in countries it considers to be emerging markets. The Fund normally will invest at least 80% of its net assets (plus any borrowings made for investment purposes) in Emerging Markets Corporate Debt Investments. The Fund had an average credit quality rating of BB according to the Standard & Poor's rating service. The average portfolio duration of the Stone Harbor Emerging Market Debt Fund was 6.53 years.
- e. The System invested in Golden Tree Multi-Sector Cayman, Ltd. The fair market value of the investment was \$221,666,247 and \$235,675,537 for the years ended December 31, 2022 and 2021, respectively. The objective of the Golden Tree Fixed Income portfolio is to achieve attractive risk adjusted returns by investing across a broad universe of credit-related investments, including, but not limited to, bank debt, high yield bonds, and Structured Products. The Fund seeks to generate mid to high single digit net returns across market cycles by investing in securities which meet the System's disciplined investment process and by allocating dynamically across sectors based on the most attractive risk-adjusted returns. The Fund had an average credit quality rating of BB according to the Standard & Poor's rating service. The average portfolio duration of the Golden Tree Fixed Income Fund was 2.3 years.
- f. The System invested in ArrowMark Credit Fund, LP. The fair market value of the investment was \$210,543,960 and \$100,709,022 for the years ended December 31, 2022 and 2021, respectively. The objective of the ArrowMark Credit Fund is to generate returns through income generation and, secondarily, capital appreciation by holding a diversified portfolio of regulatory capital relief/significant risk transfer transactions. Eligible investments include Regulatory Capital Relief Investments, foreign currency, cash, cash equivalents, Short-Duration Investments, and derivatives for currency hedging. According to Standard & Poor's rating service, 9.58% of the portfolio had an average credit quality rating of AAA, 32.14% had an average credit rating of BBB to BBB-, 46.34% had an average credit rate of BB+ to BB-, 12.08% had an average credit rating

### 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

#### Fixed Income Funds: (Continued)

of B+ to B- and -0.13% was not rated. The average portfolio duration of the ArrowMark Credit Fund was 0.23 years.

g. During the year ended December 31, 2022, the System invested in T. Rowe Price Trust. The fair market value of the investment was \$69,930,000 at December 31, 2022. The objective of the T. Rowe Price Trust is to seek to provide high current income and capital appreciation. The T. Rowe Price Trust will normally invest at least 80% of its net assets in debt securities issued by governments, government agencies, organizations or companies located in emerging market countries. The T. Rowe Price Trust had an average credit quality rating of BBB according to the Standard & Poor's rating service. The average portfolio duration of the T. Rowe Price Trust was 4.05 years.

#### Custodial Credit Risk:

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party.

The System has no formal policy regarding custodial credit risk. The money market funds are established in the name of the System's custodian. The money market funds are managed by JP Morgan Chase, who also serves as custodian. The System is exposed to custodial credit risk at December 31, 2022 and 2021 for short-term investments in the amount of \$38,100,861 and \$30,500,492, respectively, since these investments are not in the name of the System.

### Foreign Currency Risk:

Foreign currency risk is defined as the risk that changes in the exchange rates will adversely affect the fair value of an investment.

The System's policy regarding foreign currency risk states that the portfolio's exposure may be hedged to U.S. dollars. Cross hedging to non-U.S. currencies is permitted. Hedging instruments may include options, forward foreign currency contracts and futures contracts.

The System invest in various foreign holdings which are traded in the United States and denominated in U.S. dollars. However, the System is indirectly exposed to foreign currency risk through investment in various foreign equities and foreign fixed income funds and other foreign securities, through foreign currency exchange. The foreign currency hedge is designed to offset this risk. See note 11 for derivative investments. The System's foreign currency hedge is exposed to foreign currency risk through holdings in foreign cash as of December 31, 2022 and 2021 as follows:

# 8. <u>DEPOSITS AND INVESTMENTS</u>: (Continued)

Foreign Currency Risk: (Continued)

Currency	<u>2022</u>		<u>2021</u>	
Norwegian Krone	\$	(45,021)	\$	72,399
Swedish Krone		385,278	1	,122,655
Total	\$	340,257	\$ 1	,195,054

### Money-Weighted Rate of Return:

For the years ended December 31, 2022 and 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, for Plan A was -11.92% and 11.28% and for Plan B was -11.92% and 11.53%, respectively. The money-weighted return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

### 9. <u>TAX QUALIFICATION</u>:

Effective January 1, 1993, the System is a tax qualified plan under IRS code section 401(a). All member contributions are treated as tax deferred for federal and state income tax purposes.

### 10. OTHER POSTEMPLOYMENT BENEFITS:

Substantially all System employees become eligible for postemployment health care and life insurance benefits if they reach normal retirement age while working for the System. These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the System. At December 31, 2022 and 2021, three and four retirees, respectively, were receiving postemployment benefits.

### Plan Description:

The System's employees may participate in the State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan), an agent multiple-employer defined benefit OPEB Plan that provides medical and life insurance to eligible active employees, retirees and their beneficiaries. The State administers the Plan through the Office of Group Benefits (OGB). LRS 42:801-883 assigns the authority to establish and amend benefit provisions of the Plan. The Office of Group Benefits does not issue a publicly available financial report of the OPEB Plan; however, it is included in the State of Louisiana Annual Comprehensive Financial Report (ACFR). You may obtain a copy of the ACFR on the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/doa/osrap/.

#### 10. <u>OTHER POSTEMPLOYMENT BENEFITS</u>: (Continued)

#### **Benefits Provided:**

The OPEB Plan provides benefits such as death benefits, life insurance, disability, and longterm care that are paid in the period after employment and that are provided separately from a pension plan, as we all as healthcare benefits paid in the period after employment. The OPEB plan does not provide termination benefits or termination payments for sick leave.

#### **Contributions**:

The contribution requirements of plan members and the System are established and may be amended by LRS 42:801-883. The OPEB Plan is currently funded on a pay-as-you-go basis through a combination of retiree and System contributions. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving post-employment benefits. The retirees contribute to the cost of their postemployment benefits based on a service schedule. Contribution amounts vary depending on what healthcare provider is selected from the plan and if the member has Medicare coverage. Employee premiums for these benefits totaled \$7,509 and \$6,455 for the years ended December 31, 2022 and 2021, respectively. Employer contributions to the OPEB Plan from the System were \$12,783 and \$20,835 for the years ended December 31, 2022 and 2021, respectively.

Employer contributions are based on plan premiums and the employer contribution percentage. This percentage is based on the date of participation in an OGB plan (before or after January 1, 2002) and employee years of service at retirement. Employees who began participation or rejoined the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65 who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer is based on the following schedule:

Retiree	
Share	State Share
81%	19%
62%	38%
44%	56%
25%	75%
	<u>Share</u> 81% 62% 44%

In accordance with a motion authorized by the Board of Trustees, the System adopted the health insurance policy permitting payment of the employer rate for health insurance using the 75% participation rate schedule published by the OGB plan for any retiree who was employed by the System for 20 years or more and who maintained health insurance coverage through OGB for at least 10 years or more prior to their date of retirement.

### 10. OTHER POSTEMPLOYMENT BENEFITS: (Continued)

#### Contributions: (Continued)

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retiree and spouses of retirees, subject to maximum values. The retiree pays 50% of the Prudential Company of America premium. The retiree pays 100% of the Prudential Company of America premium for spousal coverage. The employer pays the remaining amount.

### <u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to OPEB:

At December 31, 2022 and 2021, the System reported a total OPEB liability of \$454,181 and \$678,611, respectively. The total OPEB liability was measured as of July 1, 2022 and 2021, respectively, and was determined by an actuarial valuation as of that date.

For the years ended December 31, 2022 and 2021, the System recognized OPEB benefit of \$76,901 and \$34,056, respectively. As of December 31, 2022 and 2021, the System reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>2022</u>			
	Deferred		Deferred	
	Ou	tflows of	Inflows of

# 10. OTHER POSTEMPLOYMENT BENEFITS: (Continued)

# <u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to OPEB</u>: (Continued)

Deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date of \$3,573 will be recognized as a reduction of the total OPEB liability in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (benefit) as follows:

Year Ended	
December 31	Amount
2023	\$ (87,717)
2024	(40,040)
2025	(44,054)
2026	(40,891)
	\$ (212,702)

# Actuarial Methods and Assumptions:

The total OPEB liability in the July 1, 2022 and 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	July 1, 2022	July 1, 2021
Inflation	2.4%	2.4%
Salary Increases	Consistent with the pension valuation assumptions	Consistent with the pension valuation assumptions
Investment Rate of Return	4.09%, based on the S&P Municipal Bond 20-Year High Grade Rate Index	2.18%, based on the S&P Municipal Bond 20-Year High Grade Rate Index
Healthcare Cost Trend	7.00% - 4.50%	7.00% - 4.50%
Mortality Rates	Combined Healthy Mortality Table, projected on a fully generational basis by Mortality Improvement Scale MP-2018. For existing disabled lives, the RP- 2014 Disabled Retiree Mortality	generational basis by Mortality Improvement Scale MP-2018. For existing disabled lives, the RP- 2014 Disabled Retiree Mortality Table, projected on a fully

### 10. OTHER POSTEMPLOYMENT BENEFITS: (Continued)

#### Actuarial Methods and Assumptions: (Continued)

The actuarial assumptions used in the July 1, 2022 and 2021 valuation were based on the results of actuarial experience studies performed for the Statewide Retirement Systems. As a result of the 2022 and 2021 actuarial experience studies, the assumptions were adjusted in the July 1, 2022 and 2021 actuarial valuation to more closely reflect actual experience.

#### Discount Rate:

The discount rate used to measure the total OPEB liability at December 31, 2022 and 2021 was 4.09% and 2.18%, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at contractually required rates. Based on this assumption and as the OPEB Plan is unfunded, the OPEB plan's fiduciary net position was not projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was determined using a discount rate that reflects the 20-year tax-exempt municipal bond yield or index rate.

The discount rate used to measure the total OPEB liability was increased to 4.09% in the July 1, 2022 valuation from 2.18% as of July 1, 2021.

### Sensitivity of the System's OPEB Liability to Changes in the Discount Rate:

The following presents the System's total OPEB liability, as well as what the System's total OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate as of December 31, 2022 and 2021:

		2022	
	1.0%	Discount	1.0%
	Decrease	Rate	Increase
	<u>(3.09%)</u>	<u>(4.09%)</u>	<u>(5.09%)</u>
System's total OPEB liability	\$ 521,770	\$ 454,181	\$ 398,526
		<u>2021</u>	
	1.0%	Discount	1.0%
	Decrease	Rate	Increase
	<u>(1.18%)</u>	(2.18%)	<u>(3.18%)</u>
System's total OPEB liability	\$ 790,086	\$ 678,611	\$ 588,834

## 10. OTHER POSTEMPLOYMENT BENEFITS: (Continued)

### Sensitivity of the System's OPEB Liability to Changes in the Healthcare Cost Trend Rates:

The following presents the System's total OPEB liability, as well as what the System's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates as of December 31, 2022 and 2021:

	1.0% Decrease	2022 Healthcare Cost Trend <u>Rate</u>	1.0% Increase
System's total OPEB liability	\$ 397,012	\$ 454,181	\$ 524,626
	1.0% Decrease	<u>2021</u> Healthcare Cost Trend <u>Rate</u>	1.0% Increase
System's total OPEB liability	\$ 588,577	\$ 678,611	\$ 791,638

### Payables to the OPEB Plan:

The System reported \$-0- for outstanding contributions to the OPEB plan required for each of the years ended December 31, 2022 and 2021.

### 11. **DERIVATIVES**:

The System reports derivatives in accordance with Governmental Accounting Standards Board (GASB) Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. GASB 53 requires investment derivatives to be recorded at fair value and requires certain disclosures.

The System invests in futures contracts to mitigate exposure to foreign currency risk and improve the overall risk / return profile of the System's investment portfolio. The System invests in currency futures to hedge against the impact foreign currency fluctuations may have on the dollar value of its investments. In addition, the System invests in currencies that it anticipates will appreciate 2.50% - 3.00% per year on average in a dollar value similar to the notional amount of the currencies hedged. The fair values of the foreign currency futures contracts were estimated based on the present value of their estimated future cash flows.

### 11. <u>DERIVATIVES</u>: (Continued)

Futures contracts are standardized, exchange-traded contracts to purchase or sell a specific financial instrument at a predetermined price. Gains and losses on futures contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. The exchange assumes the risk that the counterparty will not pay and generally requires margin payments to minimize such risk. Futures are used primarily as a tool to increase or decrease market exposure to various asset classes. At December 31, 2022 and 2021, the System has the following derivative instruments categorized as investment derivative instruments:

	Changes in Fa	air Value	Fair V	Value	Notional
2022:	<b>Classification</b>	Amount	<b>Classification</b>	Amount	Amount
Investment derivatives: Foreign Currency Futures	Net app/(depr)	\$ (9,328,640)	Investments payable	\$ (2,752,853)	\$ (510,487,926)
Foreign Currency Futures	Net app/(depr)	\$ 2,473,009	Investments receivable	\$ 184,265	\$ (145,099,194)
	Changes in F	air Value	Fair V	Value	Notional
2021:	<b>Classification</b>	Amount	<b>Classification</b>	Amount	Amount
Investment derivatives:					
Foreign Currency Futures	Net app/(depr)	\$ (7,445,217)	Investments payable	\$ (2,642,348)	\$ (515,116,274)
Foreign Currency	Net app/(depr)	\$ (120,928)	Investments	\$ 14,696	\$ 64,212,306

### Credit Risk:

All futures contracts held by the System at December 31, 2022 and 2021 were exchangetraded, thereby minimizing counterparty credit risk through the use of a futures clearing merchant. The clearing merchant acts as an intermediary who contracts with the buyer and seller to facilitate trades. The National Securities Clearing Corporation (NSCC), a subsidiary of the Depository Trust Clearing Corporation (DTCC), oversees the responsibilities and laws governing the clearing merchants.

### Foreign Currency Risk:

The System's futures contracts are denominated in U.S. dollars. Although denominated in U.S. dollars, the System's futures contracts are indirectly exposed to foreign currency risk, at December 31, 2022 and 2021, due to currency fluctuations in exchanges rates.

### Interest Rate Risk:

The System is not exposed to interest rate risk on foreign currency futures.

2021		18,035		25,310		(7,275)	852,271	2.97%	79.62%
2022		14,602		15,628		(1,026)	963,212	1.62%	47.15%

Schedule is intended to show information for 10 years. Additional years will be presented as they become available.

\* The amounts presented for each fiscal year were determined as of July 1 of corresponding fiscal year.

### 1. <u>SCHEDULE OF CHANGES IN NET PENSION LIABILITY:</u>

The total pension liability contained in this schedule was provided by the System's actuary, Curran Actuarial Consulting, Ltd. The net pension liability is measured as the total pension liability less the amount of the fiduciary net position of the System.

### 2. <u>SCHEDULE OF EMPLOYERS' NET PENSION LIABILITY:</u>

The schedule of employers' net pension liability shows the percentage of the System's employers' net pension liability as a percentage of covered payroll. The employers' net pension liability is the liability of contributing employers to members for benefits provided through the System. Covered payroll is the payroll on which contributions to the system are based.

# 3. <u>SCHEDULE OF CONTRIBUTIONS – EMPLOYERS AND NON-EMPLOYER</u> <u>CONTRIBUTING ENTITIES</u>:

The difference between the actuarially determined employer contributions for employers and non-employer contributing entities and the contributions received and the percentage of contributions received to covered payroll is presented in this schedule. Ad valorem taxes and revenue sharing funds received from the State of Louisiana are considered to be support from non-employer contributing entities.

### 4. <u>SCHEDULE OF INVESTMENT RETURNS</u>:

The annual money-weighted rate of return is shown in this schedule. The money-weighted rate of return is calculated as the internal rate of return on pension plan investments, net of pension plan investment expense. This expresses investment performance adjusted for the changing amounts actually invested throughout the year, measured using monthly inputs with expenses measured on an accrual basis.

### 5. <u>ACTUARIAL ASSUMPTIONS – NET PENSION LIABILITY:</u>

The information presented in the required supplementary schedules was used in the actuarial valuation for purposes of determining the actuarially determined contribution rate. The assumptions and methods used for the actuarial valuation were recommended by the actuary and adopted by the Board. Additional information on the assumptions and methods used as of the latest actuarial valuation are disclosed in the notes to the financial statements footnote 4, Net Pension Liability (Asset) of Employers.

### 6. <u>SCHEDULE OF CHANGES IN THE TOTAL OPEB LIABILITY</u>:

This schedule reflects the participation of the System's employees in the State of Louisiana Postemployment Benefits Plan and changes in the total other postemployment liability.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of the Governmental Accounting Standards Board Statement No. 75 to pay related benefits.

## 7. <u>SCHEDULE OF OPEB CONTRIBUTIONS</u>:

The difference between actuarially determined employer OPEB contributions and actual employer OPEB contributions received, and the percentage of employer OPEB contributions received to covered payroll, is presented in this schedule. The amounts presented in the schedule were determined as July 1 of the corresponding fiscal year.

# 8. <u>CHANGES IN ACTUARIAL ASSUMPTIONS</u>:

### Pension Plan:

The following is a detailed description of the changes in actuarial assumptions for both Plan A and B:

Valuation Date	Investment Rate of Return	Expected Remaining Services Lives	Inflation Rate	Mortality Rate - Annuitant and Beneficiary	Mortality Rate - Employees	Mortality Rate - Disabled Annuitants	Salary Increases
December 31, 2022	6.40%	4 years	2.30%	Pub-2010 Public Ret Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale	4.75% for Plan A, and 4.25% for Plan B
December 31, 2021	6.40%	4 years	2.30%	Pub-2010 Public Ret Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale	4.75% for Plan A, and 4.25% for Plan B
December 31, 2020	6.40%	4 years	2.30%	Pub-2010 Public Ret Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale	4.75% for Plan A, and 4.25% for Plan B
December 31, 2019	6.50%	4 years	2.40%	Pub-2010 Public Ret Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale	4.75% for Plan A, and 4.25% for Plan B
December 31, 2018	6.50%	4 years	2.40%	Pub-2010 Public Ret Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale	Pub-2010 Public Ret Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale	4.75% for Plan A, and 4.25% for Plan B
December 31, 2017	6.75%	4 years	2.50%	RP-2000 Healthy Annuitant Sex Distinct Tables projected to 2031 using Scale AA set back 1 year for females	RP-2000 Employee table set back 4 years for males and 3 years for females	RP-2000 Disabled Lives Mortality Table set back 5 years for males and 3 years for females	5.25%
December 31, 2016	7.00%	4 years	2.50%	RP-2000 Healthy Annuitant Sex Distinct Tables projected to 2031 using Scale AA set back 1 year for females	RP-2000 Employee table set back 4 years for males and 3 years for females	RP-2000 Disabled Lives Mortality Table set back 5 years for males and 3 years for females	5.25%
December 31, 2015	7.00%	4 years	2.50%	RP-2000 Healthy Annuitant Sex Distinct Tables projected to 2031 using Scale AA set back 1 year for females	RP-2000 Employee table set back 4 years for males and 3 years for females	RP-2000 Disabled Lives Mortality Table set back 5 years for males and 3 years for females	5.25%
December 31, 2014	7.25%	4 years	3.00%	RP-2000 Healthy Annuitant Mortality Table set back 1 year for males and females	RP-2000 Employee Mortality table set back 1 year for males and females	RP-2000 Disabled Lives Mortality table	5.75%

# 8. <u>CHANGES IN ACTUARIAL ASSUMPTIONS</u>: (Continued)

### OPEB Plan:

The discount rate changed from 2.18% as of July 1, 2021 to 4.09% as of July 1, 2022 for the State of Louisiana Postemployment Benefit Plan.

Other changes in assumptions as of July 1, 2022 were as follows:

- Baseline per capita costs (PCCs) and medical plan election percentages were updated to reflect 2022 claims and enrollment. Plan claims and premiums increased less than had been expected, which decreased the Plan's liability.
- The termination rate for LASERS Wildlife participants was updated to be consistent with the rates used in the LASERS pension valuation. This resulted in an increase in the Plan's liability.
- The mortality rates for LASERS Public Safety participants were updated to be consistent with the rates used in the LASERS pension valuation. This resulted in an increase in the Plan's liability.

The discount rate changed from 2.66% as of July 1, 2020 to 2.18% as of July 1, 2021 for the State of Louisiana Postemployment Benefit Plan.

Other changes in assumptions as of July 1, 2021 were as follows:

- Baseline per capita costs (PCCs) were updated to reflect 2020 claims and enrollment. OPEB Plan claims and premiums increased less than had been expected, which decreased the OPEB Plan's liability. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience. This further reduced the OPEB Plan's liability.
- Medical plan election percentages have been updated since the previous valuation. This change contributed towards the decrease in the OPEB Plan's liability associated with updating baseline per capita costs (PCCs) and premiums.
- The healthcare cost trend assumption has been revised since the previous valuation. This change increased the OPEB Plan's liability.

The discount rate changed from 2.79% as of July 1, 2019 to 2.66% as of July 1, 2020 for the State of Louisiana Postemployment Benefit Plan.

## 8. <u>CHANGES IN ACTUARIAL ASSUMPTIONS</u>: (Continued)

### **OPEB Plan**: (Continued)

Other changes in assumptions as of July 1, 2020 were as follows:

- Baseline per capita costs (PCCs) were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, this experience is not believed to be reflective of what can be expected in future years. OPEB Plan claims and premiums increased less than had been expected, which decreased the OPEB Plan's liability. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience. This further reduced the OPEB Plan's liability.
- The Louisiana State Employee Retirement System (LASERS) and the Teachers' Retirement System of Louisiana (TRSL) have adopted new salary scale assumptions for the June 30, 2020 valuation. The economic assumptions were updated to reflect the updated salary scale assumptions. This slightly increased the OPEB Plan's liability. The Louisiana State Police Retirement System (LSPRS) and the Louisiana School Employees' Retirement System (LSERS) salary scale assumptions have not changed since the prior year.
- Several demographic assumptions have been updated based on a review of OPEB experience from July 1, 2017 through June 30, 2020:

- Medical participation rates have been decreased since the previous valuation. This change decreased the OPEB Plan's liability.

– The life participation rate has been decreased from 52% to 36% since the previous valuation, which decreased the OPEB Plan's liability.

- The age difference between future retirees and their spouses has been updated since the previous valuation. This change increased the OPEB Plan's liability.

- The assumed percent of participants assumed to be Medicare-eligible upon reaching age 65 has been updated since the previous valuation. This change increased the OPEB Plan's liability.

- Medical plan election percentages have been updated since the previous valuation. This change contributed towards the decrease in the OPEB Plan's liability associated with updating baseline per capita costs (PCCs) and premiums.

The discount rate changed from 2.98% as of July 1, 2018 to 2.79% as of July 1, 2019 for the State of Louisiana Postemployment Benefit Plan.

# 8. <u>CHANGES IN ACTUARIAL ASSUMPTIONS</u>: (Continued)

### **OPEB Plan**: (Continued)

Other changes in assumptions as of July 1, 2019 were as follows:

- Baseline per capita cost (PCCs) were updated to reflect 2019 claims and enrollments and retiree contributions were updated based on 2020 premiums. OPEB Plan claims and premiums increased less than had been expected, which decreased the OPEB Plan's liability. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience. This further reduced the OPEB Plan's liability.
- Life insurance contributions were updated based on updated schedules for 2020 monthly premiums rates, which reduced the OPEB Plan's liability.
- Then impact of the High Cost Excise Tax was removed. The High Cost Excise Tax was repealed in December 2019. This reduced the OPEB Plan's liability.
- The Louisiana State Employee Retirement System (LASERS) has performed a recent experience study and adopted new assumptions for the June 30, 2019 valuation, based on these studies. The demographic assumptions were updated to reflect the revised assumptions. This reduced the OPEB Plan's liability. The Louisiana State Police Retirement System (LSPRS), the Louisiana School Employees' Retirement System (LSERS), and the Teachers' Retirement System of Louisiana (TRSL) demographic assumptions have not changed since the prior year.

The discount rate changed from 3.13% as of July 1, 2017 to 2.98% as of July 1, 2018 for the State of Louisiana Postemployment Benefit Plan.

Other changes in assumptions as of July 1, 2018 were as follows:

- Baseline per capital costs were updated to reflect 2018 claims and enrollment and retiree contributions were updated based on 2019 premiums. The impact of the High Cost Excise Tax was revisited, reflecting updated plan premiums.
- The mortality assumptions for the Louisiana State Employees' Retirement System were updated from RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections using projection scale MP-2017 to the RP-2014 Healthy Annuitant and Employee tables for males and females using projection scale MP-2018.
- The percentage of future retirees assumed to elect medical coverage was modified based on recent plan experience.

### 9. <u>CHANGES IN BENEFIT TERMS</u>:

#### Pension Plan:

During the year ended December 31, 2022, the Fund granted a 2.5% Cost of Living Adjustment (COLA) to retirees aged 62 and older, effective January 1, 2023. The actuarial cost of the COLA was included as a change of benefit terms in the Schedule of Changes in Net Pension Liability for the year ended December 31, 2022.

During the year ended December 31, 2020, the Fund granted a 2.5% Cost of Living Adjustment (COLA) to retirees aged 62 and older, effective January 1, 2021. The actuarial cost of the COLA was included as a change of benefit terms in the Schedule of Changes in Net Pension Liability for the year ended December 31, 2020.

During the year ended December 31, 2017, the Fund granted a 2.5% Cost of Living Adjustment (COLA) to retirees aged 62 and older, effective January 1, 2018. The actuarial cost of the COLA was included as a change of benefit terms in the Schedule of Changes in Net Pension Liability for the year ended December 31, 2017.

During the year ended December 31, 2014, the Fund granted a 2.5% Cost of Living Adjustment (COLA) to retirees aged 62 and older, effective January 1, 2015. The actuarial cost of the COLA was included as a change of benefit terms in the Schedule of Changes in Net Pension Liability for the year ended December 31, 2014.

### **OPEB Plan**:

There were no changes of benefit terms for the OPEB Plan during any of the years presented.

June 19, 2023

Board of Trustees Parochial Employees' Retirement System of Louisiana Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the statements of fiduciary net position and the related statements of changes in fiduciary net position of the Parochial Employees' Retirement System (System), as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Parochial Employees' Retirement System (System) as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Parochial Employees' Retirement System's basic financial statements, and have issued our report thereon dated June 19, 2023.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Parochial Employees' Retirement System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Parochial Employees' Retirement System's internal control. Accordingly, we do not express an opinion on the effectiveness of the Parochial Employees' Retirement System's internal control.

www.dhhmcpa.com

Members American Institute of Certified Public Accountants Society of LA CPAs A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the System's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist and not be identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Parochial Employees' Retirement System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations and contracts, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of the System's internal control, or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Board of Trustees, Office of the Legislative Auditor of the State of Louisiana, and management, and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

May 24, 2023

Board of Directors Parochial Employees' Retirement System 1905 Wrenwood Blvd Baton Rouge, LA 70809

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the calendar year January 01, 2022 through December 31, 2022. Parochial Employees' Retirement System's management is responsible for those C/C areas identified in the SAUPs.

Parochial Employees' Retirement System has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in the LLA's SAUPs for the year January 01, 2022 through December 31, 2022. Additionally, the LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

www.dhhmcpa.com

Members American Institute of Certified Public Accountants Society of LA CPAs

### 1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
  - i. *Budgeting*, including preparing, adopting, monitoring, and amending the budget.
  - ii. *Purchasing*, including (1) how purchases are initiated, (2) how vendors are added to the vendor list, (3) the preparation and approval process of purchase requisitions and purchase orders, (4) controls to ensure compliance with the Public Bid Law, and (5) documentation required to be maintained for all bids and price quotes.
  - iii. *Disbursements*, including processing, reviewing, and approving.
  - iv. *Receipts/Collections*, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
  - v. *Payroll/Personnel*, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee rates of pay or approval and maintenance of pay rate schedules.
  - vi. *Contracting*, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
  - vii. *Travel and Expense Reimbursement*, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
  - viii. *Credit Cards (and debit cards, fuel cards, purchase cards, if applicable)*, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
  - ix. *Ethics*, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
  - x. **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
  - xi. *Information Technology Disaster Recovery/Business Continuity*, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely

application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

xii. *Prevention of Sexual Harassment*, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

## 2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and
  - i. Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
  - ii. For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget- to-actual, at a minimum, on all special revenue funds. *Alternatively, for those entities reporting on the not-for-profit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*
  - iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
  - iv. Observe whether the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

#### 3) Bank Reconciliations

A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period,

obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:

- i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
- ii. Bank reconciliations include written evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
- iii. Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

## 4) Collections (excluding electronic funds transfers)

A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (e.g., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if there are no written policies or procedures, then inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that
  - i. Employees responsible for cash collections do not share cash drawers/registers;
  - ii. Each employee responsible for collecting cash is not also responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;
  - iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit; and
  - iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, is (are) not also responsible for collecting cash, unless another employee/official verifies the reconciliation.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was in force during the fiscal period.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

- D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternatively, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
  - i. Observe that receipts are sequentially pre-numbered.
  - ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
  - iii. Trace the deposit slip total to the actual deposit per the bank statement.
  - iv. Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
  - v. Trace the actual deposit per the bank statement to the general ledger.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

# 5) Non-Payroll Disbursements (excluding card purchases, travel reimbursements, and petty cash purchases)

A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

B. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, then inquire of employees about their job duties), and observe that job duties are properly segregated such that

- i. At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order or making the purchase;
- ii. At least two employees are involved in processing and approving payments to vendors;
- iii. The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files;
- iv. Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments; and
- v. Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

- C. For each location selected under procedure #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and
  - i. Observe whether the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity, and
  - ii. Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under procedure #5B above, as applicable.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

D. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

## 6) Credit Cards/Debit Cards/Fuel Cards/Purchase Cards (Cards)

A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and purchase cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

**<u>Results</u>**: The System does not have or issue entity credit cards, bank debit cards, fuel cards, or P-cards, therefore, these procedures are not applicable.

- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and
  - i. Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved) by someone other than the authorized card holder (those instances requiring such approval that may constrain the legal authority of certain public officials, such as the mayor of a Lawrason Act municipality, should not be reported); and
  - ii. Observe that finance charges and late fees were not assessed on the selected statements.

<u>**Results**</u>: The System does not have or issue entity credit cards, bank debit cards, fuel cards, or P-cards, therefore, these procedures are not applicable.

C. Using the monthly statements or combined statements selected under procedure #7B above, <u>excluding fuel cards</u>, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to inspection). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

<u>**Results**</u>: The System does not have or issue entity credit cards, bank debit cards, fuel cards, or P-cards, therefore, these procedures are not applicable.

# 7) Travel and Travel-Related Expense Reimbursements (excluding card transactions)

- A. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements and obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected
  - i. If reimbursed using a per diem, observe that the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov);
  - ii. If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased;
  - iii. Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by Written Policies and Procedures procedure #1A(vii); and
  - iv. Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

#### 8) Contracts

- A. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternatively, the practitioner may use an equivalent selection source, such as an active vendor list*. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, <u>excluding the practitioner's contract</u>, and
  - i. Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law;
  - ii. Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter);
  - iii. If the contract was amended (e.g., change order), observe that the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, the documented approval); and
  - iv. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

# 9) Payroll and Personnel

A. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

- B. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under procedure #9A above, obtain attendance records and leave documentation for the pay period, and
  - i. Observe that all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory);
  - ii. Observe whether supervisors approved the attendance and leave of the selected employees or officials;
  - iii. Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records; and
  - iv. Observe the rate paid to the employees or officials agrees to the authorized salary/pay rate found within the personnel file.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials and obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee's or official's cumulative leave records, agree the pay rates to the employee's or official's authorized pay rates in the employee's or official's personnel files, and agree the termination payment to entity policy.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

#### 10) Ethics

- A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A obtain ethics documentation from management, and
  - i. Observe whether the documentation demonstrates that each employee/official completed one hour of ethics training during the calendar year as required by R.S. 42:1170; and
  - ii. Observe whether the entity maintains documentation which demonstrates that each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

B. Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

#### 11) Debt Service

A. Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe that State Bond Commission approval was obtained for each debt instrument issued as required by Article VII, Section 8 of the Louisiana Constitution.

<u>**Results**</u>: The System does not have or issue debt, therefore, the debt service agreed upon procedures are not applicable.

B. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

**<u>Results</u>**: The System does not have or issue debt, therefore, the debt service agreed upon procedures are not applicable.

# 12) Fraud Notice

A. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled as required by R.S. 24:523.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

B. Observe that the entity has posted, on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

## 13) Information Technology Disaster Recovery/Business Continuity

## A. Perform the following procedures, verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."

- i. Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if there is no written documentation, then inquire of personnel responsible for backing up critical data) and observe evidence that such backup (a) occurred within the past week, (b) was not stored on the government's local server or network, and (c) was encrypted.
- ii. Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if there is no written documentation, then inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
- iii. Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.

<u>**Results**</u>: We performed the above agreed-upon procedure and discussed the results with management of the Parochial Employees' Retirement System.

B. Randomly select 5 terminated employees (or all terminated employees if less than 5) using the list of terminated employees obtained in procedure #9C. Observe evidence that the selected terminated employees have been removed or disabled from the network.

<u>**Results</u>**: We performed the above agreed-upon procedure and discussed the results with management of the Parochial Employees' Retirement System.</u>

#### 14) Prevention of Sexual Harassment

A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A, obtain sexual harassment training documentation from management, and observe that the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year as required by R.S. 42:343.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

B. Observe that the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

- C. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe that the report includes the applicable requirements of R.S. 42:344:
  - i. Number and percentage of public servants in the agency who have completed the training requirements;
  - ii. Number of sexual harassment complaints received by the agency;
  - iii. Number of complaints which resulted in a finding that sexual harassment occurred;
  - iv. Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
  - v. Amount of time it took to resolve each complaint.

**<u>Results</u>**: We noted no findings as a result of applying the above agreed-upon procedures.

We were engaged by the Parochial Employees' Retirement System to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to, and did not, conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or

conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Parochial Employees' Retirement System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the results of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
