Rapides Parish Sewerage District No. 2 Alexandria, Louisiana

## Report on the Financial Statements

#### **Opinions**

We have audited the accompanying financial statements of the business-type activities of the Rapides Parish Sewerage District No. 2, a component unit of the Rapides Parish Police Jury, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the sewer district's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Rapides Parish Sewerage District No. 2, as of December 31, 2023, and the respective changes in financial position, and, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Rapides Parish Sewerage District No. 2 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rapides Parish Sewerage District

No. 2's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- · Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures
    that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
    effectiveness of the Rapides Parish Sewerage District No. 2's internal control. Accordingly, no
    such opinion is expressed.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rapides Parish Sewerage District No. 2's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 7 be presented to

Rapides Parish Sewerage District No. 2 Page 3 June 18, 2024

supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rapides Parish Sewerage District No. 2's basic financial statements. The accompanying Schedule of Compensation Benefits and Other Payments to Agency Head or Chief Executive Officer is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of the management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedule of Compensation Benefits and Other Payments to Agency Head or Chief Executive Officer is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 18, 2024, on our consideration of the Rapides Parish Sewerage District No. 2's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Rapides Parish Sewerage District No. 2's internal control over financial reporting and compliance.

## Note 1 - Summary of Significant Accounting Policies

The accompanying financial statements of Sewerage District No. 2 of Rapides Parish, Louisiana, has been prepared in conformity with generally accepted accounting principles (GAAP). GAAP includes all relevant Government Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are described below.

#### Nature of Activities

Rapides Parish Sewerage District No. 2 was created by the Rapides Parish Police Jury, as authorized by Louisiana Revised Statute 33:381 to manage and operate sewerage systems within the District not served by municipal systems. The Sewerage District is administered by a board of three commissioners who are appointed by the Rapides Parish Police Jury.

At December 31, 2023, the District had approximately 1,055 customers.

### **Fund Financial Statements**

The District uses fund accounting to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. A fund is a separate accounting entity with a self balancing set of accounts.

The District has only one fund, an enterprise fund.

An enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises — where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination or revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

For financial reporting purposes the District is a component unit of the Rapides Parish Police Jury, the governing body of the parish. The accompanying financial statements present financial information only on the funds and account groups maintained by Rapides Parish Sewerage District No. 2 and do not present information on the Police Jury and the general government services provided by that governmental unit or any of its other component units.

## Note 1 - Nature of Activities and Significant Accounting Policies (Continued)

#### Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

The enterprise fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

The entity reports the following major proprietary funds:

Sewer Fund – The Enterprise Fund is the municipality's primary operating fund. It accounts
for all financial resources of the general government, except those required to be accounted
for in another fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Principal operating revenues are utility billings. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The District utilizes the accrual basis of accounting whereby revenues are recognized when they are earned and expenses are recognized when incurred. Unbilled utility service receivables resulting from utility services rendered between the date of meter reading and billing and the end of the month are recorded in accounts receivable.

#### Equity Classifications

In the government-wide financial statements, equity is classified as Net Position and displayed in three components as applicable. The components are as follows:

Net Investment in Capital Assets - Capital assets including restricted capital assets, when applicable, net of accumulated depreciation.

<u>Restricted Net Position</u> - Net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or (2) law through constitutional provisions or enabling legislation.

# Note 1 - Nature of Activities and Significant Accounting Policies (Continued)

<u>Unrestricted Net Position</u> - All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

When an expense is incurred for the purposes for which both restricted and unrestricted net position is available, management applies restricted resources first. The policy concerning which to apply first varies with the intended use and legal requirements. The decision is typically made by management at the incurrence of the expense.

## Deposits & Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the District's investment policy allow the district to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities.

Investments (bank certificate of deposits in excess of 90 days) for the District are reported at fair value.

#### Inventories

Inventories of materials and supplies are considered to be expenditures at the time purchased. Amounts on hand at the financial statement date are considered immaterial and therefore not included on the statements of assets and liabilities.

# Accounts Receivable & Allowance for Bad Debts

Receivables consist of all revenues earned at year-end and not yet received. Business-type activities report customer's utility service receivables as the major receivable. Uncollectible utility service receivables are recognized as bad debts through the establishment of an allowance account at the time information becomes available.

The allowance method is used to recognize bad debts of accounts receivable. The allowance is determined based upon past history and the aging of accounts receivable as of year-end. The allowance for bad debts at December 31, 2023 is \$47,896.

# Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable columns in the basic financial statements. Capital assets are capitalized at historical cost. The district maintains a threshold level of \$1,500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

# Note 1 - Nature of Activities and Significant Accounting Policies (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense included during the current fiscal year was \$0. Of this amount, \$0 was included as part of the cost of capital assets under construction in connection with construction projects.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives
Sewer System	20-45 years
Equipment/Improvements	3-20 years

## Compensated Absences

The only employees of the District are its Board of Commissioners and they do not receive any vacation, sick pay or any other benefits. Therefore, no accruals for compensated absences have been made in these financial statements.

## Long-Term Obligations

In the basic financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. The long-term debt consists of bonds payable to State of Louisiana Delinquent Environmental Quality.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Litigation

The District had no outstanding judgments or pending litigations as of December 31, 2023.

#### Retirement Plans

The District does not have retirement commitments or a pension plan for its employees.

# Note 1 - Nature of Activities and Significant Accounting Policies (Continued)

#### Risk Management

The District is exposed to risks of loss in the areas of theft, torts, property hazards, general liability, errors and omissions, and natural causes. These risks are covered by commercial insurance coverage. All previous losses have not exceeded the insurance coverage.

#### Note 2 - Cash and Investments

At December 31, 2023, the District has cash and investments (bank balances) totaling \$644,881 as follows:

Description	Amount
Demand deposits	\$588,377
Time deposits	_56,504

Total \$644,881

These deposits are stated at cost, which approximated market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

#### Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Entity that the fiscal agent bank has failed to pay deposit funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Entity's name.

# Deposits

It is the District's policy for deposits to be 100% secured by collateral at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation insurance.

# Note 2 - Cash and Investments (continued)

The District's deposits are categorized to give an indication of the level of risk assumed by the district at year end. The categories are described as follows:

<u>Category 1</u> – Insured or collateralized with securities held by the District or by its agent in the District's name.

<u>Category 2</u> - Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Directors Rapides Parish Sewerage District No. 2 Alexandria, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Rapides Parish Sewerage District No. 2, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Rapides Parish Sewerage District No. 2's basic financial statements, and have issued our report thereon dated June 18, 2024.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rapides Parish Sewerage District No. 2's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rapides Parish Sewerage District No. 2's internal control. Accordingly, we do not express an opinion on the effectiveness of Rapides Parish Sewerage District No. 2's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### Report on Compliance and Other Matters

5615 J Jackson Street Alexandria, Louisiana 71303 PH: 318-445-9334 FAX: 318-445-0996 www.knightmasden.com As part of obtaining reasonable assurance about whether Rapides Parish Sewerage District No. 2's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matter that is required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana statutes, this report is distributed by the Legislative Auditor as a public document.

Management's Response to Section Findings: All public servants will complete the training in 2024.

We were engaged by Rapides Parish Sewerage District No. 2 to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Rapides Parish Sewerage District No. 2 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
