JEFFERSON DAVIS PARISH, LOUISIANA

NOTES TO THE COMPONENT UNIT FINANCIAL STATEMENTS
AS OF DECEMBER 31, 1998

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS

Nature of Operations:

The Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana was created by the Jefferson Davis Parish Police Jury under the authority provided by the provisions of Part 1, Chapter 7, Title 38 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority supplemental thereto. The Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana was created to open and maintain all natural drains in the district where drainage is accomplished through the natural force of gravity.

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities of state and local governmental entities. In November of 1984, the GASB issued a codification of governmental accounting and financial reporting standards. This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments.

A. Reporting Entity

GASB Codification Section 2100 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Oversight responsibility by the police jury is determined on the basis of the following criteria:

1. Financial Accountability
2. Appointment of a Voting Majority
3. Imposition of Will
4. Financial Benefit to or Burden on a Primary Government
5. Financial Accountability as a result of Fiscal Dependency

Because the police jury has financial accountability and they appointed a voting majority of the board of commissioners Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana was determined to be a component unit of the Jefferson Davis Parish Police Jury, the governing body of the parish and the governmental body with oversight responsibility. The accompanying component unit financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general governmental services provided by that governmental unit, or the governmental units that comprise the governmental reporting entity.

B. Fund Accounting

The accounts of the drainage district are organized on the basis of funds and an account group, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures. Revenues are accounted for in these individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The funds presented in the financial statements are described as follows:

1. Governmental Fund Type

General Fund

The General Fund is the general accounting fund of the gravity drainage district. It accounts for all financial resources, except for those required to be accounted for in other funds.

NEZPIQUE DRAINAGE DISTRICT OF JEFFERSON DAVIS PARISH,
JEFFERSON DAVIS PARISH, LOUISIANA

NOTES TO THE COMPONENT UNIT FINANCIAL STATEMENTS
AS OF DECEMBER 31, 1998

Debt Service Fund

The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Fund

The Capital Projects Fund accounts for financial resources used to construct and improve drainage facilities within the district.

2. Account Groups

The account groups are not funds. They are concerned only with the measurement of financial position and do not involve measurement of results of operations.

General Long-term Debt

Long-term liabilities expected to be financed from governmental funds are accounted for in the general long-term debt account group, not in the governmental funds.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. Measurable means that the amount of the transaction can be determined, and available means that the amount of the transaction is collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all governmental fund type revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on long-term debt are recorded as a fund liability when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

1. Revenues

Ad valorem taxes are recorded in the year the taxes are assessed. Ad valorem taxes assessed for the calendar year, become due on November 15th of each year, and become delinquent on December 31st. The taxes are generally collected in December of the current year and January and February of the following year. Interest income represents amounts earned on certificates of deposits and insured money market accounts invested with financial institutions. Interest earned on certificates of deposit is recorded when the certificate matures and the interest is available. Interest earned on insured money market accounts is recorded when received. Intergovernmental revenue is recorded when received.

NEZPIQUE DRAINAGE DISTRICT OF JEFFERSON DAVIS PARISH,
JEFFERSON DAVIS PARISH, LOUISIANA

NOTES TO THE COMPONENT UNIT FINANCIAL STATEMENTS
AS OF DECEMBER 31, 1998

2. Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized when due.

3. Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid and proceeds from the sale of bonds are accounted for as other financing sources (uses) and are recognized when the underlying events occur.

D. Budget Practices

The gravity drainage district adopted its budget for 1998 on December 15, 1997. The gravity drainage district does not use encumbrance accounting.

E. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include checking accounts and certificates of deposit (if applicable). Under state law, the gravity drainage district may deposit funds within a fiscal agent bank organized under the laws of the United States, or under the laws of the Jefferson Davis Parish Police Jury, or any other state in the union. Further, the drainage district may invest in time deposits or certificates of deposit of state banks organized under Louisiana Law and national banks having principle offices in Louisiana, or in obligations guaranteed by the federal government.

The Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana had cash and cash equivalents totaling \$ 153,763 at December 31, 1998. Cash and cash equivalents are stated at cost which approximated market. These deposits must be secured under state law by federal deposit insurance or by the pledge of securities owned by the bank. The market value of the pledged securities plus the federal deposit insurance must at all times be equal to the amount on deposit with the bank. These pledged securities are held in the name of the pledging bank in a custodial bank that is mutually acceptable to the parties involved.

The following is the district's cash and cash equivalents at December 31, 1998 with the related federal deposit insurance and pledged securities:

	FDIC/FSLIC	Collateralized
	<u>Insured</u>	<u>Insured</u>
Cash and Cash Equivalents	\$ 100,000	\$ 25,243

F. Receivables

All receivables are reported at their net values, which is the gross receivable less the estimated portion that is expected to be uncollectible.

NEZPIQUE DRAINAGE DISTRICT OF JEFFERSON DAVIS PARISH,
JEFFERSON DAVIS PARISH, LOUISIANA

NOTES TO THE COMPONENT UNIT FINANCIAL STATEMENTS
AS OF DECEMBER 31, 1998

G. Fixed Assets

Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group. Plant, property, and equipment acquired or constructed for general governmental operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the General Fixed Assets Account Group. Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana had no fixed assets at December 31, 1998.

H. Investments

Under Louisiana Revised Statute 39:1221, the gravity drainage district may invest in certain securities. However, the Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana chose not to invest in any securities.

I. Total Columns On Component Unit Financial Statements

The total columns on the statements are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

J. Fund Equity

Reservations of fund balances of governmental funds are created to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that is not appropriate for future expenditures. The General Fund of the Nezpique Drainage District of Jefferson Davis Parish, Jefferson Davis Parish, Louisiana has fund balance that is unreserved and undesignated; the Debt Service Fund has a fund balance that is reserved; and the Capital Projects Fund has a fund balance that is unreserved but designated for major construction projects.

K. Vacation and Sick Leave

The gravity drainage district has no policies related to vacation and sick leave. The board of commissioners of the district are not employees.

2. LEVIED TAXES

The following is a summary of authorized and levied ad valorem taxes:

8. USE OF ESTIMATES

The preparation of Nezpique Drainage District's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

9. OFF BALANCE SHEET RISK

The district purchases commercial insurance to reduce the risk of loss due to liability claims and loss due to physical damage to fixed assets should they occur.
