INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Houma-Terrebonne Airport Commission
Terrebonne Parish Consolidated Government
Houma, Louisiana

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the business-type activities of the Houma-Terrebonne Airport Commission (the Commission), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities of the Commission, as of December 31, 2025, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The Commission's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Houma-Terrebonne Airport Commission's basic financial statements. The Schedule of Compensation, Benefits, and Other Payments to the Executive Director on page 24 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Benefits, and Other Payments to the Executive Director is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 7, 2026, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

BASIC FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of HTAC, assets exceeded liabilities by \$48,531,877 at the close of the most recent year, December 31, 2025. The largest portions of HTAC's total assets are net capital assets (81%) and leases receivable (10%).

HTAC's Net Position

- Total assets decreased by \$267,823 and total liabilities and deferred inflows of resources decreased by \$1,212,660. The decrease in liabilities and deferred inflows of resources is related to the retirement of bond debt and the entity's leases.
- There was an increase in cash and investments of \$96,359.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Houma-Terrebonne Airport Commission was created by the City of Houma and the Terrebonne Parish Police Jury in 1957, as authorized by Louisiana Revised Statute 2:602. On January 9, 1984, after a vote of the citizens of Terrebonne Parish, the City of Houma and the Terrebonne Parish Police Jury were consolidated to form the Terrebonne Parish Consolidated Government. The Airport Commission is governed by a seven-member board. The Terrebonne Parish Consolidated Government appoints all members, two of which are nominated by the Parish President. The Airport Commission is responsible for maintaining and operating the Houma-Terrebonne Airport, which provides airport facilities and services that accommodate general aviation.

The Houma-Terrebonne Airport has an aviation/industrial complex comprising of approximately 1,800 acres. Aviation and industrial services produce approximately 180 leases. A busy helicopter oilfield shuttle accounts for the majority of the flying operations. The airport is equipped with a full instrument landing system. Through two fixed based operators, a full range of aviation services results in approximately 90,000 aircraft movements each year. Direct flight line and parking apron access is available on approximately 600 leasable acres. Hard-surfaced roads, access to major highways, water canals, and port facilities, are readily available.

The Governmental Accounting Standards Board (GASB) promulgates U.S. generally accepted accounting principles and reporting standards for state and local governmental entities. The GASB issued a codification of governmental accounting and financial reporting standards. This codification and subsequent GASB pronouncements are recognized as U.S. generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

Because the Consolidated Government appoints the governing board and thusly can impose its will, the Commission was determined to be a component unit of the Terrebonne Parish Consolidated Government, the governing body of the parish and the governmental body with financial accountability. The accompanying financial statements present information only on the funds maintained by the Commission and do not present information on the Consolidated Government, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity. The Commission has reviewed all of its activities and determined that there are no potential component units which should be included in its financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

A. FUND ACCOUNTING

The Houma-Terrebonne Airport Commission is organized and operated on a fund basis whereby a self-balancing set of accounts (Enterprise Fund) is maintained that comprises its assets, liabilities, net position, revenues, and expenses. The operations are financed and operated in a manner similar to a private business enterprise, where the intent of the governing body is that the cost (expenses, including depreciation) of providing services on a continuing basis be financed primarily through user charges.

B. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting also refers to the timing of the measurements made, regardless of the measurement focus applied. The Airport Commission's Enterprise Fund reported in the accompanying financial statements utilizes the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. The Enterprise Fund is reported using a flow of economic resources measurement focus and a determination of net income and capital maintenance.

C. CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, the Commission considers all highly liquid investments purchased with an initial maturity of three months or less to be cash equivalents.

D. INVESTMENTS

Under state law, the Commission may invest in United States bonds, treasury notes, certificates, and commercial paper. As of December 31, 2025, the Commission holds investments as follows:

	<u>Cost</u>	<u>Market Value</u>
US Treasury Notes	\$ 2,960,000	\$ 2,875,940
Uniform MBS Pool	445,410	386,749
Federal Home Loan Mortgage Corp.	54,963	53,615
Federal National Mortgage Assoc.	1,016	1,048

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

E. ACCOUNTS RECEIVABLE

The Commission accounts for bad debts using the allowance method. As of December 31, 2025, the Commission had no material accounts that were deemed unlikely of collection.

F. CAPITAL ASSETS

Capital assets of the Airport Commission, excluding donated property and equipment, are valued at cost. All donated property and equipment are recorded at acquisition value on the date of the donation. Assets are capitalized if costs exceed \$500 and if they have an estimated useful life of at least one year. Depreciation of all exhaustible fixed assets is charged as an expense against operations. Capital assets reported on the statement of net position are net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life of the individual asset.

Estimated useful lives of assets range from 1 to 40 years as follows:

<u>Property</u>	<u>Estimated Life in Years</u>
Master Plan/ CIP	20 - 40
Runways and parking apron	5 - 40
Runways and approach lighting	5 - 40
Buildings	3 - 40
Equipment	1 - 40
Automobiles and trucks	5 - 14
Office furniture and fixtures	5 - 20
Land improvements	5 - 40
Industrial park improvements	20 - 40
Miscellaneous	2 - 20

Airport improvements generally have been constructed or acquired with capital contributions from other governments. Depreciation shown on the statement of revenues, expenses, and changes in net position includes depreciation of assets acquired from such contributions.

By a quit-claim deed executed on April 9, 1958, the Houma-Terrebonne Airport Commission acquired 1,743.47 acres of airport property and existing facilities that were transferred to the City of Houma and the Terrebonne Parish Police Jury by the General Services Administration pursuant to the authority contained in the Federal Property and Administrative Services Act of 1949 and the Surplus Property Act of 1944.

Houma-Terrebonne Airport Commission
Terrebonne Parish Consolidated Government

Notes to Financial Statements
Year Ended December 31, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Administration of this property is governed by the provisions of this quit-claim deed. The quit-claim deed is carried on the books at the nominal value of \$1 and, accordingly, no depreciation is included in the accompanying financial statements.

Long-term liabilities are recognized within the Enterprise Fund.

G. DEFERRED INFLOWS OF RESOURCES

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and as such will not be recognized as an inflow of resources until that time. The enterprise fund reports unavailable revenues from leases. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

H. NET POSITION

The Houma-Terrebonne Airport Commission's resources are classified for accounting and reporting purposes into the following three net position categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributions, and the like, or imposed by law through constitutional provisions or enabling legislations.

Unrestricted net position consists of net position which does not meet the definition of the two preceding categories. Unrestricted net position often is designated to indicate that management considers it to be available for general operations. Unrestricted net position often has constraints on resources which are imposed by management but can be removed or modified.

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the Commission considers restricted funds to have been spent first.

I. VACATION AND SICK LEAVE

Employees of the Airport Commission are granted from 10 to 15 days of vacation leave each year, depending on their length of service.

In addition, employees are granted 10 days of sick leave each year. A maximum of 10

Houma-Terrebonne Airport Commission
Terrebonne Parish Consolidated Government

Notes to Financial Statements
Year Ended December 31, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

days of unused vacation leave may be carried forward from year to year. Sick leave can be accumulated not to exceed 90 days. Upon separation of employment, employees are compensated for accumulated vacation leave at the employee's current rate of pay. Employees retiring with more than 10 years of service are compensated for unused vacation time and 50 percent of the accumulated sick leave to a maximum of 45 days. Accumulated leave as of the end of the year is valued using employees' current rates of pay and estimates of future leave usage. As of December 31, 2025, employees of the Airport Commission have accumulated \$23,041 of employee leave benefits, no change from the prior year.

J. ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Estimates of the Commission primarily relate to capital assets' useful lives.

K. RECENT PRONOUNCEMENT

The following is a summary of accounting standards adopted by the Governmental Accounting Standards Board (GASB) that has been or are scheduled to be implemented in the future that may affect the Commission's financial report:

GASB Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This standard is effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. The Commission has implemented the standard, resulting in no material impact on its financial statements.

GASB Statement No. 103, *Financial Reporting Model Improvements*. GASB Statement No. 105, *Subsequent Events*. The objective of this Statement is to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. This standard is effective for fiscal years beginning after June 15, 2026, and all reporting periods thereafter. The effect of implementation on the Commission's financial statements has not yet been determined.

NOTE 2 – DEPOSITS AND INVESTMENTS

Bank Deposits:

Under state law, the Commission may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of another State of the Union, or the laws of the United States Treasury.

State law requires that deposits (cash and certificates of deposit) of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana, and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivisions.

The year-end balance of deposits is as follows:

	<u>Bank Balance</u>	<u>Reported Amount</u>
Cash and cash equivalents	\$ 1,676,719	\$ 1,537,748

Custodial credit risk is the risk that in the event of a bank failure, the Commission's deposits may not be returned to it. The Commission has a written policy for custodial credit risk. As of December 31, 2025, the Commission's bank balances were not exposed to credit risk as they were adequately collateralized in accordance with state law by federal deposit insurance.

Investments:

State statutes authorize the Commission to invest in obligations of the U.S. Treasury, agencies and instrumentalities; guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations; and repurchase agreements.

As of December 31, 2025, the Commission had the following investments and maturities:

Year Ended December 31, 2025

NOTE 2 – DEPOSITS AND INVESTMENTS (Cont.)

<u>Investment Type</u>	<u>Investment Maturities (in Years)</u>			
	<u>Fair Value</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>5 or more</u>
U.S. Treasury Notes	\$ 2,875,940	\$ 924,052	\$ 1,951,888	\$ -

Federal Home Loan Mortgage Corporation (FHLMC) Notes	53,615	-	-	53,615

Totals	<u>\$ 3,317,352</u>	<u>\$ 924,052</u>	<u>\$ 1,952,016</u>	<u>\$ 441,284</u>

The Commission values its investments at fair value and categorizes its fair value measurements within the fair value hierarchy established by generally accepted principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. All Commission investments are valued using quoted market prices (Level 1 input).

As a means of limiting its exposure to fair value losses arising from interest rates, the Commission investment policy emphasizes maintaining liquidity to match specific flows.

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Commission's investment policy requires the application of the prudent-investor rule. The policy states, *Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.* The Commission's investment policy limits investments to those allowed under state law as described on the previous page. All of the Commission's investments were rated AAA by Standard & Poor's. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Commission will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Commission does not have a written investment policy for custodial credit risk beyond the investment requirements of state statute, as described on the previous page.

During the year ended December 31, 2025, the Commission recognized \$128,341 of unrealized appreciation on such investments.

NOTE 4 – BOND PAYABLE

After appropriate approval by the Louisiana State Bonding Commission on June 27, 2007, the Commission issued \$4,490,000 of revenue bonds, Series 2007A, for the purpose of constructing and acquiring improvements, extensions and replacements to the taxiways, airport lighting systems, AWOS systems, and other governmental projects, including a new administrative office and fire station, and all appurtenant equipment accessories, replacements and additions related thereto, all works of public improvement and/or revenue producing projects. The Commission issued a revenue refunding bond, Series 2010, on December 1, 2010. This agreement included monthly principal and interest payments of \$23,672 with an interest rate of 3.55%. The bond matured on December 1, 2025, at which time the outstanding principal of \$256,091 was retired.

NOTE 5 – CAPITAL CONTRIBUTIONS FROM OTHER GOVERNMENTS

During the year ended December 31, 2025, the Airport Commission received capital contributions from the following governments:

Louisiana Department of Transportation	\$ 319,745
United States of America/Federal Aviation Administration	<u>1,205,044</u>
	<u><u>\$1,524,789</u></u>

These contributions were designated for use in the DBE Program, CIP, West Airfield Fencing, RPA Theater, Hangar, and ARFF Project, Reconstruct Taxiway Foxtrot, West Ramp Reconstruction, and RPA project UAS Campus roads.

NOTE 6 – PENSION PLAN

The Commission provides pension benefits for all of its full-time employees through a defined contribution plan administered by the Public Employees Benefit Services Corporation. In a defined contribution plan, benefits depend solely on amounts contributed to the Plan, plus investment earnings. Employees are eligible to participate from the date of employment. The Plan requires that both the employee and the Commission contribute an amount equal to five percent of the employee's base salary each month. For employees hired prior to January 1, 2012, the Commission's contributions for each employee (and interest allocated to the employee's account) are fully vested after five years of continuous service. Employees hired subsequent to January 1, 2012 receive vesting under a seven-year sliding schedule. Commission contributions for, and interest forfeited by, employees who leave employment before vesting are used to reduce the Commission's current-period contribution requirement. The Commission and the employees both made the required five percent contributions of \$55,216 for a total contributed of \$110,432.

NOTE 7 – POST-EMPLOYMENT BENEFITS

Employees who complete a minimum of 25 years of permanent and full-time creditable service and have reached the age of 62 years are entitled to receive continued group insurance coverage upon retirement with the Commission paying eighty percent (80%) and the employee paying the remaining twenty percent (20%) of the insurance premiums. The amount of post-employment benefits is immaterial to the financial statements as a whole as of December 31, 2025.

NOTE 8 – LEASES

The Airport Commission leases various parcels of land and/or buildings located at the airport to various aviation, industrial, and business concerns. These are non-cancelable leases with obligated terms ranging from one to ten years or other maximums established by Louisiana Revised Statutes. All leases contain escalation clauses. The leases are subject to state bid laws and final approval by the Federal Aviation Administration under the terms of the quit-claim deed signed April 9, 1958.

The Commission recognized \$1,447,742 of lease revenue and \$710,395 in interest revenue during the current fiscal year. As of December 31, 2025, the Commission's lease receivable balance for lease payments and deferred inflows of resources with these leases that will be recognized as revenue over the lease term is \$5,483,515.

The lease agreements may contain variable payments or termination penalties that are not known or certain to be exercised at the time of the lease receivable valuation. When applicable, these inflows are recognized as revenues in the period that they occur. During the year ended December 31, 2025, the Commission did not recognize revenues for variable lease payments or termination penalties.

The following is a schedule of future lease payments to be received:

**REPORTS REQUIRED BY GOVERNMENT AUDITING STANDARDS
AND UNIFORM GUIDANCE**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Houma-Terrebonne Airport Commission
Terrebonne Parish Consolidated Government
Houma, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Houma-Terrebonne Airport Commission (the Commission), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Commission's financial statements, and have issued our report thereon dated May 7, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Major Federal Program

Opinion on Major Federal Program

We have audited the Houma-Terrebonne Airport Commission's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on the Commission's major federal program for the year ended December 31, 2025. The Commission's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Commission complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2025.

Basis for Opinion on Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Commission's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Commission's federal program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Commission's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Commission's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Commission's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Commission's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
