Independent Accountants' Review Report

To the Board of Directors
Fire Protection District No. 5 of Grant Parish

We have reviewed the accompanying financial statements of the governmental activities and each major fund of Fire Protection District No. 5 of Grant Parish, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Fire District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

ACCOUNTANT'S RESPONSIBILITY

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Fire Protection District No. 5 of Grant Parish, and to meet our other ethical responsibilities, in accordance with the relevant requirements related to our review.

ACCOUNTANT'S CONCLUSION

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

REQUIRED SUPPLEMENTARY INFORMATION

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the statement of revenues, expenditures and changes in fund balance (budget and actual) described in the table of contents be presented to supplement the basic financial statements. Such

information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. We have not audited or reviewed such required supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

OTHER SUPPLEMENTAL INFORMATION

Our review was made for the purpose of expressing limited assurance that there are no material modifications that should be made to the basic financial statements in order to conform with generally accepted accounting principles. The accompanying Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer is presented only for supplementary analysis purposes. This information has been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements and we are not aware of any material modifications that should be made thereto.

OTHER MATTERS

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report dated June 18, 2023, on the results of our agreed-upon procedures.

MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2022

This section of annual financial report presents our discussion and analysis of the Fire Protection District No. 5 of Grant Parish's financial performance during the fiscal year ended December 31, 2022.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the Fire District's financial position and results of operations from differing perspectives which are described as follows:

Government – Wide Financial Statements

The government-wide financial statements report information about the Fire District as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the District's assets and all of its liabilities. All of the District's activities are classified as governmental activities in the government-wide financial statements. The governmental activities are financed primarily by property taxes and related revenue sharing.

Fund Financial Statements

Fund financial statements provide detailed information regarding the District's most significant activities and are not intended to provide information for the District as a whole. Funds are accounting devices that are used to account for specific sources of funds. All of the District's funds are limited to its general fund, which is classified as a Governmental Funds. This fund is used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund uses a modified accrual basis of accounting that provides a short-term view of the District's finances. Assets reported by the governmental fund are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

An analysis of the government-wide Statement of Net Position is presented as follows:

NOTES TO FINANCIAL STATEMENTS December 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fire Protection District No. 5 of Grant Parish (the Fire District) was created to provide fire protection for portions of Grant Parish. It is governed by a Board consisting of five members and the majority of the members are appointed by the Grant Parish Police Jury. The Fire District is a component unit of the Grant Parish Police Jury, the primary governing body of the Parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the Fire District and do not present financial information on the primary government, the general government services provided by that entity, or the other governmental units that are accountable to the primary government.

The accompanying policies conform to generally accepted accounting principles for governmental units.

Financial Reporting Entity

The Governmental Accounting Standards Board (GASB) established criteria for determining which component units should be considered part of a financial reporting entity. The basic criterion for including a potential component unit within a reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the reporting entity to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the reporting entity.
- 2. Organizations for which the reporting entity does not appoint a voting majority but are fiscally dependent on the reporting entity.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the Fire District is a component unit of the Grant Parish Police Jury. The accompanying component unit financial statements present information only on the funds maintained by Fire Protection District No. 5 and do not present information on the police jury, the general government service provided by that governmental unit, or other governmental units that comprise the financial reporting entity.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize all of the Fire District's operations as

NOTES TO FINANCIAL STATEMENTS December 31, 2022

governmental activities. Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.

The government-wide and fund financial statements present the Fire District's financial position and results of operations from differing perspectives which are described as follows:

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the Fire District as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude any fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service. Program revenues include any charges for services and most grants.

Fund Financial Statements

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Major individual funds are reported as separate columns in the fund financial statements. The Fire District's major funds is described as follows:

• <u>General Fund</u> – This fund is the primary operating fund of the Fire District is used to account for all resources.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation	Basis of Accounting	Measurement Focus
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements	Modified Accrual Basis	Current Financial Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of account and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred. Furthermore, when the current financial resources measure focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure of funds. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from

NOTES TO FINANCIAL STATEMENTS December 31, 2022

issuing long-term debt are reported as other financing sources and repayment of long-term debt is reported as an expenditure of funds.

Use of Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Budget Practices

Budgets of the General Fund are prepared on the modified accrual basis of accounting. Unexpended appropriations of this fund lapse at the end of each fiscal year. Budgets of the General Fund and all changes and amendments to these budgets are approved by the Board of Commissioners as a whole.

Capital Assets

Capital assets include significant acquisitions of equipment that are expected to remain in service for a period of years. Capital assets are reported in the government-wide financial statements but are excluded from the fund financial statements. Instead, the funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are reported at historical cost less accumulated depreciation. Depreciation is computed using the straight-line method and estimated useful lives that are based on the expected durability of the particular asset. Useful lives typically range from five to forty years.

Cash

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand, cash in bank accounts, certificates of deposit and highly liquid investments.

NOTE 2 - CASH

Deposits are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2022, deposits were secured by FDIC insurance coverage in the amount of \$250,000 and \$826,349 in pledged securities.

NOTE 3 - RECEIVABLES

At December 31, 2022, receivables were limited to ad valorem taxes collected by other governmental units on behalf of the Fire District. These amounts are considered fully collectible and there is no allowance for doubtful accounts.

NOTES TO FINANCIAL STATEMENTS December 31, 2022

NOTE 4 – CAPITAL ASSETS

A summary of the Fire District's capital assets is provided as follows:

For the year ended December 31, 2022, depreciation expense totaled \$37,293.

NOTE 5 - RISK MANAGEMENT

The Fire District is exposed to various risks of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The Fire District insures against these risks by participating in a public entity risk pool that operates as a common insurance program and by purchasing commercial insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 6 – PROPERTY TAXES

Property taxes are assessed on a calendar year basis and are due on or before December 31 in the year the tax is levied. Revenues from property taxes are recognized as revenue in the year billed. For the year ended December 31, 2022, the Assessment District was authorized to levy 11.59 mills.

Revenue and expenditures were both within limit allowed State Law.

ACCOUNTING AND REPORTING

- 8. Randomly select six disbursements made during the period under examination and:
 - (a) trace payments to supporting documentation as to proper amount and payee.

Each transaction had required supporting documentation.

(b) determine if payments were properly coded to the correct fund and general ledger account.

Each transaction was properly classified on the general ledger.

Our consideration of prior comments and recommendations is presented in the accompanying Schedule of Prior Year Findings and Questioned Cost.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Fire Protection District No. 5 of Grant Parish and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes.
