Independent Auditor's Report

To the Members of the Board of Commissioners of
Livingston Parish Fire Protection District No. 5
Denham Springs, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the general fund of the Livingston Parish Fire Protection District No. 5 ("the "District"), a component unit of Livingston Parish Government, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the District, as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 23 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial

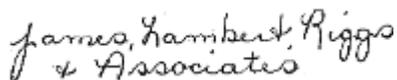

statements in appropriate operational, economic, or historical context. Our opinion on the basic financial statements are not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of compensation, benefits, and other payments to agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of compensation, benefits, and other payments to agency head is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 2, 2022, on our consideration of Livingston Parish Fire Protection District No. 5's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Livingston Parish Fire Protection District No. 5's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Livingston Parish Fire Protection District No. 5's internal control over financial reporting and compliance.

Notes to the Financial Statements

Livingston Parish Fire Protection District No. 5

Denham Springs, Louisiana

Notes to the Financial Statements

For the Year Ended December 31, 2021

Narrative Profile

The Livingston Parish Fire Protection District No. 5 (the “District”) is a body corporate created by the Livingston Parish Council, as provided by Louisiana Revised Statutes (LRS). The District is governed by a Board of five commissioners who are appointed by the Livingston Parish Council. The District was created for the purpose of providing fire protection and prevention to District Five of the Parish of Livingston.

The accounting and reporting policies of the District conform to generally accepted accounting principles (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Such accounting and reporting procedures also conform to the requirements of LRS 24:513 and to the guidance set forth in the *Louisiana Governmental Audit Guide*, and to the industry audit guide, *Audits of State and Local Governmental Units*.

1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

Section 2100 of the GASB Codification, *Defining the Financial Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the District is considered a component unit of the Livingston Parish Council. As a component unit, the accompanying financial statements are included within the reporting of the primary government, either blended into those financial statements or separately reported as discrete component units.

B. Fund Accounting

The District uses fund accounting to maintain its financial records and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds

Governmental funds account for all of the District’s general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund’s assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources that may be used to finance future period programs or operations of the District. The following is the District’s governmental fund:

General Fund - the primary operating fund of the District, which accounts for all the operations of the District, except those required to be accounted for in other funds.

C. Measurement Focus / Basis of Accounting

Basic Financial Statements – Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include all the financial activities of the District with most of the interfund activities removed. Information contained in these columns reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Interest earnings and other revenues not properly included among program revenues are reported instead as general revenues.

The District does not allocate indirect expenses.

Basic Financial Statements – Governmental Funds

The amounts reflected in the General Fund are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District's operations.

The amounts reflected in the General Fund use the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related liability is incurred, except for interest and principal payments on long-term debt, which are recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues – Revenues are generally recognized when they become measurable and available as net current assets. Taxes, state revenue sharing, grants, interest revenue, and other revenues are recorded when due.

Livingston Parish Fire Protection District No. 5

Denham Springs, Louisiana

Notes to the Financial Statements (Continued)

For the Year Ended December 31, 2021

Expenditures – Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Reconciliation – Explanation of differences between the governmental funds balance sheet and the government-wide statement of net position is presented in Exhibit D of the basic financial statements. Explanation of differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities is presented in Statement F of the basic financial statements.

D. Budgets and Budgetary Accounting

The District adopted an operating budget for its General Fund for the fiscal year ended December 31, 2021. The budget for this fund is adopted on the modified accrual basis of accounting consistent with GAAP. The District follows these procedures in establishing the budgetary data reflected in these financial statements:

1. The Fire Chief prepares the proposed budgets and submits them to the Board for their review no later than fifteen days prior to the beginning of each fiscal year.
2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing. The public hearing was held on December 8, 2020.
4. Once a public hearing is held and all of the action necessary to finalize and implement the budget is completed, the budget is adopted through the passage of a resolution prior to the commencement of the fiscal year for which the budget is adopted. The budget was adopted on December 8, 2020.

The adopted budget constitutes the authority of the Fire Chief to incur liabilities and authorize expenditures from the respective budgeted funds. Additionally, certain expenditures are approved monthly by the Board before payment.

All budget amounts presented in the financial statements have been adjusted for legally authorized revisions of the annual budget during the year. Appropriations, except encumbrances, lapse at the end of each year.

E. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, interest bearing demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Under state law, the District may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. In addition, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments for the District are reported at cost.

Livingston Parish Fire Protection District No. 5
Denham Springs, Louisiana

Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2021

F. Prepaid Items

The District recognizes expenditures for services extending over more than one accounting period when paid. The District did not record any prepaid items at December 31, 2021.

G. Capital Assets

Capital outlays are recorded as expenditures of the governmental funds and as assets in the government-wide financial statements. Capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their acquisition value (entry price) at the date of donation. At December 31, 2021, the District did not have a formal capitalization policy establishing a capitalization / expense threshold.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenditures that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

H. Compensated Absences

At December 31, 2021, the District has no plan or provision for compensated absences, pension plan, or other post employment benefits. Vacation time cannot be accumulated and must be taken by the end of the year. There is no provision for leave carryover; therefore, leave accruals are not necessary.

I. Net Position

In the government-wide statements, equity is classified as net position and displayed in three components:

1. Net Investment in Capital Assets – consists of the historical cost of capital assets, including any restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted – consists of assets that have constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted – all other net position is reported in this category.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

J. Fund Balance

In the governmental fund financial statements, fund balance is classified as follows:

1. Nonspendable Fund Balance – amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.

Livingston Parish Fire Protection District No. 5

Denham Springs, Louisiana

Notes to the Financial Statements (Continued)

For the Year Ended December 31, 2021

2. Restricted Fund Balance – amounts that can be spent only for specific purposes because of enabling legislation, or externally imposed conditions by grantors, creditors, or citizens.
3. Committed Fund Balance – amounts that can be used only for the specific purposes determined by a formal action of the Board (the District’s highest level of decision-making authority).
4. Assigned Fund Balance – amounts that are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed.
5. Unassigned Fund Balance – all amounts not included in other spendable classifications.

The District considers restricted fund balances to be spent for governmental expenditures first when both restricted and unrestricted resources are available.

As of December 31, 2021, the District did not have any nonspendable, restricted, committed, or assigned fund balances.

K. New Accounting Pronouncements

New accounting pronouncements adopted by the District are as follows:

In June 2020, the GASB issued Statement No 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code 457 Deferred Compensation Plans*. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. This Statement requires that for purposes of determining whether a primary government is financially accountable for a potential component unit, except for a potential component unit that is a defined contribution pension plan, a defined contribution OPEB plan, or an other employee benefit plan (for example, certain Section 457 plans), the absence of a governing board should be treated the same as the appointment of a voting majority of a governing board if the primary government performs the duties that a governing board typically would perform. This Statement also requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities*, be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans*, or paragraph 3 of Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. This Statement supersedes the remaining provisions of Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, as amended, regarding investment valuation

Notes to the Financial Statements (Continued)

requirements for Section 457 plans. As a result, investments of all Section 457 plans should be measured as of the end of the plan's reporting period in all circumstances.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

The District early adopted GASB Statement No. 97 for the year ended December 31, 2020.

L. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with GAAP for all governmental funds. All annual appropriations lapse at year-end. See Note 1-D regarding operating budgets. The District complied with the Louisiana Local Government Budget Act in adopting its budget for the year ended December 31, 2021.

B. Deposits and Investment Laws and Regulations

In accordance with state law, all uninsured deposits of funds in financial institutions must be secured with acceptable collateral valued at the lower of market or par. As reflected in Note 3 regarding cash and cash equivalents, the District complied with the deposits and investments laws and regulations.

C. Deficit Fund Equity

As of December 31, 2021, the District's general fund did not have a deficit fund equity.

3. Cash, Cash Equivalents, and Investments

As reflected on Exhibit A, the District has cash and cash equivalents totaling \$416,545 and investments totaling \$406,114 at December 31, 2021. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Denham Springs, Louisiana

Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2021

The following is a summary of cash and investments at December 31, 2020, with the related federal deposit insurance and pledge securities:

| | |
|--|------------|
| Bank Balances and Investments: | |
| Insured (FDIC Insurance) | \$ 500,000 |
| Collateralized: | |
| Collateral held by pledging bank's trust department not in the District's name | 335,302 |
| Uninsured and Uncollateralized | - |
| Total Deposits | \$ 835,302 |

Even though the pledged securities are not held in the entity's name, LRS 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand. Deposits collateralized by pledged securities are considered to be exposed to credit risk (Category 3) under the provisions of GASB Statement 40. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of December 31, 2021, the District was in compliance with state law which requires any uninsured cash balances with the fiscal agent bank to be adequately collateralized by a pledge of securities.

4. Receivables

Receivables of \$1,513,336 at December 31, 2021, are as follows:

| Allowance for Uncollectible - Property Taxes | (37,578) |
| User Fee Receivable | 307,554 |
| Allowance for Uncollectible - User Fees | (9,227) |
| State Revenue Sharing Receivable | - |
| Receivables at December 31, 2021, Net | \$ 1,513,336 |

Uncollectible amounts are recognized as bad debts through the establishment of an allowance account at the time information becomes available that would indicate the uncollectibility of the particular receivable.

5. Levied Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the District during the year, are billed to taxpayers, and become due in November. Billed taxes become delinquent on December 31. Revenues from ad valorem taxes are budgeted and recognized as revenue in the year billed. The Livingston Parish Sheriff bills and collects the property taxes using the assessed value determined by the Livingston Parish Assessor. The taxes are generally collected in December of the current year and January and February of the ensuing year. For 2021, the District levied 10.14 mills for a total tax levy of \$1,252,587. An allowance for uncollectible property taxes was recorded at 3.0% of the balance due (\$37,578).

The Louisiana Industrial Ad Valorem Tax Exemption Program (ITEP) is a state incentive program that offers attractive tax incentive for manufacturers within the state. The program abates, for up to ten years, local ad valorem on a manufacturer's new investment and annual capitalized additions related to the manufacturing site. This exemption is granted per contract with the Louisiana Department of Economic Development and will specify the buildings and / or personal property items covered by the exemption. For the District, there are currently seven (7) tax abatements, related to two (2) companies, under the Louisiana ITEP. For the 2021 calendar year, estimated forgone ad valorem taxes due to this abatement program was \$13,161.73.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Members of the Board of Commissioners of
Livingston Parish Fire Protection District No. 5
Denham Springs, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the general fund of Livingston Parish Fire Protection District No. 5, a component unit of the Livingston Parish Council, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Livingston Parish Fire Protection District No. 5's basic financial statements, and have issued our report thereon dated June 2, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Livingston Parish Fire Protection District No. 5's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Livingston Parish Fire Protection District No. 5's internal control. Accordingly, we do not express an opinion on the effectiveness of Livingston Parish Fire Protection District No. 5's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

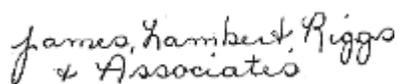

As part of obtaining reasonable assurance about whether Livingston Parish Fire Protection District No. 5's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions

Livingston Parish Fire Protection District No. 5
June 2, 2022

was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To Whom it may concern;

Our Auditors found 3 results on State Agreed-Upon Procedures. Two of which were under Payroll and Personal and the other under ethics.

Please see our response below to the three results found:

#17 a) Observe all selected employees or officials documented their daily attendance and leave (e.g. vacation, sick, compensatory). (Note: Generally, officials are not eligible to earn leave and do not document their attendance and leave. However, if the official is earning leave according to a policy and/or contract, the official should document his/her daily attendance and leave).

- Results: Two of the five employees selected did not have documented daily attendance. These two employees are salary employees and are on call 24/7. The Chief reviews and approves all payroll before processing.
- Response: District 5 has gone to a new tracking system in which the salary employees can keep better track of their vacation instead of the paper request we used to use and their time. Also, our new mechanic has a time clock that he must punch to show when he arrives and when he leaves daily and any time off, he must request using the time tracking system. This report of time off can be run at any time to match what is shown by our CPA on their system as well. This new system also shows who approved the time off and when.

B) Observe whether supervisors approved the attendance and leave of the selected employees or officials.

- Results: Two of the five employees selected did not have documented daily attendance. These two employees are salary employees and are on call 24/7. The Chief reviews and approves all payroll before processing
- Response: District 5 has gone to a new tracking system in which the salary employees can keep better track of their vacation instead of the paper request we used to use and their time. Also, our new mechanic has a time clock that he must punch to show when he arrives and when he leaves daily and any time off, he must request using the time tracking system. This report

of time off can be run at any time to match what is shown by our CPA on their system as well. This new system also shows who approved the time off and when.

The third result can be found under ethics.

#20 a) Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.

- Result: One of the five employees selected did not complete the one-hour ethics training. This was a mid-year hire, who completed training in early 2022.
- Response: We were finished with our ethics training for the year when this person was hired so he slipped through the crack of not doing it in 2021. However, since we have developed a packet when someone is hired letting them know what is required of them to complete within the first 15 days of them being employed with us. This packet does two things, lets the employee know what is expected and reminds the administration as to what needs to be done by the new hire even if we as a department are finished.

There were no more results needing an exception. The responses were put into place prior to us obtaining the auditor's report.

Thank you for your time and understanding with these few issues.

Sincerely,

Joe Koczrowski
Chief
