**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE, AND SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

To the Board of Commissioners  
Southeast Louisiana Flood Protection Authority - East  
New Orleans, Louisiana

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited the Southeast Louisiana Flood Protection Authority - East's (the "Authority") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended June 30, 2025. The Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

To the Board of Commissioners  
Southeast Louisiana Flood Protection Authority - East  
New Orleans, Louisiana

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Authority's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no such opinion is expressed.

To the Board of Commissioners  
Southeast Louisiana Flood Protection Authority - East  
New Orleans, Louisiana

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Board of Commissioners  
Southeast Louisiana Flood Protection Authority - East  
New Orleans, Louisiana

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the combined financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Southeast Louisiana Flood Protection Authority – East (the Authority), as of and for the year ended June 30, 2025, and the related notes to the combined financial statements, which collectively comprise the Authority’s basic combined financial statements. We issued our report thereon dated October 13, 2025, which contained unmodified opinions on those combined financial statements. Our audit was performed for the purpose of forming opinions on the combined financial statements that collectively comprise the basic combined financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic combined financial statements or to the basic combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - EAST**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**FOR THE YEAR ENDED JUNE 30, 2025**

**(1) BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of Southeast Louisiana Flood Protection Authority – East (the Authority) under programs of the federal government for the year ended June 30, 2025. The information in the schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the combined financial position, changes in net position, or cash flows of the Authority.

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying schedule of expenditures of federal awards has been prepared on the accrual basis of accounting. Grant revenues are recorded for financial reporting purposes when the Authority has met the qualifications for the respective grants.

**Accrued and Deferred Reimbursement**

Various reimbursement procedures are used for federal awards received by the Authority. Consequently, timing differences between expenditures and program reimbursements can exist at the beginning and end of the year. Accrued balances at year end represent an excess of reimbursable expenditures over cash reimbursements and expenditures will be reversed in the remaining grant period.

**Pass-Through Entity Information**

Pass-through entity identifying numbers are presented where available.

**Payments to Subrecipients**

There were no payments to subrecipients for the fiscal year ended June 30, 2025.

**(3) INDIRECT COST RATE**

The Authority has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**(4) DISASTER GRANTS – PUBLIC ASSISTANCE LISTING 97.036**

The FEMA federal grant expenditures are reported on the SEFA when (a) FEMA has approved the project worksheet (PW) and (b) eligible expenditures have been incurred.

For the year ended June 30, 2025, FEMA approved \$2,152,713 of eligible expenditures which were incurred during the year ended June 30, 2024.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - EAST**  
**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**  
**FOR THE YEAR ENDED JUNE 30, 2025**
