Washington Parish Fire  
Protection District No. 9  
Mt. Hermon, Louisiana

Management is responsible for the accompanying financial statements of the governmental activities of the Washington Parish Fire Protection District No. 9, a component unit of the Washington Parish Government, as of and for the year ended December 31, 2020, and related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents, in accordance with accounting principles generally accepted in the United States of America. I have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. I did not audit or review the financial statements nor was I required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, I do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Accounting principles generally accepted in the United States of America require management's discussion and analysis and the budgetary comparison on pages 3 through 11 and page 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This information is the representation of management. This information was subject to my compilation engagement; however, I have not audited or reviewed the required supplementary information and, accordingly, do not express an opinion, a conclusion, nor provide any form of assurance on such information.

The supplementary information contained in the Other-Supplemental Information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been compiled from information that is the representation of management. I have not audited or reviewed the supplementary information and, accordingly, do not express an opinion or provide any assurance on such supplementary information.

I am not independent with respect to Washington Parish Fire Protection District No.9.

## **Management's Discussion and Analysis**

**WASHINGTON PARISH FIRE PROTECTION DISTRICT #9**  
**WASHINGTON PARISH GOVERNMENT**  
**Mt. Hermon, Louisiana**

**Management's Discussion and Analysis**

WASHINGTON PARISH FIRE PROTECTION DISTRICT No. 9 is pleased to present its Annual Financial Report developed in compliance with *Governmental Accounting Standard Board Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis – For State and Local Governments* (hereinafter referred to as GASB 34) and related standards.

The Management's Discussion and Analysis (MD&A) is designed to:

1. assist the reader in focusing on significant financial issues,
2. provide an overview of the District's financial activities,
3. identify changes in the District's overall financial position and results of operations and assist the user in determining whether the financial position has improved or deteriorated as a result of the year's operations,
4. identify any significant variations from the original, amended, and final budget amounts and include any currently known reasons for those variations that are expected to have a significant effect on future services or liquidity, and
5. identify individual fund issues or concerns.

The information contained within this MD&A should be considered only as part of a whole. The reader of this statement should take time to read and evaluate all sections of this report, including the footnotes and other Required Supplemental Information (RSI) that are provided in addition to this MD&A.

**Overview of Annual Report**

Management's Discussion and Analysis (MD&A) serves as an introduction to the basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. These financial statements are presented using the accrual basis of accounting method.

The statement of net position presents information on all of the District's assets and liabilities, with difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

**WASHINGTON PARISH FIRE PROTECTION DISTRICT #9**  
**WASHINGTON PARISH GOVERNMENT**  
**Mt. Hermon, Louisiana**

**Management's Discussion and Analysis**

The Statement of Net Position and The Statement of Activities display information about the District as a whole. These statements distinguish between those activities of the District that are governmental and those that are considered business type activities.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The modified accrual basis of accounting is used by the governmental funds.

**Notes to financial statements.** The notes to the financial statements provide required disclosure essential to the understanding of the financial statements. The notes present information about the District's accounting policies, significant account balances and activities, commitments, contingencies, and subsequent events, if any. Supplementary information includes a comparative budget schedule.

### **Financial Highlights**

- At December 31, 2020, the District recorded total net position (assets less liabilities) of \$459,642. The largest component of net position was "invested in capital assets, net of related debt" at \$272,305. The District has unrestricted net position of \$106,764 available for current activities of the District. The District has restricted net position of \$80,574 available for capital purchases.
- Total net position of the District decreased \$299.
- The most significant continuing revenue source was ad valorem taxes of \$101,048 which is 88% of total revenues.
- Expenditures for the year were \$115,640. This amount included \$39,186 in depreciation expense.
- The District's paid \$12,452 on the principal for a capital lease obligation.

Total Net Position	\$ 459,941	\$ 459,642	(299)	-0.07%

**Government-Wide Review of Condensed Statement of Net Position**

The composition of net position and the change in net position over time serves as a useful indicator of a government's financial position. The District's assets at fiscal year-end exceed liabilities by \$459,642 (net position). The balance of net position includes \$272,305 Invested in Capital Assets, Net of Related Debt, \$80,574 in Restricted Net Position, and \$106,764 in Unrestricted Net Position.

The Unrestricted Net Position totaled \$106,764 or 23% of net position. These assets are available to meet the ongoing needs of the District. The Restricted Net Position total is \$80,574 or 18% of net position. These assets are restricted for capital purchases.

The largest category of net position is Invested in Capital Assets, Net of Related Debt, totaling \$272,305 or 59% of net position. This category reflects the total invested in assets (land, building, equipment, etc.) net of any related debt used to acquire capital assets. These capital assets are used

to provide service to citizens and do not represent assets available for future spending. At the end of the current fiscal year, the District was able to report positive balances in all categories of net position for the government as a whole, as well as for separate governmental activities.

See page 13 for more detailed Statement of Net Position for the District.

**Statement of Activities:**

Significant categories of the Statement of Activities are noted below:

**Condensed Statement of Activities**

	December 31, 2019	December 31, 2020	Dollar Change	Percentage Change
<b>Program Expenses</b>				
Public safety	\$ 120,124	\$ 115,640	\$ (4,484)	-3.73%
<b>General Revenues</b>				
Ad valorem tax	92,580	101,048	8,468	9.15%

Total Revenues	112,161	115,341	3,180	2.84%
<b>Change in Net Position</b>	(7,963)	(299)	7,664	-96.25%
<b>Beginning Net Position</b>	467,904	459,941	(7,963)	-1.70%
<b>Ending Net Position</b>	\$ 459,941	\$ 459,642	(299)	-0.06%

Ad valorem taxes are the primary source of revenue totaling \$101,048 for the fiscal year ending December 31, 2020, at 88% of total revenue. In 2019, the District had ad valorem tax revenue of \$92,580.

The major expenditures within The Statement of Activities is depreciation expense at \$39,186 (34%) and insurance of \$24,244 (21%) of total expenditures.

See page 14 for more detail on The Statement of Activities.

**Management's Discussion and Analysis**

**Analysis of Fund Financial Statements**

**Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the year.

As of December 31, 2020, the District's governmental funds reported a combined ending fund balance of \$187,337, an increase of \$2,562 in comparison with prior year. Approximately 54% of this total (\$100,721) constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is restricted to indicate that is not available for new spending because it is non-spendable for prepaid expenses (\$6,043) or committed for capital purchases (\$80,574).

**Management's Discussion and Analysis**

**Capital Assets**

At the end of the fiscal year December 31, 2020, the Fire District No. 9 had \$262,536 (net of accumulated depreciation) recorded in capital assets. Capital outlays are recorded as expenditures of the General Fund and as assets in the government-wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations	40 years
Fire Trucks and Other Truck	5-20 years
Equipment	3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The cost of all assets acquired prior to 1989 have been valued using estimated historical cost.

Capital asset activity for the year ended December 31, 2020:

**Management's Discussion and Analysis**

**Lease Obligations**

On July 11, 2016, the District entered in a municipal lease purchase agreement for \$60,000 to purchase a 2004 Ferrara pumper truck. The interest rate is 3.921%. The lease term is for five years. The first lease payment was due on August 23, 2017. The last payment will be paid on August 23, 2021. The following table summarizes the outstanding obligation:

	<u>December 31,</u> <u>2019</u>	<u>Additions</u>	<u>Payments</u>	<u>December 31,</u> <u>2020</u>
Capital lease obligation	<u>25,392</u>	<u>-</u>	<u>12,452</u>	<u>12,940</u>

**Future Economic Plans**

The Washington Parish Fire Protection District's management approach is conservative. The Board of Commissioners actively monitors revenues and expenses and evaluate the costs of proposed expansion projects.

## **NOTES TO FINANCIAL STATEMENTS**

**WASHINGTON PARISH FIRE PROTECTION DISTRICT NO. 9**  
**WASHINGTON PARISH GOVERNMENT**  
**Mt. Hermon, Louisiana**  
**Notes to the Financial Statements**  
**For the Year Ended December 31, 2020**

**INTRODUCTION**

The 1991 the Louisiana Legislature, pursuant to Louisiana Revised Statute 40:1491, created the Washington Parish Fire Protection Districts. Washington Parish Fire Protection District No. 9 was created by an ordinance adopted on July 24, 1995, by the Washington Parish Police Jury. The District shall constitute a public corporation and as such shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tanks, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the parish governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint a five-member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board of commissioners. The board of commission members may be paid a per diem of fifty dollars for attending meetings of the board and may be reimbursed any expenses incurred in performing the duties imposed upon them.

The District covers 53.7 square miles in the northwestern corner of Washington Parish. It serves approximately 1,800 people and businesses located within the boundaries of the District. The District operates out of three fire stations which are located as follows: Station No. 1 on Louisiana Highway 1055 east of intersection with Louisiana Highway 38, Station No. 2 on Martin Road northeast of intersection with Louisiana Highway 450, and Station No. 3 on Esco Alford Road. The District has no compensated employees and operates with a volunteer staff of firefighters.

**NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING AND FINANCIAL STATEMENT**

The District's financial statements are prepared on the modified accrual basis in accordance with accounting principles generally accepted in the United States of America. The District applies all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and the Accounting Principle Board (APB) of the Committee on Accounting Procedures, issued on or before November 1989, unless those pronouncements conflict or contradict with GASB pronouncements.

These financial statements are presented in conformance with GASB Statement No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*. Statement No. 34 established standards for financial reporting, with presentation requirements including a statement of net assets (or balance sheet), a statement of activities and change in net assets, and a statement of cash flows.

**B. REPORTING ENTITY**

As the governing authority of the parish, for reporting purposes, the Washington Parish Government is the financial reporting entity for Washington Parish. The financial reporting entity consists of (a) the primary government, Parish Council, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Washington Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

1. Appointing a voting majority of an organization's governing body, and
  - a. The ability of the Parish Council to impose its will on that organization and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Parish Council.
2. Organizations for which the Parish Council does not appoint a voting majority but are fiscally dependent on the Parish Council.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the Parish Council appoints a voting majority of the District's governing board and the Parish Council has the ability to impose its will on the District, the District was determined to be a component unit of the Washington Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

**C. FUND ACCOUNTING**

The District maintains its financial records on a fund basis, whereby a self-balancing set of accounts (Governmental Fund) is maintained that comprises its assets, liabilities, fund equity, revenues, and expenses. The general fund of the District accounts for all financial resources, except those required to be accounted for in other funds.

**D. BASIS OF ACCOUNTING**

The accompanying financial statements of the Washington Parish Fire Protection District No. 9 have been prepared in conformity with generally accepted accounting principles of the United States of America (GAAP) as applied to government units. The accompanying financial statements have been prepared in conformity with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*. Under GASB-34, a statement of net assets and statement of activities are prepared which are presented on the accrual basis of accounting. The significant differences are capital outlay is reported as an asset and depreciated in the government-wide statement. Also, long term obligations are recorded as liabilities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, effective for financial statement periods ending after December 15, 2012, provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined Deferred Outflows of Resources as a consumption of net assets by the government that is applicable to a future reporting period, and Deferred Inflows of Resources as an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. GASB Concepts Statement 4 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. With this measurement of focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long term assets and long-term liabilities are included in the government-wide statements.

Operating statements of governmental funds present increases (revenues), other financing sources, decreases (expenditures), and other financing uses are included in current assets.

The government-wide statement of net position and statement of activities are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these activities are included on the statement of net assets.

The statement of net position and statement of activities are presented on the accrual basis of accounting. Under this method of accounting exchange, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The modified accrual basis of accounting is used by the governmental funds. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance

sheet. Operating statements of these funds present increases and decreases in net current assets. Effective for financial statements issued after June 30, 2000, GASB Statement 33, Accounting and Financial reporting for non-exchange transactions, defines a non-exchange transaction as a transaction whereby the government gives or receives value without directly receiving or giving equal value in return. Property taxes are imposed non-exchange revenues which result from assessments imposed on nongovernmental entities including individuals. Assets should be recognized when the government has an enforceable lien or legal claim to the resources, or the resources are received, whichever occurs first. Property tax revenues are recognized in the period when the district has a legal claim to the resources. However, for revenue to be recognized under the modified accrual basis, the measurable and available criteria must also be met. Governmental funds use the following practices in recording revenues and expenditures:

**Revenues**—Revenues are recognized in the accounting period they become available and measurable. Donations, fund raising net revenues and state revenue sharing are recorded when received. Ad valorem taxes become a lien against the assessed property on assessment date or levy date. Property taxes collected by the taxing authority, but not remitted to the District at year-end, are accrued in revenue and included in property tax receivable.

**Expenditures**—Expenditures are recognized in the accounting period when the fund liability is incurred.

**E. BUDGETS**

The District does have a formal policy on adopting a budget. All appropriations lapse at year-end.

**F. ENCUMBRANCES**

The District does not use encumbrance accounting.

**G. CASH AND CASH EQUIVALENTS**

Cash includes amounts in demand deposits and interest-bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

**H. RESTRICTED ASSETS**

Assets restricted by the board for a specific capital purchases are presented as restricted assets. Current liabilities payable from these restricted assets are so classified.

**I. PREPAID ITEMS**

The District uses the allocation method of recording prepaid expenses.

**J. CAPITAL ASSETS**

Capital assets are recorded as expenditures at the time purchased or constructed. All capital assets are valued at historical cost or estimated historical cost. Donated assets are valued at fair market value on the date donated. The cost of all assets acquired prior to 1989 have been valued using estimated historical cost.

Fire Stations	40 Years
Fire Trucks and Other Trucks	5-20 Years
Equipment, Furniture and Fixtures	3-10 Years

**K. COMPENSATED ABSENCES**

The District does not have any paid employees; therefore, it does not have a formal leave policy.

**L. LONG-TERM OBLIGATIONS**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**M. EQUITY-GOVERNMENT WIDE FINANCIAL STATEMENTS**

GASB Statement No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*, required reclassification of net assets into three separate components. GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, revised the terminology by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. GASB Statement No. 63 requires the following components of net position:

- **Invested in capital assets, net of related debt** – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or indebtedness attributable to acquisition, construction, or improvement of those assets. If there are significant unspent proceeds at year-end, the portion of the debt attributable to unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net asset calculation as unspent proceeds.
- **Restricted** – this component of net assets consists of constraints placed on the asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or law or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted** – This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

**N. FUND BALANCE-GOVERNMENTAL FINANCIAL STATEMENTS**

In the fund financial statements, governmental fund equity is classified as fund balance. The District adopted GASB 54 for the year ended December 31, 2014. Governmental funds are classified as follows:

- **Nonspendable** – These are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- **Restricted** – These are amounts that can be spent only for specific purpose because of constitutional provisions, enabling legislation, or externally imposed constraints by creditors, grantor, contributors or the laws or regulations of other governments.
- **Committed** – These are amounts that can be used for specific purpose determined by a formal decision by the Board Members, which are the highest level of decision-making authority for the District.
- **Assigned** – These are amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purpose.
- **Unassigned** – These are all other spendable amounts.

**NOTE 2—LEVIED TAXES**

On March 28, 2015, the district held a special election for the following two tax propositions:

1. A tax renewal for 16 mills for a period of 10 years beginning with the year 2016 and ending with the year 2025, for the purpose of acquiring, constructing, improving, maintaining, and/or operating facilities and equipment for fire protection and emergency medical service in and for the District, including paying for the cost of obtaining water for fire protection services.
2. A tax for 4 mills for a period of 10 years beginning with the year 2015 and ending with the year 2024, for the purpose of acquiring, constructing, improving, maintaining, and/or operating facilities and equipment for fire protection and emergency medical service in and for the District, including paying for the cost of obtaining water for fire protection services.

Both propositions were approved by voters within the District.

For the period covered by these financial statements, the millage was set at 20.42 mills. Property tax millage for 2020 for the District are set as follow:

2020 Assessed property value	\$	7,853,820
Exemptions		(3,020,740)
Taxable Value	\$	4,833,080
Total Tax	\$	160,376
Exemptions		(61,684)
Taxable Value	\$	98,692

**NOTE 3—CASH AND CASH EQUIVALENTS**

At December 31, 2020, the District has cash and cash equivalents totaling \$82,674 in interest bearing demand deposits.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are to be held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2020, the District had \$82,967 in deposits (collected bank balances). These deposits were secured from risk by \$250,000 of federal deposit insurance.
