## INDEPENDENT ACCOUNTANT’S REVIEW REPORT

Honorable Fernest Martin, Marshal  
Jeanerette City Marshal  
Jeanerette, Louisiana

### Report on the Financial Statements

We have reviewed the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Jeanerette City Marshal (hereinafter “Marshal”), a component unit of the City of Jeanerette, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Marshal’s basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management’s financial data and making inquiries of the management of the Marshal. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### *Management’s Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### *Accountant’s Responsibility*

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Marshal, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

***Accountant's Conclusion***

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As described in Note 12 to the financial statements, the prior financial statements have been restated to correct an error. Our conclusion is not modified with respect to this matter.

**Other Matters**

*Required Supplementary Information*

Management has omitted management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

*Supplementary Information*

The justice system funding schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules are the responsibility of the Marshal's management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. The schedules have been subjected to our review procedures applied in the review of the basic financial statements. We are not aware of any material modifications that should be made to the schedules. We have not audited the schedules and do not express an opinion on them.

Notes to Financial Statements

INTRODUCTION

As provided by LSA-RS 13:1871 et seq, the Third Ward Court of Iberia Parish (Jeanerette City Court) was established and included the creation of the office of the Marshal. The territorial jurisdiction of the Marshal extends throughout the City of Jeanerette and throughout the whole of Ward Three of Iberia Parish. The Marshal is elected for a six-year term. The Marshal's salary is funded by the City of Jeanerette at no cost to the Marshal's Cost Fund.

(1) Summary of Significant Accounting Policies

The accompanying component unit financial statements of the Jeanerette City Marshal (hereinafter "Marshal") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of certain significant accounting policies:

A. Financial Reporting Entity

As the governing authority of the city, for reporting purposes, the City of Jeanerette is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*, as amended, established criteria for determining which component units should be considered part of the City of Jeanerette for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

1. Appointing a voting majority of an organization's governing body, and
  - a. the ability of the City to impose its will on the organization and/or
  - b. the potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.
2. Organizations for which the City does not appoint a voting majority but are fiscally dependent on the City.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

Because the City of Jeanerette provides compensation and office space to the Marshal and the significance of the relationship between the Marshal and City, the Marshal was determined to be a component unit of the City of Jeanerette, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the Marshal and do not present information on the City, the general government services provided by the City, or the other governmental units that comprise the financial reporting entity.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Marshal as a whole. These statements include all the financial activities of the Marshal. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Marshal's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are only reported in the statement of fiduciary net position and statement of changes in fiduciary net position at the fund financial statement level.

Fund Financial Statements

The Marshal uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The various funds of the Marshal are classified into two categories: governmental and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Marshal or its total assets, liabilities, revenues, or expenditures of the individual governmental fund is at least ten (10) percent of the corresponding total for all governmental funds. The general fund of the Marshal is considered to be a major fund.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

The major fund of the Marshal is described below:

Governmental Fund -

*General Fund*

The General Fund, as provided by Louisiana Revised Statutes, is the principal fund of the Marshal and is used to account for the operations of the Marshal. The Marshal's primary source of revenue is fees from the Jeanerette City Court. General operating expenditures are paid from this fund.

The Marshal also presents the following fund types:

*Special Revenue Fund*

Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes. Act 166 of the 2019 Louisiana Legislative Session amended RS 13:5807 by requiring certain excess fees be deposited in an Equipment and Training Fund. The expenditure of these deposits is restricted in use to assist in the purchasing or updating of necessary equipment and officer training to carry out the efficient performance of all duties imposed by law on constables and marshals.

Fiduciary Funds -

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore are not available to support the Marshal's programs. The Marshal has adopted GASBS No. 84 for the reporting and classification of its fiduciary activities. Fiduciary reporting focus is on net position and changes in net position and are reported using the accrual basis of accounting.

The Marshal's fiduciary fund (custodial) is presented in the fiduciary fund financial statements. Because by definition these assets are being held for the benefit of a third party (individuals, organizations, other governments, etc.) and cannot be used to address activities or obligations of the Marshal, these funds are not incorporated into the government-wide financial statements.

The custodial fund of the Marshal is the Garnishment Fund. The Garnishment Fund is used to account for assets held by the Marshal as agent for the collection of court-ordered garnishment judgments. The Marshal charges an administrative fee and remits all other funds to the respective creditors.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

Measurement Focus

On the government-wide statement of net position and the statement of activities, governmental activities are presented using the economic resources measurement focus as defined in item b. below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. Governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on its balance sheet. The operating statement presents sources and uses of available expendable financial resources during a given period. Governmental funds use fund balance as its measure of available expendable financial resources at the end of the period.
- b. The government-wide financial statement utilizes an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets and liabilities (whether current or noncurrent) associated with its activities are reported. Government-wide fund equity is classified as net position.

Basis of Accounting

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Marshal considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting.

D. Assets, Liabilities and Equity

Cash and interest-bearing deposits

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the Marshal.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

Capital Assets

Capital assets, which include vehicles, furniture, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are

capitalized at acquisition value or estimated cost if acquisition value is not available. Donated assets are recorded as capital assets at their estimated acquisition value at the date of donation. The Marshal maintains a threshold level of \$500 or more for capitalizing assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Equipment	5-7 years
Automobiles	3-5 years
Building improvements	20 years

Leases

In accordance with GASBS No. 87, *Leases*, the Marshal uses the interest rate charged by the lessor as the discount rate, if provided, or the rate implicit in the lease agreement, if determinable. When the interest rate charged by the lessor is not provided or the implicit rate is not determinable, the Marshal uses its estimated incremental borrowing rate as the discount rate for the leases. Lease payments included in the measurement of the lease liability are composed of fixed payments through the noncancellable term of the lease and renewal periods that management considers reasonably certain to be exercised.

The Marshal monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability as provided in GASBS No. 87.

Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental funds is reported as liabilities in the government-wide statements. The long-term debt consists of capital finance purchase agreement obligations.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The payment of principal and interest is reported as expenditures.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

Equity Classifications

*Government-wide Financial Statements*

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted – consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted – all other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

When an expenditure is incurred for purposes for which both restricted and unrestricted net resources are available, the Marshal considers restricted funds to have been spent first.

*Fund Financial Statements*

Governmental fund equity is classified as fund balance. Fund balance for the Marshal’s governmental funds is displayed depicting the relative strength of the spending constraints placed on the purposes for which resources can be used. In the governmental fund financial statements, fund balances are classified as follows:

- a. Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- b. Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed - amounts that can be used only for specific purposes determined by a formal action of the Marshal. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Marshal.
- d. Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Only the Marshal may assign amounts for specific purposes.
- e. Unassigned - all other spendable amounts.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Marshal considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Marshal considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Marshal has provided otherwise in his commitment or assignment actions.

E. Expenditures and Expenses

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function. In the fund financial statements, expenditures are classified by character and function.

(2) Cash and Interest-bearing Deposits

Under state law, the Marshal may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Marshal may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2022, the Marshal has a cash balance (book balance) totaling \$25,180 as follows:

	<u>Governmental Activities</u>	<u>Fiduciary Funds</u>	<u>Total</u>
Cash and interest-bearing deposits	<u>\$ 25,122</u>	<u>\$ 58</u>	<u>\$ 25,180</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the Marshal or the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Marshal's deposits may not be recovered or the Marshal will not be able to recover collateral securities that are in the possession of an outside party. The Marshal has not formally adopted policies that limit allowable deposits or investments and address the specific type of risk to which the Marshal is exposed. Deposit balances (bank balances) at June 30, 2022, were \$28,331 which were fully secured by federal deposit insurance and not subject to custodial credit risk.

(4) Leases

During the fiscal year ended June 30, 2022, the Marshal implemented GASBS No. 87, *Leases*, for accounting and reporting leases that had previously been reported as operating leases.

In accordance with GASBS No. 87, the Marshal recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements based on the facts and circumstances that existed at the beginning of the period of implementation. The agreement underlying the leased assets has a term of 36 months with an intangible right-to-use office equipment.

JEANERETTE CITY MARSHAL  
Jeanerette, Louisiana

Notes to Financial Statements (continued)

The following is a summary of changes in the lease liability for the year ended June 30, 2022:

	Balance Beginning	Additions	Reductions	Ending Balance	Due Within One Year
Lease liability	\$ -	\$ 4,719	\$ (243)	\$ 4,476	\$ 1,501

Lease liability reductions are liquidated by the Marshal's general fund.

At the commencement of a lease, the Marshal initially measures the lease liability at the present value of payments expected to be made during the lease term. For purposes of discounting future payments on the lease, the Marshal used the incremental borrowing rate (IBR) of 4.98%. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the

lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of its useful life or the lease term.

Lease assets are reported with capital assets on the statement of net position. The leased equipment and accumulated amortization of the right-to-use asset is outlined in Note 3.

Minimum lease payments through the lease term are as follows:

Year Ending June 30,	Principal	Interest	Total
2023	\$ 1,501	\$ 189	\$ 1,690
2024	1,577	112	1,689
2025	1,398	33	1,431
Total	\$ 4,476	\$ 334	\$ 4,810

(6) Retirement Plan

Substantially, all employees of the Marshal's office are members of the Municipal Employees' Retirement System of Louisiana, a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the Marshal's office are members of Plan A Teir 2. All permanent employees working at least 35 hours per week who are paid wholly from city funds and all elected city officials are eligible to participate in the System.

Regular retirement benefits

A member of Plan A Teir 2 is eligible to retire and receive regular benefits if the member has credit for at least:

1. Age 67 with seven (7) years of creditable service
2. Age 62 with ten (10) years of creditable service
3. Age 55 with thirty (30) years of creditable service
4. Any age with twenty-five (25) years of creditable service, exclusive of military service and unused annual and sick leave, with an actuarily reduced early benefit.

Generally, the monthly amount of the retirement allowance for any member of Plan A Tier 2 shall consist of an amount equal to three percent of the member's final compensation multiplied by his years of creditable service. Final compensation is the average monthly earnings during the highest sixty consecutive months, or joined months if service was interrupted. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts. An additional regular retirement benefit can be received for any City marshal or deputy City marshal. See Plan Booklet for further details.

The System issued an annual, publicly available financial report that includes financial statements and required supplementary information for the System. A publicly available financial report that includes financial statements and required supplemental financial information may be

obtained from the System's website, [www.mersla.com](http://www.mersla.com), or on the Louisiana Legislative Auditor's website, [www.lla.la.gov](http://www.lla.la.gov).

Funding Policy. Under Plan A, members are required by state statute to contribute 9.50% of their earnable compensation. Contributions to the System also include one-fourth of one percent (except Orleans parish) of the taxes shown to be collectible by the tax rolls of each parish. The System also receives revenue sharing funds each year as appropriated by Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities. As provided by RS 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year.

The City of Jeanerette makes contributions to the retirement system on-behalf of the Marshal. Therefore, the disclosure of pension liabilities, deferred outflows of resources and deferred inflows of resources required by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, as amended, are included within the City's financial report. The City's publicly available financial report may be obtained by writing to the City of Jeanerette, P. O. Box 209, Jeanerette, LA 70544.

(7) Compensation and Other Payments to Marshal

Act 706 of the 2014 Legislative Session amended RS 24:513A requiring additional disclosure of total compensation, reimbursements, benefits, or other payments made to an agency head of chief officer. Payments to and on behalf of Marshal Fernest Martin for the year ended are as follows:

Commissions	\$	2,053
On-behalf by City of Jeanerette:		
Salary		83,661
State supplemental		6,000
Insurance - Life		411
Travel/Car allowance		5,200
Total	\$	<u>97,325</u>

(8) On-Behalf Payments for Salaries and Related Benefits

GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, requires the Marshal to report on-behalf payments made by the City of Jeanerette and the Iberia Parish Government for salaries and related benefit to the Marshal and the Marshal's employees. The basis for recognizing the revenues and expenditure payments is that actual contributions are made by the City and the Parish and not by the Marshal. For the year ended June 30, 2022, the City and Parish paid salaries and related benefits to the marshal and deputy marshals totaling \$105,617 and \$36,040, respectively, which include payments to the Municipal Employees Retirement System of Louisiana.

Notes to Financial Statements (continued)

(9) Expenditures of the Marshal's Office Paid by the City of Jeanerette

The cost of some expenditures for the operation of the Marshal's office as required by Louisiana Revised Statute 13:1889, is paid by the City of Jeanerette. Such expenditures are not included in the accompanying financial statements.

(10) Risk Management

The Marshal is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. The Marshal's primary government, the City of Jeanerette, has elected to purchase insurance coverage through the commercial insurance market to cover its exposure to loss.

The City is insured up to policy limits for each of the above risks. There were no significant changes in coverage, retentions, or limits during the year ended June 30, 2022. Settled claims have not exceeded the commercial coverage in any of the previous three fiscal years. The Marshal has made no contributions to the premiums on the policy during the year ended June 30, 2022.

(11) Accounting Standards Scheduled to be Implemented

The following is a summary of accounting standards adopted by the Governmental Accounting Standards Board (GASB) that are scheduled to be implemented in the future that may affect the Marshal's financial report:

GASB Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement establishes standards of accounting and financial reporting for PPPs and APAs for governments. As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. The standard is effective for annual reporting periods beginning after June 15, 2022. The effect of this standard or its applicability to the Marshal are unknown at this time.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement provides guidance on the accounting and financial reporting for subscription-based technology arrangements (SBITAs) for government end users (governments). This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including subscription costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The provisions of GASBS No. 96 are effective for fiscal years beginning after June 15, 2022. The effect of implementation on the Marshal's financial statements has not yet been determined.

Notes to Financial Statements (continued)

GASB Statement 100, *Accounting Changes and Error Corrections - An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The standard is effective for annual reporting periods beginning after June 15, 2023. The effect of implementation on the Marshal's financial statements has not yet been determined.

(12) Prior Period Adjustments

During the year ended June 30, 2022, the Marshal made adjustments to correct errors in the recognition of capital assets, accumulated depreciation, and liabilities regarding the acquisition of vehicles with finance purchase agreements. Beginning assets, liabilities, and net position have been restated as follows:

Schedule of Findings  
Year Ended June 30, 2022

Findings reported in accordance with *Government Auditing Standards*:

2022-001 – Inadequate Segregation of Duties

Year Initially Occurring: Unknown

CONDITION: Accounting and financial functions are not adequately segregated.

CRITERIA: Internal control is a process – effected by those charged with governance, management, and other personnel – designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. The Marshal’s internal control over financial reporting includes those policies and procedures that pertain to the Marshal’s ability to record, process, summarize, and report financial data consistent with the assertions embodied in either annual financial statements or interim financial statements, or both.

CAUSE: The cause of the conditions is the result of a failure to design and implement policies and procedures necessary to achieve adequate internal control.

EFFECT: Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

RECOMMENDATION: Due to the size of the operation and the cost-benefit of additional personnel, it may not be feasible to achieve complete segregation of duties.

2022-002 – Financial Reporting

Year initially occurring: Unknown

CONDITION: The Marshal lacks adequate staff and the expertise to properly prepare financial statements in accordance with U.S. GAAP, as applicable to governmental entities.

CRITERIA: The Marshal’s internal control over financial reporting includes those policies and procedures that pertain to its ability to record, process, summarize, and report financial data consistent with the assertions embodied in the financial statements and to apply GAAP in the preparation of those financial statements and related disclosures.

CAUSE: The condition results from the relatively small size of the Marshal and the increased costs of hiring personnel to prepare GAAP-based financial statements.

EFFECT: GAAP-based financial statements, as applicable to governmental entities, are not prepared by the Marshal.

RECOMMENDATION: Management should evaluate the additional costs required to achieve the desired benefit and determine if it is economically feasible in relation to the benefit received.

CRITERIA: RS 13:1881(B) provides that a city marshal may use funds available to his office to pay additional compensation to deputy marshals, but not to fix or supplement his own salary. The Marshal's salary is determined and paid by the City of Jeanerette and Iberia Parish Government.

CAUSE: Unfamiliarity with statutory provisions.

EFFECT: The Marshal may not be compliant with RS 13:1881(B).

RECOMMENDATION: We recommend the Marshal discontinue the payment of the automobile allowance and consult with legal counsel and/or the Louisiana Attorney General regarding the legality of the payments.

2022-004 – Local Government Budget Act

Year Initially Occurring: Year ended June 30, 2020

CONDITION: A budget for the fiscal year for the general fund and each special revenue fund was not prepared and adopted.

2022-002 – Financial Reporting

CONDITION: The Marshal lacks adequate staff and the expertise to properly prepare financial statements in accordance with U.S. GAAP, as applicable to governmental entities.

MANAGEMENT'S RESPONSE: Management continues to evaluate the cost-benefit of outsourcing the preparation of the Marshal's financial statements to its independent auditors rather than incur the costs to employ someone to prepare GAAP-based financial statements and have determined that it would be more cost effective to outsource the preparation of the financial statements. We will review the financial statements, notes, and any supplementary information prior to accepting responsibility for their presentation and content.

2022-003 – Automobile Allowance

CONDITION: Payment of an automobile allowance to the Marshal may be considered a salary supplement which may be violative of statutory provisions.

MANAGEMENT'S RESPONSE: The Marshal discontinued allowances during the year ended June 30, 2022. This matter has been resolved as of April 2022.

2022-004 – Local Government Budget Act

CONDITION: A budget for the fiscal year for the general fund and each special revenue fund was not prepared and adopted.

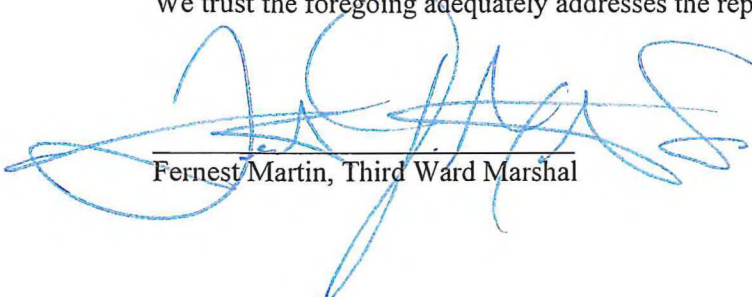

MANAGEMENT'S RESPONSE: This matter has been resolved. The Marshal has instituted policies and procedures to ensure compliance with the Local Government Budget Act. The Marshal prepared a budget for the year ended June 30, 2023.

2022-005 – Late Audit Submission

CONDITION: The Marshal's audit report was not completed and submitted to the Office of the Louisiana Legislative Auditor within six months of year end.

MANAGEMENT'S RESPONSE: The Marshal has contracted with a CPA firm to resolve delinquent reporting. Upon completion of the years ended 2022 and 2023, the Marshal's office will ensure that its report is submitted to the Louisiana Legislative Auditor in accordance with state statute for the fiscal year ended June 30, 2024.

We trust the foregoing adequately addresses the reported issues.
