INDEPENDENT ACCOUNTANT'S REVIEW REPORT

The Honorable Jessica Morris, Mayor
& Members of the Board
Clarks, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and the business-type activities of the Town of Clarks, Louisiana, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the Town of Clarks, Louisiana. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

The management of the Town of Clarks, Louisiana, is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with *the Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Town of Clarks, Louisiana and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A) and Budget to Actual Statement be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. We have not audited or reviewed such required supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

Supplemental Information

The supplementary information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but it has been compiled from information that is the representation of management. We have not audited or reviewed the supplementary information and accordingly, we do not express an opinion or provide any assurance on such supplementary information.

Other Reporting Requirements

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report dated September 30, 2025, on the results of our agreed-upon procedures on pages 40 through 43. Pages 44 through 47 present the Louisiana Attestation Questionnaire.

MANAGEMENT'S DISCUSSION & ANALYSIS

As management of the Town, we offer readers of the Town of Clarks' financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with the Town's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

- The Town had total revenue of \$70,470, of which \$20,834 came from taxes. This is a \$6,840 increase from last year's revenues, mainly due to an increase in miscellaneous income in the amount of \$8,440.
- The Town had total expenditures of \$180,011, which is a \$22,166 decrease from last year, mainly due to a decrease in police expense in the amount of \$9,121 and a decrease in general government in the amount of \$14,935.

MD&A

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements consist of two components: 1) fund financial statements, and 2) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The Town is a special-purpose entity engaged only in governmental activities. Accordingly, only fund financial statements are presented as the basic financial statements.

FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

USING THIS ANNUAL REPORT

The Town's annual report consists of financial statements that show information about the Town's funds, enterprise funds and governmental funds.

REPORTING THE TOWN'S MOST SIGNIFICANT FUNDS

The Town's financial statements provide detailed information about the most significant funds. The Town may establish other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using grants and other money. The Town's enterprise fund uses the following accounting approach:

All of the Town's services are reported in an enterprise fund. They are reported using the full accrual method of accounting in which all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The focus of proprietary funds is on income measurement, which, together with the maintenance of equity, is an important financial indication.

See independent accountant's review report.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Clarks was incorporated under the provisions of the Lawrason Act. The Town operates under the Mayor-Board of Alderman form of government. The Town provides the following significant services to its residents as provided by its charter: public safety (police and fire), highways and streets, utilities (water and sewer services) and general administrative functions, including coordination of related services with parish, state and federal governing bodies.

The accounting and reporting policies of the Town of Clarks conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the Louisiana Municipal Audit and Accounting Guide, and to the industry audit guide, Audits of State and Local Governmental Units.

The following is a summary of certain significant accounting policies:

A. GOVERNMENT-WIDE & FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Changes in Net Position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, & FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The municipality reports the following major governmental funds:

The General Fund is the municipality's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The municipality reports the following major proprietary fund:

- Water Activities
- Sewer Activities

GASB Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges for services and sales taxes. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. EQUITY CLASSIFICATIONS

In the government-wide financial statements, equity is classified as Net Position and displayed in three components as applicable. The components are as follows:

Net Investment in Capital Assets - Capital assets including restricted capital assets, when applicable, net of accumulated depreciation.

Restricted Net Position - Net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or (2) law through constitutional provisions or enabling legislation.

Unrestricted Net Position - All other net positions that does not meet the definition of "restricted" or "net investment in capital assets".

When an expense is incurred for the purposes for which both restricted and unrestricted net position is available, management applies restricted resources first. The policy concerning which to apply first varies with the intended use and legal requirements. The decision is typically made by management at the incurrence of the expense.

In the Fund Financial Statements, governmental fund equity is classified as a fund balance. The Town has implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the purposes for which resources can be used:

- a. Nonspendable fund balance – amounts that are not in a spendable form (such as prepaid expenses) or are required to be maintained intact;
- b. Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- c. Committed fund balance – amounts constrained to specific purposes by a government itself using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint;

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

- d. Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- e. Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

D. FIXED ASSETS & LONG-TERM LIABILITIES

For the year ended June 30, 2025, no interest costs were capitalized for construction of fixed assets. The Town of Clarks has a capitalization policy of \$1,500.

Depreciation of all exhaustible fixed assets is charged as an expense against its operations. Accumulated depreciation is reported on the proprietary fund balance sheet and governmental fund statement of activities. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

	<u>Life in Years</u>
Water/Sewer System	40
Equipment	5-10
Auto	6-7

E. CASH & INVESTMENTS

For purposes of the Statement of Net Position, cash and interest-bearing deposits include all demand accounts, saving accounts, and certificates of deposit of the Town. For the purpose of the proprietary fund Statement of Cash Flows, "Cash and Cash Equivalents" include all demand and savings accounts, and certificates of deposit under 90 days.

All cash and investments (CD's over 90 days) are reported at cost and are on deposit as follows at federally insured banks:

It is the Town's policy for deposits to be 100% secured by collateral at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation insurance. The Town's deposits are categorized to give an indication of the level of risk assumed by the Town at fiscal year-end. The categories are described as follows:

- *Category 1* – Insured or collateralized with securities held by the Town or by its agent in the Town's name.
- *Category 2* – Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name.
- *Category 3* – Uncollateralized.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

At June 30, 2025, the Town of Clarks' bank balance was \$149,548. Amounts on deposit are secured by the following pledges:

<u>Description</u>	<u>Market Value</u>
FDIC (Category 1)	\$ 149,548
Securities (Category 2)	-0-
Total	\$ 149,548

Deposits were fully secured as of June 30, 2025.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Entity that the fiscal agent bank has failed to pay deposit funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Entity's name.

F. RECEIVABLES & PAYABLES

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

G. INVENTORIES

Immaterial amounts of inventory are maintained for general fund and enterprise fund operations and, accordingly, these supplies are expensed as purchased.

H. SALES TAXES

The Town receives a pro-rata share of a one-fourth of one percent parish wide (excluding the Town of Columbia) sales tax approved by the voters in Caldwell Parish on October 19, 1985, for fire protection in the parish. The sales tax is collected by the police jury and remitted to the Town net of its pro-rata share of the cost of collection.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

I. COMPENSATED ABSENCES

It is the Town's policy to permit full-time permanent employees to earn 18 days of annual leave for each full year of employment. Annual leave is credited to employees each pay period on a pro rata basis. Employees are allowed to carry over 30 to 45 days of accumulated annual leave to the following year based on years of service. All full-time permanent employees earn 10 days of sick leave for each full year of employment. Sick leave is credited to employees each pay period on a pro rata basis. Employees are allowed to accumulate any unused sick leave hours without limitation.

Upon termination, resignation, or retirement, employees shall be paid at their current rate of pay, for accumulated annual and sick leave combined from 90 to 105 days based on years of service. Unpaid compensated absences are recorded as a liability when the benefits are earned in the Water Fund financial statements, which is the fund that pays the salaries of the Town's permanent full-time employees. The valuation of accrued leave benefits is calculated in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*. The Town's total accrued compensated absences liability at June 30, 2024, was zero.

J. LONG-TERM OBLIGATIONS

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

K. FUND EQUITY

In the fund equity statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

L. RESTRICTED NET POSITION

The Town records restricted assets to indicate that a portion of its net position balances are legally restricted for a specific future use. The following is a list of such restrictions and a description of each:

Restricted for Road Maintenance

This amount represents \$2,973 restricted for repairs and maintenance of the Town roads.

The Town is of the opinion that such an allowance would be immaterial in relation to the financial statements taken as a whole.

Trade receivables are generally shown net of an allowance for uncollectible amounts. The Town is of the opinion that an allowance for uncollectible accounts would be immaterial to the financial statements. Past due amounts are written off when they are considered uncollectible by management.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

TOWN OF CLARKS, LOUISIANA

NOTES TO THE BASIC FINANCIAL STATEMENTS-(CONTINUED)

(12) FEDERAL GRANT CONTINGENCIES

Amounts received from grantor agencies are subject to audit and adjustment by the grantor agencies. If any expenditures are disallowed as a result of these audits, the claims for reimbursement to the grantor agency would become a liability of the Town. In the opinion of management, any such adjustments would not be material to the Town's operating results or fund balances.

(13) SUBSEQUENT EVENTS

Management has evaluated events and transactions subsequent to the Statement of Net Position date through, September 30, 2025, of the independent auditor's report for potential recognition or disclosure in the financial statements. The following item is reported as a subsequent event.
