## Independent Auditor's Report

Board of Commissioners  
Hospital Service District No. 1  
A Component Unit of Iberia Parish, State of Louisiana  
(d/b/a Iberia Medical Center)  
New Iberia, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center), as of and for the years ended September 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Medical Center's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Medical Center as of September 30, 2020 and 2019, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Medical Center's basic financial statements. The Schedule of Compensation, Reimbursements, Benefits and Other Payments to Chief Executive Officer and Schedule of Insurance Policies listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements.

The Schedule of Compensation, Reimbursements, Benefits and Other Payments to Chief Executive Officer is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Reimbursements, Benefits and Other Payments to Chief Executive Officer is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Hospital Service District No. 1  
A Component Unit of Iberia Parish, State of Louisiana  
(d/b/a Iberia Medical Center)  
Page 3

The Schedule of Insurance Policies has not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 22, 2021, on our consideration of the Medical Center's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Medical Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medical Center's internal control over financial reporting and compliance.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

***Introduction***

This management's discussion and analysis of the financial performance of Hospital Service District No. 1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center), provides an overview of the Medical Center's financial activities for the years ended September 30, 2020 and 2019. All amounts described are approximate. It should be read in conjunction with the accompanying financial statements of the Medical Center.

***Financial Highlights***

- Cash and cash held under bond trust indenture increased by \$21,773,000 or 65.7% in 2020 compared to 2019 which increased by \$10,154,000 or 44.2% in 2019 compared to 2018.
- The Medical Center's net position increased \$3,816,000 or 9.0% in 2020 and increased \$1,335,000 or 3.3% in 2019.
- The Medical Center reported operating income in 2020 of \$3,171,000 operating income in 2019 of \$1,866,000, an increase in income of \$1,305,000 or 69.9%. The operating income in 2019 decreased by \$2,541,000 or 57.7% compared to the operating income reported in 2018.
- Net nonoperating revenues increased by \$1,176,000 or 221.1% in 2020 compared to 2019 and net nonoperating expenses increased \$183,000 or 52.4% in 2019 compared to 2018.

***Using This Annual Report***

The Medical Center's financial statements consist of three statements – a balance sheet; a statement of revenues, expenses and changes in net position; and a statement of cash flows. These statements provide information about the activities of the Medical Center, including resources held by the Medical Center but restricted for specific purposes by creditors, contributors, grantors or enabling legislation. The Medical Center is accounted for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

***The Balance Sheet and Statement of Revenues, Expenses and Changes in Net Position***

One of the most important questions asked about any hospital's finances is, "Is the entity as a whole better or worse off as a result of the year's activities?" The balance sheet and the statement of revenues, expenses and changes in net position report information about the Medical Center's resources and its activities in a way that helps answer this question. These statements include all restricted and unrestricted assets, deferred outflows of resources and all liabilities and deferred inflows of resources using the accrual basis of accounting. Using the accrual basis of accounting means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Medical Center's net position and changes in it. The Medical Center's total net position, the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources, is one measure of the Medical Center's financial health or financial position. Over time, increases or decreases in the Medical Center's net position are an indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors, such as changes in the Medical Center's patient base, changes in legislation and regulations, measures of the quantity and quality of services provided to its patients and local economic factors should also be considered to assess the overall financial health of the Medical Center.

***The Statement of Cash Flows***

The statement of cash flows reports cash receipts, cash payments and net changes in cash and cash equivalents resulting from three defined types of activities. It provides answers to such questions as where cash came from, what was cash used for and what was the change in cash and cash equivalents during the reporting period.

***The Medical Center's Net Position***

The Medical Center's net position is the difference between its assets and deferred outflows of resources and liabilities and deferred inflows of resources reported in the balance sheet. The Medical Center's net position increased by \$3,816,000 or 9.0% in 2020 over 2019 and increased by \$1,335,000 or 3.3% in 2019 over 2018, as shown in *Table 1*. The Medical Center's increase in net position in 2020 as compared to 2019 was due to the recognition of Provider Relief Funds and reductions in pension expense. The increase in 2019 was due to increased revenues due to continued increase in volumes.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

The most significant changes in the Medical Center's financial position in 2020 was the increase in cash and cash held under bond trust indenture, the increase in other current and noncurrent liabilities and the decrease of the net pension liability and deferred outflows of resources and the increase in deferred inflows of resources.

The Medical Center's cash and cash held under bond indenture increased \$21,773,000 or 65.7% from 2019 to 2020 due to the receipt of both Medicare Advance Payments of \$14,885,000 and Provider Relief Funds received of \$6,328,000 as discussed in *Note 17*.

The Medical Center's other current and noncurrent liabilities increased \$20,291,000 or 162.1% from 2019 to 2020 due the Medicare Advance Payments of \$14,885,000 to be repaid through October 2022 and Provider Relief Funds received and unearned of \$5,035,000 as of September 30, 2020.

The decrease in the net pension liability of \$20,682,000, was the result of the pension plan assets performing better than projected. This benefit resulted in a decrease in the deferred outflows of resources of \$11,857,000 and an increase in deferred inflows of resources of \$9,333,000 and will be recognized through pension expense over five years. Further discussion of pension balances is discussed in *Note 14*.

The most significant changes in the Medical Center's financial position in 2019 resulted from the change in net pension asset of \$3,228,000 in 2018 to net pension liability of \$20,911,000 in 2019. The Medical Center's proportionate share of the net pension liability as a part of a multi-employer defined benefit pension plan increased in the current year in addition to poor performance of plan assets in calendar year 2018 as compared to actuarial projected performance. The deferred outflows of resources increased significantly from the prior year due to the net difference between projected and actual earnings on pension plan investments. Further discussion of pension balances is discussed in *Note 14*.

The Medical Center's cash and cash held under bond indenture increased \$10,154,000 or 44.2% from 2018 to 2019. Cash and long-term debt increased from 2018 to 2019 due to the Series 2019 bond issue of \$11,000,000 which is restricted for capital acquisitions.

The Medical Center's other current assets increased \$3,893,000 or 65.4% from 2018 to 2019 due to the timing of Medicaid supplemental payments in 2019.

Total nonoperating revenues (expenses)	<u>644,116</u>	<u>(531,865)</u>	<u>(348,885)</u>
<b>Increase in Net Position</b>	<u>\$ 3,815,503</u>	<u>\$ 1,334,512</u>	<u>\$ 4,058,838</u>

**Operating Results**

The first component of the overall change in the Medical Center's net position is its operating income – generally, the difference between net patient service and other operating revenues and the expenses incurred to perform those services. In the past 20 years, excluding 2016, the Medical Center has reported an operating gain. The 2016 operating results were impacted by an anticipated increase in expenses due to the acquisition and licensure of a second hospital campus. In 2020, the Medical Center reported operating income of \$3,171,000. See below for components that make up operating income in the current year.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

Operating income of \$3,171,000 increased in 2020 by \$1,305,000 or 69.9% as compared to the operating income of \$1,866,000 in 2019. The primary components of the increase in operating income in the current year are shown below:

- An increase in net patient service revenue of \$352,000 or 0.4%
- A decrease in pension expense of \$3,623,000 or 44.0%
- A decrease in salaries, wages and employee benefits (excluding pension expense) of \$1,599,000 or 3.7% with the reduction of elective patient services provided
- An increase in supplies and other expense of \$6,653,000 or 14.8%

Patient care services provided by the Medical Center for the years ended September 30, 2020, 2019 and 2018, are as follows:

	<u>2020</u>	<u>2019</u>	<u>2018</u>
<b>Patient Care Services Provided</b>			
Inpatient days (acute and psych)	19,401	20,208	19,713
Inpatient days (rehab)	2,509	2,174	-
Surgery cases	3,736	5,102	5,622
Emergency room visits	32,858	37,452	40,476
Employed physician clinic visits	44,543	48,344	44,085
Outpatient rehab therapy visits	15,785	17,972	16,383
Other outpatient visits	76,357	88,236	91,926
<b>Increase From Prior Year As A Percentage</b>			
Inpatient days (acute and psych)	-3.99%	2.51%	
Inpatient days (rehab)	15.41%	100.00%	
Surgery cases	-26.77%	-9.25%	
Emergency room visits	-12.27%	-7.47%	
Employed physician clinic visits	-7.86%	9.66%	
Outpatient rehab therapy visits	-12.17%	9.70%	
Other outpatient visits	-13.46%	-4.01%	

The decrease in various visits and days was due to the incidence of COVID-19 (COVID-19) as a global pandemic. The shelter-in-place orders and other measures mandated by the state resulted in overall reductions in patient volumes during the year ended September 30, 2020. While volumes decreased in 2020 due to COVID-19, net patient service revenue remained consistent with 2019 due to the increased acuity of the patients in 2020.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

Below is a summary of operating expenses as a percent of operating revenues for 2020, 2019 and 2018.

	<u>2020</u>	<u>2019</u>	<u>2018</u>
<b>Operating Revenues</b>	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>
<b>Operating Expenses</b>			
Total salaries, wages and employee benefits	44.1%	50.5%	46.2%
Supplies, professional fees and purchased services	49.1%	44.0%	45.6%
Depreciation and amortization	<u>3.8%</u>	<u>3.7%</u>	<u>3.7%</u>
Total operating expenses	<u>97.0%</u>	<u>98.2%</u>	<u>95.5%</u>
<b>Operating Income</b>	<u>3.0%</u>	<u>1.8%</u>	<u>4.5%</u>

Salaries, wages and employee benefits decreased largely due a decrease in pension expense due to positive pension asset performance in the current year. The Medical Center's pension expense decreased from \$8,232,000 in 2019 to \$4,609,000 in 2020, a \$3,623,000 or 44.0% decrease, due to the performance of the plan assets compared to actuarily projected amounts during the year. Further discussion about the pension balances are included in *Note 14*.

Supplies, purchased services and professional fees expense increased \$6,653,000 from 2019 to 2020 due to an increase in intergovernmental transfers associated with the Louisiana supplemental payment programs as well as increases in supplies, drug costs and contract labor due to staffing shortages during COVID-19.

The operating income in 2019 of \$1,866,000 decreased as compared to the operating income reported in 2018 of \$4,408,000, a decrease of \$2,541,000 or 57.7%. The decrease in operating income from 2018 to 2019 was primarily the result of an increase in pension expense of \$4,119,000 or 100.2%, due to the performance of the plan assets compared to actuarily projected amounts during the year.

***Nonoperating Revenues and Expenses***

Nonoperating revenues and expenses consist primarily of interest income, interest expense and income from investments in joint ventures. The largest change in nonoperating revenues in 2020 as compared to 2019 is the recognition of \$1,316,000 of Provider Relief Funds received during 2020 associated with COVID-19. Interest expense in 2020 of \$1,108,000 increased 30.9% compared to 2019 expense of \$847,000 due to a full year of interest expense incurred on the Series 2019 bonds. Income from investment in joint ventures in 2020 of \$214,000 increased from \$154,000 in 2019, or 39.3%.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**  
**Management's Discussion and Analysis**  
**Years Ended September 30, 2020 and 2019**

***The Medical Center's Cash Flows***

The increase in the Medical Center's operating cash flows from 2019 to 2020 is consistent with the changes in operating income as well as the increase due to Medicare Advance Payments. The investing cash flows are overall consistent with changes in nonoperating revenues and expenses for 2020 and 2019, discussed earlier. The change in capital and related financing and noncapital financing activities in 2020 and 2019 was related to the Provider Relief Funds received in 2020 and the Series 2019 bond issue in 2019 described below.

***Capital Assets and Debt Administration***

***Capital Assets***

At the end of 2020 and 2019, the Medical Center had \$41,689,000 and \$39,543,000, respectively, invested in capital assets, net of accumulated depreciation, as detailed in *Note 9* to the financial statements. In 2020 and 2019, the Medical Center purchased new property and equipment costing \$6,130,000 and \$3,804,000, respectively.

***Debt***

At September 30, 2020 and 2019, the Medical Center had \$33,160,000 and \$34,798,000, respectively, in revenue bonds and capital lease obligations outstanding. The Medical Center's formal debt issuances and revenue bonds are subject to limitations imposed by state law. In 2019, the Medical Center issued the Series 2019 bonds for a total of \$11,000,000 for the purpose to provide funding for capital acquisitions. The Medical Center continued to make principal payments on outstanding long-term debt and capital lease obligations in 2020 totaling \$2,046,000.

***Contacting the Medical Center's Financial Management***

This financial report is designed to provide the Medical Center's patients, suppliers and creditors with a general overview of the Medical Center's finances and to show the Medical Center's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Medical Center Administration by telephoning 337.364.0441.

**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 1: Nature of Operations and Summary of Significant Accounting Policies**

***Nature of Operations and Reporting Entity***

Hospital Service District No. 1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center) is a 166 bed acute care medical center located in New Iberia, Louisiana. The Medical Center is a component unit of Iberia Parish (Parish) and a political subdivision of the State of Louisiana. The Iberia Parish Government Board of Commissioners appoints seven members of a nine-member Board of Commissioners who operate the Medical Center. The additional two members of the Board of Commissioners are appointed by Iberia Medical Center's medical staff. The Medical Center primarily earns revenues by providing inpatient, outpatient and emergency care services to patients in the Parish area.

Iberia Medical Center's opened its initial hospital operations in September 1960. In January 2016, the Medical Center purchased a second hospital building and additional medical office buildings to expand inpatient and outpatient surgical services, behavioral health services, inpatient and outpatient rehabilitation, imaging, laboratory, wound care, physical rehabilitation, cardiac rehabilitation as well as other services to meet the healthcare needs of the Parish. The medical office building remained open after the purchase but the hospital building obtained licensure and commenced operations on April 27, 2016.

The Medical Center's financial statements include the operations of Iberia Medical Center Foundation (Foundation). The Foundation is a 501(c)3 nonprofit health organization, established in order to support the Medical Center and is included in the financial statements using the blending method. The financial activity of the Foundation is not significant.

***Basis of Accounting and Presentation***

The financial statements of the Medical Center have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange, and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated or voluntary nonexchange transactions are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated or voluntary nonexchange transactions. Government-mandated or voluntary nonexchange transactions that are not program specific (such as investment income and interest on capital asset-related debt) are included in nonoperating revenues and expenses. The Medical Center first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

***Risk Management***

The Medical Center is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than employee health claims. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Medical Center is self-insured for a portion of its exposure to risk of loss from employee health claims. An annual estimated provision is accrued for the self-insured portion of employee health claims and includes an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

***Investments in Joint Ventures***

The Medical Center holds a 20% interest in New Iberia Surgery Center, which provides outpatient surgery services to the community. This investment is carried on the equity method of accounting. The investment in New Iberia Surgery Center totaled \$312,266 and \$266,221 as of September 30, 2020 and 2019, respectively, and is included in investments in joint ventures on the accompanying balance sheets.

The Medical Center originally held a 15% ownership interest in Acadiana Diagnostic Imaging, LLC, which is a provider of imaging services. On May 1, 2015, the Medical Center purchased an additional 25% interest in Acadiana Diagnostic Imaging, LLC for a total of \$395,000, increasing the Medical Center's ownership to 40%. This transaction resulted in goodwill of \$282,536, which is being amortized over 10 years. Unamortized goodwill as of September 30, 2020 and 2019, was \$129,496 and \$157,749, respectively, and is included in investments in joint ventures on the accompanying balance sheets. Subsequent to the additional purchase of ownership interest in 2015, this investment is accounted for using the equity method of accounting. The investment in Acadiana Diagnostic Imaging, LLC, excluding unamortized goodwill, totaled \$83,483 and \$105,436 as of September 30, 2020 and 2019, respectively, and is included in investments in joint ventures on the accompanying balance sheets.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

As of January 1, 2018, the Medical Center has a 25% membership interest in Acadian Homecare of New Iberia, LLC. The investment balance totaled \$42,537 and \$10,520 as of September 30, 2020 and 2019, respectively.

Using the equity method of accounting, the Medical Center's share of net income (loss) is recognized as nonoperating revenue (expense) in the Medical Center's statement of revenues, expenses and changes in net position and added to the investment account. The investment account is also reduced for any dividends received.

***Patient Accounts Receivable***

The Medical Center reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The Medical Center provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

***Supplies***

Supply inventories are stated at the lower of cost or market, determined using the first-in, first-out method or market.

***Capital Assets***

Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation if acquired by gift. Depreciation and amortization is computed using the straight-line method over the estimated useful life of each asset. Assets under capital lease obligations and leasehold improvements are amortized over the shorter of the lease term or their respective estimated useful lives. The following estimated useful lives are being used by the Medical Center:

Land improvements	15 – 25 years
Buildings and leasehold improvements	20 – 40 years
Equipment	3 – 20 years

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

***Cost-Sharing Defined Benefit Pension Plan***

The Medical Center participates in a cost-sharing multiple-employer defined benefit pension plan, the Parochial Employees' Retirement System of Louisiana (Plan). For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. Benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***Deferred Outflows/Inflows of Resources***

Transactions not meeting the definition of an asset or liability that result in the consumption or acquisition of net position in one period that are applicable to future periods are reported as deferred outflows of resources and deferred inflows of resources.

***Compensated Absences***

The Medical Center's policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs, and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

***Net Position***

Net position of the Medical Center is classified in four components. Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets. Restricted expendable net position is made up of noncapital assets that must be used for a particular purpose, as specified by creditors, grantors or donors external to the Medical Center, including amounts deposited with trustees as required by bond indentures, reduced by the outstanding balances of any related borrowings. Restricted for pension represents assets restricted for providing contributions to the cost-sharing defined benefit pension plan which provides pensions in accordance with the benefit terms of the plan. Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

***Net Patient Service Revenue***

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments and a provision for uncollectible accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such estimated amounts are revised in future periods as adjustments become known.

***Charity Care***

The Medical Center provides charity care to patients who are unable to pay for services. The amount of charity care is included in net patient service revenue and is not separately classified from the provision for uncollectible accounts.

***Income Taxes***

As an essential government function of the Parish, the Medical Center is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law. The Foundation has been recognized as exempt from income taxes under Section 501 of the Internal Revenue Code and similar provision of state law. However, the Medical Center and the Foundation are subject to federal income tax on any unrelated business taxable income.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

***Reclassifications***

Certain reclassifications have been made to the 2019 financial statements to conform to the 2020 presentation. The reclassifications had no effect on the changes in net position.

**Note 2: Net Patient Service Revenue**

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. These payment arrangements include:

***Medicare.*** Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. The Medical Center is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicare administrative contractor.

***Medicaid.*** Inpatient services rendered to Medicaid program beneficiaries are paid based on prospectively determined rates. Outpatient services are paid under either a cost reimbursement methodology or using defined allowable charges. The Medical Center is reimbursed for cost reimbursable services at tentative rates with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicaid administrative contractor.

Approximately 62% and 64% of net patient service revenue is from participation in the Medicare and state sponsored Medicaid programs for the years ended September 30, 2020 and 2019, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

The Medical Center has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Medical Center under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 3: Louisiana Medicaid Enhanced Rates**

The Medical Center receives Medicaid payments to provide an opportunity for the Medical Center to receive rates from Medicaid managed care organizations that approximate, based on available data, the rates the Medical Center receives for Medicaid fee-for-service patients. During the year ended September 30, 2020 and 2019, total revenues, net of expenses, recognized by the Medical Center to increase Medicaid managed care payments totaled approximately \$7,737,000 and \$6,697,000, respectively. As of September 30, 2020 and 2019, outstanding receivables related to these enhanced rates were approximately \$2,368,000 and \$4,194,000, respectively, which are recorded in prepaid expenses and other receivables in the accompanying balance sheets. These net receipts are recorded as other operating revenues in the accompanying statements of revenue, expenses and changes in net position.

**Note 4: Louisiana Supplemental Payment Programs**

The Medical Center also ensures the availability of quality healthcare services for the low-income and needy population by making additional transfers to support the Medicaid program. For the years ended September 30, 2020 and 2019, the Medical Center incurred approximately \$6,200,000 and \$2,950,000, respectively, in costs, which are included in purchased services and professional fees in the accompanying statements of revenues, expenses and changes in net position.

**Note 5: Cooperative Endeavor Agreement Program**

The Medical Center is party to a cooperative endeavor agreement with other governmental healthcare providers for the purpose of ensuring adequate healthcare services are available for underserved, non-rural populations. The Medical Center receives revenues regarding these services. During the years ended September 30, 2020 and 2019, total revenues recognized by the Medical Center related to this agreement totaled approximately \$4,215,000 and \$4,636,000, respectively. As of September 30, 2020 and 2019, outstanding receivables related to this agreement was approximately \$1,152,000 and \$1,424,000, respectively, which are recorded in prepaid expenses and other receivables in the accompanying balance sheets. These receipts are recorded as other operating revenues in the accompanying statements of revenue, expenses and change in net position.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 6: Quality and Outcome Improvement Network**

The Medical Center became a participant in the Quality and Outcome Improvement Network, Inc. (QIN) during the year ended September 30, 2020. QIN works with hospitals in the state and the Healthy Louisiana Medicaid managed care organizations to improve the availability and quality of care to high-risk Medicaid populations in Louisiana in exchange for supplemental payments for meeting certain quality metrics. Total amounts received associated with the Medical Center's participation in QIN during the year ended September 30, 2020 totaled approximately \$2,979,000 and is recorded as other operating revenues in the accompanying statements of revenue, expenses and change in net position.

**Note 7: Deposits**

Custodial credit risk is the risk that in the event of a bank failure a government's deposits may not be returned to it. The Medical Center's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance or other qualified investments in the state of Louisiana. At September 30, 2020 and 2019, the Medical Center's deposits were either insured or collateralized in accordance with state law.

**Note 8: Patient Accounts Receivable**

The Medical Center grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payer agreements. Patient accounts receivable at September 30, 2020 and 2019, consisted of:

	<b>2020</b>	<b>2019</b>
Medicare	\$ 5,250,829	\$ 5,161,751
Medicaid	1,799,687	1,338,029

As of September 30, 2020, the Medical Center had construction commitments outstanding of approximately \$1,046,000 for various construction projects.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 10: Medical Malpractice Claims**

The Medical Center has joined together with other providers of health care services to form the Louisiana Hospital Association Medical Malpractice and General Liability Trust Fund, a risk pool (Pool) currently operating as a common risk management and insurance program for its members. The Medical Center purchases medical malpractice insurance from the Pool under a claims-made policy. The Medical Center pays an annual premium to the Pool for its torts insurance coverage. The Pool's governing agreement specifies that the Pool will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of stop-loss amounts.

Accounting principles generally accepted in the United States of America require a health care provider to accrue the expense of its share of malpractice claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Based upon the Medical Center's claims experience, no such accrual has been made. It is reasonably possible that this estimate could change materially in the near term.

**Note 11: Employee Health Claims**

Substantially all of the Medical Center's employees and their dependents are eligible to participate in the Medical Center's employee health insurance plan. The Medical Center is self-insured for health claims of participating employees and dependents up to an annual stop-loss limit of \$100,000 per employee. Commercial stop-loss insurance coverage is purchased for claims in excess of this amount. A provision is accrued for self-insured employee health claims, including both claims reported, and claims incurred but not yet reported. The accrual is estimated based on consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors. It is reasonably possible that the Medical Center's estimate will change by a material amount in the near term.

Activity in the Medical Center's accrued employee health claims liability during 2020 and 2019, is summarized as follows:

	<u>2020</u>	<u>2019</u>
Balance, beginning of year	\$ 618,480	\$ 632,793
Current year claims incurred and changes in estimates for claims incurred in prior years	3,820,262	4,136,284
Claims and expenses paid	<u>(4,009,156)</u>	<u>(4,150,597)</u>
Balance, end of year	<u>\$ 429,586</u>	<u>\$ 618,480</u>

**Hospital Service District No. 1**

**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 12: Long-term Obligations**

The following is a summary of long-term obligation transactions for the Medical Center for the years ended September 30, 2020 and 2019:

	<b>2020</b>				
	<b>Beginning Balance</b>	<b>Additions</b>	<b>Deductions</b>	<b>Ending Balance</b>	<b>Current Portion</b>
Long-term debt					
Revenue bonds payable	\$ 33,650,000	\$ -	\$ 1,730,000	\$ 31,920,000	\$ 1,775,000
Capital lease obligations	1,148,482	408,000	316,924	1,239,558	428,461
Total long-term obligations	<u>\$ 34,798,482</u>	<u>\$ 408,000</u>	<u>\$ 2,046,924</u>	<u>\$ 33,159,558</u>	<u>\$ 2,203,461</u>
	<b>2019</b>				
	<b>Beginning Balance</b>	<b>Additions</b>	<b>Deductions</b>	<b>Ending Balance</b>	<b>Current Portion</b>
Long-term debt					
Revenue bonds payable	\$ 24,340,000	\$ 11,000,000	\$ 1,690,000	\$ 33,650,000	\$ 1,730,000
Capital lease obligations	1,231,225	231,250	313,993	1,148,482	351,441
Total long-term obligations	<u>\$ 25,571,225</u>	<u>\$ 11,231,250</u>	<u>\$ 2,003,993</u>	<u>\$ 34,798,482</u>	<u>\$ 2,081,441</u>

**Revenue Bonds Payable**

Revenue bonds payable consist of the various series of the Iberia Parish, State of Louisiana Hospital Revenue Bonds, as shown below:

<b>Bond Series</b>	<b>Original Issue Amount</b>	<b>Interest Rate</b>	<b>Final Maturity</b>	<b>Balance September 30, 2020</b>	<b>Balance September 30, 2019</b>
Series 2013A	\$ 8,265,000	2.48%	November 2023	\$ 4,125,000	\$ 5,100,000
Series 2013B	\$ 3,520,000	2.24%	November 2023	1,730,000	2,140,000
Series 2015A	\$ 6,000,000	2.75%	November 2034	5,150,000	5,375,000
Series 2015B	\$ 5,180,000	3.48%	November 2035	4,940,000	5,000,000
Series 2015C	\$ 5,215,000	4.75%	November 2035	4,975,000	5,035,000
Series 2019	\$ 11,000,000	3.15%	November 2034	11,000,000	11,000,000
				<u>\$ 31,920,000</u>	<u>\$ 33,650,000</u>

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

During 2013, the Series 2013A and 2013B bonds were issued to refinance the Series 2005C, 2005D, 2005E, 2008, 2009A and 2009B bonds at lower interest rates. The bonds are payable in semi-annual installments of principal and interest through final maturity.

The Series 2013A bonds are payable in annual installments ranging from \$995,000 to \$1,070,000 through November 2023. The Series 2013B bonds are payable in annual installments ranging from \$420,000 to \$445,000 through November 2023.

During 2016, the Medical Center issued the Series 2015A tax-exempt Hospital Revenue Bonds of \$6,000,000, Series 2015B tax-exempt Hospital Revenue Bonds of \$5,180,000 and Series 2015C taxable Hospital Revenue Bonds of \$5,215,000 for the purpose of making improvements, extensions, additions, renewals, replacements or repairs to the Medical Center.

The Series 2015A bonds are payable in annual installments ranging from \$230,000 to \$435,000 through November 2034. The Series 2015B bonds are payable in annual installments ranging from \$60,000 to \$470,000 through November 2035. The Series 2015C bonds are payable in annual installments ranging from \$60,000 to \$500,000 through November 2035.

During 2019, the Medical Center issued Series 2019 tax-exempt Hospital Revenue Bond of \$11,000,000 for the purpose of making purchases of capital equipment, improvements, extensions, additions, renewals, replacements or repairs to the Medical Center.

The Series 2019 bonds are payable in annual installments ranging from \$100,000 to \$1,170,000 through November 2034.

The bonds are secured by the net revenues of the Medical Center, a mortgage on the Medical Center's property and assets restricted under the bond agreement. The bonds are also secured by a pledge of the general revenues of the Parish should the Medical Center's revenues and other security not be sufficient to pay obligations under the bond agreements.

The bond agreements require that certain funds be established to pay debt service on the bonds. Accordingly, these funds are included as restricted expendable assets under bond agreements. The indenture agreement also requires the Medical Center to comply with certain restrictive covenants, including minimum insurance coverage and maintaining a historical debt-service coverage ratio of at least 1.20 to 1.00. The agreements also require the Parish to maintain days cash on hand in excess of 90 days of expense.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

The revenue bonds payable requirements as of September 30, 2020, are as follows:

<u>Year Ending September 30,</u>	<u>Total to be Paid</u>	<u>Principal</u>	<u>Interest</u>
2021	\$ 2,789,491	\$ 1,775,000	\$ 1,014,491
2022	2,886,510	1,920,000	966,510
2023	2,885,396	1,970,000	915,396
2024	2,883,472	2,020,000	863,472
2025	2,475,182	1,725,000	750,182
2026-2030	12,797,626	9,710,000	3,087,626
2031-2035	13,076,901	11,830,000	1,246,901
2036	990,053	970,000	20,053
	<u>\$ 40,784,631</u>	<u>\$ 31,920,000</u>	<u>\$ 8,864,631</u>

**Capital Lease Obligations**

The Medical Center has entered into lease agreements for equipment, which are accounted for as capital leases. Assets under capital leases at September 30, 2020 and 2019, totaled approximately \$2,040,000 and \$2,104,000, respectively, net of accumulated amortization of approximately \$843,000 and \$989,000, respectively. The following is a schedule by year of future minimum lease payments under capital lease, discounted using interest at rates of 2.74% to 7.00%, together with the present value of the future minimum lease payments as of September 30, 2020:

<u>Year ending September 30,</u>	
2021	\$ 462,144
2022	381,560
2023	269,965
2024	110,745
2025	<u>81,600</u>
Total minimum lease payments	1,306,014
Less amount representing interest	<u>66,456</u>
Present value of minimum lease payments	<u>\$ 1,239,558</u>

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 13: Operating Leases**

Operating leases for medical and office equipment expire in various years through 2023. These leases generally contain renewal options for periods ranging from one to three years and require the Medical Center to pay all executory costs (property taxes, maintenance and insurance). Rental payments include minimum rentals, plus contingent rentals based on revenues.

Future minimum lease payments at September 30, 2020, were:

2021	\$ 84,603
2022	80,898
2023	<u>6,741</u>
	<u>\$ 172,242</u>

Minimum future rentals receivable under noncancelable sub-operating leases at September 30, 2020, were:

2021	\$ 544,485
2022	170,005
2023	104,546
2024	<u>26,137</u>
	<u>\$ 845,173</u>

Rental expense (income) for all operating subleases consisted of:

	<u>2020</u>	<u>2019</u>
Minimum rentals	\$ 1,158,936	\$ 1,472,616
Sublease rental income	<u>(1,391,191)</u>	<u>(1,537,474)</u>
	<u>\$ (232,255)</u>	<u>\$ (64,858)</u>

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Note 14: Pension Plan**

***Plan Description***

The Medical Center contributes to the Parochial Employees' Retirement System (PERS), a cost-sharing, multiple-employer defined benefit pension plan administered by the state of Louisiana (State). PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is comprised of two distinct plans – Plan A and Plan B – with separate assets and benefit provisions. Employees of the Medical Center are members of Plan A. Benefit provisions are established by state law and may be amended only by the State Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at <http://www.persla.org/>.

***Benefits Provided***

The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Retirement benefits for employees are calculated as 3% of the plan member's final average compensation multiplied by their years of service. Death benefits are equal to 100% of benefits if member is eligible for normal retirement or 60% of final compensation if not eligible for normal retirement. Disability retirement benefits are calculated to be equal to the lesser of an amount equal to 3% of the member's final average compensation multiplied by their years of services, not to be less than 15, or 3% multiplied by years of service assuming continued service to age 60.

For plan members hired prior to January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) any age with 30 or more years of creditable service, (b) age 55 with 25 years of creditable service, (c) age 60 with minimum of 10 years of creditable service, (d) age 65 with a minimum of 7 years of creditable service.

For plan members hired after January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) age 55 with 30 or more years of service, (b) age 62 with 10 years of service, (c) age 67 with 7 years of service.

The terms of the Plan provide for annual cost of living allowance for the retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Plan may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2% of the member's benefit paid on October 1, 1977 (or the member's retirement date, if later). Also, the Plan may provide a cost of living increase up to 2.5% for retirees 62 and older. Lastly, Act 270 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

**Contributions**

State statute has the authority to establish and amend the contribution requirements of the Medical Center and active employees. According to state statute, the Plan also receives  $\frac{1}{4}$  of 1% of ad valorem taxes collected within the respective Parishes, except for Orleans and East Baton Rouge Parishes. The Plan also receives revenue sharing funds each year as appropriated by the State Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities. As of September 30, 2020 and 2019, employees were required to contribute 9.5% of their annual pay.

Contractually required contribution rates for the Medical Center during the years ended September 30, 2020 and 2019, are as follows:

January 1, 2020 through December 31, 2020	12.25%
January 1, 2018 through December 31, 2019	11.50%

The employer contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. For the years ended September 30, 2020 and 2019, contributions to the Plan from the Medical Center were \$3,656,081 and \$3,519,746, respectively. The State also made on-behalf contributions to the Plan, of which \$392,642 and \$360,020 were recognized by the Medical Center for the years ended September 30, 2020 and 2019, respectively; these on-behalf payments did not meet the criteria of a special funding situation.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At September 30, 2020 and 2019, the Medical Center reported a liability of \$228,408 and \$20,910,706, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019 and 2018, respectively. The Medical Center's proportion of the net pension liability was based on the Medical Center's actual contributions to the plan during the measurement period as compared to the total of all employers' contributions to the Plan during the measurement period.

At December 31, 2019, the Medical Center's proportion of the net pension asset was 4.85%, which was an increase of 0.14% from its proportion measured as of December 31, 2018. At December 31, 2018, the Medical Center's proportion was 4.71%, which was an increase of 0.36% from its proportion measured as of December 31, 2017.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

During the 2015 Regular Session of the Louisiana Legislature, ACT 370 was approved to allow the Plan to provide a cost of living increase from the balance in the system's funding deposit account.

For the years ended September 30, 2020 and 2019, the Medical Center recognized pension expense of \$4,608,880 and \$8,231,760, respectively. This expense is included in employee benefits in the accompanying statements of revenues, expenses and changes in net position. At September 30, 2020 and 2019, the Medical Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>2020</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ -	\$ 2,044,746
Changes of assumptions	3,190,004	-
Net difference between projected and actual earnings on pension plan investments	-	8,561,929
Changes in proportion	289,976	-
Medical Center's contributions subsequent to the measurement date	2,758,866	-
Total	\$ 6,238,846	\$ 10,606,675

	<b>2019</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ -	\$ 1,273,936
Changes of assumptions	5,228,362	-
Net difference between projected and actual earnings on pension plan investments	10,010,024	-
Changes in proportion	220,318	-
Medical Center's contributions subsequent to the measurement date	2,637,101	-
Total	\$ 18,095,805	\$ 1,273,936

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

At September 30, 2020 and 2019, the Medical Center reported \$2,758,866 and \$2,637,101, respectively, as deferred outflows of resources related to pensions resulting from the Medical Center's contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the years ended September 30, 2021 and 2020, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources at September 30, 2020, related to pensions will be recognized in pension expense as follows:

2021		\$ (1,519,475)
2022		(2,023,182)
2023		270,438
2024		<u>(3,854,476)</u>
		<u>\$ (7,126,695)</u>

***Actuarial Assumptions***

The total pension liability actuarial valuation was determined using the following actuarial assumptions and applied to all periods included in the measurement:

**December 31, 2019 and 2018**

Inflation	2.40%
Salary increases	4.75% including inflation
Investment rate of return	6.50% net of pension plan investment expense
Mortality rates	Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

The actuarial assumptions used in the December 31, 2019 and 2018 valuations were based on the results of actuarial experience studies for the period from of January 1, 2013 through December 31, 2017.

***Long-term Expected Rate of Return***

The long-term expected rate of return used in the December 31, 2019 and 2018 valuations on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2% and an adjustment for the effect of rebalancing/diversification.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>2019 Long-term Expected Real Rate of Return</b>	<b>2018 Long-term Expected Real Rate of Return</b>
Fixed income	35%	1.05%	1.22%
Equity	52%	3.41%	3.45%
Alternatives	11%	0.61%	0.65%
Real assets	<u>2%</u>	0.11%	0.11%
	<u>100%</u>		

***Discount Rate***

The discount rate used to measure the total pension liability was 6.50%, for both years ended December 31, 2019 and 2018. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that participating employer contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Hospital Service District No. 1  
A Component Unit of Iberia Parish, State of Louisiana  
(d/b/a Iberia Medical Center)**

**Notes to Financial Statements  
September 30, 2020 and 2019**

***Sensitivity of the Medical Center's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate***

The Medical Center's proportionate share of the net pension liability at September 30, 2020, has been calculated using a discount rate of 6.50%. The following presents the Medical Center's proportionate share of the net pension liability calculated using a discount rate 1% higher and 1% lower than the current rate.

	<b>1% Decrease (5.50%)</b>	<b>Current Discount Rate (6.50%)</b>	<b>1% Increase (7.50%)</b>
Medical Center's proportionate share of net pension liability (asset)	\$ 24,686,720	\$ 228,408	\$(20,267,178)

***Pension Plan Fiduciary Net Position***

Detailed information about the Plan's fiduciary net position is available in the separately issued PERS' financial report.

***Payable to the Pension Plan***

At September 30, 2020 and 2019, the Medical Center reported a payable of \$1,246,335 and \$1,027,180, respectively, for the outstanding amount of the Medical Center's contributions to the Plan required for the years ended September 30, 2020 and 2019. These amounts are included in accounts payable and accrued expenses in the accompanying balance sheets at September 30, 2020 and 2019.

**Note 15: Significant Estimates and Contingencies**

***Litigation***

In the normal course of business, the Medical Center is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Medical Center's self-insurance program (discussed elsewhere in these notes) or by commercial insurance; for example, allegations regarding employment practices or performance of contracts. The Medical Center evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of legal counsel, management records an estimate of the amount of ultimate expected loss, if any, for each. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

**September 30, 2020 and 2019**

***Self-insured Employee Health Care***

Estimates related to the accrual for self-insured employee health claims are discussed in *Note 11*.

**Note 16: Related Party Transactions**

The Medical Center leases office space to New Iberia Surgery Center, Acadiana Diagnostic Imaging, LLC and Acadian Homecare under operating leases with original expiration dates of November 30, 2021, October 28, 2021 and November 30, 2019, respectively. The leases have automatic month to month or annual renewal options upon expiration. The Acadian Homecare lease space was not renewed upon expiration of November 30, 2019. Amounts received under the lease agreements for each of the years ended September 30, 2020 and 2019, totaled approximately \$77,000 and \$83,000, respectively.

The Iberia Parish Council, by a resolution adopted in November 2006, provides the Medical Center use of a building in Jeanerette, Louisiana, for the purpose of providing rural health clinic services. The resolution originally expired October 31, 2018, but was renewed for an additional 3 year period through October 31, 2021. Rent expense recorded for the years ended September 30, 2020 and 2019, totaled approximately \$1,100 and \$1,400, respectively.

The Medical Center purchased diagnostic imaging services from Acadiana Diagnostic Imaging, LLC during 2020 and 2019 totaling approximately \$77,000 and \$94,000, respectively.

**Note 17: COVID-19 Pandemic and CARES Act Funding**

On March 11, 2020, the World Health Organization designated the SARS-CoV-2 virus and the incidence of COVID-19 (COVID-19) as a global pandemic. Patient volumes and the related revenues were significantly affected by COVID-19 as various policies were implemented by federal, state, and local governments in response to the pandemic that led many people to remain at home and forced the closure of or limitations on certain businesses, as well as suspended elective procedures by health care facilities.

While some of these policies have been eased and states have lifted moratoriums on non-emergent procedures, some restrictions remain in place, and some state and local governments are re-imposing certain restrictions due to increasing rates of COVID-19 cases.

The Medical Center's pandemic response plan has multiple facets and continues to evolve as the pandemic unfolds. The Medical Center has taken precautionary steps to enhance its operational and financial flexibility, and react to the risks the COVID-19 pandemic presents to its business.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

In addition, the Medical Center received approximately \$14,885,000 of accelerated Medicare payments and approximately \$6,328,000 in general and targeted Provider Relief Fund distributions, both as provided for under the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act.

The extent of the COVID-19 pandemic’s adverse effect on the Medical Center’s operating results and financial condition has been and will continue to be driven by many factors, most of which are beyond the Medical Center’s control and ability to forecast. Such factors include, but are not limited to, the scope and duration of stay-at-home practices and business closures and restrictions, government-imposed or recommended suspensions of elective procedures, continued declines in patient volumes for an indeterminable length of time, increases in the number of uninsured and underinsured patients as a result of higher sustained rates of unemployment, incremental expenses required for supplies and personal protective equipment, and changes in professional and general liability exposure.

Because of these and other uncertainties, the Medical Center cannot estimate the length or severity of the effect of the pandemic on the Medical Center’s business. Decreases in cash flows and results of operations may have an effect on debt covenant compliance and on the inputs and assumptions used in significant accounting estimates, including estimated bad debts and contractual adjustments related to uninsured and other patient accounts.

***Provider Relief Fund***

During the year ended September 30, 2020, the Medical Center received approximately \$6,328,000 of distributions from the CARES Act Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the Medical Center is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for qualifying expenses or lost revenue attributable to COVID-19, as defined by the Department of Health and Human Services (HHS).

The Medical Center is accounting for such payments as conditional contributions. Payments are recognized as contribution revenue once the applicable terms and conditions required to retain the funds have been met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the effect of the pandemic on the Medical Center’s operating revenues and expenses through September 30, 2020, the Medical Center recognized \$1,293,423, related to the Provider Relief Fund, and these payments are recorded as nonoperating revenue in the statement of revenues, expenses and changes in net position. The unrecognized amount of Provider Relief Fund distributions are recorded as part of Provider Relief Funds received in advance in the accompanying balance sheets.

**Hospital Service District No. 1**  
**A Component Unit of Iberia Parish, State of Louisiana**  
**(d/b/a Iberia Medical Center)**

**Notes to Financial Statements**  
**September 30, 2020 and 2019**

Subsequent to September 30, 2020, HHS issued guidance on the use of payments from the Provider Relief Fund. The Medical Center considers the guidance issued subsequent to year-end to be substantive changes in guidance rather than clarifications of guidance existing at September 30, 2020. As a result, the amounts recorded in the financial statements compared to the Medical Center's Provider Relief Fund reporting could differ. This difference cannot be currently estimated but could be material.

The Medical Center will continue to monitor compliance with the terms and conditions of the Provider Relief Fund and the effect of the pandemic on the Medical Center's revenues and expenses. The terms and conditions governing the Provider Relief Funds are complex and subject to interpretation and change. If the Medical Center is unable to attest to or comply with current or future terms and conditions the Medical Center's ability to retain some or all of the distributions received may be affected. Provider Relief Fund payments are subject to government oversight, including potential audits.

***Medicare Accelerated and Advanced Payment Program***

During the year ended September 30, 2020, the Medical Center requested accelerated Medicare payments as provided for in the CARES Act, which allows for eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. These amounts are expected to be recaptured by CMS according to the payback provisions.

Effective September 30, 2020, the payback provisions were revised and extended the payback period to begin one year after the issuance of the advance payment through a phased payback period approach. The first 11 months of the payback period will be at 25 percent of the remittance advice payment followed by a six-month payback period at 50 percent of the remittance advice payment. After 29 months, CMS expects any amount not paid back through the withhold amounts to be paid back in a lump sum or interest will begin to accrue subsequent to the 29 month at a rate of 4 percent.

During the year ended September 30, 2020, the Medical Center received approximately \$14,885,000 from these accelerated Medicare payment requests. The unapplied amount of accelerated Medicare payment requests are recorded in the accompanying balance sheets as a liability.

**Report on Internal Control Over Financial  
Reporting and on Compliance and Other Matters Based on an  
Audit of the Financial Statements Performed in Accordance  
with *Government Auditing Standards***

**Independent Auditor's Report**

Board of Commissioners  
Hospital Service District No. 1  
A Component Unit of Iberia Parish, State of Louisiana  
(d/b/a Iberia Medical Center)  
New Iberia, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (the Medical Center), which comprise the statement of financial position as of September 30, 2020, and the related statements of revenues, expenses and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 22, 2021.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Medical Center's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Medical Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Medical Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**BKD, LLP**

Dallas, Texas
