INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
 District Five Public Works
 Commission of St. Landry Parish
 Lebeau, Louisiana

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of District Five Public Works Commission of St. Landry Parish as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of District Five Public Works Commission of St. Landry Parish, as of December 31, 2022 and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our Responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District Five Public Works Commission of St. Landry Parish and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule on page 20 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statement that collectively comprise the Commission's basic financial statements. The other supplementary information on page 21 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 7, 2023, on our consideration of District Five Public Works Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District Five Public Works Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering District Five Public Works Commission's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Louisiana Legislative Auditor, we have issued a report, dated June 7, 2023 on the results of our statewide agreed-upon procedures performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in Government Auditing Standards. The purpose of that report is solely to describe the scope of testing performed on those control and compliance areas identified in the Louisiana Legislative Auditor's statewide agreed-upon procedures, and the results of that testing, and not to provide an opinion on control or compliance.

LEBEAU, LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

District Five Public Works Commission of St. Landry Parish (the Commission), is a political subdivision of the State of Louisiana and possesses all the powers necessary to construct, acquire, operate, and maintain roads, bridges, and road drainage facilities as well as the rights, powers, and authority enumerated for road districts in Part II of Chapter 2 of Title 48. The Commission was created by Louisiana Revised Statute 48:600.1.

The Commission is governed by 9 commissioners appointed by the St. Landry Parish Government. Presently, the commissioners receive no compensation for their service.

The accompanying financial statements of the District Five Public Works Commission of St. Landry Parish have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the St. Landry Parish Government is the financial reporting entity for St. Landry Parish. The financial reporting entity consists of (a) the primary government (parish government), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the St. Landry Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish government.
2. Organizations for which the parish government does not appoint a voting majority but are fiscally dependent on the parish government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

The District Five Public Works Commission has control over their operation. This includes the hiring and retention of employees, authority over budgeting, responsibility for deficits, power to incur debt and issue bonds, and the receipt and disbursement of funds. The Commission is financially independent and operates autonomously from the State of Louisiana and independently from the St. Landry Parish Government. The accompanying financial statements present information only on the funds maintained by the Commission and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. BASIS OF PRESENTATION

Government-Wide Financial Statements (GWFS)

The Statements of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function, and therefore, are clearly identifiable to a particular function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The Commission uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designated to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the Commission are classified as governmental funds. Governmental funds account for the Commission's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets, and the servicing of general long-term debt. The Commission uses one governmental fund as follows:

General Fund - the general operating fund of the Commission which accounts for all financial resources.

C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined in item "b" below.

LEBEAU, LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING - Continued

Measurement Focus - Continued

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The government-wide financial statements utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position and financial position. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenue sharing revenues received from the State of Louisiana are recognized when susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Purchases of various operating supplies are regarded as expenditures at the time purchased. The costs of governmental fund type inventories are recorded as expenditures when purchased and items on hand at year-end, if material, are recorded as assets. The policy regarding prepaid expenditures is to record the portion of insurance premiums that are paid during the current year for future periods.

D. EQUITY CLASSIFICATIONS

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of net capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance reports aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

1. Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions for enabling legislation.
2. Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Board– the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the Board removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
3. Assigned fund balance – This classification reflects the amounts constrained by the Commission's "intent" to be used for specific purposes but are neither restricted nor committed. The Board has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.
4. Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

DISTRICT FIVE PUBLIC WORKS COMMISSION OF ST. LANDRY PARISH
LEBEAU, LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. EQUITY CLASSIFICATIONS – Continued

The Commission considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Commission would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use externally restricted resources first, then unrestricted resources – committed, assigned and unassigned – in order as needed.

E. BUDGETS

The Commission legally adopted a budget for the General Fund for the year ended December 31, 2022. The original budget was adopted on November 4, 2021 and amended on December 8, 2022. The budget for the General Fund is prepared on a modified accrual basis. At year-end, all appropriations lapse. The budget amounts shown in the financial statements are the final authorized amounts as revised for the year. The level of budgetary control is by total appropriations; however, for report purposes, the budgetary information has been expanded.

F. ENCUMBRANCES

The Commission does not employ the encumbrance system of accounting.

G. INVESTMENTS IN CASH

Investments are stated at cost or amortized cost, which approximates market.

Louisiana statutes authorize the Commission to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, or any other federally insured investment.

H. CAPITAL ASSETS

Capital assets, which include property, plant, equipment, right to use assets, and infrastructure assets are reported in the applicable governmental columns in the government-wide or fund financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20-40 years
Equipment and vehicles	5-20 years
Furniture and fixtures	10-20 years

H. CAPITAL ASSETS – Continued

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

I. COMPENSATED ABSENCES

Annual leave is granted to full time employees and accrued based on years of service to the Commission and can only be used in the calendar year earned or in the first quarter of the following year. Accumulated leave carried forward each year cannot exceed 40 hours. The maximum amount of accumulated leave is 200 hours. Excess will be credited to a "reserve" account maintained in the personnel file for use during a prolonged illness where the employee is expected to return to work. Upon termination, accrued annual leave accumulated will be paid to the employee up to the maximum of 200 hours.

Sick leave is granted to full time employees and accrued at the rate of 1½ hours biweekly for 1 to 3 years of service and 2 hours biweekly for more than 3 years of service. The unused accumulated sick leave earned by an employee shall be carried forward to the succeeding year but not to exceed 30 workdays (300 hours). Sick leave is a gratuitous benefit of employment, which does not accrue as a wage. Sick leave will not be paid out upon an employee's termination or resignation.

Compensatory time will be calculated at the rate of 1 and ½ times the employee's regular hourly rate. Upon termination, accrued compensatory time accumulated will be paid to the employee up to the maximum of 100 hours.

J. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until that time.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

Property taxes and state revenue sharing receivable for the governmental fund types, which have been remitted within 60 days subsequent to the year-end, are considered measurable and available and recognized as revenues. All other property taxes and state revenue sharing are offset by deferred inflows of resources and, accordingly, have not been recorded as revenue.

K. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

L. CHANGE IN ACCOUNTING PRINCIPLE

In June 2017, the Governmental Accounting Standards Board (GASB) issue Statement No. 87, Leases. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions of GASB Statement No. 87 have been implemented by the Commission during 2022.

The implementation of GASB Statement No. 87 had the following effect on the beginning net position.

	<u>Governmental Activities</u>
Net position at December 31, 2021	\$3,157,450
Adjustments:	
Net book value – leased assets	298,919
Lease liability	<u>(312,034)</u>
Restated net position at December 31, 2021	<u>3,144,335</u>

2. CASH

At December 31, 2022, the carrying amount of cash was \$1,614,253 and the bank balance of cash was \$1,616,296. Of the bank balance, \$500,000 was covered by federal depository insurance and \$1,116,296 was covered by pledged securities. Deposits secured by pledged securities were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institutions' trust department or agent, but not in the Commission's name.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Commission's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. The Commission does not have a policy for custodial credit risk, however, under state law; these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the Commission or the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

3. AD VALOREM TAXES

District Five Public Works Commission of St. Landry Parish levies a special tax of fifteen (15) mills on all taxable property. This tax, which was approved at a special election held on October 16, 1993, was assessed for a period of 10 years, beginning with the year 1994 and ending with the year 2004, for the purpose of constructing, acquiring, operating and maintaining the roads, bridges and road drainage facilities of the Commission and acquiring the necessary equipment therefore. The tax was renewed on December 8, 2022 and will expire in 2033.

The Commission's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Property taxes are due on October 1 and become delinquent by January 1 of the following year. The St. Landry Parish Sheriff bills, collects, and distributes the property taxes for the Commission using the assessed values determined by the Tax Assessor of St. Landry Parish.

3. AD VALOREM TAXES - Continued

The Commission is required to remit a percentage of the total ad valorem taxes per the tax roll to a State Pension Fund. This amount is determined by the legislative auditor each year. Since the Sheriff collects all taxes for the parish, the tax collected in the first month is reduced by the Sheriff for the Pension Fund amount owed and the remainder is remitted to the taxing district. Therefore, the ad valorem tax receivable and revenue are shown net of Pension Fund distributions. A breakdown of tax receivable is as follows:

	<u>Total Per</u> <u>Tax Roll</u>	<u>Pension Fund</u> <u>Requirements</u>	<u>Allowance for</u> <u>Uncollectible</u> <u>Taxes</u>	<u>Tax Received</u> <u>In</u> <u>December</u>	<u>Tax</u> <u>Receivable</u>

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
 OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
 OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
 STATEMENTS PERFORMED IN ACCORDANCE
 WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners
 District Five Public Works
 Commission of St. Landry Parish
 Lebeau, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of District Five Public Works Commission of St. Landry Parish, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated June 7, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered District Five Public Works Commission of St. Landry Parish's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District Five Public Works Commission of St. Landry Parish's internal control. Accordingly, we do not express an opinion on the effectiveness of the District Five Public Works Commission of St. Landry Parish's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that the material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency, listed as item 2022-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District Five Public Works Commission of St. Landry Parish's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

District Five Public Works Commission of St. Landry Parish's Response to Findings

District Five Public Works Commission of St. Landry Parish's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. District Five Public Works Commission of St. Landry Parish's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

B. FINDINGS – FINANCIAL STATEMENT AUDIT

Internal Control Material to the Financial Statements

2022-1 Inadequate Segregation of Duties

Condition: Due to the small number of employees, District Five Public Works Commission does not have adequate segregation of functions within the accounting system. A system of internal control procedures contemplates a segregation of duties so that no one individual handles a transaction from its inception to its completion.

Criteria: District Five Public Works Commission should have adequate segregation of duties over accounting functions.

Cause: There are a small number of employees at District Five Public Works Commission performing the daily operating activities.

Effect: Accounting functions are not segregated, and it is important that you are aware of this condition because errors or fraud could occur and not be detected.

Recommendation: A system of internal control procedures should be established in order to mitigate the problem of having such a small number of employees performing the daily operating activities.

2022-1 Inadequate Segregation of Duties - Continued

Management Response: Due to the size and nature of our operations, it is not considered to be cost beneficial to hire additional personnel at this time. Internal control procedures including reviewing expense and income reports, disbursement listings, and dual signatures of board members on expenditures help mitigate errors or fraud.

DISTRICT FIVE PUBLIC WORKS
COMMISSION OF ST. LANDRY PARISH
LEBEAU, LOUISIANA
DECEMBER 31, 2022

Management's responses to the following statewide agreed-upon procedure sections:

Written Policies and Procedures

1. ii) Purchasing (4 and 5)
 - vi) Contracting
 - viii) Credit cards
 - x) Debt Service
 - xi) Information Technology Disaster Recovery/Business Continuity

Management's Response: The District plans to develop written policies and procedures in the future. Due to the limited number of staff and resources, this will be a long-term project.

Collections

4. B(iii) Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

4. B(iv) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions is(are) not also responsible for collecting cash, unless another employee verifies the reconciliation.

Management's Response: Due to the size and nature of our operations, it is not considered to be cost-beneficial to hire additional personnel at this time. Internal control procedures, including reviewing expenses and income reports, disbursement listings and dual signatures of board members on expenditures, help mitigate errors or fraud.

Non-Payroll Disbursements

5. B(iv) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

Management's Response: Due to the size and nature of our operations, it is not considered to be cost-beneficial to hire additional personnel at this time. Internal control procedures, including reviewing expenses and income reports, disbursement listings and dual signatures of board members on expenditures, help mitigate errors or fraud.

5. D) Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy.

Management's Response: The Office Manager has approval by the board to pay all reoccurring expenses that the District is contractually obligated to pay. However, we will monitor this more closely in the future and obtain two initials/signatures for EFT disbursements.
