INDEPENDENT AUDITOR'S REPORT

To Opelousas City Marshal, Paul Mouton
 Opelousas, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Opelousas City Marshal, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Opelousas City Marshal's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Opelousas City Marshal as of December 31, 2022 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our Responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Opelousas City Marshal and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Opelousas City Marshal's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a

guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Opelousas City Marshal's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Opelousas City Marshal's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 24 and 25 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis information that the accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

To Opelousas City Marshal, Paul Mouton
Opelousas, Louisiana

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Opelousas City Marshal's basic financial statements. The other supplementary information on pages 31 to 32 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 4, 2023 on our consideration of the Opelousas City Marshal's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Marshal's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Louisiana Legislative Auditor, we have issued a report, dated April 4, 2023 on the results of our statewide agreed-upon procedures performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in Government Auditing Standards. The purpose of that report is solely to describe the scope of testing performed on those control and compliance areas identified in the Louisiana Legislative Auditor's statewide agreed-upon procedures, and the results of that testing, and not to provide an opinion on control or compliance.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of certain significant accounting policies and practices.

A. The Reporting Entity

The Opelousas City Marshal was established under the provisions of Louisiana Revised Statutes 13:1879. The Marshal is charged with the responsibility of conducting, policing, and securing functions for Opelousas City Court. Operations of the Marshal's office are funded by court costs charged by Opelousas City Court.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the primary government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the primary government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government
2. Organizations for which the primary government does not appoint a voting majority but are fiscally dependent on the primary government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the criteria described above, the Opelousas City Marshal is a primary government due to the following:

1. The Marshal is an independently elected official.
2. The Marshal is fiscally independent of the City of Opelousas.
3. The Marshal is legally separate from the City of Opelousas.

The accompanying basic financial statements present information only on the funds maintained by the City Marshal.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation

Government-wide Financial Statements (GWFS).

The Statement of Net Position and the Statement of Activities display information on all of the nonfiduciary activities of Opelousas City Marshal, as a whole. They include all funds of the reporting entity. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the program, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements.

Financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitutes its assets, liabilities, fund equity, revenues, and expenditures.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The Governmental Fund of the City Marshal includes:

The Opelousas City Marshal reports the following major governmental funds.

The General Fund is the general operating fund of the Opelousas City Marshal. It is used to account for all financial resources except those required to be accounted for in other funds.

The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Additionally, the Opelousas City Marshal reports the following fund type.

The Fiduciary Fund type is used to account for assets held by a government in a trustee or agent capacity for others. Fiduciary funds generally serve as clearing accounts. The Marshal's Fiduciary Fund is as follows:

The Fiduciary Fund is the Garnishment Fund of the Opelousas City Marshal. It is custodial in nature (assets equal liabilities) and accounts for the collection and distribution of garnishments.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

The fund financial statements utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on the balance sheet. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The government-wide financial statements utilize an "economic resources" measurement focus. The accounting objective of this measurement focus is the determination of operating income, changes in net position and financial position. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.

D. Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting.

Revenues

Fines and reimbursements are recorded when they become susceptible to accrual. Miscellaneous revenues are recorded when received.

Expenditures

Expenditures are recorded when the related liability is incurred.

Expenditures for insurance and similar services, which extend over more than one accounting period, are accounted for as expenditures in the period of acquisition.

Purchases of operating supplies are regarded as expenditures at the time purchased and inventories of such supplies (if any) are not recorded as assets at the close of year-end unless significant.

The City Marshal does not employ the encumbrance system of accounting.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Cash and Investments

Louisiana statutes authorize the City Marshal to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, or any other federally insured investment.

F. Receivables

The receivables account represents fines receivable, salary reimbursement, juvenile mileage, subpoenas receivable, restitutions receivable, and bond forfeitures receivable, and miscellaneous receivable.

The fines receivable amount represents fines collected by the Opelousas City Court for the current year but not remitted to the City Marshal until the next year.

The salary reimbursement receivable represents the amount the St. Landry Parish District Attorney reimbursed for the current year for salaries but did not remit to the City Marshal until the next year.

The subpoenas receivable represents the amount collected by the Opelousas City Court for the current year but not remitted to the City Marshal until the next year.

The bond forfeitures receivable represents amounts collected by the Opelousas City Court, mainly from bonding agencies, when defendants fail to appear in court for the current year but not remitted to the City Marshal until the next year.

The miscellaneous receivable represents amounts that are not included in any of the above categories.

G. Capital Assets

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Equipment	5-20 years
Autos	10-20 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Deferred Outflow of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

I. Long-term Debt

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists of capital lease payable. Long-term debt for governmental funds is not reported as liabilities in the fund financial statements.

J. Budget

The City Marshal adopts a budget before the beginning of each year on a basis consistent with generally accepted accounting principles (GAAP). If necessary, the budget is amended. All budgetary appropriations lapse at the end of each year.

K. Annual Sick Leave

All annual leave accumulated in 2022 was converted to sick leave on December 31, 2022. Sick leave is paid upon retirement or death, up to a maximum of 240 hours at a rate computed by taking the current monthly salary provided by the Opelousas City Marshal and dividing that amount by 160 hours. Accrued compensated absences are inconsequential at December 31, 2022, and thus are not recorded in these financial statements.

L. Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

1. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Net position – restricted - Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Net position – unrestricted - All other net assets that do not meet the definition of "restricted" or "net investment in capital assets."

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance reports aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Equity Classifications (Continued)

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

1. Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions for enabling legislation.
2. Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by the Marshal – the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the Marshal removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
3. Assigned fund balance – This classification reflects the amounts constrained by the City Marshal's "intent" to be used for specific purposes but are neither restricted nor committed. The Marshal has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.
4. Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

The Marshal considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Marshal would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

M. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

NOTE (2) - CASH AND CERTIFICATES OF DEPOSIT

Cash consists of demand deposit accounts in the General Fund, one demand deposit account in the Special Revenue Fund, and one demand deposit account in the Garnishment Fiduciary Fund. At year-end, the carrying amount of the City Marshal's cash accounts was \$119,288. The bank balance of cash was \$135,527 and was covered by federal depository insurance. The carrying amount and the bank balance of certificates of deposit at year-end were \$10,096. The bank balance was covered by federal depository insurance.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the City Marshal's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the City Marshal or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties.

As of December 31, 2022, the City Marshal's total bank balances were fully insured and therefore not exposed to custodial credit risk. The City Marshal does not have a policy for custodial credit risk.

NOTE (8) - RETIREMENT PLAN

General: The Opelousas City Marshal participates in funding a retirement plan under the City of Opelousas because the majority of salaries and benefits are paid by the City of Opelousas:

Municipal Employees' Retirement System

Plan Description: Substantially all of the Opelousas City Marshal's full-time employees are provided pension benefits, under the City of Opelousas, through the Municipal Employees' Retirement System of Louisiana, Plan A. This plan is a cost-sharing, multiple-employer, statewide funded plan. In addition to employee payroll deductions, The Marshal funds are remitted to the retirement system and are recorded expenditures. The retirement system is administered and controlled by a separate board of trustees. Contributions of participating agencies are pooled within the system to fund accrued benefits, with contribution rates approved by the Louisiana Legislature. The Municipal Employees' Retirement System issues a publicly available financial report that includes financial statements and Required Supplementary Information. The report may be obtained at www.mersla.com.

OPELOUSAS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE (8) - RETIREMENT PLAN (Continued)

Funding Policy: Plan A members of the Municipal Employees' Retirement System are required by state statute to contribute 10% of their annual covered salary and the Marshal (as the employer) is required to contribute at an actuarially determined rate. The rate for the plan year ended June 30, 2022 was 29.50% of annual covered payroll.

The contribution requirements of plan members and the employer are established by and may be amended by state law. As required by state law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The employer contribution is additionally funded by the State of Louisiana through the annual Legislative appropriation. The Opelousas City Marshal's employer contributions to Municipal Employees' Retirement System for the year ended December 31, 2022, was \$28,843 and was equal to the required contribution for the year.

At December 31, 2022 the City Marshal reported deferred outflows of resources related to pensions from employer contributions subsequent to the June 30, 2022 measurement date of \$14,395. Deferred outflows of resources related to pensions resulting from the City Marshal's contributions subsequent to the measurement date of the plan year will be recognized as pension expense in the year ending December 31, 2023.

Payables to the Pension Plan: At December 31, 2022, Opelousas City Marshal reported a payable to the Municipal Employees' Retirement System of Louisiana of \$3,264.

NOTE (9) - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The Opelousas City Marshal does not provide any post-employment benefits to retirees and therefore is not required to report under GASB Statement No. 75, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

NOTE (10) - ACCOUNTING PRONOUNCEMENTS ADOPTED

The City Marshal has implemented GASB Statement No. 87, Leases. This statement increases the usefulness of the financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset. The requirements of this statement are effective for the fiscal year ending December 31, 2022.

NOTE (11) - SUBSEQUENT EVENTS

Subsequent events were evaluated through April 4, 2023, which is the date the financial statements were available to be issued. As of April 4, 2023, there were no subsequent events noted.

NOTE (12) - UNCERTANTIES

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL
 CONTROL OVER FINANCIAL REPORTING AND ON
 COMPLIANCE AND OTHER MATTERS BASED ON AN
 AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
 ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Opelousas City Marshal Paul Mouton
 Opelousas, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Opelousas City Marshal as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Opelousas City Marshal's basic financial statements and have issued our report thereon dated April 4, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Opelousas City Marshal's internal control over financial reporting (internal control) as a basis of designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Opelousas City Marshal's internal control. Accordingly, we do not express an opinion on the effectiveness of the Opelousas City Marshal's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses as item 2022-1 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Opelousas City Marshal's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the

Opelousas City Marshal Paul Mouton
Opelousas, Louisiana
Page 2

financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and responses as item 2022-2.

Opelousas City Marshal's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Opelousas City Marshal's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The Opelousas City Marshal's response was not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Section II - 2022 FINDINGS - FINANCIAL STATEMENT AUDIT

INTERNAL CONTROL

2022-1 Inadequate Segregation of Duties

Condition: Due to the small number of employees, the Opelousas City Marshal did not have adequate segregation of functions within the accounting system.

Criteria: Accounting duties should be segregated among employees.

Cause: There are a small number of employees at the Opelousas City Marshal performing the daily operating activities.

Effect: The accounting functions are not segregated, and it is important that you are aware of this condition because errors or fraud could occur and not be detected.

Recommendation: A system of internal control should be established in order to mitigate the problem of having such a small number of employees performing the daily accounting functions.

Response: There are simply not enough employees at the Marshal's Office to properly segregate the accounting duties.

Contact Person: Marshal Paul Mouton

COMPLIANCE

2022-2 Budget Amendment

Condition: The Budget was not properly amended for the Special Revenue Fund.

Section II - 2022 FINDINGS - FINANCIAL STATEMENT AUDIT (Continued)

Criteria: Louisiana Local Government Budget Act (RS 39:1311(a)(2) states that the budget be amended when actual expenditures are more than budgeted expenditures by five percent or more.

Cause: The budget was not properly amended.

Effect: Actual expenditures were greater than budgeted expenditures by \$2,472 in the Special Revenue Fund which is a variance of forty-eight percent.

Recommendation: The Opelousas City Marshal's office should consult and follow the Louisiana Local Government Budget Act.

Response: We will ensure that the budget is properly amended in the future.

Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.

The Marshal is Independently elected and as such does not have meetings.

- iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.

The selected electronic disbursement was not approved by any of the authorized signers.

6) Credit Cards/Debit Cards/Fuel Cards/Purchase Cards (Cards)

- A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and purchase cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

No exceptions noted.
