Board of Commissioners Bienville Parish Recreation District No. 1 Arcadia, Louisiana

Opinion

We have audited the accompanying financial statements of the governmental activities and each major fund of the Bienville Parish Recreation District No. 1 (District) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

1

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based of the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 17 through 18 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of compensation, benefits, and other payments to agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated September 14, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of the testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bienville Parish Recreation District No. 1 (the District) was created by the Bienville Parish Police Jury as authorized by Louisiana Revised Statute 33:4562. The District is governed by a five member board appointed by the police jury. The District owns and operates recreational facilities and engages in activities designed to encourage recreation and promote the general health and well being of the community's youth.

A. BASIS OF PRESENTATION

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis—for State and Local Governments*, issued in June 1999. Certain of the significant changes in the Statement include the following:

- * A Management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations;
- * Financial statements prepared using full accrual accounting for all of the District's activities; and
- * A change in the fund financial statements to focus on the major funds.

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Bienville Parish Police Jury is the financial reporting entity for Bienville Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Bienville Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability.

- 1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the police jury to impose its will on that organization and/or;
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.

3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints all board members of the District and can impose its will on the District, the District was determined to be a component unit of the Bienville Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is a separate fiscal and accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures.

Governmental Funds

Governmental funds account for all or most of the District's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the District. The following are the District's governmental funds:

General Fund - The primary operating fund of the District, it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the District's policy.

D. CAPITAL ASSETS

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. Approximately xx% of fixed assets are valued at estimated historical costs based on actual costs of like items while the remaining xx% are based on actual historical costs. The district maintains a threshold level of \$1,000 or more for capitalizing capital assets.

Capital assets and related expenses are recorded in the Statement of Net Position and Statement of Activities, respectively, but are not reported in the fund financial statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives
Improvements	20-40 years
Buildings	25 years
Equipment	5-15 years

E. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Fund Financial Statements (FFS)

The amounts reflected in the General Fund of Statements A and B are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District's operations.

The amounts reflected in the General Fund of Statements A and B use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes and the related state revenue sharing are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year and January through the tax sale of the ensuing year. Interest income on interest bearing demand deposits is recorded at the end of the month when credited by the bank. Interest income on time deposits is recorded when the time deposits have matured and the interest is available.

Based on the above criteria, ad valorem taxes and state revenue sharing have been treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for compensated absences, which are recognized when paid.

Government-Wide Financial Statements (GWFS)

The column labeled Statement of Net Position (Statement A) and the column labeled Statement of Activities (Statement B) display information about the District as a whole. These statements include all the financial activities of the District. Information contained in these columns reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange

transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

F. CASH AND CASH EQUIVALENTS

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

At December 31, 2022, the District has cash and cash equivalents (book balances) totaling \$253,322, as follows:

Petty cash	\$600
Demand deposits	39,163
Time deposits	213,559
Total	\$253,322

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2022, the District has \$253,276 in deposits (collected bank balances). These deposits are secured from risk by \$253,276 of federal deposit insurance and \$0 of pledged securities held by the custodial bank in the name of the fiscal agent bank. (GASB Category 3).

G. INVENTORY

Inventory in the General Fund consists of expendable supplies held for consumption. Inventories are valued at the lower of cost (first-in, first-out) or market.

H. RISK MANAGEMENT

The District is exposed to various risk of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; and injuries to employees. To handle such risk of loss, the District maintains commercial insurance policies covering: property and commercial general liability insurance, crime, and inland marine. Also, the District maintains director and officer liability, worker's compensation, a mobile home policy, and employers liability insurance. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amount.

I. FUND EQUITY

In the government wide statements, net position is displayed in three components:

a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or

other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

- b. Restricted net position Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use, either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

Proprietary fund equity is classified in the same manner as in the government-wide statements. In the fund financial statements, governmental fund equity is classified as fund balance.

The Town adopted GASB 54 in the year ended December 31, 2011. As such, fund balances of the governmental funds are classified as follow:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors contributors, or laws or regulations of other governments.

Committed - amounts constrained to specific purpose by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level of action to remove or change the constraint.

Assigned - amounts the government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned - all other spendable amounts.

As of December 31, 2022, fund balances are composed of the following:

	General Fund
Nonspendable:	
Prepaid items	\$0
Restricted:	
Other purposes	0
Unassigned	579,429
Total fund balances	\$579,429

J. DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

K. RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

The District adopted GASB Statement No. 87, *Leases.* Under this Statement, lease contracts, as defined, are financings of the right to use an underlying asset. A lessor is required to recognize a lease receivable and a deferred inflow of resources, and a lessee recognizes a lease liability and intangible right-to-use asset, thereby enhancing the relevance and consistency of information about governments' leasing activities. Lease receivables as well as lease liabilities are measured at the present value of lease payments over the term of each respective contract. Options to renew the lease are included in the lease term if reasonably certain to be exercised.

2. LEVIED TAXES

The District has an authorized tax millage of 3.52 mills which is restricted by tax proposition, to operation and maintenance of the recreational facilities of the District. The tax is due to expire with the 2022 tax roll. For the year ended December 31, 2022, the District levied 3.37 mills as a result of reassessments of taxable property as required by Article 7, Section 18 of the Louisiana Constitution of 1974.

The following are the principal taxpayers for the parish and their 2022 assessed valuation (amounts expressed in thousands):

Report on Compliance and Other Matters and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

Board of Commissioners Bienville Recreation District No. 1 Arcadia, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities of Bienville Recreation District No. 1 ("District") as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated September 14, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses of significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we

identified certain deficiencies in internal control that we consider to be significant deficiencies. 2021-01, 2021-02 and 2021-03.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as item 2022-04.

District's Response to Findings

District's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bienville Recreation District No. 1 Schedule of Findings and Responses For the Year Ended December 31, 2022

A. Summary of Audit Results

- 1. The auditor's report expresses an unmodified opinion on the general purpose financial statements of the Bienville Parish Recreation District No. 1.
- 2. One instance of noncompliance material to the financial statements of the Bienville Parish Recreation District No. 1 was disclosed during the audit.
- 3. Three significant deficiencies relating to the audit of the financial statements is reported in the Independent Auditor's Report on Internal Control.

B. Financial Statements Findings

2022-01. Lack of segregation of duties

Condition: The District does not have an adequate segregation of duties regarding its accounting and reporting system to maintain a complete system of internal control. This is a repeat finding.

Criteria: Considered good business practice to have segregation of duties wherever possible.

Cause: Small district with limited personnel available

Effect: Potential misstatements in financial statements may not be detected and is at risk for fraud.

Recommendation: We recommend the District implement a system of checks and balances. Segregation of duties should include collection of monies, recording deposits in general ledger, taking deposits to the bank, preparing checks and disbursements, signing checks, mailing checks, and reconciling the bank account.

Response: Management is aware of the problem of segregation of duties and will continue to develop and implement internal control procedures to offset this inherent problem associated with being a small entity.

2022-02. Inadeguate internal controls for disbursements

Condition: From the forty selected disbursements, 5 disbursements did not have supporting documentation. 3,876 missing checks not listed in the general ledger could not be located for examination. One section included 3,830 check sequence. Three timesheets were not showing approval by a supervisor. This is a repeat finding.

Criteria: Internal controls should be set up for all areas.

Cause: All supporting documentation is not maintained in a central location.

Effect: Internal control violation and potential errors in disbursements.

Recommendation: Maintain adequate support for all disbursements in central location.

Response: Management concurs with the recommendation and will implement as soon as possible.

2022-03. <u>Significant deficiency in internal control over financial reporting</u>

Condition: Management has chosen to engage the auditor to propose certain year-end adjusting entries and to prepare their annual financial statements. This condition is intentional by management based upon the District's cost effectiveness of acquiring the ability to prepare financial statements in accordance with generally accepted accounting principles. In relation to this decision, internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, in accordance with generally accepted accounting principles, have not been established. This is a repeat finding.

Criteria: Considered material weakness if entity cannot apply generally accepting accounting principles.

Cause: The District does not have staff capable of preparing report and notes and applying generally accepting accounting principles.

Effect: Potential misstatements in financial statements may not be detected

Recommendation: No recommendation is made for this deficiency. Management must determine whether the benefit from an internal control exceeds its cost, and therefore it may be impractical to correct all deficiencies.

Response: Management concurs with the recommendation and will pay all liabilities when they are due.

2022-04. Failing to comply with local budget act pursuant to R.S. 39:1310

Condition: For the year ended December 31, 2022, the General fund actual expenditures and other uses exceeded budgeted expenditures and other uses by \$79,278, or 12%. No copy of the resolution or ordinance adoption instrument was provided for review.

Criteria: According to LRS 39:1310, failing to amend the budget when necessary is a violation of the local government budget act.

Cause: Management underbudgeted operating services.

Effect: Noncompliance with local budget law.

Recommendation: Management should monitor budget and actual figures and amend as necessary.

Response: Management concurs with the recommendation and will implement as soon as possible.

All board minutes were not provided.

2) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds⁴, and semi-annual budget-to-actual, at a minimum, on all special revenue funds⁷. Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to public funds⁵ if those public funds comprised more than 10% of the entity's collections during the fiscal period.

⁵ R.S. 24:513 (A)(1)(b)(iv) defines public funds.

⁶ No exception is necessary if management's opinion is that the cost of taking corrective action for findings related to improper segregation of duties or inadequate design of controls over the preparation of the financial statements being audited exceeds the benefits of correcting those findings.

Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
 - 1. Observe that receipts are sequentially pre-numbered.¹⁰

No exceptions.

2. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

No exceptions.

No exceptions.

¹⁰ The practitioner is not required to test for completeness of revenues relative to classroom collections by teachers.

4. Observe the deposit was made within one business day of receipt¹¹ at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

No exceptions.

5. Trace the actual deposit per the bank statement to the general ledger.

No exceptions.

5) Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

6) Credit Cards/Debit Cards/Fuel Cards/P-Cards

A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards¹². Obtain management's representation that the listing is complete.

Management represented the list obtained was complete.

- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:
 - 1. Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder. [Note:

 - (2) No exceptions
 - (3) No exceptions

No exceptions

2. If reimbursed using actual costs, observe the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.

No exceptions.
