## INDEPENDENT AUDITOR'S REPORT

Mr. Tony C. Tillman, District Public Defender of the  
36<sup>th</sup> Judicial District Public Defenders' Office  
Deridder, Louisiana

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities and the major fund of the 36<sup>th</sup> Judicial District Public Defenders' Office (District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 23 – 24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The District has omitted the management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The accompanying judicial system funding schedule is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from the relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the judicial system funding schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 25, 2022, on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

Notes to Basic Financial Statements

INTRODUCTION

The 36<sup>th</sup> Judicial District Public Defenders' Office (District) provides criminal defense to indigent persons in Louisiana's 36<sup>th</sup> Judicial District (Beauregard Parish). The function is accomplished by maintaining an administrative staff and contracting for legal and other defense experts.

The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America as applied to governmental units. Such accounting and reporting procedures also conform to the requirements of the industry guide, *Audits of State and Local Governmental Units*.

(1) Summary of Significant Accounting Policies

A. Financial Reporting Entity

The District is part of the operations of the Louisiana Public Defender Board. House Bill No. 436, Act No. 307 of the 2007 regular legislative session enacted the Louisiana Public Defender Act, effective August 15, 2007, creating the Louisiana Public Defender Board with oversight responsibilities of service regions and individual district public defender offices. The Louisiana Public Defender Board, which is established as a state agency, provides for the supervision, administration, and delivery of a statewide public defender system that is independent of local politics. Service regions are created to help provide supervision over district offices. The Louisiana Public Defender Board has the power to provide for the powers and duties of district public defenders and for the filling of vacancies.

The accompanying financial statements present information only on the Offices maintained by the 36<sup>th</sup> Judicial District Public Defenders' Office.

B. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Government-Wide Financial Statements

The government-wide financial statements provide operational accountability information for the District as an economic unit. The government-wide financial statements report the District's ability to maintain service levels and continue to meet its obligations as they come due. The statements include all governmental activities of the District. Fiduciary funds are omitted from the government-wide financial statements. The District has no fiduciary funds.

36<sup>th</sup> JUDICIAL DISTRICT PUBLIC DEFENDERS' OFFICE  
Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and therefore are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the District are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for within separate sets of self-balancing accounts, which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance/net position, revenues, expenditures/expenses, and transfers. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the District. The various funds of the District are classified as governmental funds. The emphasis on fund financial statements is on major funds, each displayed in a separate column.

The General Fund is always a major governmental fund. Other individual governmental and enterprise major funds are determined as funds whose revenues, expenditures/expenses, assets and deferred outflows of resources or liabilities and deferred inflows of resources are at least ten percent of the corresponding totals for all funds of that category or type (total governmental or total enterprise funds) and at least five percent of the corresponding total for all governmental and enterprise funds combined for funds designated as major at the discretion of the District. Funds not classified as a major fund are aggregated and presented in a single column in the fund financial statements. The District maintains one fund, which is categorized as a governmental fund. The fund used by the District is described below.

Governmental Fund –

Governmental funds are those through which most governmental functions are financed. The acquisition, use, and balance of the District's expendable financial resources and related liabilities are accounted for through governmental funds.

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The measurement focus determines the accounting and financial reporting treatment applied to a fund. The governmental activities within the government-wide statement of net position and statement of activities are presented using the economic resources measurement focus. The economic resources measurement focus meets the accounting objectives of determining net income, net position, and cash flows.

The fund financial statements use either the current financial resources measurement focus or the economic resources measurement focus as appropriate. Governmental funds use the current financial resources measurement focus. This measurement focus is based upon the receipt and disbursement of current available financial resources rather than upon net income.

The accrual basis of accounting is used throughout the government-wide financial statements; conversely, the financial statements of the General Fund have been prepared in accordance with the modified accrual basis of accounting, whereby revenues are recognized when considered both measurable and available to finance expenditures of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. The District accrues court costs, bond forfeitures, fees from indigents, and intergovernmental revenues based upon this concept. Interest on invested funds is recognized when earned. Intergovernmental revenues that are reimbursement for specific purposes or projects are recognized in the period in which the expenditures are recorded. All other revenue items are considered to be measurable and available only when the cash is received by the District.

Expenditures are generally recognized when the related fund liabilities are incurred and become payable in the current period. Proceeds of debt are reported as other financing sources, and principal and interest on long-term debt, as well as expenditures related to compensated absences, are recorded as expenditures when paid.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity

Cash and interest-bearing deposits

Cash and interest-bearing deposits include amounts held in demand deposit accounts, interest-bearing demand deposits, and time deposits. They are stated at cost, which approximates market.

Receivables/Due from Other Governments

In the government-wide statements, receivables, including amounts due from other governments, consist of all revenues earned at year-end and not yet received.

36<sup>th</sup> JUDICIAL DISTRICT PUBLIC DEFENDERS' OFFICE  
Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

Capital Assets

Capital assets are reported in the governmental activities column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated capital assets are recorded at acquisition value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The District maintains a threshold level of \$1,000 or more for capitalizing capital assets.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Building and improvements	20 - 40 years
Furniture and fixtures	5 - 10 years

Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes.

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. There are no deferred inflows or outflows of resources as of June 30, 2022.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

36<sup>th</sup> JUDICIAL DISTRICT PUBLIC DEFENDERS' OFFICE  
Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

- b. Restricted net position consists of net position with constraints placed on the use either by external groups, such as grantors, creditors, contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation. It is the District's policy to use restricted net position prior to the use of unrestricted net position when both restricted and unrestricted net position are available for an expense which has been incurred.
- c. Unrestricted net position consists of all other assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not meet the definition of "restricted" or "net investment in capital assets."

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily upon the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The categories and their purposes are:

- a. Nonspendable includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints requiring they remain intact.
- b. Restricted includes fund balance amounts that are constrained for specific purpose which are externally imposed by providers, such as grantors, donors, creditors, or amounts constrained due to constitutional provisions or enabling legislation.
- c. Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action and does not lapse at year end. A committed fund balance constraint can only be established, modified, or rescinded by formal decision by the District Defender
- d. Assigned includes fund balance amounts that are constrained by the District's intent to be used for specific purposes, that are neither restricted nor committed. The assignment of fund balance is authorized by a directive from the District's Defender and approved by the District Defender.
- e. Unassigned includes fund balance amounts which have not been classified within the above-mentioned categories.

It is the District's policy to use restricted amounts first when both restricted and unrestricted fund balance is available unless prohibited by legal or contractual provisions. Additionally, the District uses committed, assigned, and lastly unassigned amounts of fund balance in that order when expenditures are made.

Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

E. Revenues, Expenditures/Expenses

Revenues

The District considers revenue to be susceptible to accrual in the governmental funds as it becomes measurable and available, as defined under the modified accrual basis of accounting. The District generally defines the availability period for revenue recognition as received within the reporting period or within sixty (60) days after year end. The District's major revenue sources that meet this availability criterion are court costs, bond forfeitures, intergovernmental revenues, and charges for services.

There are three classifications of programmatic revenues for the District, program specific grant and contributions revenue (operating and capital) and charges for services. Grant revenues are revenues from federal, state, and private grants. These revenues are recognized when all applicable eligibility requirements are met and are reported as intergovernmental revenues. The primary sources of charges for services are application fees and fees paid by partially indigent offenders. In the government-wide statement of activities interest income and other miscellaneous receipts are reported as general revenues because the District has discretion in the application of these funds to various programs/functions administered by the District.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by character and function. In the fund financial statements, expenditures are classified by character.

F. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

36<sup>th</sup> JUDICIAL DISTRICT PUBLIC DEFENDERS' OFFICE  
Parish of Beauregard

Notes to the Basic Financial Statements (Continued)

(2) Cash and Interest-Bearing Deposits

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2022, the District has interest-bearing deposits (book balances) totaling \$54,274.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District' deposits may not be recovered, or the District will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties.

As of June 30, 2022, the District's bank balances totaling \$85,149 were fully insured by federal deposit insurance and, therefore, not exposed to custodial credit risk. The District does not have a policy for custodial credit risk.

(3) Due From Other Governments

At June 30, 2022, the amounts due from other governmental agencies consisted of Court costs and fees totaling \$14,804.

5. All budgetary appropriations lapse at the end of each fiscal year.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mr. Tony C. Tillman, District Public Defender of the  
36<sup>th</sup> Judicial District Public Defenders' Office  
Deridder, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the 36<sup>th</sup> Judicial District Public Defenders' Office (District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated August 25, 2021.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrective, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of current and prior year findings and management's corrective action plan as item 2022-001 that we consider to be a material weakness.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **The District's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of current and prior year audit findings and management's corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

and Management's Corrective Action Plan  
Year Ended June 30, 2022

Part I: Current Year Findings and Management's Corrective Action Plan

A. Internal Control Over Financial Reporting

2022-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: Unknown

CONDITION: The District did not have adequate segregation of functions within the accounting system.

CRITERIA: AU-C§315.04, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement*, defines internal control as follows:

“Internal control is a process, affected by those charged with governance, management, and other personnel, designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.”

CAUSE: The cause of the condition is the fact that the District does not have a sufficient number of individuals performing administrative and financial duties so as to provide adequate segregation of accounting and financial duties.

EFFECT: Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

RECOMMENDATION: Management should evaluate the cost vs. benefit of complete segregation and whenever possible, reassign incompatible duties among different employees to ensure that a single employee does not have a control of more than one of the following responsibilities: (1) authorization; (2) custody; (3) recording keeping; and (4) reconciliation.

MANAGEMENT'S CORRECTIVE ACTION PLAN: The District has determined that it is not cost effective to achieve complete segregation of duties within the accounting department.

B. Compliance

There were no compliance findings reported.

***Bank Reconciliations***

---

3. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. 5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

- a) Employees responsible for cash collections do not share cash drawers/registers.

*Observed that employees responsible for cash collections do not share the same cash drawers/registers.*

- b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit.

*Observed that employees responsible for collecting cash are not responsible for preparing/making bank deposits.*

Obtain supporting documentation for each of the 10 deposits and:

- a) Observe that receipts are sequentially pre-numbered.

*Observed that receipts are sequentially pre-numbered.*

- c) Trace the deposit slip total to the actual deposit per the bank statement.

*Traced the deposit slip total to the actual deposit per the bank statement noting no exceptions.*

- d) Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

*Due to lack of supporting documentation available, we were unable to observe that deposits were made within one business day of receipt at the location.*

- e) Trace the actual deposit per the bank statement to the general ledger.

*Obtained a listing of locations that process payments for the fiscal period and management's representation that the listing is complete.*

- 9. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:

- a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.

*Observed that at least two employees are not involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.*

- b) At least two employees are involved in processing and approving payments to vendors.

*Observed that at least two employees are involved in processing and approving payments to vendors.*

- c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.

*Observed that the employee responsible for processing payments is not prohibited from adding/modifying vendor files; however, another employee is responsible for periodically reviewing changes to vendor files.*

- d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

*Observed that the employee responsible for processing payments also mails the payment.*

- 10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and:

- a) Observe whether the disbursement matched the related original itemized invoice and supporting documentation indicates deliverables included on the invoice were received by the entity.

*Observed that the disbursement matched the related original itemized invoice and supporting documentation indicates deliverables were received by the entity.*

- b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

*Obtained a listing of all active credit cards, bank debit cards, fuel cards, and P-cards for the fiscal period and management's representation that the listing is complete.*

12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:

- a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder. [Note: Requiring such approval may constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality); these instances should not be reported.]

*Observed that the monthly statements and supporting documentation were reviewed and approved in writing by someone other than the authorized card holder.*

- b) Observe that finance charges and late fees were not assessed on the selected statements.

*Observed that finance charges and late fees were not assessed on the selected statements.*

13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

*Observed that two out of the six transactions selected for testing did not have an original itemized receipt that identifies precisely what was purchased. It was also noted that for those same two items, the monthly statements did not include written documentation of the business/public purpose.*

### ***Travel and Travel-Related Expense Reimbursements (excluding card transactions)***

---

14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete.
