INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners and Management of
Acadia Parish Fire District No. 4
Eunice, Louisiana

Opinions

We have audited the accompanying financial statements of the governmental activities and major fund of the Acadia Parish Fire District No. 4, a component unit of the Acadia Parish Policy Jury, as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Acadia Parish Fire District No. 4, as of September 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Acadia Parish Fire District No. 4, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Acadia Parish Fire District No. 4's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may have substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that,

MEMBER OF
AMERICAN INSTITUTE OF
CERTIFIED PUBLIC ACCOUNTANTS
SOCIETY OF LOUISIANA
CERTIFIED PUBLIC ACCOUNTANTS

individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Acadia Parish Fire District No. 4's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Acadia Parish Fire District No. 4's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Accounting principles generally accepted in United States of America require that the budgetary comparison information on pages 21-22 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of compensation, benefits, and other payments to agency head or chief executive officer on page 24, as required by the State of Louisiana, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The schedule of compensation, benefits, and other payments to agency head or chief executive officer is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of compensation, benefits, and other payments is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2023, on our consideration of the Acadia Parish Fire District No. 4's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

EUNICE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
For the Year Ended September 30, 2022

Note 1. Summary of Significant Accounting Policies:

(A) Financial Reporting Entity

The Acadia Parish Fire District No. 4 was created as a fire protection district by resolution of the Police Jury of the Parish of Acadia, State of Louisiana on February 14, 1989 to provide fire protection services. The district shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The district shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary or proper for effective fire prevention and control.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Acadia Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the Acadia Parish Government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Acadia Parish Government.
2. Organizations for which the Acadia Parish Government does not appoint a voting majority but are fiscally dependent on the parish government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

The District was determined to be a component unit of the Acadia Parish Police Jury financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

Acadia Parish Policy Jury maintains fiscal and budgetary control over the District and must approve any holding of an election or incurring of debt or levy of any taxes or parcel fees by the board.

(B) Basis of Presentation

The accompanying basic financial statements of the Acadia Parish Fire District No. 4 (hereafter referred to as the District) have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

ACADIA PARISH FIRE DISTRICT NO. 4
EUNICE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
For the Year Ended September 30, 2022

(C) Fund Accounting

The District uses funds to maintain its financial records and report the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds

Governmental funds account for all or most of the District's general activities including the collection and disbursements of specific or legally restrictive monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the District. The following is a description of the District's governmental fund:

- a. General Fund – the primary operating fund of the District and it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to District policy.

(D) Measurement Focus, Basis of Accounting and Financial Statement Presentation

Fund Financial Statements

The amounts reflected in the Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financial sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to the government-wide view of the District's operations.

The amounts reflected in the Governmental Funds use the modified accrual basis of accounting. Under this basis of accounting, revenues are generally recognized when they both become measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the year end. Ad valorem tax revenue and insurance rebate revenue are recorded when due. Substantially, all other revenues are recorded when received.

Expenditures (including capital outlays) are generally recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due.

Government-Wide Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the financial activities of the Acadia Parish Fire District No. 4 as a

ACADIA PARISH FIRE DISTRICT NO. 4
EUNICE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
For the Year Ended September 30, 2022

whole. These statements include all the non-fiduciary activities of the District. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Ad valorem or property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

(E) Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable government-wide financial statements, capital assets are capitalized at historical cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	10 - 40 years
Equipment	5 – 15 years

(F) Fund Balance - Fund Financial Statements –

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned and unassigned. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used.

Nonspendable- funds that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted- funds that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed- funds that are constrained by limitations that the government imposes on itself. These amounts are imposed at the highest level of authority. These amounts are binding unless removed in the same manner that it was imposed and any action must be taken prior to year-end.

Assigned- funds whose intended use has been established. These amounts can be, but are not required to be, imposed at the highest level of authority. They do not have to be binding and action does not have to be taken prior to year-end.

Unassigned- all other spendable amounts.

The District considers restricted fund balances to be spent for governmental expenditures first when both restricted and unrestricted resources are available. The District also considers committed fund balances to be spent first when other unrestricted fund balance classification are available for use.

ACADIA PARISH FIRE DISTRICT NO. 4
EUNICE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
For the Year Ended September 30, 2022

The Board of Commissioners establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives).

(G) Net Position - Government-Wide Statements

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position as follows:

1. Net investment in capital assets – consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows or resources attributable to the acquisition, constructions, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.
2. Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the District's bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
3. Unrestricted net position – consist of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, management applies restricted resources first, then unrestricted resources as they are needed.

(H) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from those estimates.

(I) Encumbrances

Encumbrance accounting is employed as an extension of the formal budgetary process. Under this method, purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation. Any encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures of liabilities. There were no encumbrances outstanding at September 30, 2021 as the District does not utilize this method.

Note 2. Cash and Investments

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of the state banks organized under Louisiana law and national banks having principal offices in Louisiana. At September 30, 2022, the District had cash and interest-bearing deposits (book balances) totaling \$905,620, as follows:

ACADIA PARISH FIRE DISTRICT NO. 4
EUNICE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
For the Year Ended September 30, 2022

Demand deposits	\$883,145
Time deposits	<u>\$22,475</u>
Total	<u>\$905,620</u>

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must always equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the District or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at September 30, 2022 are secured as follows:

Bank Balances	<u>\$ 908,268</u>
Federal Deposit Insurance	250,000
Pledged Securities	<u>658,268</u>
Total	<u>908,268</u>

Deposits in the amount of \$658,268 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the District's name. The District does not have a policy for custodial credit risk.

Note 3. Ad Valorem Taxes

Government-wide financial statements-

Ad valorem taxes are recognized in the year for which they are levied, net of uncollectible amounts, as applicable.

Fund financial statements-

Ad valorem taxes are levied by the Acadia Parish Tax Assessor in September or October and are actually billed to the taxpayers in November. Taxes are due by December 31 of that year and are normally collected in December of the current year and in January and February of the ensuing year. Billed taxes attach as an enforceable lien on property and become delinquent on January 1 of each year following the year the taxes are levied. Ad valorem tax revenues are recognized when levied to the extent that they result in current receivables.

The Acadia Parish Sheriff's Department bills and collects property taxes using the assessed values determined by the parish assessor. The Acadia Parish Tax Collector sends the district's share of the property taxes collected directly to the Fire District's Board of Commissioners.

The Acadia Parish Fire District No. 4 uses the following procedures in establishing the budgetary data reflected in the financial statements:

3. The budget is then legally enacted through adoption by the board.
4. Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
5. The budget is employed as a management control device during the year that assists its users in financial activity analysis.

All budget appropriations lapse at year end. The budgets presented are the originally adopted budget and the final budget made during the year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors and Management of
Acadia Parish Fire District No. 4
Eunice, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Acadia Parish Fire District No. 4 as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Acadia Parish Fire District No. 4's basic financial statements and have issued or report thereon dated June 21, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Acadia Parish Fire District No. 4's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Acadia Parish Fire District No. 4's internal control. Accordingly, we do not express an opinion on the effectiveness of the Acadia Parish Fire District No. 4's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and corrective action plan at 2022-1 and 2022-2 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Acadia Parish Fire District No. 4's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed four instances of noncompliance that are required to be reported under *Government Auditing Standards* and they are described in the accompanying schedule of findings and correction action plan at 2022-3, 2022-4, 2022-5 and 2022-6.

Acadia Parish Fire District No. 4's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Acadia Parish Fire District No. 4's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended for the information and use of the Board and management of the Acadia Parish Fire District No. 4, the Acadia Parish Police Jury, and the Legislative Auditor of the State of Louisiana. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Schedule of Prior Year Audit Findings
For the Year Ended September 30, 2022

2021-1 The Fire District does not have a person who has the qualifications and training to apply generally accepted accounting principles (GAAP) in recording the entity's financial transactions or preparing its financial statements, including the related notes.

Recommendation: The District should hire a CPA to prepare the financial statements; however, the District's Board should review and take responsibility for the financial statements, including the related notes, and any adjusting journal entries.

Status: Unresolved.

2021-2 The Fire District does not have an adequate segregation of duties in the administrative office. A system of internal control procedures contemplates a segregation of duties so that no one individual handles a transaction from its inception to its completion.

Recommendation: None as this condition is common to most agencies of this type with limited resources and is difficult to resolve due to the funding limitations.

Status: Unresolved.

2021-3 The Fire District failed to submit minutes of its board meetings to the official journal in a timely fashion.

Recommendation: The District should educate themselves on Louisiana Revised Statute 43 and comply with it in the future.

Material Noncompliance – Financial Reporting

There were four instances of noncompliance that were disclosed during the audit of the financial statements for the period ended September 30, 2022 and they are identified as 2022-3, 2022-4, 2022-5 and 2022-6.

PART II. FINDING RELATING TO AN AUDIT IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

2022-1 Unqualified Staff to Apply GAAP

Finding: The Fire District does not have a person who has the qualifications and training to apply generally accepted accounting principles (GAAP) in recording the entity's financial transactions or preparing its financial statements, including the related notes.

Cause: The District's volunteers lack training in implementation of generally accepted accounting principles.

Recommendation: The District should hire a CPA to prepare the financial statements; however, the District's Board should review and take responsibility for the financial statements, including the related notes, and any adjusting journal entries.

Response: Management concurs.

Planned Corrective Action: The Fire District has evaluated the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, and determined that it is in the best interest of the government to outsource this task to its independent auditors, and to carefully review the draft financial statements and notes prior to approving them and accepting responsibility for their contents and presentation and any adjusting journal entries.

Response: Management concurs.

Planned Corrective Action: None as this condition is common to most agencies of this type with limited resources and is difficult to resolve due to the funding limitations.

2022-3 Finding: Failure to submit board minutes to the official journal

Finding: The Fire District failed to submit minutes of its board meetings to the official journal in a timely fashion.

Cause: Louisiana Revised Statute 43 requires public bodies to publish its meeting minutes in its official journal.
