Independent Auditors' Report

To the Honorable Mayor and Board of Aldermen City of Pineville, Louisiana

REPORT ON THE FINANCIAL STATEMENTS

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Pineville, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of Pineville, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Pineville and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Pineville's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Pineville's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Pineville's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the information listed below to supplement the basic financial statements.

- Management's Discussion and Analysis
- Budgetary Comparison Information
- Schedule of Changes in Net OPEB Liability
- Schedule of Net Pension Liability Data
- Schedule of Employer Contributions

Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in

accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pineville's basic financial statements. The Other Supplemental Information listed below is presented for purposes of additional analysis and are not a required part of the basic financial statements.

- Combining Balance Sheet Non-Major Governmental Funds
- Combining Statement of Revenues, Expenditures and Changes in Fund Balance Non-Major Governmental Funds
- Schedule of Per Diem Paid to Board Members
- The Schedule of Compensation, Benefits and Other Payments to the Agency Head or Chief Executive Officer
- Justice System Funding Schedule

The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional information is fairly stated in all material respects in relation to the basic financial statements as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARD

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2023, on our consideration of the City of Pineville's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an engagement in accordance with *Government Auditing Standards* in considering the City of Pineville's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2023

This section of the City of Pineville's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended June 30, 2023.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the City's financial position and results of operations from differing perspectives which are described as follows:

Government – Wide Financial Statements

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the City's assets (including infrastructure acquired after July 1, 1980) and all of the City's liabilities (including long-term debt).

The government-wide financial statements are divided into two categories, which are described as follows:

- Governmental Activities Expenses incurred in connection with providing basic services including public safety, culture, recreation, public works and general administration are reported as governmental activities. The governmental activities are financed by taxes, license and permit fees, fines and forfeitures, and intergovernmental sources.
- **Business-Type Activities** Expenses associated with providing utility and sanitation services are recovered through fees paid by the customers that utilize these services. These activities are operated in a manner similar to commercial enterprises. Accordingly, activities associated with these services are reported as business type activities.

Fund Financial Statements

Fund financial statements provide detailed information regarding the City's most significant activities and are not intended to provide information for the City as a whole. Funds are accounting devices that are used to account for specific sources of funds. The City has two types of funds that are described as follows:

- Governmental Funds These funds are used to account for essentially the same functions that are reported
 as governmental activities in the government-wide financial statements. However, unlike government-wide
 financial statements, the governmental fund use a modified accrual basis of accounting that provides a shortterm view of the City's finances. Assets reported by governmental funds are limited to amounts that are
 available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from
 currently available assets.
- Proprietary Fund These funds are used to account for activities that function in a manner similar to
 commercial enterprises, including activities associated with the City's utility and sanitation services.
 Proprietary fund financial statements typically provide a more detailed presentation of the information
 reported in the business-type activities portion of the government-wide financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2023

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

A comparative analysis of government-wide financial data is presented as follows:

Total Net Position	\$ 24,486,025	\$ 20,196,606	\$ 44,682,631	\$ 36,268,711

As the presentation appearing above demonstrates, the City's net position is primarily invested in capital assets. Net position invested in capital assets consists of land, buildings, equipment, and infrastructure less any debt used to acquire the assets that remain outstanding. The City uses these capital assets to provide services to its citizens; consequently, these amounts are not available for future spending.

Recognizing long-term liabilities associated with providing retirement benefits and post-retirement healthcare benefits to the City's employees has eliminated the City's remaining net position. Despite the absence of net position, the City has sufficient resources to meet these obligations for the foreseeable future.

Governmental activities increased the City's net position by \$6,362,385. This increase is primarily due to the receipt of American Rescue Plan Act monies in the current year, as well as prudent management.

Business-type activities increased the City's net position by \$2.051,535, due primarily to careful management of the City's resources.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2023

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

An analysis of significant matters affecting the City's funds is presented as follows:

- The City's governmental funds reported a combined fund balance of \$27,318,887 which represents an increase of \$3,250,482 in comparison to the previous balance. This is primarily due to the receipt of ARPA funds, as well as sustained increases in sales tax collections over the past year.
- The City's general fund, which is available for spending at the City's discretion, reported a fund balance of \$11,135,973. The general fund balance increased by \$2,210,835 in the current year.
- Amounts reported for business-type activities in the City's individual funds are identical to the business-type activities reported in the government-wide presentation.

GENERAL FUND BUDGET HIGHLIGHTS

The City's general fund and sales tax funds are required to adopt an annual budget and the budgets are amended as necessary. Some revisions to the original budgets were made to address revenues and related expenditures that were not anticipated when the original budget was prepared.

CAPITAL ASSET ADMINISTRATION

Highlights of the City's capital asset administration are provided as follows:

- Equipment purchases include new vehicles necessary to replace existing equipment that was retired as a result of ordinary wear.
- Work was completed on the Pinecrest Drive Improvement Project, as well as various other infrastructure
 projects throughout the City. In addition, a variety of projects began design or construction during the current
 year, including the Burns Street Gravity Sewer Main, Cedar Lake Pump Station, and College Drive Rehab
 Project, among others.

DEBT ADMINISTRATION

The City's borrowing activities included activity related to lease obligations, and to paying installments due on existing obligations.

FACTORS EXPECTED TO AFFECT FUTURE OPERATIONS

At the present time, no events or conditions have been identified that are expected to have a significant influence on future operations.

Notes to Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Pineville (the City) was incorporated under the provisions of the Lawrason Act. The City is governed by a Mayor and a Board of Alderman consisting of five (5) members. Services provided by the City include police protection, fire protection, street maintenance, drainage, recreation and sanitation. The City also operates a water distribution system, a sewer system and a municipal airport.

The accompanying policies conform to generally accepted accounting principles for governmental units.

Financial Reporting Entity

As the municipal governing authority, for reporting purposes, the City is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (the City), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards establish criteria for determining which component units should be considered part of the City of Pineville for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
 - a) The ability of the City to impose its will on that organization and/or
 - b) The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.
- 2. Organizations for which the City does not appoint a voting majority but are fiscally dependent on the City
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the criteria presented above, the City has no component units. In reaching this conclusion, the operations of the City Court System and the Pineville Downtown Development District were considered; however, it was determined that neither met the necessary criteria for classification as a component unit.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as either governmental activities or business-type activities, which are described as follows:

- Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.
- Business-type activities rely on fees and charges for support and operate in a manner similar to private sector enterprises.

The government-wide and fund financial statements present the City's financial position and results of operations from differing perspectives which are described as follows:

Notes to Financial Statements June 30, 2023

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service or business-type activity. Program revenues include charges for services, fines, court cost, contributions associated with a particular function and most grants.

Fund Financial Statements

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Separate financial statements are provided for governmental funds and business-type (enterprise) funds. In addition, separate financial statements are presented for any fiduciary activities. Major individual funds are reported as separate columns in the fund financial statements. The City's major funds are described as follows:

Major Governmental Funds

<u>General Fund</u> – The general fund is the primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Dedicated 1% Sales Tax</u> – The sales tax fund is a special revenue fund used to account for the proceeds of a restricted 1% sales tax that is described in Note 5.

<u>Capital Improvements</u> – The capital improvement fund is a capital project fund that is used to account for a portion of sales tax proceeds that are restricted for capital expenditures and related debt service.

<u>LCDBG Fund</u> – The LCDBG Fund is a capital project fund that is used to account for activity related to Louisiana Community Development Block Grant funding.

Major Business-Type Funds

<u>Utility System</u> – The utility fund is used to account for the operation of the City's water and sewer system, which are supported by user charges.

<u>Sanitation</u> – The sanitation fund is used to account for activity associated with collecting and disposing of garbage and trash. The operation of this fund is supported by user charges.

Business-Type funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with the funds ongoing operations. Principal operating revenues are charges to customers for water, sewer service and sanitation.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation	Basis of Accounting	Measurement Focus
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Notes to Financial Statements June 30, 2023

Under the modified accrual basis of accounting and the current financial resources measure focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred; however, debt service, compensated absences, claims and judgments are recorded as expenses when payment is made. Furthermore, when the current financial resources measure focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure of funds. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as an other financing source and repayment of long-term debt is reported as an expenditure of funds.

Use of Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Restricted Assets:

Restricted assets represent resources that must be expended in a specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. Whenever restricted assets can be used to satisfy an obligation, the restricted assets are typically consumed before utilizing any unrestricted resources.

Budget Practices:

Budgets including any amendments are prepared in the manner prescribed by Louisiana revised statutes. City budgets present revenue and expenditures on a basis which is consistent with generally accepted accounting principles. Budgets are adopted annually for the general fund and each special revenue fund. The remaining funds are not required to adopt budgets.

Capital Assets

Capital assets, which include property, equipment and infrastructure, are reported as assets in the applicable governmental or business-type columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Assets reported in the fund financial statements for governmental funds exclude capital assets. Instead, the governmental funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value when received by the City. As required by Governmental Accounting Standards, the City has retroactively capitalized infrastructure acquired by governmental funds since 1980. Infrastructure capitalized retroactively includes streets, sidewalks, bridges, and drainage improvements.

Capital assets are depreciated using the straight-line method and estimated useful lives ranging from 4 to 50 years. Useful lives are selected depending on the expected durability of the particular asset.

Cash and Cash Equivalents:

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand, cash in bank accounts, certificates of deposit and highly liquid investments. Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law. Furthermore, interest rate risk associated with certificates of deposits is typically mitigated by purchasing instruments that mature in one year or less.

Internal Activity:

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are

Notes to Financial Statements June 30, 2023

treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded.

In preparing the government-wide financial statements, transfers are eliminated to present net transfers for governmental activities and business-type activities. In addition, interfund receivables and payables are eliminated to present a net internal balance for each type of activity.

Compensated Absences

Full time and regular part-time employees earn vacation at rates that vary depending on length of service and civil service classification. Unused vacation that employees are allowed to carry forward is reported as a liability. The portion of the liability for compensated absences attributable to governmental funds and activities is typically liquidated by the general fund.

Fund Balance Classification:

Approval of the majority of the Board of Aldermen is required to approve the commitment of fund balances. In situations where it is permissible to spend restricted or committed resources, the City typically depletes the available restricted or committed resources before consuming unrestricted resources.

NOTE 2 - ACCOUNTS RECEIVABLE

Accounts receivable for the year ended June 30, 2023 are summarized as follows:

NOTE 3 - CASH AND CASH EQUIVALENTS

At June 30, 2023, cash and cash equivalents included the following amounts:

Deposits in Financial Institutions

	Governmental Activities	Business-Type Activities	Total	
Cash Deposited in Banks	\$ 7,449,013	\$ 12,219,097	\$ 19,668,110

Cash and Cash Equivalents	\$ 7,449,623	\$ 24,494,012	\$ 31,943,635	

Cash deposited in banks is stated at cost, which approximates market. At June 30, 2023, the City had \$19,668,110 in deposits (\$19,976,941 collected bank balance). These deposits are secured from risk by \$250,000 of federal deposit insurance, \$35,296,479 of pledged securities held by the custodial bank in the name of the fiscal agent bank.

Cash Equivalents

Cash Equivalents consist entirely of amounts invested in the Louisiana Asset Management Pool (LAMP). LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955. Generally accepted accounting principles require disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments. LAMP is an investment pool that, to the extent practical, invests in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

- Credit risk: LAMP is rated AAAm by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments
 in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical
 or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool;
 therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 56 days as of June 30, 2023.
- Foreign currency risk: Not applicable.

NOTE 4 - LEASING

The City has entered into various leasing arrangements to acquire vehicles necessary to conduct operations, as well as equipment necessary to provide sanitation services to its citizens. Under the terms of the agreements, the City is obligated to make fixed payments over period ranging from three to five years. The value of the leased vehicles has been determined as follows:

NOTE 6 - TAXES:

Ad Valorem Taxes:

The City bills and collects its own property taxes using the assessed values determined by the Tax Assessor of Rapides Parish. For the year ended June 30, 2023, the City has levied ad valorem taxes as follows:

Notes to Financial Statements June 30, 2023

<u>Description</u>	Mills <u>Levied</u>
Levied for general alimony as permitted by State Law. Revenue from taxes levied for general alimony is reported by the general fund.	5.85
Levied per proposition originally approved May 14, 1991 authorizing 10 mills for a period of 10 years beginning with 1991 and subsequently renewed through 2030 for the purpose of paying salaries of the employees of the fire and police departments. Due to the restricted nature of those toyees the reserve is reported in a special reserve find.	10.00
nature of these taxes, the revenue is reported in a special revenue fund.	_10.00
	15.85

Ad valorem taxes are assessed on a calendar year basis and are due on or before December 31 in the year the tax is levied. Revenues from ad valorem taxes are recognized as revenue in the year billed.

Sales Taxes:

Sales taxes are collected by the Parish of Rapides and remitted to the City on a monthly basis. For the year ended June 30, 2023 the City has levied sales taxes as follows:

<u>Description</u>	Percentage <u>Levied</u>
Levied per proposition approved the citizens of Pineville authorizing a tax for the operation of the General Fund. Revenue generated by this tax is reported by the General fund.	1%
Levied per proposition approved by the citizens of Pineville authorizing a tax "with the avails or proceeds of said tax to be dedicated and pledged to the payment of principle and interest and other amounts required on any sales tax revenue bonds issued by the City for any lawful public purpose; provided, however, that the avails or proceeds of said tax not required in each month for principle, interest and other payments on any sales tax revenue bonds, shall be allocated in an amount equal to 50% of the proceeds of the tax for paying salaries of municipal employees of said City and the remaining proceeds of the tax for capital acquisitions for said City including equipment, furnishings and improvements to municipal property that may include but are not limited to streets, sidewalks, bridges, waterworks, sewers, drains and recreation and fire protection facilities. Since revenue from this source is subject to various restrictions, it is reported in a special revenue fund.	1%
Levied per proposition approved by the citizens of Pineville on July 16, 2006, authorizing a tax with 70% of the proceeds to be dedicated to salary and benefits, and 30% of the proceeds to be dedicated to capital improvement projects for the purpose of acquire, construction, improving, maintaining and operating public facilities, including water and sewer systems and street and drainage systems.	0.5%

In addition to the taxes described above, the City is also entitled to receive a portion (5%) of a parish wide sales tax. Since the parish wide tax is unrestricted, its proceeds are reported as revenue by the general fund.

NOTE 9- RISK MANAGEMENT

The City is exposed to various risk of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City insures against these risks by participation in public entity risk pools that operate as common insurance programs and by purchasing commercial insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 10 - RESTRICTED RESOURCES

The City's net position is subject to restrictions described as follows:

- Bond covenants require the City to establish bank accounts which serve as debt service and depreciation reserves.
 Funds may be disbursed from these accounts only under specific circumstances described by the bond covenants.
- Certain sales taxes proceeds are available only for capital projects and the acquisition of equipment.
- The City has received funds subject to the requirement that these resources be used only to promote economic development.

NOTE 11 - PENSION PLANS:

Substantially all City employees are members of statewide retirement systems. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. A summary of amounts reported in connection with participation in these plans is summarized as follows:

	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources

Further information regarding each of the retirement systems presented above is furnished as follows:

Municipal Employees' Retirement System of Louisiana:

Plan Description -The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the City participating in the retirement system are members of Plan B. All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected municipal officials are eligible to participate in the System. Under Plan B, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2 percent of their final-average monthly salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3 percent for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B cannot exceed 100 percent of final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit

accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

Funding Policy - Under Plan B, members are required by state statute to contribute 5.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. Contributions to the System also include one-fourth of one percent of the taxes shown to be collectible by the tax rolls of each parish, except Orleans and East Baton Rouge Parishes. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the City are established and may be amended by state statute. As provided by State law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the system were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report. The financial report includes information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position. The report can be obtained on the internet at mersla.com. The plans net pension liability was determined at June 30, 2022 (measurement date and actuarial valuation date) and details are provided as follows:

Net Pension Liability	\$ 87,798,349
City's Proportionate Share (Percentage)	4.85 %
City's Proportionate Share (Amount)	\$ 4,259.590

The net pension liability presented above was not affected by any special funding situations. Changes in the City's proportionate share of Plan's net pension liability during the measurement period ending June 30, 2022 are provided as follows:

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the following table:

Target Asset Asset Class Allocation		Long-Term Expected Portfolio Real Rate of Return	
Public Equity	53%	2.31%	
Public Fixed Income	38%	1.65%	
Alternatives	9%	0.39%	
Totals	100%	4.35%	
Inflation		2.60%	
Expected Arithmetic Nominal Return		6,95%	

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

	1% Decrease 5.85%	Current Discount	1% Increase 7.85%
	Discount Rate	Rate 6.85%	Discount
Net Pension Liability	\$ 5,806,631	\$ 4,259,590	\$ 2.951,161

Firefighters' Retirement System of Louisiana

Plan Description – Membership in the Louisiana Firefighters' Retirement System is mandatory for all full-time firefighters employed by a municipality, parish or fire protection district that did not enact an ordinance before January 1, 1980, exempting itself from participation in the System. Employees are eligible to retire at or after age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to 3^{1/3} percent of their final-average salary for each year of creditable service, not to exceed 100 percent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The system also provides death and disability benefits. Benefits are established or amended by state statute.

Funding Policy – Plan members are required by state statute to contribute 10.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. The contribution requirements of plan members and the City are established and may be amended by state statute. As proved by state law, the employer contributions are

determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the plan were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. The estimated long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the following table:

Long-Term Target Asset Allocation	Expected Portfolio Real Rate of Return
27.50%	5,64%
11.50%	5,89%
10.00%	5,99%
7.00%	7,75%
26,00%	0.51 - 2.99%
6.00%	4.57%
3.00%	4.89%
9.00%	8,99%
100,00%	
	27.50% 11.50% 10.00% 7.00% 26.00% 6.00% 3.00% 9.00%

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements June 30, 2023

The mortality rate assumption used was set based upon an experience study performed on plan data for the period July 1, 2009 through June 30, 2014. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that the tables used would produce liability values approximating the appropriate generational mortality tables.

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

	1% Decrease 5.90%	Current Discount	1% Increase
	Discount Rate	Rate 6.90%	7.90% Discount
Net Pension Liability	\$ 8,716,408	\$ 5,891,898	\$ 3,536,056

Municipal Police Employees' Retirement System of Louisiana

Plan Description - All full-time police department employees engaged in law enforcement are eligible to participate in the System. Employees who retire at or after age 50 with at least 20 years of creditable service or at or after age 55 with at least 12 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 percent of their final-average salary for each year of creditable service. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

Funding Policy - Plan members are required by state statute to contribute 10.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. The contribution requirements of plan members and the City are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the plan were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report available on the internet at www.lampers.org. The discount rate used to measure the total pension liability was 6.750%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. The mortality rate assumption used was set based upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. NOTE 14 – CONTINGENCIES:

Existing conditions that may have financial consequences are referred to as contingencies. Contingencies existing at June 30, 2023 are described as follows:

Litigation:

Like most governmental units with extensive and diverse operations, the City is occasionally named as a defendant in litigation. Based on consultation with City Attorney, the ultimate outcome of litigation that is pending or anticipated cannot be estimated at the present time; however, exposure to losses are expected to be limited to the deductible provisions of insurance policies. Further information on some of the ongoing lawsuits is listed below:

On July 27, 2020, the City was named as a defendant in a lawsuit against the Pineville Firefighter's Local 1384 (Local 1384), an unincorporated labor organization whose members are comprised of current and former members of the City of Pineville Fire Department. The issue at stake arose because of a 2015 IRS audit of the City of Pineville, which resulted in a settlement by the City, which included a payment to the Department of the Treasury, and required the City to begin withholding contributions for Social Security from the City's Fire Department employees. The suit alleges that the firefighters had an informal employment contract with the City, which was summarily violated by withholding Social Security payments from the members of the Fire Department. The City disagrees, believing that there is no employment contract.

Grant Compliance:

The City receives state and federal assistance through various grant programs. Management is confident that all significant grant conditions have been met; however, grantor agencies routinely review grant activity and could request reimbursement if a dispute occurs regarding compliance with grant conditions.

NOTE 15 – POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

General Information about the OPEB Plan

Plan description – The City of Pineville (the City) provides certain continuing health care and life insurance benefits for its retired employees. The City of Pineville's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the City. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the City. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification.

Benefits Provided – Medical benefits are provided through a self-insured medical plan and are made available to employees upon actual retirement. The employees are covered by one of four retirement systems: the Municipal Employees' Retirement System of Louisiana, the Firefighters' Retirement System of Louisiana, the Municipal Police Retirement

Notes to Financial Statements June 30, 2023

System of Louisiana, and the Louisiana State Employees' Retirement System (LASERS). The retirement eligibility (D.R.O.P. entry) provisions of these systems are similar and since we did not have the identity of the system in which each active employee participates, we have assumed a composite retirement (D.R.O.P. entry) eligibility as follows: 25 years of service at any age; or, age 60 and 10 years of service.

Employees covered by benefit terms – At June 30, 2023, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	41
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	190
	231

Total OPEB Liability

The City's total OPEB liability of \$7,377,618 was measured as of June 30, 2023 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.0%
Salary increases	3.0%
Prior Discount rate	3.54%
Discount Rate	3.65% annually
Healthcare cost trend rates	5.5% annually until year 2032, then 4.5%

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and the Board of Aldermen City of Pineville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Pineville, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise City of Pineville's basic financial statements, and have issued our report thereon dated December 27, 2023.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the City of Pineville's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Pineville's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2023-001, that we consider to be significant deficiencies.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether City of Pineville's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

RESPONSE TO FINDINGS

Government Auditing Standards requires the auditor to perform limited procedures on the City of Pineville's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and the Board of Aldermen City of Pineville, Louisiana

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

Opinion on Each Major Federal Program

We have audited City of Pineville's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of City's major federal programs for the year ended June 30, 2023. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, City of Pineville complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City of Pineville and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City of Pineville's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City of Pineville's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the

1407 Peterman Drive • Alexandria, Louisiana 71301 www.CenlaCPAs.com • Voice 318.442.1608 • Fax 318.487.2027 aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform
 audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding
 the City of Pineville's compliance with the compliance requirements referred to above and performing such other
 procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City of Pineville's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on internal control over
 compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Summary of Findings and Questioned Cost June 30, 2023

PART I - SUMMARY OF AUDITOR'S RESULTS:

Financial Statements

- The Independent Auditor's Report on the financial statements for the City of Pineville as of June 30, 2023 and for the year then ended expressed an unmodified opinion.
- No material weaknesses in internal control were reported in connection with the audit.
- One significant deficiency(ies) that is not considered to be a material weakness was identified (2023-001).
- No instances of noncompliance material to the financial statements of the City of Pineville were disclosed during the audit.

Federal Awards

- No deficiencies in internal control over major federal award programs were disclosed during the audit.
 Accordingly, there were no material weaknesses applicable to major federal award programs.
- The Independent Auditor's Report on Compliance for each Major Program and on Internal Control over Compliance required by the Uniform Guidance expressed an unmodified opinion on compliance for major programs.
- The audit did not disclose any audit findings which are required to be reported as findings and questioned cost in connection with Federal Programs.
- Major Programs for the year ended June 30, 2023 are presented as follows:

Department of the Treasury

Assistance Listing No. 21.027 - "COVID-19" Coronavirus State and Local Fiscal Recovery Funds

Department of Housing and Urban Development

Assistance Listing No. 14.228 – Community Development Block Grant

- A threshold of \$750,000 was used for distinguishing between type A and Type B Programs for purposes of identifying major programs
- The City of Pineville was considered a low-risk auditee as defined by the Uniform Guidance

PART II

FINDINGS RELATING TO THE FINANCIAL STATEMENTS WHICH ARE REQUIRED TO BE REPORTED IN ACCORDANCE WITH GENERALLY ACCEPTED GOVERNMENTAL AUDITING STANDARDS:

FINDING 2023-001: UTILITY BILLING

- * <u>Criteria</u>: According to the Legislative Auditor's Best Practices. Accounting Responsibilities should be segregated, as practical, so that no single individual controls all facets of a financial function.
- Condition: The City of Pineville's system for utility billings did not involve a review process of some manually calculated bills, which enabled a single clerk to make a billing error that persisted over an extended period of time.
- Effect: The City overbilled one commercial customer for an extended period of time, causing a substantial refund to be issued in the current year.

Summary of Findings and Questioned Cost June 30, 2023

- *Cause:* The City's utility billing clerk did not have a clear understanding of utility billing practices, which caused the miscalculation of the customer's charges.
- Recommendation: We recommend that the City adopt changes to its utility billing system so that manually calculated bills are reviewed by a member of management with the skills, knowledge, and experience to review these items.

APPENDIX A Statewide Agreed-Upon Procedures

Independent Accountant's Report On Applying Agreed-Upon Procedures

To the City of Pineville and the Louisiana Legislative Auditor:

We have performed the procedures enumerated below, which were agreed to by the City of Pineville and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2022 through June 30, 2023. The Entity's management is responsible for those C/C areas identified in the SAUPs.

The entity has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period described above. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

We were engaged to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the entity and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

8	Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).	Management provided a listing of locations and represented its completeness.	The results did not include findings or criticisms.
9	For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:		
	 a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase. 	Purchases require involvement from multiple parties.	The results did not include findings or criticisms.
	b) At least two employees are involved in processing and approving payments to vendors.	Processing and approval involve multiple parties.	The results did not include findings or criticisms.
	c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.	Personnel responsible for initiating payments have the necessary access to add vendors; however, the Finance Director periodically reviews changes to vendor files.	The results did not include findings or criticisms.
	d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail	The employee who mails checks is not responsible for processing payments.	The results did not include findings or criticisms.

10	For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:		
	 a. Observe that the disbursement matched the related original invoice/billing statement. b. Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable. 	Disbursements are supported by invoices. Disbursement documentation included evidence of segregation of duties.	The results did not include findings or criticisms. The results did not include findings or criticisms.
11	Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note: If no electronic payments were made from the main operating account during the month selected	One of the five selected transactions were approved by the required number of authorized signers per the entity's policy.	In the future, we will work to ensure that transactions are approved by the proper number of authorized signers.

12	Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.	Management provided a listing of all active credit cards and represented that the listing was complete.	The results did not include findings or criticisms.
13	Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:		
	a. Observe that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.	The credit card statement is approved by a member of the accounting team that is not an authorized card holder.	The results did not include findings or criticisms.
	b. Observe that finance charges and late fees were not assessed on the selected statements.	The statements examined did not have finance charges or late fees assessed.	The results did not include findings or criticisms.

	Travel and Expense Reimbursement		
	Agreed-Upon Procedure	Results	Managements' Response
15	Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:		
	a. If reimbursed using a per diem, agree the reimbursement rate to those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).	Each reimbursement was either a reimbursement of actual costs, or was a reimbursement utilizing rates established by the GSA.	The results did not include findings or criticisms.
	b. If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.	One of the transactions selected did not have supporting documentation for review. All other transactions had the proper supporting documentation.	We will work to ensure that all transactions have the proper documentation in the future.
	c. Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h). 16	Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. Alternately, the practitioner may use an equivalent selection source, such as an active vendor list. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:		
	a. Observe that the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.	The Contract was either bid in accordance with the Louisiana Public Bid Law, or not required to be bid.	The results did not include findings or criticisms.
	 b. Observe that the contract was approved by the governing body/board, if required by policy or law (e.g. Lawrason Act, Home Rule Charter). 	Two of the selected contracts did not have supporting documentation for review.	We will work to ensure that all contracts have the proper documentation in the future.
	c. If the contract was amended (e.g. change order), observe that the original contract terms provided for such an amendment.	The contracts selected for testing did not include any amendments.	The results did not include findings or criticisms.
	d. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.	Two of the selected contracts did not have supporting documentation for review.	We will work to ensure that all contracts have the proper documentation in the future.

	Payroll and Personnel		
	Agreed-Upon Procedure	Results	Managements' Response
17	Obtain a listing of employees/elected officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees/officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.	The Entity provided a listing of employees, related salaries, and personnel files, and provided representations as to their completeness.	The results did not include findings or criticisms.
18	Randomly select one pay period during the fiscal period. For the 5 employees/officials selected under #16 above, obtain attendance records and leave documentation for the pay period, and:		
	 a. Observe that all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). 	All selected employees documented their daily attendance and leave.	The results did not include findings or criticisms.
	 b. Observe that supervisors approved the attendance and leave of the selected employees/officials. 	Supervisor's approval of attendance and leave was documented.	The results did not include findings or criticisms.
	c. Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.	The Entity's cumulative pay records reflected the leave accrued or taken by the selected employees.	The results did not include findings or criticisms.
19	Obtain a listing of those employees/officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees/officials, obtain related documentation of the hours and pay rates used in management's termination	Management provided the listing, and represented that it was complete. The selected employees who received termination payments were paid only for their accumulated leave, at their approved rates of pay.	The results did not include findings or criticisms.

21	Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain ethics documentation from management, and:			
7	 a. Observe that the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period. 	Documentation was available demonstrating each employee completed one hour of ethics training during the fiscal period.	The results did not include findings or criticisms.	
	b. Observe that the documentation demonstrates each employee/official attested through signature verification that he or she has read the entity's ethics policy during the fiscal period.	The entity has not adopted a written ethics policy.	While ethical standards are communicated clearly to employees, we will work with our attorney and human resource director to develop a comprehensive written policy.	
22	Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.	The City has appointed an ethics designee	The results did not include findings or criticisms.

27	Perform the following procedures, verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."	We performed the procedures and discussed the results with management.	The results did not include findings or criticisms.	
a.	Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if there is no written documentation, then inquire of personnel responsible for backing up critical data) and observe evidence that such backup (a) occurred within the past week, (b) was not stored on the government's local server or network, and (c) was encrypted.	We performed the procedures and discussed the results with management.	The results did not include findings or criticisms.	
b.	Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.	We performed the procedures and discussed the results with management.	The results did not include findings or criticisms.	
C.	Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor. 	Sexual Harassment			
	Agreed-Upon Procedure	Results	Managements' Response	
29	Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.	Documentation demonstrating each employee completed at least one hour of sexual harassment training was available for all five of the selected employees/officials.	The results did not include findings or criticisms.	
30	Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).	The Entity's sexual harassment policy was not on the entity's website, but was in a conspicuous location on the Entity's premises.	We will work with our attorney and determine the cost benefit of adding our harassment policy on our website. Previously, the policy was not included on the website because we have communicated our policy regularly to our staff, and committed to regular sexual harassment training.	
31	Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344: a. Number and percentage of public servants in the agency who have completed the training requirements; b. Number of sexual harassment complaints received by the agency; c. Number of complaints which resulted in a finding that sexual harassment occurred; d. Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and e. Amount of time it took to resolve each complaint.	The Entity provided an annual report, which documented the number of employees who have taken the sexual harassment training. No instances of sexual harassment were noted in the current fiscal year.	The results did not include findings or criticisms.
