INDEPENDENT AUDITOR'S REPORT

To the Board of Commisioners
Terrebonne Parish Recreation District No. 2/3
Houma, Louisiana

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and each major fund of the Terrebonne Parish Recreation District No. 2/3 (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 8 and the budgetary comparison schedule on page 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the

Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Terrebonne Parish Recreation District No. 2/3's basic financial statements. The Schedule of Compensation, Benefits, and Other Payments to District Head on page 26 is presented for purposes of additional analysis and is not a required part of the financial statements.

The Schedule of Compensation, Benefits, and Other Payments to District Head is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Benefits, and Other Payments to District Head is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 10, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Terrebonne Parish Recreation District No. 2/3
Management's Discussion and Analysis
Year Ended December 31, 2021

As management of the Terrebonne Parish Recreation District No. 2/3 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2021.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Government-Wide Financial Statements (Statement of Net Position and the Statement of Activities) provide information about the governmental activities as a whole and present a longer-term view of the finances. The Fund Financial Statements (Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Fund) tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the operations in more detail than the Government-Wide statements by providing information about the most significant funds.

Our auditor has provided assurance in his independent auditor's report that the financial statements are fairly stated. The auditor, regarding the Required Supplemental Information and the Other Information, is providing varying degrees of assurance. A user of this report should read the Independent Auditor's Report carefully to ascertain the level of assurance being provided for each of the parts in the Annual Financial Report.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the finances, in a manner like a private-sector business.

The statement of net position presents information on all the assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not as a whole. Some funds are required to be established by State laws.

The District utilizes mainly the governmental type of fund with the following accounting approach. Most of the basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliations on pages 13 and 14.

FINANCIAL HIGHLIGHTS

Our financial statements provide these insights into the results of this year's operations:

- Terrebonne Parish Recreation District No. 2/3's assets exceeded its liabilities by \$2,931,646 (net position) as of December 31, 2021.
- Revenues exceeded expenditures by \$193,567 during the year.
- The District expended \$655,764 on assets owned by the primary government (the Terrebonne Parish Consolidated Government).

The Statement of Net Position and the Statement of Activities reports all transactions as governmental activities. All of the basic governmental services are reported as this type. Property taxes finance most of these activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Terrebonne Parish Recreation District No. 2/3 (the District), governed by a Board of Commissioners appointed by the Terrebonne Parish Consolidated Government, was organized under Louisiana Revised Statute 33:4562(A). The District provides for the construction, improvement, maintenance, and operations of recreation facilities within the boundaries of Recreation District No. 2/3, including the purchase of equipment.

Because the Terrebonne Parish Consolidated Government appoints the governing board and thusly can impose its will, the Terrebonne Parish Recreation District No. 2/3 was determined to be a component unit of the Terrebonne Parish Consolidated Government, the governing body of the parish and the governmental body with financial accountability. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Consolidated Government, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

A. REPORTING ENTITY

The District is a component unit of Terrebonne Parish Consolidated Government (the Parish) and as such, these financial statements will be included in the comprehensive annual financial report (CAFR) of the Parish for the year ended December 31, 2021. The District has reviewed all of its activities and determined that there are no potential component units that should be included in its financial statements.

B. BASIS OF PRESENTATION

GASB Statements establish standards for external financial reporting for all state and local governmental entities which includes a statement of net position and a statement of activities. It requires the classification of net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that

Terrebonne Parish Recreation District No. 2/3

Notes to the Financial Statements

Year Ended December 31, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

portion of the debt is included in the same net position component as the unspent proceeds.

Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net position that does not meet the definition of restricted or net investment in capital assets.

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied. It establishes fund balance classifications that comprise hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. These classifications are defined as follows:

Nonspendable – This component of fund balance includes amounts that cannot be spent due to form, including inventories and prepaid amounts. Also included are amounts that must be maintained intact legally or contractually.

Restricted – This component of fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed – This component of fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Commissioners must vote on commitments.

Assigned – This component of fund balance is intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of Commissioners can vote on applicable assigned amounts.

Unassigned – This component of fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications.

Stabilization Funds – This component of fund balance covers such things as revenue shortfalls, emergencies, or other purposes. The authority to set aside resources often comes from a statute, ordinance, or constitution.

The District's basic financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Terrebonne Parish Recreation District No. 2/3

Notes to the Financial Statements

Year Ended December 31, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Government-wide Financial Statements:

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Governmental activities generally are financed through taxes.

Fund Financial Statements:

The daily accounts and operations of the District are organized on the basis of a fund and accounts groups, each of which is considered a separate accounting entity. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following is the Governmental Fund of the District:

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those that are required to be accounted for in another fund.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Government-wide Financial Statements:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied.

The government-wide financial statements display information as a whole. These statements include all the financial activities. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed).

Terrebonne Parish Recreation District No. 2/3

Notes to the Financial Statements

Year Ended December 31, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

Fund Financial Statements:

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Governmental funds are maintained on the modified accrual basis of accounting.

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Ad valorem taxes and the related state revenue sharing (intergovernmental revenue) are recognized as revenue in the period for which levied, thus the 2021 property taxes which are being levied to finance the 2022 budget will be recognized as revenue in 2022. The 2021 tax levy is recorded as deferred inflows of resources in the District's 2021 financial statements.

Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Allocations of cost such as depreciation are not recognized in the governmental funds.

D. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

E. ACCOUNTS RECEIVABLE

The financial statements for the District contain no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial positions or operations of the funds.

F. CAPITAL ASSETS

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Financial Statements:

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets purchased or acquired with an original cost of \$1,000 or more are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position.

Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of assets is as follows:

Facilities and improvements	10 - 40 years
Equipment and furniture	5 - 20 years
Automobiles	5 years

Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

G. OPERATING BUDGETARY DATA

As required by the Louisiana Revised Statutes 39:1303, the Board of Commissioners (the Board) adopted a budget for the District's General Fund. Any amendment involving

Terrebonne Parish Recreation District No. 2/3

Notes to the Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

the transfer of monies from one function to another or increases in expenditures must be approved by the Board. The District amended its budget once during the year. All budgeted amounts which are not expended, or obligated through contracts, lapse at year-end.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

H. VACATION AND SICK LEAVE

Accumulated vacation and sick leave are recorded as expenditures of the period in which paid. Employees earn between 96 to 136 hours of vacation leave, depending on the length of employment. Accumulated vacation leave is due to the employee at the time of termination or death. The vacation policy provides that employees are to take vacation within one year of being earned, with no carry forward provisions.

Employees earn 56 hours sick leave per year. Unused sick leave cannot be carried forward to future years. There is no material unpaid vacation and sick leave at year-end.

I. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

J. RECENT PRONOUNCEMENT

Statement No. 87, "Leases", increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

NOTE 2 – DEPOSITS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or other federally insured investments, certificates of deposit of any bank domiciled or having a branch in the state of Louisiana, guaranteed investment contracts, and investment grade (A-1/P-1) commercial paper of domestic corporations.

State law requires deposits (cash and certificates of deposit) of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana, and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision. The year end balances of deposits are as follows:

	<u>Bank Balance</u>	<u>Reported Amount</u>
Cash and cash equivalents	\$ 1,151,455	\$ 1,146,438

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a written policy for custodial credit risk. As of December 31, 2021, \$901,455 of the District's bank balance was exposed to credit risk. These deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Cash was adequately collateralized in accordance with state law by securities held by an unaffiliated bank for the accounts of the District. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities subject to custodial credit risk. Even though the pledged securities are considered subject to custodial credit risk under the provisions of GASB Statement 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

NOTE 5 – PROPERTY TAXES

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise, and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years. A reevaluation was completed for the list as of January 1, 2019. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2021 was \$5.00 per \$1,000 of assessed valuation on property within Recreation District No. 2/3 for the purpose of constructing, maintaining, and operating recreational facilities within the District. NOTE 6 – COMPENSATION OF BOARD MEMBERS

The Board serves without compensation.

NOTE 7 – RISK MANAGEMENT

The District is exposed to various risks of loss related to workers' compensation; torts; theft of, damage to and destruction of assets; errors and omission; and natural disasters and group health benefits for which the District carries commercial insurance and also participates in the Parish's risk management program for general liability, workers' compensation, group insurance, property insurance, and automobile liability. No settlements were made during the year that exceeded the District's insurance coverage. The District pays monthly premiums to the Parish for workers' compensation based on a fixed percentage of payroll. The District's premiums for general liability are based on various factors such as its operations and maintenance budget, exposure, and claims experience. The premium for group health insurance is based on a fixed rate per employee. The premium for automobile liability is based on claims experience, vehicle type, and mileage. The premiums for property are based on the District's property value to the total of all the property value covered. The Parish handles all claims filed against the District. The District could have additional exposure for claims in excess of the Parish's insurance contracts as described below:

<u>Policy</u>	<u>Coverage Limits</u>
General liability	\$ 10,000,000
Workers' compensation	\$ 25,000,000
Employer's liability	\$ 1,000,000
Auto liability	\$ 10,000,000

Coverage for general liability, workers' compensation, and auto claims in excess of the stated limits above are to be funded first by assets of the Parish's risk management internal service fund, then secondly by the District. The Parish is self-insured for the first \$150,000 of each claim relating to group health. Insurance contracts cover excess liability, up to \$2,000,000 on individual claims. As of December 31, 2021, the District had no claims in excess of the above coverage limits.

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Terrebonne Parish Recreation District No. 2/3
Houma, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Terrebonne Parish Recreation District No. 2/3 (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated May 10, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control

that might by material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

2020-001 – Duplicate Payment

Statement of Condition – During the testing of cash disbursements we noted that the District issued a duplicate payment for a fixed asset addition. We consider this condition to be a material weakness in internal control.

Recommendation: We recommend that greater care be taken in performing the control features already in place. We also recommend that each month's disbursements be compared to the prior month's disbursements, being cognizant of possible duplication. A request for reimbursement should be sent to the vendor who received duplicate payment.

Planned Action: The District will implement the recommendation as detailed above.
