Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

Accounts receivable at June 30, 2019 of \$271,702 represents receivables from the federal and state grants, all deemed collectable.

Advertising Costs

The Association expenses advertising costs as incurred. Expenses incurred were \$6,887 for 2019.

Deferred Income

Grant funds received from the grantor for particular operating purposes are deemed to be earned and reported as revenues when the Association has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as deferred amounts. There are no such deferred amounts at June 30, 2019.

LOUISIANA RURAL WATER ASSOCIATION, INC.

Notes to Financial Statements

June 30, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Deferred income of \$273,468 at June 30, 2019 represents July 2019 conference income received prior to June 30, 2019.

Cash

Cash includes amounts in demand deposits. The Association's policy is to secure required collateral to safeguard all of the financial instruments. At June 30, 2019, the Association had \$623,374 in deposits (collected bank balances). These deposits were secured from risk by \$250,000 of federal depository insurance, and \$373,374 of pledged securities held by the custodial bank and government securities.

Prepaid Expenses

Prepaid expenses of \$28,661 at June 30, 2019 represent mostly conference expenses paid at year end.

Vacation and Sick Leave Policies

The Association's vacation policy permits 10 days after one year of service, 15 days after five years of service and 20 days after 20 years of service. Accrued vacation must be taken within one year. Employees are paid for unused vacation days upon termination of employment. Accrued vacation payable is recorded at \$49,266 at June 30, 2019.

The Association's sick leave policy permits the accumulation of one day per month up to a maximum of 120 days. Employees are not paid for unused sick days upon termination of employment. Accrued sick leave is recorded at \$298,343 at June 30, 2019.

The Association has received permission from its federal grantor agency to accrue funded vacation and sick leave benefits. The federal programs fund the accruals to accumulate funds to pay for terminations and long-term illnesses of employees paid from those programs. The accrual cannot be more than the legal liability for those programs.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, the Association considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Restricted and Unrestricted Revenue and Support

Contributions received are recorded as restricted support, depending on the existence and/or nature of any donor restrictions.

LOUISIANA RURAL WATER ASSOCIATION, INC.

Notes to Financial Statements

June 30, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor restricted support is reported as an increase in permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Classification of Net Assets

Net assets of the Association are classified based on the presence or absence of donor-imposed restrictions. Net assets are comprised of two groups as follows:

Net Assets Without Donor Restrictions – Amounts that are not subject to usage restrictions based on donor-imposed requirements. This class also includes assets previously restricted where restrictions have expired or been met.

Net Assets with Donor Restrictions – Assets subject to usage limitations based on donor-imposed or grantor restrictions. These restrictions may be temporary or may be based on a particular use. Restrictions may be met by the passage of time or by actions of the Association. Certain restrictions may need to be maintained in perpetuity.

Earnings related to restricted net assets will be included in net assets without donor-restrictions unless otherwise specifically required to be included in donor-restricted net assets by the donor or by applicable state law.

The Association does not interpret the guidance in the standard to include amounts restricted by awarding agencies as donor-restricted. The Association believes that these amounts do not meet the spirit of the standard for such a classification or is there any industry standard indicating that others will treat these assets as donor-restricted.

All net assets of the Association at June 30, 2019 were considered to be net assets without donor restrictions.

Subsequent Events

Management has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued.

NOTE B - INVESTMENTS

Investments are composed of governmental mutual funds investing in debt and equity securities and the Louisiana Asset Management Pool (LAMP) and are carried at net asset value. The net asset value is calculated as the total value of the investment's assets minus the total value of its liabilities and is obtained from monthly investment statements. Investments as of June 30, 2019 are summarized as follows:

Type of Debt Investment	Fair Value	Maturity			Credit Rating (Standards and Poor's)
		Less than 1 Year	1 to 5 Years	6 to 10 Years	
Investments at fair value					
Certificates of deposit	\$ 151,841	\$ -	\$ 151,841	\$ -	N/A
Subtotal	151,841	-	151,841	-	
Investments measured at the net asset value (NAV)					
Federated U.S. Government Securities CI A Mutual Fund	148,950	148,950	-	-	Unrated
Louisiana Asset Management Pool	126,633	126,633	-	-	AAAm
Total investments measured at NAV	275,583	275,583	-	-	
Total Investments	\$ 427,424	\$ 275,583	\$ 151,841	-	

The Association categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Association has the following recurring fair value measurements as of June 30, 2019:

Level 2 inputs – certificate of deposits totaling \$151,841 are valued using a market based approach comprised of a combination of directly observable quoted prices and a matrix pricing technique that relies on the securities' relationship to other benchmark quoted securities.

Interest Rate Risk: The Association's policy on investments states that safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first insure that capital losses are avoided no matter the sources.

Credit Rate Risk: The Association has investments in LAMP, an external investment pool of \$126,633 that is rated AAAM by Standard & Poor's. Its policy states that investment decisions should not incur unreasonable risks in order to obtain current investment income and requires the overall quality rating to be no lower than AA- as measured by Standard & Poor's or the equivalent rating (Aa3) by Moody's Investor Service.

NOTE B – INVESTMENTS (CONTINUED)

Concentration of Credit Risk: The Association's investment portfolio had concentration of credit risk on June 30, 2019 due to the holdings of Federated U.S. Government Securities mutual fund at 54% and LAMP at 46% both permitted by Statute and by the Association's Investment Policy.

Custodial Credit Risk-Investments: For an investment, this is the risk that, in the event of the failure of the counter party, the Association will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Association's policy addresses custodial credit risk for investments by requiring that they must be held by national banks, state-chartered banks or a national or state trust company in the name of the Association.

The \$126,633 in money market investments is invested in LAMP. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33.2955. LAMP is a governmental investment pool that reports at fair value. The following facts are relevant for investment pools:

Credit risk: LAMP is rated AAAM by Standard & Poor's.

Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.

Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.

Cash needs of the Association are expected to be met on a monthly basis from grant income. In general, the Association maintains sufficient financial assets on hand to meet thirty days' worth of normal operating expenses.

In August 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities. ASU 2016-14 requires significant changes to the financial reporting model of organizations who follow the not-for-profit reporting model. The changes include reducing the classes of net assets from three classes to two classes of net assets including net assets with donor restrictions and net assets without donor restrictions. The ASU will also require changes in the way certain information is aggregated and reported by the

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

October 15, 2019

To the Board of Directors
Louisiana Rural Water Association, Inc.
Kinder, LA

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Louisiana Rural Water Association, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2019, and the related statements of activities and cash flows for the year ended, and the related notes to the financial statements, and have issued our report thereon dated October 15, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Louisiana Rural Water Association, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Louisiana Rural Water Association, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Louisiana Rural Water Association, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This report is intended solely to describe the scope of our testing of internal control and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
