

For the purpose of this report, I have classified the significant internal control structure policies and procedures in the following categories:

- Revenue/collections
- Purchasing/contract awards
- Salaries
- Budgeting and budget reporting
- Property and equipment

For all of the internal control structure categories listed above, I obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and I assessed control risk.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and are not detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control structure and its operation that I consider to be material weaknesses as defined above.

This report is intended for the information of the members of the commission, the Lincoln Parish Police Jury, and the Louisiana Legislative Auditor. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Investments

Louisiana statute permit the Center to invest in United States' bonds, treasury notes, or certificates, or other obligations of the U.S. Government and agencies of the U.S. Government, which are federally insured, and certificates of deposit of state banks having their principal offices in the state of Louisiana, or in mutual or trust fund institutions which are registered and which have underlying investments limited to securities of the United States Government or its agencies.

The Center's policy is to include short-term interest bearing deposits and treasury notes with a maturity of three months or less as cash.

Cash is reported at net book value - the year end book balance plus any deposits in transit and less any outstanding checks that have not cleared the bank as of that date.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The records of the Lincoln Parish Detention Center are maintained on a modified accrual basis of accounting, whereby revenues are recognized when they become available and measurable. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Expenditures are recognized when they are incurred.

Funding Policies

The Lincoln Parish Detention Center receives its earnings through sales and use taxes, local grants and state reimbursement for the detention of state prisoners held in the parish detention center.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH LAWS AND

PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
Lincoln Parish Detention Center
Bossier, Louisiana

I have audited the accompanying general purpose financial statements of the Lincoln Parish Detention Center as of and for the year ended December 31, 1996, and have issued my report thereon dated June 5, 1997.

I conducted my audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. These standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

Compliance with laws, regulations, contracts, and grants applicable to Lincoln Parish Detention Center is the responsibility of the Detention Center's management. As part of obtaining reasonable assurance about whether the general purpose financial statements are free of material misstatement, I perform tests of the Detention Center's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of my audits of the general purpose financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, I do not express such an opinion.

The results of my tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

This report is intended for the information of the members of the commission, the Lincoln Parish Police Jury, and the Louisiana Legislative Auditor. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL STRUCTURE-
RELATED MATTERS NOTED IN A FINANCIAL STATEMENT AUDIT
CONDUCTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Commissioners
Lincoln Parish Detention Center
Baton Rouge, Louisiana

I have audited the accompanying general purpose financial statements of Lincoln Parish Detention Center as of and for the year ended December 31, 1996, and have issued my report thereon dated June 3, 1997.

I conducted my audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

In planning and performing my audit of the general purpose financial statements of Lincoln Parish Detention Center for the year ended December 31, 1996, I obtained an understanding of the internal control structure. With respect to the internal control structure, I obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and I assessed control risk in order to determine my auditing procedures for the purpose of expressing my opinion on the general purpose financial statements and not to provide an opinion on the internal control structure. Accordingly, I do not express such an opinion.

The management of the Lincoln Parish Detention Center is responsible for establishing and maintaining an internal control system. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are recorded in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of my evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

NOTE 10 - DEFERRED COMPENSATION PLAN (Continued)

The deferred compensation plan is administered by PERSCO (Public Employee Benefit Service Corporation). Under the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amount held by the financial institution, and paid or made available to the employees or beneficiaries, are the property of the Center, subject only to the claims of the Center's general creditors. In addition, the participants in the plan have rights equal to those of the general creditors of the Center, and each participant's rights are equal to his or her share of the fair market value of the plan assets. The Center believes that it is unlikely that plan assets will be needed to satisfy claims of general creditors that may arise.

As part of its fiduciary role, the Center has an obligation of due care in selecting the third-party administrators. In the opinion of the Center's legal counsel, the Center has acted in a prudent manner and is not liable for losses that may arise from the administration of the plan.

Parochial Employer's Retirement System of Louisiana

Plan description

The Parochial Employees' Retirement System, a Public Employees Retirement System, is a non-sharing multiple-employer plan that is governed by the Louisiana Revised Statutes, Title 11 Sections 1991 through 2015, specifically, and other general laws of the State of Louisiana.

Under the Parochial Retirement System, a member is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, or 25 years of creditable service and is at least 55 years old, or 10 years of creditable service and is at least 60 years old. The monthly retirement benefit is equal to three percent of the member's average monthly compensation for any 36 months of consecutive service in which compensation was the highest, multiplied by years of creditable service, not to exceed 100% of member's final compensation. Retirement benefits are payable monthly for the life of the retiree, and upon the retiree's death under certain conditions are payable to the retiree's surviving spouse and minor children. The Episcopal Parish Detention Center's total payroll for the year ended December 31, 1996, was \$273,673, of which 100% was the covered payroll for employees in the Parochial Retirement System. The Detention Center has 31 employees covered under this retirement system.

Description of Funding Policy

Covered employees are required by state statute to contribute 9.50% of their salary to the Parochial Retirement System. The Center contributions are 2.25% of the salary. The contribution requirement for the year ended December 31, 1996, was \$22,489, which consists of \$4,982 from employees and \$40,500 from the Center.

The amount reported below as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employees' service to date. The measure is the actuarial present value of a defined projected benefits and is intended to help users assess the plan's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among government pension plans and employers.

The Parochial Retirement System does not conduct separate measurements of assets and pension benefit obligations for individual employers. The benefit obligation at December 31, 1996 (the latest date for which such information was available at the date of this report) for the Parochial

Budgetary Practices

Budgetary practices of the Lincoln Parish Detention Center include public review of the proposed budget, public inspection of the proposed budget, and public hearings on the budget. Budgets are prepared on a modified accrual basis of accounting. The board is authorized to transfer budget amounts within a function by object classification; however, any revisions that alter the total expenditures of any function must be approved by the Lincoln Parish Detention Center Board. Budgeted amounts shown in the accompanying financial statements include original adopted budget amounts and all subsequent amendments.

The Commission approves total budget appropriations, is authorized to transfer budget amounts between departments within any fund, and alters the total appropriations of any fund. Therefore, the level of budgetary responsibility is by total appropriations; however for report purposes, this level has been expanded to a functional basis.

Unused appropriations for all of the above annually budgeted funds lapse at the end of the year.

The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrances including, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded, is not employed by the Detention Center.

Employees accrue from five to fifteen days of annual sick leave each year depending on years of service with the Detention Center. Annual leave or sick leave can accumulate up to sixty days. Upon separation, all unused sick leave lapses.

A provision for the compensated absence has been determined to be immaterial by the Detention Center, therefore, no provision has been included in these general purpose financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Lincoln Parish Detention Center
Monroe, Louisiana

I have audited the accompanying general purpose financial statements of the Lincoln Parish Detention Center, as of and for the year ended December 31, 1996, as listed on the cover page. These general purpose financial statements are the responsibility of the Detention Center's management. My responsibility is to express my opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards, and the Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to in the first paragraph present fairly in all material respects, the financial position of the Lincoln Parish Detention Center as of December 31, 1996, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.
