NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

INTRODUCTION

The Simmesport Volunteer Fire Department, Inc. was incorporated on March 1, 1988, under the provision of the Louisiana Revised Statutes 1950, Title 12, Chapter 2. The Corporation is organized on a non-profit basis and operates primarily for the purpose of performing all acts and deeds incidental or proper for the purpose of providing for fire protection for persons, homes, business establishments, and generally all persons and properties situated within the volunteer fire department as reasonably can be expected with equipment acquired by the department. The Board of Directors consists of not less than seven, or more than eleven members. The members of the Board of Directors are elected at the annual membership meeting. No compensation is paid to the Board members.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

A. BASIS OF PRESENTATION

The accompanying financial statements of the Simmesport Volunteer Fire Department, Inc. have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental units, with exception that as referred to in the compilation report, the department did not adopt the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

The Simmesport Volunteer Fire Department, Inc. (Department) is the financial reporting entity. The financial reporting entity consists of (a) the primary government (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Government Accounting Standards Board Statement No. 14 established criteria for determining which component units, if any, should be considered part of the financial reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability.

**NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

B. REPORTING ENTITY (continued)

This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the entity to impose its will on the organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the entity.
2. Organizations for which the department does not appoint a voting majority but are fiscally dependent on the department.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

The accompanying financial statements present information only on the funds maintained by the governmental unit, or the other governmental units that comprise the financial reporting entity. There are no component units meeting the above criteria requiring inclusion in the financial reporting entity.

C. FUND ACCOUNTING

The accounts of the Simmesport Volunteer Fire Department, Inc. are organized and operated on a basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds and account groups are grouped in the financial statements in this report in the following categories:

Governmental Funds-

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

C. FUND ACCOUNTING (continued)

Account Groups-

Fixed Assets:

The accounting and reporting treatment applied to the fixed assets associated with a fund are determined by its measurement focus. All governmental fund type operations are accounted for on a spending or "financial flow" measurement focus and only current assets and current liabilities are generally included on their balance sheets.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Asset Account Group and are recorded as expenditures in the governmental fund type when purchased. No depreciation has been provided on general fixed assets.

General Long-Term Debt:

The long-term debt used in governmental fund type operations (general long-term debt) are accounted for in the General Long-Term Obligations Account Group and are recorded as other financing sources in the governmental fund type when the debt is incurred.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. Ad valorem taxes are recognized as revenue in the year for which such taxes are billed and collected. Other major revenues that are considered susceptible to accrual include earned grant revenues and other intergovernmental revenues.

Expenditures are generally recognized under the modified accrual basis of accounting when related fund liability is incurred, except the principal and interest on general long-term debt is recognized as expenditure when due.

AS OF AND FOR THE YEAR ENDED JUNE 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

E. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the department may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the department may invest in United States bonds, treasury notes, or certificates.

These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost.

F. BUDGET PRACTICES

The department is not required by law to formally adopt a budget. Therefore, the presentation of a statement of revenues, expenditures, and changes in fund balances – budget and actual, for the special revenue funds is not required.

G. FIXED ASSETS

Fixed assets of governmental funds are recorded as expenditures at the time they are purchased or constructed, and related assets are reported in the general fixed assets account group. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost.

H. COMPENSATED ABSENCES

The department has no employees; all services are performed by volunteers. Therefore, the department has no policy relating to compensated absences.

AS OF AND FOR THE YEAR ENDED JUNE 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

J. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

K. FUND EQUITY OF FUND FINANCIAL STATEMENTS

The town adopted the provisions of GASB 54 *Fund Balance Reporting and Governmental Fund Type Definitions* for the year ended June 30, 2021. GASB 54 requires the fund balance amounts to be reported within the fund balance categories as follows:

Non-spendable – Fund balance that is not in spendable form or is legally or contractually required to be maintained intact. This category includes items that are not easily converted to cash such as inventories or prepaid items.

Restricted – Fund balance that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed - Fund balance that can only be used for specific purposes determined by the Department's highest level of decision making authority. Committed amounts cannot be used for any other purpose unless the Department removes or changes the specified use by taking the same type of action it employed to previously commit the funds. Committed fund balance is the result of either a policy of the Department or motions passed at a Department meeting committing the funds.

Assigned - Fund balance that is constrained by the Department's intent to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by the Department.

Unassigned – Fund balance that is unrestricted which consists of all other net assets that do not meet any other definition.

NOTE 2. CASH AND CASH EQUIVALENTS (continued)

These deposits are stated at cost, which approximates market. *Custodial Credit Risk*: is the risk that in the event of a bank failure, the Department's deposits may not be returned to it. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent institution. The Department had no custodial credit risk as of June 30, 2021.

At June 30, 2021, the Department had \$144,420 in deposits (collected bank balances):

	<u>\$ 144,420</u>

Even though pledged securities are considered uncollateralized under the provisions of GASB Statement 3, LA R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Department that the fiscal agent has failed to pay deposited funds upon demand. The funds on deposit shall be collateralized an amount at all times equal to 100% by pledged "approved securities" as specified by LA R.S. 39:1225, as amended, to protect the funds of the Department. The Department does not have a formal written policy for custodial credit risk.
