JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JEFFERSON, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

INTRODUCTION

The Jefferson Davis Parish Sanitary Landfill Commission was chartered February 17, 1984. The Commission was created by the joint action of the following political subdivisions: the City of Jennings, the Town of Welsh, the Town of Lake Arthur, and the Jefferson Davis Parish Police Jury. These governing bodies joined efforts for the purpose of establishing a long-term plan for disposal of solid wastes in Jefferson Davis Parish. According to the charter, the operations of the Commission are not to be financed by user charges but by direct assessment of the member governing bodies. Each member governing body is assessed directly in the proportion of the number of households within each member unit to the total number of households within all member units. These proportions were determined by the figures obtained from the 1980 U. S. Census. Based upon the information available from the 1980 U. S. Census, the following percentages for each member governing body were determined:

LOCALITY	NUMBER OF HOUSEHOLDS	PERCENTAGES
Jennings	4,161	.421196
Welsh	1,167	.118129
Lake Arthur	1,212	.122684
Parish (excluding Jennings, Welsh, Lake Arthur & Iberia)	<u>3,330</u>	<u>.337991</u>
Total	<u>5,870</u>	<u>1.000000</u>

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accounting and reporting policies of the Jefferson Davis Parish Sanitary Landfill Commission conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guide set forth in the Louisiana Governmental Study Guide, and to the industry audit guide, *Guide of State and Local Governments' Plans*, published by the American Institute of Certified Public Accountants. Our examination was also made in accordance with the provisions of *Government Auditing Standards*, promulgated by the United States Comptroller General, as they pertain to financial and compliance audits.

B. REPORTING ENTITY

The financial statements of the Commission consist only of the funds and account groups of the Commission. The Commission has no financial accountability for any other governmental entity since no other entities are considered to be component units of the Commission. GASB Statement No. 14 established criteria for determining which component units should be considered part of the Jefferson Davis Parish Sanitary Landfill Commission for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
IRVING, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the Commission to impose its will on the organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Commission.
2. Organizations for which the Commission does not appoint a voting majority but are fiscally dependent on the Commission.
3. Organizations for which the reporting entity financial statements would be misleading if that of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the Commission has determined that it has no component units.

C. FUND ACCOUNTING

The Commission uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the Commission are of only one category: governmental. In turn, the category has only one fund type. The fund classification and a description of the existing fund type follow:

Governmental Funds

Governmental funds are used to account for all or most of the Commission's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds include:

General Fund

The General Fund is the general operating fund of the Commission and accounts for all financial resources, except those required to be accounted for in other funds.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JEFFERSON, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1995

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by all governmental funds. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Revenues are recognized in the accounting period in which they become available and measurable.

Expenditures

Expenditures are recognized in the accounting period in which the fiscal liability is incurred, if measurable, except for unamortized interest on general long-term debt, which is recognized when due.

E. BUDGETARY PRACTICES

The Commission utilized the following budgetary practices:

For the year ended December 31, 1995, the Commission adopted a budget on December 29, 1995 at a public hearing for the general fund on a basis consistent with generally accepted accounting principles (GAAP). Periodic budget comparisons were made during the year and amendments were made when deemed necessary. All budgetary appropriations lapse at the end of each fiscal year. Formal encumbrance accounting is not utilized by the Commission.

F. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and certificates of deposit. Cash equivalents include amounts in time deposits and those investments with maturities of 90 days or less. Under state law the Commission may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having principal offices in Louisiana. Investments may include investments or obligations issued by the United States Government or its agencies, or any other federally insured investment.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JENNINGS, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

G. FIXED ASSETS

Fixed assets of governmental funds are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized (reported) in the General Fixed Assets Account Group. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost or estimated historical cost if historical cost is not available. Of the fixed assets, those with estimated costs are: Land - \$323,000.

The account group mentioned above is not a "fund." It is concerned only with the measurement of financial position. It is not involved with measurement of results of operations.

H. COMPENSATED ABSENCES

The Commission adopted a personnel policy during 1994. The policy states that all full-time employees shall be allowed vacation time, provided they have been employed full-time for a period of at least six months. Vacation time allowed varies from five to twenty days per year depending on length of service. Under similar circumstances part-time employees will also be allowed vacation time but on a basis of part-time hours scheduled and working to a normal forty hour work week. Vacation time may not be carried over to the following year.

Full-time employees shall be entitled to utilize one sick day for each month of active full-time employment up to a maximum sixty days. Regular part-time employees shall be entitled to utilize sick days at the same rate as full-time employees with a maximum accumulation of thirty days. This benefit for regular part-time employees applies only to absences lasting more than one week, with the first week being an unpaid waiting period.

I. TOTAL COLUMN(S) ON COMBINED STATEMENTS

Total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

J. RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission manages these losses through the purchase of commercial insurance.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
BIRMINGHAM, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

2. CASH AND CASH EQUIVALENTS

At December 31, 1996, the Commission has cash and cash equivalents totaling \$1,746,375. Cash equivalents include time deposits and those investments with original maturities of 90 days or less. These amounts are as follows:

Interest bearing demand deposits	\$	314,900
Time deposits		660,499
Repurchase agreement		374,307
U.S. Treasury bill		596,215
Total	\$	<u>1,746,375</u>

These deposits are stated at cost or amortized cost, which approximates market. Under state law, time deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank (GASH Category 3) in a holding or custodial bank that is mutually acceptable to both parties. Cash and cash equivalents (bank balances) at December 31, 1996, are secured as follows:

Bank balance	\$	968,208
Insured (FDIC)	\$	200,000
Uninsured, uncollateralized:		
Pledged securities held by pledging Bank's Agent in Bank's name		<u>398,208</u>
Total	\$	<u>968,208</u>

Even though the pledged securities are considered uninsured-uncollateralized (Category 3) under the provisions of GASH Statement 3, Louisiana Revised Statute 99:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Commission that the fiscal agent has failed to pay deposited funds upon demand.

3. INVESTMENTS

At December 31, 1996, the District has investments totaling \$1,645,014. The carrying amount approximates the market value. These investments consist of U.S. Treasury Notes and are registered in the name of the Jeff Davis Parish Landfill and are held at Whitney Bank of New Orleans as custodians. In applying the credit risk of GASH Codification Section 150.164, these securities are considered Category 3 as they are held by the county's treasury department or agent in the government's name.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JEFFERSON, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1986

4. CHANGES IN GENERAL FIXED ASSETS

A summary of changes in general fixed assets follows:

	Balance At 12-31-85	Additions	Reductions	Balance At 12-31-86
Land	\$ 988,700	\$ -0-	\$ -0-	\$ 988,700
Improvements	1,883,831	2,565	-0-	1,886,396
Buildings	416,778	3,850	-0-	420,628
Furniture & fixtures	4,867	-0-	-0-	4,867
Equipment	52,780	-0-	-0-	52,780
Landscaping	2,391	3,285	-0-	5,676
Marketing office-office equipment	16,649	2,348	-0-	18,997
Construction-in-progress	-0-	-0-	-0-	-0-
Total	<u>\$ 3,368,795</u>	<u>\$ 16,198</u>	<u>\$ -0-</u>	<u>\$ 3,484,993</u>

5. COMPENSATION PAID TO BOARD MEMBERS

The Commission paid no compensation to board members for the year ended December 31, 1986.

7. LITIGATION

The Commission is not involved in any litigation as of the date of this report.

8. SIGNIFICANT CONTRACT PROVISIONS

On July 26, 1985, the Commission contracted with Browning Ferris Industries, Inc. (BFI) for the daily operations of waste disposal at the landfill site. The more significant outstanding provisions of that contract are as follows:

- A. BFI shall be responsible for all law violations that are caused by BFI's performance of its tasks at the landfill.
- B. Unless this contract is earlier terminated, BFI is responsible for closure in accordance with the permit and for appropriate sealing of the sanitary landfill for erosion control. BFI's post-closure care, maintenance and monitoring responsibility shall be 3 years, or as required by law, following closure. Afterwards, the Commission is responsible for all post-closure care.
- C. BFI shall take all necessary precautions to prevent receipt of and deposit into the landfill regulated "hazardous waste", wet sludges, and oilfield wastes.
- D. BFI will maintain all liability insurance as set forth in the contract.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JENNINGS, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

9. PENSION PLAN

A. Parochial Employees Retirement System of Louisiana (PERSO)

Plan Description: The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit providers. All participating employees of the police jury are members of plan A.

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds and all elected parish officials are eligible to participate in the System. Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, or at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 percent of their final-average salary for each year of creditable service. However, for those employees who were members of the supplemental plan only prior to January 1, 1990, the benefit is equal to one percent of final average salary plus \$24 for each year of supplemental-plan-only service earned prior to January 1, 1990. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

The system issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employees Retirement System of Louisiana, 5420 Corporate Blvd, Suite 103, Baton Rouge, Louisiana 70808-2589, or by calling (504) 938-1361.

Funding Policy: Under plan A, members are required by state statute to contribute 0.50% of their annual covered salary and the Commission is required to contribute at a statutory rate based on actuarially determined computations. The rate for 1996 is 1.23% of covered payroll. Contributions to the System also include one-fourth of one percent of the taxes shown to be collectible (except for Orleans and East Baton Rouge parishes) by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Commission are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:165, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Commission's contribution to the System under Plan A for the year ending December 31, 1996, 1995, and 1994 were \$6,835, \$4,679, and \$4,243, respectively, equal to the required contributions for each year.

JEFFERSON DAVIS PARISH SANITARY LANDFILL COMMISSION
JEFFERSON, LOUISIANA

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1996

10. RELATED PARTY TRANSACTIONS

The Commission voted to distribute \$250,000 to the four local government bodies that participate in the Landfill Commission and funded its construction and early operations. The distributions were made in the same proportions as the original investments by the governments (see Note 3). In addition, the Commission distributed an additional \$40,000 (\$10,000 each) to the members for economic development. These are no amounts due to the member governments at December 31, 1996.

11. CONTINGENCIES

The Landfill Commission as owner of a sanitary landfill is subject to recent Environmental Protection Agency (EPA) regulations that require monitoring the landfill site for 30 years following closure of the site in addition to other closure requirements. These regulations also mandate that landfill owners provide financial assurances that they will have the resources available to satisfy the post-closure standards. These guarantees can be third-party trusts, surety bonds, letters of credit, insurance, or state sponsored plans. According to the Commission's contract with the site operator, "...the contractor shall be responsible for closure in accordance with the permit...". Additionally, "...the contractor's post-closure care, maintenance and monitoring responsibility shall be three (3) years, or as required by law...". In the event the operator is for whatever reason unwilling or unable to fulfill this requirement, the responsibility for closure and post-closure monitoring will revert back to the Commission.

Additionally, because of the industry the Commission participates in, certain potential liabilities are always present. These include, but are not limited to, environmental cleanup costs and EPA penalties for violation of its regulations. The EPA is empowered by law (through the Superfund legislation) to seek recovery from anyone who ever owned or operated a particular contaminated site, or anyone who ever generated or transported hazardous materials to a site (these parties are commonly referred to as potentially responsible parties, or PRPs). Potentially, the liability can extend to subsequent owners or to the parent company of a PRP. While there are no asserted or unasserted potential costs or penalties at the date of this report that the Commission is aware of, the potential is present.

12. SUBSEQUENT EVENTS

At the January 17, 1996 meeting of the Commission, the Commission voted to distribute \$100,000 to the respective governmental bodies in accordance with the terms of the Commission Charter.

OTHER REPORTS

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
BASED ON AN AUDIT OF GENERAL PURPOSE
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT ACCOUNTING STANDARDS

To the Jefferson Davis Parish Sanitary Landfill Commission
Jennings, Louisiana

We have audited the general purpose financial statements of the Jefferson Davis Parish Sanitary Landfill Commission, as of and for the year ended December 31, 1996, and have issued our report thereon dated June 11, 1997.

We conducted our audit in accordance with generally accepted auditing standards, and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

Compliance with laws, regulations, contracts, and grants applicable to the Jefferson Davis Parish Sanitary Landfill Commission is the responsibility of the Commission's management. As part of obtaining reasonable assurance about whether the general purpose financial statements are free of material misstatement, we performed tests of the Commission's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our audit of the general purpose financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance that are required to be reported herein under Governmental Auditing Standards.

This report is intended solely for the use of management, the Legislative Auditor and other state and federal audit agencies and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which, upon acceptance by the Jefferson Davis Parish Sanitary Landfill Commission, the Legislative Auditor and other state and federal audit agencies, is a matter of public record.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
STRUCTURE BASED ON AN AUDIT OF GENERAL PURPOSE FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT ACCOUNTING STANDARDS

To the Jefferson Davis Parish Sanitary Landfill Commission
Jarringo, Louisiana

We have audited the general purpose financial statements of the Jefferson Davis Parish Sanitary Landfill Commission, as of and for the year ended December 31, 1998, and have issued our report thereon dated June 11, 1999.

We have conducted our audit in accordance with generally accepted auditing standards and Government Accounting Standards, issued by the Comptroller General of the United States. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

The management of the Jefferson Davis Parish Sanitary Landfill Commission is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the general purpose financial statements of the Jefferson Davis Parish Sanitary Landfill Commission, for the year ended December 31, 1998, we obtained an understanding of the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

This report is intended solely for the use of management, the Legislative Auditor and other state and federal audit agencies and should not be used for any other purpose. This restriction is not intended to limit the

Distribution of this report, which, upon acceptance by the Jefferson Davis Parish Sanitary Landfill Commission, the Legislative Auditor and other state and federal audit agencies, is a matter of public record

INDEPENDENT AUDITORS' REPORT

To The Jefferson Davis Parish Sanitary Landfill Commission
Jennings, Louisiana

We have audited the accompanying general purpose financial statements of the Jefferson Davis Parish Sanitary Landfill Commission as of and for the year ended December 31, 1996. These general purpose financial statements are the responsibility of the Jefferson Davis Parish Sanitary Landfill Commission's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the accounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Jefferson Davis Parish Sanitary Landfill Commission as of December 31, 1996, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated June 11, 1997 on our consideration of the Jefferson Davis Parish Sanitary Landfill Commission's internal control structure and a report dated June 11, 1997 on its compliance with laws and regulations.
