#### INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Board of Commissioners Morehouse Parish Communications District Bastrop, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and the major fund of Morehouse Parish Communications District (a component unit of Morehouse Parish) (the "District"), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the District's management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

## Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

#### Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants, and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

#### MOREHOUSE PARISH COMMUNICATIONS DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended December 31, 2022

As management of Morehouse Parish Communications District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2022. Please read it in conjunction with the District's basic financial statements. This discussion and analysis of management is designed to provide an objective and easy-to-read analysis of the District's financial activities based on currently known facts, decisions, or conditions. It is intended to provide readers with a broad overview of the District's finances. It is also intended to provide readers with an analysis of the short-term and longterm activities of the District based on information presented in the financial report and fiscal policies that have been adopted by the District. Specifically, this section is designed to assist the readers in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position (its ability to address the next and subsequent years' challenges), identify any material deviations from the financial plan (the approved budget), and identify individual issues or concerns.

As with other sections of this financial report, the information contained within this discussion and analysis of management should be considered only a part of a greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and supplementary information that are provided in addition to this discussion and analysis of management.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The District's basic financial statements consist of the following components:

- 1. Government-wide financial statements.
- 2. Fund financial statements.
- 3. Notes to financial statements.

In additional to the basic financial statements and accompanying notes, the District also includes in subsequent sections of this report additional information to supplement the basic financial statements.

#### 1. Government-wide financial statements

Government-wide financial statements are designed to provides readers with a concise "entitywide" statement of net position and statement of activities and to give the users of the financial statements a broad overview of the District's financial position and results of operations in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most privatesector companies. The difference between assets and liabilities is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or weakening. Evaluation of the overall economic health of the District would extend to other nonfinancial factors in addition to the financial information provided in this report.

The statement of activities presents information detailing how the District's net position changed. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected fees).

The government-wide financial statements report governmental activities of the District that are principally supported by fees and services. Governmental activities include public safety.

2. Fund financial statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's only fund which is considered a major fund.

The District has only one fund type. The governmental fund is reported in the fund financial statements and encompasses essentially the same functions reported as governmental activities in the government-wide financial statements.

A reconciliation from both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balance to the government-wide statements is provided to assist in understanding the differences between these two perspectives.

## 3. Notes to financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

#### Government-Wide Financial Analysis

The following provides a summary of the net position of the District's governmental activities:

	Year Ended December 31,				
	<u>2022</u> <u>2021</u>				
Current and other assets	\$ 1,626,389 \$ 1,492,653				
Capital assets	<u> </u>				
Total assets	<u>\$ 1,626,389</u> <u>\$ 1,492,653</u>				
Other liabilities	<u>\$ 249</u> <u>\$ 124</u>				
Net position:					
Invested in capital assets	\$-\$-				
Unrestricted	1,626,140 1,492,529				
Total net position	<u>\$ 1,626,140</u> <u>\$ 1,492,529</u>				
Total liabilities and net position	<u>\$ 1,626,389</u> <u>\$ 1,492,653</u>				

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District will use the unrestricted net position to meet the ongoing obligations to users of its services and creditors.

## **Governmental Activities**

The following provides a summary of the District's changes in net position:

	Year Ended De	Year Ended December 31,		
	<u>2022</u>	2021		
Program revenues	\$ 243,427 \$	5 253,278		
General revenues	1,964	1,924		
Public safety expenses	( 111,781)	( 110,252)		
Changes in net position	<u>\$ 133,610</u>	<u> </u>		

-5-

Program revenues derive directly from the program itself, and fund all of the governmental activities. As a whole, they reduce the cost of the function to be financed from the District's general revenues. General revenues consist of interest earnings received to pay for governmental activities, if any, whose cost is not reduced by program revenues.

#### Budgetary Highlights

The District adopted an annual appropriated budget for its General Fund. The General Fund budget complied with financial policies approved by the Board of Commissioners and maintained core District services.

The District made one amendment to its original budget for the year ended December 31, 2022. Actual non-GAAP basis revenues of the General Fund of \$245,391 were less than budgeted revenues by approximately \$1,200 while actual non-GAAP basis expenditures of \$111,781 were also less than budgeted expenditures by approximately \$1,500.

#### Capital Assets

The District's investment in capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2022 was \$0.

#### Economic Factors and Next Year's Budget

For the year ending December 31, 2023, the District anticipates that revenues will remain relatively unchanged from the final budget adopted for the year ended December 31, 2022. Budgeted expenditures for the year ending December 31, 2023 were increased approximately \$450,000 more that those budgeted for the year ended December 31, 2022 in anticipation of updating equipment.

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2022

#### Note 1. Organization and Summary of Significant Accounting Policies

Morehouse Parish Communications District (the "District") is a component unit of Morehouse Parish. It was created by Ordinance No. 1151 adopted by the Police Jury of Morehouse Parish on November 9, 1987 in accordance with Louisiana Revised Statute 31:9101. The District is governed by a board of seven commissioners who are qualified voters and residents of the District and are appointed by Morehouse Parish Police Jury. The commissioners serve four-year terms that expire on a rotating basis and are compensated from \$35 to \$50 for each meeting attended.

The District was created for the purpose of owning and operating facilities to establish and operate a uniform emergency number to simplify the notification of public service personnel in the case of an emergency.

The District employs one part-time employee.

The District is considered a component unit of Morehouse Parish Police Jury, the financial reporting entity, as the commissioners are appointed by Morehouse Parish Police Jury and the District provides emergency service to all residents within Morehouse Parish.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on Morehouse Parish Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

The more significant of the District's accounting policies are described below:

Government-Wide Financial Statements:

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the District as a whole as governmental activities, generally supported by program revenues.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include charges for services to users of the District's service. Other revenue sources not properly included with the program revenues are reported instead as general revenues.

Fund Financial Statements:

Fund financial statements are provided for the governmental fund.

Basis of Accounting, Measurement Focus, and Financial Statement Presentation:

The financial statements of the District are prepared in accordance with generally accepted accounting principles (GAAP).

The government-wide financial statements report using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

Major revenue sources susceptible to accrual are user fees. In general, other revenues are recognized when cash is received.

Fund Type and Major Fund:

The District reports the General Fund as a major governmental fund. The General Fund is the general operating fund of the District and accounts for all financial resources.

Budgets and Budgetary Accounting:

The Board of Commissioners adopted the 2022 annual budget for the General Fund on December 21, 2021. The annual budget was prepared on a non-GAAP budgetary basis of accounting. The treasurer is authorized to transfer budgeted amounts within and among departments; however, any revisions that alter the total expenditures resulting from revenues exceeding amounts estimated must be approved by the Board of Commissioners. The only amendment was made to the budget on December 20, 2022 and the budgetary comparison schedule, included as supplementary information in the accompanying financial statements, includes the original and final amended budgeted amounts. All annual appropriations lapse at the end of each fiscal year.

#### Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Cash and Certificates of Deposit:

Cash includes amounts in demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Receivables:

Receivables include user fees.

#### Uncollectible Allowance:

The statements contain no provision for uncollectible accounts. The District's management is of the opinion that such allowance would be immaterial in relation to the financial statements taken as a whole.

Capital Assets and Depreciation:

Capital assets, which include property, plant, and equipment, with useful lives of more than one year are reported in the government-wide financial statements. Capital assets are capitalized at historical cost. The District maintains a threshold level of \$2,500 or more for capitalizing assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

As surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets are depreciated using the straight-line method over useful lives of five or seven years.

Equity Classifications:

In the government-wide financial statements, equity is classified as net position and classified further into two components:

- 1. Net investment in capital assets consists of capital assets net of accumulated depreciation.
- 2. Unrestricted consists of all other assets.

In the fund financial statements, governmental fund equity is classified as fund balance. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- a. Nonspendable fund balance amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- b. Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation:

-16-

- c. Committed fund balance amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint;
- d. Assigned fund balance amounts that the District intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- e. Unassigned fund balance amounts that are available for any purpose; positive amounts are reported only in the General Fund.

#### Note 2. Cash and Deposits

The following is a summary of cash and deposits of the District as of December 31, 2022:

Non-interest bearing demand deposits	\$ 1,027,661
Time deposits	550,701
	\$ 1,578,362

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank and deposited with an unaffiliated bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

As of December 31, 2022, the District had \$1,581,452 in deposits (collected bank balances). These deposits were secured from risk by \$800,701 of federal deposit insurance and \$780,751 of pledged securities held by Bank of New York Mellon.

There were no repurchase or reverse repurchase agreements as of December 31, 2022.

#### Note 3. Capital Assets

Capital assets and depreciation activity as of and for the year ended December 31, 2022 for the District is as follows:

	Balance January <u>1, 2022</u>	Increases	Decreases	Balance December <u>31, 2022</u>
Capital assets being depreciated:				
Machinery and equipment	\$ 609,812	\$ -	\$ -	\$ 609,812

Depreciation expense, if any, is reported separately in the statement of activities.

## Note 4. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District carries commercial insurance for all risks of loss.

#### Note 5. Subsequent Events

The District has evaluated subsequent events through March 10, 2023, the date which the financial statements were available to be issued.
