Independent Auditors' Report

Board of Commissioners
Pontchartrain Levee District
Lutcher, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pontchartrain Levee District (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 to 6 and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The accompanying information listed as other supplementary information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

This other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2021, on our consideration of District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

June 30, 2021

The management's discussion and analysis of the Pontchartrain Levee District (the District) financial performance presents a narrative overview and analysis of the District's financial activities for the year ended June 30, 2021. This document focused on the current year's activities, resulting changes and currently known facts. Please read this document in conjunction with the District's financial statements.

Financial Highlights

- Total net position increased \$3,346,737 to \$202,400,858 at June 30, 2021 from the June 30, 2020 amount of \$199,054,121.
- The District recorded long-term debt for the other postemployment benefits (other than retirement benefits) liability for retiree's benefits in the amount of \$7,733,150 as required under Government Accounting Standard Board (GASB) Statement No. 75 - Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. See notes to financial statements for further discussion.
- The District recognized its proportionate share of its pension liability in fiscal year 2021 in accordance with GASB 68 in the amount of \$7,895,676 as of June 30, 2021.
- During fiscal year 2021, the District made levee improvements including levee lifts and other improvements and repairs to pump stations which are included in the total expenditures of \$11,848,092.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's financial statements, which is comprised of government-wide financial statements, fund financial statements and notes to the financial statements.

The government-wide financial statements present financial information for all activities of the District from an economic resources measurement focus using the accrual basis of accounting. They present governmental activities, such as general government and debt service, separately from business-type activities. The District has only governmental activities. Government-wide financial statements for governmental activities include the Statement of Net Position and the Statement of Activities. They provide information about the activities of the District as a whole and present a longer-term view of the District's finances.

The District has several governmental type funds with its major funds being the General Fund, Special Construction Fund, and the West Shore Feasibility Study Fund. The fund financial statements are comprised of the Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances. These statements report how the District's flood protection services are financed in the short term as well as what remains for future spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's major funds. We describe the relationship (or differences) between the governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the governmental funds in a reconciliation that follows each respective fund financial statement.

Change in net position	<u>\$ 3,346,737</u>	<u>6,032,360</u>	<u>(2,685,623)</u>

Analysis of Individual Funds of the District

The activity in the individual funds is reflected in the Balance Sheet – Governmental Funds and the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds. The total net position and the change in net position as reflected in the government-wide financial statements (which are condensed

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Management's Discussion and Analysis

June 30, 2021

above) are reconciled with the fund financial statements at in reconciliation statements that follow each respective fund financial statement.

Analysis of Budgeted Amounts

A comparison of budget to actual for the general fund is presented as a required supplemental statement. The annual budget is approved by the Board of Commissioners each year. The budgets are then submitted for approval to the Joint Legislative Committee on the budget no later than ninety days prior to the end of each fiscal year for the succeeding fiscal year for review.

The District prepares the original budget for the subsequent year based on estimates of revenues and expenses for the current year. The District makes assumptions about the subsequent year based on various factors available to management at the time the original budget is prepared. Management relies on the estimates and assumptions to determine how revenues and expenses for the subsequent year may fluctuate from the previous year.

Economic Factors and Next Year's Budgets

The District does not expect any significant variances for revenue or expenditure accounts between fiscal years ending June 30, 2021 and June 30, 2022.

Capital Assets

As of June 30, 2021, the District had \$170,214,752 (net of depreciation) invested in a broad range of capital assets including land, building, equipment and infrastructure (lock system, pump stations and pumps). During the current year, the District recorded \$231,168 of capital acquisitions, transferred \$151,703,862 from construction in progress to infrastructure, and recorded \$2,369,179 of depreciation.

Long Term Debt

The District has recorded compensated absences payable as of June 30, 2021, in the amount of \$233,433 which represents a decrease of \$63,647 from the prior year.

Also included in long term debt is the other post-employment benefits liability for retiree's benefits in the amount of \$7,733,150 as required under Government Accounting Standard Board Statements No. 75 – Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions. See notes to financial statements for further discussion.

Also included in long term debt is the net pension liability for retiree's benefits in the amount of \$7,895,676 as required under Government Accounting Standard Board Statements No. 68 – Accounting and Financial Reporting by Employers for Pensions. See notes to financial statements for further discussion.

General Long-Term Debt Account Group, however, the changes
affect costs in the statement of activities:**

Personnel cost decrease due to compensated absences	63,647
Pension expense net of retirement contributions	(188,582)
Adjustment for other postemployment benefits	<u>42,756</u>

Change in Net Position of Governmental Activities **\$ 3,346,737**

See accompanying notes to the financial statements.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(1) Introduction

The Board of Levee Commissioners of the Pontchartrain Levee District (the District) was created by Louisiana Revised Statute 38:291. The District includes all or portions of the following parishes: East Baton Rouge, Iberville, Ascension, St. James, St. John the Baptist, and St. Charles. The District primarily provides flood protection for those areas in the District and is authorized to construct and maintain levees, levee drainage, pumps, pumping stations, drainage canals, sea wall, jetties, and breakwaters in the district to protect the lands from overflow and particularly from hurricane floodwaters and from inundation from tidewaters from the Gulf of Mexico. Members of the Board are appointed by the Governor in accordance with the provisions of Louisiana Revised Statute 38:304.

(2) Summary of Significant Accounting Policies

(a) Reporting Entity

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the reporting entity for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the State to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the State.
2. Organizations for which the State does not appoint a voting majority but are fiscally dependent on the State.
3. Organizations for which the reporting entity financial statement would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the State of Louisiana, via the Governor, appoints all the members of the District's governing Board and has the ability to impose its will on the District, the District was determined to be a component unit of the State of Louisiana. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the State of Louisiana, the general government services provided by that government unit, or other governmental units that comprise the financial reporting entity.

(b) Basic Financial Statements - Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the non-fiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. There were no activities of the District categorized as business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

(c) Basic Financial Statements - Fund Financial Statements

The District uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain government functions or activities. A fund is defined as a separate accounting entity with a self-balancing set of accounts. Funds are ordered into three major categories: governmental, proprietary, and fiduciary, which are grouped by fund type in the financial statements. Governmental fund types are those through which general governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities are accounted for through governmental funds.

(d) Eliminating Internal Activity

Interfund receivables and payables are eliminated in the statement of net position except for the net residual amounts due between governmental and business-type activities. These are presented as internal balances. The District has no business-type activities.

(e) Capital Assets

Assets used in operation with an initial useful life that extends beyond one year are capitalized. Building, equipment, furniture and fixtures, and infrastructure are depreciated over their estimated useful lives using the straight-line method. Depreciation is not calculated on land, land improvements or construction in progress. Accumulated depreciation is recorded net of depreciable assets in the statement of net position.

(f) Program Revenues

The statement of activities presents two categories of program revenues – (1) charges for services and (2) capital grants and contributions.

Charges for services are revenues from exchanges or exchange like transactions with external parties that purchase, use or directly benefit from the program's goods, services or privileges. These revenues include fees charged for specific services, licenses and permits, and operating special assessment and include payments from exchange transactions with other governments. The District receives no fees for services.

Capital grants and contributions are resources that are restricted for operating purposes of a program. They include grants and contributions with restrictions that permit the resources to be used for programs operating of capital needs at the recipient government's discretion.

(g) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing and related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statement is reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within thirty-one days after the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred as under accrual accounting.

(h) Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to various governmental funds according to the purpose for which they may or may not be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The District report the following major governmental funds:

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The fund is presently being used to account for the construction of the levee system and pumping stations in the District.

West Shore Feasibility Study Fund

The West Shore Lake Pontchartrain Fund is used to account for expenditures made for the purpose of building and maintaining flood prevention measures in urban and residential areas on the east-bank of the Mississippi River in St. Charles, St. John the Baptist, and St. James Parishes.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(i) Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon thereafter to be used to pay the liabilities of the current fiscal year. For the District, available means expected to be received within thirty-one days of the fiscal year-end. Under the modified accrual basis, only interest is both measurable and available at fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when resources are required to be used, matching requirements, in which the District must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

(j) Revenues – Taxes

Ad valorem taxes are assessed on a calendar year basis, become due on November 15th of each year, and become delinquent on December 31st. Ad valorem taxes are recorded in the year the taxes are received. If taxes were recorded when assessed the amount recorded would not be materially different from the amount actually recorded in the financial statements.

(k) Expenses/Expenditures

On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

(l) Other Financing Sources (Uses)

In governmental fund accounting, transfers between funds, which are not expected to be repaid, are accounted for as other financing sources (uses). In those cases where repayment is expected, the advances are accounted for through the various “due from” and “due to” accounts. These amounts are eliminated in the government-wide financial statements.

Proceeds from the issuance of bonds are accounted for as other financing sources in the governmental funds. These amounts are recorded as liabilities in the government-wide financial statements.

(m) Property and Equipment

Property and Equipment are recorded at cost, if purchased or constructed. Assets acquired through contributions are capitalized at their estimated fair value, if available, or at estimated fair value or

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

cost to construct at the date of the contribution. Equipment includes all items valued above \$5,000 and infrastructure includes the cost to construct and improve the pumps, pump stations and lock systems. Assets are depreciated using the straight-line method over the useful lives of the assets as follows:

<u>Asset</u>	<u>Years</u>
Automobiles	5
Equipment	5-10
Furniture and Fixtures	7
Buildings	40
Infrastructure	40-50

The District provides general maintenance to forty-four miles of levees, which are not recorded in these financial statements because the District does not own the levees and is not responsible for significant maintenance on them.

(n) Long-Term Obligations

Long-term obligations are reported at face value.

(o) Budget Policies

The budget practices of the District are prescribed by Louisiana Revised Statute 38:318. This statute requires the District to submit its annual budget to the Joint Legislative Committee on the Budget, no later than 90 days prior to the end of each fiscal year for the succeeding fiscal year for review.

The District prepares budgets for all its funds. The budgets are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP).

Amendments to the budget must be approved by the Board of Commissioners.

Appropriations which are not expended lapse at year end.

(p) Encumbrances

Encumbrance accounting is not utilized by the District.

(q) Cash, Cash Equivalents, and Investments

Cash and cash equivalents include demand deposits in banks and the State Treasury. The caption "cash" on the statement of net position includes all cash on deposit at banks, including certificates of deposit with an original maturity of less than 90 days. If the original maturity exceeds 90 days, they are classified as investments.

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

or any other federally insured investments, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Louisiana state law requires deposits (cash and certificates of deposit) of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision. The market value of the demand deposits and certificates of deposit is equal to their cost.

(r) Annual and Sick Leave

Employees accumulate annual and sick leave at various rates based on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is considered in computing the years of service for retirement benefit purposes. The liability for leave privileges at June 30, 2021, is estimated to be \$233,433 which is recorded as a liability in the statement of net position.

(s) Compensatory Leave

Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid compensatory leave earned. Upon termination or transfer, an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour compensatory leave earned. Compensation paid will be based on the employee's hourly rate of pay at termination or transfer.

(t) Inventories

Inventories of fuel and mower parts are valued at the lower of cost or market and are recorded as expenditures at the time individual inventory items are purchased. The District uses a periodic inventory system and values its inventory using the first-in, first-out (FIFO) valuation method. Reported inventories are equally offset by a fund balance reserve which indicates that they do not constitute available expendable resources even though they are a component of net position.

(u) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(v) Fund Balance

In fund financials, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components, as follows:

- 1. Nonspendable - This component consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.**
- 2. Restricted - This component consists of amounts that have constraints placed on them either externally by third parties (bond creditors) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the District to assess payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.**
- 3. Committed -This component consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed previously to commit those amounts.**
- 4. Assigned - This component consists of amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed.**
- 5. Unassigned - This component consists of amounts that have not been restricted, committed or assigned to specific purposes within the general fund.**

The District has no restricted fund balances as of June 30, 2021. As of June 30, 2021, fund balances committed to levee construction and maintenance amounted to \$16,739,421, fund balances assigned to building maintenance amounted to \$169,524, and the nonspendable fund balance amounted to \$253,654.

The Board of Commissioners, as the highest level of decision-making authority, can establish, modify or rescind a fund balance commitment by formal vote at a public board meeting. For assigned fund balance the Board of Commissioners authorizes management to assign amounts for a specific purpose.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted resources first, then unrestricted as needed. When committed, assigned or unassigned fund balances are available for use it is the District's policy to use committed resources first, then assigned resources and unassigned resources as they are needed.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(w) Net Position

In accordance with GASB Codification, net position is classified into three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

1. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed. As of June 30, 2021, and for the year then ended, the District did not have or receive any restricted net position.

(x) New Accounting Pronouncements

The GASB issued Statement No. 87, *Leases*, in June 2017. The objective of GASB No. 87 is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Management is still evaluating the potential impact of adoption of the District’s financial statements. This Statement will be effective for the District for the fiscal year ending June 30, 2022.

(3) Cash and Cash Equivalents

At June 30, 2021, the District had cash and cash equivalents (book balances) totaling \$3,834,150 which were demand deposits at various financial institutions. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2021, the District has \$2,885,639 in bank balances for cash deposits which is not necessarily equal to the balance sheet cash balance due to outstanding items. \$1,110,656 of the bank balances are covered by FDIC Insurance, the remaining \$2,723,494 of deposits are secured with pledged securities held by the District's agent in the District's name.

STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(4) Investments

Investments at June 30, 2021 are comprised of:

<u>Investment</u>	<u>Percentage</u>	<u>Credit Rating</u>	<u>Fair Value</u>
LAMP	59.1%	AAAm	\$ 25,227,570
U.S. Treasury Notes	23.0%	Aaa	9,834,101
U.S. Treasury Bills	0.4%	N/A	149,987
Federal Agency Bonds	<u>17.5%</u>	AA+	<u>7,467,023</u>
Total	<u>100%</u>		<u>\$ 42,678,681</u>

At June 30, 2021, future maturities of investments are as follows:

<u>Investment</u>	<u>Fair Value</u>	<u>Less than 1 Year</u>	<u>1 to 5 Years</u>	<u>6 to 10 Years</u>	<u>10+ Years</u>
LAMP	\$ 25,227,750	25,227,750	-	-	-
U.S. Treasury Notes	9,834,101	6,104,725	3,729,376	-	-
U.S. Treasury Bills	149,987	149,987	-	-	-
Federal Agency Bonds	<u>7,467,023</u>	<u>2,020,422</u>	<u>5,446,601</u>	<u>-</u>	<u>-</u>
	<u>\$ 42,678,681</u>	<u>33,502,704</u>	<u>9,175,977</u>	<u>-</u>	<u>-</u>

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits the District's investments per Louisiana Revised Statute 33:2955. The District does not have policies to further limit credit risk.

Custodial risk for investments is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy states that the assets of the District shall be held in trust by the fiduciary designated by the District. For U.S. Treasury Obligations and U.S. Government Obligations state law provides these are backed by the full faith and credit of the United States of America.

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The District investment policy states that the bond portfolio may not hold more than 30% at cost of any single bond issue.

Investment rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State law as applicable to political subdivisions does not address interest rate risk. In addition, the District manages its exposure to declines in fair values by permitting shifts along the yield curve and between sectors of the fixed income market.

The District's investment policy does not allow for funds contracted with an investment advisor, for management purposes, to exceed ten percent of the advisor's assets under management.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Louisiana Asset Management Pool (LAMP)

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and obligations in which local governments in Louisiana are authorized to invest in accordance with LSA - R.S. 33:2955. LAMP Investment guidelines and historical Information are available on its website www.lampool.com or can be obtained by phoning (504) 525-LAMP.

LAMP Is a 2a7 like investment pool. The following facts are relevant for 2a7 like investment pools as they relate to FASB Statement No. 40:

Credit Risk: LAMP is rated AAAM by Standard & Poor's

Custodial Credit Risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in the pool are not categorized in the three risk categories provided by GASB because the investments are in a pool of funds; and therefore, not evidenced by securities that exist in physical or book entry form.

Concentration of credit risk: Pooled investments are excluded from the 5% disclosure requirement.

Interest rate risk: 2a7 like investment pools are excluded from this disclosure requirement.

Foreign currency risk: Not applicable to 2a7 like pools.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP, and the value of the position in the external investment pool is the same as the value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the State Treasurer and the Board of Directors. LAMP is not registered with the SEC as an Investment company.

(5) Fair Value Measurements

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent, but not in the entity's name. Repurchase agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure. The following investments are uninsured, unregistered and held by counterparty's trust department or agent not in the entity's name.

GASB Statement No. 72, Fair Value Measurement and Application, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

- (a) Level 1 inputs - the valuation is based on quoted market prices for identical assets or liabilities traded in active markets.
- (b) Level 2 inputs - the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.
- (c) Level 3 inputs - the valuation is determined by using the best information available under the circumstances, might include the government's own data, but it should adjust the data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

Fair values of assets measured on a recurring basis at June 30, 2021 are as follows:

	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
LAMP	\$ 25,227,570	-	25,227,570	-
U.S. Treasury Notes	9,834,101	-	9,834,101	-
U.S. Treasury Bills	149,987	-	149,987	-
Federal Agency Bonds	7,467,023	-	7,467,023	-
Total	<u>\$ 42,678,681</u>	<u>-</u>	<u>42,678,681</u>	<u>-</u>

(6) Property and Equipment

A summary of changes in capital assets is as follows:

	<u>Balance July 1, 2020</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance June 30, 2021</u>
Assets not being depreciated:				
Land	\$ 1,131,628	-	-	1,131,628

Total capital assets	<u>181,444,511</u>	<u>151,935,030</u>	<u>(152,299,957)</u>	<u>181,079,584</u>

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Accumulated depreciation:

Buildings	867,002	80,086	-	947,088
Equipment	3,850,202	194,192	(596,095)	3,448,299
Infrastructure	4,374,544	2,094,901	-	6,469,445
Total accumulated depreciation	<u>9,091,748</u>	<u>2,369,179</u>	<u>(596,095)</u>	<u>10,864,832</u>
Total capital assets, net	<u>\$ 172,352,763</u>	<u>149,565,851</u>	<u>(151,703,862)</u>	<u>170,214,752</u>

The District recorded \$2,369,179 of depreciation expense on its capital assets for the year ended June 30, 2021.

(7) Long-Term Obligations

A summary of changes in long-term liabilities follows:

<u>Type of Debt</u>	<u>Balance 7/1/2020</u>	<u>Additions (Reductions)</u>	<u>Balance 6/30/2021</u>	<u>Amounts Due Within One Year</u>
Compensated absences	\$ 297,080	(63,647)	233,433	-
Other postemployment benefits payable	7,112,023	621,127	7,733,150	197,984
Net pension liability	<u>7,462,188</u>	<u>433,488</u>	<u>7,895,676</u>	<u>-</u>
	<u>\$ 14,871,291</u>	<u>990,968</u>	<u>15,862,259</u>	<u>197,984</u>

(8) Post-Retirement Benefits Other than Pensions (OPEB):

Plan Description: The District's employees may participate in the State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan) which is administered by the Office of Group Benefits (OGB). The State OGB Plan provides medical and life insurance benefits to eligible active employees, retirees, and their beneficiaries. The postemployment benefits plan is a multiple-employer plan for financial reporting purposes since the plan is not administered as a formal trust. R.S. 42:801-883 provides the authority to establish and amend benefit provisions of the plan. OGB does not issue a publicly available financial report of the State OPEB Plan; however, it is included in the State of Louisiana's Comprehensive Annual Financial Report (CAFR). You may obtain a copy of the CAFR on the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2021. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

Medical Benefits: Retirees under age 65 can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access
- Vantage Medical Home HMO

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Retirees 65 and over can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access
- Vantage Medical Home HMO
- People's Medicare Advantage HMO
- Vantage Medicare Advantage HMO (Premium/Standard/Basic)
- BCBS Medicare Advantage HMO (varies by region)
- Humana Medicare Advantage HMO (varies by region)
- Via Benefits HRA

Monthly Contributions: Retirees with continuous OGB medical coverage starting before January 1, 2002 pay approximately 25% of the cost of coverage in retirement. Employees with an OGB medical participation start (or re-start) date after December 31, 2001 pay a percentage of the total retiree contribution rate based on the following schedule:

<u>OGB Participation</u>	<u>Employer Contribution Percentage</u>	<u>Employee Contribution Percentage</u>
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

Monthly rates effective January 1, 2021 are as follows:

<u>Medical Plan</u>	<u>Pre-Medicare Member</u>				<u>Medicare Member</u>		
	<u>Active Single</u>	<u>Member Only</u>	<u>Pre-65 Spouse</u>	<u>Medicare Spouse</u>	<u>Member Only</u>	<u>Pre-65 Spouse</u>	<u>Medicare Spouse</u>
Vantage Med Home HMO	\$ 705	1,394	1,067	291	461	1,224	365
People's MA HMO	\$ N/A	N/A	N/A	190	190	N/A	190
Vantage MA HMO Prem.	\$ N/A	N/A	N/A	187	187	N/A	187
Vantage MA HMO Std.	\$ N/A	N/A	N/A	152	152	N/A	152
Vantage MA HMO Basic	\$ N/A	N/A	N/A	72	72	N/A	72
BCBS Pelican HRA	\$ 443	870	666	175	283	762	226
BCBS Mag. Local Plus	\$ 709	1,397	1,070	292	462	1,227	366
BCBS Magnolia OA	\$ 738	1,448	1,109	292	471	1,269	375

For purposes of the OPEB valuation, the above amounts were trended back six months to the valuation date.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA

Notes to Financial Statements

June 30, 2021

Life Insurance Benefits: OGB provides eligible retirees the following life insurance plans:

	<u>Basic</u>	<u>Supplemental Maximum</u>
Under age 65	\$ 5,000	50,000
Ages 65 to 70	4,000	38,000
After age 70	3,000	25,000

In force life insurance amounts are reduced to 75% of the initial value at age 65 and 50% of the original amount at age 70. Spouse life insurance amounts of \$1,000, \$2,000, or \$4,000 are available. Retiree pays 50% of the Prudential Company of America premium. Retiree pays 100% of the Prudential Company of America premium for spousal coverage.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability:

At June 30, 2021, the District reported a liability of \$7,733,150 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2020 and was determined by an actuarial valuation as of that date.

The District's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At June 30, 2020, the District's proportion was 0.0933%.

Actuarial Assumptions:

Valuation Date: July 1, 2020.

Valuation Date: July 1, 2020.

Actuarial Cost Method: Entry Age Normal, level percent of pay. Service costs are attributed through all assumed ages of exit from active service. For current DROP participants, assumed exit from active service is the date at which DROP ends.

Salary Increases: Consistent with pension valuation assumptions.

Discount Rate: The discount rate used as of July 1, 2020 is 2.66% based on the June 30, 2020 S&P 20-year municipal bond index rate.

Life Insurance Coverage: Future retirees are assumed to participate in the life insurance benefit at a 36% rate. Future retirees are assumed to elect a total of \$45,000 in basic life insurance and supplemental life insurance coverage, before any age reductions. Spouses are assumed to elect \$2,000 of coverage. Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Mortality:

For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, and then projected on a fully generational basis by Mortality Improvement Scale MP-2018.

For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.

For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.

Healthcare Cost Trend Rates: The combined effect of price inflation and utilization on gross eligible medical and prescription drug charges is according to the table below. The initial trend rate was developed using a National Health Care Trend Survey. The survey gathers information of trend expectations for the coming year from various insurers and pharmacy benefit managers. These trends are broken out by drug and medical, as well as type of coverage (e.g. PPO, HMO, POS). Plans that most closely match The State of Louisiana’s benefits were selected to set the initial trend. The ultimate trend is developed based on a building block approach which considers CPI, GDP, and Technology growth. The healthcare cost trend rates are as follows:

<u>Year</u>	<u>Medical and Drug Pre-65</u>	<u>Medical and Drug Post-65</u>
2020-2021	6.75%	5.25%
2021-2022	6.50%	5.00%
2022-2023	6.25%	4.75%
2023-2024	6.00%	4.50%
2024-2025	5.75%	4.50%
2025-2026	5.50%	4.50%
2026-2027	5.25%	4.50%
2027-2028	5.00%	4.50%
2028-2029	4.75%	4.50%
2029 +	4.50%	4.50%

The following changes in actuarial assumptions have been made since the prior measurement date:

- The discount rate has been decreased from 2.79% to 2.66% since the previous valuation which increased the Plan’s liability.
- Baseline per capita costs (PCCs) were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, the actuaries do not believe this experience is reflective of what can be expected in future years. Plan claims and premiums increased less than had been expected, which decreased the Plan’s liability. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience. This further reduced the Plan’s liability.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

- The actuaries rely upon the economic assumptions used in the June 30, 2020 actuarial valuations for the four Statewide Retirement Systems. Two of these systems, the Louisiana State Employee Retirement System (LASERS) and the Teachers' Retirement System of Louisiana (TRSL) have adopted new salary scale assumptions for the June 30, 2020 valuation. Economic assumptions were updated to reflect the updated salary scale assumptions. This slightly increased the Plan's liability.
- Several demographic assumptions were updated based on a review of OPEB experience from July 1, 2017 through June 30, 2020.
 - Medical participation rates have been decreased as follows:

<u>Years of Service</u>	<u>From</u>	<u>To</u>
<10	52%	33%
11-14	73%	60%
15-19	84%	80%
20+	88%	88%

- The life participation rate has been decreased from 52% to 36% since the previous valuation, which decreased the Plan's liability.
- The age difference between future retirees and their spouses was changed from three years for all retirees to three years for male retirees and two years for female retirees.
- The assumed percent of participants assumed to be Medicare-eligible upon reaching age 65 was changed from 95% to 99%.
- Medical plan election percentages decreased as follows: Towers Extend HIX – 3% to 0%; BCBS MA HMO – 0% to 2%; Humana MA HMO – 0% to 1%.

Required Supplementary Information

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate one percentage lower and one percentage higher than the current discount rate.

	1% Decrease	Current	1% Increase
	(1.66%)	Rate (2.66%)	(3.66%)

STATE OF LOUISIANA

Notes to Financial Statements

June 30, 2021

(9) Retirement Systems

Louisiana State Employees Retirement System

Plan Description

The System was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of La. R.S. 11:401, as amended, for eligible state officers, employees and their beneficiaries. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

Deferred Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making an application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or is permanently or legally blind, there is no reduction to the benefit if the retiree becomes gainfully employed.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

forementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation and cease upon remarriage, or children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, or 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership.

Employer contributions to LASERS for fiscal year 2021 were \$751,954, with active member contributions ranging from 7.5% to 8%. The District's contractually required composite contribution rate of 40.6% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$7,895,676 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the District's proportion was 0.09547%.

For the year ended June 30, 2021, the District recognized pension expense of \$1,017,323 less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions of \$76,787.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	(75,828)
Changes in assumptions	25,263	-
Net difference between projected and actual earnings on pension plan investments	1,154,197	-
Changes in proportion	116,805	(363,692)
Employer contributions	<u>751,954</u>	<u>-</u>
	<u>\$ 2,048,219</u>	<u>(439,520)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:

June 30, 2022	\$ 72,757
June 30, 2023	\$ 160,172
June 30, 2024	\$ 356,676
June 30, 2025	\$ 267,1

STATE OF LOUISIANA

Notes to Financial Statements

June 30, 2021

yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

** The investment rate of return used in the actuarial valuation for funding purposes was 7.90%, recognizing an additional 35 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.55%, which is the same as the discount rate. Therefore, the System's management concludes that the 7.55% discount is reasonable.*

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 8.25% for 2020. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return*</u>
Cash	-0.59%
Domestic equity	4.79%
International equity	5.83%
Domestic Fixed Income	1.76%
International Fixed Income	3.98%
Alternative Investments	6.69%
Risk Parity	4.20%
Total Fund	5.81%

* The information above can be found in the current Employer Pension Audit Report located at <https://lasersonline.org/employers/gasb-68-resources/>. The data provided is sample data only.

Discount Rate

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Sensitivity of the Employer’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer’s proportionate share of the Net Pension Liability using the discount rate of 7.60%, as well as what the Employer’s proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower (6.60%) or one percentage-point higher (8.60%) than the current rate:

	1% Decrease <u>(6.55%)</u>	Current Discount Rate <u>(7.55%)</u>	1% Increase <u>(8.55%)</u>
Employer’s proportionate share of the net pension liability	\$ <u>9,702,557</u>	<u>7,895,676</u>	<u>6,362,338</u>

The information above can be found in the current GASB 68 Schedules of Employer located at <https://lasersonline.org/employers/gasb-68-resources/>.

Change in Net Pension Liability

The changes in the net pension liability for the year ended June 30, 2020 were recognized in the current reporting period except as follows:

Differences between Expected and Actual Experience

Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The difference between expected and actual experience resulted in a net deferred inflow of resources in the amount of \$123,557 for the year ended June 30, 2021. Net pension benefit and remaining deferred inflow for the year ended June 30, 2021 was \$47,729 and \$75,828, respectively.

Differences between projected and Actual Investment Earnings

Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period. The difference between projected and actual investment earnings resulted in a net deferred outflow of resources in the amount of \$1,574,489, for the year ended June 30, 2021. Net pension expense and remaining net deferred outflow for the year ended June 30, 2021 was \$420,292 and \$1,154,197, respectively.

Changes in Assumptions

Changes in assumptions about future economic or demographic factors were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

plan. The changes in assumptions or other inputs resulted in a deferred outflow of resources of \$109,794 for the year ended June 30, 2021. Pension expense and remaining deferred outflow for the year ended June 30, 2021 was \$84,531 and \$25,263 respectively.

Change in Proportion

Changes in the employer's proportionate share of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

Contributions - Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the schedule of employer amounts due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued current LASERS Comprehensive Annual Financial Report at www.lasersonline.org.

Payables to the Pension Plan

As of June 30, 2021, the District had \$71,942 of employee and employer contributions that were due to the pension plan.

(10) Infrastructure

The U.S. Army Corps of Engineers purchased the right-of-way from landowners which the levees now rest upon. Major maintenance to this mainline Mississippi River Levee falls under the Mississippi River & Tributaries project which Congress contributes annually to in the President's budget. The levees are along the corridor along the river. The District provides minor maintenance such as grass cutting along the east bank of the levee from East Baton Rouge Parish to St. Charles Parish which is approximately 115 miles long. The approximate cost of the levees as determined by the Corps of Engineers is \$484,064 per mile for the total cost of \$55,667,360. These levees provide vital protection to the large petro-chemical industries located along the river from the annual spring rise in river levels.

The Lake Pontchartrain, Louisiana and Vicinity Hurricane Protection Project was authorized by Public Law 298, 89th Congress, 1st Session, and approved on October 27, 1965. The St. Charles Parish portion of the project was fully constructed to the original authorized design providing Standard Project Hurricane protection from the Probable Maximum Hurricane. Following Hurricane Katrina, Congress authorized and funded the Hurricane and Storm Damage Risk Reduction System to reduce the risk

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

associated with a storm surge event that a one percent chance of occurring in any given year, or a 100-year storm surge. The project includes approximately 9.5 miles of earthen levees, four drainage structures, five floodwalls and a railroad gate. Two pre-cast concrete access bridges were also constructed for access during construction and operation and maintenance. This project was completed in 2021.

(11) Grantors

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such grantor agencies, principally the state of Louisiana. Any disallowed claims, including amounts collected, may constitute a liability of the applicable funds.

(12) Property Taxes

Article 6, Section 39 of the 1974 Louisiana Constitution provides that for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection and for all other purposes incidental thereto, the District may levy annually a tax not to exceed five mills. If the District needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of five mills must be approved by a majority vote of the electors. The District has levied a tax of 3.19 mills.

(13) Judgements, Claims and Similar Contingencies

The District is a defendant in several lawsuits involving disputed land ownership and right-of-way. The estimate of the amount or range of loss is between approximately \$4.5 million and \$65 million. Per GASB Codification C50, legal counsel's opinion is that the potential loss is reasonably possible but not probable.

The West Shore Lake Pontchartrain project is located in southeast Louisiana on the east-bank of the Mississippi River in St. Charles, St. John the Baptist, and St. James Parishes in Southeast Louisiana. The West Shore Lake Pontchartrain Chief's report was published in June 2016 and the project has been included in the Bipartisan Budget Act of 2018.

The \$760 million project is approximately 18.5 miles in length and includes 17.5 miles of levee, 1 mile of T-wall, 4 pumping stations, 2 drainage structures, and approximately 35 utility relocations. The project will also provide localized risk reduction measures focused in St. James Parish. The project will include mitigation to offset unavoidable environmental impacts. The scheduled completion date of the project is the third quarter of 2023. The District is the Non-Federal Sponsor of the project.

(14) Subsequent Events

The District evaluated subsequent events through October 4, 2021, the date which the financial statements were available to be issued.

Pension Liability and Schedule of Employer’s Pension Contributions**

Last 10 Fiscal Years

Changes in Benefit Terms:

Measurement Date: June 30, 2014:

- 1. A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the Louisiana Regular Legislative System.**
- 2. Improved benefits for certain members employed by the Office of Adult Probation and Parole within the Department of Public Safety and Corrections as established by Act 852 of 2014.**

Measurement Date: June 30, 2016:

- 1. A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.**
- 2. Added benefits for members of the Harbor Police Retirement System which was merged with LASERS effective July 1, 2015 by Act 648 of 2014.**

Measurement Date: June 30, 2019:

- 1. Act 595 of 2018 provides for a disability benefit equal to 100 percent of final average compensation for members of the Hazardous Duty, Corrections Primary and Secondary, Wildlife and Harbor Police plans who are totally and permanently disabled in the line of duty by an intentional act of violence.**

Changes in Assumptions:

Measurement Date: June 30, 2017:

- 1. The Board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments, beginning July 1, 2017. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017, valuation. A 7.65% discount rate was used to determine the projected contribution requirements for fiscal year 2018/2020.**
- 2. The Board reduced the inflation assumption from 3.0% to 2.75%, effective July 1, 2017. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.**
- 3. The projected contribution requirement for fiscal year 2018/2020 includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.**

Pension Liability and Schedule of Employer’s Pension Contributions**

Last 10 Fiscal Years

Measurement Date: June 30, 2018:

- 1. In accordance with the Board's adopted a plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.70% to 7.65%.**

Measurement Date: June 30, 2019:

- 1. In rate was reduced from 7.7% to 7.60.**
- 2. The Board reduced the inflation assumption from 2.75% to 2.50%, effective July 1, 2019. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.**

Measurement Date: June 30, 2020:

- 1. In accordance with the Board's adopted a plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.60% to 7.55.**
- 2. The Board reduced the inflation assumption from 2.50% to 2.30%, effective July 1, 2020. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .20%.**

Collective OPEB Liability**

Last 10 Fiscal Years

No assets are accumulated in a trust that meets the criteria in GASBS No. 75, paragraph 4, to pay related benefits.

Changes in Benefit Terms:

There were no changes of benefit terms for the OPEB Plan during any of the years presented.

Changes in Assumptions:

Measurement Date: July 1, 2017:

1. The discount rate increased from 2.71% to 3.13%.

Measurement Date: July 1, 2018:

1. The discount rate decreased from 3.13% to 2.98%.
2. Baseline per capita costs were updated to reflect 2018 claims and enrollment and retiree contributions were updated based on 2020 premiums. The impact of the High Cost Excise Tax was revisited, reflecting updated plan premiums.
3. The mortality assumption for the Louisiana State Employees' Retirement System was updated from the RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections using projection scale MP-2017 to the RP-2014 Healthy Annuitant and Employee tables for males and females using projection scale MP-2018.
4. The percentage of future retirees assumed to elect medical coverage was modified based on recent plan experience.

Measurement Date: July 1, 2019:

1. The discount rate decreased from 2.98% to 2.79%.
2. Baseline per capita costs (PCCs) were updated to reflect 2019 claims and enrollment and retiree contributions were updated based on 2020 premiums. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience.
3. Life insurance contributions were updated based on updated schedules for 2020 monthly premium rates.
4. The impact of the High Cost Excise Tax was removed. The High Cost Excise Tax was repealed in December 2019.
5. Demographic assumptions for the Louisiana State Employee Retirement System (LASERS) were updated based on a recent experience study performed by LASERS.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA**

**Notes to Required Supplementary Information – Schedule of Employer’s Proportionate Share of Total
Collective OPEB Liability**

Last 10 Fiscal Years

Measurement Date: July 1, 2020:

1. The discount rate decreased from 2.79% to 2.66%.
2. Baseline per capita costs (PCCs) were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, the actuaries do not believe this experience is reflective of what can be expected in future years. Plan claims and premiums increased less than had been expected, which decreased the Plan’s liability. In addition, the estimate of future EGWP savings was increased, based on an analysis of recent EGWP experience. This further reduced the Plan’s liability.
3. The actuaries rely upon the economic assumptions used in the June 30, 2020 actuarial valuations for the four Statewide Retirement Systems. Two of these systems, the Louisiana State Employee Retirement System (LASERS) and the Teachers’ Retirement System of Louisiana (TRSL) have adopted new salary scale assumptions for the June 30, 2020 valuation. Economic assumptions were updated to reflect the updated salary scale assumptions.
4. Several demographic assumptions were updated based on a review of OPEB experience from July 1, 2017 through June 30, 2020.

a. Medical participation rates have been decreased as follows:

<u>Years of Service</u>	<u>From</u>	<u>To</u>
<10	52%	33%
10-14	73%	60%
15-19	84%	80%
20+	88%	88%

- b. The life participation rate has been decreased from 52% to 36% since the previous valuation, which decreased the Plan’s liability.
- c. The age difference between future retirees and their spouses was changed from three years for all retirees to three years for male retirees and two years for female retirees.
- d. The assumed percent of participants assumed to be Medicare-eligible upon reaching age 65 was changed from 95% to 99%.
- e. Medical plan election percentages decreased as follows: Towers Extend HIX – 3% to 0%; BCBS MA HMO – 0% to 2%; Humana MA HMO – 0% to 1%.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2020 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the **OGB** Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported. 197,984.00

Covered Employee Payroll for the **PRIOR** fiscal year (not including related benefits) 1,851,390.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2020 - 6/30/2021). This information will be provided to the actuary for the valuation report early next year. 0.00

For agencies that have employees that participate in the **LSU Health Plan**, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2021 for their OPEB valuation report.)

Covered Employee Payroll for the **CURRENT** fiscal year (not including related benefits) 0.00

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Commissioners
Pontchartrain Levee District
State of Louisiana
Lutcher, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, major funds, and aggregate remaining fund information of the Pontchartrain Levee District, (the District), as of and for the year then ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 4, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for their purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
