INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Bridge House Corporation
New Orleans, Louisiana

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Bridge House Corporation (a nonprofit organization), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Bridge House Corporation as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the *Louisiana Governmental Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bridge House Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As discussed in Notes 1 and 14 to the financial statements, Bridge House Corporation adopted FASB ASC 842, *Leases*, which resulted in the recognition of right-of-use asset and operating lease liability. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Board of Directors of
Bridge House Corporation
New Orleans, Louisiana

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Bridge House Corporation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bridge House Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bridge House Corporation's ability to continue as a going concern for a reasonable period of time.

To the Board of Directors of
Bridge House Corporation
New Orleans, Louisiana

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information included in Schedule “1” is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 5, 2023, on our consideration of Bridge House Corporation’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Bridge House Corporation’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bridge House Corporation’s internal control over financial reporting and compliance.

BRIDGE HOUSE CORPORATION
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Bridge House Corporation (Bridge House) is a non-profit corporation organized to provide treatment and long-term residential care for individuals with drug and alcohol addictions in the Greater New Orleans area. Bridge House is supported primarily through donor contributions, thrift store and donated auto sales, and governmental grants and contracts.

Method of Accounting and Financial Reporting Framework

Assets and liabilities and revenues and expenses are recognized on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board (FASB).

Basis of Presentation

The financial statement presentation follows the recommendations of the FASB in its Accounting Standards Codification (ASC) 958-210-50-3, *Financial Statements of Not-for-Profit Organizations*. Under FASB ASC 958-210-50-3, Bridge House is required to report information regarding its financial position and activities according to two classes of net assets:

Net Assets With Donor Restrictions - The part of net assets of a not-for-profit entity that is subject to donor-imposed restrictions (donors include other types of contributors, including makers of certain grants).

Net Assets Without Donor Restrictions - The part of net assets of a not-for-profit entity that is not subject to donor-imposed restrictions (donors include other types of contributors, including makers of certain grants).

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, except for assets held in its investment portfolio, Bridge House considers all certificates of deposits and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Restricted Cash and Funded Reserves

Restricted cash and funded reserves consist of balances in cash accounts that are required by loan agreements.

DECEMBER 31, 2022 AND 2021

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Grants and Contracts Receivable

Bridge House receives funding from federal, state, and local agencies for administering various grants and contracts. Management monitors the receivables and assesses the collectability of accounts on a monthly basis. Bridge House records an allowance for uncollectible accounts based on an assessment of the receivables, taking into consideration the nature of the account and aging of the balance. For the years ended December 31, 2022 and 2021, management has determined that all amounts were collectible and no allowance was necessary.

Bridge House also receives payment for services rendered from Medicaid programs. Bridge House manages the receivables by regularly reviewing its accounts and contracts and by providing appropriate allowances for uncollectible amounts. Bridge House records an allowance for uncollectible accounts based on an assessment of the receivables, taking into consideration the nature of the account and aging of the balance. For the years ended December 31, 2022 and 2021, Bridge House provided \$23,472 and \$20,126, respectively, for the allowance for uncollectible amounts.

Inventories

Inventories are stated at the lower of cost, fair value at date of donation plus the cost of repairs, or net realizable value.

Investments

Investments in marketable securities and mutual funds with readily determinable fair values and all investments in debt securities are reported at fair value in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statements of activities as increases or decreases in net assets without donor restrictions unless their use is with restrictions by explicit donor stipulations or law. Dividend, interest, and other investment income are recorded as increases in net assets without donor restriction unless the use is restricted by the donor.

Certificates of deposit (CDs) represent CDs with initial maturities of greater than three months but less than one year, the use of which is restricted for specific purposes by the Board of Directors. They are recorded at the face value plus accrued interest, which approximates fair value.

FASB ASC topic 820, *Fair Value Measurements and Disclosures*, emphasizes market-based measurement and, in doing so, stipulates a fair value hierarchy. The hierarchy is based on the type of inputs, or data used, to measure fair value. The fair value hierarchy is summarized below:

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Investments (Continued)

Level 1 lies at the top of the hierarchy. Inputs are quoted prices in active markets.

Level 2 inputs are in the middle of the hierarchy, where data is adjusted from similar items traded in markets that are active markets or from identical or similar items in markets that are not active. Level 2 inputs do not stem directly from quoted prices.

Level 3 inputs are unobservable and require the entity to develop its own assumptions.

No Level 2 or Level 3 inputs were used by the Organization.

Property and Equipment

Bridge House follows the practice of capitalizing, at cost, all expenditures for fixed assets in excess of \$10,000. Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings	30 Years
Furniture, fixtures, and equipment	5 - 15 Years
Building improvements	7 - 30 Years
Leasehold improvements	5 Years
Vehicles	5 - 7 Years

Leasehold improvements are amortized over the lesser of the useful lives of the improvements or the remaining lease term. Donations of property and equipment are recorded as contributions at their estimated fair value at the date of donation. Such donations are reported as increases in net assets without donor restrictions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, Bridge House reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Bridge House reclassifies net assets with donor restrictions to net assets without donor restrictions at that time.

Leases

Bridge House applies judgment in determining whether a contract contains a lease and whether a lease is classified as an operating lease or a finance lease. Bridge House defines the lease term as the non-cancellable term of the lease, which may include options to extend or terminate the lease when it is reasonably certain that Bridge House will exercise that option. The lease term is used in determining classification between operating lease and finance lease, calculating the lease liability and determining the incremental borrowing rate.

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Leases (Continued)

Bridge House also applies judgment in allocating the consideration in a contract between lease and non-lease components. It considers whether Bridge House can benefit from the right-of-use asset either on its own or together with other resources and whether the asset is highly dependent on or highly interrelated with another right-of-use asset.

Bridge House is required to discount lease payments using the rate implicit in the lease if that rate is readily available. If that rate cannot be readily determined, the lessee is required to use its incremental borrowing rate. Bridge House generally uses the incremental borrowing rate when initially recording real estate leases. Information from the lessor regarding the fair value of underlying assets and initial direct costs incurred by the lessor related to the leased assets is not available.

Bridge House determines the incremental borrowing rate of each lease by estimating the credit rating of Bridge House at the time the lease is recognized, referencing market yields corresponding to the credit rating and weighted average life of the lease, and factoring in other lease-specific factors such as assumed collateral.

Revenue Recognition

Promises to Give, Grants, and Contributions

Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restrictions expire in the reporting period in which the contributions are recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions depending on the nature of the restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions.

Unconditional promises to give are recognized as revenues or gains in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met. There were no conditional promises to give as of December 31, 2022 and 2021.

Contributions of donated noncash assets are recorded at their fair values in the period received. Bridge House receives a substantial amount of services donated by its clients and supporters in carrying out Bridge House's activities. No amounts have been reflected in the financial statements for those services since they do not meet the criteria for recognition under FASB ASC 958-605-50-1, *Accounting for Contributions Received and Contributions Made*.

Revenue Recognition (continued)

Contracts

Bridge House receives Medicaid revenue arising from contracts with the State of Louisiana – Department of Health and Hospitals. Generally, Bridge House is reimbursed on a fee-for-service basis based on predetermined reimbursement rate schedules. Bridge House determines the transaction price based on established billing rates reduced by contractual adjustments provided to third-party payers, discounts provided to uninsured patients and implicit price concessions. Contractual adjustments and discounts are based on contractual agreements, discount policies and historical experience. Implicit price concessions are based on historical collection experience.

Thrift Store and Used Cars

Thrift Store and Used Car sales are recognized at the point of sale when the exchange transaction occurs, as one performance obligation.

Functional Expenses

Directly identifiable expenses are charged to programs and supporting services. Expenses related to more than one function are charged to programs and supporting services on the basis of periodic time and expense studies. Management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of Bridge House.

Income Tax Status

Bridge House is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and from state income taxes under Section 121(5) of Title 47 of the Louisiana Revised Statutes of 1950. However, income from certain activities not directly related to Bridge House's tax-exempt purpose may be subject to taxation as unrelated business income. In addition, Bridge House qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

As of December 31, 2022, Bridge House had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The 2019 through 2021 tax years remain subject to examination by the IRS. Bridge House does not believe that any reasonably possible changes will occur within the next twelve months that will have a material impact on the financial statements.

Advertising

All non-direct response advertising costs are expensed as incurred and included in advertising and promotions expenses. Advertising expense amounted to \$112,434 and \$114,507 for the years ended December 31, 2022 and 2021, respectively.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements Adopted

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which supersedes existing guidance for accounting for leases under *Topic 840, Leases*. The FASB also subsequently issued the following additional ASUs, which amend and clarify Topic 842: ASU 2018-01, *Land Easement Practical Expedient for Transition to Topic 842*; ASU 2018-10, *Codification Improvements to Topic 842, Leases*; ASU 2018-11, *Leases (Topic 842): Targeted Improvements*; ASU 2018-20, *Narrow-scope Improvements for Lessors*; ASU 2019-01, *Leases (Topic 842): Codification Improvements*; and ASU 2021-09, *Leases (Topic 842): Discount Rate for Lessees That Are Not Public Business Entities*. The most significant change in the new leasing guidance is the requirement to recognize right-to-use (ROU) assets and lease liabilities for operating leases on the balance sheet. The adoption of these Updates had a material impact on the Company.

During the year ended December 31, 2022, Bridge House adopted FASB Accounting Standards Update (Update) No. 2020-07, “*Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*.” This Update seeks to increase transparency of contributed nonfinancial assets for not-for-profit (NFP) entities through enhancements to presentation and disclosure. The adoption of this Update did not have a material impact on Bridge House’s financial statements.

Date of Management’s Review

Subsequent events have been evaluated through June 5, 2023, which is the date the financial statements were available to be issued.

(2) LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS (CONTINUED)

Bridge House is substantially supported by contributions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, Bridge House must maintain sufficient resources to meet those responsibilities to its donors. Thus, financial assets may not be available for general expenditure within one year. As part of Bridge House's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due.

(14) LEASES

Leases under ASC 840

Bridge House makes payments monthly for the use of treatment, housing, thrift store and used car facilities. Presently, Bridge House has short-term and long-term agreements with the owners of these properties. Short-term arrangements could be terminated at the discretion of either party to the rental agreements. Long-term leases are non-cancelable operating leases, by Bridge House, that expire at various dates through December 31, 2031. Certain leases generally contain renewal options for periods ranging from two to ten years, include escalation clauses, and require Bridge House to pay executor costs such as taxes, maintenance and insurance.

During the year ended December 31, 2018, Bridge House assumed an operating lease agreement to lease a portion of its Woodward property to a third-party. The lease agreement required monthly rent payments of \$4,167 and originally expired on August 31, 2022. As of June 30, 2021 the tenant and Bridge House agreed to terminate the final year of the lease contract. Rental income for the year then ended December 31, 2021 was \$29,167.

(14) LEASES (CONTINUED)

Leases Under ASC 842

Effective January 1, 2022, Bridge House adopted FASB 842, *Leases*. The new standard establishes a right-of-use (ROU) model that requires a lessee to record an ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases are classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. Leases with a term of less than 12 months will not record a right of use asset and lease liability and the payments will be recognized into profit or loss on a straight-line basis over the lease term.

Bridge House elected to adopt FASB ASC 842, *Leases*, using the optional transition method that allows Bridge House to initially apply the new lease standard at the adoption date and recognize a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption.

Bridge House elected to adopt the package of practical expedients available under the transition guidance with the new standard. This package includes the following: relief from determination of lease contracts included in existing or expiring leases at the point of adoption, relief from determination of lease contracts included in existing or expiring leases at the point of adoption, relief from having to reevaluate the classification of leases in effect at the point of adoption, and relief from reevaluation of existing leases that have initial direct costs associated with the execution of the lease contract. Bridge House also elected to adopt the practical expedient to use hindsight to determine the lease term and assess the impairment of the right of use assets.

Additional information about Bridge House's leases is as follows for the year ended December 31, 2022:

Operating lease cost	<u>\$ 148,118</u>
Cash paid for amounts in lease liabilities	\$ 147,000

To the Board of Directors of
Bridge House Corporation

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bridge House Corporation (a non-profit corporation), which comprise the statement of financial position as of December 31, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 5, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Bridge House Corporation's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bridge House Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bridge House Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

To the Board of Directors
Bridge House Corporation

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bridge House Corporation’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bridge House Corporation’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Bridge House Corporation’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
