INDEPENDENT AUDITOR'S REPORT

Chairman and Board of Commissioners Hospital Service District No. 1 of the Parish of Assumption, State of Louisiana Assumption General Hospital Napoleonville, Louisiana

We have audited the accompanying component unit financial statements of Hospital Service District No. 1 of the Parish of Assumption, State of Louisiana, (Hospital) a component unit of the Assumption Parish Police Jury, State of Louisiana, as of June 30, 1996, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the component unit financial statements referred to above present fairly, in all material respects, the financial position of the Hospital as of June 30, 1996, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

The accompanying supplemental schedules and related information presented on pages 15 to 17 are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The financial information for the preceding year which is included for comparative purposes was taken from the financial report for the year in which we expressed an unqualified opinion on the component unit financial statements of Hospital Service District No. 1 of the Parish of Assumption, State of Louisiana.

Ł

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Basis:

Assets, liabilities, revenues and expenses are recognized on the accrual basis of accounting. The Hospital applies all GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBS) of the committee on accounting procedure. In addition the Hospital applies all FASB Statements and Interpretations issued after November 30, 1989 that are developed for business enterprises, except for those that conflict with or contradict GASB pronouncements.

Bad Debts:

The allowance for doubtful accounts is based on an evaluation of the aged analysis of patients' accounts.

Inventories:

Inventories are valued at lower of cost (first-in, first-out) or market.

Property, Plant and Equipment:

Property, plant and equipment is stated at cost and depreciation is calculated on a straight-line basis over the estimated useful lives of the assets.

Equipment under capital lease is stated at the lower of the present value of minimum lease payments at the beginning of the lease term or the fair value at the inception of the lease. Equipment held under capital lease is amortized on the straight-line method over the estimated useful life of the asset.

Net Patient Service Revenue:

Net Patient Service Revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Medicare and Medicaid Programs:

Medicare inpatient services including capital costs are covered under the Medicare Prospective Payment System (PPS) and are reimbursed on the Diagnosis Related Group (DRG) assigned to the patient and the prospective capital rate per discharge. The amount paid for these services is prospectively determined and, accordingly, a retroactive settlement is not made for inpatient services under PPS. Likewise, Medicaid inpatient medical and surgical services and distinct-part psychiatric services are prospectively reimbursed with payments based on a fixed rate per patient day.

Medicare and Medicaid outpatient services, and the inpatient Medicare distinct-part psychiatric services are reimbursed substantially on a retroactive basis, with certain exceptions and limitations. Amounts receivable under these programs are subject to examination and retroactive adjustment by the program intermediary. Provision for estimated retroactive adjustments for Medicare and Medicaid are provided in the period the related services are rendered. At June 30, 1996, final

t

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

ACCUMULATED

Medicare and Medicaid Programs: (Continued)

settlement has been made by the Medicaid intermediary for all years ended through June 30, 1992, and through June 30, 1994 by the Medicare intermediary.

<u>Cash and Cash Equivalents</u>

Deposits: At year end, the carrying amount of the Hospital's deposits (checking accounts) was \$ 23,919, and the bank balance was \$104,428 of which the entire amount is guaranteed by federal depository insurance or collateral pledged to the entity, but not in the entity's name, and is held in the trust department of the pledging bank's correspondent bank. For purpose of the statement of cash flows, the Hospital considers all cash balances in checking accounts and investments with an original maturity to the Hospital of less than three months to be cash equivalents.

Investments: At year end, the Hospital carried investments at cost in the amount of \$ 230,413.

Income Taxes: The hospital is exempt from federal and state income taxes because it is a component unit of the Assumption Parish Police Jury, a Governmental unit that pays no income taxes.

NOTE 2: FIXED ASSETS

| | | | | |
| | Advanced Deposit (6/30/88 Lab) Prisoner Feeding | \$ | - | \$ 1,116 6,763 |
| | Other | <u> </u> | 122 | 4,957 |
| | Total Other Receivables | <u>\$</u> | 1,237 | <u>\$ 12,836</u> |

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 6: OPERATING LEASES

The Hospital has several noncancelable operating leases, primarily for equipment that expire in the next four years. Certain of the leases provide for either purchase or renewal options.

Future minimum lease payments under noncancelable operating leases as of June 30, 1996, are as follows:

Year ending June 30:

| 1997 | 15,656 |
|-------|--|
| 1998 | 3,906 |
| 1999 | - |
| 2000 | - |
| 2001 | ······································ |
| Total | \$ 19,562 |

Total rental expense for 1996 and 1995 for all operating leases was \$ 29,840 and \$48,220 respectively.

NOTE 7: POLICE JURY CONTRIBUTIONS

An arrangement has been made with the Assumption Parish Police Jury whereby the Jury is presently contributing as required for operations of the Hospital. The Police Jury contributed \$ 15,000 and \$ 25,000 during years ended June 30, 1996 and 1995, respectively.

NOTE 8: MAJOR REVENUE SOURCES

The Hospital participates in the Medicare and Medicaid programs as a provider of medical services to program beneficiaries. The Hospital derived approximately 77% and 70% of its gross patient service revenue in 1996 and 1995, respectively, from patients covered by the Medicare and Medicaid programs. Following is an analysis of "Gross" Patient Revenues, as originally charged, by program:

| | | 1990 | 1995 | | | |
|---|--------------------|---------------------|--------|----------------------|--------|--|
| ł | | REVENUE | 8 | REVENUE | % | |
| | Medicare patients | \$ 4,022,374 | 68.57 | \$ 4,314,846 | 40.88 | |
| | Medicaid patients | 503,338 | 8.58 | 3,078,488 | 29.17 | |
| t | All other patients | 1,340,353 | 22.85 | 3,160,873 | 29.95 | |
| | Total | <u>\$ 5,866,065</u> | 100.00 | <u>\$ 10,554,207</u> | 100.00 | |

Included in net patient service revenues for 1996 and 1995 is additional reimbursement from Medicaid Disproportionate Share Adjustments of \$ -0- and \$2,171,511, respectively.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 9: NET PATIENT SERVICE REVENUE

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows.

<u>Medicare</u> Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology. The Hospital is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital's classification of patients under the Medicare program and the appropriateness of their admission are subject to an independent review by a peer review organization under contract with the Hospital.

<u>Medicaid</u> Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology, with certain limitations and exceptions. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports filed by the Hospital and audits thereof by the Medicaid fiscal intermediary. Medicaid inpatient medical and surgical services as well as inpatient psychiatric services are reimbursed on a prospective per diem rate.

NOTE 10: BOARD OF COMMISSIONERS' COMPENSATION

The Board of Commissioners do not receive compensation from the Hospital for this service.

NOTE 11: HILL-BURTON

Under the Hill-Burton Act, the Hospital is required to provide a reasonable volume of services to persons unable to pay, which is computed to be the lesser of (1) 3% of its operating costs (reduced by Medicare and Medicaid Costs) or (2) 10% of Federal assistance provided to the Hospital. This requirement has not been met since 1980.

NOTE 12: CASH FLOWS SUPPLEMENTAL INFORMATION

The Hospital incurred \$17,788 in interest expense.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 13: PENSION PLAN

All full time employees of Assumption General Hospital who work at least 28 hours a week are members of Parochial Employees' Retirement System of Louisiana ("System"), a cost sharing multiple-employer public employee retirement system (PERS), controlled and administrated by a separate board of trustees. The total payroll for employees of Assumption General Hospital covered by the System for the year ended June 30, 1996, was \$ 1,897,946; Assumption General Hospital's total payroll was \$ 2,291,731.

Membership is mandatory for all employees of taxing districts of a parish or any branch or section of a parish including a hospital district that is a member of the System providing they meet the statutory criteria. Any member is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, or 10 years of creditable service and is at least age 60. Benefit rates are one percent of final compensation (average monthly earnings during the highest 36 consecutive months or joined months if service was interrupted) plus \$ 2.00 per month for each year of service credited prior to January 1, 1980, and three percent of final compensation for each year of service after January 1, 1980. On January 1, 1994, the employer contribution was changed to 8.25 percent of covered compensation. A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and suffers disability which has been certified by the State Medical Disability Board. The rate is three percent of the members final compensation multiplied by his years of creditable service under certain conditions outlined in the statutes. Upon death of a member with five or more years of creditable service, the System provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from 30 to 60 percent of the member's final compensation.

As of December 31, 1993, the employee contributions are established by statute at 9.50 percent of covered compensation, and employer contributions are established by statute at 8.75 percent of covered compensation. On January 1, 1994, the employer contribution was changed to 8.25 percent of covered compensation. In addition, each sheriff and ex-officio tax collector deducts one-fourth of one percent of the aggregate amount of the tax shown to be collected by the tax roll of each respective parish excepting Orleans Parish and East Baton Rouge Parish and remits the money to the System on an annual basis. The contribution requirement for the year ended June 30, 1996, was \$ 326,551 which consisted of \$ 146,246 from the hospital and \$ 180,305 from the employees; these contributions represented 7.71 percent and 9.50 percent of covered payroll respectively. The actuarially required contributions for the System was determined by adding to the normal cost an amortization payment on the unfunded accrued liability which was based on a 40 year annuity with payments increasing at 4 percent per year. The resulting employers net actuarially required contribution for 1996, is \$ 21,531,460 or 7.32 percent of payroll. This plan currently receives employer contributions of 8.00 percent through December 31, 1995, and 7.25 percent from January 1, 1996, of payroll.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 13: PENSION PLAN (Continued)

In addition, it is anticipated that ad valorem taxes payable to the plan will amount to .90 percent of payroll. Thus, the estimated net employer contribution for fiscal 1996 is 8.25 percent of payroll or .93 percent of payroll more than the amount required to fund the System according to the methods and assumptions stipulated in the systems actuarial valuation issued on May 5, 1996, for the year ended December 31, 1995.

The amount of the total pension benefit obligation is based on a standardized measurement established by GASB-5 that, with some exceptions, must be used by a The standardized measurement is the actuarial value of credited projected PERS. benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effects of projected salary increases and any step-rate benefits. A standard measure of the pension benefit obligation was adopted by GASB to enable readers of the PERS financial statements to (a) assess the Parochial Employee's Retirement System of Louisiana funding status on a goingconcern basis, (b) assess progress made in accumulating sufficient assets to pay benefits when due and (c) make comparisons among PERS. The pension benefit obligation at December 31, 1995, for the system as a whole determined through an actuarial valuation performed as of that date was \$691,858,596 The systems net assets available for benefits on that date (valued at amortized cost) were \$597,625,304 leaving an unfunded pension benefit of \$ 94,233,292. The Hospital's contributions for fiscal year ended June 30, 1996, represented 1 percent of total employer contributions required of all participating entities.

Historical trend information showing the System's progress in accumulating sufficient assets to pay benefits when due is presented in the System's December 31, 1995, annual financial report.

NOTE 14: EMPLOYEE HOSPITALIZATION PLAN

The hospital is currently enrolled in a self-insurance plan to provide health insurance to its employees. The hospital makes monthly contributions to a trust fund to cover expected expenses to be incurred by its employees. These monthly contributions are computed by an outside administrator who assists in processing claims. Included within the monthly contributions is an amount for excess risk insurance. This excess risk insurance has a \$10,000 deductible per employee per year, which in effect limits the hospital exposure to \$10,000 per employee per year. As of June 30, 1996, the Employee Benefit Fund assets were insufficient to cover estimated liabilities. The Employee Benefit Fund carried a balance of \$1,021 while liabilities were estimated to be \$134,151.

NOTE 15: DEFERRED COMPENSATION PLAN

Assumption General Hospital offers its employees a deferred compensation plan created in accordance with Internal Revenue Code §457. The plan, available to all permanent hospital employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 1996

NOTE 15: DEFERRED COMPENSATION PLAN (Continued)

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the hospital (without being restricted to the provisions of benefits under the plan), subject only to the claims of the hospital's general creditors. Participants' rights under the plan are equal to those of general creditors of the hospital in an amount equal to the fair market value of the deferred amount for each participant.

Assets of the plan are recorded at market value but are administered by a private corporation under contract with hospital. The hospital believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

The following is a summary of activity in the fund for the year:

| Asset balance at July 1, 1995 | \$ 71,147 |
|--------------------------------|-------------------|
| Deferrals of compensation | 42,372 |
| Earnings | 19,346 |
| Less Withdrawals | <u>(1,616</u>) |
| Asset balance at June 30, 1996 | \$ <u>131,249</u> |

NOTE 16: GOING CONCERN

There are conditions or events that, when considered in the aggregate, indicate there could be substantial doubt about the Hospital's ability to continue as a going concern for a reasonable period of time. These conditions include, but are not limited to the following: (1) losses from operations \$1,652,831, (2) low patient utilization of the hospital. In addition, due to the current State budget crisis, Disproportionate Share Funding will be reduced significantly and can no longer be relied upon as a reliable revenue source.

Management's plans for dealing with these adverse events identified in the previous paragraph include, but are not limited to reduction of work staff, closure of unprofitable departments, and negotiations with area hospitals in an attempt to alleviate this problem. The voters of Assumption Parish approved a sale of the hospital to Our Lady of Lake Hospital, Inc. on November 5, 1996. The sale was finalized on December 23, 1996.

NOTE 17: SUBSEQUENT EVENT

The voters of Assumption Parish approved a sale of the hospital to Our Lady of the Lake Hospital, Inc. on November 5, 1996. The sale was finalized on December 23, 1996.

.

The management of the Hospital is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related cost of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation or policies and procedures may deteriorate.

Solely to assist us in planning and performing our audit, we made a study and evaluation of the internal control structure of the Hospital. That study and evaluation was limited to a preliminary review of the structure to obtain an understanding of the control environment and the flow of transactions through the accounting system. Because we concluded that it would be inefficient to evaluate the effectiveness of internal control structure policies and procedures, and that the audit could be conducted more efficiently by expanding our substantive audit tests, our study and evaluation did not extend beyond this preliminary review phase.

REPORT ON INTERNAL CONTROL STRUCTURE AND COMPLIANCE

Chairman and Board of Commissioners Hospital Service District No.1 of the Parish of Assumption, State of Louisiana Napoleonville, Louisiana

INTERNAL CONTROL STRUCTURE

We have audited the component unit financial statements of the Hospital Service District No.1 of the Parish of Assumption, State of Louisiana, (Hospital) a component unit of the Assumption Parish Police Jury, State of Louisiana, as of June 30, 1996, and have issued our report thereon dated November 28, 1996.

We conducted our audit in accordance with generally accepted auditing standards and Governmental Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain a reasonable assurance about whether the component unit financial statements are free of material misstatements.

In planning and performing our audit of the financial statements of the Hospital for the year ended June 30, 1996, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weaknesses is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

COMPLIANCE WITH LAWS AND REGULATIONS

Compliance with laws, regulations, contracts, and grants applicable to the Hospital, is the responsibility of the Hospital's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatements, we performed tests of the Hospital's compliance with laws, regulations, contracts, and grants. However, our objective was not to provide an opinion on the overall compliance with such provisions. Accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Our report is intended for the internal use of hospital management personnel. However, this report is a matter of public record and its distribution is not limited.

We acknowledge with appreciation the courtesies extended our representatives during the audit.

Sincerely, (kau) LANGLINAIS BROUSSARD
