## Independent Auditors' Report

To the Members of the Board of Commissioners Bossier Parish Communications District Number One Benton, Louisiana

#### Report on the Audit of the Financial Statements

## **Opinions**

We have audited the accompanying financial statements of the governmental activities and major fund of the Bossier Parish Communications District Number One (the "District"), a component unit of the Bossier Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Bossier Parish Communications District Number One's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Bossier Parish Communications District Number One, as of December 31, 2022, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Bossier Parish Communications District Number One and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Bossier Parish Communications

District Number One's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
  Bossier Parish Communications District Number One's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bossier Parish Communications District Number One's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 9, budgetary comparison information on pages 38 – 39, the Schedule of Changes in Total OPEB Liability and Related Ratios on page 40, the Schedule of Proportionate Share of Net Pension Liability (Asset) on page 41, and the Schedule of Contributions on page 42 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bossier Parish Communication District Number One's basic financial statements. The other supplementary information listed in the table of contents and shown on page 43, which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bossier Parish Communications District Number One's basic financial statements. The other supplementary information Schedule of Compensation, Benefits, and Other Payments to Agency Head shown on page 44 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Compensation, Benefits, and Other Payments to Agency Head is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Benefits, and Other Payments to Agency Head is fairly stated, in all material respects in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2023, on our consideration of the Bossier Parish Communications District Number One's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bossier Parish Communications District Number One's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Bossier Parish Communications District Number One's internal control over financial reporting and compliance.

## BOSSIER PARISH COMMUNICATIONS DISTRICT NUMBER ONE

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Bossier Parish Communications District Number One's financial performance provides an overview of the Bossier Parish Communications District Number One's financial activities for the fiscal year ended December 31, 2022. Please read it in conjunction with the District's financial statements, which begin on page 10.

## FINANCIAL HIGHLIGHTS

The Bossier Parish Communications District Number One's net position increased by \$498,442 or 2%.

The Bossier Parish Communications District Number One's total revenues were \$2,299,641 in 2022 compared to \$2,103,585 in 2021.

During the year ended December 31, 2022, the Bossier Parish Communications District Number One had total expenses, excluding depreciation of \$1,644,909, compared to \$1,928,999 for 2021.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 10 and 11) provide information about the activities of the Bossier Parish Communications District Number One as a whole and present a longer-term view of the District's finances. Fund financial statements start on page 12. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Bossier Parish Communications District Number One's operations in more detail than the government—wide statements by providing information about the Bossier Parish Communications District Number One's most significant funds.

The Bossier Parish Communications District Number One was determined to be a component unit of the Bossier Parish Policy Jury. The Policy Jury is financially accountable for the district because it appoints or ratifies a voting majority of the board and has the ability to impose its will on them. The accompanying financial statements present information only on the funds maintained by the Bossier Parish Communications District Number One.

## Reporting the Bossier Parish Communications District Number One as a Whole

Our analysis of the Bossier Parish Communications District Number One as a whole begins on page 10. One of the most important questions asked about the Bossier Parish Communications District Number One's finances is "Is the Bossier Parish Communications District Number One as a whole better off or worse off as a result of the year's activities?" The Statement of Net

Position and the Statement of Activities report information about the funds maintained by the Bossier Parish Communications District Number One as a whole and about its activities in a way

that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Bossier Parish Communications District Number One's net position and changes in it. You can think of the Bossier Parish Communications District Number One's net position – the difference between assets and liabilities – as one way to measure the Bossier Parish Communications District Number One's financial health, or financial position. Over time, increases or decreases in the Bossier Parish Communications District Number One's net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, to assess the overall health of the District.

In the Statement of Net Position and the Statement of Activities, we record the funds maintained by the Bossier Parish Communications District Number One as governmental activities:

Governmental activities – all of the expenses paid from the funds maintained by the Bossier Parish Communications District Number One are reported here which consists primarily of personal services, materials and supplies, contractual and other services, and other program services. Telephone tariffs / sur-charges finance most of these activities.

# Reporting the District's Most Significant Funds

Our analysis of the major funds maintained by the Bossier Parish Communications District Number One begins on page 12. The fund financial statements begin on page 12 and provide detailed information about the most significant funds maintained by the Bossier Parish Communications District Number One—not the Bossier Parish Communications District Number One as a whole. The Bossier Parish Communications District Number One's governmental funds use the following accounting approaches:

Governmental funds – All of the Bossier Parish Communications District Number One's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the Bossier Parish Communications District Number One's general government operations and the expenses paid from those funds. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance certain Bossier Parish Communication District Number One expenses. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* in reconciliation at the bottom of the fund financial statements.

# THE BOSSIER PARISH COMMUNICATION DISTRICT NUMBER ONE AS A WHOLE

The Bossier Parish Communication District Number One's total net position changed from a year ago, increasing from \$3,678,617, as restated to \$4,177,059. Our analysis below will focus on key elements of the total governmental funds for the year ended December 31, 2022 and 2021.

Table 1 Net Position

	Governmental Activities			ities
	2022			2021
Current and other assets	\$	5,853,602	\$	4,954,993
Capital assets		608,819		706,691
Total assets		6,462,421		5,661,684
Deferred outflows of resources -				
Pension related		215,493		281,134
Other post employment benefits		654,889		659,871
Total deferred outflows of resources		870,382		941,005
Current liabilities Long-term liabilities:		410		410
Due within one year		43,079		41,703
Due in more than one year		1,775,250		2,034,963
Total liabilities		1,818,739	-	2,077,076
Deferred inflows of resources -				
Pension related		715,042		538,063
Other postemployment benefits		621,963		308,933
Total deferred inflows of resources		1,337,005		846,996
Net position:				
Investment in capital assets		536,234		596,265
Unrestricted		3,640,825		3,082,352
Total net position	\$	4,177,059	\$	3,678,617

Net position of the Bossier Parish Communications District Number One's governmental activities increased by \$498,422 or 2%. Unrestricted net position, the part of net position that can be used to finance Bossier Parish Communications District Number One expenses without constraints or other legal requirements, increased from \$3,082,352 at December 31, 2021 to \$3,640,825 at December 31, 2022.

Table 2 Change in Net Position

	Governmental Activities			ties
	0,75	2022		2021
Revenues				
General Revenues				
Telephone tariffs and				
cellular phone revenues	\$	2,172,639	\$	2,184,871
Intergovernmental revenues		50,000		50,000
Miscellaneous revenues		7,965		1,104
Gain on sale of assets		10,260		**
Interest income		45,425		41,329
Program Revenues				•
Operating grants and contributions		13,352		12,352
Total revenues		2,299,641		2,289,656
Expenses				
Public safety	9-1	1,801,199		2,103,585
Increases (decrease) in net position	\$	498,442	\$	186,071

Total revenues remained relatively consistent with 2021, with total revenues in the year ended December 31, 2021 of \$2,289,656 to total revenues of \$2,299,641 in the year ended December 31, 2022.

## THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on page 12) reported a *combined* fund balance of \$4,992,668, which is higher than last year's fund balance of \$4,581,084.

## General Fund Budgetary Highlights

The District adopted a budget for its General Fund for the year ended December 31, 2022. There were two amendments to the budget during the year. The District's budgetary comparison is presented as required supplementary information and shown on page 38. Highlights for the year are as follows:

- Actual revenues were higher than anticipated for the cellular industry.
- Actual expenses were lower due to less capital outlay and contractual expenditures than anticipated.

The District's General Fund Balance of \$4,992,668 reported on page 13 differs from the General Fund's *budgetary* fund balance of \$4,755,827 reported in the budgetary comparison schedule on page 38. This is primarily due to the District budgeting on the cash basis of accounting.

## CAPITAL ASSETS

At the end of December 31, 2022 and 2021, the Bossier Parish Communications District Number One had invested \$608,819 and \$706,691, respectively in capital assets. (see table 3 below)

Governmental activities -				
long-term liabilities	\$	1,818,329	\$	2,076,666

Additional information about the District's long-term liabilities is presented in Notes 9 and 10 to the financial statements.

# ECOMONIC FACTORS AND NEXT YEAR'S BUDGETS

The Bossier Parish Communications District Number One's management considered many factors when setting a fiscal year December 31, 2023 budget. Amounts available for appropriation in the governmental funds are expected to remain basically the same as 2022.

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers with a general overview of the finances for those funds maintained by the Bossier Parish Communications District Number One and to show the Bossier Parish Communications District Number One's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Administrator of Bossier Parish Communication District #1 at P.O. Box 847, Benton, Louisiana 71006.

The nonallocation method of accounting for prepayments is used in the fund statements, since the prepayment does not provide expendable		
financial resources.	Н	(11,107)
Change in net position of governmental activities	\$	498,442

#### INTRODUCTION

The Bossier Parish Communications District Number One (the "District") was created by the Bossier Parish Police Jury by ordinance on December 10, 1985, as authorized by Louisiana Revised Statute (R.S.) 33:9101. The District is comprised of property within the Parish of Bossier and is governed by a board of commissioners. Three of the Commissioners are appointed by the Bossier Parish Police Jury and the remaining four are appointed by the City of Bossier and ratified by the Bossier Parish Police Jury. The Board of Commissioners received no compensation during 2022. The District constitutes a political subdivision of the State of Louisiana and is a component unit of the Bossier Parish Police Jury. The purpose of the District is to provide a primary three-digit emergency telephone number (911) and related support system for Bossier Parish.

## (1) Summary of Significant Accounting Policies

The Bossier Parish Communications District Number One's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Bossier Parish Communications District Number One are discussed below.

#### A. Reporting Entity

The District is a component unit of the Bossier Parish Police Jury, the financial reporting entity. The police jury is financially accountable for the district because it appoints or ratifies a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

## B. Basic Financial Statements - Government-Wide Statements

The Bossier Parish Communications District Number One's basic financial statements include both government-wide (reporting the funds maintained by the Bossier Parish Communications District Number One as a whole) and fund financial statements (reporting the Bossier Parish Communications District Number One's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Bossier Parish Communications District Number One's general fund is classified as governmental activities. The Bossier Parish Communications District Number One does not have any business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables. The Bossier Parish Communications District Number One's net position is reported in two parts – investment in capital assets and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the Bossier Parish Communications District Number One's functions. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, operating, and capital grants, which must be directly associated with the function. Operating grants include operating—specific and discretionary (either operating or capital) grants, including non-employer contributions to cost-sharing pension plans, while the capital grants column reflects capital—specific grants. The net costs (by function) are covered by general revenues.

This government-wide focus is more on the sustainability of the Bossier Parish Communications District Number One as an entity and the change in the Bossier Parish Communications District Number One's net position resulting from the current year's activities.

## C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Bossier Parish Communications District Number One are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Bossier Parish Communications District Number One:

Governmental Funds – the focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Bossier Parish Communications District Number One:

a. General funds are the general operating funds of the Bossier Parish Communications District Number One. They are used to account for all financial resources except those required to be accounted for in another fund.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District's general fund was determined to be a major fund.

#### D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

#### Accrual:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues of the Bossier Parish Communications District Number One consist principally of telephone tariffs charged to residential and commercial customers on their monthly telephone bills, sur-charges assessed by cellular phone companies on all cellular customers, interest income, and donations. Telephone tariffs and sur-charges on cellular customers are recorded when assessed by the phone companies. Interest income is recorded when earned. Donations are recorded when received in cash, because they are generally not measurable until actually received.

#### Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

## E. Budgets

The District uses the following budget practices:

- A preliminary budget for the ensuing year is prepared by the Board of Commissioners before the end of each year and is made available for public inspection.
- After completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of a resolution.
- 3. All budgetary appropriations lapse at the end of each fiscal year.
- The budget is established and controlled by the Board of Commissioners at the object level of expenditure. All changes in the budget must be approved by the board.

The budget is adopted on a cash basis for all funds. There were two amendments to the 2022 budget.

## F. Cash, Cash Equivalents, and Investments

Cash includes amounts in petty cash, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Investments are limited by Louisiana Revised Statue (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are carried at cost, which approximates market.

## G. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Lease assets are measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings8 – 35 yearsVehicles8 – 10 yearsEquipment3 – 14 yearsImprovements15 years

Lease assets are amortized using the straight-line method over the shorter of the lease term or the useful life of the underlying asset. As of December 31, 2022, the District has one equipment lease which is being amortized over the lease term of 60 months.

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide financial statements.

## I. Compensated Absences

The District has the following policy relating to vacation and sick leave:

Employees of the District earn from 5 to 20 days of vacation leave each year, depending on their lengths of service, and 10 days of sick leave. Vacation and sick leave do not accumulate; therefore, there were no employee leave benefits requiring recognition at December 31, 2022. The cost of leave privileges, computed in accordance with the above policy, is recognized as current—year expenditure when leave is actually taken.

#### J. Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

## K. Telephone Tariffs and Cellular Phone Revenue

The District's primary revenue source is the telephone surcharge collected by area telephone providers based on a wireline tariff rate of 5% and a wireless flat fee. Beginning in 1990 the tariff rate for Bossier Parish equaled the sums of \$.66 and \$1.82 as charged to their residential and commercial customers, respectively, on their monthly telephone bills. During 1997 legislation was granted communication districts the authority to convert from a tariff rate to a flat/fixed rate equal to that allowed by tariff rate. The District passed a resolution during September 1997 enacting the legislative changes. Effective August, 2016 the District adopted an ordinance that would convert collections from a flat rate, as stated in 1997, back to a tariff rate thus allowing for an increase of the sum of collections to be in line with the increase in telco tariff rates reflective as of January 2016, of which raised the tariffs charged to residential and commercial customers to \$1.25 (5%) and \$2.50 (2.2%), respectively.

Beginning in 1995, wireless service providers begin assessing their cellular customers \$.40 per month per user. During 1997, new legislation was passed and went into effect requiring cellular companies to increase the surcharge to \$.85 for all customers. New legislation, Act Number 665 of 2016 has allowed for the availability of increasing the wireless surcharge, not to exceed \$1.25. Effective November 1, 2016, the District passed an ordinance to raise the surcharge to \$1.25. The revenues are dedicated to the operations of the emergency telephone systems. Revenue is recorded as it is earned.

On July 10, 2009, Act 531 became law, which provides for the assessment of a surcharge fee on pre-paid wireless services. The assessment of the surcharge fee is at a point of sale by the retailer and did not commence until January 1, 2010. Under the provision of the law, the surcharge is assessed at 2% of the amount of the prepaid service purchased. The funds are collected by the retailers and then remitted to the Louisiana Department of Revenue, less a 1% administrative fee, which in turn is distributed to each District based on total population and remitted on a quarterly basis. The District did not receive the first reimbursement until October, 2010. The statute allowed for the Department of Revenue (DOR) to retain up to \$800,000 of remitted funds to pay for actual start-up costs to allow retailers to implement the system for collection and remittance of prepaid wireless service charges. On June 21, 2016 Act 590 was enacted thus allowing for an increase in the pre-paid assessment to 4% and to allow retailers to retain 2% administrative fee of prepaid charges collected. In addition retailers are permitted to deduct and retain half of the 2016 4th quarter fees for equipment and programming upgrades to reflect new amount.

## L. Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District currently has deferred outflows of resources related to pensions and other post-employment benefits (OPEB) in the governmental-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of these items that meet this definition and qualify for reporting in this category. Accordingly, the items pension-related and other post-employment benefits (OPEB) is reported in the statement of net position, and unavailable revenue - prepaid cellular fees and GIS fees are reported in the governmental fund balance sheet.

## M. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation adopted by the district or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

## N. Fund Balance

In the governmental fund financial statements, fund balances are classified as follows:

- Nonspendable amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.
- Restricted amounts that can be spent only for specific purposes due to constraints placed on the use of resources that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- 3. Committed amounts that can be used only for the specific purposes as a result of constraints imposed by the board of commissioners (the District's highest level of decision making authority). Committed amounts cannot be used for any other purpose unless the board of commissioners removes those constraints by taking the same type of action (i.e. legislation, resolution, ordinance).
- 4. Assigned amounts that are constrained by the board of commissioners' intent to be used for specific purposes, but are neither restricted nor committed.
- 5. Unassigned all amounts not included in other spendable classifications

The District's policy is to apply expenditures against restricted fund balance and then to other, less-restrictive classifications – committed and then assigned fund balances before using unassigned fund balances.

The calculation of fund balance amounts begins with the determination of nonspendable fund balances. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then any remaining fund balance amounts for the non-general funds are classified as restricted fund balance. It is possible for the non-general funds to have negative unassigned fund balance when non-spendable amounts plus the restricted fund balances for specific purpose amounts exceeds the positive fund balance for the non-general fund.

#### O. Pension Plan

The District is a participating employer in a cost-sharing, multiple-employer, defined benefit pension plan as described in Note 8. For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions for the plans fiduciary net position have been determined on the same basis as they are reported by the plan.

## P. Other Post Employment Benefit Plan

The District's defined benefit other postemployment health care plan, as described in Note 10, provides OPEB to eligible retired employees. The plan provides OPEB for permanent full-time employees of the District. The District's OPEB plan is a single employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. The authority to establish and/or amend the obligation of the employer, employees, and retirees rests with the District.

## Q. Fair Value Measurements

Generally accepted accounting principles require disclosure to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels:

<u>Level 1 inputs</u> – The valuation is based on quoted market prices for identical assets or liabilities traded in active markets:

<u>Level 2 inputs</u> – The valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability;

<u>Level 3 inputs</u> – The valuation is determined by using the best information available under the circumstances and might include the government's own data but should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on lowest level of any input that is significant to the fair value measurement.

## (2) New Accounting Principles

In June, 2017, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases*, which increased the usefulness of government's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The Statement establishes a single model for lease accounting based on the fundamental principle that leases are financings of the right to use an underlying asset. The provisions of GASB Statement No. 87 are effective for fiscal years beginning after June 15, 2021. The District implemented this Statement in the current year.

## (3) Cash, Cash Equivalents and Investments

At December 31, 2022, the District had cash, cash equivalents and investments (book balances), totaling \$4,743,798 as detailed below.

#### A. Cash and Cash Equivalents

Cash and cash equivalents at December 31, 2022 (book balances) totaled \$1,798,798 in interest bearing demand deposits and money market accounts. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

#### B. Investments

The investments are presented in the financial statements at fair value using level 1 for U.S. Treasury Notes, and level 2 for certificate of deposits. At December 31, 2022, the District's had investments totaling \$2,945,000 as follows:

U.S. Treasury Bills	\$ 400,000
Certificates of deposit	 2,545,000
	\$ 2.945.000

The District had investments totaling \$400,000 consisting of U.S. Treasury Bills. The market value of this particular type of investment is not materially different from its carrying amount.

The certificates of deposits have initial maturities greater than 90 days and are carried at cost, which approximates market.

#### C. Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. At year end, bank balances of \$4,450,219 were protected by \$2,795,000 of federal depository insurance. The remaining bank balance of \$1,655,219 was exposed to custodial credit risk as uninsured and collateralized by the pledging bank's trust department, not in the District's name.

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, as amended by GASB Statement 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the clerk that the fiscal agent has failed to pay deposited funds upon demand.

## (4) Prior Period Restatement

As a result of implementing GASB 87, the net position of the District was restated as of December 31, 2021, to record leased assets and liabilities, as noted below:

CALL	Governmental Activities	
Net Position, December 31,2021, as previously reported	\$ 3,682,479	
Recording of leases	_( 3,862)	
Total Net Position, December 31, 2021, restated	<u>\$ 3,678,617</u>	

#### (5) Receivables

The following is a summary of receivables at December 31, 2022:

Telephone tariffs & cellular fees	\$ 327,912
Accrued Interest	 10,872
Total	\$ 338.784

#### (6) Commitment

The District entered into a contract in October 2022, in the amount of \$757,337 for infrastructure and console upgrades. No costs have been incurred with this contract as of December 31, 2022.

## (7) Capital Assets

Capital asset activity for the year ended December 31, 2022, was as follows:

Governmental Activities:	Balance at Jan. 1, 2022	Additions	Deletions	Balance at
Capital assets, not being depreciated:				
Land Total capital assets,	\$ 32,480	\$	_\$	\$ 32,480

Governmental activities capital assets, net	\$ 706,691	\$ (97,872)	_\$	\$ 608,819

Depreciation/amortization expense for the year ended December 31, 2022, was \$156,290.

#### (8) Pension Plan

The District participates in the Parochial Employees' Retirement System of Louisiana (System), a cost- sharing multiple-employer defined benefit pension plan established by Act 205 of the 1952 regular session of the Legislature of the State of Louisiana to provide retirement benefits to all employees of any parish in the State of Louisiana or any governing body or a parish which employs and pays persons serving the parish.

Act 765 of the year 1979, established by the Legislature of the State of Louisiana, revised the System to create Plan A and Plan B to replace the "regular plan" and the "supplemental plan". Plan A was designated for employers out of Social Security. Plan B was designated for those employers that remained in Social Security on the revision date.

The System is governed by Louisiana Revised Statutes, Title 11, Sections 1901 through 2025, specifically, and other general laws of the State of Louisiana.

All employees of the District are members of Plan A.

#### Plan Description

Parochial Employees' Retirement System of Louisiana is the administrator of a costsharing multiple employer defined benefit pension plan. The System was established and provided for by R.S.11:1901 of the Louisiana Revised Statute (LRS).

The System provides retirement benefits to employees of taxing districts of a parish or any branch or section of a parish within the state which does not have its own retirement system and which elects to become members of the System.

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to these appropriate statutes for more complete information.

#### Eligibility Requirements:

All permanent parish government employees (except those employed by Orleans, Lafourche, and East Baton Rouge Parishes) who work at least 28 hours a week shall become members on the date of employment. New employees meeting the age and Social Security criteria have up to 90 days from the date of hire to elect to participate. As of January 1997, elected officials, except coroners, justices of the peace, and parish presidents may no longer join the System.

#### Retirement Benefits:

Any member of Plan A can retire providing he/she meets one of the following criteria:

For employees hired prior to January 1, 2007:

- 1. Any age with thirty (30) or more years of creditable service.
- 2. Age 55 with twenty-five (25) years of creditable service.
- 3. Age 60 with a minimum of ten (10) years of creditable service.
- 4. Age 65 with a minimum of seven (7) years of creditable service.

For employees hired after January 1, 2007:

- 1. Age 55 with 30 years of service.
- 2. Age 62 with 10 years of service.
- 3. Age 67 with 7 years of service.

Generally, the monthly amount of the retirement allowance of any member of Plan A shall consist of an amount equal to 3% of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts.

#### Survivor Benefits:

Upon the death of any member of Plan A with five (5) or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes.

Any member of Plan A, who is eligible for normal retirement at time of death, the surviving spouse shall receive an automatic Option 2 benefit, as outlined in the statutes.

A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve (12) months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

#### Deferred Retirement Option Plan:

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the System. DROP is an option for that member who is eligible for normal retirement.

In lieu of terminating employment and accepting a service retirement, any member of Plan A or B who is eligible to retire may elect to participate in the Deferred Retirement Option Plan (DROP) in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund or roll over the fund to an Individual Retirement Account.

Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in the Deferred Retirement Option Plan (DROP) on or after January 1, 2004, all amounts that remain credited to the individual's subaccount after termination in DROP will be placed in liquid asset money market investments at the discretion of the Board of Trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of DROP must agree that the benefits payable to the participant are not the obligations of the state or the System, and that any returns and other rights of DROP are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

## Disability Benefits:

For Plan A, a member shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and has at least five years of creditable service or if hired after January 1, 2007, has seven years of creditable service, and is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to 3% of the member's final average compensation multiplied by his years of service, not to be less than 15, or 3% multiplied by years of service assuming continued service to age 60 for those members who are enrolled prior to January 1, 2007 and to age 62 for those members who are enrolled January 1, 2007 and later.

#### Cost of Living Increases:

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements.

In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2% of the member's benefit paid on October 1, 1977, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older. (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

#### **Employer Contributions**

According to state statute, contributions for all employers are actuarially determined each year. For the year ended December 31, 2021, the actuarially determined contribution rate was 10.38% of member's compensation for Plan A. However, the actual rate for the fiscal year ending December 31, 2021 was 12.25% for Plan A. The actual rate for the fiscal year ending December 31, 2022 was 11.50%. The District's contributions to the System for the years ended December 31, 2022, 2021, and 2020 were \$120,310, \$132,659, and \$120,212, respectively.

According to state statute, the System also receives ¼ of 1% of ad valorem taxes collected within the respective parishes, except for Orleans and East Baton Rouge parishes. The System also receives revenue sharing funds each year as appropriated by the legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to the member's compensation. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities. Non-employer contributions received by the System and attributable to the District during the years ended December 31, 2022 and 2021 were \$13,352 and \$12,352, respectively.

# <u>Pension Liabilities (Asset), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At December 31, 2022, the District reported a liability (asset) of (\$760,297) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2021 and the total pension liability (asset) used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The historical employer contributions are used to determine the proportionate relationship of each employer to all employers of Parochial Employees' Retirement System of Louisiana. The employer's proportion was determined on a basis that is consistent with the manner in which contributions to the pension plan are determined. The resulting allocation percentages were used in calculating each employer's proportionate share of the pension amounts.

The allocation method used in determining each employer's proportion was based on each employer's contribution to the plan during the fiscal year ended December 31, 2021 as compared to the total of all employers' contributions received by the plan during the fiscal year ended December 31, 2021.

At December 31, 2021, the District's proportion was .161407%, which was an increase of .014481% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022, the District recognized pension expense (asset) of (\$126,258), plus employer's amortization of change in proportionate share and the difference between employer contributions and proportionate share of contributions, \$136.

At December 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Differences between conserted and activate		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	•	45.000			
	\$	45,936	\$	55,104	
Changes of assumptions		39,651			
Net difference between projected and actual					
earnings on pension plan investments				657,644	
Changes in proportion and differences between	ì				
employer contributions and proportionate share					
contributions		9,596		2,294	
Employer contributions subsequent to the measure	surement	3,000		2,20 1	
Date		120,310			
Total	\$	215,493	\$	715,042	

The District reported a total of \$120,310 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of December 31, 2021, which will be recognized as a reduction in net pension liability in the year ended December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses as follows:

<u>Year</u>	Amount		
2022	\$	(122,713)	
2023		(256,048)	
2024		(170,609)	
2025		(70,489)	
Total	\$	(619,859)	

## **Actuarial Methods and Assumptions**

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

A summary of the actuarial methods and assumptions used in determining the total pension liability as of December 31, 2021, are as follows:

Valuation Date	December 31, 2021
Actuarial Cost Method	Plan A – Entry Age Normal
Investment Rate of Return	6.40% net of investment expense, including inflation

Expected Remaining

Service lives 4 years

Projected Salary Increases Plan A – 4.75%

based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increase not yet

authorized by the Board of Trustees.

Mortality Pub-2010 Public Retirement Plans Mortality Table

for Heathy Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using

MP2018 scale for disabled annuitants.

Inflation Rate 2.30%

The discount rate used to measure the total pension asset was 6.40% for Plan A. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset.

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the capital asset pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighing the expected future real rates of return

by the target asset allocation percentage and by adding expected inflation of 2.10% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

		Long-Term
		Expected
		Portfolio
	Target Asset	Real Rate of
Asset Class	_Allocation_	Return
Fixed income	33%	0.85%
Equity	51%	3.23%
Alternatives	14%	0.71%
Real assets	2%	0.11%
Totals	100%	4.90%
Inflation		2.10%
Expected Arithmetic Nominal Return		7.00%

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projections using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

#### Sensitivity to Change in Discount Rate

The following presents the net pension liability (asset) of the participating employers as of December 31, 2021 calculated using the discount rate of 6.40%, as well as what the employers' net pension liability/asset would be if it were calculated using a discount rate that is one percentage point lower 5.40% or one percentage point higher 7.40% than the current rate.

	52901	PLAN A	
	Changes in Discount Rate		
		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	5.40%	6.40%	7.40%
Net Pension Liability (Asset)	\$135,546	\$(760,297)	\$(1,510,730)

#### Change in Net Pension Liability/(Asset)

The changes in the net pension liability for the year ended December 31, 2021 were recognized in the current reporting period as pension expense except as follows:

#### <u>Differences between Expected and Actual Experience:</u>

Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability/(asset) were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

## Differences between Projected and Actual Investment Earnings:

Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period.

#### Change in Assumptions:

The changes of assumptions about future economic or demographic factors were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

#### Change in Proportion:

Changes in the employer's proportionate shares of the collective net pension liability/(asset) and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense/(benefit) using a the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

#### Contributions – Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense/(benefit) using the straight line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan.

#### Retirement System Audit Report

Parochial Employees' Retirement System of Louisiana issued a stand-alone audit report on its financial statements for the year ended December 31, 2021. Access to the audit report can be found on the System's website: www.persla.org or on the Office of Louisiana Legislative Auditor's official website: www.lla.state.la.us.

## Plan Fiduciary Net Position

Plan fiduciary net position is a significant component of the System's collective net pension liability. The System's plan fiduciary net position was determined using the accrual basis of accounting. The System's assets, liabilities, revenues and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily related to unsettled transactions and events as of the date of the financial statements and estimates over the determination of the fair market value of the System's investments. Accordingly, actual results may differ from estimated amounts. The Plan's fiduciary net position has been determined on the same basis as that used by the plan. Detailed information about the fiduciary net position is available in a stand-alone audit report on their financial statements for the year ended December 31, 2021. Access to these reports can be found on the Louisiana Legislative Auditor's website, <a href="https://www.lla.la.gov">www.lla.la.gov</a>.

#### (9) Long-term Liabilities

Long-term liability activity for the year ended December 31, 2022, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Other post-employement benefit obligations	\$ 1,962,378	\$	\$ (216,634)	\$ 1,745,744	\$
Leased equipment	114,288		(41,703)	72,585	43,079
Governmental Activities long-term liabilities	\$ 2,076,666	\$	\$ (258,337)	\$ 1,818,329	\$ 43,079

#### Leased Equipment

The District has one lease agreement for equipment. The equipment is included in governmental activities leased assets at a cost of \$207,049, with accumulated amortization totaling \$138,033 as of December 31, 2022. Interest has been imputed at a rate of 3.25%, and the District will make monthly payments through August 2024. The future lease payments under lease agreements are as follows:

Fiscal Year	_ Principal_		Interest	
2023	\$	43,079	\$	1,721
2024		29,506	(8)	361
	\$	72,585	\$	2.082

See Note 10 for additional information on other post-employment benefit obligations.

#### Bossier Parish Communications District Number One Benton, Louisiana Notes to Financial Statements December 31, 2022 (Continued)

#### (10) Postemployment Health Care and Life Insurance Benefits

#### General Information about the OPEB Plan

Plan description – The Bossier Parish Communications District Number One (District) provides certain continuing health care and life insurance benefits for its retired employees. The Bossier Parish Communications District Number One's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the District. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the District. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit.

Benefits Provided — Benefits are provided through comprehensive plans and are made available to employees upon actual retirement. Employees are covered by Plan A of the Parochial Employees' Retirement System of Louisiana, whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service. For employees hired on and after January 1, 2007, retirement eligibility (D.R.O.P. entry) provisions are as follows: age 55 and 30 years of service; age 62 and 10 years of service; or age 67 and 7 years of service. To obtain retiree medical coverage, a retiree must have been in the medical plan for at least 15 years. For the few employees not covered by the Parochial system, the same retirement eligibility has been assumed.

Life insurance coverage is available to retirees and 100% of the rate is paid by the employer. The insurance coverage while active is continued after retirement, but insurance coverage amounts are reduced by 75% of the original amount at age 65 and 50% of the original amount at age 70.

Employees covered by benefit terms - At December 31, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	4
Inactive employees entitled to but not yet receiving	
benefit payments	=
Active employees	18
	22_

#### **Total OPEB Liability**

The District's total OPEB liability of \$1,745,744 was measured at December 31, 2022 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

(Continued)

## Bossier Parish Communications District Number One Benton, Louisiana Notes to Financial Statements December 31, 2022 (Continued)

Inflation 3.0%

Salary increases 3.0%, including inflation

Discount rate 2.06% annually (Beginning of Year to Determine ADC)

3.72%, annually (As of End of Year Measurement Date)

Healthcare cost trend rates Medical: 5.5% annually for 5 years, decreasing to 4.14%

after 52 years; Administrative: 3%; Dental 4%

Mortality Pub-2010/2021

The discount rate was based on the Bond Buyers' 20 Year General Obligation municipal bond index as of December 31, 2022, the end of the applicable measurement period.

The actuarial assumptions used in the December 31, 2022 valuation were based on the results of ongoing evaluations of the assumptions from January 1, 2009 to December 31, 2022.

#### Changes in the Total OPEB Liability

Balance at December 31, 2021	\$	1,962,378
Changes for the year: Service cost Interest Differences between expected and actual experience Changes in assumptions Benefit payments and net transfers	-	81,759 41,267 75,497 (398,818) (16,339)
Net changes		(216,634)
Balance at December 31, 2022	\$	1,745,744

Changes of assumptions and other inputs reflect a change in the discount rate from 2.06% in 2021 to 3.72% in 2022.

Sensitivity of the total OPEB liability to changes in the discount rate – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.72%) or 1-percentage-point higher (4.72%) than the current discount rate:

1.	0% Decrease	Current Discount	1.0% Increase		
	(2.72%)	Rate (3.72%)	(4.72%)		
Total OPEB liability	\$ 2,053,636	\$ 1,745,744	\$ 1,502,511		

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are (Continued)

## Bossier Parish Communications District Number One Benton, Louisiana Notes to Financial Statements December 31, 2022 (Continued)

1-percentage-point lower (4.5%) or 1-percentage-point higher (6.5%) than the current healthcare trend rates:

1.0% Decrease	Current Healthcare	1.0% Increase		
(4.5%)	Trent Rate (5.5%)	(6.5%)		
Total OPEB liability \$ 1,493,228	\$ 1,745,744	\$ 2,069,368		

# OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2022, the District recognized OPEB expense of \$117,716. At December 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	rred Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Changes in assumptions	\$ 101,574 553,315	\$	(171,901) (450,062)	
Total	\$ 654,889	\$	(621,963)	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending December 31:	
2023	\$ (5,310)
2024	(5,310)
2025	(5,310)
2026	(5,310)
2027	(5,310)
Thereafter	59,476

#### (11) Risk Management

The District purchases commercial insurance to provide workers compensation coverage and general liability and property insurance. There were no significant reductions in insurance coverage from the prior year.

#### (12) Subsequent Events

Subsequent events have been evaluated through June 27, 2023, the date the financial statements were available to be issued.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed In Accordance With Government Auditing Standards

Independent Auditors' Report

To the Members of the Board of Commissioners Bossier Parish Communications District Number One

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, major fund of the Bossier Parish Communications District Number One as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Bossier Parish Communications District Number One's basic financial statements, and have issued our report thereon dated June 27, 2023.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Bossier Parish Communications District Number One's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bossier Parish Communications District Number One's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bossier Parish Communications District Number One's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bossier Parish Communications District Number One's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### Independent Accountants' Report on Applying Agreed-Upon Procedures

To the Board of Commissioners
Bossier Parish Communications District Number One
Benton, Louisiana
and the Louisiana Legislative Auditor

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2022 through December 31, 2022. The Bossier Parish Communications District Number One's management is responsible for those C/C areas identified in the SAUPs.

The Bossier Parish Communications District Number One has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period January 1, 2022 through December 31, 2022. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

#### 1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
  - i. Budgeting, including preparing, adopting, monitoring, and amending the budget.
  - ii. **Purchasing**, including (1) how purchases are initiated, (2) how vendors are added to the vendor list, (3) the preparation and approval process of purchase requisitions and purchase orders, (4) controls to ensure compliance with the Public Bid Law, and (5) documentation required to be maintained for all bids and price quotes.
  - iii. Disbursements, including processing, reviewing, and approving.
  - iv. Receipts/Collections, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff

- procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- v. Payroll/Personnel, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee rates of pay or approval and maintenance of pay rate schedules.
- vi. **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- vii. Travel and Expense Reimbursement, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- viii. Credit Cards (and debit cards, fuel cards, purchase cards, if applicable), including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- ix. Ethics, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
- x. **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- xi. Information Technology Disaster Recovery/Business Continuity, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- xii. **Prevention of Sexual Harassment**, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

#### 2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and
  - Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
  - ii. For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget-to-actual, at a minimum, on all special revenue funds. Alternatively, for those entities reporting on the not-for-profit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.

- For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
- iv. Observe whether the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

#### 3) Bank Reconciliations

- A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
  - Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
  - ii. Bank reconciliations include written evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
  - Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.
     Procedures performed. No exceptions noted.

# 4) Collections (excluding electronic funds transfers)

- A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).
- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (e.g., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if there are no written policies or procedures, then inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that
  - Employees responsible for cash collections do not share cash drawers/registers;
  - Each employee responsible for collecting cash is not also responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;
  - iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit; and
  - iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, is (are) not also responsible for collecting cash, unless another employee/official verifies the reconciliation.

- C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was in force during the fiscal period.
- D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternatively, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
  - i. Observe that receipts are sequentially pre-numbered.
  - Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
  - iii. Trace the deposit slip total to the actual deposit per the bank statement.
  - iv. Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
  - v. Trace the actual deposit per the bank statement to the general ledger.

# 5) Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

- A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
- B. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, then inquire of employees about their job duties), and observe that job duties are properly segregated such that
  - At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order or making the purchase;
  - ii. At least two employees are involved in processing and approving payments to vendors;
  - iii. The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files;
  - iv. Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments; and
  - v. Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.
- C. For each location selected under procedure #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and

- Observe whether the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity, and
- Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under procedure #5B above, as applicable.
- D. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.

Procedures performed. Noted the following exception:

Exception: The employee responsible for processing payments also mails the payments out after management approval.

# 6) Credit Cards/Debit Cards/Fuel Cards/P-Cards

- A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and purchase cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.
- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and
  - i. Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved) by someone other than the authorized card holder (those instances requiring such approval that may constrain the legal authority of certain public officials, such as the mayor of a Lawrason Act municipality, should not be reported); and
  - ii. Observe that finance charges and late fees were not assessed on the selected statements.
- C. Using the monthly statements or combined statements selected under procedure #7B above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to inspection). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

Procedures performed. No exceptions noted.

# 7) Travel and Travel-Related Expense Reimbursements (excluding card transactions)

- A. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements and obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected
  - If reimbursed using a per diem, observe that the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov);
  - If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased;
  - iii. Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by Written Policies and Procedures procedure #1A(vii); and
  - iv. Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Procedures performed. No exceptions noted.

#### 8) Contracts

- A. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. Alternatively, the practitioner may use an equivalent selection source, such as an active vendor list. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and
  - Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law;
  - Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter);
  - iii. If the contract was amended (e.g., change order), observe that the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, the documented approval); and
  - iv. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

Procedures performed. No exceptions noted.

#### 9) Payroll and Personnel

A. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related

- paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.
- B. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under procedure #9A above, obtain attendance records and leave documentation for the pay period, and
  - Observe that all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory);
  - ii. Observe whether supervisors approved the attendance and leave of the selected employees or officials;
  - Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records; and
  - iv. Observe the rate paid to the employees or officials agrees to the authorized salary/pay rate found within the personnel file.
- C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials and obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee's or official's cumulative leave records, agree the pay rates to the employee's or official's authorized pay rates in the employee's or official's personnel files, and agree the termination payment to entity policy.
- D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

#### 10) Ethics

- A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A obtain ethics documentation from management, and
  - Observe whether the documentation demonstrates that each employee/official completed one hour of ethics training during the calendar year as required by R.S. 42:1170; and
  - Observe whether the entity maintains documentation which demonstrates that each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.
- B. Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.

Procedures performed. No exceptions noted.

#### 11) Debt Service

A. Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe that State Bond Commission approval was obtained for each debt instrument issued as required by Article VII, Section 8 of the Louisiana Constitution. B. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

The District did not issue any debt during the fiscal period.

The District did not have any outstanding debt during the fiscal period.

# 12) Fraud Notice

- A. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled as required by R.S. 24:523.
- B. Observe that the entity has posted, on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.
   Procedures performed. No exceptions noted.

# 13) Information Technology Disaster Recovery/Business Continuity

- A. Perform the following procedures, verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."
  - Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if there is no written documentation, then inquire of personnel responsible for backing up critical data) and observe evidence that such backup (a) occurred within the past week,
     (b) was not stored on the government's local server or network, and (c) was encrypted.
  - ii. Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if there is no written documentation, then inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
  - iii. Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.
- B. Randomly select 5 terminated employees (or all terminated employees if less than 5) using the list of terminated employees obtained in procedure #9C. Observe evidence that the selected terminated employees have been removed or disabled from the network.

We performed the procedures and discussed the results with management.

#### 14) Prevention of Sexual Harassment

A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A, obtain sexual harassment training documentation from management, and observe that the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year as required by R.S. 42:343.

- B. Observe that the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).
- C. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe that the report includes the applicable requirements of R.S. 42:344:
  - Number and percentage of public servants in the agency who have completed the training requirements;
  - ii. Number of sexual harassment complaints received by the agency;
  - iii. Number of complaints which resulted in a finding that sexual harassment occurred;
  - Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
  - Amount of time it took to resolve each complaint.

We were engaged by the Bossier Parish Communications District Number One, to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Bossier Parish Communications District Number One, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

Bossier Parish Communications District Number One submits the following responses to the exceptions identified in the Statewide Agreed-Upon Procedures Report for the year ended December 31, 2022:

Exception: The employee responsible for processing payments also mails the payments out after management approval.

Response: The District will consider alternate controls in this area.

Sincerely,

Fred McAnn

Director
