Independent Auditors' Report

To the Grant Parish School Board Colfax, Louisiana

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Grant Parish School Board, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Grant Parish School Board, as of June 30, 2020, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the information listed below to supplement the basic financial statements.

- Management's Discussion and Analysis
- Budgetary Comparison Information
- Schedule of Changes in Net OPEB Liability Retiree Healthcare Plan
- Schedule of Net Pension Liability Data
- Schedule of Employer Contributions

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Grant Parish School Board's basic financial statements. The other supplemental information listed in the table of contents, is presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplemental information listed in the table of contents and the schedule of expenditures of federal awards' are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information listed in the table of contents and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARD

In accordance with Government Auditing Standards, we have also issued our report dated December 10, 2020, on our consideration of the Grant Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Grant Parish School Board's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended June 30, 2020

This section of the Grant Parish School Board's annual financial report presents our discussion and analysis of the School Board's financial performance for the year ended June 30, 2020, along with certain comparative information for the previous year.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the School Board's financial position and results of operations from differing perspectives, which are described as follows:

Government -Wide Financial Statements

The government-wide financial statements report information about the School Board as a whole using accounting methods similar to those used by private-sector companies. These financial statements report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the School Board's assets and all of the School Board's liabilities (including long-term debt). Expenses incurred in connection with the School Board's operations are reported as governmental activities. The governmental activities are financed by taxes, intergovernmental grants and investment income.

Fund Financial Statements

Fund financial statements provide detailed information regarding the School Board's most significant activities and are not intended to provide information for the School Board as a whole. Funds are accounting devices that are used to account for specific financial resources. With the exception of a fund established to account for certain workers compensation claims, the School Board's funds are all classified as governmental funds. These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental funds use a modified accrual basis of accounting that provides a short-term view of the School Board's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from current available assets.

FINANCIAL ANALYSIS OF THE SCHOOL BOARD AS A WHOLE

A comparative analysis of the government-wide Statement of Net Position is presented as follows:

	June 30,			
	2020	2019		
Assets:				
Current and Other Assets	\$ 21,434,712	\$ 20,977,220

Unrestricted	(86,512,013)	(82,162,889)	
Total Net Position	\$(65,952,142)	\$(63,009,120)	

The School Board's net position was a deficit of \$65,952,142 at June 30, 2020; however, considering amounts invested in capital assets and amounts restricted for specific purposes lead to an unrestricted net position deficit of \$86,512,013. The deficit is attributable to recognizing long-term liabilities associated with providing retirement benefit and post retirement healthcare benefit obligations.

Changes in Net Position

A condensed version of the government-wide Statement of Changes in Net Position is presented as follows:

Net Position Ending	<u>\$(65,952,142)</u>	<u>\$(63,009,120</u>

The net position of the School Board decreased by \$2,943,022 during the fiscal year ended June 30, 2020. The decrease is mainly due to expenses to include a provision for costs associated with providing post-employment medical benefits for the District's workforce. Expenses included \$5,929,194 in provisions for post-employment benefits that will be payable in future years.

FINANCIAL ANALYSIS OF THE SCHOOL BOARD'S FUNDS

For the year ended June 30, 2020, the only significant differences between amounts reported by the School Board's funds and activities reported on the government-wide financial statements are attributable to excluding capital assets and long-term debt that appear in the government-wide presentation. The general fund balance has increased by \$43,659.

GENERAL FUND BUDGET HIGHLIGHTS

Variances between the original budgets and actual results were within limits prescribed by state law. Furthermore, no budget revisions were necessary.

DEBT ADMINISTRATION

For the year ended June 30, 2020, new debt has been limited to issuing Series 2019 bonds for the purpose of refunding the outstanding Series 2009 General Obligation Bonds and paying the costs of issuance of the Bonds. The bond was issued with a par value of \$7,545,000 and a premium of \$1,120,374. Remaining activity was limited to repaying maturing portions of existing debt. Repayments totaled \$70,000, which represents a 10.45% decrease in the existing debt.

FACTORS EXPECTED TO AFFECT FUTURE OPERATIONS

At the present time, no matters are anticipated that are expected to have a significant impact on future operations.

Notes To Financial Statements June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Grant Parish School Board (the School Board) was created by State Law to provide public education for the children within Grant Parish. The School Board is authorized by State Law to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The school board is comprised of eight members who are elected from eight districts for terms of four years.

The accompanying policies conform to generally accepted accounting principles for governmental units.

Financial Reporting Entity

Governmental Accounting Standards established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the school board is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the school board may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The school board also has no component units, defined by Governmental Accounting Standards as other legally separate organizations for which the elected school board members are financially accountable. There are no other primary governments with which the school board has a significant relationship.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as governmental activities. Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues. The government-wide and fund financial statements present the School Board's financial position and results of operations from differing perspectives which are described as follows:

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the School Board as a whole. The effect of interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude fiduciary and internal service activities which are reported in the fund financial statements. Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service. Program revenues include charges for services and most grants.

Fund Financial Statements

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. The School Board's funds include governmental funds, proprietary funds and fiduciary funds, which are described as follows:

Governmental Funds

Major individual funds are reported as separate columns in the fund financial statements. School Board's major funds are described as follows:

<u>General Fund</u> – The general fund is the primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>School Food Service Fund</u> – Accounts for revenue sources that are legally restricted to expenditures specified for the school food service.

Notes To Financial Statements June 30, 2020

<u>District 33 Sinking Fund</u> – Accounts for activity associated with the General Obligation Bonds for Consolidated School District No. 33 of Grant Parish.

<u>Transportation Sales Tax Fund</u> – Accounts for proceeds from sales taxes restricted for expenses related to student transportation.

Fiduciary Funds

Fiduciary funds utilized by the School Board are limited to an agency fund that accounts for assets held as an agent on behalf of individual schools and school organizations. The agency fund is custodial in nature and does not measure of results of operations.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation	Basis of Accounting	Measurement Focus
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds (Internal Service)	Accrual Basis	Economic Resources
Fiduciary Funds (Agency)	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of accounting and the current financial resources measure focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end or is available under a cost reimbursement arrangement. In addition, expenses are generally recorded when a liability has been incurred; however, debt service, compensated absences, claims and judgments are recorded as expenses when payment is made. Furthermore, when the current financial resources measure focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt is reported as an other financing source and repayment of long-term debt is reported as an expenditure.

Use of Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Restricted Net Position

Restricted net position represents resources that must be expended in a specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. Whenever restricted assets can be used to satisfy an obligation, the restricted assets are typically consumed before utilizing any unrestricted resources.

Budget Practices

Budgets including any amendments are prepared in the manner prescribed by Louisiana revised statutes. School Board budgets present revenue and expenditures on a basis which is consistent with generally accepted accounting principles. Budgets are adopted annually for the general fund and each special revenue fund. The remaining funds are not required to adopt budgets.

Notes To Financial Statements June 30, 2020

Capital Assets

Capital assets, are reported in the government-wide financial statements. Assets reported in the fund financial statements for governmental funds exclude capital assets. Instead, the governmental funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value when received by the School Board. Capital assets are depreciated using the straight-line method and estimated useful lives ranging from 3 to 40 years. Useful lives are selected depending on the expected durability of the particular asset.

Cash and Cash Equivalents

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand and cash held in bank demand deposits. Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law.

Investments

State Law permits political subdivisions to acquire certain securities including direct obligations of the United States Treasury, securities issued by federally sponsored U. S. Government Agencies and investment grade commercial paper of domestic United States Corporations. Investments in these instruments are reported at fair market value based on quoted market prices.

Inventories

Inventories consist of food purchased by the school board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry and fuel purchased by the School Board. Inventory items purchased are valued at the lower of cost, using the first-in, first-out method. Costs are recorded as expenditures at the time individual items are consumed. Commodities are assigned values based on information provided by the USDA, also on a first-in, first out basis. The amount of commodity inventory is included in deferred revenue until consumed.

Prepaid Items

The unused portion of insurance premiums and other expenses that are paid in advance are reported as prepaid items in the government-wide and fund financial statements.

Delayed Revenues

Delayed revenues arise when resources are received by the school board before it has a legal claim to them, as when grant monies are received before qualifying expenditures are incurred. In subsequent periods, when the school board has a legal claim to the resources, the liability for deferred revenue is removed and revenue is recognized.

Internal Activity

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded. In preparing the government-wide financial statements, internal activity is eliminated.

Fund Balance Classification

Approval of the majority of the School Board is required to approve the commitment of fund balances. In situations where it is permissible to spend restricted or committed resources, the School Board typically depletes the available restricted or committed resources before consuming unrestricted resources.

Notes To Financial Statements June 30, 2020

Compensated Absences

Compensated absences are reported as a long-term liability in the government-wide statement of net position. Compensated absences consist of employees vested interest in unused sick and annual leave. The availability of these benefits is described as follows:

- Employees earn from 10 to 18 days of sick leave each year and are eligible to be paid for up to 25 days of sick leave upon termination.
- Employees that are required to work 12 month each year earn 10 to 15 days of annual leave each year. These employees are eligible to be paid for up to 30 days of annual leave upon termination.

Deposits

Cash deposited in banks is stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2020, the School Board has \$16,980,649 in deposits (\$18,682,348 collected bank balance). These deposits are secured from risk by \$425,000 of federal deposit insurance and \$19,123,227 of pledged securities. Even though the pledged securities are held in the name of the fiscal agent bank, state law imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified that the fiscal agent has failed to pay deposited funds on demand.

Investment Securities

Investment securities are held on behalf of the School Board by UBS Financial Services. Disclosures regarding the remaining amount reported as investment securities are provided as follows:

	Credit Rating (Moody's)	Interest Yield	Maturity	 r Market Value
U. S. Agencies Federal Home Loan Bank	N/A	2.00%	01/10/25	\$ 410,119
Total Government Agencies				\$ 410,119

The School Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The School Board's investment portfolio is all Level 2.

The School Board has not formally adopted policies that limit risk associated with cash and investments; however, informal practices limit exposure to credit risk and interest rate risk. Credit risk is minimized by investing only in securities permitted by State Law. Furthermore, interest rate risk is managed by purchasing securities that are likely to be held to maturity.

The U.S. Agency securities described above are guaranteed by agencies chartered by the United States government.

NOTE 8- RISK MANAGEMENT

The School Board is exposed to various risk of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School Board insures against these risks by purchasing commercial insurance or by participation in public entity risk pools that operate as common insurance programs. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 9 - RESTRICTED RESOURCES

A portion of the School Board's net position is reported as restricted in the Government-Wide State of Net Position. Details related to these restrictions are provided as follows:

<u>Maintenance</u> – Tax propositions require a portion of the District's funds to be expended for the operation and maintenance of certain school facilities	1,469,151
<u>Debt Service</u> - Bond covenants require the School Board to establish bank accounts which serve as debt service and depreciation reserves. Funds may be disbursed from these accounts only under specific circumstances described by the bond covenants	1,720,428
<u>Transportation</u> – Tax propositions require a portion of the District's funds to be expended for the operating the School Board's transportation system	5,161,505
<u>Construction</u> – General obligation bonds issued to provide financing for facility improvements may be used on pay cost incurred in connection with construction of the designated improvements	94
Other Purposes – A portion of the School Boards resources are restricted by the terms of various tax propositions and grant agreements	143,933
Total Restricted Net Position	\$ 8,495,111

NOTE 10 - PENSION PLANS:

Substantially all employees of the school board are members of two statewide retirement systems. In general, professional employees are members of the Teachers' Retirement System of Louisiana; other employees, such as custodial personnel and bus drivers, are members of the Louisiana School Employees' Retirement System. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. Pertinent information relative to each plan follows:

Further information regarding each of the retirement systems presented above is furnished as follows:

Notes To Financial Statements June 30, 2020

Teachers' Retirement System of Louisiana (TRS)

The TRS consists of three membership plans: Regular Plan, Plan A, and Plan B. The TRS provides retirement benefits as well as disability and survivor benefits. Ten years of service credit is required to become vested for retirement benefits and five years to become vested for disability and survivor benefits. Benefits are established and amended by state statute. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for the TRS. That report may be obtained by writing to the Teachers' Retirement System of Louisiana, Post Office Box 94123, Baton Rouge, Louisiana 70804-9123, or by calling (225) 925-6446.

Plan members are required to contribute a portion of their annual covered salary and the school board is required to contribute at an actuarially determined rate. Member contributions and employer contributions for the TRS are established by state law and rates are established by the Public Retirement Systems' Actuarial Committee. The school board's employer contribution for the TRS, as provided by state law, is funded by the State of Louisiana through annual appropriations, by deductions from local ad valorem taxes, and by remittances from the school board.

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC, taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 13 – CONTINGENCIES:

Existing conditions that may have financial consequences are referred to as contingencies. Contingencies existing at June 30, 2020 are described as follows:

Litigation:

Like most governmental units with extensive and diverse operations, the School Board is occasionally named as a defendant in litigation. Based on consultation with School Board Attorneys, there are no matters currently pending or threatened.

Grant Compliance:

The School Board receives state and federal assistance through various grant programs. Management is confident that all significant grant conditions have been met; however, grantor agencies routinely review grant activity and could request reimbursement if a dispute occurs regarding compliance with grant conditions.

NOTE 14 – OTHER POST EMPLOYMENT BENEFITS

Details regarding other post-employment benefits (OPEB) that the School Board provides for its workforce are provided as follows:

Plan Description

The School Board's established policies and procedures include providing certain healthcare benefits for retirees. This policy amounts to a single-employer defined benefit healthcare plan (the Plan) administered by the School Board. The Plan provides medical benefits through the School Board's group health insurance plans which cover both active and retired members. Benefits under the plan are made available to employees upon actual retirement. The Plan does not issue a publicly available financial report. Plan participants are typically covered by one of two retirement systems listed as follows:

- Teachers Retirement System of Louisiana
- Louisiana School Employees Retirement System

Notes To Financial Statements June 30, 2020

Employees and spouses are eligible to elect medical coverage upon retiring. Eligibility for medical coverage is summarized as follows:

- 60 years old and 5 years of service
- 55 years old and 25 years of service
- 30 years of service at any age
- Early Retirement 20 years of service at any age

Employees do not contribute to their post employment benefits costs until they become retirees and begin receiving those benefits. For the year ended June 30, 2020, the School Board's portion of health care funding cost for retired employees totaled approximately \$1,981,894. The School Board has not established a trust fund to finance the cost of benefits and the Plan has no assets.

Net Other Post Employment Liability

The liability has been determined using the Individual Entry Age Normal Cost Method – Level Percentage of Salary permitted by Generally Accepted Accounting Standards in place of an actuarial valuation. The measurement date for the Individual Entry Age Normal Cost Method – Level Percentage of Salary calculation is June 30, 2020. Changes in the liability are presented as follows:

Valuation Methods and Assumptions

Significant assumptions and other inputs used to measure the total OPEB liability are summarized as follows:

Title	Description
Actuarial Cost Method	Individual Entry Age Normal Cost Method - Level Percentage of
	Projected Salary

Notes To Financial Statements June 30, 2020

Title	Description
Service Cost	Determined for each employee as the Actuarial Present Value of Benefits allocated to the valuation year. The benefit attributed to the valuation year is that incremental portion of the total projected benefit earned during the year in accordance with the plan's benefit formula. This allocation is based on each participant's service between date of hire and date of expected termination.
Discount Rate	2.21%
Medical Per Capita Costs	OGB rates are based on retiree experience so there is no implicit subsidy of the active rates by the plan sponsor. For this valuation the actual premium rates less the retiree contribution is used for the per capita medical costs. The blended pre-65 premiums for the retiree are \$13,997.75 and \$21,502.18 including a spouse. For 65 and older the premiums for the retiree are \$3,977.73 and \$10,957.71 including a Medicare eligible spouse.
Life Insurance	Assumed average amount of \$84,000 for active employees with an average annual premium of \$483.84.
Health Care Cost Trend	A level 4.50% trend rate was used for projecting medical costs.
Mortality	RPH-2014 Total Table with Projection MP-2019
Turnover	Turnover rates are based on the 2019 actuarial valuation reports for the TRSL and LSERS retirement plans.
Disability	None assumed
Retiree Contributions	The retiree pays approximately 25% of the medical contribution and 50% of the cost of life insurance.
Salary Scale	3.5%
Valuation Date	June 30, 2020
Measurement Date	June 30, 2020

The following changes in actuarial assumptions have been made since the prior measurement date:

- The mortality assumption was updated using the RPH-2014 Total table with Projection MP-2019.
- The withdrawal and retirement rate tables were updated to reflect the 2019 experience for the TRSL and LSERS retirement plans.
- The medical trend rate was lowered from 5.50% to 4.50%.
- The discount rate was lowered from 3.88% to 2.21%.

Sensitivity to Rates

Net OPEB liability calculations are impacted by various rate assumptions. An analysis of how the liability would be affected by changes in various rate assumptions is presented as follows:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Grant Parish School Board Colfax, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Grant Parish School Board, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated December 10, 2020.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered Grant Parish School Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether Grant Parish School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Grant Parish School Board Colfax, Louisiana

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited the Grant Parish School Board's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2020. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Board's compliance.

OPINION ON EACH MAJOR FEDERAL PROGRAM

In our opinion, the Grant Parish School Board, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

INTERNAL CONTROL OVER COMPLIANCE

Management of the Grant Parish School Board, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an

opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Grant Parish School Board Colfax, Louisiana

We have performed the procedures enumerated below, which were agreed to by the management of the Grant Parish School Board; the Louisiana Department of Education, and the Louisiana Legislative Auditor (the specified parties), on the performance and statistical data accompanying the annual financial statements of the Grant Parish School Board for the fiscal year ended June 30, 2020; and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE), in compliance with Louisiana Revised Statute 24:514 I. Management of the Grant Parish School Board is responsible for its performance and statistical data. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue (Schedule 1)

- 1. We selected a sample of 25 transactions, reviewed supporting documentation, and observed that the sampled expenditures/revenues are classified correctly and are reported in the proper amounts among the following amounts reported on the schedule:
 - Total General Fund Instructional Expenditures
 - Total General Fund Equipment Expenditures
 - Total Local Taxation Revenue
 - Total Local Earnings on Investment in Real Property
 - Total State Revenue in Lieu of Taxes
 - Nonpublic Textbook Revenue
 - Nonpublic Transportation Revenue

No findings were detected in connection with these procedures.

Class Size Characteristics (Schedule 2)

2. We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced a sample of 10 classes to the October 1 roll books for those classes and observed that the class was properly classified on the schedule.

No findings were detected in connection with these procedures.

Voice: 318.442.1608 Fax: 318.487.2027 Online: CenlaCPAs.com

Education Levels/Experience of Public School Staff (NO SCHEDULE)

3. We obtained October 1st PEP data submitted to the Department of Education, including full-time teachers, principals, and assistant principals by classification, as well as their level of education and experience, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's education level and experience was property classified on the PEP data or equivalent listing prepared by management.

Three teachers of the 25 tested are uncertified. Therefore, a certificate was not on file and the education level cannot be verified.

Public School Staff Data: Average Salaries (NO SCHEDULE)

4. We obtained June 30th PEP data submitted to the Department of Education of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's salary, extra compensation, and full-time equivalents were properly included on the PEP data.

No findings were detected in connection with these procedures.

This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the Grant Parish School Board, as required by Louisiana Revised Statue 24:514.I, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
