Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the general fund of the Fifth Louisiana Levee District ("District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the District, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the *Louisiana Governmental Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Fifth Louisiana Levee District
State of Louisiana
November 20, 2023

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Fifth Louisiana Levee District
State of Louisiana
November 20, 2023

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.
- We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of the District's Contributions and the Schedule of Changes in the Total OPEB Liability as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Annual Fiscal Report (AFR) is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by Louisiana's Office of Statewide Reporting and Accounting Policy. The Annual Fiscal Report (AFR) is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing procedures generally accepted in the United States of America. In our opinion, the other information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
FOR THE YEAR ENDED JUNE 30, 2023

The purpose of this section is to offer Management's Discussion and Analysis of the Fifth Louisiana Levee District's (the District) financial performance during the year ended June 30, 2023. It should be read in conjunction with the financial report taken as a whole.

FINANCIAL HIGHLIGHTS

The District received acreage and ad valorem taxes for flood protection totaling approximately \$1.4 million.

The District's net pension and other post-employment benefits obligations at June 30, 2023, totaled \$1,993,806 and \$445,548, respectively representing an increase of \$672,962 and decrease of \$131,158, respectively from the fiscal year ended June 30, 2022.

OVERVIEW OF THE FINANCIAL STATEMENTS

These financial statements are comprised of three components: management's discussion and analysis (this section), the basic financial statements, and required supplementary information.

The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains additional information to supplement the basic financial statements, such as required supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between total assets and deferred outflows of resources and liabilities and deferred inflows of resources is net position and may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's assets changed during the most recent fiscal year. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, transactions are included that will not affect cash until future periods.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses a single fund to ensure and demonstrate compliance with finance related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's only fund, the general fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
FOR THE YEAR ENDED JUNE 30, 2023

The District uses only one fund type, a governmental fund. The governmental fund is used to account for essentially the same functions reported as governmental activities in the government wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the statement of governmental fund revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between the governmental fund and governmental activities.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's proportionate share of the net pension liability and the District's pension contributions.

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$7,398,757 at June 30, 2023. Included in the District's net position is its investment in capital assets, which consists primarily of land, levee infrastructure, buildings and equipment. These assets are not available for future spending.

The District's assets increased by \$657,276, primarily due to equipment additions. Total liabilities increased by \$952,751, primarily from changes in the net pension and OPEB liabilities.

Program revenues decreased by \$95,227 primarily due to a decrease in lease revenues in the current year. Expenses increased by \$138,455.

NATURE OF OPERATIONS

The Fifth Louisiana Levee District is a component unit of the State of Louisiana created by the Louisiana State Legislature under provisions of Louisiana Revised Statute 38:291 (E). The District provides flood protection primarily from the Mississippi River. The District is composed of eight commissioners appointed by the Governor of the State of Louisiana. As authorized by Louisiana Revised Statute 38:308, the President is compensated \$1,000 per month, and the remaining commissioners receive a per diem of \$67.50 per day and are reimbursed for their travel expenses. The District covers the Parishes of East Carroll, Madison, Tensas, and Concordia. Offices are in the city of Tallulah, Louisiana, and serve a population of approximately 47,000. The District employs approximately 20 people.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The Governmental Accounting Standards Board (“GASB”) promulgates accounting principles generally accepted in the United States of America and reporting standards for state and local governments. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards* published by GASB. The accompanying financial statements have been prepared in accordance with such principles.

B. REPORTING ENTITY

GASB Codification Section 2100 has defined the governmental reporting entity to be the state of Louisiana. The District is considered a discrete component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members and can impose his will on the District. The accompanying financial statements present only the activity of the District. Annually, the State of Louisiana issues basic financial statements that include the activity contained in the accompanying financial statements. The State of Louisiana financial statements are audited by the Louisiana Legislative Auditor.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The District’s basic financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements (individual major fund). The government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District’s general fund is classified as governmental activities.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Capitalizing Assets

Tangible and/or intangible assets used in operations with an initial useful life that extends beyond two years and exceed \$1,000 in cost are capitalized. Infrastructure assets such as levees, roads, and bridges are also capitalized along with interest on debt incurred during construction. Capital assets are recorded at their historical cost and are depreciated using the straight-line method of depreciation over their estimated useful lives. They are reported net of accumulated depreciation on the Statement of Net Position.

Program Revenues

The Statement of Activities presents two categories of program revenues: operating grants and contributions and capital grants and contributions. Grants and contributions, whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

Indirect Expenses

Expenses are reported according to function except for those that meet the definition of special or extraordinary items. Direct expenses are specifically associated with a service or program. Indirect expenses include general government or administration that cannot be specifically traced to a service or program. Governments are not required to allocate indirect expenses to other functions, and the District has chosen not to do so.

D. FUND ACCOUNTING

The District uses its general fund to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. A fund is a separate entity with a self-balancing set of accounts. Funds of the District are classified under one category, governmental. Governmental funds account for all of the District's general activities, including the collection and disbursement of specific or legally reserved monies, the acquisition or construction of general fixed assets, and the servicing of general long-term obligations. Governmental funds include the general fund, which accounts for all activities not required to be reported in another fund.

E. BASIS OF ACCOUNTING

The accompanying government-wide statements are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of governmental and

business-type activities are included in the Statement of Net Position. Revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred in the Statement of Activities. In these statements, capital assets are reported and depreciated, and long-term obligations are reported.

The fund statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements present increases and decreases in net current assets. Expenditures for capital assets are reported as current expenses and such assets are not depreciated. Principal and interest paid on capital leases is reported as current expenses.

F. BUDGETS AND BUDGETARY ACCOUNTING

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July 1 of each year for its general fund. The operating budget is prepared based on the prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The District amends its budget when projected revenues are expected to be less than budgeted revenues by 5% or more and/or projected expenditures are expected to be more than budgeted amounts by 5% or more.

G. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in interest-bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under the laws of the state of Louisiana, the laws of any other state in the Union, or the laws of the United States. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. Currently, the District has no cash equivalents.

Investments are limited by R.S. 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as cash and cash equivalents. In addition, the District may invest in certificates of deposit ("CDs") of state banks organized under Louisiana law and national banks having their principal offices in Louisiana. In accordance with GASB Statement No. 31, investments are recorded at fair value, based on quoted market prices, with the corresponding increase or decrease reported in investment earnings. Currently, the District holds CDs.

STATE OF LOUISIANA

H. CAPITAL ASSETS

The District's assets are recorded at historical cost or estimated historical cost if actual is not available. Donated fixed assets are recorded at their estimated fair value on the date of donation. The District's policy is to capitalize assets with an original cost of \$1,000 or more. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows:

| | <u>Years</u> |
|----------------------------|--------------|
| Buildings and improvements | 40 |
| Furniture and equipment | 2 - 20 |

I. RIGHT OF USE ASSETS

The District has recorded right of use lease assets as a result of implementing GASB 87. The right of use assets are initially measured at an amount equal to the initial measurement date of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus any ancillary charges necessary to place the lease in service. The right to use assets are amortized on a straight-line basis over the life of the related lease.

J. LEASES

The District is a lessor for noncancellable leases of District property. The District recognizes a lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

The District uses the stated rate in the lease or its estimated incremental borrowing rate as the discount rate for the leases. The lease term includes the non-cancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2023

K. COMPENSATED ABSENCES

District employees, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years in service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon determination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes.

The current portion of compensated absences payable (the amount estimated to be used during the period of availability) is recorded as a liability in the fund financial statements. The entire balance of compensated absences payable is recognized as a liability in the government-wide financial statements. The non-current portion represents a reconciling item between the fund and government-wide statements.

L. PENSION AND OTHER POST-EMPLOYMENTS BENEFITS (“OPEB”) LIABILITIES

Pension and OPEB liabilities consist of amounts for the District's proportionate share of the actuarially accrued net pension and OPEB liabilities. For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, OPEB, pension expense and OPEB expense, information about the fiduciary net position of the benefit provider, and additions to/deductions from the benefit provider's fiduciary net position have been determined on the same basis as they are reported by the benefit provider. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. FUND BALANCE

The District reports unassigned and committed fund balance. Unassigned fund balance represents amounts that have not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. Committed fund balance represents amounts that can be used only for specific purposes determined by a formal decision of the District's board of commissioners. When expenditure is incurred for which committed or unassigned fund balance is available the District considers amounts to have been spent first out of unassigned then committed.

FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2023

N. NET POSITION

Net position comprises the various net earnings from revenues and expenses. Net position is classified in the following components:

- (a) *Net investment in capital assets* consists of the District's total investment in capital assets, net of accumulated depreciation, and reduced by outstanding debt obligations related to acquisition, construction, or improvement of these capital assets.
- (b) *Unrestricted* consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets. Unrestricted net position is used for transactions relating to the general operations of the District and may be used at its discretion to meet current expenses and for any purpose.

O. PROPERTY TAXES

Article 6, Section 39 of the Louisiana Constitution of 1974 provides that for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and all other purposes incidental thereto, the District may levy annually a tax. Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. They are levied in November, billed in December, and become delinquent on January 1 of the following year.

P. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Q. DATE OF MANAGEMENT'S REVIEW

Management has evaluated subsequent events through November 20, 2023, the date the financial statements were available to be issued.

R. NEWLY ADOPTED ACCOUNTING PRONOUNCEMENTS

The District has adopted Governmental Accounting Standards Board (GASB) Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs) which defines SBITAs, and establishes that a SBITA results in a right-to-use subscription asset and corresponding subscription liability as well as related note disclosures. The implementation of this standard did not have a material impact on the financial statements of the District.

STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS

2. CASH AND CASH EQUIVALENTS

At June 30, 2023, the District has cash (book balances) of \$207,746 in demand deposits. Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. Under state law, the District's deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the District or the pledging bank by a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2023, the District had collected bank balances totaling \$1,928,751, which was under collateralized by federal deposit insurance and pledged securities in the amount of \$1,295,587.

3. INVESTMENTS

The District maintains investment accounts as authorized by Louisiana R.S. 33.2955. At June 30, 2023, the District held \$1,700,065 in certificates of deposits ("CDs). At June 30, 2023, the CDs were exposed to custodial credit risk as detailed in Note 2.

GASB Statement No. 72 Fair Value Measurement and Application, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

Level 1 Inputs - The valuation is based on quoted market prices for identical assets or liabilities traded in active markets;

Level 2 Inputs - The valuation is based on quoted market prices for similar instruments traded inactive markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability; and

Level 3 Inputs - The valuation is determined by using the best information available under the circumstances and might include the government's own data. In developing unobservable inputs, a government may begin with its own data but should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

The recorded values of cash and cash equivalents, certificates of deposit and accrued expenses approximate their fair values based on their short-term nature. The district recognizes transfers between levels in the fair values hierarchy at the end of the reporting period. All fair value measurements are considered Level 1 measurements as of June 30, 2023.

3. INVESTMENTS (Continued)

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits the District investments as per R.S 33:2955. The District does not have policies to further limit credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy states that the assets of the District shall be held in trust by the fiduciary (fiduciaries) designated by the District. For the U.S. Treasury obligations and U.S. Money Market funds, state law and District policy provides these are backed by the full faith and credit of the United States of America. Bonds issued by the State of Louisiana shall have a minimum investment grade rating of Baa3 or higher and have a final maturity of no more than three years.

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The District does not have policies to further limit concentration of credit risk.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State law as applicable to political subdivisions does not address interest rate risk. In addition, the District does not have policies to limit interest rate risk.

4. RIGHT OF USE ASSETS

The District has recorded right of use assets for equipment. The related lease is discussed in Note 10. The right of use assets are amortized on a straight line basis over the useful lives of the equipment. Amortization expense totaled for the year ended June 30, 2023. Right of use asset activity as of and for the year ended June 30, 2023 is as follows:

| | Balance at June 30, 2022 | Additions | Deletions | Balance at June 30, 2023 |

6. LEASES

The District has lease arrangements with tenants occupying various land located in the District beginning January, 2022 through June, 2027. Terms range from 15 to 60 months. Monthly payments range from \$176 to \$3,333.

The District recognized \$61,045 in lease revenue and \$13,101 in interest income during the year ended June 30, 2023 related to leases. As of June 30, 2023, the District's receivable for lease payments was \$284,151. Also, the District has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease terms. As of June 30, 2023, the balance of the deferred inflow of resources was \$279,236.

Future payments included in the measurement of the lease receivable as of June 30, 2023 for each of the next four years are as follows:

7. PENSIONS

The District is a participating employer in a statewide, public employee retirement system, the Louisiana State Employees' Retirement System (LASERS). LASERS has a separate board of trustees and administers a cost-sharing, multiple-employer defined benefit pension plan, including classes of employees with different benefits and contribution rates (sub-plans). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all sub-plans administered by LASERS to the state Legislature. LASERS issues a public report that includes financial statements and required supplementary information. A copy of the report may be obtained at www.lasersonline.org.

General Information about the Pension Plan

Plan Descriptions/Benefits Provided:

LASERS administers a plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in R.S. 11:411-414. The age and years of creditable service (service) required in order for a member to receive retirement benefits are established by R.S. 11:441 and vary depending on the member's hire date, employer, and job classification. Act 992 of the 2010 Regular Legislative Session of the Louisiana Legislature closed existing sub-plans for members hired before January 1, 2011, and created new sub-plans for regular members, hazardous duty members, and judges.

FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS

7. PENSIONS (Continued)

The substantial majority of members may retire with full benefits at any age upon completing 30 years of service and at age 60 upon completing 5-10 years of service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially-reduced benefit. Eligibility for retirement benefits and the computation of retirement benefits are provided for in R.S. 11:444. The basic annual retirement benefit for members is equal to a percentage (between 2.5% and 3.5%) of average compensation multiplied by the number of years of service, generally not to exceed 100% of average compensation. Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006, or highest 60 consecutive months of employment for members employed after that date. A member leaving service before attaining minimum retirement but after completing certain minimum service requirements, generally 10 years, becomes eligible for a benefit provided the member lives to the minimum service retirement age and does not withdraw the accumulated contributions.

Eligibility requirements and benefit computations for disability benefits are provided for in R.S. 11:461. All members with 10 or more years of service or members aged 60 or older regardless of date of hire who become disabled may receive a maximum disability benefit equivalent to the regular retirement formula without reduction by reason of age.

Survivor benefits are provided for in R.S. 11:471-478. Under these statutes, the deceased member who was in state service at the time of death must have a minimum of five years of service, at least two of which were earned immediately prior to death, or who had a minimum of 20 years of service regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18 or age 23 if the child remains a full-time student. The minimum service requirement is 10 years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

LASERS has established a Deferred Retirement Option Plan (DROP). When members enter DROP, their status changes from active member to retiree even though they continue to work and draw their salaries for a period up to three years. The election is irrevocable once participation begins. During participation, benefits otherwise payable are fixed and deposited in an individual DROP account. Upon leaving DROP, members must choose among available alternatives for the distribution of benefits that have accumulated in their DROP accounts.

Cost of Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of cost-of-living adjustments, or COLAs, that are funded through investment earnings when recommended by the board of trustees and approved by the Louisiana Legislature. These ad hoc COLAs are not considered to be substantively automatic.

Contributions

Article X, Section 29(E) (2) (a) of the Louisiana Constitution of 1974 assigns the legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. Employer contributions to LASERS for fiscal year 2023 were \$215,439, with active members contributing 8%, and the District (employer) contributing 39.5%.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability of \$1,993,806 for its proportionate share of the LASERS Net Pension Liability (NPL). The NPL for LASERS was measured as of June 30, 2022, and the total pension liability used to calculate the NPL was determined based on an actuarial valuation as of that date.

The District's proportion of the NPL was based on projections of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of June 30, 2022, the most recent measurement date, the District's proportion was 0.02637%, representing an increase in the proportion from the prior measurement date of 0.02400%. For the year ended June 30, 2023, the District recognized a total pension expense of \$369,876. The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 5.91% for 2022. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the following table.

7. PENSIONS (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of the NPL to changes in the discount rate

The following presents the District's proportionate share of the NPL using the current discount rate as well as what the District's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

| | <u>1.0% Decrease</u> | <u>Current Discount Rate</u> | <u>1.0% Increase</u> |

At June 30, 2023 the District owed LASERS \$-0- for employee and employer legally-required contributions.

8. RISK MANAGEMENT

The Fifth Louisiana Levee District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

10. LEASE LIABILITY

The district records equipment leased as an asset and an obligation in the accompanying financial statements. The lease agreement qualifies as an other than short-term lease under GASB 87 and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of inception of the leases. The assets are being amortized over their estimated useful lives. Amortization of the assets under the leases is included in depreciation expense for the year ended June 30, 2023.

The following is a schedule by years of future minimum lease payments under the lease, together with the present value of the net minimum lease payments, as of June 30, 2023.

11. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

GASB statement 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans addresses accounting and financial reporting for OPEB trust and agency funds of the employer. GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions establishes standards of accounting and financial reporting for OPEB expenses and related OPEB liabilities or OPEB assets, note disclosures, and required supplementary information (RSI) in the financial reports of governmental employers.

The District may provide certain continuing health care and life insurance benefits for its retired employees through the Louisiana Office of Group Benefits. Substantially all employees become eligible for those benefits if they reach normal retirement age while working for the District and were covered by the District's active medical plan immediately prior to retirement. Those benefits include joint payment of monthly premiums for the coverage provided.

Plan Description and Benefits Provided

The Office of Group Benefits (OGB) administers the State of Louisiana Post-Retirement Benefits Plan – a defined benefit, multiple-employer other postemployment benefit plan. The plan provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OG health plan while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employees' Retirement System, Teachers' Retirement System of Louisiana, Louisiana School Employees' Retirement System, or Louisiana State Police Retirement System,) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3.303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2023. The plan is funded on a "pay-as-you-go" basis under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payment become due.

Employer contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and B coverage also have access to four fully insured Medicare Advantage plans.

11. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

| <u>OGB Participation</u> | <u>Employer Share</u> | <u>Retiree Share</u> |
|--------------------------|-----------------------|----------------------|
| Under 10 years | 19% | 81% |
| 10-14 years | 38% | 62% |
| 15-19 years | 56% | 44% |
| 20+ years | 75% | 25% |

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retirees and spouses of retirees, subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. Effective January 1, 2018, the total monthly premium for retirees varies according to age group.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability

At June 30, 2023, the District reported a liability of \$445,548 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2022 and was determined by an actuarial valuation as of that date. The District's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At July 1, 2022, the District's proportion was 0.0066% representing an increase in the proportion from the prior measurement date of 0.0003%.

The total collective OPEB liability in the July 1, 2022, actuarial valuation was determined using the following actuarial methods, assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | |
|---------------------------|---|
| Inflation | 2.40% |
| Salary Increases | Consistent with the pension valuation assumptions |
| Investment Rate of Return | 4.09%, based on the S&P Municipal Bond 20-Year High Grade Rate Index |
| Healthcare Cost Trend | 7.00% - 4.5% |
| Mortality Rates | For healthy lives the RP-2014 Blue Collar Healthy Annuitant Table, projected on a fully generational basis by Mortality Improvement Scale MP-2018. For existing disabled lives, the RP-2000 Disabled Retiree Mortality Table, not projected with mortality improvement. |

11. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

The discount rate used to measure the total OPEB liability was 4.09%. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at contractually required rates. Based on this assumption and as the OPEB Plan is unfunded, the OPEB plan's fiduciary net position was not projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was determined using a discount rate that reflects the 20-year tax-exempt municipal bond yield or index rate. The discount rate used to measure the total OPEB liability was increased to 4.09% in the July 1, 2022 valuation from 2.18% as of July 1, 2021.

Sensitivity of the proportionate share of the total collective OPEB liability to changes in the discount rate

The following presents the District's proportionate share of the total collective OPEB liability using the current discount rate as well as what the District's proportionate share of the total collective OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Relate to OPEB

For the year ended June 30, 2023, the District recognized OPEB benefit of \$5,223. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Changes in employer's proportionate share | \$ - | \$ 1,639 |
| Differences between expected and actual experience | 13,554 | - |

12. NEW ACCOUNTING PRONOUNCEMENTS

The GASB has released Statement No. 101, [Compensated Absences](#) (Statement 101), which replaces GASB Statement No. 16, Accounting for Compensated Absences. Statement 101 requires liabilities for compensated absences to be recognized for: Leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. Under the new Statement a liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered; (b) the leave has accumulated; and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Leave that is more likely than not to be settled through conversion to defined benefit postemployment benefits is not included in the compensated absences liability. The Statement also addresses the timing of the recognition of a liability for certain types of compensated absences, such as sabbatical leave, parental leave, military leave, jury duty leave and other specific types of compensated balances. The Statement is effective for fiscal years beginning after December 15, 2023.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2023

1. SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY:

This schedule reflects the participation of the District's employees in Louisiana State Employees' Retirement System, and its proportionate share of the net pension liability, the proportionate share of the net pension liability as a percentage of its covered payroll, and the plan fiduciary net position as a percentage of the total pension liability. The employers' net pension liability is the liability of the District's employees for benefits provided through Louisiana State Employees' Retirement System. Covered payroll is the payroll of all employees that are provided with benefits through the plan. The amounts in the schedule for each fiscal year were determined as the prior fiscal year ended.

2. SCHEDULE OF THE DISTRICT'S PENSION CONTRIBUTIONS:

The difference between actuarially determined employer contributions and employer contributions received, and the percentage of employer contributions received to covered payroll, is presented in this schedule. The amounts presented in the schedule were determined as of the end of each fiscal year.

3. SCHEDULE OF THE CHANGES IN THE TOTAL OPEB LIABILITY:

This schedule reflects the participation of the District's employees in the State of Louisiana Postemployment Benefits Plan and changes in the total other postemployment liability. No assets are accumulated in a trust that meets the criteria in paragraph 4 of the Governmental Accounting Standards Board Statement No. 75 to pay related benefits.

4. CHANGES OF BENEFIT TERMS:

During the reporting period 2017, a 1.5% Cost of Living Adjustment (COLA) was granted by LASERS. There were no changes in benefit terms for any of the remaining years presented.

5. CHANGES IN ASSUMPTIONS:

Pension Plan:

Amounts reported in the actuary valuation dated June 30, 2022 for LASERS reflect an adjustment in the discount rate. The discount rate for LASERS was decreased by 0.15% to 7.25%.

Amounts reported in the actuary valuation dated June 30, 2021 for LASERS reflect an adjustment in the discount rate. The discount rate for LASERS was decreased by 0.15% to 7.40%.

Amounts reported in the actuary valuation dated June 30, 2020 for LASERS reflect an adjustment in the discount rate. The discount rate for LASERS was decreased by 0.05% to 7.55%.

Amounts reported in the actuary valuation dated June 30, 2019 for LASERS reflect an adjustment in the discount rate. The discount rate for LASERS was decreased by 0.05% to 7.60%.

**OTHER REPORTS REQUIRED BY
*GOVERNMENT AUDITING STANDARDS***

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

Fifth Louisiana Levee District
State of Louisiana
Tallulah, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and general fund of the Fifth Louisiana Levee District (District), a component unit of the state of Louisiana, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 20, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Fifth Louisiana Levee District
State of Louisiana
November 20, 2023

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

Fifth Louisiana Levee District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under R.S. 24:513, this report is distributed by the Legislative Auditor as a public document.

FIFTH LOUISIANA LEVEE DISTRICT
STATE OF LOUISIANA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2023

I. SUMMARY OF AUDITORS' REPORTS

- 1) The auditors' report expresses an unmodified opinion on the financial statements of the Fifth Louisiana Levee District.
- 2) No control deficiencies were disclosed during the audit of the financial statements of the Fifth Louisiana Levee District.
- 3) An instance of noncompliance was disclosed during the audit of the financial statements of the Fifth Louisiana Levee District.

II. FINDINGS – FINANCIAL STATEMENT AUDIT

Finding 2023-001 Cash Collateralization

Criteria: Under state law, deposits of the District must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all time equal the amount on deposit with the fiscal agent.

Condition: The District's bank balances at June 30, 2023 were not fully secured by federal deposit insurance or pledged securities.

Effect: The District is not in compliance with state law.

Cause: The District opened bank accounts at their fiscal agent bank, however, the bank did not properly code the deposits as public funds and therefore did not provide pledged securities sufficient to fully collateralize the accounts. The error was subsequently corrected.

Recommendation: The Levee District should put additional policies and procedures in place to ensure compliance with applicable laws.

Response: The Levee District will have the bank send monthly security reports for any new and existing accounts. Also, the Levee District's policies and procedures have been updated to include this requirement so as to ensure compliance with state law.

III. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAM AUDIT

Not applicable.

Audit Period: July 1, 2022 – June 30, 2023

SECTION II – FINDINGS RELATED TO THE FINANCIAL STATEMENTS

Finding 2023-001 Cash Collateralization

Criteria: Under state law, deposits of the District must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all time equal the amount on deposit with the fiscal agent.

Condition: The District's bank balances at June 30, 2023 were not fully secured by federal deposit insurance or pledged securities.

Effect: The District is not in compliance with state law.

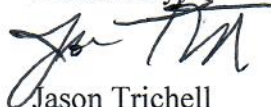

Cause: The District opened bank accounts at their fiscal agent bank, however, the bank did not properly code the deposits as public funds and therefore did not provide pledged securities sufficient to fully collateralize the accounts. The error was subsequently corrected.

Recommendation: The Levee District should put additional policies and procedures in place to ensure compliance with applicable laws.

Response: The Levee District will have the bank send monthly security reports for any new and existing accounts. Also, Levee District's policies and procedures have been updated to include this requirement so as to ensure compliance with state law.

If there are any questions regarding this plan, please contact Jason Trichell, Superintendent of Operations, at 318-574-2206.
