FAQUETAIQUE GRAVITY DRAINAGE DISTRICT
NO. 1 OF ST. LANDRY PARISH
Notes to Financial Statements
December 31, 1999 and 1998

1. Summary of Significant Accounting Policies:

The Faquetaique Gravity Drainage District was created to provide adequate drainage of water for the western portion of St. Landry Parish. Five commissioners, collectively known as the Board of Directors are appointed by the St. Landry Parish Police Jury. This district is a component unit of the St. Landry Parish Police Jury.

A. BASIS OF PRESENTATION

The accompanying financial statements of the Drainage District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles.

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the St. Landry Parish Police Jury is the financial reporting entity for St. Landry Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and © other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the St. Landry Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of police jury to impose its will on that organization and/or

FAQUETAIQUE GRAVITY DRAINAGE DISTRICT

Notes to Financial Statements
December 31, 1999 and 1998

- b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints the Districts Board of directors, the district was determined to be a component unit of the St. Landry Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The accounts of the Drainage district are organized on the basis of a fund (General Fund) which is considered a separate accounting entity. The operations of the General Fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures. The General Fund is the general operating fund of the drainage district.

D. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The drainage district's accounts are maintained on a cash basis of accounting. However, the funds reported in the accompanying financial statements have been converted to a modified accrual basis of accounting using the following practices:

FAQUETAIQUE GRAVITY DRAINAGE DISTRICT
NO. 1 OF ST. LANDRY PARISH
Notes to Financial Statements
December 31, 1999 and 1998

Revenues

Ad valorem taxes (5.99 mills), are recorded in the year for which taxes are levied. Ad Valorem taxes are assessed on a calendar year basis, become due on October 30, of each year, and become delinquent on December 31. Ad Valorem Tax Revenues are generally collected in December of the current year and January and February of the ensuing year. Property taxes not paid by June of the following year are generally collected by the Sheriffs' seizure and sale of property associated with the tax.

Deferred Revenue consists of taxes billed but not collected until 60 days after the year end.

Interest income on certificates of deposit is recorded when the investment has matured and the interest is available.

Substantially all other revenues are recorded when received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include demand deposits and certificates of deposit. Under state law, the drainage district may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. Furthermore, the drainage district may invest in time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

As reflected in the financial statement the drainage district has cash totaling \$174,255 and \$172,423, at December 31, 1999 and 1998. Cash is stated at cost, which approximates market, and is secured through federal deposits insurance for \$100,000.

F. VACATION AND SICK LEAVE
AND PENSION PLAN

The drainage district does not have any employees; therefore, it does not have a formal vacation and sick leave policy and does not contribute to a pension plan.

Notes to Financial Statements
December 31, 1999 and 1998

G. BUDGETARY ACCOUNTING

The drainage district prepared its budget on the modified accrual basis of accounting. The budget was adopted by the Board of Directors prior to January 1, 1999 and 1998. At year end all appropriations lapse. Any changes or amendments must be voted on by the Board of Directors.

H. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

I. CONCENTRATION OF RISKS

The district serves citizens of Rural St. Landry Parishes, Louisiana.
