NOTES TO FINANCIAL STATEMENTS

INTRODUCTION:

The Gravity Sub-District "A", Gravity Drainage District One, was created by the Jefferson Davis Parish Police Jury, as authorized by Louisiana Revised Statue 33:7721. The Gravity Sub-District "A" is governed by a five-member board of commissioners, nominated by the residents of the District and subsequently appointed by the parish police jury, that is responsible for providing proper drainage and maintenance of such systems. The commissioners receive no compensation for serving on the drainage sub-district's board. The drainage sub-district has one employee.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements of The Gravity Sub-District "A", Gravity Drainage District One have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying statements present only transactions of the Gravity Sub-District "A" Gravity Drainage District One.

B. REPORTING ENTITY

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. These criteria include:

- 1. Appointment of a voting majority of an organization's governing body, and
 - a. The ability of the police jury to impose its will on that organization and/or
 - b. The potential of the organization to provide specific financial benefits to or specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- Organizations for which the reporting entity financial statements would be misleading
 if data of the organization is not included because of the nature or significance of the
 relationship.

Because the police jury appoints the organization's governing body, the Gravity Sub-District "A", Gravity Drainage District One was determined to be a component unit of the Jefferson Davis Parish Police Jury, the governing body of the parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the sub-district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

NOTES TO FINANCIAL STATEMENTS

C. FUND ACCOUNTING

The Gravity Sub-District "A" Gravity Drainage District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The accounts of the Gravity Sub-District "A" Gravity Drainage District are organized and are operated on a fund basis. A separate set of self-balancing accounts is maintained that comprises its assets, liabilities, fund equity, revenue and expenditures.

Funds of the sub-district are classified as governmental funds. Governmental funds account for the sub-district's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the sub-district include only a Special Revenue Fund. This fund accounts for the proceeds of specific revenues that are legally restricted to expenditures for specified purposes.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund are determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used by all governmental fund types and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Revenue

Ad valorem taxes and the related commission on state revenue sharing (which is based on population and homesteads in the parish) are recorded when earned. Interest income is recorded when earned. Miscellaneous revenues are recognized when received in cash. Self assessed taxes are recorded when earned.

Expenditures

Expenditures are recognized in the accounting period in which the fund liability is incurred, except for debt service, prepaid expenses and other long term obligations, if any, which are recognized when paid.

NOTES TO FINANCIAL STATEMENTS

E. BUDGET PRACTICES

The sub-district follows these procedures in establishing the budgetary data reflected in these financial statements:

- 1. Prior to November 1 each year, the District prepares an operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. The budget is legally adopted at the December meeting.
- 3. Budgets for the Special Revenue Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- Budgeted amounts are as originally adopted. There were no amendments during the year.
- 5. All budgetary appropriations lapse at the end of each year.

F. ENCUMBRANCES

The sub-district does not use encumbrance accounting.

G. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Under state law, the sub-district may invest in United State bonds, treasury motes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at amortized cost.

The cash amount included in the accompanying financial statements consists of demand deposits available for expenditures related to the drainage systems within the sub-district. To facilitate better management of Sub-District cash resources, cash in excess of current operating needs are invested in certificates of deposit.

These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.
