# <u>INDEPENDENT ACCOUNTANTS' REPORT</u> ON APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners

South Webster Parish Industrial District

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the management of the South Webster Parish Industrial

District and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the South Webster Parish Industrial District's compliance with certain laws and regulations for the year ended December 31, 1999 included in the accompanying <u>Louisiana Attestation Questionnaire</u>. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

## Public Bid Law

1. Select all expenditures made during the year for materials and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

For the year ended December 31, 1999, no expenditures were made for materials, supplies, or public works that were in violation of the public bid law.

# Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each commissioner as

# defined by LSA-RS 42-1101-1124 (the code of ethics), and a list of outside business interests of all commissioners and employees, as well as their immediate families.

#### Management has provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the periods under examination.

There were no employees paid during the periods under examination.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

This agreed-upon procedure is not applicable since there were no employees paid during the periods under examination.

# Budgeting

5. Obtained a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original 1999 budget. There was one amendment made to the 1999 budget.

6. Traced the budget adoption to the minute book.

We traced the adoption of the original budget for the year ended December 31, 1999 to the minutes of meetings held on December 2, 1998, which indicated that the budget had been adopted by the commissioners of the South Webster Parish Industrial District. We traced an amendment to the original budget for the year ended December 31, 1999, to the minutes of a meeting held on October 20, 1999.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues or expenditures exceeded budgeted amounts by more than 5%.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues and expenditures for the year did not exceed budgeted amounts by more than 5%.

3

# Accounting & Reporting

8. Randomly select six disbursements made during the periods under examination and:

# (a) Trace payments to supporting documentation as to proper amount and payee

We examined supporting documentation for each of the six selected disbursements, and found that payment was the proper amount and made to the correct payee.

(b) Determine if payments were properly coded to the correct fund and general ledger account.

Of the six selected disbursements, all of the payments were properly coded to the correct fund and general ledger account.

(c) Determine whether payments received approval from proper authorities

No approval from the Board of Commissioners was noted on individual invoices. Checks contained at least one signature from a Commissioner.

#### Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted

or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

The South Webster Parish Industrial District is only required to post a notice of each meeting and the accompanying agenda on the door of the district's office building. Although management has asserted that such documents were properly posted, we could find no evidence supporting such assertion other than an unmarked copy of the notices and agendas.

# Debt

10. Examine bank deposits for the periods under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of all bank deposit slips for the periods under examination and noted no deposits for the year ended December 31, 1999, which appeared to be proceeds of bank loans, bonds, or like indebtedness.

## Advances and Bonuses

11. Examine payroll records and minutes for the periods under examination to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

A reading of the minutes of the district for the periods under examination indicated no

# We were not engaged to, and did not, perform an examination, the objective of which would be the

expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the South Webster Parish Industrial District and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

# **INTRODUCTION**

The South Webster Parish Industrial District was created as a political subdivision of the state, under the provisions of Act No. 393 of the 1980 regular session of the Louisiana Legislature. Its territorial limits and jurisdiction extend throughout Ward One of Webster Parish in the northwest corner of the State of Louisiana.

The governing authority of the District is a Board of Commissioners consisting of seven members, three of whom are appointed by the Cities of Minden and Dixie Inn, two of whom are appointed by the municipalities of Sibley, Dubberly, Heflin and Doyline, one is appointed by the Webster Parish Police Jury and one is appointed by the Minden Economic Development Council. Each commissioner serves for a two-year term of office.

The District is provided the powers and duties to incur debt and issue bonds to encourage industrial enterprises through the operation of an industrial park.

# 1. <u>Summary of Significant Accounting Policies</u>

- A. <u>Basis of presentation</u> The accompanying general purpose financial statements of the South Webster Parish Industrial District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.
- B. <u>Reporting entity</u> For financial reporting purposes, in conformance with GASB Statement No. 14, the South Webster Parish Industrial District includes all funds and account groups which are controlled by the District. The District has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, authority to issue debt, election or appointment of governing body, and other general oversight responsibility.
- C. <u>Fund accounting</u> The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal

15

compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in funds because they do not directly affect net expendable available financial resources.

Funds of the district are classified as governmental funds. Governmental funds account for the district's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the district include:

- 1. General Fund -- The general operating fund of the district and accounts for all financial resources, except those required to be accounted for in other funds.
- 2. Debt Service Fund -- accounts for transactions relating to resources retained and used for the payment of principal and interest on those long-term obligations recorded in the general long-term obligations account group.
- D. <u>Basis of accounting</u> The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental funds. The governmental funds use the following practices in recording revenues and expenditures:

Revenues -- Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year and January and February of the ensuing year.

Intergovernmental revenues are recorded when the District is entitled to the funds.

. .

Interest income on deposits is recorded monthly when the interest is earned and credited to the account.

Expenditures - With the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except that the principal and interest on general long-term debt is recognized when due.

Other financing sources - Proceeds from the sale of long-term bonds are accounted for as an other financing source and are recognized when the underlying events occur.

E. <u>Budget practices</u> - The District adopts and controls budgets and the object level of expenditures. Appropriations lapse at year- end and must be reappropriated for the following year to be expended. All changes to the original budget must be approved by the Board of

Commissioners.

For the year ended December 31, 1999, the District adopted a combined budget (cash basis) for the general fund and debt service fund.

The revenues and expenditures, for the year ended December 31, 1999, as shown on page 11 is reconciled with the amounts reflected on the budget comparisons on pages 13 & 14 as follows:

Year Ended 1999:	General Fund	Debt Service Fund
Excess (deficiency) of revenues and other sources over (under) expenditures		
and other uses (GAAP Basis)	\$ (14,877)	22,292
To adjust for:		
Revenue accruals - net		(22,292)
Principal received on notes receivable	21,857	
Excess (deficiency)of revenues and		
other sources over (under) expenditures		

#### F. <u>Encumbrances</u> - The district does not use encumbrance accounting.

- G. <u>Cash and cash equivalents</u> Cash includes amounts in interest-bearing demand deposits. Under state law, the District may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The District may invest in United States bonds, treasury notes, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.
- H. Fixed assets and long-term debt Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group. All purchased general fixed assets are valued at cost. Donated fixed assets are valued at their estimated fair value on the date donated. No depreciation has been provided on general fixed assets. The cost of normal maintenance and repairs that do not add to the value of fixed

assets or materially extend their useful lives is not capitalized. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are capitalized along with other general fixed assets.

Long-term debt, such as general obligation bonds, are recognized as a liability of a governmental fund only when due. The remaining portion of such debt is reported in the general long- term debt account group.

 <u>Total columns on combined statements</u> - Total columns on combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

# 2. Levied taxes

A resolution by the District's Board of Commissioners to authorize a special ad valorem tax levy on all property subject to taxation in the Industrial District to 4.33 mills was adopted October 28, 1996. Said millage is rolled forward due to adjusted millage after reappraisal/reassessment.

# For the year ended December 31, 1999, taxes of \$262,373 were levied on property with assessed valuations totaling \$60,593,453. The receivable amount at December 31, 1999, was \$262,373.

# 3. <u>Restricted assets - debt sinking fund</u>

Under the terms of the governing documents related to the General Obligation Bonds, dated March 1, 1990, the District is to place all proceeds received each year from its ad valorem tax into a debt sinking fund. These funds will be used to reduce the indebtedness associated with the General Obligation Bonds. Each year after the District has met its scheduled obligation to the debtors for that particular year, it is permitted to withdraw and redirect any remaining funds to other uses as deemed necessary by the Board of Commissioners.

Restricted assets balance at December 31, 1999:
