GRAVITY DRAINAGE DISTRICT NO. ONE OF WARD THREE OF ST. LANDRY PARISH
ARNAUVILLE, LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1999

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. SCOPE OF ENTITY

The Gravity Drainage District No. One of Ward Three of St. Landry Parish was established for the purpose of opening and maintaining all natural drains in the District, where drainage is accomplished using the natural force of gravity.

As the governing authority of the parish, for reporting purposes, the St. Landry Parish Police Jury is the financial reporting entity for St. Landry Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the St. Landry Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the police jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints the District's governing body, the District was determined to be a component unit of the St. Landry Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. BASIS OF PRESENTATION - FUND ACCOUNTING

The accompanying component unit financial statements of Gravity Drainage District No. One of Ward Three of St. Landry Parish have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the District are classified as governmental funds. Governmental funds account for the District's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the District include:

General Fund

The General Fund is the general operating fund of the Gravity Drainage District No. One of Ward Three of St. Landry Parish. It is used to account for all financial resources except those required to be accounted for in other funds.

Special Revenue Fund

The Special Revenue Fund is used to account for the grant received from the Governor's Office of Rural Development.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

C. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is followed by the governmental fund types. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than interest on long-term debt, are recorded when the related fund liability is incurred, if measurable.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Louisiana are recognized when susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Purchase of various operating supplies are regarded as expenditures at the time purchased. The costs of governmental fund-type inventories are recorded as expenditures when purchased and items on hand at year-end, if any, are not recorded as assets. Expenditures for insurance and similar services which extend over more than one accounting period are accounted for as expenditures of the period of acquisition.

D. BUDGETS AND BUDGETARY ACCOUNTING

The District is required by state law to adopt an annual budget for its General Fund. The District also adopts a budget for its Debt Service Fund. The budget for the Special Revenue Fund is adopted on a contract basis with the Governor's Office of Rural Development. The budgets are adopted on a cash basis. The budgets must be finally adopted by the District no later than the last day of the preceding year. The Board of Commissioners may authorize revisions requiring alteration of levels of expenditures. Operating appropriations lapse at year-end.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. ENCUMBRANCES

Encumbrance accounting is not used by the Drainage District.

F. INVESTMENTS AND CASH

Investments are stated at cost or amortized cost, which approximates market.

Louisiana statutes authorize the District to invest in United States bonds, treasury notes or certificates of deposit in state and national banks, or any other federally insured investment.

G. FIXED ASSETS

Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. The assets recorded in the General Fixed Assets Account Group consist only of equipment. Expenditures for infrastructure assets, if any, are not set up as assets in the General Fixed Assets Account Group. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost plus trade-in value, if applicable. Interest costs during construction are not capitalized.

H. PENSION PLANS

The Drainage District does not have a pension plan. The employees of the Drainage District participate in the Social Security Retirement System.

I. VACATION AND SICK LEAVE

After six months of service, employees earn 15 days of annual leave each year at the rate of 10 hours per month. Accumulated annual leave is lost at the time of retirement or resignation. Sick leave is granted at the discretion of the Board of the Drainage District.

J. LONG-TERM DEBT

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-term Debt Account Group, not in the governmental funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. TOTAL COLUMNS ON COMBINED STATEMENTS

Total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position, in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

2. CASH AND INVESTMENTS

At December 31, 1999 the total bank balances of the District's deposits (cash and time deposits) were \$67,997. The entire bank balance was covered by federal depository insurance or by collateral held by the bank in the District's name.

3. PROPERTY TAXES

The District's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Property taxes are due on October 1 and become delinquent by January 1 of the following year. The St. Landry Parish Sheriff bills, collects, and distributes the property taxes for the District using the assessed values determined by the tax assessor of St. Landry Parish.

For the year ended December 31, 1999, a tax millage of 5.58 was assessed, of which 5.48 mills were for maintenance, and .1 mills was for debt service. As per state requirements, each taxing district of the parish must remit 2.9491% of total ad valorem taxes per the tax roll to the pension fund. This amount is determined by the legislative auditor each year. Since the Sheriff collects all taxes for the parish, the tax collected in the first month is reduced by the Sheriff for the pension fund amount owed and the remainder is remitted to the taxing district. Therefore, property taxes are shown net of pension fund distributions as follows:

	<u>Total Tax</u> <u>Per Roll</u>	<u>Pension Fund</u> <u>Requirements</u>	<u>Property</u> <u>Tax Receivable</u>
General Fund	\$50,305	\$1,483	\$48,822
