#### AUDUBON REGIONAL LIBRARY CLINTON, LOUISIANA NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1999

#### INTRODUCTION

The Audubon Regional Library was established in 1963, as authorized by Louisiana Revised Statute 25:217, through the cooperative efforts of the police juries of St. Helena, East Feliciana, and West Feliciana Parishes. The Library provides citizens of these parishes access to library materials, books, magazines, records and films. The Library is governed by a board of commissioners consisting of nine members, two appointed from each parish by their police jury, and three who are the police jury presidents for each parish who serve as ex-officio members. Terms for appointed members are for five years, and members serve without pay. Libraries located in Clinton, Greensburg, Jackson, and St. Francisville are supported by property tax assessments in each of the three parishes.

#### Note #1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

\_\_\_\_\_\_

#### A. <u>Basis of Presentation</u>

The accompanying general purpose financial statements of the Audubon Regional Library have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standardsetting body for establishing governmental accounting and financial reporting principles.

B. <u>Reporting Entity</u>

Governmental Accounting Standards Board No. 14 established criteria for determining which component units should be considered part of the police jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- Appointing a voting majority of an organization's governing body, and
  - a. The ability of the police jury to impose its will on that organization and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific

financial burdens on the police jury.

2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.

3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

The Audubon Regional Library is considered a joint venture of the participating police juries, and therefore, issues general purpose financial statements separate from the police juries. The accompanying general purpose financial statements present information only on the funds maintained by the library.

C. Fund Accounting

The library uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a selfbalancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the library are classified as governmental funds. Governmental funds account for the library's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term obligations. Governmental funds of the library include:

#### <u>General Fund</u>

The general fund is the general operating fund of the library. It accounts for all financial resources, except those required to be accounted for in other funds.

#### Special Revenue Funds

The special revenue funds account for the proceeds of

# specific revenue sources that are legally restricted to expenditures for specified purposes.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental funds. The governmental funds use the following practices in recording revenues and expenditures:

Ad valorem taxes and the related state revenue sharing (which is based on population and homesteads in the parishes) are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

Grants are recorded when the library is entitled to the funds.

Interest income is recorded when earned.

Substantially all other revenues are recorded when received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for accumulated vacation leave which is recognized when paid.

#### E. <u>Budgets</u>

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the governmental fund types.

F. <u>Encumbrances</u>

#### Encumbrance accounting is not used by the Library.

### G. Cash and Cash Equivalents and Investments

Cash includes cash on hand and interest-bearing demand deposits. Cash equivalents include amounts in time deposits with original maturities of 90 days or less. Under state law, the library may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the library may invest in United States bonds, treasury notes, or certificates. They are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at amortized cost, which approximates market.

H. <u>Fixed Assets</u>

Fixed assets are recorded as expenditures at the time purchased, and the related assets are capitalized (reported) in the general fixed assets account group. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost, except for the book collection which is valued through the use of an average book cost method.

I. <u>Compensated Absences</u>

Library employees earn vacation leave at rates of 10 to 22 days each year, depending on length of service. Employees are required to use vacation leave in the year earned. Unused vacation leave is granted to employees before separation from the library.

Sick leave is earned at the rate of one day per month. Accrued unused sick leave earned shall be carried forward to the succeeding calendar year, to the limit of 45 work days. Unused accrued sick leave will not be granted to employees on separation from library service.

#### 10

- .- . . .- .

At December 31, 1999, there was no accumulated leave benefits, computed in accordance with GASB Codification Section C60.

### J. Total Columns on Statements

Total columns on the financial statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

Note #2: <u>LEGAL COMPLIANCE - BUDGET</u>

The librarian directs the preparation of a proposed budget annually and submits it to the board. The proposed budget shows the estimated fund balance at the beginning of the year, estimated revenues itemized by source, recommended expenditures and the estimated fund balance at the end of year.

A summary of the proposed budget, along with the public hearing details and availability of the proposed budget for public inspection, are advertised in the official journals of East Feliciana, St. Helena and West Feliciana Parishes at least ten days prior to the date of the public hearing. After the public hearing is held, the budget is formally adopted at a regular board meeting. A summary of the adopted budget is published in the official journal.

Formal budget integration is employed as a management control device during the year.

Budgetary amendments require the approval of the board.

All budgetary appropriations lapse at the end of each year.

Budgetary amounts included in the accompanying financial statements reflect the original adopted budget.

#### Note #3: CASH AND CASH EQUIVALENTS

At December 31, 1999, the library has cash and cash equivalents

(book balances) totaling \$339,598 This total is comprised of \$110 cash on hand, and \$339,488 in interest-bearing demand deposits.

#### AUDUBON REGIONAL LIBRARY CLINTON, LOUISIANA NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1999 (Continued)

These deposits are stated at amortized cost which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount of deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 1999, the library has \$350,653 in deposits (collected bank balance). These deposits are covered from risk by \$200,000 of federal depository insurance and \$150,653 of pledged securities held by the custodial banks in the name of the fiscal agent bank (GASB Category 3).

#### Note #7: <u>PENSION PLAN</u>

All employees of the library are members of the Parochial Employees Retirement System of Louisiana, a multiple-employer, public employee retirement system, controlled and administered by a separate board of trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the library are members of Plan B. Contributions of participating agencies are pooled within the system to fund accrued benefits, with contribution rates approved by the Louisiana Legislature.

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds are eligible to participate in the System. Under Plan B, employees who retire at or after age 62 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable services are entitled to a retirement benefit, payable monthly for life, equal to 2 percent of their finalaverage salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years, may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3 percent for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B cannot exceed the lesser of 100 per cent of final-average salary or \$70 multiplied by total years of creditable service. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at

least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statutes.

In addition to payroll deductions, Library funds are remitted to the retirement system and are recorded as expenditures. The library contributed \$3,655 during the year as its share of employees contribution. The Library does not guarantee the benefits granted by the retirement system.

Note #8: <u>LEASES</u>

The results of our tests disclosed no instances of noncompliance that are required to be reported under <u>Government Auditing Standards</u>.

#### INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered Audubon Regional Library, Clinton, Louisiana's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses.
