REPORT ON COMPLIANCE WITH LAWS AND REGULATIONS
BASED ON AN AUDIT OF THE GENERAL PURPOSE FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Directors of the
Avondale Volunteer Fire Company, Inc.

I have audited the general purpose financial statements of Avondale Volunteer Fire Company, Inc. as of and for the year ending December 31, 1999 and have issued my report thereon dated February 25, 2000.

I conducted my audit in accordance with generally accepted auditing standards, and Governmental Auditing Standards issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

Compliance with laws, regulations, and contracts applicable to the Fire Company is the responsibility of the Fire Company's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, I performed tests of the Fire Company's compliance with certain provisions of laws, regulations, and contracts. However, the objective of my audit of the general purpose financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, I do not express such an opinion.

The results of our tests indicate that, with respect to the items tested, the Fire Company complied in all material respects, with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to my attention that caused me to believe that the Fire Company had not complied, in all material respects, with those provisions.

This report is intended for the information of the Board of Directors, management and the Louisiana Legislative Auditor. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

REPORT ON THE INTERNAL CONTROL STRUCTURE RELATED MATTERS
NOTED IN A FINANCIAL AUDIT CONDUCTED IN
ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

To the Board of Directors of the
Avondale Volunteer Fire Company, Inc.

I have audited the general purpose financial statements of Avondale Volunteer Fire Company, Inc. as of and for the year ending December 31, 1999 and have issued my report thereon dated February 25, 2000.

I conducted my audit in accordance with generally accepted auditing standards, and Governmental Auditing Standards issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

In planning and performing my audit of the general purpose financial statements of the Fire Company for the year ending December 31, 1999 I considered its internal control structure in order to determine my procedures for the purpose of expressing my opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

The management of the Fire Company is responsible for the establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purposes of this report, we have classified the significant internal control structure policies and procedures in the following categories: cash receipts and cash disbursements.

For all of the internal control structure categories listed above, I obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and I assessed the control risk.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

I noted no matters involving the internal control structure and its operation that I consider to be material weaknesses as defined above. My comments and recommendations about other financial matters which might come to my attention during the audit will be presented on a separate report to management.

This report is intended for the information of the Board of Directors, management and the Louisiana Legislative Auditor. This restriction is not intended to limit the distribution of this report, which is a matter of public record.
