INDEPENDENT AUDITOR'S REPORT

Honorable Charles Caillouet, Mayor, and Members of the City Council City of Thibodaux, Louisiana

We have audited the accompanying primary government financial statements and the combining, individual fund, and account group financial statements of the City of Thibodaux, Louisiana as of and for the year ended December 31, 1999, as listed in the table of contents. These financial statements are the responsibility of the City of Thibodaux, Louisiana's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

A primary government is a legal entity or body politic and includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate. Such legally separate entities are referred to as component units. In our opinion, the primary government financial statements referred to above present fairly, in all material respects, the financial position of the primary government of the City of Thibodaux, Louisiana, as of December 31, 1999, and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the primary government financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds and account groups of the City of Thibodaux, Louisiana, as of December 31, 1999, and the results of operations of such funds and the cash flows of individual proprietary funds for the year then ended in conformity with generally accepted accounting principles of such funds and the cash flows of individual proprietary funds for the year then ended in conformity with generally accepted accounting principles of such funds and the cash flows of individual proprietary funds for the year then ended in conformity with generally accepted accounting principles.

Honorable Charles Caillouet, Mayor and Members of the City Council City of Thibodaux, Louisiana Page 2

However, the primary government financial statements, because they do not include financial data of component units of the City of Thibodaux, Louisiana, do not purport to, and do not, present fairly the financial position of the City of Thibodaux, Louisiana, as of December 31, 1998, and the results of its operations and cash flows of its propriety fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 8, 2000 on our consideration of the City of Thibodaux, Louisiana's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results

of our audit.

Our audit was made for the purpose of forming an opinion on the primary government financial statements taken as a whole and on the combining, individual fund, and account group financial statements. The accompanying schedule of expenditures of federal awards and the financial information listed in the other supplementary information section of the table of contents is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements of the City of Thibodaux, Louisiana. Except for the Schedule of Metered Customers and the Schedule of Insurance in Force, which were not audited by us and on which we express no opinion, such information has been subjected to the auditing procedures applied in the audit of the primary government financial statements and the combining, individual fund, and account group financial statements of each of the respective individual funds and account group financial statements of each of the respective individual funds and account groups, taken as a whole.

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements December 31, 1999

INTRODUCTION

The City of Thibodaux, Louisiana (The City) was incorporated under Special Charter effective December 9, 1974. The City operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety, public works, recreation, culture, public welfare, utilities, and general administrative services.

The financial statements of the City of Thibodaux, Louisiana have been prepared in conformity with generally accepted accounting principles as applied to

governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard - setting body for establishing governmental accounting and financial reporting principles. The more significant policies applied are summarized as follows:

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Reporting Entity

As the governing authority of the municipality, the City of Thibodaux is the financial reporting entity for the City of Thibodaux, Louisiana. The financial reporting entity consists of (a) the primary government (the City of Thibodaux), (b) organizations for which the City of Thibodaux is financially accountable, and (c) other organizations for which nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the City of Thibodaux for financial reporting purposes.

Notes to Financial Statements (Continued) December 31, 1999

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

a. Reporting Entity (Continued)

The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- Appointing a voting majority of an organization's governing body, and
 - a. The ability of the City of Thibodaux to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to, or imposes specific financial burdens on the City of Thibodaux.
- Organizations, for which the City of Thibodaux does not appoint a voting majority, but are fiscally dependent on the City of Thibodaux.
- Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

The general-purpose financial statements do not include the City Court of Thibodaux, Louisiana, which is considered to be a component unit. City Court of Thibodaux, Louisiana is fiscally dependent on the City of Thibodaux, Louisiana for office space and courtrooms. The City Court Judge and City Marshal are independently elected officials, whose office operations are both accounted for in the City Court of Thibodaux, Louisiana's financial statements. The substance of the relationship between City Court of Thibodaux, Louisiana and the City of Thibodaux, Louisiana is that the City of Thibodaux, Louisiana has approval authority over its capital budget.

The GASB provides for the issuance of primary government financial statements, which are separate from those of the reporting entity. However, a primary government's financial statements are not a substitute for the reporting entity's financial statements. The Council has chosen to

issue financial statements of the primary government only. As such, the accompanying financial statements are not intended to and do not report in accordance with generally accepted accounting principles. Audit reports for component units can be obtained from the administrative offices of each component unit and from the Clerk of the City Council.

b. Fund and Account Group Structure

Fund Accounting:

The City of Thibodaux, Louisiana uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements (Continued) December 31, 1999

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

b. Fund and Account Group Structure (Continued)

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside

parties, including other governments, or on behalf of other funds within the government. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent.

Account Group Categories:

Account Group Categories are used to establish accounting control and accountability for the City's general fixed assets and general long-term debt, other than those accounted for in the proprietary funds. The two account groups are not "funds". They are concerned only with the measurement of financial position, not with measurement of results of operations.

> <u>General Fixed Asset Account Group</u> - This group of accounts is established to account for all fixed assets of the City except for those related to specific proprietary funds.

> <u>General Long-Term Debt Account Group</u> - This group of accounts is established to account for all unmatured general long-term liabilities of the City except those accounted for in the proprietary funds.

c. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fundtype operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

All governmental fund types and agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The City of Thibodaux, Louisiana considers the property taxes, licenses, charges for services, and interest income as susceptible to accrual. Sales and use tax revenues are recorded when collected by the collecting agency (whether remitted or not).

14

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements (Continued) December 31, 1999

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

c. Basis of Accounting (Continued)

Intergovernmental revenues are recorded when measurable and available with those not earned being shown as deferred. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources generally are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

The accrual basis of accounting is used by enterprise funds. Revenues are recognized when they are carned including unbilled water, sewer and garbage charges. Expenses are recognized at the time liabilities are incurred.

d. Budgets

۰.

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual appropriated budgets are adopted for the following governmental funds: general, special revenue, debt service, and capital-projects. All annual appropriations lapse at year-end.

· **---**

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements (Continued) December 31, 1999

Note J <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

d. Budgets (Continued)

The City does not employ encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation.

e. Cash and Cash Equivalents

For the purposes of reporting cash flows, all highly liquid investments (including restricted assets) with an original maturity of three months or less, are considered to be cash equivalents.

f. Investments

State statutes authorize the government to invest in certain federally guaranteed securities, certain bank time certificates of deposits, and certain mutual or trust funds.

Investments are stated at cost or amortized costs, except for investments in the deferred compensation agency fund that are reported at market value.

g. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

h. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current fiscal year are recorded as prepaid items.

Notes to Financial Statements (Continued) December 31, 1999

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

i. Fixed Assets

General Fixed Assets:

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Asset Account Group. Generally all purchased fixed assets are valued at cost. The remainder is valued at estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Interest during construction is insignificant and subsequently is not capitalized. Also certain infrastructure assets (including streets, drainage, sidewalks, bridges, street lands, right-of-ways, parking meters, streetlights, signals and signs) are not capitalized. No depreciation is provided on general fixed assets.

Property, Plant, and Equipment - Enterprise Funds:

Property, plant, and equipment, which constitute assets of the Enterprise Funds, are recorded at cost, and depreciation is computed thereon under the straight-line method based on the estimated useful lives of the assets as follows:

Plant5 - 30 yearsDistribution5 - 30 yearsEquipment3 - 10 years

17

The City of Thibodaux has elected the option of its enterprise funds to close out depreciation expense on its contributed assets to "contributed capital" rather than to "retained earnings". The full amount of depreciation is still reported in the enterprise fund's operating statement,

where it reduces the amount of net income reported. The amount of depreciation on contributed assets is then "added back", effectively decreasing contributed capital other than retained earnings.

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements (Continued) December 31, 1999

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Note 1

Accounts Payable and Accrued Expenses j.

> The City utilizes a mechanized system to process vendors' invoices for payment for all of the City funds. All invoices processed by this system are paid from a special cash account in the General Fund. Each fund reimburses the General Fund for its share of accounts payable invoices processed for payment by the General Fund. Accrued expenses consist primarily of salaries, payroll withholdings and accrued contributions to employees' pension plans.

- Compensated Absences k.

Employees of the City may accumulate and vest up to a maximum of 45 days of vacation time.

Employees are not limited in the accumulation of sick leave. However, as of August 1, 1996, only the sick leave of employees eligible for retirement shall vest. The calculation of accrued sick leave that is payable is based on the number of service years for that employee. The amount of sick leave that an employee is eligible for is their accumulated sick leave balance times a percentage based on the number of years of service up to a predetermined cap that is also based on the number of years of service. Upon the death of an employee eligible for retirement, the beneficiary of that employee shall receive one-half of the accrued sick leave due to the employee.

The current portion of accrued vacation and sick leave earned has been recorded in the governmental type funds as a current year expenditure and liability. This amount (\$118,878 in the General Fund and \$2,546 in the Special Revenue Funds) represents the dollar value of accrued time during the year that would normally be liquidated with expendable available financial resources of the City. The long-term portion of this obligation has been recorded in the General Long-Term Debt Account Group. This amount (\$81,619) represents the City's commitment to fund such costs

Notes to Financial Statements (Continued) December 31, 1999

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Compensated Absences (Continued)

Accrued vacation and sick leave of the Enterprise Funds have been recorded as expenditures of the period in which the time was earned. The total current and long-term portion of accrued vacation and sick leave obligations of \$44,808 and \$45,967, respectively have been recorded as liabilities of the Enterprise Funds.

1. Long-term Debt

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term debt, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Debt Account Group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

m. Fund Equity/Reserves and Designations

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers or other funds. Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designations are established to indicate tentative plans for financial resource utilization in a future period.

Reserved for revenue bond retirement - is the amount of principal and interest due within the current year in the enterprise funds on utility revenue bonds.

Reserved for debt service - represents the amount held in the Debt Service Funds for future payments of principal and interest.

Reserved for construction - represents the amount in the Capital Projects

Fund for future expenditures on construction contracts.

19

Designated for uninsured losses - represents the amount available in the Internal Service fund for possible property insurance losses.

Notes to Financial Statements (Continued) December 31, 1999

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Note 1

Bond Discounts/Issuance Costs n.

> In governmental fund types, bond discounts and issuance costs are recognized in the current period.

> Bond discounts and issuance costs for proprietary fund types are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable.

Interfund Transactions 0,

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Memorandum Only - Total Columns р.

Total columns on the primary government financial statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

q. Comparative Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

Note 2 <u>LEGAL COMPLIANCE - BUDGETS</u>

Formal budgeting integration is employed as a management control device during the year. The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) The Mayor submits to the City Council a proposed operating budget for the next fiscal year at least seventy-five (75) days prior to its commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) A public hearing is conducted to obtain taxpayer comments.
- (3) At least thirty (30) days prior to the beginning of the new fiscal year the budget is legally enacted through passage of an ordinance by the City Council.
- (4) The Mayor is authorized to transfer budgeted amounts among programs within a department, office or agency; however, any revisions that alter the total expenditures budgeted for any department, office, agency or fund must be approved by the City Council.
- (5) The City Council may make supplemental and emergency appropriations as deemed necessary and appropriate during the year.

Budgeted amounts presented in these financial statements are as amended by the City Council as supplemental appropriations and are Final Budgets as approved.

CITY OF THIBODAUX, LOUISIANA

Notes to Financial Statements (Continued) December 31, 1999

Note 3 **DEPOSITS AND INVESTMENTS**

Deposits - The City may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana. The City may also invest in time deposits or certificate of deposits of state banks organized under Louisiana law and national banks having principle offices in Louisiana.

State law also requires that deposits be fully collateralized at all times. Acceptable collateralization includes the \$100,000 FDIC/FSLIC insurance for all noninterest bearing and \$100,000 for all interest bearing accounts and the market value of securities purchased and pledged. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits.

Under the provision of the GASB, pledged securities, which are not in the name of the governmental unit, are considered uncollateralized.

At year-end, total deposits consisted of the following:

	Carrying Balances	Bank Balances
Cash	\$ 3,733,547	\$ 3,832,822
Cash - restricted assets	672,878	672,879
TOTALS	\$ 4,406,425	\$ 4,505,701

Of the total bank balances, Federal Depository Insurance covered \$337,181. The remainder was covered by collateral with a market value of \$4,324,768. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the City that the fiscal agent has failed to pay

deposited funds upon demand.

Notes to Financial Statements (Continued) December 31, 1999

Note 3 <u>DEPOSITS AND INVESTMENTS (Continued)</u>

Investments - The City of Thibodaux, Louisiana may invest idle funds as authorized by Louisiana Statutes, as follows:

- (a) United States bonds treasury notes, certificates, or any other federally insured investment.
- (b) Time certificates of deposit of state banks organized under the laws of Louisiana and national banks having their principal office in the State of Louisiana.
- Mutual or trust funds, which are registered with the Securities and Exchange Commission under the Security Act of 1933 and the Investment Act of 1940 and which have underlying investments consisting solely of and limited to securities of the United States government or its agencies.

The City' of Thibodaux's investments are categorized below to give an indication of the level of risk assumed at year-end.

<u>Category 1</u> includes investments that are insured or registered or for which the City of Thibodaux, Louisiana or its agent in the City's name holds the securities.

<u>Category 2</u> includes uninsured and unregistered investments for which the counterparts trust department or agent in the City's name holds the securities.

<u>Category 3</u> includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent, but not in the City's name. Balances at December 31, 1999 were as follows:

	Credit	Risk	Category	Carrying	Market

Notes to Financial Statements (Continued) December 31, 1999

Note 3DEPOSITS AND INVESTMENTS (Continued)Investments in deferred compensation mutual funds are not categorized, in
accordance with GASB No. 3, because they are not evidenced by securities that
exist in physical or book entry form. Public Employees Benefit Services
Corporation holds the investments recorded in the Deferred Compensation Fund.

The City has several funds that have pooled monies together to purchase shortterm certificates of deposits and investments in T-notes. The interest earned on these investments is divided pro-rata between the funds participating.

Note 4 <u>RECEIVABLES</u>

Receivables consist of customers' utility billings, garbage fees, taxes receivable, accrued interest, and other miscellaneous receivables.

An allowance based upon past experience has been established for customers' utility billings and garbage fees. Uncollectible amounts due for ad valorem taxes, special assessments and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable.

Accounts receivable and the applicable allowances for doubtful accounts at December 31, 1999 were as follows:

Loan Payable:

In November 1996, the City of Thibodaux, Louisiana and the State of Louisiana, Department of Environmental Quality (DEQ) entered into a commitment agreement in which the DEQ agrees to lend to the City of Thibodaux, Louisiana from the Municipal Facilities Revolving Loan Fund the maximum sum of \$2,505,000 for the period from the Loan Closing until the date that the Project is completed, a period not to exceed 2 years from the Loan Closing. All sums advanced by the DEQ will be used to construct sewer improvements constituting the wastewater treatment project to the City's sewer system. During 1997 the City (interim loan) received \$616,441 from the DEQ loan program. During 1998 the City (interim loan) received \$1,546,818 from the DEQ loan program. In 1999 the City (interim loan) received \$110,567 from the DEQ loan program At December 31, 1999 the balance on the loan was \$2,273,827. Both the interim loan and the permanent loan, which will commence on the Scheduled Completion date bear interest at the rate of 2.45% per annum on the outstanding principal balance of the loan. Interest in the interim loan is paid semi-annually. The City paid and accrued \$61,029 of interest expense in 1999 on the DEQ loan payable balance. No payments of principal are required on the interim loan.

The revenues to be pledged by the City of Thibodaux, Louisiana to pay principal and interest on the Bond and all required fees and charges required will be a sum to be derived from the proceeds of the User Charges derived from the use of the System, and these will yield annual revenues sufficient in amount to both (1) fund and maintain a debt service reserve fund equal to one year's payment of principal and interest due on the Loan; and (2) provide not less than 125% of the total annual sums due and payable on the Loan.

The total estimated project cost for the sewer project is \$2,489,900. The project is 99% complete at December 31, 1999.

Note 12 RISK MANAGEMENT AND INSURANCE

The City of Thibodaux is exposed to various risks of losses related to theft of, damage to, and destruction of assets: errors and omissions; injuries to employees; providing health, dental, and other medical benefits to employees; and natural disasters. The City manages these risks in various ways as follows:

Commercial Insurance - The City has purchased commercial liability insurance to cover risks of loss related to torts or negligence by employees and council members. Commercial insurance has also been obtained to cover risk of damages to or theft of computer equipment, boilers and other machinery, employee's health insurance, and workers' compensation liability. Claims have not exceeded insurance coverage in any of the past three years.

Partially Self-Insured Program - During 1996, the City of Thibodaux, Louisiana initiated a self-insured retention program within the Loss Fund - Internal Service Fund in order to deal with potential liability of loss related to damage to buildings and contents. A transfer from the general fund funded the internal service fund originally and subsequent transfers are made as necessary. Claims in excess of the self-insured retention amounts are recovered through third-party limited-coverage insurance policies. The City is self-insured with excess coverage in these areas:

- property damage with a \$250,000 per occurrence (Building & Contents -Replacement Cost)
- general liability with a \$1,000,000 per occurrence (\$3,000,000 policy combined aggregate for General Liability, Employee Benefits Liability, Athletic Participation Liability, Failure to Supply and Police Professional Liability)
- automobile liability \$1,000,000 per occurrence

Note 13 <u>COMMITMENTS AND CONTINGENCIES</u>

The City of Thibodaux, Louisiana, participates in a number of federally assisted programs. These programs are audited in accordance with the <u>Single Audit Act of 1984</u>. Based on prior experience, the City's management believes that further examination, which grantor agencies may provide, would not result in any material disallowed costs. In the opinion of the City's attorney, the resolution of all other claims is immaterial to the City of Thibodaux, Louisiana's financial position.

The City of Thibodaux, Louisiana is a defendant in a lawsuit filed by five women and the family of a deceased woman seeking damages at the hands of a former Thibodaux police officer. The judgment was rendered against the City of Thibodaux, in favor of all plaintiffs, in the cumulative amount of \$9.5 million. Thereafter, on post-trial motions filed by plaintiffs, the presiding judge added on attorneys' fees in the amount of one-third of the judgment, or approximately \$3 million. Legal interest and costs bring the total value of the judgment against the City of Thibodaux to approximately \$13.5 million. An appeal was perfected to the Louisiana First Circuit Court of Appeals in Baton Rouge and it is not expected that the appeal process in the First Circuit will be completed for another 18 months. The judgment is not considered final until such time as all appeals have

Note 13 <u>COMMITMENTS AND CONTINGENCIES (continued)</u>

The City of Thibodaux carried insurance applicable to this casualty determined previously to provide \$3 million in liability limits. The ultimate resolution of this matter cannot presently be determined. Accordingly, no provision for any loss that may result upon resolution of this matter has been made in the general-purpose financial statements.

Note 14 DEFERRED COMPENSATION PLAN

Employees of the City have the option of participating in a deferred compensation program created in accordance with Internal Revenue Code section 457. The maximum compensation that may be deferred under the plan for the participant's taxable year shall not exceed the lesser of \$7,500 or 25% of includable compensation. Additional deferrals are allowed in certain years prior to retirement.

The City has the responsibility for withholding and remitting contributions from participants to the plan. The Public Employees Benefit Services Corporation, who serves as administrator, has the responsibility for maintaining a deferred account with respect to each participant, investing the participant's account in accordance with the participant's investment specification and reporting annually to the participant and to the City the status of the plan.

Transactions and the resulting investment balance for the year ended December 31, 1999 is summarized in Section L-2 to the financial statements.

Investments are valued at market value. All assets of the plan, including all deferred amounts and all income attributable to such deferred amounts, are the assets of the City and are subject to all the claims or creditors of the City. The City's intent is to honor the moral obligation to the participants implicit in the program.

Note 15 <u>EMPLOYEE RETIREMENT SYSTEMS</u>

- - --

Plan Description. Substantially all of the City's full-time employees, approximately 111, except for police participate in the Municipal Employee's Retirement System of Louisiana (Plan A), a multiple-employer, cost-sharing public employee retirement system. The City's police officers are eligible to participate in another multiple-employer, cost-sharing public employee retirement system for police officers is the Municipal and State Police Retirement System. Approximately 46 police officers have elected to participate in the plan.

The total payroll for the City for the year ended December 31, 1999, is approximately \$3,727,476. The payroll for City employees covered by the retirement systems is approximately as follows:

Municipal Employees' Retirement System of Louisiana '\$2,218,597

Municipal and State Police Retirement System

\$ 1,331,955

Funding Policy. Employees are entitled to retirement benefits when the combination of attained age and years of service meet certain specified requirements. The minimum years of service for receiving retirement benefits range from 10 to 12 years. Benefits vest based on a similar method of combination of minimum years of service and attained age. Each system also provides death and disability benefits. The Louisiana State Legislature established the plans and has determined the benefits and required contributions. As long as the City makes the required contributions it is not responsible for adequacy of the retirement system to provide the payment for employee benefits.

Municipal and State Police Retirement System	\$113,766	\$94,805	9.0%	7.5%	

The employer's contributions to the retirement system under the Municipal Employees Retirement System of Louisiana for the years ending December 31, 1998 and 1997 were \$120,897 and \$106,532, respectively. The employer's contributions to the retirement system under the Municipal and State Police Retirement System for the years ending December 31, 1998 and 1997 were \$107,767 and \$89,478, respectively.

Employees of the City are also covered under the Federal Insurance Contributions Act (Social Security). The City makes the required contributions to the fund and is not responsible for the benefits. The City provides no other material post retirement benefits to its former employees.

Note 16 <u>PRIOR PERIOD ADJUSTMENT</u>

٠

An adjustment was necessary in the Municipal Waterworks, Electric, & Power Plant System Fund (an Enterprise fund type) to record amounts that should have been capitalized for construction in progress in 1998. The project was completed and recognized as an addition in 1999. To correct the asset account for the current period, an adjustment of \$425,137 was made to increase the beginning asset balance at January 1, 1999 and decrease the fund balance by the same amount.

SPECIAL REVENUE FUNDS

Sales Tax Fund - is to account for operations of the sales tax department. Financing is provided by a one percent sales and use tax. After cost of operations sixty-two percent of the tax proceeds are retained in this fund and are restricted to improvements, purchases, repairs, and maintenance of capital assets and debt retirement. The remainder is unrestricted and may be used for any legal purpose.

<u>Fire Department Fund</u> - is used to account for ad valorem taxes assessed on behalf of the Thibodaux Volunteer Fire Department which are billed, collected, and paid to the Fire Department by the City of Thibodaux, Louisiana.

Street Improvement and Maintenance Fund - is financed by a special property tax assessed for the purpose of providing funds for repairs, maintenance, and improvements of the City of Thibodaux, Louisiana's streets. These funds may be used only for this purpose.

(HUD) Section 8 Rental Certificate and Voucher Program Funds - are to account for operations of the City of Thibodaux, Louisiana's rental certificate and voucher programs for lower income families. The U.S. Department of Housing and Urban Development under its Section 8 Housing Assistance Programs provide financing. Such grant funds provided may be used for those purposes and in the manner prescribed by applicable federal guidelines and regulations.

(HUD) Community Development Block Grant Fund - is to account for grant funds being provided by the United States Department of Housing and Urban Development under the Community Development Block Grant Program. Such grant funds provided may be used for those purposes defined in the grant contract in accordance with applicable federal guidelines and regulations.

Police Forfeiture Fund - accounts for amounts received from the Lafourche Parish Sheriff on the sale of assets seized from drug enforcement.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

December 31, 1999

SCOPE OF AUDIT PURSUANT TO OMB CIRCULAR A-133 AND SINGLE Note 1 AUDIT ACT OF 1984

> All Federal grant awards activity of the City of Thibodaux, Louisiana are included in the scope of the OMB Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations.

> The United States Department of Housing and Urban Development is the Government's cognizant audit agency for the single audit.

BASIS OF ACCOUNTING Note 2

The accompanying Schedule of Expenditures of Federal Awards has been prepared on the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available as current assets. Expenditures are generally recognized when the liability is incurred.

Note 3 **DEFINITION OF MAJOR PROGRAMS**

The Single Audit Act defines a major program based on the total federal awards expended during the year. Based on the total expenditures as listed on the Schedule of Expenditures of Federal Awards major programs are those with expenditures in excess of \$300,000.

FEDERAL CATALOGUE OF FEDERAL DOMESTIC ASSISTANCE Note 4 (CFDA) NUMBERS

The CFDA numbers included in this report were determined based on the program name, review of grant contract information and the OMB's Catalogue of Federal Domestic Assistance.

STAGNI & COMPANY, LLC

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF PRIMARY GOVERNMENT FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Charles Caillouet, Mayor and Members of the City Council City of Thibodaux, Louisiana

We have audited the primary government financial statements and the combining, individual fund and account group financial statements of the City of Thibodaux, Louisiana, as of and for the year ended December 31, 1999, and have issued our report thereon dated June 8, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City of Thibodaux, Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Thibodaux, Louisiana's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses.

A material weakness is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors and irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Charles Caillouet, Mayor and Members of the City Council City of Thibodaux, Louisiana

Compliance

We have audited the compliance of the City of Thibodaux, Louisiana with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs as of and for the year ended December 31, 1999. The City of Thibodaux, Louisiana's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Thibodaux, Louisiana's management. Our responsibility is to express an opinion on the City of Thibodaux, Louisiana's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations." Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Thibodaux, Louisiana's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide legal determination on the City of Thibodaux, Louisiana's compliance with those requirements.

In our opinion, the City of Thibodaux, Louisiana complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 1999.

Internal Control over Compliance

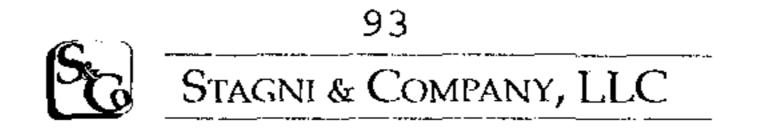

The management of the City of Thibodaux, Louisiana is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City of Thibodaux, Louisiana's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of management and federal awarding agencies and passthrough entities. However, this report is a matter of public record and its distribution is not limited.
