**Notes to the Financial Statements  
As of and for the Year Ended December 31, 1999**

**INTRODUCTION**

The Lafourche Crossing 308 Volunteer Fire Company, Inc. (Fire Company) was organized as a non-profit corporation as defined by Revised Statutes of Louisiana Title 12, Section 101 (8). The Fire Company is exempt from Federal income tax under section 501(c)(4) of the Internal Revenue Code. Its objective is to provide fire protection to Fire Protection District No. 7 of the Parish of Lafourche (District). The District comprises and embraces all of the territory contained within Police Jury Ward 5 less and except the area of said Police Jury Ward contained within the City of Thibodaux, Louisiana. The following territory is not included within the boundries of the District: That part of Police Jury Ward 5, Lafourche Parish, outside the corporate limits of the City of Thibodaux, Louisiana, which lies west of Louisiana Highway 20. The Fire Company's finances are primarily a grant from the District which is generated from ad valorem taxes on property located within the District's boundaries. At year end the Fire Company employed no employees.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Basis of presentation**

The accompanying financial statements of the Fire Company have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**B. Reporting entity**

Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The Fire Company is not a governmental unit although it receives a substantial amount of its revenue from Fire Protection District No. 7 of the Parish of Lafourche. As a result of a contractual agreement, the Fire Company is accountable to the District for fiscal matters. The District does not appoint the governing board, nor management, and it does not influence the operations of the Fire Company. Therefore, the Fire Company reports as an independent reporting entity.

**C. Fund accounting**

The Fire Company uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities.

**LAFOURCHE CROSSING 308 VOLUNTEER  
FIRE COMPANY, INC.  
Lafourche Parish, Louisiana**

**Notes to the Financial Statements  
As of and for the Year Ended December 31, 1999**

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

The only fund of the Fire Company is classified as a governmental fund type. The governmental fund accounts for the Fire Company's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. The governmental fund of the Fire Company includes:

General Fund - the general operating fund of the Fire Company that accounts for all financial activity, except those required to be accounted for in other funds.

**D. Basis of accounting**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The operating statement presents increases and decreases in net current assets. The Fire Company's records are maintained on the cash basis of accounting. However, the financial statements have been converted to the modified accrual basis of accounting using the following practices in recording revenues and expenditures:

**Revenues -**

Revenues are generally recognized under the modified accrual basis of accounting, and therefore, recognized when they become both measurable and available to pay current expenditures.

**Expenditures -**

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

**E. Memorandum Only columns**

The total columns captured "Memorandum Only" are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

FIRE COMPANY, INC.  
Lafourche Parish, Louisiana**

**Notes to the Financial Statements  
As of and for the Year Ended December 31, 1999**

**F. Encumbrances**

The Fire Company does not use encumbrance accounting.

**G. Cash and cash equivalents**

Cash includes amounts in interest-bearing demand deposits and time deposits.

**H. Inventories**

Physical inventories consist of expendible supplies held for consumption. Because inventories are expended within one operating cycle they are recorded as expenditures when paid for and are not recorded as an inventory asset.

**I. Fixed assets**

Fixed assets are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized (reported) in the general fixed assets account group. Interest cost incurred during construction are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical costs or estimated cost if historical cost is not available.

**J. Long-term obligations**

Long-term obligations are reported in the general long-term obligations account group. Expenditures for principal and interest payments for long-term obligations are recognized in the governmental fund when due. The Fire Company had no long-term debt at December 31, 1999 and no related expenditures.

**NOTE 2. CASH AND CASH EQUIVALENTS**

At December 31, 1999, the Fire Company has cash (book balance) totaling \$ 99,968.46 as follows:
