

#### INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners, **Terrebonne Parish Recreation District No. 1.** Schriever, Louisiana.

We have audited the accompanying general purpose financial statements of Terrebonne Parish Recreation District No. 1, (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 1996, as listed in the table of contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Terrebonne Parish Recreation District No. 1 as of December 31, 1996, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated February 3, 1997 on our consideration of the Terrebonne Parish Recreation District No. 1's internal control structure and a report dated February 3, 1997 on its compliance with laws and regulations.

#### NOTES TO FINANCIAL STATEMENTS

#### **Terrebonne Parish Recreation District No. 1**

December 31, 1996

#### Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Terrebonne Parish Recreation District No. 1 (the District) conform to generally accepted accounting principles as applicable to governments. The following is a summary of significant accounting policies:

#### a) Reporting Entity

The District is a component unit of the Terrebonne Parish Consolidated Government (the Parish) and as such, these financial statements will be included in the comprehensive annual financial report (CAFR) of the Parish for the year ended December 31, 1996.

The District has reviewed all of its activities and determined that there are no potential component units which should be included in its financial statements.

#### b) Fund Accounting

The government uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

#### **Governmental Funds**

Governmental Funds are those through which the governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Governmental Funds of the District:

control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operations that we consider to be material weaknesses.

This report is intended for the information of the Board of Commissioners, management, the State of Louisiana and the Legislative Auditor for the State of Louisiana. However, this report is a matter of public record and its distribution is not limited.

#### Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Fund Accounting (Continued)

**General Fund** - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those that are required to be accounted for in another fund.

#### **Account Group**

The general fixed assets account group is used to account for fixed assets not accounted for in proprietary or trust funds.

# c) Basis of Accounting

Basis of accounting refers to <u>when</u> revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the <u>timing</u> of the measurements made, regardless of the measurement focus applied.

All Governmental Funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Ad valorem taxes and the related state revenue sharing (Intergovernmental revenue) are considered "measurable" at the time of levy. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

#### d) Operating Budgetary Data

As required by the Louisiana Revised Statutes 39:1303, the Board of Commissioners (the Board) adopted a budget for the District's General Fund. The Board, as allowed by state law, does not obtain public participation in the budget process. Any amendment involving the transfer of monies from one function to another or increases in expenditures must be approved by the Board. The District amended its budget once during the year. All budgeted amounts which are not expended, or obligated through contracts, lapse at year end.

The General Fund budget is adopted on a basis materially consistent with generally accepted accounting principles.

# INDEPENDENT AUDITOR'S REPORT ON THE INTERNAL CONTROL STRUCTURE BASED ON AN AUDIT OF GENERAL PURPOSE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners,

Terrebonne Parish Recreation District No. 1,

Schriever, Louisiana.

We have audited the general purpose financial statements of Terrebonne Parish Recreation District No. 1 (the District), a component unit of the Terrebonne Parish Consolidated Government, State of Louisiana, as of and for the year ended December 31, 1996, and have issued our report thereon dated February 3, 1997.

We conducted our audit in accordance with generally accepted auditing standards and <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

The management of the District is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the general purpose financial statements of the

District for the year ended December 31, 1996, we obtained an understanding on the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed

#### j) Total Column on Combined Statements - Overview

The total column on the combined statements - overview is captioned memorandum only to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position or results of operations, in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### Note 2 - CASH AND INVESTMENTS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, certificates of deposit of state or national banks having their principal office in Louisiana or any other federally insured investment.

State law also requires that deposits of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

During the year the District's investments consisted solely of certificates of deposit. All cash and investments in excess of the FDIC insurance are collateralized by securities held by an unaffiliated bank in the name of the financial institution pledged to the District.

#### Note 3 - PROPERTY TAXES

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed for the list of January 1, 1996. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 1996 was \$3.00 per \$1,000 of assessed valuation on property within Recreation District No. 1 for the purpose of constructing, maintaining and operating recreational facilities within the District.

#### Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### e) Bad Debts

The financial statements for the District contain no allowance for bad debts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the Funds.

#### f) Investments

Investments are stated at cost, which approximates market.

#### g) General Fixed Assets

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. The Account Group is not a fund. It is concerned only with the measurement of financial position.

Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems, are not capitalized along with other general fixed assets. No depreciation has been provided on general fixed assets.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated.
