INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE BASED ON AN AUDIT OF GENERAL PURPOSE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees of the Police Pension and Relief Fund, City of Houma, Louisiana.

We have audited the general purpose financial statements of the Police Pension and Relief Fund (the Pension Fund), a component unit of the Terrebonne Parish Consolidated Government. State of Louisiana, as of and for the year ended December 31, 1996, and have issued our report thereon dated April 24, 1997.

We conducted our audit in accordance with generally accepted auditing standards and <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

Compliance with laws, regulations, contracts and grants applicable to the Pension Fund is the responsibility of the Pension Fund's management. As part of obtaining reasonable assurance about whether the component unit financial statements are free of material misstatement, we performed tests of the Pension Fund's compliance with certain provisions of laws, regulations, contracts and grants. However, the objective of our audit of the component unit financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

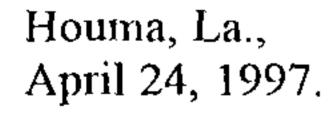

The results of our tests disclosed no instances of noncompliance that are required to be reported herein under <u>Government Auditing Standards</u>.

This report is intended for the information of the Board of Trustees, management, the State of Louisiana and the Legislative Auditor for the State of Louisiana. However, this report is a matter of public record and its distribution is not limited.

A material weakness is a condition in which the design or operation of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operations that we consider to be material weaknesses.

INDEPENDENT AUDITOR'S REPORT ON THE INTERNAL CONTROL STRUCTURE BASED ON AN AUDIT OF GENERAL PURPOSE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees of the Police Pension and Relief Fund, City of Houma, Louisiana.

We have audited the general purpose financial statements of the Police Pension and Relief Fund (the Pension Fund), a component unit of the Terrebonne Parish Consolidated Government. State of Louisiana, as of and for the year ended December 31, 1996, and have issued our report thereon dated April 24, 1997.

We conducted our audit in accordance with generally accepted auditing standards and <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

The management of the Pension Fund is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the general purpose financial statements of the Pension Fund for the year ended December 31, 1996, we obtained an understanding on the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we

assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion.

The following brief description of the City of Houma Police Pension and Relief Fund (the Pension Fund) is provided for general information purposes only. Participants should refer to the applicable state statutes for more complete information.

a) Plan History

The Pension Fund was established for members of the City of Houma Police Department in 1951 under the provisions of City of Houma Ordinance No. 2038 (10/30/51) and revised Ordinance No. 3313 (5/27/80). On September 13, 1983, the City of Houma Board of Aldermen voted to enter into an agreement to merge the Plan with the Municipal Police Employees Retirement System of the State of Louisiana (MPERS). The merger was effective October 1, 1983. The Plan has been closed to new participants since October 1, 1983. The Board of Trustees is required to maintain funds to be used to provide retirement benefits as follows:

- 1. Retirement under the provisions of the Plan for those policemen not meeting the eligibility requirements of MPERS,
- 2. Retirement benefits for those policemen who retired prior to the first anniversary of the merger date, and
- 3. Benefits to be paid in excess of those provided by MPERS.

The remaining assets (approximately \$696,000) of the Plan were placed in the Police Pension Debt Service Fund to pay the liability (\$3,016,270) to MPERS in connection with the merger. During 1987, based on revised actuarial information, \$656,698 was transferred back to the Plan from the Police Pension Debt Service Fund.

b) General

The Pension Fund (a defined benefit pension plan) is a single-employer Public

The Board consists of the Director of Finance for the Terrebonne Parish Consolidated Government (the Parish), the Chief of Police of the City of Houma and one member elected from the Police Department of the City of Houma by a majority vote.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the Police Pension and Relief Fund, City of Houma, Louisiana.

We have audited the accompanying general purpose financial statements of the Police Pension and Relief Fund (the Pension Fund), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 1996, as listed in the table of contents. These general purpose financial statements are the responsibility of the Pension Fund's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Pension Fund as of December 31, 1996, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

As discussed in Notes 1 and 2 to the general purpose financial statements, the Pension Fund adopted Government Accounting Standards Board Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans effective January 1, 1996.
