GENERAL FUND

To account for resources traditionally associated with governments which are not required to be accounted for in another fund.

Notes to Financial Statements (Continued)

(16) Segment Information for the Enterprise Fund

The City of Ville Platte maintains one enterprise fund with three departments which provide gas, water, and sewerage services. Segment information for the year ended June 30, 1996 was as follows:

	Gas <u>Department</u>	Water <u>Department</u>	Sewerage <u>Department</u>	Total Enterprise Fund
Operating revenues	\$2,093,934	<u>\$751,969</u>	\$ 264,156	\$3,110,059
Operating expenses:				
Depreciation	125,116	116,577	175,143	416,836
Other	1,296,875	244,031	<u>298,974</u>	1,839,880
Total operating				
expenses	<u>1,421,991</u>	<u>360,608</u>	474,117	2,256,716
Operating income (loss)	\$ 671,943	\$ 391,361	\$(209,961)	\$ 853,343

(17) Enterprise Fund Contracts

The City of Ville Platte, under contract dated May 1, 1989, is required to purchase its natural gas from LIG Chemical Company. The original contract was renewed on January 1, 1995 and will expire on May 31, 1997, after which time the contract will be renewed on an annual basis and may be terminated by either party with a written ninety-day notice. The City purchased natural gas during 1996 in the amount of \$908,309 of which \$37,146 was owed for purchases for the month of June, 1996.

(18) Compensation of City Officials

A detail of compensation paid to the Mayor and Board of Aldermen for the year ended June 30, 1996 follows:

Bennett Bacquet, Mayor	\$22,304
Aldermen:	
C. J. Dardeau	\$ 7,706
Curley Dossman	8,304
Dr. J. S. Fontenot	7,706
Gloria Frank	8,084
William B. Jeanmard	7,586
Larry Vidrine	8,846
	\$48,232

SUPPLEMENTAL INFORMATION

Notes to Financial Statements (Continued)

Capital leases at June 30, 1996 are comprised of the following:

\$123,963 fire truck lease due in annual installments of \$17,923 through July 1, 2001	\$ 71,698
\$21,827 communications equipment lease due in monthly installments of \$427 through December 9, 1999, interest at	

\$86,955

<u> 15,257</u>

The annual requirements to amortize all debt outstanding as of June 30, 1996, including interest payments of \$3,917,431, are as follows:

(19) Risk Management

Effective April 1, 1992, the City established a self-insurance health plan to account for and finance its uninsured risk of loss for commercial group health insurance. The plan is administered by Self-Insurance Administrators, Inc. and the plan year ends on March 31 of each year. Under this plan, the Shenandoah Life Insurance Co. agreed to reimburse the City for specific incurred claims related to any one covered employee or dependent which exceeds the retention by the City, which is \$22,500. For the plan year ending March 31, 1997, the Shenandoah Life Insurance Co. will reimburse the City for aggregate incurred claims during the period of insurance less any amounts paid in respect to the specific incurred claims, which exceeds the greater of \$186,911 or the total of monthly payments by the City. Monthly payments are calculated based on the number of employees with single coverage multiplied by a funding factor of \$120 and the number of employees with family coverage multiplied by a funding factor of \$270. For the plan year ending March 31, 1996, the aggregate reimbursement amount is the greater of \$221,368 or the total of monthly payments which is calculated based on the number of employees multiplied by a composite funding factor of \$133 and \$300 for single and family coverage, respectively.

The General and Utility Funds of the City participate in the program and make payments to the Self-Insurance Fund based upon amounts needed to pay prior and current year claims. The claims liability of \$51,948 reported in the fund at June 30, 1996, is based on the loss that is probable to have been at the date of the financial statements and the amount of the loss that can be reasonably estimated. The City currently does not discount its claims liabilities.

Reconciliation of Claims Liabilities

	1996	<u>1995</u>
Unpaid claims, July 1, 1995	\$ 48,106	\$ 47,506
Insurance claims Payments	150,107 <u>(146,265</u>)	236,425 (235,825)
Unpaid claims, June 30, 1996	\$ 51,948	\$ 48,106

Notes to Financial Statements (Continued)

1-4 years service	10 days
5-9 years service	15 days
10 or more years service	20 days

Sick leave accumulates and is available for employees when needed, however, it does not vest nor is it payable at termination of employment. Compensated leave for Fire Department employees can be accumulated and carried forward to future years. Vacation leave is earned over a calendar year basis. Vacation leave may not be carried forward beyond the end of the calendar year. At June 30, 1996, the City has accrued vested leave benefits as required to be reported in accordance with GASB statement No. 16, "Accounting for Compensated Absences".

At June 30, 1996, employees of the City have accumulated and vested \$82,869 of compensated absence benefits, which is recorded in the General, City Court, Construction and Utility Funds.

(14) Pending Litigation

There are several lawsuits presently pending against the City of Ville Platte. The City's legal counsel and elected officials are of the opinion that any unfavorable outcomes in these cases would be within the limits of the City's insurance coverage.

(15) Contributed Capital

Amounts contributed to the Enterprise and Internal Service Funds for acquisition or construction of fixed assets are recognized as contributed capital. Contributed capital generated through grants externally restricted for capital acquisitions is amortized based on the depreciation recognized on that portion of the assets acquired or constructed from such grants. This depreciation is closed to the appropriate contributed capital account and is reflected as an adjustment to net income on the Comparative Statement of Revenues, Expenses, and Changes in Retained Earnings.

The sources of contributed capital used to acquire and construct facilities of the Enterprise and Internal Service Funds are as follows:

		Municipality	Federal <u>Grants</u>	State <u>Grants</u>	Private <u>Grants</u>	Total
Total capi	contributed tal	\$7,358,239	\$990,879	\$505,565	\$268,662	\$9,123,345
Less:	Accumulated amortization		<u>163,500</u>	113,093	<u>13,433</u>	<u>290,026</u>
	Net contribute capital	d \$7,358,239	\$827,379	\$392,472	\$255,229	\$8,833,319

Notes to Financial Statements (Continued)

B. Municipal and State Police Retirement System of Louisiana

Plan members are required to contribute 7.5 percent of their annual covered salary to the system while the City is required to contribute the statutory rate of 9.0 percent of the total annual covered salary. The City's contributions to the system for the years ended June 30, 1996, 1995 and 1994 were \$48,041, \$41,769, and \$39,953, respectively, equal to the required contribution for each year.

A publicly available financial report that includes financial statements and required supplemental financial information may be obtained by writing to the Municipal Police Employee's Retirement System, P.O. Box 94095 - Capital Station, Baton Rouge, Louisiana 70804-9095.

C. Louisiana State Employees Retirement System

Plan members are required to contribute 11.5 percent of their annual covered salary to the System, while the city is required to contribute 12 percent of the total annual covered salary. The City's contributions to the system for the years ended June 30, 1996, 1995, and 1994 were \$1,058, \$1,050, and \$1,037, respectively, equal to the required contribution for each year.

A publicly available financial report that includes financial statements and required supplemental financial information may be obtained by writing to the Louisiana State Employees Retirement System, P.O. Box 44213, Baton Rouge, Louisiana 70804.

(12) Social Security System

Employees of the City of Ville Platte who are not eligible to participate in any other retirement system are members of the Social Security System. The City and its employees contribute a percentage of each employee's salary to the System (7.65 percent contributed by the City; 7.65 percent contributed by the employee). The City's contribution during the year ended June 30, 1996 amounted to \$24,690.

(13) Compensated Absences

Sick leave is earned at the rate of fourteen hours per month. Compensated leave, which is earned only by Fire Department employees, is earned on a one to one ratio for overtime hours worked. Vacation leave is accumulated as follows:

Notes to Financial Statements (Continued)

The City violated the bond indenture requiring a written policy regarding collection of delinquent accounts, assessment of late payment penalties and disconnection of services.

(10) Dedication of Proceeds and Flow of Funds - 1 Percent Sales and Use Tax

A one percent sales and use tax levied by the City of Ville Platte in 1975 (1996 collections \$769,957; 1995 \$735,560) is dedicated to the following purposes:

Paying bonds; constructing, acquiring, improving and maintaining police and fire department stations and equipment; water disposal facilities; streets, sidewalks, and drainage facilities; sewer and sewerage disposal works; park and pool facilities; and compensating firemen and policemen.

A one percent sales and use tax levied by the City beginning in 1984 (1996 collections \$769,317; 1995 \$735,560) is dedicated to these purposes:

Constructing, acquiring, extending, improving, operating and/or maintaining sewers and sewerage disposal works, including the purchase and acquisition of the necessary land and equipment therefore; and at least 5 percent of such tax annually for constructing, extending, improving and/or maintaining streets and sidewalks, after making provision for annual debt service on bonds which may be issued for the aforementioned purposes.

(11) Pension Plans

Eligible employees of the City participate in one of three multipleemployer public employee retirement systems (PERS), which are controlled and administered by a separate board of trustees. These retirement systems provide retirement, disability and death benefits to plan members and their beneficiaries. Pertinent information relative to each plan follows:

A. <u>Municipal Employees' Retirement System</u>

Plan members are required to contribute 9.25 percent of their annual covered salary to the system while the City is required to contribute the statutory rate of 6.75 percent of the total annual covered salary. The City's contributions to the system for the years ended June 30, 1996, 1995, and 1994 were \$71,404, \$60,428, and \$70,155, respectively, equal to the required contribution for each year.

A publicly available financial report that includes financial statements and required supplemental financial information may be obtained by writing to the Municipal Employee's Retirement System, 7937 Office Park Bldg., Baton Rouge, Louisiana 70809.

Notes to Financial Statements (Continued)

Bond and Interest Sinking Fund

The City is required to set aside into a Utilities Revenue Bond Sinking Fund each month a sum equal to 1/6 of the interest falling due on the next interest payment date plus 1/12 of the principal falling due on the next principal payment date. Funds deposited in this account are available only for the retirement of maturing bonds and interest.

Reserve Fund

The Utilities Revenue Bond Reserve Fund is maintained solely for the purpose of paying the principal of and the interest on bonds payable from the sinking fund as to which there would otherwise be default. The fund is required to be funded in an amount equal to the reserve fund requirement (\$482,988 at June 30, 1996).

Capital Additions and Contingencies Fund

The Utilities System Capital Additions and Contingencies Fund (Renewal and Replacement Fund) was established to care for extensions, additions, improvements, renewals, and replacements necessary to properly operate the system and to pay the principal of and the interest on the bonds, including any additional pari passu bonds issued hereafter in the manner provided by the bond resolution, for the payment of which there is not sufficient money in the sinking or reserve funds.

The maximum required balance of \$200,000 was deposited when the bonds were sold. The money in the fund shall never be used for the making of such extensions, additions, improvements, renewals and replacements if such use of said money will leave less than the sum of \$50,000. In the event that the City utilizes any monies in the fund so that the balance falls below \$200,000, a monthly deposit of 5 percent of the gross revenues of the system (excluding revenues derived from fuel adjustments) must be made until there is again on deposit the sum of \$200,000.

It is further understood that the City shall adopt a rate ordinance which shall provide revenue in each year, after paying all reasonable and necessary expenses of operating and maintaining the utility system in such year, at least equal to 135 percent of the largest amount of principal and interest maturing on the bonds in any future fiscal year. Said rate ordinance shall also provide for 10 percent penalty charge for non-payment of bills within ten days after the due date and discontinuance of service upon non-payment of bills within thirty days after the due date.

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, as of and for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996. In our report, our opinion was qualified due to the inability to determine the accuracy of the general fixed assets acquired prior to July 1, 1973.

We have applied procedures to test the City of Ville Platte, Louisiana's compliance with the following requirements applicable to its federal financial assistance programs, which are identified in the schedule of federal financial assistance, for the year ended June 30, 1996:

General Requirements

Political activity Civil rights Cash management Federal financial reports Drug-free Workplace Act Administrative Requirements

Our procedures were limited to the applicable procedures described in the Office of Management and Budgets Compliance Supplement for Single Audits of State and Local Governments. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the City of Ville Platte, Louisiana's compliance with the requirements listed in the preceding paragraph. Accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures disclosed no material instances of noncompliance with the requirements listed in the second paragraph of this report. With respect to items not tested, nothing came to our attention that caused us to believe that the City of Ville Platte, Louisiana had not complied, in all material respects, with those requirements. Also, results of our procedures did not disclose any immaterial instances of noncompliance with those requirements.

2011 MacArthur Drive Building 1 Alexandria, LA 71301 (318) 445-5564

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996. In our report, our opinion was qualified due to the inability to determine the accuracy of the general fixed assets acquired prior to July 1, 1973.

We conducted our audit in accordance with generally accepted auditing standards; <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and the provisions of Office of Management and Budget (OMB) Circular A-128, "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

The elected officials of the City of Ville Platte, Louisiana are responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the financial statements of the City of Ville Platte, Louisiana for the year ended June 30, 1996, we obtained an understanding of the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. Accordingly, we do not express such an opinion.

We noted a certain matter involving the internal control structure and its operation that we consider to be a reportable condition under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgement, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Inadequate Segregation of Accounting Functions

Finding:

Due to the small number of employees the City did not have adequate segregation of functions within the accounting system.

Recommendation:

Based upon the size of the operation and the cost-benefit of additional personnel, it may not be feasible to achieve complete segregation of duties.

Response:

No response is considered necessary.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions, and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we believe the reportable condition described above is a material weakness.

We also noted other matters involving the internal control structure and its operation that we have reported to the management of the City of Ville Platte in a separate letter dated August 28, 1996.

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, as of and for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996. In our report, our opinion was qualified due to the inability to determine the accuracy of the general fixed assets acquired prior to July 1, 1973.

We conducted our audit in accordance with generally accepted auditing standards; <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and the provisions of Office of Management and Budget (OMB) Circular A-128, "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Compliance with laws, regulations, contracts, and grants applicable to the City of Ville Platte, Louisiana is the responsibility of the City's elected officials. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the City's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our audit of the financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

The results of our tests disclosed the following instances of noncompliance that are required to be reported herein under <u>Government Auditing Standards</u> for which the ultimate resolution cannot presently be determined. Accordingly, no provision for any liability that may result has been recognized in the City of Ville Platte, Louisiana's 1996 financial statements.

Failure to Comply with the Utility Revenue Bond Resolution Covenant

Finding:

The City of Ville Platte failed to comply with the utility revenue bond indenture which requires the establishment of and adherence to a written policy regarding collection of delinquent accounts, assessment of late payment penalties and disconnection of services.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL STRUCTURE USED IN ADMINISTERING FEDERAL FINANCIAL ASSISTANCE PROGRAMS

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

RETIRED

Eugene H. Darnall, CPA 1990

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996. In our report, our opinion was qualified due to the inability to determine the accuracy of the general fixed assets acquired prior to July 1, 1973. We have also audited the compliance of the City of Ville Platte, Louisiana with requirements applicable to major federal financial assistance programs and have issued our report thereon dated August 28, 1996.

We conducted our audits in accordance with generally accepted auditing standards; Government Auditing Standards, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Circular A-128, "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and about whether the City of Ville Platte, Louisiana complied with laws and regulations, noncompliance with which would be material to a major federal financial assistance program.

In planning and performing our audits for the year ended June 30, 1996, we considered the internal control structure of City of Ville Platte, Louisiana, in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements of the City of Ville Platte, Louisiana and on the compliance of the City of Ville Platte, Louisiana, with requirements applicable to major programs and to report on the internal control structure in accordance with OMB Circular A-128. This report addresses our consideration of internal control structure policies and procedures relevant to compliance with requirements applicable to federal financial assistance programs. We have addressed internal control structure policies and procedures relevant to our audit of the general purpose financial statements in a separate report dated August 28, 1996.

The elected officials of the City of Ville Platte, Louisiana are responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and

procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles, and that federal financial assistance programs are managed in compliance with applicable laws and regulations. Because of inherent limitations in any internal control structure, errors, irregularities, or instances of noncompliance may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures used in administering federal financial assistance programs in the following categories:

Accounting Controls	Administrative	Controls
	General Requirements	Specific Requirements
Revenue/receipts Purchases/disbursements Property, plant and equipment General ledger	Political activity Civil Rights Cash management Federal financial reports Drug-free Workplace Act	Eligibility Review of Contract rent and utility allowances

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and determined whether they have been placed in operation, and we assessed control risk.

During the year ended June 30, 1996, the City of Ville Platte, Louisiana expended 63 percent of its total federal financial assistance under a major federal financial assistance program.

We performed tests of controls, as required by OMB Circular A-128, to evaluate the effectiveness of the design and operation of internal control structure policies and procedures that we have considered relevant to preventing or detecting material noncompliance with specific requirements, general requirements, and requirements governing claims for advances and reimbursements and amounts claimed or used for matching that are applicable to the City of Ville Platte, Louisiana's major federal accompanying schedule of Federal Financial Assistance. Our procedures were less in scope than would be necessary to render an opinion on these internal control structure policies and procedures. Accordingly, we do not express such an opinion.

We noted a certain matter involving the internal control structure and its operation that we consider to be a reportable condition under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the City's ability to administer federal financial assistance programs in accordance with applicable laws and regulations.

Inadequate Segregation of Accounting Functions

Finding:

Due to the small number of employees, the City did not have adequate segregation of functions within the accounting system.

Recommendation:

In order to properly safeguard assets, the City's officials should consider additional reassignment of present employee duties to achieve further segregation of accounting functions.

Response:

Although much improvement has been made regarding segregation of accounting functions, City officials are in the process of a complete evaluation of each HUD staff employees' present duties and will redistribute the various functions in order to complete a further segregation of accounting functions.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that noncompliance with laws and regulations that would be material to a federal financial assistance program may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure policies and procedures used in administering federal financial assistance would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessary disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we believe the reportable condition described above is a material weakness.

We also noted other matters involving the internal control structure and its operation that we have reported to the management of the City of Ville Platte, Louisiana in a separate letter dated August 28, 1996.

This report is intended for the information of management and the Department of Housing and Urban Development. However, this report is a matter of public record and its distribution is not limited.

Darnall, Sikes, Kolder, Frederick & Rainey

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, as of and for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996.

We have also audited the City of Ville Platte, Louisiana's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; claims for advances and reimbursements; and amounts claimed or used for matching that are applicable to its major federal financial assistance program, which is identified in the accompanying Schedule of Federal Financial Assistance, for the year ended June 30, 1996. The elected officials of the City of Ville Platte, Louisiana are responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit of compliance with those requirements in accordance with generally accepted auditing standards; <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Circular A-128, "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City of Ville Platte, Louisiana's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures did not disclose any immaterial instances of noncompliance with the requirements referred to above.

In our opinion, the City of Ville Platte, Louisiana complied, in all material respects, with the requirements governing types of services allowed or unallowed; eligibility, matching, level of effort, or earmarking; reporting; claims for advances and reimbursements; and amounts claimed or used for matching that are applicable to its major federal financial assistance program for the year ended June 30, 1996.

INDEPENDENT AUDITOR'S REPORT ON SCHEDULE OF FEDERAL FINANCIAL ASSISTANCE

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

We have audited the primary government financial statements of the City of Ville Platte, Louisiana, for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996. These primary government financial statements are the responsibility of the City of Ville Platte, Louisiana's elected officials. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards; <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and the provisions of Office of Management and Budget Circular A-128 "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the primary government financial statements of the City of Ville Platte, Louisiana taken as a whole. The accompanying Schedule of Federal Financial Assistance is presented for purposes of additional analysis and is not a required part of the financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

We have audited the primary government financial statements of the City of Ville Platte, Louisiana as of and for the year ended June 30, 1996, and have issued our report thereon dated August 28, 1996.

In connection with our audit of the primary government financial statements of the City of Ville Platte, Louisiana and with our consideration of the City's control structure used to administer federal financial assistance programs, as required by Office of Management and Budget (OMB) Circular A-128, "Audits of State and Local Governments," we selected certain transactions applicable to certain nonmajor federal financial assistance programs for the year ended June 30, 1996. As required by OMB Circular A-128, we have performed auditing procedures to test compliance with the requirements governing types of services allowed or unallowed, eligibility and review of contract rent and utility allowances that are applicable to those transactions. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the City of Ville Platte, Louisiana's compliance with these requirements. Accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures disclosed no material instances of noncompliance with the requirements listed in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the City of Ville Platte, Louisiana, had not complied, in all material respects, with those requirements. Also, the results of our procedures did not disclose any immaterial instances of noncompliance with those requirements.

This report is intended for the information of the management and the Department of Housing and Urban Development. However, this report is a matter of public record and its distribution is not limited.

SPECIAL REVENUE FUNDS

- 1975 Sales Tax Fund To account for the receipt and use of proceeds of the City's 1975 one percent sales and use tax. These taxes are dedicated to the following purposes: paying bonds; constructing, acquiring, improving and maintaining police and fire department stations and equipment; garbage and waste disposal facilities; streets, sidewalks, and drainage facilities; sewer and sewerage disposal works; park and pool facilities; and compensating firemen and policemen.
- 1984 Sales Tax Fund To account for the receipt and use of proceeds of the City's 1984 one percent sales and use tax. These taxes are dedicated to the following purposes: constructing, acquiring, extending, improving, operating and/or maintaining sewers and sewerage disposal works, including the purchase and acquisition of the necessary land and equipment therefor; and at least 5 percent of such tax annually for constructing, extending, improving and/or maintaining streets and sidewalks, after making provision for annual debt service on bonds which may be issued for the aforementioned purposes.
- City Court Fund To account for the City's portion of City Court fine income and expenses paid directly from the City's funds.
- Section 8 Housing Fund To account for the administration of grant funds received from the U. S. Department of Housing and Urban Development to provide rental assistance to low income persons.
- 1995 Louisiana Community Development Grant (LCDBG) To account for the administration of grant funds received from the State of Louisiana Division of Administration for street improvements.

INTERNAL SERVICE FUNDS

- Municipal Garage Fund To account for the financing of gas, oil and other materials necessary for the maintenance and repair of municipal vehicles and equipment. These materials and services are provided to the City's various departments on a cost-reimbursement basis.
- Construction Fund To account for construction and maintenance work performed on the gas, water, and sewerage systems of the City. Financing is provided by monthly charges to the Utility Fund.
- Self Insurance Fund To account for monies accumulated to provide self-insurance against the City's uninsured risk of loss for commercial group health insurance.

Notes to Financial Statements (Continued)

particular receivable. At June 30, 1996, an allowance for ad valorem taxes was considered unnecessary due to the immateriality of uncollected ad valorem taxes (see Note 3). The allowance for uncollectibles for customers' utility receivables was \$129,244 and \$81,922 at June 30, 1996 and 1995, respectively.

K. Bond Discount and Issuance Costs

Bond discount and issuance costs are being amortized over the life of the bond issue using the straight-line method.

L. <u>Capitalization of Interest Expense</u>

It is the policy of the City of Ville Platte to capitalize material amounts of interest resulting from borrowings in the course of the construction of fixed assets.

During the fiscal year ended June 30, 1996, there were no amounts of interest capitalized with construction projects.

M. Comparative Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative (i.e., presentation of prior year totals by fund type) data have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

N. Total Columns on Combined Statements - Overview

Total columns on the Combined Statements - Overview are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

O. Adoption of GASB Statement 27

During the year ended June 30, 1996, the City of Ville Platte adopted GASB Statement 27, Accounting for Pensions by State and Local Government Employees. Although this statement is effective for periods beginning after June 15, 1997, the Governmental Accounting Standards Board is encouraging early implementation.

Notes to Financial Statements (Continued)

- 5. Budgetary amendments involving the transfer of funds from one department, program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require the approval of the Board of Aldermen.
- All budgetary appropriations lapse at the end of each fiscal year.
- 7. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts are as originally adopted or as finally amended by the Board of Aldermen.

F. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City as an extension of formal budgetary integration in the funds.

G. Interest-Bearing Deposits

Interest-bearing deposits are stated at cost, which approximates market.

H. Statement of Cash Flows

For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

I. <u>Inventories</u>

Inventory in the Utility Fund, which consists of supplies and parts, is valued at the lower of cost (first-in, first-out) or market. Inventory in the Municipal Garage Fund, which includes gas and diesel, is valued at cost.

J. Bad Debts

Uncollectible amounts due for ad valorem taxes and customers' utility receivables are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the

Notes to Financial Statements (Continued)

the year for which budgeted, that is, in the year in which such taxes are billed to taxpayers. Other major revenues that are considered susceptible to accrual include earned grant revenues and other intergovernmental revenues, charges for services and interest on interest-bearing deposits. Franchise fees, licenses and permits, and fines are recognized when received because they are not objectively measurable.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except that accumulated unpaid vacation and sick pay are not accrued and principal and interest on general long-term debt are recognized when due. Purchase of various operating supplies are regarded as expenditures at the time purchased.

All proprietary funds are accounted for using the accrual basis of accounting whereby revenues are recognized when they are earned and expenses are recognized when incurred. Unbilled utility service receivables, resulting from utility services rendered between the date of meter reading and billing and the end of the month, are recorded at year end.

E. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The City Clerk prepares a proposed operating budget for the fiscal year and submits it to the Mayor and Board of Aldermen not later than fifteen days prior to the beginning of each fiscal year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of a resolution prior to the commencement of the fiscal year for which the budget is being adopted.

Notes to Financial Statements (Continued)

not to capitalize public domain ("infrastructure") fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems. The expenditures for infrastructure during the current year were \$708,054. No depreciation has been provided on general fixed assets.

All purchased fixed assets are stated at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are stated at their estimated fair market value on the date donated. Estimated amounts are immaterial in relation to total fixed assets.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus, and all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets.

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings	20 - 30 years
Utility System and Improvements	10 - 50 years
Equipment	3 - 10 years

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets.

Sales taxes are considered as "measurable" when received by the City from the Sales Tax Collector and are recognized as revenue at that time. Ad valorem taxes are recognized as revenue in

Notes to Financial Statements (Continued)

Proprietary Funds -

Enterprise funds

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The City applies all applicable FASB pronouncements issued after November 30, 1989 in accounting and reporting for its enterprise fund. The City of Ville Platte's enterprise fund is the Utility Fund.

Internal service funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

Fiduciary Funds -

Agency funds

Agency funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. <u>Fixed Assets and Long-Term Liabilities</u>

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus.

All governmental funds are accounted for on a spending or "financial flow" measurement focus, and only current assets and current liabilities are generally included on their balance sheets.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group and are recorded as expenditures in the governmental fund types when purchased. The City has elected

Notes to Financial Statements (Continued)

B. Fund Accounting

The accounts of the City of Ville Platte are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into seven generic fund types and three broad fund categories as follows:

Governmental Funds -

General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special revenue funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

Debt service funds

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital projects funds

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Notes to Financial Statements

(1) Summary of Significant Accounting Policies

The City of Ville Platte (City) was incorporated under the provisions of the Lawrason Act. The City operates under a Mayor-Board of Aldermen form of government.

The accounting and reporting policies of the City of Ville Platte conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the industry audit guide, <u>Audits of State and Local Governmental Units</u>.

The following is a summary of certain significant accounting policies:

A. The Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. These financial statements report only the City of Ville Platte, the primary government and do not include two component units identified as follows:

City Marshal -

The City Marshal is controlled by the City Marshal, who is an independently elected official. The City Marshal is included as part of the operations of the City Court System. The City Court System is fiscally dependent on the City of Ville Platte for office space and courtrooms.

City Court -

The City Court is controlled by the City Court Judge who is an independently elected official. The City Court is included as part of the operations of the City Court System. The City Court System is fiscally dependent on the City of Ville Platte for office space and courtrooms.

Notes to Financial Statements (Continued)

(2) Cash and Interest-Bearing Deposits

Under state law, the City may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The City may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 1996, the City has cash and interest-bearing deposits (book balances) totaling \$8,235,427 as follows:

Total	\$8,235,427
Money market accounts Time deposits	4,265,969 <u>2,871,545</u>
-	• • • •
Demand deposits	\$1,097,913

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at June 30, 1996, are as follows:

Bank balances	<u>\$8,385,958</u>
At June 30, 1996 the deposits are secured as follows:	
Federal deposit insurance Pledged securities (Category 3)	\$ 606,317 <u>7,779,641</u>

Total \$8,385,958

Pledged securities in Category 3 includes uninsured or unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent, but not in the City's name. Even though the pledged securities are considered uncollateralized (Category 3) Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the City that the fiscal agent has failed to pay deposited funds upon demand.

The accompanying notes are an integral part of this statement.

However, the primary government financial statements, because they do not include the financial data of component units of the City of Ville Platte, Louisiana, do not purport to and do not present fairly the financial position of the City of Ville Platte, Louisiana as of June 30, 1996, and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated August 28, 1996 on our consideration of the City of Ville Platte, Louisiana's internal control structure and a report dated August 28, 1996 on its compliance with laws and regulations.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying financial information listed as "Supplemental Information" in the table of contents is presented for purposes of additional analysis and is not a required part of the primary government financial statements of the City of Ville Platte, Louisiana. Such information, except for that portion marked "unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

The financial information for the preceding year which is included for comparative purposes was taken from the financial report for that year in which we expressed a qualified opinion on the primary government financial statements of the City of Ville Platte, Louisiana due to the inability to determine the accuracy of the general fixed assets acquired prior to July 1, 1973.

INDEPENDENT AUDITOR'S REPORT

The Honorable Bennett Baquet, Mayor, and Members of the Board of Aldermen City of Ville Platte, Louisiana

Eugene H. Darnall, CPA 1990

We have audited the accompanying primary government financial statements of the City of Ville Platte, Louisiana, as of and for the year ended June 30, 1996, as listed in the table of contents. These financial statements are the responsibility of the City of Ville Platte, Louisiana's elected officials. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards; <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and the provisions of Office of Management and Budget Circular A-128, "Audits of State and Local Governments." Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Records reflecting the source from which general fixed assets were acquired and other necessary details were not maintained prior to July 1, 1973, and records for those years have not been reconstructed and updated. Consequently, we have been unable to determine the accuracy of the amounts reported as General Fixed Assets and express no opinion on the accompanying Statement of General Fixed Assets as of June 30, 1996.

A primary government is a legal entity or body politic and includes all funds, organizations, institutions, agencies, departments and offices that are not legally separate. Such legally separate entities are referred to as component units. In our opinion, except for the effects, if any, of the matter explained in the preceding paragraph, the primary government financial statements present fairly in all material respects, the financial position of the primary government of the City of Ville Platte, Louisiana, as of June 30, 1996 and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

MANAGEMENT LETTER

The Honorable Bennett Baquet, Mayor and Members of the Board of Aldermen City of Ville Platte, Louisiana

During our audit of the financial statements of the City of Ville Platte for the year ended June 30, 1996, we noted certain areas in which improvements in the accounting system and financial practices of the City should be considered. Items 1, 3 and 4 were also included in our management letter dated August 28, 1995 relative to our audit of the June 30, 1995 financial statements, but are mentioned again for reemphasis.

- The City should more closely adhere to the Utility Bond (1)Resolution Covenant requiring a written policy regarding proper collection of delinquent accounts, assessment of late payment penalties and timeliness of utility service cut-offs. accounts receivable listing should be closely monitored and aggressive action taken regarding non-payment of bills.
- Fire and police department officials should maintain a monthly (2) time sheet on each employee detailing dates, regular and overtime hours worked, K-time hours, and holiday, vacation, and sick leave. The time sheet should be signed by the employee on a daily basis and approved by the appropriate official. Copies of the time sheets should be forwarded to City Hall for approval and payment.
- Although there has been improvement in the area of collections, (3) utility tellers should continually strive for accuracy in collection and posting of payments on utility accounts receivable. In order to reduce the amount of cash overages and shortages, daily cash reconciliation reports prepared by the tellers should be closely monitored by the utility department supervisor.

GEORGE 14 AM 8: 43

CITY OF VILLE PLATTE, LOUISIANA

Financial Report

Year Ended June 30, 1996

under provisions of state law, this report is a public document. A copy of the report has been submitted to the audited, or reviewed, entity and other appropriate public officials. The report is available for public inspection at the Baton Rouge office of the Legislative Auditor and, where appropriate, at the office of the parish clerk of court

Release Date MOV 27 1996

Recommendation:

The City of Ville Platte should adhere to the bond resolution covenant requiring a written policy regarding collection of delinquent accounts, assessment of late payment penalties and disconnection of services. Once the written policy is established, city officials should ascertain that the policy is strictly enforced.

Response:

The City of Ville Platte will establish the written collection policy and will adhere to the policy as required by the bond resolution covenant.

Violation of the Fair Labor Standards Act

Finding:

The City of Ville Platte violated Section 553.230 of the Fair Labor Standards Act requiring overtime payment for police officers for hours worked in excess of 171 hours per work period.

Recommendation:

The City should comply with Section 553.230 of the Fair Labor Standards Act regarding overtime payment for police officers.

Response:

In the future, the City will comply with Section 553.230 of the Fair Labor Standards Act.

We considered these instances of noncompliance in forming our opinion on whether the City of Ville Platte, Louisiana's primary government financial statements are presented fairly, in all material respects, in conformity with generally accepted accounting principles, and this report does not affect our report dated August 28, 1996, on those primary government financial statements.

This report is intended for the information of management. However, this report is a matter of public record and its distribution is not limited.

Notes to Financial Statements (Continued)

(3) Ad Valorem Taxes

Ad valorem taxes attach as a enforceable lien on property as of January 1 of each year. Taxes are levied by the City in September or October and are actually billed to taxpayers in December. Billed taxes become delinquent on January 1 of the following year. The City bills and collects its own property taxes. Property tax revenues are recognized when levied to the extent that they result in current receivables.

For the year ended June 30, 1996, taxes of 20.39 mills were levied on property with assessed valuations totaling \$21,842,570 and were dedicated as follows:

General corporate purposes	6.83	mills
Drainage maintenance	4.88	mills
Streets maintenance	4.88	mills
Debt service	<u>3.80</u>	mills
Total	20.39	mills

Total taxes levied were \$445,370. Taxes receivable at June 30, 1996 were \$673.
