CONCORDIA PARISH AIRPORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 1996

NOTE 1 - INTRODUCTION

The Concordia Parish Airport Authority was established by Louisiana Revised Statute 2:882 for the purpose of operating and maintaining airport facilities in Concordia Parish. The Airport Authority is governed by a board of five commissioners who are appointed by the police jury. The board is responsible for maintaining and operating the Concordia Parish Airport in order to provide residents of the parish with airport facilities. Members of the board of commissioners serve without compensation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation - The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity - As the governing authority of the parish, for reporting purposes, the Concordia Parish Police Jury is the financial reporting entity for Concordia Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Concordia Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the police jury to impose its will on that organization and/or

- b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints a voting majority of the Airport Authority's commissioners and said board is fiscally dependent on the police jury, the Airport Authority was determined to be a component unit of the Concordia Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the Airport Authority and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

C. Fund Accounting - The Airport Authority uses a fund and an account group to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

The General Fund of the Airport Authority is classified as a governmental fund. The General Fund is the principal fund for the authority and accounts for its financial operations.

D. Basis of Accounting - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The General Fund is accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The operating statement of the General Fund presents increases and decreases in net current assets. The modified accrual basis of accounting is used by the General Fund. The General Fund uses the following practices in recording revenues and expenditures:

Revenues - Grants from Concordia Parish Police Jury and others are recorded when received. All other revenues are recorded when earned.

Expenditures - Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. Budgets - A preliminary cash basis budget for the ensuing year is prepared by the manager prior to December of each year. During December, the Airport Authority board revises the proposed budget and makes changes as it deems appropriate. The budget is then adopted during the board's regular December meeting. The board of commissioners reserves all authority to make changes to the budget.

Budgeted amounts included in the accompanying financial statements include the original adopted budgets and all subsequent amendments. Appropriations lapse at year end. The following reconciles the excess (deficiency) of revenues over expenditures shown on page 6 (cash basis) with the amount shown on page 4 (GAAP basis):

Excess (deficiency) of revenues over expenditures (cash basis)	(\$1,362)
Adjustment for:	
Revenue accruals	882
Expenditure accruals	981
Excess (deficiency) of revenues over expenditures (GAAP basis)	\$ 481

F. Encumbrances - Encumbrance accounting, under which purchase orders are recorded in order to reserve that portion of the applicable appropriation, is not employed in the Airport Authority's accounting system.

G. Cash - Cash includes amounts in petty cash and interest bearing demand deposits accounts. Under state law, the Airport Authority may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

H. Inventories - Inventories are valued at the lower of cost or market (first-in, first-out). Inventories consist of expendable fuel held for consumption and is accounted for by a perpetual inventory system. Expenditures are recognized when the fuel is consumed.

I. Fixed Assets - Fixed assets are recorded as expenditures at the time purchased or constructed and the related assets are capitalized (reported) in the general fixed assets

account group. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. Fixed assets are valued at historical cost or estimated historical cost, using the current cost for like items, if historical cost is not available. Approximately 33 percent of the fixed assets are valued at estimated cost.

J. Compensated Absences/Pensions - The Concordia Parish Airport Authority has only one full-time employee. The Airport Authority has an informal policy regarding vacation and sick leave. The full-time employee is allowed one week of vacation leave and one week of sick leave each year. This leave cannot accumulate from one year to the next and is not paid at termination.

K. Total Column on Balance Sheet - The total column on the balance sheet is captioned Memorandum Only to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

NOTE J - CASH

At December 31, 1996, the Airport Authority has cash (book balances), totaling \$723, as follows:

petty cash	\$ 426
interest bearing demand deposits	<u> 298</u>
Total	<u>\$ 723</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At December 31, 1996, the Airport Authority has \$1,917 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance.

NOTE 4 - RECEIVABLES

The following is a summary of receivables at December 31, 1996:
