result of no budget being prepared, a combined statement of revenues, expenditures and changes in fund balances-budget (GAAP basis) and actual is not presented.

F. PER DIEM

There were no per diem amounts paid to the members of the governing board.

G. CASH AND CASH EQUIVALENTS AND INVESTMENTS

For reporting purposes, cash and cash equivalents include amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Under state law, the library may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the library may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. The Iberia Parish Law Library had no investments as of December 31, 1996.

1. CASH AND CASH EQUIVALENTS

As December 31, 1996, the library had cash and cash equivalents (book balances) totaling \$291, as follows:

Demand Deposits	\$ 291
Total	\$ 291

These deposits are stated at cost, which approximates market. Under state law, these deposits for the resulting bank balances must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding of custodial bank that is mutually acceptable to both parties. As December 31, 1996, the library has \$291 in deposits (collected bank balances). These deposits are fully secured from risk by federal deposit insurance.

Notes to the Financial Statements (Continued)

Funds of the library are classified as governmental funds. Governmental funds account of the library's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the library include:

General Fund

The General Fund was established in compliance with Louisiana Revised Statute 25:293 which provides that one dollar of the initial cost of docketing civil suits be remitted to the commission to defray the necessary expenses of the library.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The commission's records are maintained on a cash basis of accounting. However, the funds reported in the accompanying financial statements have been converted to a modified accrual basis of accounting using the following practices in recording revenues and expenditures:

Revenues

Revenues are recorded in the year they are collected from the Clerk of Court and the Criminal Court.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Other Financial Sources (Uses)

Transfers between funds that are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses).

E. BUDGETARY PRACTICES

The expenditures of the commission were substantially below the level mandated by law requiring formal budget adoption. As a

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Iberia Parish Council for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish council to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish council.
2. Organizations for which the parish council does not appoint a voting majority but are fiscally dependent of the parish council.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the parish council meets the criteria listed previously, the library was determined to be a component unit of the Iberia Parish Council, the governing body of the parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the library and do not present information on the parish council, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

C. FUND ACCOUNTING

The library uses funds to report on its financial position and the results of its operations. Fund accounting is designated to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues and expenditures.

Notes to the Financial Statements

INTRODUCTION

The Iberia Parish Law Library Commission was established by the parish governing authority under the provisions of Louisiana Revised Statute 25:211. The library provides citizens of the parish access to library materials, books, magazines, records and films. The library is governed by a board of control which is appointed by the parish council in accordance with the provisions of Louisiana Revised Statute 25:214. The members of the board of control serve without pay.

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. In November of 1984, the GASB issued a codification of governmental accounting and financial reporting standards. This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local government.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying component unit financial statements of the Iberia Parish Law Library Commission have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Iberia Parish Council is the financial reporting entity for Iberia Parish. The financial reporting entity consists of (a) the primary government (parish council) (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.
