DISTRICT NO. 10
ST. TAMMANY PARISH POLICE JURY
Baton Rouge, Louisiana
NOTES TO THE FINANCIAL STATEMENTS**

INTRODUCTION

St. Tammany Parish Fire Protection District No. 10 was created by the St. Tammany Parish Police Jury as provided by Louisiana Revised Statute 40:1483. The fire district is responsible for fire protection in the Village of Sun and the surrounding areas. The administration of the fire district is governed by a Board of Commissioners consisting of five members. Two members are appointed by the St. Tammany Parish Police Jury and two by the Village of Sun. The fifth member is elected by the other four members and serves as Chairman. The members serve terms of two years without compensation. Vacancies are filled by the bodies making the original appointments.

The district operates one fire station. All fire prevention and protection services are provided by volunteers.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PRESENTATION

The accompanying general purpose financial statements of the St. Tammany Parish Fire Protection District No. 10 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

2. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the St. Tammany Parish Police Jury is the financial reporting entity for St. Tammany Parish. The financial reporting entity consists of (a) the primary government (Police Jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Governmental Accounting Standards Board Statement No. 10 established criteria for determining which component units should be considered part of the St. Tammany Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- a. Appointing a voting majority of an organization's governing body, and
 1. The ability of the police jury to impose its will on that organization and/or
 2. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- b. Organizations for which the police jury does not appoint a voting majority but are financially dependent on the police jury.
- c. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints a voting majority of the governing board and has the ability to impose its will on them, the district was determined to be a component unit of the St. Tammany Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

3. FUND ACCOUNTING

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly effect net expendable available financial resources.

Funds of the district are classified as governmental funds. Governmental funds account for the district's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the district include:

- a. General Fund - the general operating fund of the district accounts for all financial resources, except those required to be accounted for in other funds.

4. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a CURRENT financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental funds. The governmental funds use the following practices in recording revenues and expenditures:
